Shall American readers gorge themselves with Sunday supplements while Canadian readers starve for daily newspapers because American publishers demand the paper and are willing to pay a bigger price for it? This question is asked by some journals of the Dominion in connection with the stopping of publication of more than one hundred Canadian newspapers for lack of paper. American newspapers publish on Sunday and carry on all days much more advertising, under special present conditions, than do Canadian newspapers. The result is that American buyers can afford to pay higher prices, which Canadian manufacturers are naturally not loath to receive. At first the Ottawa Government tried to regulate export and fix prices of paper for home consumers. But this procedure has been followed by a less drastic and more workable one. Exports of paper from Canada are allowed, but the Canadian press must not be deprived of necessary newsprint. The matter is a complicated one that the Government seems decided to have the manufacturers and the publishers disentangle for themselves. Justification of the government-control method is voiced by the Brantford Expositor, which avers that "it would be clearly an injustice to the people of Canada to allow the resources of this country, in this regard, to be exploited for the benefit of American newspapers, to the detriment of Canadian interests." An indication of the American demand is found in the fact that, "one American newspaper is importing from Canada an amount equal to 65 per cent. of the total consumption of Canadian newspapers." The Moose Jaw Evening Times also charges that "behind the whole trouble are the enormous prices paid for newsprint in the United States, and the unprecedented demand for this, the cheapest grade of paper made." If American newspapers are able and willing to pay for Canadian newsprint prices that threaten the existence of the daily and weekly Canadian press, remarks the Port Arthur News-Chronicle, "the consequence for Canada will be the nature of a national calamity."

But sharp opposition to the initial action of the Government appears in the Montreal Gazette, which says:

"It is asserted that Government intervention was made necessary because Canadian paper-makers refused to supply Canadian publishers, preferring to export the whole of their product to the United States. That statement lacks the essential element of truth. What two paper companies have declined to do is to supply Canadian publishers with newsprint at less than fair market value, a very different thing. This we say notwithstanding that the Gazette is a large consumer of newsprint, has no financial interest in the paper-making industry, and desires to obtain its newsprint at a low cost that may be carried on to the benefit of its readers. If the Government will put an end to the Paper Controller and all his works, the difficulty will quickly be overcome. When they cease to be pap-fed, the newspapers will stand upon their feet, and no longer will there be talk of shortage of newsprint or suspension of publication."

No Cross Benches.

That picturesque feature of the temporary House of Commons—the cross benchers—will be missed when Parliament assembles in the new buildings. The layout of the chamber makes no provision for seats in the gangway.

The "cross benchers" party which numbers at least a dozen and with prospects of being augmented by a number of waverers, will either sit at the extreme end of the right side or, more probably go to a corner of the Opposition benches. The chamber is now being fixed up and temporary desks are being made for the members.

The latest alignment of the parties, according to the Parliamentary guide, is as follows:

Conservative Unionists	15
Straight Conservatives	81
Liberal Unionists	31
Liberal	83
Cross-benchers	12
Pure Unionists	8
Labor	1
Vacancies	3
Total	234

Power of the Tides.

We are accustomed to look upon the tides as representing enormous unutilized power. If we could only put them to work, they would run all the machinery in the world.

But is this true?

Undoubtedly — if we could put them to work on a scale sufficiently great. But that this will ever be practicable, economically, is declared doubtful.

Engineers who have made a study of the subject say that one acre of water rising and falling ten feet would yield only four horsepower. Taking into view cost of plant, that could never pay.

They say that tidal power would be worth developing only in a few localities — perhaps in the Bay of Fundy, where tides rise and fall seventy feet; in Cook's inlet, fifty feet; at Eastport, Me., eighteen feet. But these places are too far away from industrial centres.

Ole the Bear.

Ole the Bear (A. R. Westerberg), mail carrier between Revelstoke, B.C., and Downie Creek, forty-five miles up the Big Bend, succeeded in accomplishing a feat that establishes a new record in this district. The great depth of snow up the Big Bend, together with the heavy crust caused by raining and freezing, made it practically impossible for a horse to travel the roads, but Ole conceived the idea of making snowshoes for his horse, which he did out of birch, constructing them circular in shape and more than a foot across. For protection he covered the horse's leg with blankets, and thus he succeeded in making Revelstoke in three days without harm to himself or horse.

It is as easy for you to please everybody as it is for everybody to please you.

Feet That Never Touch the Floor

A worn floor spoils the look of your home and is impossible to repair, but if you keep your floors painted, feet cannot touch them. Let the paint wear but save the wood. Save the Surface and you Save all.

MARBLE-ITE FLOOR FINISH
If your floors are hardwood,
Use Marble-Ite
The Floor finish with a money-back guarantee. It wears and wears and wears. It will not mar nor scratch white and is not affected by water.

SENOUR'S Floor Paint
is easy to use, dries very hard with a high lustre and will withstand a great amount of hard wear. No skill is required in using SENOUR'S FLOOR PAINT. Anyone can apply it. The result will greatly enhance the beauty of your home and much labor will be saved for the floors will be very easy to keep clean.

Come in and let us give you full particulars. We have a full range of shades in this and every other MARTIN-SENOUR Product. There is a MARTIN-SENOUR Paint or Varnish for every need. We will be glad to advise you.

The Men Who Made The Mutual

"In no one thing has the Mutual Life of Canada been more blessed than in having its destinies directed by men whose single-mindedness and honesty of purpose have never been excelled."—Hume Cronyn, M.P.

CERTAINLY the foundations of the company were laid in sacrifice and the exceptional ability of the builders of the Mutual is shown in the results of their work—a company established upon an unshakeable financial basis having a membership of nearly 70,000; assets of over $38,000,000 and assurances in force of more than $170,000,000.

The late Wm. Hendry

These men have won for the Mutual an unqualified confidence on the part of the people of Canada, the result being that to-day the company is expanding at an unprecedented rate. Many years were occupied in organizing and equipping the army of mutualists, but now the results are being seen in an irresistible—

advance all along the line.

Mr. Hendry came from Scotland when a child and in his early years in the new Ontario settlements experienced hardships that toughened his will power for the work of his life—the building of the Mutual.

After some preliminary training he joined the Mutual Life in 1870 and it is largely due to his untiring, even sacrificial devotion that the company has attained its present fine position in the insurance world.

Mr. Hendry communicated to every one about him an enthusiasm for the Mutual and jealousy of its good name, maintaining throughout his career the highest ideals of honor and integrity.

His Influence Has Proven Imperishable

The Standard of Motor Car Value

Everywhere, now, you find cars compared with the Gray-Dort for value.

Because the Gray-Dort has become the standard—a new and higher standard—giving more for the money than ever was given before—and setting new standards of strength and quality for light cars.

Here's What You Get in the Gray-Dort at $1365 (plus war tax) Compare it with Other Cars.

The Gray-Dort Motor is big, and finely built, like a watch. 40 pound crankshaft; non-warping, quiet valves; light, *three*-ringed pistons; Carter carburetor, Connecticut ignition, Westinghouse starting and lighting; cellular radiator and big water jackets.

The leadership of the Gray-Dort motor is paralleled by the leadership of the Gray-Dort chassis. Here is a strong, solid frame of heavy channel steel; a big, husky rear axle, designed and built exclusively for us here in Chatham; Chatham-built springs, full cantilever in the rear; big brakes, with Thermoid lining; a new steering gear, 50% bigger and stronger than has been used for light cars; a big gas-tank in the rear, with vacuum feed system.

Nothing can take away your pride in the smooth, flowing lines of your Gray-Dort. No other car can equal the wonderful Gray-Dort finish, which we have spent 60 years in developing.

And there is the smart, new top, hand-tailored in our own shops; French-pleated upholstery; a new hood, with many long, narrow louvres; snug side-curtains, which open with the doors; a shorter, smarter cowl which gives more room in the driving compartment; seats tilted at the most comfortable angle; increased leg-room in the tonneau; lamps raised to give size to the front of the car.

Once you know the Gray-Dort, you will be too critical to accept any other light car. There will be thousands who will agree with you—probably several thousand more purchasers than there will be Gray-Dorts. We urge you to see the Gray-Dort dealer now.

Prices

The Gray-Dort 5-passenger car, finished in Gray-Dort green and black and with standard equipment is $1365 f.o.b. Chatham. War tax extra.

The roomy 2-passenger roadster is the same price.

The Gray-Dort Special

For the man who wishes something a little extra in his car, we have built the Gray-Dort Special. Maroon body; with brown raynite top. Plate glass rear window. Gipsy curtains. Rookie tan wheels. Motometer. Tilting steering wheel. Real leather upholstery. Mahogany instrument board. Just the touches which lift this car above the ordinary. $150 extra on the standard.

And the Ace!

The Gray-Dort Ace—the most beautiful light car of to-day. Sapper green body with handsome California top to match.

Trouble lamp and bulls-eye flashlight. Electric cigar lighter. Rear-vision mirror. Plate glass windows. Oversize grooved-tread tires. This is the *de luxe* car for the man who does not wish to pile up a tremendous operating cost. $255 extra on the standard.

NIAGARA FRUIT MEN OPPOSE RECIPROCITY

St. Catharines, March 12.—The fruit farmers of the Niagara fruit belt find themselves in an uncertain state with reference to the United Farmers' policy in favor of lower tariff and reciprocity with the United States, as laid down by President Crerar. Should a Dominion election be called soon it would find the counties of Lincoln, Welland, Wentworth and Haldimand in a much divided situation with reference to fruit because they state that it would ruin their business if United States fruit were allowed to come into Canada free. At the same time, some of the fruit-growers could see no objection to strawberries, for instance being admitted free before the Ontario home-grown berries are ripe.

However, it is certain that there will have to get some very definite understanding regarding the United Farmers' policy on fruit tariff before Niagara District farmers will agree to support the United Farmer candidates And as the United Farmers in this country have turned down an offer for support from the Independent Labor party, there are likely to be interesting developments and an over-supply of candidates should an election be called soon. The Independent Laborites intend to put up a man, they say in spite of the attitude of the United Farmers in declining Labor support.

GIVE ALL YOUNG MEN PHYSICAL TRAINING

Ottawa, March 12—Physical training for all men in Canada between the ages of 18 and 25 year sis urged by H. M. Mowat, member for Parkdale, in a resolution before the Commons. The resolution adds:

"And that, in the opinion of this House, national service should be universal in a democracy and not left to whim or preference, and that a volunteer system tends to produce class feeling that is unfair;

"And that it is expedient to curtail the customary expenditure for military purposes, and that the Government of Canada, should, as soon as may be, cease to employ or maintain a permanent or standing army; and that when a sufficient number of young men have been trained they be formed into reserve for defense purposes, and that no pay be given other than for subsistence and separation allowances, together with a reasonable sum for pocket money and comforts

After a Day's Hard Work Drink O'KEEFE'S

YOU come home after a day's hard work tired and cold—may be depressed: what better than a cheerful fire, congenial companionship and a glass of O'KEEFE'S BEER to banish weariness and the blues.

O'Keefe's IMPERIAL ALE, STOUT AND LAGER put life into tired, aching limbs. Mildly stimulating, their tonic and food properties act as an antidote to the worries of the day, enabling you to enjoy your evening's rest, your paper and your pipe.

O'KEEFE'S Beverages are pure, wholesome and delicious—the result of scientific blending of nature's gift—malt and hops.

Drink O'KEEFE'S always.

Your Grocer or Dealer will Deliver You a Case —ask him TO-DAY!

Your Hard-working Heart.

The human heart beats seventy-two times a minute, one hundred and four thousand times a day, thirty-eight million times a year. If a person lives up to his seventieth year his heart-beats—estimated according to the various averages during life—will approximate three billion beats.

At every heart-beat of an adult about five cubic inches of blood is forced out from each of the ventricles into the lungs and into the rest of the body.

In other words, with every stroke of this bodily pump about ten cubic inches of blood is expelled from the heart, which amounts to forty-three cubic inches in an hour and to a million cubic inches in a day.

As an illustration of the work done by the heart, the powerful pump of the left ventricle performs during twenty-four hours an amount equal to raising a weight of one ton to the height of eighty-two feet.

Care of Plants In Winter.

Water growing pot plants only when they need it, then water them thoroughly. When the soil begins to get dry and powdery on the surface, or when the pot is tapped with the knuckles or a knife handle and it emits a ringing sound, the plant requires water. Give sufficient water so that it runs out through the bottom of the pot. Water plants in the morning in cold weather, not at night. Use tepid rain water, or water that has been exposed to air and sun for a day or two, if possible. The water should be lukewarm, about 50 to 60 degrees F. in winter.

Humidity in the atmosphere is one of the main requirements to be successful with plants indoors. Place pans or saucers of water on the heaters or registers. A steaming kettle or pot of water on the stove is a great help in this respect.

When the pots become full of roots, or where the soil is poor, worn out or exhausted, liquid fertilizers can be given plants. The soil should be moist, not dry, or very wet, when the fertilizer is applied. There are several good plant foods sold at seed stores. "Sterling Worth Plant Tablets" or "Bonora" are both good. Half an ounce of nitrate of soda dissolved in a little warm water first, and cold water added to make one gallon, also makes a fairly good fertilizer for pot plants. Apply once every week or ten days.

Spraying with water will help keep down insect pests. A fine spray thoroughly applied to all parts of the plant is necessary to be effective. Plants having very rough hirsute foliage, should not be sprayed or sponged, especially in winter, only the plants having glossy, glabrous foliage. Insect pests increase and thrive best in a dry, warm atmosphere. For aphis or green lice, white fly, red spider and thrip, "Sulpho-Tobacco Soap" is a good remdy. Black Leaf 40 is also a good remedy for most insect pests on house plants. Soapy water or a solution of whole oil soap and tobacco water are beneficial for scale insects on plants.

Slake about one-half pound of fresh lime in a pail of water, allow it to settle. Give about a teacupful of this solution once or twice to each plant suffering from earth worms.

Put frozen plants in a dark place at once, temperature about 45 degrees F. Do not touch the leaves. Sprinkling with ice cold water is beneficial.—W. Hunt, O. A. College, Guelph.

Heydey of the Muskrat.

The modest muskrat has at last obtained his proper meed of appreciation. His coat, the "Hudson seal" of commerce, has become the most fashionable of furs, and costs just about treble the price that it fetched before the war.

For the latter fact there is another reason, viz., that the extraordinary cold of winter before last froze multitudes of muskrats to death, thereby reducing very largely the available supply of the animals.

The value of the muskrat to-day seems strange to many a middle-aged Canadian who trapped these little animals, about a quarter of a century ago, when he was a lad attending high school, and received from 10 to 25 cents per skin.

Some muskrats are stream-dwellers, and make their homes in burrows in the banks thereof. But mostly they live in swamps, and build for themselves houses of twigs and refuse vegetation two or three feet high. The house has a hole, for entrance and exit, beneath the surface of the water, and in winter time the occupants make their way out under the ice to look for water-lily roots, mollusks or other food.

In the winter before last, however, the ice over many marsh areas froze right down to the bottom, so that the poor rodents, unable to get food, starved to death.

A muskrat is nearly as big as a fair-sized cat. It "molts" in summer, shedding its hair, and its new peltage is not well grown until early in the following year. Skins taken in February and March (known to the trade as "spring" pelts) are in best condition and fetch the highest price.

About seventy skins are required to make one of those long and beautiful coats that are so much admired nowadays. But the average person who buys a muskrat coat does not realize that one may be worth more than twice as much as another, even when the two are fashioned exactly alike. How far this is true may be judged by the prices paid for skins at the great annual fur auction in St. Louis last September. On that occasion 552,396 muskrat pelts were sold in wholesale lots at $2 apiece for "fall" skins, $3.05 for "springs," $3.60 for "spring dark," $3.90 for "spring, extra large" and $5.10 for "spring extra large and dark."

The Groundhog.

Nobody knows where the groundhog got its "rep" as a weather forecaster, but belief in its powers in this regard seems to be very ancient.

It is a kind of marmot (therefore related to the prairie dog) and makes its home in a burrow twenty or thirty feet long, which descends obliquely four or five feet, and then gradually rises to a large round chamber, where the groundhog family sleeps and brings up the young ones.

In the daytime the wood chuck (as it is otherwise called) never goes far from its burrow. When angry or alarmed it makes a chattering noise, or sometimes utters a shrill whistle. Its bite is severe, and it will make a desperate fight against a dog.

Loss Of Strength Through Indigeston

The Stomach Can Only do Its Work When the Blood is Rich and Red

Indigestion means loss as well as suffering to many people. Loss of strength, loss of time and loss of money follows indigestion and debility continues as long as the indigestion remains. Workers suffer from indigestion because their hours are long, and often they cannot give proper time to meals. Then the appetite becomes fickle, digestion becomes feeble and the blood becomes impoverished. So the general health suffers, langour, nervous troubles and often sleeplessness follows. It is well to remember that the whole system relies upon good blood and that good blood is impossible unless the digestion is good.

The stomach cannot do its work unless the blood is made rich and red, and so new blood alone can cure indigestion. It is for this reason that a remedy like Dr. Williams Pink Pills which makes new, rich blood, cures indigestion and builds up the whole system. The great value of Dr. Williams Pink Pills in cases of this kind is proven by the statement of Mr. R. E. Small, Wingham, Ont., who says:—"The truthfulness of my statement can be proven by scores of my friends and acquaintances. I am a glove cutter by trade and for six long years, have at times been a sufferer from complication of ill chiefly due to indigestion. Gas would accumulate on the stomach causing me great pain. I would bloat up at times and almost suffocate, and often when at work would be overcome by a drowsy oppression which was almost indescribable. Finally I began the use of Dr. Williams Pink Pills, and after taking seven boxes I feel like a new man. The transformation they have made in me is simply remarkable, and while using them I gained thirteen pounds in weight. I may add that I began the use of Dr. Williams Pink Pills as a result of what they did for a niece who underwent a critical operation, and who did not regain her strength until she started using the pills. In her case they fully restored her health and this encouraged me to begin their use, with, as I have already said, a complete restoration of health in my own case."

You can get Dr. Williams Pink Pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Sugar Bearing Trees.

Prof. John Davidson's discovery of a rare specimen of sugar, scientifically known as melezitose, in a limited area in British Columbia, on leaf tips of Douglas fir trees is arousing considerable interest throughout that province. Previous to its discovery by the head of the department of botany in the British Columbia University, melezitose was obtained only in Turkestan and Persia.

Prof. Davidson first heard of the strange phenonmenon in 1914. Stories had come from the interior telling of large gatherings of Indian tribes, who, during the summer would hold pow-wows for a month or more, depending on plants for their food. Answers which Prof. Davidson received regarding his enquiries as to what plants were eaten by the Indians, so aroused his curiosity that he decided to explore the upper country. While he was preparing for this trip he received a specimen of Douglas fir sugar from James Teit of Spence's Bridge, who said that Indians in his district had used it many years for food. Immediate investigations were made by Prof. Davidson, who was surprised to find that no previous record had been made of the existence of Douglas fir sugar. The professor says that the sugar cannot be relied on as an annual crop, as some years it is abundant, other years very little is found.

The region in which the sugar-bearing firs are most abundant includes the driest and hottest part of the British Columbia dry belt, namely, Thompson Valley, west of the mouth of the Nicola river, near the junction of the Thompson and Fraser rivers, including Lytton and above Lillooet in the Fraser Valley, Spence's Bridge, Kamloops, Savona, Nicola and Similkameen valleys, and is said to be in the southern portions of the Okanagan Valley.

When asked about the commercial possibilities of the discovery, Prof. Davidson said sugar-bearing trees were in such a limited area and conditions under which they exuded sugar have to be so ideal, that its use as a household substitute for the Cuban variety is unlikely. It would probably cost $66 a pound, he added. Its chief value is to scientists and chemists, with whom it is in great demand. They use it to test other grades of sugar, as melezitose has three times the food value of ordinary cane sugar.

"Sauce for the Goose—"

From an Ontario town comes a story which is so good that one would be sorry to hear that it wasn't true. The local news dealer, a woman, went to a grocer's for sugar, and was told that she could have it only by buying with it a specified amount of other goods. She bought the required amount and departed. A few days later the grocer called at the news room for his paper. "You can't have it," said the woman dealer, "unless you take"—and then she named several magazines whose aggregate cost was many times that of the paper. The grocer took his medicine "gamely," bought all that the woman demanded, and was thus enabled to leave the store with his daily newspaper in his pocket.

Doubly-Saving and Double-Acting

No Baking Powder can be more efficient, more economical than this.

Paying a high price for a baking powder does not guarantee you the best. *High prices are sometimes charged for the impression they make.*

EGG-O Baking Powder

is doubly saving because it is sold at a fair price, and its double action—in the bowl and the oven—makes it a never-failing leavener.

Buying Egg-O in the larger sized tins is most economical for family use.

Always follow the directions—one level teaspoonful to one level cup of well sifted flour.

WOMEN CURED AT HOME

Women's disorders always yield from the very beginning of the treatment to the mild but effective action of Orange Lily. Within two or three days after commencing its use the improvement becomes noticeable, and this improvement continues until the patient is completely cured. Orange Lily is an applied or local treatment, and acts directly on the womanly organs, removing the congestion, toning and strengthening the nerves, and restoring perfect circulation in the diseased parts. In order to convince all suffering women of the value of this remedy, I will send a 40 cent box, enough for 10 days treatment, absolutely free to each lady who will send me her address. Enclose 3 stamps and address Mrs. Lydia W. Ladd, Windsor, Ont.

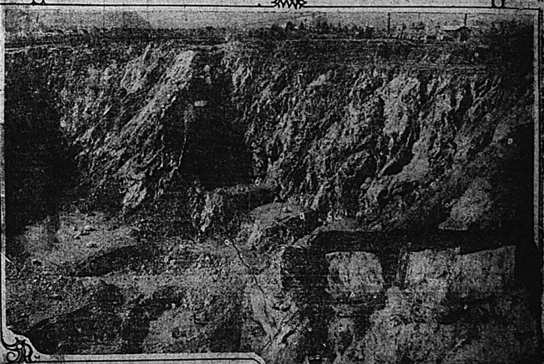
Canadians Mine "Stone For Spinning" Asbestos



Asbestos Pit

Crude Canadian Chrysotile Asbestos, Thedford Mines

Photos Courtesy of the Asbestos and Mineral Corporation

Making Asbestos Yarn

The greatest known deposit of asbestos in the world is in the Province of Quebec and the mining of this extraordinary mineral has developed into an important industry. Most of the asbestos mined in Canada is exported to the United States and there manufactured for commercial purposes. A great American industry is thus dependent on the Canadian raw asbestos.

Asbestos derives its name from a Greek word meaning "inconsumable" and although the knowledge of the fire-resisting qualities of asbestos is very ancient, it is only in the last decade that its multitudious uses have become a matter of common knowledge. Greek and Roman historians tell that the corpses of their kings and heroes, when prepared for cremation, were wrapped in incombustible blankets to separate their ashes from those of the funeral pyre; Charlemagne astounded his guests on one occasion by having a tablecloth, made of "cotton stone," cleaned after a meal by throwing it into the fire and taking it out uninjured, but it has been put to use only in modern times.

The fine quality of Canadian asbestos and the ease with which it can be spun and woven—a very good imitation silk can be made from it—caused American and English capital to investigate the Canadian mines with the result that great mining camps have arisen at Black Lake and Thetford. Canada is now the center of the asbestos mining industry of the world, producing about 75,000 tons yearly, with the value ranging from $300 a ton for the best grade down to $10 a ton for the shortest fibre.

Asbestos is used in making fireproof roofing shingles and water, vermin and fire-proof walls; asbestos paint, plaster, tiles and even asbestos lumber are used in fireproof construction. It is commonly used for theatre curtains, firemen's and electricians' gloves, firemen's garments, backing and insulation for steam pipes, boilers, refrigerators and many special purposes.

The landscape in the neighborhood of the asbestos mines is curiously transformed by the grey asbestos dust which covers the grass and tiles without destroying them. The traveller on the Quebec Central Railway looks out of the car window and discovers himself suddenly in a country of silver grey hues, fields and houses—mysterious and not without charm.

BELLEVILLE, ONTARIO, MONDAY, MARCH 15, 1920.

GERMAN MONARCHISTS ARE NOW IN CONTROL

Disturbing Situation In Germany

Expected Throne Will Be Occupied By Hohenzollern Prince.-- Ex-Kaiser Closely Guarded In Holland By Troops-- German Socialists Call General Strike To Protest Against Return To Militarism.

Special Despatch to The Intelligencer, Canadian Press, Limited.

BERLIN, March 15.—The conviction has prevailed from the first among men not identified with the present revolution that it will be short-lived as it is outwardly without the support of the Conservative or Reactionary leaders and it is viewed in many quarters as a trial balloon which will collapse shortly. The most immediate danger is recognized as a general strike throughout Germany, which has already been proclaimed in many of the principal cities, including Berlin. In the meantime the old Government is recovering its nerve and seems to have very liberal support from federal states.

SOCIALISTS DECLARE SOVIET.

PARIS, March 15.—Independent Socialists and Communists met yesterday at Mannheim and decided to take advantage of the present situation in Germany and proclaim a Soviet Government.

CHIEF FIGURES IN REVOLUTION OVERTHROW

Friedrich Ebert, first president of the new German progressive republic. Formerly leader of the Social Democratic party. Has been characterized as a type of Pan-German or Imperialistic Socialist.

ASSUMES CHANCELLORSHIP

Dr. Wolfgang Kapp, former Conservative member of the Reichstag, and general director of the German Agricultural Society. In 1918 he urged the government to speed the U-boat building program...He was one of the men for whose arrest the Independent Socialists clamored for alleged responsibility in continuing the war and hindering peace.

NAMED COMMANDER-IN-CHIEF

Major General Baron Von Luetlwitz military governor of Belgium in the early days of the war, later commander on the Verdun front. He was prominent in opposition to the peace terms and has been regarded as thoroughly Prussian.

Berlin, March 13—The proclamation issued by the old regime, calling on the people for a general strike, declares that it is the only means against the return of Wilhelm II.

Workers out in Frankfort

Frankfort, Germany, March 13—A general strike has been declared here. A great procession of workmen is parading the streets.

Ebert Goes to Dresden

Paris, March 13—The Ebert Government in Germany has established its seat in Dresden, the capital of Saxony, according to advices this afternoon.

Promise to Fulfil Treaty Pledges

Cologne, March 13—The new government established in Berlin is not intended to promote the aims of the monarchists or the reactionaries, it is declared in a despatch to The Cologne Gazette from Berlin today. The message reads: "The new government under Chancellor Kapp, will say in its program to be made public that it will honorably fulfil the treaty of Versailles. It gives emphatic assurances that the government has no reactionary or monarchial aims."

Proclamation Issued

Berlin, March 13—The overthrow of the Ebert government was announced in a proclamation issued at ten o'clock this morning after revolting troops from the suburbs had entered Berlin and occupied the Wilhelmstrasse. Up to that hour the movement had proved a peaceful one, no disorders developing.

The proclamation declared that the entire authority of the state had passed into the hands of General Provincial Director Kapp as imperial chancellor and premier of Prussia.

The proclamation, issued over the signature of Imperial Chancellor Kapp, says that the mandate of the national assembly to create a constitution and conclude peace has expired and it declares the national assembly dissolved It adds:

"As soon as internal order has been restored we shall return to constitutional conditions and prescribe new elections."

"Order and Freedom" Promised

It was announced that General von Luettwitz has been appointed commander-in-chief of the military by the chancellor, and that a new government "of order, freedom and action" was being formed

At 10 o'clock the city was still preserving for the moment its usual aspect. Carriages, taxicabs, and street cars were in movement as if nothing had happened. There was no change in the appearance of Unter den Linden, except for the presence of a considerable body of troops at the Brandenburg gate, the Adlon Hotel, and at the corner of Unter den Linden and Wilhelmstrasse.

The proclamation appeared at this corner at 10 o'clock in the morning. A mounted soldier, fully armed and helmetted, rode up and handed the proclamation to a small group of people. They flocked around him while the document was read. The proclamation later was read on street corners in various parts of the city.

President Ebert, meanwhile, had left the city. The president and his wife quit Berlin at 5 o'clock this morning.

Threat at Midnight

The troops which made the descent upon Berlin were for the most part quartered in the suburb of Doeberitz, and included troops which had recently returned from the Baltic provinces. The threat of their movement developed at midnight. When it became known that they were advancing, the semi-official agency states, Gen. von Olderhausen began negotiations with the naval brigade, which formed part of the contingent. The demands made by the brigade were discussed by the cabinet, which sat until the early morning, the news agency adds. The demands were subsequently rejected and the troops entered Berlin and proceeded to the occupation of the Wilhelmstrasse.

Paralyze All Economic Life

Berlin, March 13—Publication of the evening newspapers was prohibited this afternoon. Only leaflets bearing the new government's proclamations appeared on the streets. The Social Democrat party (Majority Socialists) this morning issued the following proclamation.

"Workmen comrades: The military revolt has come. Erhard's naval division is marching on Berlin to enforce the reorganization of the Imperial government. The mercenary troops who were afraid of the disbandment which had been ordered desire to put the reactionaries into the ministerial posts.

"We refuse to bow to this military constraint. We did not make the revolution in order to recognize again today the bloody government of mercenaries. We enter into no covenant with the Baltic criminals. Workers, comrades, we should be ashamed to look you in the face if we were capable of acting otherwise.

No resistance was offered to the approaching forces and they were quickly in possession of the city. Presiden Ebert was one of the first to leave. Dr. Kapp proclaimed himself imperial chancellor and prime Minister of Prussia, and immediately appointed General con Luettwitz commander-in-chief. Dr. Schiffer, minister of justice in the Bauer cabinet, is said to have been one of the few to remain, and with Dr. Albert, under secretary of state, received the newly formed government. Premier Bauer was the last of the old ministy to leave the government building. The proclamation issued by the new regime, in dissolving the national assembly, states that the asembly's mission which was to establish the constitution and conclude peace had been fulfilled.

"We say 'No' and again 'No', you must endorse what we have done. We carried out your views. Now use every means to destroy this return of bloody reaction.

"Strike. Cease to work. Throttle this military dictatorship. Fight with all your means for the preservation of the republic. Put aside all divisions. There is only one means against the return of Wilhelm II.

"Paralyze al leconomic life. Not a hand must move. No proletaria shall help the military dictatorship."

The meeting of the old cabinet extended far into the night with an anxious deliberation on means of defence. Nothing came of the negotiations and at 5 o'clock this morning word came that the mutineers had reached the outskirts of the city.

The leaders of the late government have on their part issued an appeal to the people claiming their support against the elements of reaction, and calling upon them to organize a general strike. Censorship on telegrams going abroad, has been placed in the hands of Ignatius Tribitch Lincoln, former member of the British parliament, who was deported from England in August, 1919, after his certificate of naturalization had been revoked .

Two Dead, 25 Blinded By Strange Diseases

ALBANY, N.Y., March 13—A mysterious malady, which has caused the death of two persons at Dannemora Prison, caused five to become blind and twenty-five to partially lose their eyesight within the past week, is reported by Superintendent of Prisons Charles F. Rattigan upon his return from the Prison. Several persons became afflicted last week, one dying Friday and another on Tuesday. One opinion early expressed was that the men had partaken of wood alcohol, but Superintendent Rattigan is disinclined to believe the case as the symptoms were different than in cases of alcohol poisoning. He also believes that it would not be possible to smuggle the alcohol within the prison. Another conjecture was that the men were poisoned by canned goods.

Assassination Plot Mystery At Ottawa

OTTAWA, March 15.—Rev. George Bousfield, an Anglican clergyman of Eastview, near Ottawa, figures in one of the strangest cases that has ever confronted the Dominion police. It is alleged that an attempt was made to coerce him with a revolver to consent to being an accomplice in a proposed Bolshevik scheme to take the life of an unknown high Canadian Government official. The plot was frustrated and officers of the Dominion police now guard Bousfield's residence night and day.

All efforts to obtain a statement from Bousfield have been foiled by the police. Dominion Police Commissioner A. J. Cawdron, while admitting that the case has decidedly serious aspects refuses to tell the facts.

BIG STRIKE OF BRICKLAYERS

Columbus, Ohio, March 15—Building construction is virtually tied up in this city. Union bricklayers and stone masons left their work because they said companies dealing in building materials had sold their goods to concerns employing non-union workers.

Christian Brotherhood Will Save England From Radicals

OR EXTREME RADICALISM, IF ANYTHING WILL, SAID VISITING BROTHERHOOD SPEAKER — NEW RELIGIOUS MOVEMENT A STABILIZING FORCE IN LABOR CIRCLES AND INFLUENCE FOR GOOD EVERYWHERE — MENACE OF BOLSHEVISM.

There is a strong movement in the world to smash society and all existing forms of law, order and government. This movement finds its most pronounced expression at present in Russia, but it exists under the surface in England and everywhere else, said Mr. Harry Whitehorn, British journalist, in an address at St. Andrew's Presbyterian Church, last evening. Mr. Whitehorn is one of the ambassadors of the Christian Brotherhood movement now touring Canada in the interest of this religious movement, which is developing also in Canada. Accompanying Mr. Whitehorn are Mr. W. G. Cooper, F.R.A.S., of Birmingham, England, and Mr. R. Clarke, of London, England. These gentlemen spoke in various city churches Sunday on the Brotherhood movement, and also at a mass meeting at Bridge Street Methodist Church in the afternoon, when Mr. John Elliott occupied the chair.

Mr. Whitehorn is the chairman of the London Brotherhood Federation, is on the staff of the Westminster Gazette and official reporter to the Parliamentary Committee of the British Trades Union Congress.

The object of this tour, Mr. Whitehorn explained, is the promotion of their aims and objects, namely, the creation of the brotherhood spirit, the spirit of good-will between employers and employed, and between nation and nation. He maintained that the brotherhood was particularly fitted to act as such a medium, that it embraces all classes of society and is not overloaded in any one direction. One thing it had done was to set its face against large contributions from the monied classes. In Great Britain the movement had caught on wonderfully particularly in the big centres of population and in industrial regions. While the movement was unsectarian and outside of the churches, yet it was closely associated with them and some of the best attended meetings on Sunday afternoons were held in London churches, though in some cases they had their own halls or used cinema theatres. At Harringay, in the north of London, Mr. Whitehorn said he was connected with a brotherhood 2,000 strong which had a very fine orchestra which performed every Sunday and also gave symphony concerts on week-nights.

The Brotherhood started from a realization that people were not being attracted to the churches as they should be, that the church had failed in its mission, said Mr. Whitehorn. The simple creed of the Brotherhood was to bring all people to the feet of Jesus. Religion which did not expire with Sunday, but lived triumphantly every week-day in business, politics, society and every phase of life was the religion preached and practised by the Brotherhood, chasing the cheat from the marketplace, the crook from politics and the moral leper from society, living the simple teachings of Jesus. The Brotherhood had grown very rapidly in England, where some of the societies had memberships as high as three thousand. The Brotherhood had helped humanity and it helped the church. Its sign manual was the fruitful vine crossed by the clasped hands, this was perpetuated in their buttons.

The pastor, Rev. Mr. Kerr, presided at St. Andrew's and introduced the speaker.

At Holloway Street.

Mr. W. G. Hooper, F.R.A.S., occupied the pulpit at Holloway street Methodist Church last evening and gave an inspiring discourse to a good congregation. The Pastor, Rev. A. H. Foster, assisted in the service.

The words of Jesus Christ are that "Whosoever shall do the will of my Father which is in heaven, the same is my brother, and sister and mother." Any great work needed in the world calls for bravery to be exhibited, said Mr. Hooper. We desire a vision, we want "the fire" today to do the work for Christ that should be done. We all should give ourselves to this work. This is a call so tremendous that all should heed it. Jesus Christ calls us today to attempt the possible, and this possible is to enter into union with him. Old and young men, women and children can unite in this great service of brotherhood. Have this vision of life, for it is a joyous service, and it opens up life in all its possibilities. Jesus is calling us to this service. We must give our service for this great movement that the world may be blest. Do the will of God, which is the will of the Brotherhood. A new spirit of fellowship will follow when we link up with this great brotherhood movement. Let the life of Jesus Christ flow through us until we reflect His image. The Brotherhood was forging ahead throughout various countries of the world, and all nations are feeling its touch of kinship, said Mr. Hooper.

Real Brotherhood.

The aim of the Brotherhood movement is to develop a new spirit which is now appearing in social, political and commercial life. It is to make the motto of the Prince of Wales, "I Serve," the dominant note in the workshop and counting house, in factory and in parliament. To do this is to exalt the service of others as higher than material gain and nobler than either idle sport or selfish ease.

The Brotherhood movement has no patent method for the reconstruction of society, but it has what is far better, a Divine commission for the regeneration and inspiring of humanity. Its mission is to animate men with the spirit of love and trust, and so to draw them together, that in the darkness of today they may put their hands in those of their fellow men and go forward with joy.

The members of this movement are not bound to one set of views, but to devotion to the highest view which has been revealed to them. They do not promise to think alike, but to love alike. To try to make men think alike often leads to intolerance; but to make men love alike is the way through liberty to unity.

But if the old antagonisms, suspicions and jealousies are to remain none of these schemes of reconstruction can have a chance of success. If they are attempted with distrust and hatred in the hearts of either masters or men they are bound to fail. There must be a new spirit breathed into industrial life of mutual toleration, esteem, and respect.

Herein comes the importance of the Brotherhood movement. Its mission is to say, both to employers and employed: "Sirs, ye are brethren. Come, now, let us reason together; let the misunderstanding be removed, let the suspicions be allayed, let the spirit of mutual trust and confidence lead you to work together for your mutual good. There are fresh forces of Nature yet to be harnessed for human needs, there are fresh supplies still to be found in Nature's storehouse, there are unimagined possibilities waiting for the allied powers of enterprise and industry to commander on behalf of humanity. Join all forces for progress, and let the spirit of Brotherhood lead you in the paths of peace."

In concluding his discourse Mr. Hooper said we were on the eve of a great and glorious era and we must go forward united to evangelize the world.

Five Killed In Train Collision

Boston and Montreal Express Crashes Into Freight Train—Passengers Safe

BELLOWS FALLS, Vt., March 14—Five men were killed, four were severely injured and several suffered lesser injuries in a head-on collision late to-day between the Boston and Montreal express, north bound, and a freight on the Rutland Railroad, four miles north of here.

The dead were the engineers, one fireman and two brakemen. So far as is known no passengers were severely injured.

The express left Boston this morning and was late. How the accident happened is not known. The road is double-tracked.

Fireman Killed

Middletown, N. Y. March 14—A passenger train collided with a freight train at Campbell Hall on the Ontario & Western Railway during a blizzard Saturday. A fireman, named Moran was killed and his brother, an engineer, was severely injured.

Foch Sending Three Army Corps To The Rhineland

DEVELOPMENTS IN GERMANY BEING CLOSELY WATCHED IN FRANCE—CLOSE CENSORSHIP ON NEWS FROM BERLIN INDICATES THAT PROGRESS OF REVOLUTION WILL BE MASKED FROM OUTSIDE WORLD.

Special Despatch to The Intelligencer Canadian Press Limited

PARIS, March 15.—Marshal Foch has recommended that allied troops occupy Duhr industrial district and Essen, according to unofficial reports circulated here today.

Latest advices to the French Foreign Office from Berlin, it was said today, indicated that the revolution in Prussia had thus far been confined to the military and pan-German party and was without other political support. Leaders of Conservative parties it was declared, had condemned the movement. France contemplates sending three more army corps to Rhineland thus doubling her forces along the Rhine, according to the Petit Parisienne. Information received here would seem to indicate that the utmost calm is prevailing in Germany, although the severe censorship in Berlin may be responsible for the lack of detailed news from that city. Advices from other sources indicate that the reactionary movement begun Saturday is confined to Berlin.

A general strike affecting all public services has been called, Kiel, Bremen, Hamburg, and Regensurg, while public sentiment in favor of Ebert Government is declared to be increasing in Cologne, Dusseldorf, Essen, Duisberg, Spandau and Frankfort. In these cities a general strike is expected today.

T. C. Robinette, Great Lawyer, Passes

TORONTO, March 15.—Thomas Cowper Robinette, K.C., the most prominent criminal lawyer in Toronto, whose cases throughout his long career have attracted widespread attention, died at his residence, 60 Spadina road, early yesterday morning, following a stroke on Saturday. For the past few weeks Mr. Robinette's health has been failing and his death yesterday was the culmination of a long period of ill-health.

Mrs. E. M. Robinette, who before her marriage was Miss Edith May Lindsay, of Pickering, and whom he married in 1899, four sons and one daughter survive. His eldest son, Thomas Lindsay, is at present a student-at-law in his father's office.

Church Is Destroyed At Buckingham, Que.

OTTAWA, March 14—St. Joseph's Roman Catholic Church at Buckingham, Que., was totally destroyed by fire, which, breaking out after one o'clock today, swept so quickly through the edifice that the firemen, who did heroic work, were unable to stop the onrush of flames until the church was a mass of ruins, only the walls remaining of what had been one of the prominent buildings in the town. Mass had been concluded at 12 o'clock and a few worshipers were in the edifice making the Stations of the Cross, in connection with the Lenten services, when smoke was noticed issuing from the roof of the building. The alarm was quickly given, but by the time the firemen arrived flames were shooting through the entire structure. The host was saved by Rev. Father Chatelaine, and a number of statutes were also salvaged. The loss is estimated at between $150,000 and $160,000 partly covered by insurance.

Gas Kills Three, Bodies Are Found Week After Death

TORONTO, March 15.—A gruesome find was made yesterday afternoon, when three dead bodies in a bad state of decomposition were discovered in a room at 335 King street west. The bodies were those of John Calicott, his wife, and M. Johnson. The police believe that escaping gas was the cause of death.

Leo Long, who keeps a laundry beneath the premises was the first to discover the bodies and the police were immediately notified. A strong, disagreeable odor coming from the Callicott flat was the first intimation to outsiders that anything was wrong. It is believed that they had been dead for a week.

The bodies were distended and blackened. They were removed to the morgue in three police wagons. Police Constable Cummings assisted to carry the bodies out of the building.

All three were found in bed. Mr. and Mrs. Callicott were of Old Country birth, but had lived in Toronto for several years. Mr. Callicott was the manufacturer of an automatic air vent. Mr. Johnson, it is said, worked for the Hydro-Electric.

Last Minute Telegraph Briefs

New Appointment

London, March 15—The Daily Mail understands that the question of Canadian representation at Washington at last has been settled by an agreement of the Foreign Office to the appointment of a Canadian Minister Plenipotentiary who will be immediately under the British Ambassador to the United States and in the absence of the Ambassador will be in charge of the Embassy.

New English Party

London, March 15—A joint manifesto which will be signed by Lloyd George and Andrew Bonar Law will be issued in a few days stating the principles of the new party to be led by the Premier, says the Daily Mail. It will be accompanied, the newspaper declares, by an important reconstruction of the Ministry and it is said that for this reason the announcement of appointment to the portfolio of Labor, Food and Board of Trade, now vacant, have been postponed, according to present intentions the name of the new party will be the National Democratic Party.

POWERS OF COMMERCE BOARD

Ottawa, March 15.—Defence of Section Seventeen of Combines and Fair Prices Act, investing powers of court of criminal law in Candian Board of Commerce was made this morning before the Supreme Court in full session by W. F. O'Connor, K.C., acting chairman of the Board and appearing as Counsel for it. His argument was based on the power of Parliament to enact Legislation to control combines and in the interests of public good, what is termed "big business."

JAP TROOPS REVOLT

London, March 15.—A revolt has broken out among several units of Japanese troops in Siberia, according to a wireless despatch sent out by the Soviet Government at Moscow. The soldiers ripped off their shoulder straps and substituted red straps. The growth of a revolutionary movement in Korea is also reported by the despatch which says that Japanese authorities have made many arrests. At the same time, the Soviet message asserts, the Japanese Government is taking special measures to fight the Communist movement.

NORTHERN TRAFFIC HELD UP

Cobalt, March 15.—Traffic on the T. & N. O. lines north of here was at a standstill yesterday morning following the terrific snowstorm which swept over the district. No trains passed through southbound for more than 35 hours, and the train due Friday at 1.28 p.m. was battling with huge drifts since leaving Cochrane at 7 o'clock that morning. The branch lines are blocked but traffic became nearly normal again on the main line yesterday. Five inches of snow fell with a 40-mile-an-hour gale and the thermometer dropped Friday night to 14 below zero, packing the snowdrifts solid.

TWO WOMEN SMOTHERED

Fort William, March 13—Mrs. Alex. Hayes, aged sixty-eight, and a neighbor, Mrs. Peter Grendin, aged fifty-five, were smothered to death in a fire at the Hayes home last night. The fire was caused by the explosion of a coal oil stove.

What Prominent Ontario Women Say

Tillsonburg, Ont.:—"I found Dr. Pierce's Favorite Prescription very beneficial during expectancy. I felt quite poorly, was nauseated and sick, could not eat anything and I was extremely nervous and weak. I took 'Favorite Prescription' and it soon stopped the nausea, my appetite returned, also my strength and I was soon feeling fine and strong. My baby was strong and healthy and has always been so. I consider 'Favorite Prescription' a great help to the expectant mother and am glad to recommend it."—MRS. AMOS MILLS, Box 238.

A HAMILTON WITNESS

Hamilton, Ont.:—"A few months ago I was stricken down and was confined to bed about ten days. My strength all left me. It was my first illness since a child. I lost five pounds and felt awfully weak afterward. I could hardly do my work. I was advised to try Dr. Pierce's Favorite Prescription in tablet form. I tried a couple of bottles and before I knew it, I was well and strong and had gained 9½ pounds. I can recommend Dr. Pierce's Favorite Prescription to build one up."—MRS. E. MARTIN, 397 Dundurn St.

After suffering pain, feeling nervous, dizzy, weak and dragged down by weaknesses of her sex—with eyes sunken, black circles and pale cheeks—such a woman is quickly restored to health by the Favorite Prescription of Dr. Pierce. Changed, too, in looks, for after taking Dr. Pierce's Favorite Prescription the skin becomes clear, the eyes brighter, the cheeks plump. It is purely vegetable, contains no alcohol.

What We Have We Hold In League Of Nations

DOMINION WILL NEVER RETURN TO OLD STATUS—CANADA PREPARED TO MAINTAIN EQUALITY NOW ENJOYED IN LEAGUE OF NATIONS — PRESIDENT OF PRIVY COUNCIL'S PLAIN TALK TO UNCLE SAM.

OTTAWA, March 15.—Some plain talk for the benefit of Uncle Sam and everyone else concerned, was given by Hon. N. W. Rowell when the treaty of peace with Bulgaria was submitted to the Canadian Parliament for approval yesterday. The president of the Privy Council stated very plainly that this Dominion will never assist to any impairment of her status among the nations to please the United States and enable that country to enter the League. Mr. Rowell summoned up the attitude of the Canadian Government in these words: "What I desire to point out, recognizing the gravity of the situation, is the fact that should the United States persist in its course and adopt the Lenroot reservations now before the Senate and should the President give his approval, a situation would arise in which the question of the United States coming in or not might depend on the action of Canada.

"It is a grave responsibility for us to say, in face of the serious conditions and recognizing what the situation is in Europe and elsewhere, that we would not give the necessary consent in order to permit them to come in. But because we believe that it goes to the very basis of Canada's national existence, and that her future depends upon it, we could not possibly give that, because on the one hand, we are neither prepared to cut the tie that binds us to the mother country nor are we prepared on the other hand to go back to the old colonial relations. That is the alternative we have to face if we are going to maintain the equality of status that we now enjoy.

WANT UNANIMOUS SUPPORT

"In taking the position we have we would be glad to feel that we have, as I am sure we have, the unanimous support of the Parliament of Canada to the Government that they expect us to maintain the position which Canada already enjoys under the terms of the treaty.

In touching upon Canada's status, Mr. Rowell said that there is complete unanimity between the Government of Great Britain and the Governments of the Dominions as to the constitutional status of the different nations of the Empire, at the present time. "It is not a question of conflict of opinion or authority," he said, "all are agreed that the status is one of equality, that we are nations all equal in status though not of equal power, under a common Sovereign, and bound together by ties of interest and sentiment, by history and by ties, which though light as air are as strong as iron in binding together this great league of nations, which we call the British Empire, or the Britannic Commonwealth."

War-Torn Cities Hot-Beds Of Graft

Look Upon Work of Reconstruction Merely Means of Filling Pockets

LONDON, March 15.—The war-ruined section of France is a hot-bed of graft. So-called reconstruction "experts" are amassing fortunes from the coffers of the Government through fees drawn for plans and estimates of work with which they have no further concern.

Such is the substance of what representative British business men report after having toured the battlefields and seen with their own eyes the progress being made in rebuilding the war torn cities.

The Financial Times, leading British financial journal discussing the experiences of the men says:

"The whole work of reconstruction constitutes one of the most disgraceful of financial scandals. The officials and other interested parties architects engineers, contractors and the whole horde of more or less honest intermediaries who have settled upon the devastated districts of the Somme the Pas de Calais, the Nord and the Aisne like a flock of vultures, apparently look upon the work of reconstruction merely as a means of filling their pockets."

Liberal Government grants furnish these grafters the opportunity, say observers. It bids fair to become the greatest scandal official France has ever faced. In connection with proposals for the reconstruction of a district including four small villages, for instance, the architects got more than $80,000 after which they returned to Paris and ceased to be interested in the work.

At a recent meeting of the General Council of the Department of the Somme, the Prefect stated that despite the large army of officials, estimates for the rebuilding of only three out of 38,000 houses destroyed in the war had so far been approved.

A thorough investigation by the Government is likely to result from the exposures already made. Leading French newspapers and journals have taken up the question and daily new and more astounding revelations of graft are being brought to light.

THE KING'S TROUSERS CREASED AT THE SIDE

New York, March 13—A cable to the World says: King George's latest photographs show that he has revived a fashion set long ago by his father King Edward—his trousers are creased at the sides instead of down the centre.

This style of crease never attained great popularity except among a few elderly courtiers and tailors now say that in their opinion, most men will stick to the front crease.

Official Delay Drove Simms to Desperation

WASHINGTON, March 15.—Reluctance of the Navy Department to co-operate with Admiral Sims drove him to 'desperation' he declared to the Senate investigating committee probing his charge that the department's alleged inefficiency prolonged the war.

"Hundreds of thousands of tons," of allied shipping were sunk because the Navy Department held out for the plan of operating ships individually under armed guard instead of in convoys as desired by the allies, Sims said. He also asserted he made unsuccessful efforts to set up at London a completely centralized control over all allied ships, naval and merchant but that this was blocked at Washington.

Admiral Jellicoe, then first sea lord of the British Admiralty, wrote "very much disturbed," about the convoy question and could not go ahead with plans until the United States decided to co-operate fully. The Navy Department then raised the objection that it had no control over merchant ships other than those operated by Government agencies and could not compel them to sail in convoys. The department cabled Admiral Sims to this effect, but said it was making 'an effort' to induce private ship owners to sail their vessels under naval convoy, provoking Sims to "exasperation."

"It is very difficult for me to convey to you an idea of the real state of desperation in which I found myself almost daily during those early months of the war," the Admiral said.

MUSIC AND DRAMA

(What the Press Agents Say)

"LISTEN LESTER"

The music of "Listen Lester" which comes to Griffin's to-morrow night, en route to His Majesty's Theatre, Montreal, with the entire New York cast chorus, production and special company orchestra has become nationally known; its melodies are as familiar to the average small boy as the features of the triumphant Jack Dempsey. Its songs have been published and played in hotels and restaurants from coast to coast; one phonograph company has exclusive rights to many of its melodies, but the small boy whose verdict abbetted by his whistle forecasts the success of the songs of a musical comedy, long ago proclaimed a victory for the songs in "Listen Lester."

"Two is Company" is a captivating song sung by Mary Dodge and Jack Griffen: her sweetheart and into which William Penn, Jr., the hotel clerk intrudes, much to the displeasure of the others. "A Very Good Baby in the Daytime, but a Bad, Bad Baby at Night," is a childlike confession from one Arbutus Quility, the pretty villainess who comes to Florida to track her former suitor. "I'd Love To," is another song sung by Arbutus Quility who is accompanied by the hotel clerk who agrees with her without reserve. "See Her First" is a bit of sage advice given by a said clerk, who in years spent at a bathing beach has become wise to the illusions cast by layers of garments. He would pass a law advocating bathing suits for women as a national uniform.

Altogether "Listen Lester" which is under the management of John Cort and the work of Harry L. Cort, Geo. E. Stoddard and Harold Orlob, is a vibrant collection of dance, women and song which will linger long and be cherished in the memory of Belleville theatregoers.

"BURGLAR BY PROXY"

Added proof of the old adage that "love is blind" is given in "Burglar by Proxy," Jack Pickford's latest film which will be shown at Griffin's to-night and Wednesday night. Jack Robin, played by Pickford falls in love with the voice of Dorothy Mason, on a delicious spring afternoon while driving his trim little roadster down a society avenue in his home town. Despite the worry occasioned him by a toothache he feels that he must find out from whence those sweet sounds come. Stopping his car, he leans over a flower-covered fence to see Dorothy Mason singing and playing her own accompaniments on a baby grand piano. The scene thrills him to his lovesick soul. That music and that girl seem to him to be as wonderful as spring itself. While wondering what means to adopt to get an introduction Jack notices that he has a flat tire. He puts the automatic tire pump to work, goes back to look at the girl and —bang! An explosion from a tire blow-out brings the girl dashing down the lawn to ascertain the trouble. Then Jack gets a great idea. He is taken into the Mason home unconscious, it seems, and then his troubles begin, troubles which require five snappy reels of fun and excitement before everything is adjusted to the satisfaction of all. A two-reel Fox Sunshine comedy and three other selected plays are also being screened on the same program.

ETHEL CLAYTON AT PALACE.

"A Soul Without Windows" is the unique and striking title of the picture in which charming Ethel Clayton is starred. The identity of the soul that is not possessed of windows is not revealed at the start of the picture, but comes to the front after many unusual and interesting incidents toward the middle of the film. Then when the person who has this particular soul is revealed how strikingly true and effective the title is. Miss Clayton is always charming, always interesting, always delightful; but in this new picture she reaches heights of charm she has never before attained. Harold Lloyd is appearing on the same program in a funny comedy; the 8th chapter of "The Fatal Fortune" serial, being the chapter that was to follow on when the theatres were closed, is also being shown on the same program with the above offerings.

◆

BIG STAR COURSE CONCERT

Music lovers of Belleville have a treat in store for them on Tuesday night when the Metropolitan Singers appear at the Y.M.C.A. for the final Star Course Concert.

This Company of five finished artists have travelled across the continent and met with success where ever they have appeared. This is one of the strongest Companys that have ever appeared under Star Course auspices and should be greeted by a full house.

The fourp'ny doss

WHEN Peter Wright, the great Chief of the British Seaman's Union—was in Canada, he said that many a time in the old days a fourp'ny doss was the only thing that stood between him and a sleep on the sidewalk.

SAILORS and Soldiers and good hardy men the world over have a vivid recollection of these places.

THE "Doss" as such does not exist in Canada, but Hotels for Working Men are a definite part of the Salvation Army's activities in the larger Canadian cities.

Wholesale Grocers Are Defended By O'Connor

BOARD OF COMMERCE COMMISSIONER DECLARES THAT OUT OF HUNDREDS OF CASES NONE MADE SIX PER CENT. NET PROFIT—HE CITES TYPICAL CASES —"PAID BETTER TO CLOSE DOORS," HE SAYS.

HAMILTON, Ont., March 15.—At the opening of session of the wholesale grocers' probe, before the Board of Commerce, Commissioner W. F. O'Connor made the following statement:

"As there may be an impression in the public mind that the board is sitting because of excessive profits made by certain wholesale grocers and in justice to the wholesalers the board feels it necessary of itself and without any request or communication from the wholesale grocers and also in view of what has been heard from those in opposition to the organized wholesale grocers that the public should not be given a wrong impression as to the exact situation.

"The board has in its possession, gathered from coast to coast, the most intimate detail of the profits of the wholesale grocers in Canada practically every one of them. I may say that the board has never found it necessary to confine its atention to the wholesale grocers who are members of the wholesale grocers who are members of the Wholesale Grocers' Association. these returns are unquestionably reliable because they extend back to 1913, and include the annual statements prepared for the shareholders of these companies, before there was any movement to establish this board to inquire into their business. These statements properly connected up with the previous ones issued disclose a condition with which the public should be apprised in justice to the gentlemen involved. For that reason I have brought here this morning five typical cases which include one or more Hamilton grocers who are involved in this present investigation. I shall give no names nor shall I mention which are from Hamilton. These were selected from the returns of hundreds of cases. I wish to have them placed upon the record of the board to show the statement of profits.

MORE MONEY CLOSING DOORS

"They disclose a very startling result. This result is that it would have paid the wholesale grocers better to have kept their doors closed. Case No. 1: This firm did a gross business of $1,300,000 per annum, capital invested $800,000, cost on business done 11¼ per cent. The amount interested parties draw for their remuneration is three-quarters of one per cent. per annum. Net profits on business done 1½ per cent., gross profit upon capital invested, 6 per cent. Those profits as compared with other cases are generous.

"Case No. 2: Capital invested (not authorized) $450,000; sales, $1,000,000; cost of doing business based on turnover 12 per cent.; net profit on business done 2 per cent. gross profit on capital invested 4 per cent.

"Case No. 3: Capital invested $400,000; profit 1¼ per cent. profit on capital invested 5 per cent.

"Case No. 4: (The best I could find) capital invested $500,000; sales over $1,200,000, percentage earned on capital 5 3-4 per cent.; percentage on sales 4 per cent. Out of this four per cent. the partners have to draw their salaries which if computed at $5,000 per annum each, for the two partners and this is a reasonable amount for men, who handle a million dollar business, would make the net profits 2½ per cent., the most generous profits I have found.

"All of this shows that it would have paid them better to have closed their doors. Money is now yielding six or seven per cent. The highest return secured in any business is 5¾ per cent. The wholesale grocer who makes a net profit of 1½ per cent. on his business, is doing exceedingly well.

"While this investigation is dealing with combines we want all evidence possible on the question of trade ethics. The board may or may not make any orders. The only order which it can make is whether it should or should not restrict the proven combine. It may, however, make declarations which will not be binding upon anyone, but which should have a strong influence on the people affected It may make recommendations which will be compiled into a sort of code for the Board of Commerce and which will be used in dealing with further or

Syrians Threaten To Join Turks

BEIRUT, Syria, March 13—The Syrian Congress at Damascus declared Syria to be an independent state. There were fireworks and Beirut celebrated its independence. It is reported that Prince Feisal, son of the King of the Hedjaz, will be crowned King of Syria. Palestine, Lebanon and Northern Mesopotamia are included in the districts where the Arabs are voting freely, apparently with the purpose of forcing the Peace Conference to recognize Syria, under a threat of co-operation with the Turkish nationalists if independence is refused them.

The Arabs claim to have 100,000 troops ready to co-operation with the Turks in Cilicia and Anatolia. Apparently they are willing to accept French advisers.

London, March 12.—Official advices state that the situation in Damascus is serious. Prince Feisal, son of the King of Hedjaz, has been proclaimed King of Syria, according to advices received in Cairo from Beirut. Emir Feisal, it is explained, thought it advisable to summon the Syrian Congress, which had threatened to declare the complete independence of the country and proclaim him King. The Emir it is stated, succeeded temporarily in forestalling such action requiring the postponement of the meeting of the congress, which had been called for March 6, but the excitement was said to be so great that he was compelled to accede to the demands.

Much opposition has been evidenced in Syria over the proposed arrangement for the future government of the country. It was reported from Paris in January that Emir (Prince) Feisal had reached an agreement with the French Government under which he would recognize a French mandate for the whole of Syria, in return for which France would recognize the formation of an Arabian State to include Damascus, Aleppo, Hemas and Humah, under the administration of the Prince. Later advices, however, indicated that the Syrians were insisting upon independence.

MESOPOTAMIA ALSO

An assembly of 29 Mesopotamian notables now sitting in Damascus will proclaim Mesopotamia, a State and form a joint Government with Syria under the regency of Zeid, a brother of Prince Feisal of the Hedjaz, according to the Daily Mail's correspondent.

Windsor Man Fatally Shot

Alleged Assailant Fires at Constable —Both Men Laborers

WINDSOR, March 14—With three bullets from a 32-calibre automatic in his body, one through the left side, one penetrating the right lung, and the third in the left arm, Jack McKinsey, aged 25 years, laborer, giving his address as 48 Plum street, Detroit, is dying in the Hotel Dieu, George Collins, aged 43, who says he boards at 123 East Jefferson avenue, Detroit, is locked up charged with the crime.

The shooting took place at 10 o'clock tonight on the sidewalk in front of Stevens' Inn, on Sandwich street east and is said to have followed an argument between the two men. As nearly as the police have been able to earn, McKinsley accused his companion of "talking too much." Then as the younger man started to walk away Collins pulled the revolver and fired three times in rapid succession. The men were separated by less than a dozen feet, and each shot found its mark.

Fires at Policeman

As McKinsley fell blood gushed from his mouth and spurted from his punctured lung. Patrolman Wilson heard the shooting and reached the scene in time to catch sight of Collins running south on Mercer street. He overtook him on Pitt street, where he had taken refuge in the door way of Samuels' second-hand store.

Before he could be handcuffed, Collins, who still held his weapon, fired a shot at the officer. The bullet missed and entered a panel of the store door. Collins was then beaten into submission, and with the assistance of a member of the fire department was taken to police headquarters.

Doctor Says he Can't Live

He gave his occupation as that of laborer, but refused to discuss the shooting. The weapon used is of the same calibre as that used in the murder of Maurice Rappaport, the Marion avenue butcher, a week ago Saturday night. At the Hotel Dieu, where McKinsley was taken at once, Dr. Mooney, the physician in charge, declared that the man is fatally wounded and can live but a short time.

The police believe the two men may be those who have been holding up citizens during the past week or ten days. They answer the description of the bandits in several respects.

"Safety cuts out worry," says the Safety League.

The Telephone Situation.

Saving as Many as Possible

In communities in which telephone development is greatest, there is very general use of two-party line service. Four-party service for residence purposes is also widely used.

We are recommending two-party service at this time because of the world shortage of telephone material. We wish to serve as many applicants as possible with the cable and central office facilities available. The general use of two-party service will mean double the number of installations that would be possible if we devoted all our facilities to individual line connections.

Similar conditions of material shortage are being met everywhere. It is one of the inevitable results of the colossal waste of war.

In extending two-party development we are endeavoring to meet a trying situation in a manner that will provide the convenience of telephone connection to the maximum number of applicants.

FINDS COONS' NEST IN TREE SKINS AND TIMBER NET $168

London, Ont., March 15.—A few days ago William Elson, a farmer residing near Wingham, felled a huge soft elm tree and in the top of it was the winter home of a family of raccoons with three lusty youngsters. Mr. Elson cut the tree into three logs and had them sawed into lumber. They yielded 2,801 feet, for which he received $98.14 at $33 per thousand. Then the farmer sold the skins of the coons for $70 making the total amount he realized from the tree and its occupants $168.14. Mr. Elson feels he has established a record for high finance in furs and lumber.

Rheumatic Pains

Quickly Eased By Penetrating Hamlin's Wizard Oil

A safe and harmless preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You will find almost daily uses for it in cases of sudden mishaps or accidents such as sprains, bruises, cuts, burns, bites and stings. Just as reliable, too, for earache, toothache, croup and colic.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

IT'S IN THE BLOOD.

Doesn't that friendly sun whisper something these bright days—whisper of green fields, trout brooks and gladsome open places soon to replace the chilly solitudes still held close in winter's grasp? The sun whispers of beautiful spring waiting just beyond to transform the open places into fairylands of flower and foliage, running brooks and lovers' nooks—coming like sunshine after rain, happiness after pain, releasing the prisoners of hope who have cuddled close all winter to the fireplaces, letting the children out with joyous shout into the fields and woods to gather strength from nature's bountiful medicine chest — no more spectres of flu, smallpox, diphtheria and other evil spirits—forgotten all in the glorious abandon of the great outdoors. Spring is in the air!

THE VOICE OF THE PEOPLE.

Disapproval comes quickly and copiously as a general rule, but appreciation is ever a laggard. However, public opinion in Belleville has not been slow to express unqualified approval of The Intelligencer's stand for rigid economy this year in civic expenditure, and the members of the City Council will no doubt appreciate the general expression of public opinion elicited as a guide to their program of civic legislation for this year. Personal calls and telephone messages from ratepayers have been numerous and amply justify the attitude of The Intelligencer upon civic affairs. As an example of the trend of public opinion The Intelligencer can not forbear telling of the personal call of a dear old lady who said that though she had always been a reader of The Intelligencer she was unacquainted with any of the staff, but could not resist an impulse to call and show her appreciation by expressing entire approval of the articles recently published in The Intelligencer in regard to economy this year in civic expenditures. She said that she expressed the views of her neighbors and, she was sure, of hundreds of other families in Belleville, when she said that they would have a hard time this year making both ends meet, and she hoped that the tax bills would be as low as possible. She was pleased to learn that the proposed new Collegiate Institute had been dropped for this year at least and hoped that the Councillors would appreciate the position of many families with small incomes and defer any ambitious programs of public works until the high cost of living had at least partially subsided.

From every quarter, large taxpayer, and small taxpayer, the word comes—for this year at least keep our tax bills down to the lowest possible minimum. Food and fuel are so expensive, together with income tax, business profits tax, Forward Movement tax, and so many calls for donations to worthy objects that the financial question has become one of serious import.

Students of finance tell us that the peak of high prices has been reached and that soon the reaction will begin; but in the meantime it is wise to sit tight and practise economy and thrift—and the advice is good.

CANADIAN DAIRYING FACES BIG PROBLEMS.

Co-operation has been the chief factor in the success that has been attained by the Canadian dairy industry. It was not until the development of co-operative cheese factories and creameries within the past thirty years that the markets for Canadian butter and cheese had more than a local importance. But for twenty years at least, Canadian cheddar cheese has held a premier place on the British market, the most important and exacting in the world. Canadian dairy butter has never been held in high repute by the export trade, and a distinct prejudice had to be overcome by the creameries. Consequently, butter has not attained the status of cheese in the markets of Great Britain, where both Danish and Irish butter normally command slightly higher prices.

In 1917, there were 3,418 factories in Canada producing cheese, butter and condensed milk. These factories handled nearly 3,000,000,000 pounds of milk in that year. The value of the products marketed was more than $41,000,000. Ontario and Quebec, combined, produced 97 per cent. of the factory-made cheese and nearly 74 per cent. of the creamery butter. But the western provinces are steadily increasing their output, especially of butter. As the need for restoring fertility of the soil of the prairies becomes more urgent, dairying is certain to develop rapidly, for no other branch of farming is so useful for maintaining the productivity of the soil. The exceptionally high prices of feed and labor during the recent war years have given a temporary set-back to the industry. The labor problem is, perhaps, especially difficult, for dairy farming demands skilled labor throughout the year. Even with the assistance of milking machines, cream separators, testers and other modern equipment the human element still remains the crucial factor, if the industry is to be successful. The Dominion and Provincial Departments of Agriculture, the Agricultural Colleges and the leading dairymen of the country have been occupied with the solution of these problems. They are also taking active means to banish scrub stock and to find better methods for utilizing such by-products as skim-milk and why. Under such leadership the solution of these and kindred problems may well be hoped for and Canadian dairying will continue to be one of our greatest national industries.—A. Donnell in Conservation.

CRISP COMMENT

FOUND—A few million cuds of gum under the seats at the local theatres. Owners can have same by applying at box office, proving property, and paying for this advt.

× × ×

Rome was not built in a day, neither will a Bigger and Better Belleville be built in a day, or a year. 'Twere better to build slowly than build unwisely and too speedily.

× × ×

If your dinner disagrees with you take a pill; if your neighbor disagrees with you, don't take a poke at him physically, mentally or verbally; rather offer him a sugar-coated pill of reasonable argument—sugar for peace, vinegar for war.

× × ×

Rumor that Government will prohibit importation of luxuries from the United States. How distressing! Still, as long as they don't prohibit importation of coal we should worry However, life, nowadays, is just one dang prohibition after another.

× × ×

The Drury Government got off to a good start, and no snags were struck in the opening stanzas. Howard Ferguson and Hartley Dewart very kindly staged an old-time political debate just to show the farmers how it is done and give them time to catch their breaths and become accustomed to the seats of the mighty. The Ferguson-Dewart turn sure made a hit.

OTHER VIEWS

Just Prussian Style
((Hamilton Herald)

But the main objection to the soviet form of government is that it is undemocratic.

No Longer Curious
(Boston Transcript)

The older a man grows the less he is disposed to see how near he can skate to the danger sign.

A Bullseye
(Vancouver Province)

An article dealing with the Adriatic question in a St. Louis paper appeared under the caption of "Our Idiotic Policy."

Just Cause For Pride
(Buffalo Courier)

Members of the "battalion of death" opposing America's participation in the League of Nations which would defend the right of smaller nations must take considerable pride in being at least partly responsible for conditions in the Near East where 20,000 Armenians of the Christian faith have been massacred by the Turks.

The Real War On
(New York Evening Sun)

Thomas, the British railway man, tells the workers of his country that they must drive a quarter harder than before the war; the French twice as hard and the Germans eighteen times. So far as we can see, the Germans are the only people who are trying to live up to this programme, and they only in spots. But in so far as they do not exceed the other nations in speeding up, just in that degree they will win in the new contest, the struggle of economics, which twenty years from now will have far more effect on the relative fortunes of the Powers than all the shots that were fired from Liege to the Marne and back again. The real war is now on and it is a war of work and brains.

The' Poet's Corner

IN THE LAND O' DREAMS

Where do I go in the Land o' Dreams?
  Why, mother dear, don't you know?
I follow the trail of the white moonbeams
  Straight to the sunrise glow.

And all night long o'er that starry way
  With the friends from my little book,
In song, and dance, and laugh, and play,
  With never a backward look.

I find the sheep for Little Bo-Peep,
  And put Humpty back on the wall;
While all the world is still asleep
  I pay Mother Goose a call.

When I grow hungry I eat of the pie
  Of little Jack Horner the brave
Or taste the tarts of the Queen of Hearts
  That were stolen away by the Knave

I frolic thus in the Land o' Dreams
  With my friends who are loyal and true;
But, Mother dear with the morning's beams
  I hasten me home—to you!
—Grace Howell Cordell, in 'The Christian Register.'

A Laugh or Two

That Was An Escape

The Interviewer: "And what with icebergs and shipwrecks, and sea serpents, and being cast away on a desert island, which do you reckon the narrowest escape you've ever had?"

Old Hand—"A widder at Plymouth with eight kids."

He Was Known

An architect remarked to a lady that he had been to see the great nave in the new church.

"Don't mention names," the lady replied. "I know the man you refer to."—Houston Post.

Fame

Rowena Meginnis — Wot makes Mickey so proud terday?

Jimpsy McGuire—Do yer hear dot newsboy guy hollerin' "Extry?"

Rowena Meginnis—Yes.

Jimpsy McGuire—Well, dat's in honor of his old man. He was hung dis mornin'—London Ideas.

Also Hopeless

"I can remember when people thought the telephone was something impossible."

"Well, ours is."

At The Movies

I stumble blindly down the aisle,
  No guiding hands to lead me,
I grope in truly movie style;
  I know not where I be.

I knock my shins and softly swear
  And look about in vain,
But seeing not a vacant chair,
  I amble on again.
And then I end my weary search,
  At last, I reach my goal,
To find when on the seat I perch
  I am behind a pole.

STUDEBAKER
Announcement
To The Canadian People

THE existing prices of Studebaker Automobiles were determined, as they have always been, on the basis of exact equality of value between the American and Canadian dollar. Prices will not be increased to cover losses in exchange unless they become considerably more serious than they are at present, which we believe is unlikely. This corporation is a Canadian industry, employing Canadian labor, investing its surplus funds in Canadian Government securities, depositing its working capital in Canadian banks, and paying large taxes to the Canadian Government. It respects and values the good will and patronage of the Canadian people, and will not take advantage of a temporary emergency to increase the prices of its cars.

City AND Country

PAIR OF GAUNTLETS FOUND

A pair of fur gauntlets were on Saturday picked up on the market and left at the police station for the owner.

FARMER LOSES 6 COWS

By the collapse of the floor of his stable, Hammond Lillie, a farmer of Leeds County, lost six cows. Upon going to the barn he found the animals dead.

FIRST CLAP OF THUNDER

Friday afternoon at 4.30 the first thunder clap this season was heard over the city. It was preceded by a violent flash of lightning. A slight thunder storm and heavy rainfall followed.—Kingston Standard.

VALUING THE G.T.R.

Valuation of the Grand Trunk Railway system prior to its acquisition by the Government is proceeding, several groups of valuators going over the lines. One of these E. D. McIntosh, B. Sc., of Carleton Place, is at present at the Brockville terminal and is travelling over the line from there to Belleville.

POWER FROM HIGH FALLS

It is expected that work will have progressed on the High Falls Hydro-Electric development to such an extent by April 1 that power will be switched on to serve Smith's Falls and other Rideau and Ottawa Valley towns by that date. A force of 200 men has been at work at the falls for some months.

NEW G.T.R. EQUIPMENT

The Grand Trunk Railway is reported to be about to build 25 six-wheel switching engines at its Point St. Charles shops, Montreal, and is also reported to be in the market for 3,000 automobile box cars, 1,000 flat cars, and 50 baggage and express cars, 15 express refrigerator cars, and 10 express horse cars.

CHARGE OF ATTEMPTED MURDER

The Crown swore out a warrant of attempted murder against John O'Connel, the young farmhand, who on Wednesday, brutally assaulted Miss Margaret McGee at the farm of William Moulton, near Lansdowne, and shortly afterward attempted suicide by cutting his throat. When sufficiently recovered he will be removed from the Brockville Hospital to police headquarters.

CALL FOR POLICE

On Saturday evening the police answered a call to the Perfect Cafe where it was alleged a customer was acting rudely. The party left upon the arrival of the officer. Sunday afternoon a call was answered to an apartment on Front street, where it was stated trouble was taking place between husband and wife. In this case the officer cast oil upon the troubled waters.

BUTTER CASE IN COURT

As the result of the work of a Government inspector, some butter being offered for sale in a Kingston grocer's store was seized, and the grocer summoned to court. The man the grocer bought the butter from was also summoned, but he failed to appear and the case was adjourned, but it is likely that a warrant will be sworn out for the arrest of the farmer who made the butter. It was found that the butter was partly margarine.

THE "TWO SPOT"

The Gananoque Board of Trade is pressing for the return to service of Grand Trunk trains Nos. 30 and 31 the Belleville-Brockville local, and to this end is communicating with other Boards of Trade in the district. The trains were withdrawn last year by the Grand Trunk after having been restored to service, the reason for the elmination, being, according to the company, that their operation was not profitable.

FIRE IN NORTH HASTINGS

All that remains of the house and contents of Mr. Harry Sleeper of the Maxwell Settlement is a heap of ashes. Fire from an unknown cause on Wednesday last had made such headway before noticed that the occupants of the house had scarcely time to make their escape. A small trunk and a cream separator was all that was saved. A small insurance of $200 was all that was carried. The symphty of the community goes out to Mr. and Mrs. Sleeper in their second loss this winter, the first, the intrusion of death in the family circle.—Bancroft Times.

ANOTHER POLICEMAN APPOINTED

Mr. Frank White, who has been for some time connected with the Ontario School for the Deaf has been selected by the Police Commissioners, a member of the force and will be sworn in for duty in the near future. Mr. White was for four years a member of the Metropolitan police force in London, and he also did overseas service for three years. By the appointment of two new members, the force is now up to the strength it was a couple of years ago, namely the chief, two sergeants and four men. The initial salary of the new men will be $1,000 per annum.

NOSE TO GRINDSTONE.

Mr. Robt. Scott had a very serious accident at Deloro. He was operating a grindstone when his coat caught in some way, drawing him down so that his face was cut. Fortunately he was able to stop the machine, or the result might have been fatal.

SUDDEN DEATH

Albert E. Dowdall, proprietor of the Prince George Hotel, Kingston, died very suddenly on Saturday. Mr. Dowdall was formerly connected with the Revere House and Strathcona Hotel in Brockville.

SIX MONTHS IN JAIL

Thomas Foster, of Cornwall, charged by G. T. R. special agent R. O'Connell of Brockville, with creating a disturbance and removing a grip from a Grand Trunk train, was fined $10 and costs or two months in jail at Cornwall on the charge of creating a disturbance and six months for removing the grip, the sentences to run concurrently.

ANOTHER DROWING

While attempting to cross the river on foot from Ogdensburg to Prescott Cecil Gray, aged 15, broke through the ice within sight of several persons and was drowned before assistance reached him. The lad was en route from Watertown, N.Y., to Brockville to visit relatives, and had been turned back by the Prescott immigration officers. He was making a second attempt to land on Canadian soil when the fatality occurred.

YOUTH DROWNED.

A sad drowning fatality occurred at Prescott when a youth by the name of Dillon, a resident of Ogdensburg, lost his life. It appears that young Dillon wished to visit Brockville. On his crossing on the ferry the previous evening he was turned back by the immigration authorities. He then crossed on the ice, walking into a passage made by the car ferry, the dark appearance of the ice owing to continued mild weather making such crossing dangerous. Young Dillon was the son of Mr. Dillon of Ogdensburg, who lost his life by the upsetting of a row boat last fall.

DAIRYMEN MEET

At a meeting in the Hotel Quinte, Belleville, of the provisional directors of the United Dairymen Co-operative, Limited, the company through which it is being proposed to effect the amalgimation of cheese factories in the Central Ontario District, decided to make immediate application for a charter and to proceed with the sale of stock and complete the organization of the company. So far, eleven factories have definitely made application for the appointment of valuators and the patrons in some seven or eight other factories are said to be favorable. Meetings are being called in still other factories. The reports made by the directors were that the reception the movement has received so far has been favorable. The presidents of several of the cheese factories in the Belleville district were invited to the meeting and took part in the discussion. Messrs. W. H. Crough, Ennismore, J. E. Galvin, Lakefield and H. B. Cowan of Farm and Dairy, Peterborough, were in attendance. The company will be capitalized at $250,000 but it is expected that this capital will soon have to be increased. An executive committee composed of Messrs. John McCaffery, Madoc; H. Maloney, Marmora, and H. B. Cowan, Peterborough, was appointed. Mr. Cowan is acting as secretary-treasurer of the company.

ACTOR CHARGES VALET
WITH THEFT OF JEWELERY

Detroit, March 15.—Charging that he had been robbed of a jewelled pin worth $1,000 and some $300 in money Louis Mann, the actor, playing at the Garrick here this week, obtained a warrant for his valet, Charles Fry. He charges that Fry left him last Tuesday after ten days' service.

BUY CHEAP MEATS
WEEK OF MARCH 22

Washington, March 15—The United States is to have a "save-money-on-meat" week during which the public will be asked to buy the cheaper cuts of meat. It is sponsored by the Department of Justice in connection with a price-reduction campaign. The week of March 22 has been selected.

WHISKEY SMUGGLER
CAUGHT CROSSING BORDER

Plattsburg, N.Y., March 15—A man arrested near this city while headed south with 300 bottles of Canadian whiskey was identified upon arraignment as "Dick" Werner alleged "master mind" of liquor smugglers from Canada, who escaped from a United States marshal in Washington on February 10, while being taken north. The identification was made by custom inspectors E. S. Kyte and Ernest Lewis, of New York, who have been searching for Werner. When he was arrested today, the prisoner gave his name as "Frank Mitchell."

H. W. BORING, a well-to-do Kansas farmer, says he has gained twenty pounds in weight and is in better general health than he has been in years since taking Tanlac.

"Since Tanlac has overcome my troubles I have gained twenty pounds in weight and am in better general health than for years past," was the straight-forward statement made a few days ago by H. W. Boring, a prominent and well-to-do farmer living at Overland Park, Kans.

"During the two years I suffered I tried everything I knew to get relief, but nothing seemed to reach my case until I tried Tanlac. My appetite was poor and my digestion was so bad I could hardly retain my food. Nothing agreed with me; in fact I was almost a confirmed dyspeptic. My whole system seemed to be out of shape. I would have pains across the small of my back so bad at times I could hardly move around.

"My nerves were all unstrung and I would become up-set at the least little thing. I seldom slept well at night and, finally, became so weak and run-down that I lost weight rapidly. I was also troubled a great deal with catarrh and of mornings has to spend a half hour or more clearing up my head.

"This is just the condition I was in when I began taking Tanlac and it certainly has been a blessing to me. It just seemed to be made especially for my case. I improved from the very first. My digestion now is perfect and regardless of what I eat I never suffer any bad after effects.

"The pains across my back have entirely disappeared. The catarrh has left me, too, and my head is perfectly clear. I am no longer nervous and rest well every night. I have regained my lost weight and am feeling better and stronger that I have in years. I am going to keep Tanlac in my house so it will be handy at all times."

Tanlac is sold in Belleville by Ostrom's drug store and by leading druggists in every town.

Social And Personal

Mrs. James Zebeslee of this city, who has been at the hospital for some time is slowly improving in health.

32,000 PINTS BOOZE
FOR CHICAGO DAILY

Chicago, March 15.—Prohibition officials announced that Chicago would be limited to 32,000 pints a day for medicinal purposes. They also allege that moonshine whiskey, costing about 18 cents a quart to make, is being sold on prescription for four dollars a quart.

Wedding Bells

FROSTE—BASTIN

Word has been received in the city announcing the marriage on Feb. 11 of Mr. Walter E. Froste, son of the late Mr. George E. Froste, of this city, to Marie Louise, daughter of Mr. Francois Bastin, of Jolimont, Haine St. Paul, Belgium. The groom, who is well known in Belleville, enlisted with the 28th Battalion of Winnipeg in 1914 and was severely wounded in the arm necessiataing his being in a hospital for some time. He came to this city last July, remaining here until January of this year when he returned overseas. Walter was the recipient of the Military Medal for bravery on the field. His many friends will join with The Intelligencer in wishing for him and his bride many years of happiness and a safe return to Canada.

AMERICAN LEGION
GETS $400,000 GIFT

New York, March 15.—The American Legion has received from the Y.M.C.A. $400,000 of the gift of $500,000 promised, representing surplus from operation of Y.M.C.A. canteens and post exchanges in France during the war, it was announced.

PROHIBITION CAUSES
BIG FOREIGN EXODUS

New York, March 15.—A statement issued here shows that prohibition is causing so many foreign born to leave the United States that emigration is now exceeding immigration. According to Ellis Island records 53,000 people came into the United States and 61,000 people left January 1.

Called By Death

MRS. MARGARET LYNCH

Mrs. Teresa Ryan, beloved wife of E. J. Lynch, passed away quietly at her home at Peterboro. She had been in very delicate health for a number of years with heart trouble but was apparently as well as usual when she retired on Sunday evening. On going to her room on Monday morning it was found that she had passed peacefully away a short time previous.

The late Mrs. Lynch was born in Westwood in August 1871, and was a daughter of the late Michael Ryan. In 1888 the family moved to Peterboro and she resided there until 1900 when she was married to E. J. Lynch who survives her. After their marriage they lived in Westwood until 1909, whe nthey moved to Marmora, where they have since resided. Mrs. Lynch was of a very quiet and retiring disposition, but her kindly and sympathetic nature and her patience and cheerfulness during her long illness endeared her to all who knew her well.

Besides her husband she leaves three sons and one daughter, Remegius, of Kitchener, and Frank, Vincent and Margaret at home. She is also survived by three sisters, and two brothers, as follows: Sister St. James, of Lindsay; Sister Margaret Mary, of Mount St. Joseph, Peterboro; Miss Mary Ryan, of Marmora; John Ryan, of Peterboro, and James Ryan of Tweed.

The funeral took place on Saturday service being conducted in the Church of the Sacred Heart, after which the remains were conveyed via C. P. R. to Hastings for interment.

CHICAGO JUDGE IS A GOOD FIGHTER

Chicago, Ill., March 15.—Chief Jusitce Harry Olson of the Municipal Court, was slugged and badly beaten at one of the entrances to the City Hall by five men, one of whom, George Glonka, is an employee of the County Treasurer's Office. Glonka was knocked unconscious by Judge Olson in the fight and captured but the other four sluggers escaped.

Children's Eyes Need Watching

The eye is not a fully developed organ at birth. As it grows through the years of childhood, its progress should be watched scientifically. Often school work puts a strain on the eyes. They are not ready for reading and blackboard work, and permanent harm to sight is apt to result. Blackburn's makes a specialty of examining children's eyes and caring for them. Bring your child in for consultation.

Torture of the Inquisition

A Modern Example of Suffering

People suffer—suffer torments—with help at hand. Gin Pills can overcome pain in the most marvelous way—all the suffering which follows in the wake of weak or diseased kidneys, such as rheumatism, sciatic neuralgia, stone in the bladder, excruciating backache, stiff and swollen joints and ankles, yields quickly to the soothing, healing, strengthening power of Gin Pills, which contain Juniper and seven other valuable diuretics and antiseptics.

Mr. Arnold McAskell, of Hants, N.S., writes as follows:

> "For a long time I suffered from a pain in my back and could not move without agony. I grew worse until confined to bed. A friend advised me to use Gin Pills. Before I had used one box I began to feel better. By the time I had finished two, I was completely cured. I cannot say too much in favor of these pills and I recommend them strongly to anyone suffering from kidney trouble."

At the first suggestion of pain in the back get Gin Pills from your druggist or dealer. Each box is guaranteed to relieve—or money back. 50c a box. Free sample, sufficient to show its value, sent on request.

Civil War Imminent Ebert Refuses Overtures

OLD GERMAN GOVERNMENT REFUSES TO NEGOTIATE WITH FACTION WHICH HAS SEIZED GOVERNMENT BUILDINGS—EBERT CABINET AT STUTTGART.

Special Despatch to The Intelligencer, Canadian Press, Limited.

STUTTGART, March 16.—Refusal to negotiate with the reactionary faction headed by Dr. Wolfgang Kapp was decided upon here yesterday by the Council of the old Cabinet over which President Ebert presided. The unconditional resignation of the leaders of the new government was demanded by the Ebert Cabinet, which arrived here yesterday afternoon on a special train from Dresden. The National Assembly will meet in this city Wednesday afternoon at four o'clock.

Civil war seems imminent in Germany as a result of the refusal of the Ebert Government now sitting at Stuttgart to carry on negotiations with the reactionary regime which seized power suddenly last Saturday morning. The unconditional surrender of the men directing the new government is demanded by President Ebert.

Berlin is in the grip of a general strike called by Socialists and labor leaders as a counter-stroke to the assumption of power by the government headed by Dr. Wolfgang Kapp, who has issued a decree threatening all strike leaders and pickets with death if there is interference with vital public services. Extreme measures will be taken under the decree from four this afternoon, and it is possible the crisis of the new revolution will quickly follow.

Details of the situation throughout Germany are somewhat obscure but there seems reason to believe that the Ebert Government still controls the southern and western sections, while the Kapp regime is rather firmly entrenched in northeastern Prussia and Silesia. Fighting is reported at various points, and it is said there was bloodshed in Berlin suburbs yesterday. Clashes so far have been between militia units and disorderly crowds. So far as is known armed forces of the two governments have not come into collision.

But Ebert Refused

PARIS, March 15—The French Foreign Office is informed in a despatch by way of Mayence that Berlin newspapers announce that President Ebert and Dr. von Kapp have reached a compromise under which Ebert will remain President.

The compromise, according to the advices, which are not confirmed from any source, provides that Ebert shall form a Cabinet of specialists and dissolve the National Assembly.

Ebert, according to the despatch, must call a new election. The reported compromise also provides that the President shall be elected by the people and institutes a second parliamentary chamber composed of labor.

London, March 15—Prime Minister Lloyd George announced in the House of Commons to-day that the German counter-revolutionists are in possession of thirty towns, according to the latest advices. The Premier said the latest advices showed that the military movement was spreading rapidly. Fighting has occurred in Breslau, Hamburg, Kiel, Leipzig, and Chemnitz, he said. A military coup has been executed in Munich, according to his announcement. The new government, he said, appears to be gaining strength.

Premier Lloyd George said the allied government would regard with anxiety any movement representing a monarchial or military reaction, but that it was well to await developments before taking any definite action.

The Premier read to the House a telegram from Lord Kilmanrock, British Charge D'Affairs at Berlin, stating that the position of the new German government appeared to have been strengthened.

Confer on Situation

London, March 15—The Supreme Council has called Admiral Beatty, Winston Spencer Churchill, Secretary of State of War, and French and Italian military experts to confer with it on the situation in Germany, it was announced officially late today. The council, it was announced, has agreed on methods for keeping informed on events in Germany.

Clashed in Berlin

London, March 15—Soldier and strikers clashed in Berlin today, according to authoritative advices here. One soldier was killed and a number wounded the advices said.

Berlin, March 15 (by wireless to London—A proclamation issued by the new government this morning says "In order to completely exterminate the monarchist idea from the minds of the German people, the former Government, and especially the Socialist members, poured out their venom and contempt on the flight of Emperor William, which they characterized as a desertion of the colors, although that flight was accomplished in circumstances justifying less severe condemnation. That same government has now forsaken its duty and left Berlin without so much as an attempt to defend itself—as it had every possibility of doing.

"The statement the the troops were unreliable was uttered solely in order to cause its own flight to be more favorably regarded. A government that was really capable of ruling should have possessed the strength to carry the troops with it. This desertion will stigmatize the old government in the eyes of the German people and will make its return impossible for all time."

Bloodshed at Kiel

London, March 15— A heavy loss of life is reported in disturbances at Kiel, Frankfort, and Essen, according to a Berlin despatch to the Central News. Demonstrators have seized a depot at Frankfort containing arms and ammunition. Sunday night one person was killed and several hurt in a clash between strikers and soldiers of the new regime in a Berlin street, the despatch adds.

Rates Of Interest Should Be Boosted?

Hon. W. S. Fielding Would Give Depositors Four Per Cent for Money

OTTAWA, March 16.—Considerable interest attaches here to the recent suggestion in the House of Hon. W. S. Fielding, former Minister of Finance, that in view of the fact that money is growing dearer and is likely to continue dear for the next number of years, the Government should increase the rate of interest in the Government savings banks to four per cent. The rate of interest at the present time it three per cent. Should the Government decide to increase the rate the chartered banks would be forced to follow suit.

The suggestion was made in connection with the discussion on Sir Henry Drayton's bill to make Government annuities more attractive by increasing the amount of such annuities and by increasing the interest to be paid on monies invested from three to four per cent. The Ministers admitted that to some degree the Government in doing this was out to make money and would compete with the insurance companies It is apparently the idea of Mr. Fielding that he might as well also go into competition with the banks.

Sir Henry evaded discussion of the latter question, however and the debate closed without Mr. Fielding having received any answer. The question will likely come up again however.

DR. CREELMAN DENIES THAT HE IS RESIGNING

Guelph, March 16—There have been persistent rumors for some time past that important changes were soon to be made in the personnel of the staff of the Ontario Agricultural College, but nothing outside of the resignation of Prof. Wade Toole has been made public. Dr. Geo. C. Creelman, when asked regarding the report that he was going overseas as Dominion Director of Immigration, denied most emphatically that there was any truth in the story so far as he was personally concerned. He stated positively that he was not resigning, and that so far as he knew he was not going to England.

Denies Mounties "Raided" Regina Public Library

HON. MR. ROWELL EXPLAINS INCIDENT OF ALLEGED SEIZURE OF SOCIALISTIC BOOKS.

OTTAWA, March 15—A denial that the Royal Canadian Police had "raided" a public library for Socialist books was made by Hon. N. W. Rowell during a discussion of a bill to amend the Act in regard to the pensions of that historic force. The matter was taken up by A. R. McMaster, of Brome, who stated that he understood that the police had taken from the library "Plato's Republic" among other works. He also called attention to a report that the police had interfered with the Daughters of Canada in Toronto. Mr. McMaster expressed surprise that the force which had been the upholder of British traditions in the West for a generation, should have been guilty of such actions and urged that, if the facts were as stated, a stop should be put to such proceedings.

Mr. Rowell said that he fully agreed with Mr. McMaster on the importance of free discussion. The facts, however, were not as Mr. McMaster had heard them. The library concern was that at Regina. During the press censorship the books of a Chicago publisher (Kerr & Co.) had been put under the man. This had been done because it was discovered that this firm was sending objectionable pamphlets into Canada, enclosed in books which were permitted. It had been reported to the police that there were books of this firm at the Regina library and the police had gone to the librarian who had set aside the books complained of, and any which were thought to be possibly dangerous should be sent on to Ottawa. The firm in question had published "Plato's Republic."

Mr. McMaster, asked what books were sent to Ottawa.

Mr. Rowell—"I do not know."

Daughters of Canada Case

Regarding the Daughters of Canada, said the President of the Privy Council, all that the police had done was to inquire the address of the officers, so that certain literature could be sent to them. He did not know that this was the action the police should take, but that was all there was to it. It was true, however, that an officer of the Y.M.C.A. had drawn the inference that the police had something against the organization and had refused privileges. The matter had later been explained to the Y. M.C.A. by the police. Mr. Rowell expressed regret that any inconvenience had been given to the ladies of this society, and assured the House that the traditions of the Mounted Police would be maintained.

Irish Terror May Become Guerilla War

MONTREAL, March 16.—Cabling to The Star from Dublin, H. N. Moore says: "While Belfast has gloomingly been accepting with bad grace the latest Irish bill, in the south secret societies are continuing their reign of terror against the Royal Irish Constabulary. Under their brutal motto; "Give us this day our daily bread," they have been assassinating members of the police. The only explanation is that the laboring classes are now beyond the authority of the central executive.

"All these outrages are absoluetly condemned by the church and all but the ultra-radical element throughout the southwest. From Rome instructions have arrived that the church must make every effort to prevent the cowardly murders that have stigmatized the fight for Irish freedom. Secret societies must be dissolved, following the known condemnation of the church against such organizations.

AUTHORITIES TO ARMS

Meanwhile the authorities are exerting still greater pressure. Reinforcements to the present large military force, fully armed, are streaming over the country, and gradually taking over the functions of the constabulary instead of raw recruits as previously seasoned troops are now arriving.

General Sir William Robertson is leaving the Rhine, command to become commander in Ireland according to rumor. Two battalions of guards are arriving at the garrison in Dublin and much artillery is daily landing.

No rising, such as at Easter in 1916 is expected. The authorities fear that the Irish have armed volunteers, numbering thousands, officered by men who have seen much active service. Well disciplined, they may conduct an active guerilla welfare such as Dewet thwarted the British with in South Africa.

SAYS DISMISSAL FOLLOWED SAVING OF EMPLOYER'S LIFE

Toronto, March 16—Sir Clifford Sifton's former butler, George Holmes, has entered suit against him, claiming $3,000 damages for dismissal from his employment for physical incapacity, which, he says, was directly due to exposure suffered while saving Sir Clifford's life from a fire in Sir Clifford's house, 57 Douglas drive, early in the morning of January 20. He claims that his employer instructed him to remain in the watersoaked building after the fire had been extinguished, that the other domestics had been housed elsewhere and that he thus contracted the illness which incapacitated him for work for a time and was the cause of his dismissal. The writ was served on Sir Clifford Saturday.

Only Good Luck Saved U.S. Troops Insists Admiral

WASHINGTON, March 16.—Only a measure of "good luck" brought the first convoy of American troops safely to France, Rear-Admiral Sims told the Senate Investigating Committee.

The Admiral recounted a series of blunders made by the Navy Department in connection with the convoy of troops. The policy of the United States Government in this connection Admiral Sims declared to have been "insistence upon making decisions based upon complete misinformation.

German submarines were enabled to attack the first American convoy, the Admiral stated, "because the Department insisted upon using an unsafe code, which was easily intercepted and deciphered by the enemy. This despite his warning and the fact that all the other Allies were using new wartime codes. The United States code had been in use for many years, but the Washington officials refused to change it.

GERMANS WELL INFORMED

"The announcement of the sailing of the first American destroyers was printed in Berlin four days before they arrived at Queenstown," declared the officer.

The United States naval attache at Paris had obtained his first word that troopships were sailing from a woman whose husband had received the information in a business message.

Arrangements for the early convoys were "confusing" and did not conform to the Allies' methods of safeguarding troops in transit, Admiral Sims said and the Navy Department made no effort to consult him and thus avail itself of the experience of the Allies in handling troopships.

Referring to a message from Secretary Daniels dated June 6, 1917, marked "very confidential" and containing directions for the protection of the convoy by destroyers, Admiral Sims said.

"The whole scheme of troop convoy outlined in this message showed a complete ignorance and disregard of convoy methods and of war experience in the submarine danger zone," he continued.

In response to his protests, the Admiral said he received a reply that the "Department recognizes the soundness of your recommendations," but because of the "present sensitive public opinion considers it essential that the escort orders for the first convoys already issued be executed by American destroyers." The Admiral had recommended, he testified, that the convoys be protected by whatever Allied escorts were available.

Admiral Sims testified at length regarding disagreements with the Department on plans to meet enemy raids on convoys, possible German battle cruisers' raids in the Atlantic and what he called the Department's "royal road to victory," by blockading German ports or similar measures.

Hindenburg Not With Revolutionists

Special Despatch to The Intelligencer
Canadian Press Limited

COPENHAGEN, March 16—Field Marshal von Hindenburg has made public the declaration that he is not connected with the counter revolutionists of which he disapproves, says the Hanover Tageblatt.

Death Of W. Banks, Sr. Causes General Regret

TORONTO, March 16.—Mr. William Banks, senior, died in the Wellesley Hospital at noon, Monday. For many years a newspaper man, a leading figure in fraternal circles, and lately chief theatrical censor, the late Mr. Banks was known by thousands of people.

Mr. Banks had been ill for several months. Gangrene poisoning set in in one of his legs and on Saturday he was removed to the hospital, where the limb was amputated at the knee. His condition continued, however, to be serious, resulting in his death.

The late Mr. Banks was in his 73rd year and was born in Caithnesshire, Scotland. He came to Toronto 34 years ago, and for a long time was connected with the newspaper business. He had been on the staffs of the World, Mail and Empire ,and the Globe, and left the latter paper to accept the position which he held at the time of his death. He took a great interest in all the new events which occurred during his illness.

The late Mr. Banks was a member of the Provincial Soldiers' Aid Commission, and did valuable work in its interests. He was an original member of the Burns Camp No. 1, Sons of Scotland, and for a time was secretary of the camp. He was also connected with St. Patrick's Chapter, R.A.M., St. John's Lodge, A.F. and A.M., Court Harmony, Ancient Order of Foresters, and of Cumberland Lodge, 621, Orange Order. He was an active member of various social and literary organizations, a member of the Patriotic Fund and of the Toronto Press Club. For some time he served in a secretarial position for the Equal Rights Association. This association took an active part in supporting D'Alton McCarthy's opposition to the Jesuit Estates Act. In religion Mr. Banks was a Methodist, being a member of the Centenniel Methodist Church.

Mrs. Banks, sr., for many years an invalid, survives her husband, as do four daughters and one son, namely, Mrs. Robert Walker, Mrs. William Galbraith, Mrs. Wyatt Cameron, all of Toronto, and Mrs. S. W. Shier, of Montreal, and Wm. Banks, jr., of the Globe staff, Toronto. His youngest son, George, was killed in action in France.

FOUR DROWNED WHEN COAL SHIP FOUNDERED

Chatham, Mass., March 15—The coast guard cutter Acushnet rescued two men last night from the three-masted schooner, Isiah K. Stetson, bound from New York for Luneburg, N.S., with coal, that went aground on Handkerchief Shoal four miles off Monomy Point. Four men were drowned.

The schooner was discovered at daybreak yesterday morning, but how long she had been aground was not known last night, as the weather had been thick for two days. The schooner sailed from Vineyard Haven last Wednesday. No names were available. The schooner registered 27 tons and hailed from Calais, Maine.

Two New Kings Follow The Arab Federation

SYRIA DECLARED AN INDEPENDENT KINGDOM TO INCLUDE PALESTINE—CHANGING MAP AND MAKING MORE WORK FOR THE LEAGUE OF NATIONS.

BEIRUT, March 8—(Via Constantinople, March 15)—The independence of Syria was proclaimed here today by the representatives of the Syrian people. Emir Feisal was declared King, with Palestine part of the kingdom.

Mesopotamia Involved

The Syrian banner consists of a seven-pointed white star placed in the red field of the Hedjaz flag. Two similar stars placed in the same way will compose the pennant of Mesopotamia, which is reported also to have declared its independence, with Emir Abysmal as King and Emir Zed as Regent. They are the third and fourth sons of King Hussein.

Big Arab Federation

Lebanon has adhered to this program, and apparently a sort of Arab Federation has been arranged. Emir Feisal in accepting the Kingship, said his purpose was disinherited service.

The flag was raised and 101 guns were fired. Then the army passed in review. The new Monarch will take the oath tomorrow as King Feisal 1 of Syria.

King for Bagdad District

London, March 15—Simultaneously with the proclamation of Prince Feisal as King of Syria, Abdulla was proclaimed King of Irak (Vilayet of Bagdad, and including the city of Bagdad) and of Mesopotamia, according to a despatch to The London Times from Cairo.

Naval Air Service Discussed In Caucus

Special Despatch to The Intelligencer
Canadian Press Limited

OTTAWA, March 16.—At the conclusion of the Liberal caucus this morning, J. A. Robb, chief Liberal whip, stated briefly that the Liberal members had discussed the proposed Government Legislation. This would include the Franchise Bill and proposed amendments to the British North America Act. Liberal members stated there had been no discussion of the Naval policy or the Jellicoe report. It is understood that at the caucus of Government suporters this morning, a proposal to establish some form of naval air service was given much support.

GIVE JUDGMENT ON WHOLE DRY ISSUE

Washington, March 16.—All phases of the prohibition question will be heard by the Supreme Court when handing down its decision upon the validity of the prohibition amendment and the Volstead Enforcement Act.

Having heard arguments in the Rhode Island, Kentucky and Massachusetts cases, the court today granted the State of New Jersey permission to institute original proceedings to test the amendment: It also fixed March 29 for hearing arguments in the New Jersey proceedings.

The two appeal cases apply principally to the validity of the prohibition amendment in so far as it relates to the manufacture of beer alleged to be non-intoxicating.

In view of the multiplicity of requests for hearings, the court postponed a two weeks' recess planned to begin March 29.

TREE AND COONS BROUGHT OVER $168.

London, Ont., March 16.—Wm. Elson, a farmer residing near Wingham felled a huge soft elm tree, in the top of which was the winter home of a family of raccoons, with three lusty youngsters. The lumber in the tree sold for $98.14. Then the farmer sold the skins of the coons for $70, making the total amount he realized from the tree and its occupants $168.14.

The neighbors think this is a record in high finance in furs and lumber.

Murder Suspects Taken Near Line

GREENVILLE, Me., March 16.—Robert C. Moore died last night and his wife is suffering from serious wounds as a result of an attack upon them at their home Saturday night.

According to the story told by Mrs. Moore to the authorities, two men entered the house, forced their way upstairs to a room where her husband was taking a bath and opened fire upon him with revolvers.

Five of the bullets took effect, one entering Moore's abdomen, two penetrating his chest, and two striking his arms. Mrs. Moore said that as her husband fell unconscious the men fired at her. She was wounded in the head and bullets entered each of her arms. She was able to get to the outside door and shout for help, and meanwhile the men ran off.

Acting upon Mrs. Moore's charge that the two men were William Pomeroy and J. C. Scott, who came here from New York last Tuesday to work as woodsmen, Deputy Sheriff Rogers started a search for them. He learned that Pomeroy and Scott had boarded a freight train for Canada and wired orders to Deputy Sheriff Armstrong to form a posse, meet the train at Jackman and arrest the men.

Late yesterday word was received that Pomeroy and Scott had been arrested without resistance. The authorities here expressed the opinion that although Moore's valuables were found undisturbed, robbery was the probable motive for the alleged crime. They said they had learned that Pomeroy had borrowed a revolver from a resident at Greenville, saying that he wanted it for protection, and that he and Scott had tried to borrow money from various persons here.

When the men were arrested they had no weapons. They refused to make any statement.

UNCLE SAM FORMS FARM-LABOR PARTY

St. Louis, Mo., March 16.—A new political party will have candidates for President in the forthcoming national elections.

The proposed party will be composed of "Liberal" organizations such as the American Labor party and various farmers societies. Candidates will be selected at a National convention to be held probably here next June.

Women And Children Killed In Revolutionary Riots

ARMED CLASHES BETWEEN SOLDIERS AND POPULACE CONTINUE IN GERMANY—LUDENDORFF WITH REVOLUTIONISTS — NINETEEN KILLED IN BERLIN STREET BATTLE—THIRTY KILLED IN HAMBURG — MANY INJURED.

Special Despatch to The Intelligencer, Canadian Press, Limited.

LONDON, March 16.—According to an Exchange Telephone despatch, General Ludendorff attended a meeting of the Cabinet Council of the new Government last night.

Further reports of clashes in Prussia were received today, nineteen persons being reported killed and many injured in the suburbs of Berlin. In Hamburg thirty persons were killed, including some women and children, during the fighting between civilian guards and Baltic troops. Among the killed was Captain Berchtold, commanding the Baltic troops.

A Copenhagen despatch to London states that a new government was formed at Munich, Bavaria, composed of Democrats and Centrists.

MUSIC AND DRAMA

(What the Press Agents Say)

"LISTEN LESTER" HERE TONIGHT

"Listen Lester," John Cort's exhilarating musical comedy, gorgeously gowned and full of spontaneous wit, with the entire New York cast, chorus, production and special company orchestra, comes to Griffin's tonight en route to His Majesty's Theatre, Montreal, to inject a brilliancy into the theatre district. Lester is not only worth listening to, but is well worth looking at as well, as has been attested to by the fact that this play comes here after a year's run at the Knickerbocker Theatre in New York. Harry D. Cort, George E. Stoddard and Harold Orlob have written a merry melange that is bright and snappy, the music being marked by an originality, for the composer has brought to his composition a cleverness and melodic veil that tickles the fancy, the ears and the toes. The setting is Palm Beach, which offers opportunity for unique and colorful background, and costuming of the newest style, all of which, needless to say, is taken the utmost care of in the satorical display of the offering.

"A SOUL WITHOUT WINDOWS"

Ethel Clayton in "A Soul Without Windows" is being shown at the Palace tonight, and Wednesday matinee and night. It is declared by critics to be one of the best pictures that Miss Clayton has ever made and it is certainly highly entertaining and interesting. The story starts in a shaker colony and then goes to a big city and later moves to the operatic stage. The heroine is a girl called "Hopama"—that being the name her baby lips formed after the death of her mother when an effort was made to establish her identity. Hopama develops into a great musical genius, falls in love with a paralyzed young man who is so discouraged, disgruntled and down at heart that it is said he has a soul without windows. Hopama lets the light into his soul and everything ends happily. Harold Lloyd is appearing on the same program in a new and funny comedy, the 8th chapter of the popular "Fatal Fortune" serial is also being screened on the same program.

GLORIA HOPE PLAYS CHARMING GIRL PART

The chain of problems, fears, pleasures and heart throbs, which link together in the life of the average girl, afford Gloria Hope, playing the role of Dorothy Mason in Jack Pickford's latest picture "Burglar by Proxy" ample opportunity to demonstrate her versatility. This attraction will be shown at Griffin's—tomorrow night for the last time. Dorothy is engaged to her father's business rival, whom she dislikes. She falls in love with Jack but his many escapades convince her that he must be a burglar. How Jack sets himself right with Dorothy is both interesting and humorous. A funny two reel Fox Sunshine comedy "Chicken A La Cabaret," and a program of varied attractions are also being shown on the same program.

LEAVING TYENDINAGA FOR THURLOW

A number of friends and neighbors gathered at the home of Mr. and Mrs. H. Swan, 4th concession of Tyendinaga, on the evening of March 8th when the following address was read and presentation made:

Dear Mr. and Mrs. Swan and Gerald:

We, your friends and neighbors of led here this evening to bid you good tal music interspersed with readings bye and also to extend to you our very best wishes for the continuance of a happy, prosperous life in your new home in Thurlow.

We felt we could not let you leave our midst without expressing in some tangible way our appreciation of you as true friends, obliging neighbors and faithful workers in the church, and it is with sincere regret we say good-bye.

During the many years we have been associated together we have found you ever ready and willing to give of your time and labor for the improvement of the school of this community.

Your presence will be missed from the choir and Sunday School where you have labored so faithfully for the furtherance of the Master's Kingdom and as a slight token of our respect and esteem we ask you to accept this china cabinet as a remembrance from us.

Signed on behalf of the community, Geo. Badgley; and Boys' Class the (Knights of Service), Gordon Snider.

Mr. Swan replied in a few words in which he stated that if he had been a good friend and neighbor to them it was because they had been exceptionally good to him. He expressed sincere regret that it was necessary for him to give up his class. Mrs. Swan also replied thanking them for the good wishes expressed in the address and the beautiful china cabinet presented and united with Mr. Swan in giving one and all a cordial invitation to come and see them in their new home.

A program of vocal and instrumenmons unanimously decided to bar Senby Mrs. McFarlane and Miss Badgley followed by games and a lunch, bringing a very pleasant evening to a close.

Salvation Army Saves Many A Man From Term In Jail

ONE LAD RECENTLY SERVED SENTENCE IN S. A. OFFICER'S HOME—OTHERS ARE ALLOWED TO GO TO WORK UNDER WATCHFUL CARE.

TORONTO, March 16—Then the reporter for the Police Court news says, "He was handed over to the Salvation Army," what becomes of the man? Not long ago a young chap in whom there was much hope, served his sentence in the home of a Salvation Army officer. Special circumstances surrounded his case. Special consideration was given by the authorities. The boy was saved the humiliation of a jail term. He was set right and intends to stay right.

A prisoner who gives evidence of trustworthiness and intention to go straight is sometimes released on an order-in-Council. He can complete his term at his work. From the very beginning of the case the services of the Salvation Army are requisitioned.

The wages of the man are collected by the Army and turned over—every cent—to his dependents.

"What happens when a man goes to a situation?" we asked Brigadier Fraser, the Army's parole officer.

"He is entirely free so long as he behaves. We visit him once a week. We collect his wages and pay them over to his dependents. There is no charge, no deduction from the amount. It goes in its entirety to wife or mother as the case may be."

Recently a stowaway reached Canada from Scotland. He was arrested soon after arrival in connection with the theft of a horse. He was sentenced to Burwash. Adjutant Adams, the local prison officer of the Salvation Army, brought his case up for consideration. The lad had been dealt with by the Army officer and showed signs of having undergone a change. He was discharged. The Government paid his fare to Montreal. The Salvation Army saw him through to St. John, N.B. There he was met by another officer of the Army, who saw that the boy was given an opportunity to work his way back home.

Brigadier Fraser takes a tremendous interest in the parole work. He is not alone in this. Mrs. Fraser is known at "the farm" as "the little mother," and is contantly helping the brigadier with the problems that present themselves. Her special work is visiting the wives and families of men whose liberty temporarily has been taken from them. She conducts most of the religious meetings at Langstaff and Concord. These are the men's and women's divisions of the Toronto Municipal Farm.

Dr. Lavelle, the new parole commissioner for Ontario, speaks highly of the assistance he receives from the Salvation Army. He has gone so far as to say that he does not see how he could get along without it.

"This is Brigadier Fraser," said the officer in answer to a phone call. Then the following was heard by the interviewer: "I am sorry. He was taken ill this morning and we had to get a taxi to take him home. He is very sick. There are two or three children and the mother is ill with the flu. No, there was neither coal nor food, but I am arranging for both right away. I think he should go to a hospital."

The subject of the conversation was a man on parole. He's making good too. Arrangements were made to send him to a hospital of his own denomination. By this time, however, many mothers and fathers were waiting to see Brigadier Fraser and thus we left him again engrossed in his task.

Great Work Of Relief Started In Serbia

(Written by Harry Whitehorn, chairman of the London Brotherhood Federation and member of the National Brotherhood Council of Great Britain.)

During my brief stay in Belleville, most appropriately named of cities, I have already found great sympathy on the part of the inhabitants manifested towards the objects and work of the Brotherhood Movement, which, starting in England, has already spread to the farthest corners of the earth. Together with my colleague, Mr. W. G. Hooper, F.R.A.S., of Birmingham, I am seeking to explain the objective of this movement throughout Canada in preparation for a great International Brotherhood Congress to be held in Washington in October next.

First among the objects of The World Brotherhood Movement is the winning of the whole world for Christ, which in homely language may be regarded as meaning the purification and elevation of human society in all its activities, beginning with the individual and ending with the mighty groups of nations and races into which the sons of men are divided. We start from the standpoint that Christ came, not to save Englishmen, Canadians, or any other particular group of people specially; but that He came into our midst and left His inspiring message of self-sacrifice even unto death in order that the whole world might be brought into a grand fraternity under the Fathership of God. Here, of course, all creeds, dogmas and denominations of Christians disappear; and they all find a splendid reunion in the one Invisible Church, of which all who follow the Christ are members.

With such a world-embracing creed it will easily be imagined that the great war just ended provided scope in abundance for the practical application of our Brotherhood ideals in relief work of various kinds. The war had not been in progress many months before the first consignment of relief went out personally conducted by Brotherhood men to Rouen, Lille and other places. Indeed, so swift had our answer from England been to the cry that came from Lille, that we had actually visited the place before the Germans returned to it again for their long occupation prior to the final collapse of their war machine.

When the terrible fate of Serbia shocked the world, we dried our tears and got into action once more. Hundreds and thousands of little children had been found wandering about the streets of old Serbia fighting with the dogs in some cases for the offal of the roadside to quell the awful pangs of hunger which in many cases, alas! were only finally silenced by death.

Acting in co-operation with the Serbian Government, Mr. William Ward, World Brotherhood Commissioner, Mr. William Heal, International Treasurer, and other honorary officers, arranged for a party of Serbian refugee children to be fed, clothed and educated in England for a period of three Bank, will receive and receipt for girls, to the number of 85, have been the guests of the Brotherhood for over twelve months, and they have already made great progress in their education, and so far as sports are concerned, there is hardly a team of footballers in the schools of the county of Kent, or the district of Faversham, where they are residing, which can stand against them.

It was soon seen, however, that the nature of the damage done by their enemies was of so cruel a nature that more would have to be done in support of the various forms of organized relief work then in operation, and accordingly during the past six months arrangements have been made for the equipment and maintenance of a series of farm schools where the Serbian children can be taught agricultural pursuits and made self-supporting citizens. The first of these farm schools has just been opened under the supervision of the Brotherhood representatives. The money to be spent immediately is $25,000, and a similar sum will be needed for several years to come in order to complete the training just begun.

This work of Serbian relief is largely financed from the Dominion of Canada, and it is in support of the Serbian Relief Fund and the international work generally which the Brotherhood Movement has inaugurated, that Mr. J. R. Campbell, of Toronto, is here in Belleville with the English Brotherhood delegation.

I venture to think that no better cause has ever been supported than that for which we are pleading, and every man and woman of good-will in Belleville, I feel sure, will give to Mr. Campbell's appeal a sympathetic hearing.

Mr. Elliott, manager of the Standard Bank, will and receive and receipt donations.

CHINESE GOVERNMENT IS BUYING AIRSHIPS

Pekin, March 15—Four flights over Pekin have been made by one of the giant biplanes which the Chinese Government is purchasing. Captain W. Mackenzie, a New Zealander who served in Gallipoli, piloted the big craft. Eight to ten guests during each flight occupied the comfortable wicker chairs in the commodious "cabin," and had the sensation of gazing upon Pekin from an altitude of five thousand feet.

Four Sets Of Twins Three Of Triplets

The old woman of nursery fame who lived in a shoe must look to her laurels. She has a rival. Frau Navoczny is her name, and she lives in a three-roomed apartment in the east end of Berlin, with no fewer than twenty-one children.

Frau Navoczny, who is of Polish origin, is a young-looking woman of thirty-eight.

"Yes," she said, when a Daily Express correspondent called on her, "I am the mother of Berlin's largest family. I don't look it? Well, I think being always surrounded by children keeps one young. You see, my eldest are only sixteen."

"Are?" said he, not understanding.

"Triplets," replied the lady; "my family comprises three sets of triplets and four of twins. Then I have four other alive, but I have unfortunately lost six. Otherwise my family would number twenty-seven. Come and see how we live."

Frau Navoczny led me to two adjoining rooms which are arranged as dormitories. In one of them six beds with scarlet covers are ranged along the walls. Three children sleep in each. The last twins, lusty infants of two years, have a cot in their parents' room, where the Benjamin of the family, aged four months, also lies in a cradle.

"But how on earth do you manage to exist?" the correspondent asked.

"My husband has good work and allows me 200 marks a week ($50 at pre-war rates); five of the children also work, and are able to contribute something, while quite a number of people who are interested in my little family are very kind in sending me useful things.

"Thank heaven, my children are healthy. I must admit that it is sometimes hard to feed the whole circle. My husband can eat the week's ration of potatoes at one meal and that means buying a lot at fancy prices Meat? We have a nice stew on Sundays regularly."

The visitor remarked how pleasant it must be to see the whole family sitting down to its Sunday meal. Frau Navoczny laughed. "Don't you picture us all sitting round the table," she said. "No; we eat in three parties. We used to take some of all ages in each party, but we found that a mischievous triplet or twin would sometimes secure two dinners at the expense of one of his brothers or sisters, so now we sit down by ages. But they do eat a lot."

The rooms were spotlessly clean, and the nine children seen during the visit all looked well kept.

"Some people," said Frau Novoczny "express their sympathy with me. But they can keep their sympathy. They simply don't understand. I love all my children and wouldn't be without a single one of them."

MOSQUITO BITES PART OF THE ASSUMED RISK OF EMPLOYMENT

New York, March 15—The tale of a ship beset by swarms of mosquitos during a voyage along the South Atlantic coast was unfolded in a complaint filed in Brooklyn Supreme Court in a suit for $5,000 damages brought by Hendricus De Raay, a sailor. De Raay alleges that after he had been severely bitten the officers of the Gulf Coast refused to give him ointment. The company has asked for a bill of particulars, declaring that mosquito bites were part of the assumed risk of employment.

STARCHY FOODS NEED TO BE CHEWED

While milk is an ideal food, there are others, and Dr. Harry Campbell sounds a warning in the Practitioner (London) against the dangers of cow's milk to children. He says it has destroyed hecatomgs of children through tuberculosis and has encouraged a diet of those messy puddings that are rarely chewed. Dr. Campbell points out that man is not vegetarian, but that animal food is his natural diet. He urges the use of butter, bacon, margarine and dripping on bread rather than jam. A taste for salads should be cultivated early in life and far too little raw vegetable food is eaten. Raw carrots added to salads, raw apples, rather than cooked, raw cabbage in the form of cold slaw, these are a few of the things that we should eat, as well as meat.

The so-called breakfast foods, consisting of crushed or partially cooked grains are responsible for the too common habit of not chewing, though starchy foods really need chewing at least as much as meat does, for it is the saliva that digests them.

Sir Oliver Lodge Speaks To Big Crowd On Death

A packed Massey Hall hung on the declarations of Sir Oliver Lodge, noted interpreter of scientific phenomena now visiting Toronto. With many undoubtedly, curiosity was the impelling motive, but there could be no shadow of doubt that behind the almost reverent tenseness of hundreds there was a heart-ache. For these his special message was:

"Let me beg of the bereaved people here to believe that their sons and brothers and husbands are in no way, in no sort of way, extinct or hurt. Bullets and shells are not among the awful things that assault and hurt the soul. They themselves, their memories, characters, affections, persist. They are more aware of us than we are of them. They long for us to think affectionately of them although not to mourn them unduly; to cultivate the science of communication, if so it may be, whether through mediums or otherwise and look forward to reunion."

His great researches, he said, had evolved no new religion for humanity. "Just Christianity," he declared. "That is what I have come back to, the simple gospel of nineteen hundred years ago; that is what I see as the outcome." With deliberate words and apparent great concern he cautioned his hearers to beware of fraud and deception, "by despicable people, of whom I hope there are none, or very few." Once, in humorous vein he declared that suicide would no more extinguish a human being than would emigration. Seriously, at the end of his address, he said: "Above all, don't try life in another world before your time. You have got to do your jobs here and make yourselves worthy of life hereafter."

In opening, Sir Oliver remarked that this was his first lecture in Canada since 1881, in which year he appeared before the British Association in Montreal. "Let me make it quite clear," he said, "that I understand that many of you have come merely to hear politely what I have to say as the result of my long study on this subject .... willing to listen and to believe that at any rate I do not preach this subject lightly or without great consideration."

TO COMFORT BEREAVED

He asked for acceptance of "the substantial truth," of what he said, rather than the "precise accuracy of everything I say of the main facts." He added: "My theories, in so far as I have time to tell you any of them, are tentative, working hypotheses and may be modified. Some of them may be rejected."

He explained his appearance on the lecture platform as due to the "fearfully heavy bereavement in our country and in this great Dominion." He felt "that these facts known to me ought to be not merely stated in a cold-blooded scientific manner as heretofore, but applied to the comfort and help of bereaved people so far as they are willing and able to make use of them."

"Is death the end or is it a mere episode in life?" Sir Oliver asked. "The latter has been the conclusion of poets and seers from time immemorial but it is not universally recognized. There has been too much superstition mixed up with our idea of death, too much attention to crepes and graves and the notion that it is important what happens to the body, too much association of the individual with the body which has been left behind, too little with the animating member that goes on." Socrates, he said, grasped the truth as instanced in his reproof to his friends, before drinking the hemlock, that it didn't matter what they did with his body after death, because he should not be there.

"Death, the leaving of the matter behind, seems to me so simple and easy a thing to conceive as compared with birth, the incarnation and incorporation of life with matter. How does that life and mind become associated with matter for a time until the material body wears out? That is the thing to which we are so accustomed that we take it for granted. It is in reality a kind of miracle.

"The question is: Can consciousness exist apart from the material body? Appearances are against it, but we ought to learn not to be guided by appearances. Appearance and reality often differ. If we limit ourselves to what we directly see and feel and hear by the senses and say that is all that exists we are stultifying ourselves and reducing ourselves to the mental calibre of the animal.

"I also feel sure our conception of the universe is very inadequate. No matter how we have conceived it, I am certain we cannot, even in our imaginations, come up to the reality of things. The more we study it, the higher we go and the more of it our mentality grasps the more we discern our inability to comprehend. Our senses were not made for philosophy, but for the preservation of existence. If we use them for other purposes, no wonder we make mistakes. The wonder is that we have got on as far as we have.

STOPPED HER HEADACHES
Years Of Suffering Ended By "Fruit-a-tives"
112 HAZEN ST., ST. JOHN, N. B.
"It is with pleasure that I write to tell you of the great benefit I received from the use of your medicine "*Fruit-a-tives*", *made from fruit juices. I was a great sufferer* for many years from *Nervous Headaches and Constipation*. I tried everything, consulted doctors; but nothing seemed to help me until I tried "Fruit-a-tives".
After taking several boxes, I was completely relieved of these troubles and have been unusually well ever since". Miss ANNIE WARD.

RED LEADERS FANNED FLAMES OF DISCONTENT

Winnipeg, March 16.—After four days' delay enforced by the illness of juror Jack, the trial of the seven strike leaders was resumed. A. J. Andrews, K.C., who had spoken for two days before adjournment, continued his address. In opening, Andrew's reviewed the evidence of seditious conspiracy in the Walker and Majestic Theatres' meetings and in the Calgary convention. He said the Crown contended that every person who participated in the Walker meeting and the Calgary conference was guilty of seditious conspiracy and also that all the accused who belonged to the Labor Council were likewise guilty because the council unanimously adopted the Calgary convention report.

Returning to discussion of the propaganda waged by "Red" leaders, he said: "The note of their agitation was fanning the flames of discontent." The selfishness of "Red" leaders was one chief characteristic of their propaganda, he said.

SIX THOUSAND DOCKERS NOW ON STRIKE

New York, March 16—Longshoremen of coastwise and steamship lines in Boston and Savannah have joined in the strike for higher wages begun here Saturday by coastwise workers of the International Longshoremen's Association, according to Joseph D. Ryan, vice-president of the I. L. A. Other cities, the union official declared, would join the strikers today. Six thousand men are out in New York. Following the action of the Fall River Line in hiring 250 strikebreakers, Ryan issued an ultimatum today in which he called this move on the part of the operators dangerous, and threatened again a general tieup of all navigation in the port of New York.

The longshoremen were awaiting the arrival of T. P. O'Connor, international president of their union before taking action in the strike.

◆

LEAGUE LOPSIDED IF AMERICA OUT

London, March 16.—Herbert H. Asquith, former premier, in a speech last night, dealing with the League of Nations, said that as long as the United States did not share in the League, it must be a fragmentary and lopsided aspect. As far as he was able to judge, Mr. Asquith added, a vast majority of the people in the United States sympathized with the spirit and purpose of the League. It was impossible to believe that after rendering such signal and decisive service to the greatest cause ever at stake, the nations would allow the principles which inspired the Allies to be left in jeopardy.

Would be a calamity to the world and a terrible impoverishment of the League's resources, Mr. Asquith declared, if during the trying and critical times, ahead, America could not be relied upon as a partner and associate in the League.

LINDSAY WELCOMES HOME MAJOR-GENERAL HUGHES

Lindsay, March 13—A civic welcome was tendered Major-General Garnet Hughes, son of General Sir Sam Hughes on his return from overseas, he having been absent for six years in the service. A large procession was formed at the C.P.R. depot headed by the Citizen's band, Boy Scouts, veterans and citizens, and the distinguished young officer was conveyed to the home of Sir Sam and Lady Hughes on Glenig Street, where he was welcomed by John Carew, ex-M.P.P., and other prominent citizens.

HIS JAW NOT PUCK; HOCKEY FAN SUES

Toronto March 16—Newberry Mooney has entered an action against Arena Gardens, Ltd., for damages. He claims he went to a hockey game at arena on January 21 last and was hit on the jaw with a hockey stick, which accident he claims was due to the negligence of the company.

COAST CHAMPIONS TO JOURNEY EAST

Ottawa, March 16.—The Stanley Cup ownership is to be decided, according to the usual rules, by the best three out of five games, the first to be played under Pacific coast regulations and the other alternated until one of the clubs has won three games. The eastern club must give the invaders a guarantee of $6,000 and thirty per cent. of the receipts go to the rink for each club split the proceeds of the first three fixtures on a basis of sixty per cent. to the winner, forty per cent to the loser. As the expenses of bringing the coast champions down are terrific, the prices will, of course, be increased.

President Fred Hambly of the Toronto St. Patrick Hockey Club, states the world's series games between Ottawa and Vancouver or Seattle, would draw capacity crowds at Toronto because the Ottawa team is very popular there and because Toronto is hockey crazy.

"I'll make you an offer for your gates if you turn the series over to our club," said Mr. Hambly at Thursday's meeting of the National League. Unfortunately the Toronto Arena cannot be secured before March 27th.

TIGERS TRIMMED

Toronto March 16—When the skeptical Tiger ventured forth from his lair in Hamilton last night he was limping and dejected but when he was carted home battered, beaten and bedraggled the faithful few followers who accompanied him here could neither console him nor apologize for his 5 to 0 defeat at the hands of the gallant Granites. In Hamilton last Friday night the Granites held the Hamiltonians to a 2 to 1 score in the first game of the O.H.A. senior semi-finals, so the score on the round is 6 to 2 figures which admit of no argument.

From top to bottom and from end to end the big arena was rammed full of people—"rammed" is the word. The game was the thing. around the rink early in the evening and police reserves from various stations were detailed to the neighborhood to control the throngs. Automobiles lined the curbs for blocks and blocks in all directions. The rain mattered not to the long rows of fans. The game aws the thing.

Inside the big structure the great crowd packed seats and promenades, and it was with much difficulty that the police kept the aisles clear. Spectators stood on the ubiquitous soap box, clung to the sills of the windows, elbowed and jostled good-naturedly for a glimpse of the battle on the ice. Along the steel girders at dizzy heights the more reckless perched like crows on a fence.

THE RING.

WILL WILLARD COME BACK

Notwithstanding reports to the contrary, Jess Willard does want to "come back." He has written Tex Rickard several letters on the subject offering to do all manner of things, just for another chance at Jack Dempsey. For instance, he would go off into the mountains for six months or put himself under a course of Billy Muldoon's strenuous training; anything in fact, to get into the best of condition. Strange to say, Willard has no great desire to become champion again. He simply feels that he did not do himself justice in that ring in Toledo on July 4 last, and wants to prove that, in proper condition, no man of Dempsey's weight and size can reduce him to the pulp he presented when the towel went in acknowledging his defeat.

Willard probably is honest in his desire to meet Dempsey again or he wouldn't write letters to Rickard asking him to arrange another match with his conqueror, but he might go about the matter in another way. He might, for instance, seek a match with Fred Fulton and use that as a stepping-stone to a second meeting with Dempsey.

CARPET BALL

This evening an interesting game of carpet ball will be played between teams representing the Belleville Carpet Ball Club and Lydford Lodge Sons of England. The game will take place at the hall of the latter society.

THE TRACK.

"SPORT OF KINGS"

Ottawa, March 16.—Tommy Gorman writing in The Citizen, says:

"In view of the report on general racing conditions, presented to the House of Commons by Dr. J. G. Rutherford, the Dominion commissioner the feeling is strengthened here that the sport of kings will come back strong in Canada during the coming summer. Dr. Rutherford's exposure of the methods in operation on the half-mile tracks, however, probably sounds the death knell of the alleged "bull rings," and racing, as prophesied some time ago, will probably be restricted to the permanently organized clubs, with one-mile circuits. It is possible that one or two of these will disappear when the proposed government legislation is introduced, but just when this bill will come down as problematical.

"Conditions as they existed prior to the enforcement of the order-in-council prevail again, and unless action is taken, all the tracks will reopen. Dr. Rutherford's report contrary to expectations, did not carry any specific recommendation as to proposed taxation, but this will, of course, be dealt with by the Dominion government or left to the various provinces."

U. S. ENGINEERS FAVORS WATERWAYS SCHEME

Windsor, Ont., March 16—A plea for a greater spirit of co-operation between the United States and Canada to push the deep waterways project was urged by Dr. Isham Randolp, one of the leading engineers in the United States, speaking to the members of the Border Real Estate Board.

The Welland Canal, the Lachine Canal and others on the St. Lawrence built by the Canadian Government, were seen by him as connecting links of the greater waterway which he is confident will be constructed.

"This great waterway will be of greater benefit to the United States alone than the Panama Canal is to the whole world," he said. He spoke of the kinship between the peoples of Canada and the United States, but warned his audience that there were men in the United States Senate who would oppose any project that savored of Great Britain.

TOO MANY TINKLING CYMBALS.

Most of the trouble in this old world is caused by wagging tongues. We all talk too much for our own good and the good of others. Take a little yourself—you know what I mean. Things are said, trivial enough in themselves if they stop there; but the trouble is they generally travel, the little poisoned barbs gathering strength and venom as they travel straight toward the place or person where they will do the most harm. In our private walk and conversation if we would only try to say nice things of people instead of nasty things and school ourselves in that wondrous charity which "suffereth long and is kind; envieth not; vaunteth not itself; is not puffed up; . . . thinketh no evil; . . . beareth all things; believeth all things; endureth all things. Charity never faileth—

"Though I speak with the tongues of men and of angels, and have not charity, I am become as sounding brass, or a tinkling cymbal"

Don't be a brass-lunged imitation of a real man or woman or a tinkling cymbal of petty gossip!

CANADA SERVES NOTICE.

Under the caption, "Canada Serves Notice on Lodge," The New York World says editorially:

> The word-mongering and phrase-making at Washington have spread into Canada like a contagion, and the Dominion House of Commons is painfully interpreting Senator Lodge's interpretation of that clause of the League Covenant which gives Great Britain and its dependencies six votes.
>
> As the President of the Privy Council views the matter, the reservation adopted by the United States Senate does more than deprive Canada of a vote in the League when some portion of the British Empire is in disagreement with the United States—a principle which applies to all members engaged in disputes, and to which he offers no objection. What he condemns is the apparent denial that Canada is a nation and the purpose of certain United States Senators to relegate it to its former colonial status.
>
> Many questions were asked and some statements made in the course of the debate, showing that the fatal verbal distemper was becoming rather violent, but the spokesman for the Government proclaimed himself an irreconcilable, with no disposition to quibble or parley. If the United States is to ratify the Peace Treaty on any condition impairing the independence of Canada, he said, that country, already a signatory, will refuse its assent, and if through any influence Great Britain should fall in with such a proposition, Canada would withdraw from the league at once.
>
> Here we have an ultimatum for London no less than for Washington, and there is a great deal of reason behind it. Canada has earned its place in the world, and, unlike the Senatorial representatives of its powerful neighbor, is not afraid to assume the attendant responsibilities. In beginning its career as a nation by challenging both the United States and Great Britain it has set a smart pace for itself."

.·. CRISP COMMENT ·.

Some people grow under responsibility, others merely swell, said a wise man. When the swell subsides only froth remains.

Toronto is informed that the 1920 tax rate will be BROUGHT DOWN next Thursday. PHRASE BROUGHT DOWN is a figure of speech, not a figure on the tax bill this year, and Thursday always was Toronto's unlucky day.—Toronto Telegram.

× × ×

Commissioner Bradshaw's warning to the Controllers regarding Toronto's finances is none too emphatic. The spending craze of the city fathers is terrifying the people of the city. Nearly everyone asks where the city is getting to in its tax rates, high assessments, and exorbitant costs of living.—Mail and Empire.

× × ×

The Syracuse Post-Standard prints several pages of Rev. "Billy" Sunday's campaign addresses in that city, and at the bottom of the last column appears the warning: "Copyright, 1917, W. A. Sunday." In the olden days religion was without money and without price, but times have changed.

× × ×

Anyone who expected a love-feast in the Legislature participated in by the Conservatives and Liberals were disillusioned when Howard and Hartley took off the gloves and went at it bare knuckles. The Grenville Boy was given the decision on points by the pressmen present—but the farmer legislators enjoyed the scrap immensely.

× × ×

We were led to believe that the entrance of women into politics would raise politics to a higher level, says the Kingston Whig, but the very opposite seems to have resulted. On emerging from a convention of Democratic women at Albany, a woman remarked: "We had a hell of a row there." Perhaps the women who refrain from mixing in politics are the wisest after all.

× × ×

Rev. Billy Sunday, or irreverent Billy Sunday, whichever way you look at it, talks of being a candidate for the Presidency of the United States. Talk is about the best thing Billy does, but he promises if elected to make "Ma" Sunday Secretary of State, with Henry Cabot Lodge as second choice; sort of a reservation, as it were. How about Ma Sunday for President and Billy for Secretary? Listens like a better combination at that.

× × ×

Suppression is Ben Spence's favorite expression. Strange how Big Ben has become! Formerly he was as a voice crying in the wilderness—a Pioneer plaint in an arid waste. Then the Germans kicked over the bean-pot and by-and-by Ben became a Bigger and, let us hope, a Better but not a Wetter Ben, and was invited to join the outer circle of courtiers of Drury, the Farmer King, who left the plough for the political pulpit, accompanied by some of the hired men, while Billy Hearst went back to his beloved Soo and got him a job on an even bigger waterwagon. Tom McGarry returned to Renfrew to take a prolonged vacation on the verandah of O'Brien's Hotel, and the only one left to keep house was Fergy, old boy, who will see to it that the farmers hoe a straight row or know the reason why because. But to come back to Ben Spence, editor of the Dry Pioneer, it all goes to show that there is something in the old saw "everything comes to him who waits," and Benny Boy waited a long time for the dry wave to come his way; at that he don't seem to be happy now that he has it. No fight, no fun, and fewer marbles. Eh! What?

OTHER VIEWS

A Belated Critic
(Hamilton Herald)

Dr. Michael Clark, who has attacked Sir Thomas White because the former finance minister failed to make the war bonds taxable, should consider that the failure of those war loans would have meant disaster for Canada. It is not on record that Dr. Clark demanded, at the time the bonds were issued, that they should be taxable.

Paper Waste
(Kingston Whig)

The Brockville Boy Scouts are to collect old papers and magazines in order to raise funds. Here is a suggestion for some local institution to add to its coffers. Tons of paper are wasted monthly in Kingston.

Object Lesson In Thrift
(St. Thomas Times-Journal)

Daniel Willard, president of the Baltimore & Ohio Railroad Company, in an appeal for economy sent to all employees of that road, says: "If only one scoopful of coal in every twenty could be saved by locomotive firemen—not an impossible thing—it would result in an actual saving of more than $700,000 a year," to that one road.

Not Entertaining Any "Fold"
(Woodstock Sentinel-Review)

The Hamilton Times asks when the Sentinel-Review is to return to the Liberal fold. What does the Times mean? A fold is defined as a sheep pen? Has the Liberal party a sheep pen? If so, the Sentinel-Review cannot return to it, because it never left it, and it never left it because it was never in it. The Sentinel-Review has never regarded itself as a sheep and it cannot take kindly to the idea of being penned in, herded and watched over. The Sentinel-Review had advocated Liberal principles and it has understood them, and has endeavored to keep in touch with the development of Liberal ideas and methods. It cannot return to the principles of Liberalism as it understands them, because it has never consciously abandoned those principles. When it became a question of choosing between country and party at the time of the movement which led to the formation of Union Government, the majority of the Liberal papers of Canada did not hesitate to give the country the preference over the party, and they did this in the free exercise of their own will.

The Poet's Corner

THE SONG OF THE WONDERFUL HOUSE
By Louise Ayers Garnett

I've heard of such a lovely house
I wish you'd help me find it!
It's made of cake, with cooky walks
  Before it and behind it.
The fence is made of peppermint
  And trimmed with candied cherries,
While butterflies float all the day
  Like happy little fairies.

A fountain's in the big back yard,
  A lovely soda fountain,
And right behind, of chocolate,
  A most delicious mountain;
And if you milk the cows youll get
  Ice-cream in any flavor,
And you may have a quart or more
  By showing good behaviour.

The nut trees all are full of nuts
That beg that you will take them;
The shells are made of maple, so
  You will not have to break them;
And ev'ry pretty bird that flies
  Is there, and sweetly singing,
And all the bluebells—think of that!
  Their little bells are ringing.

Now, if what I have heard is true,
  Some day, in pleasant weather,
I'll take your hand, and you'll take mine,
  And we'll start out together
To find this lovely house and yard
  With all their goodies teeming,
But don't you speak, for fear I'll wake
  And find that I've been dreaming!

A Laugh or Two

No Scarcity

"All the world's a stage."

"Yep, and there's no scarcity of monologue artists."

Overheard

Mrs. Green (relating experience)—It hurt something awful. The dentist wanted to give me gas, but my husband wouldn't hear of it. You see, he'd been gassed hisself in France."

Knew His Place

"Did you order ham and eggs?" asked the head waited.

"Certainly not. I humbly requested them."

Ode to the "Owl Cat."

Twinkle, twinkle, little light;
Soon you will be out of sight,
It makes me sad to think you are
Upon the rear of the last car.

Why He Was Late

Teacher—How is it that you're so late, Tommy?

Tommy—'Cause there was a man pinched for stealin' hens and setting a house on fire, an' knocking down five policemen, an' mother sent me around to see if it was father.

Christian Science Teaching Scored

TORONTO, March 16.—Rev. R. C. Blagrave in a lecture at St. Hilda's College criticized Christian Science teachings as "absurd," and in a searching analysis dealt with the teachings of Mrs. Eddy and her followers.

"We are inevitably led to the conclusion," he said, "that mortal mind is responsible for something quite as elusive as the material universe when it gave rise to the fancies and illusions of Christian Science, which is the best evidence there is of the absurdities into which mortal mind, if not properly directed and diciplined can lead."

Following a thorough examination of the doctrines of Christian Science the speaker said in part:

"The great attraction of Christian is, however, the solution it offers or the great problem of pain, which has baffled the understanding of men since the beginning of time. The Christian believer is to some extent at least, satisfied in the knowledge that Christ suffered for us and God in Christ, and therefore, the aim and end is good. Christian Science offers a new solution which purports to give an answer to this perennial question, as urged from the philosophical point of view. The answer, moreover, is a very practical one, for it not only answers the question in theory, but undertakes, in fact, to remove pain and suffering; a most welcome enterprise for a sick world. It simply says there is no pain because there is nothing to be pained. Get rid of illusion and the pain is gone. This is the point of demonstration as required by Science If healing can be effected by translating belief into practice there it is clear. This main contention is true. Let it be noted that the whole structure of Christian Science turns upon this key principle, because in every other regard, members of the cult are like the rest of us, under the spell of mortal mind. Will the key principle hold? Is healing a demonstration in which there is no place for doubt? For that is what a demonstration scientifically understood, must mean. If it can be shown that sickness has been healed and cures affected, from time immemorial by a force, which, in the last analysis is the same force as that exercised by Christian Scientists in their method, without any knowledge of, or belief in, their principle, or doctrine, whatever, out in a different faith and by a different belief, surely it is a conviction that their healing is no demonstration of the truth of their teachings. We do not deny that cures are effected by Christian Science, but we are asserting that the cures that are affected are not a demonstration of their teaching as to delusion, which is the main principle of their belief, indeed their whole contention. In the first place their cures are no so general nor so successful, as is popularly believed. They become ill and die like other people. Their children contract contageous diseases like other people's children. They have accidents and bruises, and bear them as other people do. Many people are known to have died through the persistance of healers and friends, who refuse to appeal for proper medical care. Cures are claimed which are only temporary. One is cured of cancer and joyfully asserts the great glory of the Science but in the end dies of cancer. Another is cured of tuberculosis, and lives on in glad optimism, under the force of the dominant idea, but eventually dies a victim of the same disease. Still another is cured of defective eyesight and throwing away glasses, struggles to get on without them; but reading is a great effort and presently is abandoned altogether, organic diseases are but rarely cured.

But such cures as are wrought are not peculiar to Christian Science, hence, as proof demonstration breaks down. Cures of primitive medicine men, when they were successful, were wrought through the people's other methods adopted by them. People were healed in Europe in the old days by what was known as the King's touch. Many undoubted cures have been wrought at Lourdes, and what have we to say as to the testimony borne by the thousands of crutches and artificial supports, left in our own Stanne de Beaupré in Quebec?

Wise Guy

Friendly Constable—"Come, come, sir, pull yourself together; your wife's calling you."

Convivial Gent—"Wha' she calling me; Billy or William?"

Constable—"William, sir."

Convivial Gent—"Then I'm not going home."—London Blighty.

Companions in Crime

Customer—Do you make any reduction for those in the same line of business?

Waiter—Yes, are you a restaurant keeper?

Customer—No, I'm a robber—Le Rire, Paris.

Tactful

She—"I appreciate the compliment, but I'm afraid I could never make you happy."

He—"Oh, yes, you could. You don't know how easily pleased I am."

STANDS FOR EVERYTHING PURE AND RIGHT IN MILLING

The Good Judge Finds:

—that this business was really founded over 50 years ago by Mr. Edgar Judge, who started in the Flour business in Montreal, and is still at it. He never advertised, but has now concluded that with the new modern Plant at Belleville, built specially to serve Central and Eastern Ontario, it is best to let people know just how good PRINCE OF WALES, CARTIER, and ECONOMY FLOURS are.

If ever you find a Flour better than these Brands, you have something worth tying up to.

PURPOSE OF PUMPS WITH FRENCH HEELS

New York, March 15.—Mae Gallagher, a 19-year-old stenographer, who sued the Hudson and Manhattan Railroad Company for injuries to her left knee caused by her skirt being caught in the door of an elevator in the Hudson Terminal building, got a verdict of $8,000 and a laugh in the Supreme Court, Brooklyn. The laugh came when the attorney for the defence, after Miss Gallagher had demonstrated that she walks with a limp, remarked: "Why shouldn't she limp—look at those French-heeled pumps she's wearing."

"Those pumps help me to walk," snapped the fair plaintiff.

"Why certainly," said Justice Van Siclen with finality, "the pumps take the water off the knee."

Eugene Brosseau knocked out Young Fisher of Albany in the fifth round at Montreal.

NOTICE TO CREDITORS.

In the Matter of
"LAZIER PAPER MILLS LIMITED"
in Liquidation.

NOTICE is hereby given that the said "Lazier Paper Mills Limited" with head office at the City of Belleville, in the County of Hastings, Paper Manufacturers, (Ont. Cor.), have in pursuance of "The Ontario Companies Act" and amendments thereto at a special general meeting of the shareholders passed a resolution requiring the Corporation to be wound up, and have appointed John Gordon Moffat of the City of Belleville, Bank Manager, Liquidator.

The Creditors of the said "Lazier Paper Mills Limited" (Ont. Cor.) are on or before the 25th day of March 1920 to send by post, prepaid to Stewart Masson of the City of Belleville (Bank of Commerce Chambers) Solicitor for the Liquidator of the said Corporation, their Christian and surnames, addresses and description, full particulars of their claims, a statement of their securities and the nature of the securities (if any) held by them; after which date the Liquidator will proceed to distribute the assets of said Corporation, having regard only to such claims as he shall have notice of, and will not be responsible to any Creditors of whose claims he shall not have received notice.

Dated at Belleville this 23rd day of February, 1920.

S. MASSON,
Belleville, Ont.
f24,m2,9,16 Solicitor for the above named Liquidator.

BE CAREFUL WHAT YOU WASH YOUR HAIR WITH

Most soaps and prepared shampoos contain too much alkali, which is very injurious, as it dries the scalp and makes the hair brittle.

The best thing to use is Mulsified cocoanut oil shampoo, for this is pure and entirely greaseless. It's very cheap and beats anything else all to pieces. You can get this at any drug store, and a few ounces will last the whole family for months.

Simply moisten the hair with water and rub it in, about a teaspoonful is all that is required. It makes an abundance of rich, creamy lather, cleanses thoroughly, and rinses out easily The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dandruff.

◆

PLOT ALLEGED TO RAISE COAL PRICE

Indianapolis, Ind., March 13.—Indictments charging conspiracy were returned against 125 mine operators and coal miners by a special Federal Grand Jury in United States District Court here.

The charge as reported in conspiracy under the Lever Act to enhance the price of necessaries by restricting distribution, limiting manufacture and by other means, and conspiracy to commit offences against the United States, as defined in the Criminal Code.

Names of those indicted will not be announced, except as each defendant is served by a United States Marshal with the indictment notice, it was said. All the men are said to be active in the so-called central competitive field, which embraces Indiana, Illinois, Ohio and Western Pennsylvania. More than one-half of the defendants are said to be mine operators.

The indictments are drawn under Sections 4 and 9 of the Lever Act and Section 37 of the Criminal Code. The penalty upon conviction is said to be a fine not exceeding $10,000 or imprisonment for not more than two years, or both.

◆

$45,000,000 THEFTS FROM CARS SHOWN.

Booty Double That in Any Pre-War Year.

Wholesale looting of merchandise in transit on the railroads of the United States caused a loss of approximately $45,000,000 in 1919, according to United States Railroad Administration statistics made public recently.

This is estimated to be more than double the losses sustained in any pre-war year, but it is pointed out that the increased cost of the commodities stolen, roughly estimated to average 85 per cent. must be taken into consideration when comparing the losses in the days of low prices with losses now. Nevertheless there has been a steadily increasing number of packages stolen, and the organization combatting the thieves have met an increased ingenuity in diverting goods from their owners.

A technique of robbery has been developed so highly that the methods of "master thieves" are similar in the United States, England, France, Italy and Argentina, according to a recent report of the United States Chamber of Commerce in Argentina. Detectives, however, are inclined to discredit that organization's belief that a "widespread international organization" is at work stealing merchandise.

Substitution is the usual method used by the thieves. Sometimes boxes supposed to contain velvets are found at their destination to be filled with calico or other cheaper grades of cloth, but as a rule, waste paper is found. These are referred to as "concealed losses" by railway men, and are especially difficult to trace, as the shipment leaves and arrives apparently in good condition, and it is almost impossible to discover at what point the theft occurred.

The silk industry has been one of the most severely hit in the last year, and so great has the risk become that the Railroad Administration has been considering excluding raw silks from the privilege of freight transportation by rail. The Merchants' Association of New York, through its traffic bureau, has protested against such an exclusion, advocating some less radical measure to minimize or prevent the theft of silk in transit.

British Workers Rout Extremists

Rejection of the Miners' Demands Will Add Greatly to labor's Prestige

LONDON, March 16.—Britain's organized labor constitutional leaders scored an overwhelming victory over the extremists in Labor's ranks when the Trade Union Congress by a vote of 3,870,000 to 1,050,000 decided to press for the nationalization of mines by political means instead of direct action. The Miners' Federation declared for direct action. It is expected the miners will in the face of this defeat, demand big increases in wages.

The action of the Trade Union Congress will add greatly to Labor's growing political prestige, for many men who have grown tired of the other parties have withheld their support from Labor because they feared the constitutional leaders were unable to hold the extremists in line.

When organized labor was called upon to decide as the alternative to political action to throw the country into chaos, it rallied to its constitutional leaders. There still are acute days ahead, but the British workers are anxious to consolidate their gains, both politically and economically, and are not in the mood to respond to a call to destroy all they have achieved since the armistice, and also at the risk of solidifying other classes against them. As J. P. Thomas told the Congress direct action would lead to bloodshed.

◆

KEEP BULBS CLEAN AND TIGHTEN LIGHTS

Keep all the light bulbs in the house clean all the time is the advice of dealers to many who grow discouraged over light bills and defective lighting. Many neglect this important duty.

In the bathroom and in the kitchen for instance, the bulbs require almost daily cleansing on the steam clouds and the dust which sticks wherever there is moisture.

Gently rubbing the bulbs daily with a soft dry cloth, the dealers say, will make a surprising difference in the efficiency of the whole lighting system.

Another "tip" is to tighten all lights in their sockets daily.

◆

STILL FOUND ON RAMA FARM

Orillia, March 15—Preventive Officer Floody of the Inland Revenue Department and Inspector Fisher seized a distillery apparatus on the O'Connor farm in the township of Rama. The articles were brought into town and will be in charge of Constable Trinkwin until the trial.

ABOUT THE SEED DRILL

What Is Considered to be the Most Efficient Type.

The Feeding Device Is the Heart of the Drill—Seed Should Be Dropped Directly Under the Axle of the Disc—Give the Bearings Careful Inspection.

(Contributed by Ontario Department of Agriculture, Toronto.)

AS the drill sows, so shall the farmer reap, is no fallacy. It is as true in its content as the maxim "As a man sows so shall he reap." Given the right kind of a grain drill, the seed is all planted at a uniform depth, evenly covered; the earth compacted just enough to retain the moisture around it. These conditions mean that the young plants will all come up at the same time, that the roots will be well protected, and that the grain will ripen uniformly. As the grain is planted, so will it grow and ripen. If some of the seed is planted too shallow, and some too deep, the seed that comes up first, ripens first. Thus it is that some of the grain is ready to harvest while other patches are still in the milk stage.

The feeding device is the heart of the grain drill. Upon its reliability depends the accuracy of sowing the seed. The drill scale is computed for the average sized seeds, and therefore cannot always be depended upon when the size of them varies from the normal. If the grain is oversized or undersized the required amount per acre may be sown by setting the feed lever at a point slightly greater or slightly less than shown on the indicator. There are, in common use, two different forms of feeding devices. The fluted-cylinder-force feed, and the double-run-force feed. The amount of seed sown by the fluted-cylinder-force feed may be regulated by a lever which changes the size of the outlet, but it does not always handle all classes of seed without breaking them, as can be done with the double-run-force feed, which necessarily requires for driving it a disc wheel, or a cog wheel with from nine to fifteen sets of cogs that make as many speeds or feeds.

In the most efficient type of grain drills the seed should be deposited as nearly directly under the axle of the disc as possible, as this is the only place where the seed can be dropped directly on to the bottom of the trench without hindrance. By this method the disc is not run deeper than the seed is deposited, thus the draft is reduced to a minimum. If the seed is deposited in the rear of the centre of the axle, the rotation of the disc tends to carry earth and seed up with it, causing the seed to be unevenly deposited. In operation, a properly angled disc opens a trench about two inches wide. The falling seed strikes the concave side of the shield and the convex side of the disc, and is thus scattered evenly over the entire width of the trench.

Grain seed drills are divided into four kinds, according to the type of furrow-opener — the open delivery single disc and the closed delivery single disc, the double disc, the shoe, and the hoe drills. The open delivery single disc furrow opener deposits the seed between the shield and the convex side of the disc. The space is open from the end of the boot between the disc and shield to the bottom or lower end of the shield. The shield prevents the falling seed from becoming mixed with the loose earth and surface trash and insures its free passage to the bottom of the trench made by the disc. It will also do excellent work in highly cultivated soil that is free from trash.

The closed delivery single disc furrow opener has a closed boot, similar to a hoe furrow opener, which comes down at the rear edge of the disc and deposits the seed about two inches back of the disc. It does not plant the seed at as even a depth as either the open delivery single disc of the double disc, but deposits it at least eight inches in rear of the disc hub, and wherever it meets with an obstruction, rock or hard frozen soil the disc rises up and carries the boot with it, broadcasting the seed on the surface.

There are many styles of double discs, but the one that plants the seed under or slightly back of the disc axle, or hub, is the one to use, for that point is the deepest part of the furrow. The furrow opener that shoots the grain forward of this centre is to be avoided, for the reason that the seed reaches the ground before the furrow is fully formed, and it is, therefore, mixed with the soil as the seed trench is being made, causing what is termed "wavy" sowing. The double disc type of opener tends to spread out the seed more than other kinds, so that each seed has a somewhat greater area from which to draw moisture.

The hoe furrow opener or shovel opener does not penetrate the ground readily and clogs easier than any of the other types. The shoe opener does no better work, and rather than clog will run over trash and thus plant the seed at varying depths.

In selecting a drill the bearings should be given careful inspection. They should be dust proof. The hard oiler must be considered superior to all others for this kind of work, as the oil can be forced into the bearing from the centre, and as it works out it carries all the dirt with it. It should have a well-braced seed box with steel hopper bottom to allow the seed to pass freely into the cups; strong frame and substantial wheels are important features. The distance between the furrow opener varies to some extent but six inches is the usual spacing. The seed tubes may be of rubber or of steel ribbon. The rubber tubes give good satisfaction, but are not durable if exposed to the weather. The steel ribbon tubes serve the purpose well, and if painted will last as long as the drill.—Jno. Evans, O. A. College, Guelph.

How jolly is a street car ride!
How many pleasing things betide!
Our over-crowded cars are rife
With bacilli, endangering life;
There's but one thing that makes us sick—
Poor sardines, we've no room to kick.

Tries to Abduct Dempsey's Wife

San Francisco, March 13—A plot to abduct Mrs. Maxine Dempsey, divorced wife of Jack Dempsey, heavyweight champion indicted for draft evasion, and either get her out of the country or force her to agree to change her testimony, has been uncovered, according to agents of the Department of Justice.

This sensational development in the investigation into slacker charges against the boxer and his manager, Jack Kearns, came with the arrest, in Salt Lake City, of Bert Gardner, an intimate friend of Dempsey. Special Agent Orr apprehended Gardner, and Gardner voluntarily accompanied him to Los Angeles, where, it is said, he faces investigation on charges of threatening, intimidating and influencing a witness.

After the Grand Jury investigation, Mrs. Dempsey sought seclusion in Yakima with her mother. While there she was invited by Gardner to go to Tia Junana and play the races, it is alleged. She went South, and, it is understood, took the Federal authorities into her confidence.

Whether an attempt was made to spirit Mrs. Dempsey across the border into Mexico or simply to bribe her prior to Dempsey's trial, the officials will not say.

◆

POLICE RESERVES QUELL STUDENTS' FREE FIGHT

New York, March 15.—Police reserves from three stations were summoned to quell a free-for-all fight which broke out in a Columbus street restaurant when Columbia sophomores attempted to break up a dinner, staged by the freshman class.

Six arrests were made and several score of eyes blacked before the dinner proceeded.

The trouble was brewing since the day before when the freshmen captured the sophomore class president and kept him in hiding until tonight, when he was brought to the restaurant in handcuffs.

The second year men, who had been trailing their leader since his capture, heard of the plan for his public discomfiture and were on hand when the first diners arrived. Seizing some of the freshmen, they threw them into taxicabs, took them into the heart of Central Park, and dumped them on slush covered drives, returning for more captives. Other first year men were trussed up and dragged by ropes to a smaller park nearby, where they were tied to benches.

◆

A SMOOTH, HAIRLESS SKIN FOR EVERY WOMAN

(The Modern Beauty)

With the aid of a plain delatone paste it is an easy matter to rid the skin of unsightly hairy growths. The paste is made by mixing some water with powdered delatone. This is applied to the hairs not wanted and after 2 or 3 minutes rubbed off and the skin washed, when every trace of hair will have vanished. When you go to your druggist for delatone, be sure you get the genuine article.

◆

GABY DESLYS LEFT FORTUNE TO POOR

Paris, March —Gaby Deslys, the gifted dancer of three cities, is dead. There is something infinitely pathetic in the passing of this fascinating creature of the age of thirty-six, with all the world still before her. She was not the most wonderful dancer in the world, nor yet the most beautiful woman of the stage. But she had a way with her that charmed all her admirers alike, whether they were princes or working men.

One secret of her attraction was her big generous heart. A few days before her death she said, "You will know one day that I have always danced eventually to the poor.

The meaning of her enigmatic remark was explained when her will was read, bequeathing her fortune eventually to the poor.

Her worldy goods consisted of several millions of franc, a marvellous collection of jewels and furniture, and her villa near her home at Marseilles, she left to her mother and sister during their lifetime, and then to the State to assist the poor of Marseilles.

The Villa Maud, which overlooks the Mediterranean from the Grande Corniche, is to become eventually a home for tubercular girls in memory of Mlle. Deslys' sister, who died of the disease some years ago.

In private life Gaby Deslys was the daughter of Mons. Caire, a prominent merchant of Marseilles. She was brought up quietly in a convent in the Midi before she came to Paris where a career of unparalleled success and popularity awaited her. "A shower of glory and gold," as she once expressed her unfailing success.

PALE ANAEMIC GIRLS AND BOYS

Need the Tissue Building, Blood Making, Strength-Creating Elements Contained in Vinol

Druggists Guarantee Vinol Will Make Them Strong, Robust and Rosy, or Return Your Money

It is not natural for a child to be pale, sallow, thin, ailing and puny, with no appetite, and with little limbs, thin and scrawney.

What such children need is more iron in the blood and the strengthening, tissue, and body building elements of good old-fashioned cod liver oil, without the oil, such as is contained in VINOL, together with other vitality-making ingredients.

VINOL increases the red corpuscles and enriches the blood, quickens the circulation, increases the appetite, aids digestion; soon the cheeks regain their rosy hue and the little limbs fill out round and plump and instead of being thin, sickly, ailing your child is transformed into a happy, healthy child, strong, robust and rosy.

Mrs. L. Andrews, of Bainbridge, N. Y., says: "My little daughter, 13 years old, overworked and was rundown, tired all the time, nervous, had headaches, couldn't eat and had to stay out of school. VINOL has built her up. She has a good appetite, no more headaches and has returned to school."

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children there is no remedy like VINOL.

HONEST OPINION

The Rev. "My personal opinion of Zam-Buk is that I know of nothing like it! Moving amongst sick people of my charge, I have proved it an absolute fact that for old wounds, cuts, eczema, and skin diseases, Zam-Buk is really marvellous."—Rev. A. D. MacLEOD, Harcourt, N.B.

The Magistrate "Eczema was my trouble, and I suffered for years. Tried practically everything, in vain! Zam-Buk cured me, and from the day the last sore was healed there has been no trace of return of the disease."—J. E. ARSENAULT, J.P., Wellington, P.E.I.

The Nurse "Speaking professionally, I would apply Zam-Buk to all cases of eczema, ulcers, abscesses and allied diseases. I have proved Zam-Buk able to cure the worst cases."—NURSE KEITH, Olds, Alta.

THE MOTHER "Give me Zam-Buk! It is the finest all-round healer known. It cured me of a poisoned hand, my 3 children of bad scalp sores, and my husband of a badly crushed finger. No home should be without it."—MRS. VILLIERS, Stadacona St., Montreal.

Zam-Buk is purely herbal, and for piles, eczema, cuts, burns, baby's sores, ulcers, and all skin diseases and injuries is the best known and quickest cure. 50c. box, all druggists and stores. The opinion of the majority of the mothers in the Dominion is—

We all need ZAM-BUK

DRUGGISTS & STORES EVERYWHERE

DAILY PASSENGER AIRPLANE SERVICE

New York, March 14—Alfred W. Lawson, the Milwaukee aeroplane manufacturer who carried a party from Washington to New York last summer in his aerial Pullman, announced that he will start a transcontinental passenger service with machines of the same general type on July 1.

Lawson's claim is that with a nucleus of 1 machines he will be able to run a daily service, one ship leaving San Francisco and another leaving New York every day. For the night legs of the journey, which will be made in three legs, sleeping compartments are promised.

The itinerary, Lawson, announced, will include Cleveland, Toledo, Chicago, Des Moines, Omaha, Cheyenne, Ogden, Salt Lake and Reno.

The first ten machines are said to be almost ready for flight and others are building in the Milwaukee shops to run on other routes, including one from New York to Los Angeles, beginning in August, by way of Harrisburg, Pittsburg, Columbus, Dayton, St. Louis, Kansas City, Wichita, Santa Fe and Flagstaff.

GOOD FRESH BEER HIGH FOOD VALUE

London, Ont., March 15—"Good fresh beer has considerable food value, being rich in vitamines," said Dr. J. W. Crane, in an address to a western university audience on 'the psychology of the menu," but he added, the two per cent beer sold here has no vitamines and therefore has no food value."

He had at one time advised his students not to use tobacco, he said, believing it weakened digestion, but tests had shown the saliva of a smoker digested starch better than that of a non-smoker. But he declared that experiments show that the average output of work cannot be increased by tea, coffee, alcohol or other drugs.

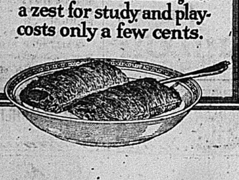
Candy, he declared the best food for children who need far more sugar and fat than adults. Oatmeal, Dr. Crane asserted, is the cheapest and most efficient breakfast food. Fireless cookers and prolonged boiling destroy vitamines.

* * *

"The modern A. B. C. for the whole community stands for Always Be Careful," says the Safety League.

SCHOOL-DAYS ARE JOY-DAYS

for youngsters whose bodies are made strong and sturdy by rational exercise and proper food. The boy that is stuffed with foods that have been robbed of mineral salts is a dull boy. Shredded Wheat is the perfect food for growing children because it contains all the brain-making, tissue-building material in the whole wheat grain. A breakfast of two Shredded Wheat Biscuits with hot milk gives a zest for study and play—costs only a few cents.



Death Not Mystery That Our Birth Is

"My message is that death is a natural process and not a thing to be regarded with fear or superstitions. I want to regard it as an adventure through which we all have to go. I find birth more mysterious. It is an amazing thing that a new individual should arrive in this planet and remain in touch with matter for some 70 or 80 years."

Speaking with an earnestness and deliberation that seemed born of deep conviction this was the formal greeting given to a party of Toronto newspaper interviewers by Sir Oliver Ledge.

"Take a bird's egg and keep it warm and a live creature will come out of it," continued Sir Oliver. "This is an astonishing thing, if we were not so used to it."

Sir Oliver indicated that the reason that so much mystery surrounded death was because we did not understand the inter-action of mind and matter.

"I see no reason why mind should not be able to continue apart from matter," he said. "It seems to me to be a question of evidence and of fact to be ascertained. If we can get into communication with people who have left their bodies behind, that proves that they exist. The only question is can we? For about thirty years I have been convinced that we can. I have no fault to find with skeptics. I was one myself. But the facts have been too much for me.

NOT RESULT OF THE WAR

"My conviction was arrived at long before the war. It had nothing to do with the fact that I lost my son, Captain Raymond Ledge, as many people wrongfully claim. The bereavement caused by the war has increased the bulk of evidence that the departed can be communicated with, however, and the evidence has become cumulative like a bundle."

Sir Oliver said the receiving of a message from the departed required the possession of a receptive personality.

"By the same token it is necessary to have an instrument before a telegraphic message can be received," he stated. "If anyone wants to send a telegram they go to a medium and through it the message is sent. The reception of a message from the state beyond is a mental thing. There are of course sham mediums, just as there are sham musicians. The playing of a good musician is a delight to the ear, while a sham musician may struggle at a piano all day and be nothing but a public nuisance."

Asked as to whether spirits see what is going on in this world, Sir Oliver replied: "My son knows pretty well what his mother is thinking of when her thoughts are on him.

Sir Oliver said that some persons were sufficiently receptive to receive direct communication from the spirit world, without the aid of mediums. Telegraphy he said, was a human faculty. We are not yet thoroughly acquainted with the power of mind and its effect on the body, he stated, but were learning more about the subject every day.

Asked concerning his views on reincarnation, Sir Oliver said that he did not believe that this "particular person" as we possessed it on earth had ever existed before or would ever exist again. Stating that his opinions on this subject were of necessity rather involved and technical, he added: "Not the whole of us is incarnate at any one moment and I think that portions of our larger selves may be unincarnate at times."

Sir Oliver said that he was very much pleased with his reception in the United States.

"They have been very friendly over there," he said. "I have been in America since the middle of January and originally intended to go back home in March, but instead I am returning in May after a lecture tour of the far West."

Sir Oliver is no stranger to Canada. He came here first in 1884, 35 years ago, on scientific missions, under the auspices of the British Society. He went west to Winnipeg and the Rockies, travelling on the C.P.R. before it had rounded head of Lake Superior. He was here again in 1894 and 1897. It was in 1894 that he gave his celebrated lecture in Montreal on "Dust."

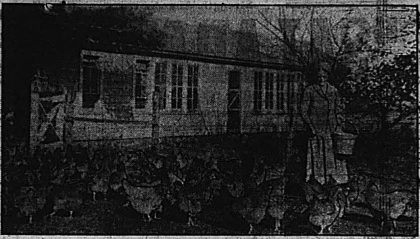
His Excellency is accompanied by Lady Rachel and Lady Ann Cavendish, Miss Cavendish, his niece, and Lady Helen Bailie Hamilton, Capt. the Earle of Haddington, A.D.C., and Capt. Wal-

POULTRY RAISING AS A VOCATION



Although the value of poultry and poultry products in the three prairie provinces of Canada amounted to more than twelve and a half million dollars in 1919, it cannot be said, that the poultry industry in these provinces is anything more than a side line with the majority of farmers. The high prices paid for eggs during the last few years, however, has caused farmers to turn their attention to the possibilities of poultry raising as a means of increasing their income.

This is shown by the interst which is being taken in the teachings of the agricultural colleges and the Dominion and Provincial Government experimental farms, throughout the country. Farmers are looking for advice regarding poultry, and are endeavoring to put into practice the valuable information made available by the agricultural colleges and experimental farms.

The work that is being done at the Dominion Experimental Farm at Lethbridge, Alberta, is characteristic of what similar institutions throughout the country are doing, and indicated the enormous profit possibilities poultry raising in the prairie provinces offers, if the profession is taken seriously. At this farm a return of no less than $90 weekly is being received from a flock of 220 hens which require but part of the time of one man to look after them.

The value of the poultry at the Lethbridge Experimental Farm is measured by the number of eggs a hen lays. Many of the best birds at the farm would not stand very high in the estimation of a judge at at a poultry show. But they are egg producers, and eggs mean more revenue to the farmer; and it is the object of the Experimental Farm to teach the farmer methods that will produce more revenue.

The flock which produces such satisfactory results has been got together by intelligent selection of proved laying strains. The birds are barred plymouth rocks. In 1918 Mr. C. A. Crossfield, who is in charge of the poultry section at the experimental station at Lethbridge, trapnested about 150 hens. Of these 94 hens which had laid more than 150 eggs during 1918, included 37 which produced 200 and more, were selected. These were mated with cockerels of a good egg producing strain, and out of the hatchings of last spring 220 pullets were taken. These 220 birds were divided into flocks of fifty-five each and penned together in the fall.

One lot was placed in the pen last October, a month earlier than the rest. These fifty-five hens netted a profit of $1.12 each during the month of December. They laid 1,083 eggs—more than ninety dozen—which were sold wholesale at 90c a dozen. Every hen laid during the month. One pullet laid thirty eggs in the thirty-one days. Many others laid twenty-five and twenty-six each in the same period. The average number of eggs laid by the pullets in this pen during the month was somewhat less than twenty eggs each.

The pens for the other birds were not ready until the middle of November, and the results in December were not quite so good in these pens as in the one just mentioned. They were, however, very satisfactory. All but seventeen hens laid. One hen laid thirty eggs, yielding a gross return of $2.20 for the month. This is a good deal more than the cost of its keep, which some farmers are well satisfied to get from their hens during the winter months. These pens were doing much better later and in January fourteen dozen eggs were being taken from the four pens daily. This works out at about one hundred dozen eggs a week, and at present prices means a return of $90 a week from 220 hens.

Mr. Crossfield claims there is no great secret in getting such results as these from poultry in Southern Alberta. The dry atmosphere, the sunshiny days, and the absence of rain during the hatching season contribute greatly to the successful raising of strong and healthy chicks. The housing of the birds is very simple and can be duplicated at little expense by any farmer, or by anyone else as a matter of fact, who might want to take up chicken raising as a profession. The floor of in the pen is the ground and the roosts are about three feet away from the ground. The roosting space has a covering of canvas which is placed over the openings at night to prevent draughts. The heat from the hens is thus confined to a small space and no artificial heat is provided. Good clean straw covers the floor.

During the cold weather the hens are given a mixture of two parts of corn and six parts wheat in addition to their other feed which consists of oats, bran, shorts, and cornmeal in equal parts, as well as green alfalfa leaves, grit, oyster shell and charcoal. In warmer weather the corn and wheat ration is reduced. Clean water is always available. The food is given in hoppers which are arranged a few inches from the ground.

It would be interesting to see what results could be obtained in Western Canada from specializing in poultry raising on a farm where the greater part, if not the whole of the crops, would be grown for feeding the poultry. On account of the great variety of crops that can be grown on an irrigated farm it would seem that these farms offer special advantages to anyone wanting to make poultry his profession, but satisfactory results could undoubtedly be obtained from almost anywhere in the prairie provinces. The possibilities of the industry are being realized, however, and during the last six months reports have been received of more than a dozen different people who have started, or who have planned to begin poultry raising on a commercial scale.

MODEL CITY BUILT FROM PAPER MILLIONS

Quebec, March 15.—The work of erecting the model city of Saguenay in the vicinity of Chicoutimi by the Price Brothers Company, paper manufacturers, at a cost of about twenty millions of dollars has started. Of course, preliminary work only has been undertaken and the full swing of the enterprise will not come before spring when the ground will be ready for excavation and work. The city of Saguenay will be erected about three miles from Chicoutimi and will contain at the very outset 400 houses, and pulp and paper mills, the capacity of which is expected to excel the output of any other similar plants in the country.

All the houses that will make up the city of Saguenay will be electrically lighted and heated, which is a novelty heretofore unseen in modern cities, and will also prove a great fuel economy. All these houses will be built of brick and will in the end give Quebec province a most modern and sanitary town.

* * *

Detroit, March 15.—The hunger strike declared Tuesday by more than 200 aliens at Fort Wayne, was called off when the prisoners succumbed to the aroma of soup and arguments of Dr. P. L. Prentis, chief immigration inspector. Some of them deserted the ranks in the afternoon when relatives brought tempting packages of food to the army post.

COL. A. F. GAULT FREED ON PERJURY CHARGE

Los Angeles, Calif., March 13—Col. A. F. Gault, former Canadian army officer, and his co-defendant, Gilman Beeler, charged with subordination of perjury in connection with the charges against Ottoman Hanish, the little master of the Sun Cult Worshippers, went forth free in the criminal inquiry branch, of the Magistrate's Court, because of the inability of the prosecution to produce testimony to sustain the charge. All of the witnesses, four small girls and one boy and their parents, whom Gault and Beeler were charged with persuading to swear falsely in the Hanish case, declined to answer questions, on the ground that they might incriminate themselves. The State having no other direct or corroborating testimony, was compelled to dismiss the case after a two-day struggle to produce the evidence.

City AND Country

CALL FOR POLICE

Last evening the police answered a call to a residence in West Belleville where it was alleged trouble was ensuing, but all was quiet when the officer arrived upon the scene.

SILENT POLICEMAN BROKEN

The silent policeman which has been doing duty for some time at the junction of Front street and Victoria avenue, was some time last night placed hors de combat. It was broken off at the base, but by whom or what vehicle, is not known.

DEATH OF ADAM HALL

Adam Hall, a well-known manufacturer of Peterborough, is dead, aged 74 years. He was the founder of Adam Hall, Limited, manufacturers of metal products, such as stoves, etc. He was a member of the Masonic Order, and is survived by his wife and two sons.

NEGLECTED TO PAY BOARD BILL

On advice from Kingston Police Constable Thompson of this city today placed under arrest a party named Jerome Cronin who is wanted in the Queen city on a charge of neglecting to pay his board bill. The Kingston police were notified of the arrest and an officer will arrive to escort Cronin back to that city.

A FINANCIAL ASSET

Police Magistrate A. F. Hind of Oshawa, has given a cheque to Town Treasurer Morris for $4,518.20, which is the amount collected in fines and costs for the quarter ending March 9th. As this revenue is about $1,070 more than it costs the town in salaries for the Police Magistrate and the Police for the same three months, it is quite apparent that Chief Friend and his constables are a financial asset to the town.

ORANGE GRAND LODGE

The Grand Orange Lodge of Ontario East, the Grand Black Chapter of the Royal Black Knights of Ireland, and the Ladies' Orange Lodge of Eastern Ontario will hold their annual convention in Cobourg this week and a large number of delegates will be in attendance. The Grand Black Chapter opened this afternoon and the Grand Lodge will be in session Wednesday, Thursday and Friday. On Wednesday evening a public meeting will be held in Victoria Opera House, when a good programme will be provided including singing by a quartette from Toronto, also speeches from prominent Orangemen visiting the Grand Lodge. Speeches will be delivered by H. C. Hockin, G.G.M.B.A. Sir Knight Stanley of Ottawa, W. H. Tummon, G.M.O.E., Bro. Edwards, M. P., Kingston, and others.

G.W.V.A. CONVENTION

The annual convention of the Ontario Branch of the Great War Veterans' Association will open at Peterboro tomorrow, and a large delegation will be present, including a number from Belleville. On Wednesday morning at 10 o'clock Mayor McIntyre will formally welcome the delegates to the city in the name of the citizens of Peterboro. Several interesting diversions from the business program will take place during the convention. On Thursday evening the delegates will attend the Grand Opera House in a body Manager Dahn has arranged for a special program of high class vaudeville for the occasion, which will be one of the happy sidelights of the convention. On Friday night a banquet will be tendered to the delegates and invitations are already out for this event.

FLOOD POSSIBILITIES

The mild weather for the past twenty-four hours has had the effect of raising the water in the River Moira to a considerable extent and also caused uneasiness in some quarters that a flood would occur. From the railway bridge at the foot of Front Street to Cooper's dam there is no indication of the ice breaking up for a few days. Saturday evening a quantity of ice came down the river from the vicinity of the G. T. R. bridge and above that point to near Lazier's Mills on the Cannifton Road. This was not a large body of ice and its course down the river was checked just below Lott's dam, where at the present time it is being held. In the vicinity of the upper bridge the swift flowing of the water is having an effect of wearing the ice away. The general impression is that there will not be a flood this year unless within the next few hours rain falls to a considerable extent. If it should rain there may be trouble. Merchants along the west side of Front street have taken the precaution to remove their goods in the basement to their stores above the high water mark. Work is being prosecuted in the cutting of a channel just below the railway bridges, which it is anticipated will materially assist in preventing a flood.

◆

Owing to the failure of the U. S. Senate to confirm the appointment of Bainbridge Colby the Washington Government is without a Secretary of State.

Lincoln, The Spy, German Censor

Once Member of British Parliament and Jailed for Espionage.

NEW YORK, March 16.—Upon the whim of an ex-member of the British Parliament, who, for the last six years, when not in the Raymond Street Jail, Brooklyn, or in the Tower of London, has been admittedly working as a spy in the service of Wilhelmstrasse, the world depends today for every scrap more of adventure which has to do Germany.

He is the new censor. This man is Ignatius Trebitch Lincoln.

Soldier of fortune, holding allegiance to no country, and loyal to no one but himself, Lincoln's career matches the most lurid of screen-thrillers for the lore of adventure which has to do with intrigues, traps and escapes.

A native of Hungary and a converted Jew, he became an English citizen and entered politics. By seizing upon a series of opportunities Lincoln was elected to Parliament in 1910. It was at the beginning of the war, four years later, that he became what he has managed to remain ever since, one of the most picturesque figures in the great world conflict, and one of the most despised.

Pride in Disloyalty.

The following statement, made by the master-spy when later he was held by the police, sets forth somewhat the peculiar pride he seemed to feel in his utter disloyalty:

"Born in Hungary, and with a German wife, I met only with persecution in England after the outbreak of the war. It was to even things up that I went to Rotterdam and outlined to the German consul there my plans to betray the English fleet into a German trap. My plan was approved and I was made a member of the German espionage system.

"I also was acting as spy for the British secret service, which I thought would prove a blind for what I was doing in Germany."

Eluded Deputy Marshal.

"After about a year of spying upon activities of the allies, he was suspected, and in January, 1915, he fled to America.

Lincoln then dropped out of sight until in 1916, when he was arrested and held for extradition to England on a forgery charge.

It was while he was awaiting the outcome of his fight to remain in this country that he eluded a Deputy United States Marshal with whom he was dining in a Brooklyn restaurant, and ignoring the fact that technically he was incarcerated in Raymond Street jail, started out on an expedition of adventure.

He remained at large nearly a month, during which time he sent daily and hourly messages to the police. Once he walked into a newspaper office, disclosed his identity and walked out again before the astonished editors could stop him.

Sent Notes to Detectives.

He sent notes to detectives, saying where he would be at a certain hour. He was later captured, however. A Federal agent took seriously one of Lincoln's taunting letters, and upon a crowded corner in the White Light district of Broadway took the fugitive at the point of a revolver.

Soon afterwards Lincoln sailed for England with detectives from Scotland Yard. After a three-year sentence he was released in August, 1919, and deported to Hungary.

He worked his way before the disapproving public eye again last February, when, by representing himself as an American newspaper man, he gained admittance to a reception held by Prime Minister Huszar at Budapest and attended by the diplomatic representatives of the Allies.

In September he paid a mysterious visit to Amerongen, where he was said to have been closeted in secret conference with the former Kaiser.

He later refused to state the reason for his visit. He did say it was "private and personal."

Letters To The Editor

CITY FINANCES

To The Editor of The Intelligencer:

Dear Sir.—Referring to correspondence from our old fellow townsman, Mr. Flint, much stress is laid on trying to show your readers that financial condition of our city is in a bad way and that the burden of taxation will be increased to such an extent through the building of new schools that it will be impossible to carry the extra expense. Mr. Flint is probably drawing on his imagination when quoting figures or making estimates.

The City of Belleville is in very good shape financially. According to statements furnished by auditors and published by Wood, Gundy & Co., in their new book giving Canadian municipal statistics the following facts are shown with reference to Belleville:

Assessed Values of land and buildings	$8,295,440 00
Value of Municipality's assets	1,870,560 00
Net debenture debt	890,967 00
Local Improvement debt, for walks, sewers and pavements	172,353 00

The assessment values in Belleville are considered low in comparison with assessment values of many other cities. It is safe to state that the actual selling value of most of the city land buildings are worth 50 to 75 per cent.

The amounts levied for all school purposes, public, separate and high schools have increased of late years, but, have not been out of proportion to increases in other departments. The amount raised in 1915 was 22 per cent. of the taxes and amount raised or levied in 1919 was 23 per cent. of the taxes.

If the public would but visit the High School and Grier street School they would at once see the necessity for the erection of new schools. Seeing is believing and the public should be as interested in this matter as the Trustees.

A. McGIE.

SUFFERERS FLOCK TO MIRACLE MAN

New Orleans, March 16.—Led by a score of crippled and ailing men and women, hundreds of persons are crowding the Mississippi levee trying to reach the ramshackle houseboat of John Cudney, a kindling peddler, known as "Brother Isaiah," because of his reputed cures by the laying on of hands. Cudney is 73 years of age and a native of Canada.

The press was so great that 25 policemen were assigned to keep order. On a rumor that Cudney was about to appear, there was a rush that bore five of the guards into the river. All were rescued.

Reports that the "healer" had restored sight to the blind started a rush to the levee. Many invalids were carried on cots. Cudney worked all night, retiring at dawn, when in danger of collapse. The rich came with the poor, but offers of money were refused.

The authorities are taking no action against "Brother Isaiah," because he is neither prescribing medicines nor accepting fees.

◆

MAY YET FIND SAFER PLACE FOR EX-KAISER

London, March 16—The reactionary movement in Germany makes the Kaiser question an acute one at Rotterdam, says the Times correspondent in that city. It is learned from reliable sources, he adds, that the decision of the former Emperor's future residence is being seriously considered. The Dutch Government has considered allotting him a residence in one of the Zeeland Islands. This was abandoned owing to the possibility of escape by boat and further, because the climate is not suitable for the former Empress whose health gives rise to anxiety lately.

Though the ex-Kaiser is making elaborate plans for his stay in Holland, it is by no means certain that it will be his permanent residence.

◆

RISKED LIFE TO RESCUE PHOTOGRAPH OF HUSBAND

Boston, March 16.—A fire of spectacular aspect caused damage estimated at $10,000 at the Hotel Westminster. The surrounding Back Bay region was startled by the glare of flames spurting in the hotel roof shortly before eight o'clock. Miss Cissie Sewell, a professional dancer, occupied one of the rooms on the eighth floor and was caught in the flames and severely burned before rescued. Miss Sewell was about to go to the theatre when the alarm sounded but delayed to rescue a photo of her dead husband a former officer in the Princess Pat Regiment. Miss Sewell, whose former home was in Toronto on College street disregarded her clothes, jewelry and bonds.

WAY TO RESERVATIONS IS OPENED BY SENATE

Washington, March 16—Paving the way for a final vote on the reservation to Article Ten, upon which the fate of the ratification of the peace treaty depends, the Senate rejected 59 to 17, Senator Frelinghuysen's substitute proposing summary disavowal of all obligations.

The reservation, worked out, but not agreed to in the bi-partisan conference, was offered by Senator Kirby Democrat, Arkansas, and was rejected 45 to 31. All the Republicans and Senators Gore, Reed, Shields, Williams and Harrison, Democrats, voted against it.

The Senate also promptly rejected 46 to 30, the substitute reservation drafted by former President Taft, which was offered in the bi-partisan conference by Senator Hitchcock and presented to the Senate by Senator Kirby.

◆

SEND TWO COMMISSIONS TO INVESTIGATE RUSSIA

Paris, March 16.—The Council of the League of Nations, in session here has adopted a resolution to send two commissions to Russia to investigate affairs there.

The first commission representing the League of Nations exclusively will include ten members, two of which will be appointed by the international Labor Bureau. This body will study general conditions in Russia.

The second commission headed by Albert Thomas, of France, head of the International Labor Bureau, will study conditions in Russia from the viewpoint of labor.

The Council adopted Arthur Balfour's resolution to appoint a League of Nations health commission to study conditions in Poland and prepare a report recommending methods to stop the epidemic of typhus there. This report will be presented to the International Hygiene Conference to be held in London next month.

Another meeting of the League Council will be held in Paris before the Rome meeting.

◆

THINKS WHEAT BOARD WON'T HANDLE WHEAT

Winnipeg, March 16.—Though no announcement has been made, the impression is growing at the Grain Exchange that the Dominion Wheat Board will not handle the 1920 wheat and that open trading will be on again in the new crop. Exchange firms are making their plans accordingly, since James Stewart Saturday announced that shippers could engage their tonnage for the season from the Lake Shippers, which would not be possible if the old plan was to continue.

RAILROAD MEN PLAN CO-OPERATIVE STORE

Windsor, March 16.—With the increasing interest manifest everywhere in the extension of the co-operative movement particularly as it applies to a reduction in the costs of daily household necessaries, comes a very definite report that in addition to a co-operative concern formed here a week ago, which has branches in several of the larger Canadian centres, the Maintenance of Way Brotherhood of Canada with a membership of more than one hundred thousand, will shortly open a store in this city to handle general lines of merchandise for the benefit of its members. While it is the intention to conduct the business solely for the benefit of the railroad organization, those identified with other Labor organizations will not be refused the right to purchase goods at the lower cost.

J. D. Robson of Detroit, who came to Windsor looking for a possible location for such a store, found downtown rentals so excessive that it is probable the new enterprise will be located, not in the business section but rather at a point where a suitable building with warehouse attached can be had for a moderate figure.

Literary Notes

ROD AND GUN

"Ye Olde Time Brooke Trout in Nova Scotia" is the title of Bonnycastle Dale's feature article in March issue of Rod and Gun in Canada. This number of Canada's premier sporting monthly besides containing the usual high grade stories and departments begins a series of illustrated articles on Mushrooms, both poisonous and edible. F. V. Williams, the popular Nature illustrator tells in his own inimitable manner the adventures of a mink that was caught three times before it was finally killed: his story is entitled "In Black and White." For the fisherman who is interested in trout we may say that this issue contains two splendid articles by Robert Page Lincoln. The Guns and Ammunition, Trap Line and Kennel departments are up to their usual high standard. Rod and Gun in Canada, W. J. Taylor Limited Publishers Woodstock, Ont.

TWO MEN ARRESTED ON SERIOUS CHARGES

Toronto, March 16.—Charged with B.O.T.A., and also with attempting to bribe a Canadian Pacific Railway conductor to help smuggle liquor into the United States at Detroit two men were arrested at the Union Station yesterday afternoon by Detectives Cronin and Wickett and Plainclothesman Davie.

The two were William Olmstead, Dovercourt road, and Fred Johnston, Yarmouth road. In addition, Byron Burgess, who was with them, was arrested on a vagrancy charge.

The party had with them three suitcases loaded with liquor. They tried to get a C.P.R. man to take it along as his personal belongings and tendered $25 to pay for the favor. The conductor turned over the bribe to the authorities and the arrest followed.

SENATORS AND SCRIBES BARRED FROM CORRIDORS

OTTAWA, March 16—At a secret session immediately after prayers yesterday afternoon the House of Commons unanimously decided to bar eSnators, newspaper correspondents and other outsiders from the lobbies on either side of the Commons Chamber. Angry protests were delivered in the Senate when the honorable gentlemen of the Upper Chamber were excluded by policemen and reprisals were discussed. The Commons has compromised by giving the Senators more accommodation in the gallery. Policemen have been placed on all the doors to keep out the hoi-pollio. The excuse is that the lobbies are regular sounding boards and that conversation there disturbs the proceedings of the House.

RUSSIAN TRADERS TO ENTER ENGLAND

London, March 15—In the House of Commons Sir Hamar Greenwood said that the Government had no objection to permitting the Russian co-operative delegations into England for trade, but that Litvinoff, on account of his record here, was forbidden to enter the country.

Herbert H. Asquith, member for Paisley, has given notice in the House of Commons of the following amendment to the Home Rule bill;

"The House declines to proceed with a measure which is acceptable to no section of the Irish nation, which denies national unity by settling up two Legislatures and executives with coordinate powers, and which would indefinitely postpone the establishment of a Parliament for Ireland."

ACTOR INJURED

Los Angeles, March 16.—David Warfield was seriously injured when he was struck by an automobile while crossing the street near his hotel. His left leg and nose were broken, several of his teeth were knocked out and he suffered numerous lacerations. While his injuries are serious, he will recover. The noted actor has been playing here in the "Auctioneer."

UNCLE SAM CANNOT BUY WEST INDIES

Kingston, Jamaica, March 16.—Premier Lloyd George's statement regarding the sale of the West Indies, it is recognized here, has definitely settled the question. Discussion of the question in America was not taken seriously in these colonies as the impossibility of the transfer was recognized. No section of the West Indian press or public favored the change of allegiance. The growing tendency is towards closer West Indian unity.

$2,000 ROBBERY AT TORONTO STATION

Toronto, March 16—The local police are trying to recover a trunk containing $2,000 worth of jewelry, which was stolen from a baggage room at the Union Station a couple of days ago. The trunk and its precious contents belonged to T. Arthur Dickens, wholesale jeweler, 8 Leader Lane, and the trunk had been deposited at the depot ready for shipment. It is understood that the jewelry consisted of watches, rings and various other trinkets of worth, but no diamonds. It would seem that the theft is the work of someone who was intimate with the details of the shipment, and not the work of a chance thief.

NOTICE

We, the undersigned, are the owners of all marshland on lots 70, 71 and 72 lying north of the marsh creek known as the boundary line in the Second Concession of Ameliasburg, hereby give notice to the public that hunting, trapping and fishing upon said marsh is forbidden and that trespassers thereon will be prosecuted and their traps removed.

Premier Draws Crowd By His Maiden Speech

PEOPLE ARE LOOKING FOR A HIGHER TYPE OF MEN IN POLITICS, HE SAYS—TIRED OF OLD GAME OF POLITICS—NEW ORDER OF THINGS.

TORONTO, March 17.—Spectators filled all the galleries overlooking the legislative chamber at Queen's Park in anticipation of Premier Drury's maiden speech. At the opening of the House, Hon. G. H. Ferguson drew the attention of the Premier to a despatch from Ottawa, in which Hon. C. J. Doherty, Minister of Justice, expressed the opinion that an eight-hour day was a matter for Provincial and not Dominion legislation. "I don't think that the Government need to take the personal opinion of the Minister, expressed during a debate in the House" replied Mr. Drury. "The matter is now under our consideration and there is perfect co-operation on the question between the Farmer and Labor wings."

"They have wings, have they?" inquired Hon. Mr. Ferguson, blandly.

"You've had yours clipped," shouted a Government member amid applause, in which the Liberal members joined as loudly as the Farmers.

Hon. W. E. Raney introduced a bill to qualify the law relating to the sale of goods.

"Will the Minister explain, briefly, the purpose of the bill?" Mr. Ferguson inquired.

"In a word," Mr. Raney replied suavely. "The bill qualifies the law relating to the sale of goods."

"So the title says" reatorted Mr. Ferguson.

Asked by M. M. McBride, Brantford, whether the Kaiser or his agents had any investments in Canadian nickel or other minerl deposits in Ontario, Hon. Benjamin Bowman replied the Kaiser had no financial interests in the Province.

PREMIER SPEAKS

Premier Drury, in continuing the debate on the address, said he believed the people were looking for a higher type of politics than had prevailed in the past. "They are tired of the old game of politics, the battle of the ins and outs. They want to see the creation in some way of a new order of things. We must have higher social ideas. We must have a stricter adherence in the principles of justice.

If Ontario is to be made completely "dry" it must be, by a referendum on the importation of liquor, was the effect of Premier Drury's announcement in the Legislature yesterday, when he spoke in the debate on the reply to the Speech from the Throne.

Enforcing the Act

"Frankly I am not satisfied with conditions as they exist at the present time," said the Premier. "I believe that the Ontario Temperance Act cannot be enforced in any satisfactory manner as long as interprovincial trade exists. How to meet these conditions is another matter. I do not believe that we can meet them by stepping over the founds of the law and taking to ourselves powers that do not belong to us. But I do believe if the temperance people of this Province will come together and will agree to ask for something—and if they will consider carefully the measures that have been put forward to bring about proper enforcement—and decide on a program that this government can do something, and that the people of this Province may well be appealed to to pronounce once more on interprovincial trade. I believe the principle of referendum—of submitting the issue to the people—is very well established."

The Premier touched on many other matters and criticized Hon. G. Howard Ferguson's remarks about Canada's relationship to the United States He regretted that the Conservative leader should make such remarks. It was "almost a political crime," he said, that any man should endeavor to stir up international animosity for political purposes. He touched on the eight-hour day and said the Government did not propose to be stampeded into any action on this great question. The Premier dwelt for some time on the history of the Farmer's movement, denying that it had sprung from dissatisfaction over the conscription issue. He also spoke of the roads policy and defended the separating of the Mines Department from Lands and Forests.

Major Tolmie, Windsor, the only Liberal speaker of the day, declared that, despite all protestations, the Government was still a class Government. It could be nothing else. He appealed for greater freedom in educational matters and a loosening of the control from the centre.

Caught By Fire On Elevated Train

Passengers in Danger of Touching Third Rail When Escaping

NEW YORK, March 16—Hundreds of passengers were trapped by a fire in a Third Avenue "L" train, and many narrowly escaped death from the third rail as they jumped from the windows of the coaches when the third car of a southbound train suddenly burst into flames as it neared the Eighteenth street station, here.

The flames, starting in a defective shoe on the third rail, soon spread to the southbound platform and station, and in a few moments both were in flames.

Frantic men and children fought their way towards the exits on all the cars and many climbed out of windows onto the tracks and ran to the Fourteenth street station, unmindful of the deadly third rail.

One man, the only person on the platform at the time the fire broke out, was trapped, and as the flames ate their way toward him, he swung from the lower structure of the tracks and dropped unhurt to a loaded automobile truck that was stalled beneath.

An unidentified man called up the offices of the road and warned them to shut off the power on this section of the "L" in order to safeguard the panic-stricken passengers who were flocking up and down the tracks.

MAY VACCINATE WHEAT AGAINST GRAIN DISEASES

Cambridge, England, March 16.—Canadian farmers may soon be able to have their seed wheat vaccinated against rust and other troublesome diseases before they plant it. Tests by botanists of Cambridge University are said to have shown the possibility of breeding disease proof plants and immunizing wheat, oats barley and potatoes. They have also produced a new wheat, known as "yeoman" which has yielded 96 bushels to the acre.

Commerce Board Sharply Rebuked

TORONTO, March 17.—The attitude of the Board of Commerce toward the Crown in the investigation at Hamilton into charges against wholesale grocers of combining in restraint of trade, has drawn a sharply-worded rebuke from the Attorney-General. In a letter addressed to the Board, Hon. W. E. Raney reviews the circumstances attending the institution of the enquiry and then discusses in detail the action of the Board in insisting upon calling and examining A. L. Porter, the Hamilton representative of a well-known company who had given the Attorney-General the information upon which action was based and whose connection with the matter the Crown did not wish to make a matter of general knowledge.

Mr. Raney finds in the evidence an implication that the Government is unfriendly to the Board, an implication which he characterizes as an "impertinence" to the Crown. He declares that the attempt made to cast discredit on the good faith of the Crown is "an unheard of thing in the judicial records of this Province."

Finally, the Attorney-General suggests that the Board be less eager to make out a case for the wholesale grocers and permit Mr. Roebuck, counsel for the Crown, to complete the evidence in the ordinary way.

LIVE WIRE, DEAD CAT ALL LIGHTS OUT

Hamilton, March 17.—A tomcat stepping on a high-voltage wire last night was the beginning of considerable trouble for the local Hydro service. Tom caused a short circuit which left part of the city in darkness. Later the high wind caused more trouble and the greater part of the city was in darkness. It might be mentioned in passing that that tomcat will not cause similar trouble, for when he short-circuited the wire he short-circuited his life.

Eight Hour-Day Motion Dropped

OTTAWA, March 17—Judging from the opinion expressed by Hon. C. J. Doherty in the Commons, the Dominion Government does not propose to introduce legislation making the eight hour working day and the forty-eight-hour week compulsory until by arrangement or by judicial decision, the question of jurisdiction has been determined. The Minister of Justice, speaking to a resolution moved by J. H. Burnham, of West Peterboro frankly stated that personally he believed the establishment of an eight-hour day under ordinary circumstances would be outside the jurisdiction of the Federal Parliament. It would create a presumption that in all contracts of lease or hire of labor where hours of labor were not specified, the working day should be one of eight hours. In point of fact, legislation affecting contracts fell under the head of property and civil rights which came within the legislative jurisdiction of the Provincial Legislatures. The Minister of Justice noted that the Federal Parliament had a general right to legislate in order to carry out any obligation imposed upon Canada or any of its Provinces by any treaty validly entered into by the British Empire. At the same time he pointed out that the parties to the Treaty of Versailles were required simply to bring the conventions, such as the labor clauses to the attention of the competent legislative authorities of their countries. They were under no further obligations. Judge Doherty indicated that there would be sharp differences of opinion between the various Provincial Governments on the subject of jurisdiction to deal with the question of the eight-hour day. Therefore, he suggested that it might be necessary to get an authoritative decision as to where the jurisdiction lay. Replying to a question by H. B. Morphy, of North Perth, the Minister of Justice said it woulld be proper for the Dominion Government before proceeding to deal with the question, to ascertain whether the Provinces were prepared to exercise their jurisdiction to legislate on the subject. It is suggested therefore, that the Federal authorities may consult the Provinces and unless some understanding on the constitutional issue is reached, may refer the question of jurisdiction to the Supreme Court of Canada.

Hon. N. W. Rowell, the president of the Privy Council, explaining the labor clauses of the Versailles Treaty answered the objections of some representatives of rural constituencies who have discussed Mr. Burnham's resolution. He pointed out that agriculture was expected from the industries covered by the labor convention and that each country was empowered to draw for itsef the line between industry and agriculture.

The member for West Peterboro finally withdrew his motion for a declaration in favor of the establishment by Parliament "to the extent of its jurisdiction" of an eight-hour day "subject only to the right of express private contract." He had obtained, he said, a declaration that Parliament had not jurisdiction to enact legislation. "Let the provinces then go ahead and let labor go after them," he said.

Former Emperor Is Still Sawing Wood

AMERONGEN, March 16—The former German Emperor was up early this morning. He seemed much calmer and sawed wood from nine to noon.

The former Empress is well again. The guard about the castle is very strict.

A high-placed Government official assured the Associated Press:

"The Allies and the world may safely rely upon Holland to guard the ex-Kaiser, though no more measures will be taken than are necessary to prevent his escape.'

Frederick William, the former German Crown Prince, who is very reserved in expressing his ideas about the counter revolution, seems to be entirely unperturbed. He may go wherever he likes about the island. His friend, von Zoebelitz, who arrived at Weingen Saturday, had been expected for four weeks.

CITY EDITOR PREFERRED TO GO TO JAIL

Chicago, March 17.—Hector E. Elwell, city editor of a local paper was at liberty today under a stay from a jail sentence imposed by a Federal judge here for contempt of court. Elwell had refused to disclose the source of a news story published by his paper.

300 Delegates Are Going To Peterboro

PETERBORO, March 17—One hundred and eighty is the estimated number of resolutions to be disposed of by the fourth annual Ontario Convention of the G.W.V.A., which opens here. A number of these bear on the same subjects but these will keep every one hustling to crowd the business into three sessions a day for three days.

Delegates are reaching the city from all parts of the Province today and the executive members are all here for this afternoon's meeting with one exception. Comrade H. S. Meredith, past president of West Toronto branch has sent word that he cannot attend owing to the pressure of private business.

DamDe rumor has accompanied the delegates. Her first whisper is that President C. E. Jenkins is to advocate that alll succeeding presidents be paid a salary which will enable them to devote their whole time to the work of the G.W.V.A.

As President Jenkins' term of office expires at this convention, presidential honrs are a matter for great speculaltion. Dr. C. E. Wilson, of Central Branch, Toronto, E. D. O'Flynn, of Belleville, now first vice-president of the Provincial command nd H. Staunton, of Peterboro, are early favorites for the office.

Made Big Seizure Of Noxious Drugs

TORONTO, March 16—What may develop into a sensational case of illicit drug trafficking was uncovered last night by the police, when Detectives McMahon and Sullivan arrested George Paradise, King Street east, and Douglas and Emma Birch, on a charge of having drugs in their possession. The police claim to have discovered and confiscated fully $200 worth of morphine, cocaine and laudanum.

The police have suspected the three prisoners for a long time, and last night, acting upon information received, they visited the rooms of the accused, and after a short search apprehended the two Birches and Paradise. To the officers the trio denied being in possession of the drugs, but on investigating bottles of laudanum and "decks" of cocaine and morphine were found ingeniously secreted in the mattress ticking, behind pipes and tucked away in obscure corners of the various rooms. On being searched at Court Street Police Station, the pockets yielded more drugs and the necessary hypodermics for injection.

Paradise, it will be recalled, is the husband of the Mrs. Paradise, who is now doing four years in Kingston Penitentiary, for the wholesale thefts of furniture and jewellry from the home of Dr. Goldsmith, Carlton street, and a house on Prince Arthur avenue.

Several Markets For Export Crop

(John MacCormac, Montreal Gazette)

LONDON, March 17.—The last bushel of the 1919 export surplus of Canadian wheat was sold some months ago. If Canada is prepared to give credit most of the 1920 wheat crop may be considered already disposed of, although the first blade has not even sprouted from the ground. The effect of the reopening of trade with Russia has already been discounted as far as her available wheat supplies are concerned. Conditions are so unsettled and the transport system so bad that Russian grain will not be a serious competitor with the Canadian crop this year. If proof of this were needed, it is amply afforded by the fact that the French, Belgian and Grecian Governments, which, with the British Government took most of last year's crop, are all in the market for the 1920 supplies. Belgium and France, however, are asking for a credit. This Canada has refused to give for wheat in the past, but it remains to be seen whether the Dominion can maintain this attitude this year. The Greek Government will probably continue to pay cash, as they have been doing. Rumania will grow all her own wheat this year, but the British Government will be in the market again.

It now appears certain that the dispute between the Canadian Trade Commission and the Greek Government as to the wheat price fixed in the agreement negotiated by Lloyd Harris, will have to go to arbitration. In that case members of the Board of Trade or some other Imperial body will very probably act as arbitrators.

German Socialists Clamor For Soviet

Special Despatch to The Intelligencer Canadian Press Limited

LONDON, March 17—Independent Socialists and Communists in Germany have commenced a violent agitation in favor of a Soviet republic and an alliance with Soviet Russia, according to a Berlin despatch to the Exchange Telegraph Co.

Bolsheviki Send Paper To London

Special Despatch to The Intelligencer Canadian Press Limited

STOCKHOLM, March 17—The Bolsheviki Government in Russia has authorized its local agent to furnish to the London Daily Herald, organ of the Laborites, 500 tons of print paper at the Soviet Government's expense. It is asserted that this arrangement was made by George Lansbury, editor of The Herald who recently visited Russia.

Last Minute Telegraph Briefs

Ban To Be Lifted

Buffalo, March 17—It is officially announced that the smallpox quarantine against Canadians will be removed on Friday at midnight under orders received by Federal Health officers along the border today. The ban was established on November 26 on account of a serious outbreak of the disease in Toronto and other Ontario cities.

SOUTH AFRICA ELECTIONS

London, March 17.—Advices from Capetown giving latest available returns of the elections of March 10 for the South African House of Assembly say that Unionists won 19 seats, South African party 24, Nationalists 21, Laborites 21, and Independents 3.

Says Cocaine Is Easy To Get

MONTREAL, March 17.—"We thought we would just run up the line a wheeze," said Private Johnson of the 9th Regiment, U. S. army, stationed at Plattsburg, N.Y., at the opening of the inquest into the death of Manial Fiarira, 28 years of age, of the same regiment, who died in his room at the Parker House, on Saturday night when asked by Coroner McMahon why he and the deceased had come to Montreal. They arrived in the city on Thursday night and took rooms in a down-town hotel. The deceased was on leave and was in possession of a pass, but Johnson told Coroner McMahon this morning that he was in the habit of running up to the city for a few days now and then, and that he would not get into serious trouble unless he was absent ten days.

"Do you always come to Montreal when you want a good time?" asked the Coroner.

"Yes, Your Honor," replied Johnson. The reason for this was obscure until further evidence showed that they were able to obtain cocaine to an almost unlimited extent in the city by means of prescriptions issued by a doctor here. On Friday they obtained two prescriptions from the doctor and a further two on Saturday last. In the meantime they had changed their quarters from the hotel down-town to the Parker House. On Saturday evening, when Johnson returned from a walk uptown he found his friend looking very sick, reclining in a chair in the lounge of the hotel. At the latter's advice, he brought him some medicine. This, however, failed to benefit him and Dr. O. LeRiche, of 576 Notre Dame street west, was summoned. The man died the same evening and his body was removed to the morgue.

Detectives Labrie of the Coroner's Court, found cocaine in the room occupied by the deceased and this was produced in court.

Coroner McMahon ordered that Johnson be kept at police headquarters until more facts of the occurrence will be brought to light. In the meantime the Last Post Fund have wired to the 69th Regiment at Plattsburg, N.Y., to verify the statements with regard to leave, etc. Detective Labarie is endeavoring to find the doctor who issued the four prescriptions and with the help of Johnson, hopes to produce him as a witness at the inquest.

Serious Street Fighting In Twenty-Four German Towns

ONE HUNDRED KILLED IN DRESDEN, 300 WOUNDED—FIGHTING REPORTED IN BRESLAU, HAMBURG, AND KIEL — ANOTHER SPARTACAN OUTBREAK COMPLICATES SITUATION.

Special Despatch to The Intelligencer, Canadian Press, Limited.

PARIS, March 17.—A despatch from Berlin timed in that city at 10.30 o'clock this morning said the report that Chancellor Kapp had resigned is false.

RAILWAY STRIKE INTERFERES.

STUTTGART, March 17.—It is doubtful if the German National Assembly will be able to meet here today as planned because of the railroad strike. Many members will be unable to reach this city in time for the opening of the session. In Government circles there was much optimism over the situation this morning.

MANY KILLED AND WOUNDED.

PARIS, March 17.—News that came through during the night from Berlin and other German points telling of sanguinary clashes at Essen, Dortmund, Leipsic, Mannheim, Frankfort, and Brunswick, together with the report that the Council of Workmen had assumed power at Chemnitz, has given the impression here that there is more to be feared from a revival of the Spartacan movement than from the activities of the Kapp Government in Berlin.

According to the latest despatches, the military movement has resulted in bloodshed in twenty-four German towns.

The Spartacans are reported to have risen in Dresden, where a clash with troops is declared to have resulted in a casualty list of one hundred dead and three hundred wounded.

Fighting in Breslau, Hamburg and Kiel also is reported.

KAPP WILL RESIGN.

BERLIN, March 17.—It is officially announced that Chancellor Kapp at one o'clock this morning decided to resign.

LABOR REPUBLIC.

A despatch from Chemnitz, the industrial centre of Saxony, with a population of more than two hundred thousand, says a republic of workingmen's councils has been proclaimed there, and a committee of action formed, comprising ten communists, six independent socialists, four majority socialists and one democrat.

Many War Veterans Gather At Peterboro

Special Despatch to The Intelligencer Canadian Press Limited

PETERBORO, March 17.—An appeal to the members of the Provincial G.W.V.A. to prevent the spread of Bolshevism was one feature of the address of President Jeakins when the annual convention opened this morning after an official welcome had been extended by Mayor McIntyre and the City Council. The question of the reestablishment of soldiers was still the big question, said Jeakins and a special committee was immediately appointed to deal with it. The President criticized Federal, Provincial and Municipal authorities for their appalling apathy towards the housing problem. He deplored the tendency of returning soldiers to multiply their organizations and said this was doing incalculable harm to the soldiers' cause. Secretary Turley said the convention should urge higher pensions and better pay and conditions for soldiers in the public service.

Comrade E. D. O'Flynn, of Belleville replied to the civic addresses of welcome..

SECOND OLDEST LODGE OF ODDFELLOWS IN CANADA

St. Catharines, March 17—On Wednesday Union Lodge No. 16, of this city, which is the second oldest lodge of the Independent Order of Oddfellows in Canada, will celebrate its 74th birthday with an open night at which there will be an appropriate program. Union Lodge was instituted on St. Patrick's Day in 1846, just nine days after Brock Lodge No. 9, of Brockville the first in Canada, was started.

NAVIGATION OF THE 'SOO' WILL OPEN ABOUT APRIL 24

Sault Ste. Marie, March 16—It is expected that navigation at Sault Ste Marie will open about April 24 this year. This is about the usual data. It is not likely to be any earlier. Superintendent J. L. B. Ross, of the ship canal stated. Ice conditions around here are about normal, as compared with the average for the past 12 years. There is 24 inches of ice in White Fish Bay, and the same thickness here. No figures are available for Mud Lake.

The German delegation at Paris is continuing its work in the execution of the treaty as formerly. The delegates accept the orders from the Kapp Government.

British Steamer On Rocks Crew Take To Boats

STR. TEWKESBURY PILED UP ON ROCKY COAST OF NEWFOUNDLAND, BREAKING UP IMMEDIATELY—CREW OF THIRTY IN SMALL BOATS IN GREAT DANGER OWING TO PRECIPITOUS CLIFFS AND LACK OF SAFE LANDING PLACE.

Special Despatch to The Intelligencer, Canadian Press, Limited.

HALIFAX, March 17.—The British steamer Tewkesbury piled up in St. Mary's Bay, Newfoundland, during last night and broke up immediately, the crew of approximately thirty taking to the boats with small chance of their rescue, owing to the precipitous cliffs which line the shore.

The Tewkesbury, 2740 tons, began to break up shortly after striking and the crew of approximately thirty men seized their one opportunity and took to the boats in an endeavor to find shelter at the base of the two hundred foot cliffs which line the Newfoundland coast at this point. Disaster overtook the ship with such suddenness that it was impossible to render assistance and it will be some hours before help arrives at the scene. At 2.30 a.m. the wireless operator aboard the Tewkesbury reported that the steamer was ashore and at 3.07—thirty-seven minutes later—he reported that the crew had been forced to take to the boats in an endeavor to make land. The last word from the Tewkesbury previous to her going ashore was received at noon yesterday when she asked for and received her position from the directional finding stations at Cape Race and Canso. She was then 42 miles south of St. Pierre Miquelon.

GOT $20,000

Seattle, March 17.—Two masked men held up the Internal Revenue officer here and escaped with $20,000.

Women of Canada Testify

Dacre, Ont.:—"I am more than pleased with Dr. Pierce's Favorite Prescription. I was run-down and so nervous that I could not even stay in the house alone in the day-time and tried every kind of medicine I heard of but got no result. One of my friends advised me to take 'Favorite Prescription,' said that it would cure me, and it did. After taking four bottles I felt like a new woman and it is also the very best medicine for a woman bringing up a family. I will recommend 'Favorite Prescription' to any one suffering like I did."—MRS. JOSEPH BEAUDRY, R. R. 2.

WEAK AND NERVOUS

Tillsonburg, Ont.—"I found Dr. Pierce's Favorite Prescription an excellent medicine for the ailments of women. I had become very weak and nervous. I was just miserable when I began taking the 'Favorite Prescription' and it proved most beneficial. It so completely restored me to health that I have never had any return of this ailment. I do advise the use of 'Favorite Prescription' by women who suffer with womanly trouble."—MRS. GEO. WALKER, P. O. Box 490.

Dr. Pierce's Favorite Prescription is made of lady's slipper root, black cohosh root, unicorn root, blue cohosh root and Oregon grape root. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were injurious, and so he has always kept them out of his remedies. Women who take this standard remedy know that in Dr. Pierce's Favorite Prescription they are getting a safe woman's tonic so good that druggists everywhere sell it, in liquid or tablet form.

"IN THE PUBLIC EYE"
BY Alex. Ray, Opt. D.
EYE-CAUTION IS HEALTH WISDOM
CARE OF THE EYES

EVERYONE should take exceptional care of his eyesight. At the first indication that its vigor has been impaired he should consult an optometrist who will advise conscientiously concerning its condition. If you don't need glasses we will so advise you. If you are in need of them we will give you satisfactory service.

Alexander Ray, Opt. D
Exclusive Eyesight Specialist

TUNNELLED FOR WHISKEY

Frankfort, Ky., March 17.—Ten residents of Covington, Ky., including L. E. Bullock, chief of police; Logan Godson, city detective and Robert Goodenough, a deputy internal revenue collector were indicted by the federal grand jury on the charge of the theft of whiskey from a bonded warehouse.

According to Elwood Hamilton, internal revenue colector for Kentucky 14 barrels of liquor were removed through a tunnel driven under a warehouse in Covington and smuggled to Cincinnati, where it was sold for eighty dollars a gallon. The operation according to Mr. Hamilton netted more than $40,000.

OUTLAWS RAIDED TOWN

Buenos Aires, arch 17.—A band of two hundred armed men, said to be agrarian strikers and anarchists raided the town of Barracas in the Province of Sante Fe, late last week.

Special Notice

A Heintzman & Co. piano was placed by special request in the rooms of Anna Case, the noted singer at the Ritz Carlton Hotel, for her personal use during her stay in Montreal over the week-end. Miss Anna Case gave a recital in Montreal on Sunday afternoon, March 14th, and before leaving Montreal on Monday she expressed her big appreciation of the piano to the agents for Heintzman & Co., Messrs. C. W. Lindsay, Limited, 219 Front street, Belleville.

COMBING WON'T RID HAIR OF DANDRUFF

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

Do this tonight and by morning most if not all, of your dandruff will be gone and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it no matter how much dandruff you may have.

You will find, too, that all itching and digging of the scalp will stop at once and your hair will be fluffy, lustrous, glossy, silkly and soft, and look ad feel a hundred times better.

You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

"Listen Lester" Was A Laugh Producer

"Listen Lester" danced its way into favor with the large audience at Griffin's Theatre Tuesday evening. "Listen Lester" is a musical comedy of rather unusual type, the opening being a dancing melange with not a word spoken for several minutes but with the feet and bodies of the company very expressive. The action is fast and furious led by Gus Shy, the acrobatic hotel clerk, whose eccentric dancing, whirling and contortions occasioned continuous and hearty laughter. Jack Mack, as Lester Lite, the porter and amateur detective, added materially to the general hilarity as a comic type of congealed efficiency Mayme Gehrue, as Miss Arbutus Quilty, a tough proposition chasing a fruitful meal-ticket, was weird, wonderful and amusing, and as a living model of an attractive family tree made a hit with the bald-headed row. Jean Thomas as the "I Wonder Widow," and Virginia Watson as the Colonel's daughter, took their parts well, while the Col. Dodge of Irving Brooks was all that could be desired. The other parts were in capable hands. Clever specialty dancing and catchy songs added to the general interest and the costumes and staging were elaborate and attractive. The frequent laughter and generous applause evidenced the approval of the audience.

Special Train For Fur Buyers

MONTREAL March 17—It is likely that a special train will be required to bring from New York the great company of buyers who will attend the fur auction sale here next week. Negotiations are under way between the Delaware and Hudson Railroad and the Canadian Fur Auction Sales Company, Limited for a special train to leave New York next Thursday evening. About three hundred buyers from tha centre have signified their intention of coming to Montreal.

So great is the interest in New York on the Montreal auction sale, that A. J. Alexander and Walter Cummings, representing the Canadian company, are going this evening to New York to open a temporary office in the McAlpine Hotel until the establishment of a permanent office in the American metropolis.

Wednesday will see the first of the fur buyers in the city. The big warehouse on Lagauchetiere street will be open all day for their convenience. Private offices and lounge rooms will be at their disposal there and when the sale commences next week, a continuous taxi service between the warehouse and the Windsor Hotel will permit them to reach the scene of the sales within a few moments.

The selling of the furs will take place in the rose room of the Windsor Hotel, where the various lots will be knocked down under the auctioneer's hammer. The sales will continue every day next week from 9 a.m. to 6 p. m. with an hour off for luncheon. Not a single fur will be seen in the Rose Room for the arrangements will be similar to those at the New York and London sales, where the buyer makes his bid from the information contained in his catalogue.

The buyers have, of course, previously seen the skins on which they are bidding. Each buyer on his arrival is furnished with a catalogue. He inspects [illegible] in the warehouse, marks in his catalogue those lots which he desires to purchase and the price that he considers them worth to him. At the sale, he [illegible] in a position to bid on the lots he desires, as they are called by the auctioneer.

The program for the various days of the sale has already been made up. Monday will see the 170,000 moleskins, the 22,000 mink, the 48,000 ermine, the 50 polar bear skins and the 30 buffaloes under the hammer. Otter skunk, American opossum and nutria will be among the furs offered on Tuesday. Marten, stonemarten, red fox and raccoon will be among those sold on Thursday. On Friday the much-coveted muskrat, one of [illegible] important offerings of the whole sale will come under the hammer. Fitch and white lamb and sundry offerings of cat skins, dog skins, civet cat, rabbits, etc., will be knocked down on the same day.

Saturday will see a number of the foreign furs, including Russian and Chinese squirrel, kangaroo, etc., offered to the buyers, 70,000 Australian opossum pelts and also the supply of Canadian beaver.

BIG CONDENSARY BUILDING

Kingston, March 16—The Bowes Milk Products, Limited, Toronto, is erecting a $100,000 milk condensary at Sydenham. The work of excavating has already begun and it is planned to have the plant in operation this summer. By means of motor trucks operating over a radius of ten miles milk will be collected from the farmers in the neighborhood and manufactured into condensed milk products. Eight of these trucks have already been purchased.

MUSIC AND DRAMA

(What the Press Agents Say)

"THE OLD HOMESTEAD"

Those who love sweet music and those who enjoy the scent of new mown hay can have there several tastes gratified by a visit to "The Old Homestead." That charming play has been before the public for thirty-two years and is now on its thirty-third annual tour It is the same simple story of rural life in New England that it was way back in 1886 when it was first produced as a finished drama at the Boston Theatre. And for eleven years prior to that Mr. Thompson had been presenting a play called Joshua Whitcomb in which he portrayed the sturdy old farmer "Uncle Josh." And even before that time Mr. Thompson had given for some years in variety halls, a sketch, having Uncle Josh as its central figure. So taking it all together, the character of the kindly New England farmer, "Uncle Josh" has been before the theatre-going public for nearly fifty years.

Augustus Pitou Inc are presenting a brand new production with all the famous features of former years and a typical "Homestead" cast headed by Wm. Lawrence as "Uncle Josh." The play comes to Griffin's next Monday night, March 22nd, for one night only.

"THE MIRACLE OF LOVE"

The much-maligned impecunious English Lord figures as the hero of a motion picture called "The Miracle of Love" at the Palace tomorrow to Saturday. Generally he is pictured as a money-hunter who will sacrifice anything to secure the hand of an American heiress. But this young nobleman renounces his opportunity to marry the title-hunting American girl and in the end gets the woman of his choice and the money also though in a most unexpected way. In its reproduction of the real English atmosphere and the dramatic story it tells, "The Miracle of Love" is a thoroughly enjoyable film. Wyndham Standing and Lucy Cotton carry off the chief honors in the cast. A program of good comedies and topicals will also be shown on the same program.

JACK PICKFORD

What place has a housebreaker at a house party? None in the least would be the usual answer to ths question and yet in 'Burglar by Proxy,' Jack Pickford's latest picture which is being shown at Griffin's tonight for the last time, the housebreaker in the guise of Pickford's valet is one of the most ludicrous characters seen on the screen at Griffin's in many a day. The importance of the thug to the story of society people is a novel bit of character development. "Chicken a La Cabaret," a funny two-reel Sunshine comedy and three other varied plays are also being offered on the same program.

ETHEL CLAYTON

Ethel Clayton, the famous screen star is appearing at the Palace tonight for the last time in "A Soul Without Windows." This picture is a really remarkable offering. It is one of the most vitally interesting and unusually appealing attractions seen here in some time. Not only that but the scenic effects are superb and the role portrayed by Miss Clayton is sympathetic and charming. Harold Lloyd is appearing on the same program in a new comedy "Never Touched Me," the 8th chapter of "The Fatal Fortune serial is also announced for exhibition on the same programme.

CONSTANCE TALMADGE

Another delightful comedy for admirers of Constance Talmadge may be viewed at Griffin's tomorrow to Saturday, where she will appear with Harrison Ford in a delightful comedy "A Lady Name" from the pen of the brilliant English author, Cyril Harcourt, author of "A Pair of Silk Stockings."

A succession of amusing and exciting events showing the adventures of an enterprising and whimsical young woman who advertises for a husband is the theme of the story. She is Mabel Vere, a writer, whose real reason for the advertisement is to secure material for a new novel. She is engaged to a somewhat priggish young man who naturally objects to her methods. After breaking her engagement with her fiancee, being blackmailed by a butler, and changing her role from writer to cook she becomes engaged to Noel Corcoron, the third and last applicant to her ad. Harold Lloyd is appearing on the same program in his latest two-reel comedy "From Hand to Mouth," other plays of interest will also be shown on the same programme.

METROPOLITAN SINGERS

During the winter months series of first class entertainments have been given here in connection with the Star Course of the Y. M. C. A. and the final for the season took place last evening. A large number were in attendance and were delighted with the program presented by the Metropolitan Singers. The organization is composed of five members, namely: Miss Mabel Day, Soprano; Miss Madge Miller, Contralto; Mr. John Lehuhard, Tenor; Mr. Leonard S. Aldridge, Bass and Miss Mary Glen, Pianist and Accompanist. All are artists and the various numbers given were heartily received. It was without doubt one of the best of the series of entertainments. The number rendered were as follows:

Praise the Lord—Maunder.

Trio From Faust—Gound—(Soprano, tenor, bariton)

Contralto Solo, "Habanera from Carmen"—Rizit.

(a) Rigoletto," Quartette—Verdi.

(b) "Sorter Miss You,"—Smith.

Soprano Solo, "When Celia Sings"—Frank Moir.

Duet from Il Trovatore, "Home to Our Mountains"—Verdi.

Bariton Solo, "Two Grenadiers"—Schumann.

(a) Nursery Rymes—Wacford-Davies.

(b) I'm Seventeen Come Sunday—Grainger.

(c). "Didn't My Lord Deliver Daniel," Quartette—Burleigh.

Piano Solo, "Etude in D. Flat"—Liszt.

Soprano and Contralto Duet, "Gypsy Song"—Brahaus.

Tenor Solo, "I'll Sing The Songs of Araby"—Clay.

Quartette—(a)" Daybreak"—Eaton Farming.

(b)—"Roses of Picardy"—Wood.

Soprano and Bariton Duet, "Passage Bird's Farewell"—Hildach.

Quartette—(a) "Love's Old Sweet Song"—Mallory, (Arranged by Miss Glen.)

(b)—"Spring Song"—Piusuti.

"Mac" was tough

HE was. Warders were afraid of him. They left him alone.

ONE Sunday, however, he stood on the fringe of the jail crowd while the band was playing.

TWO or three weeks later he came to service, but never said a word. And then one afternoon the big fellow became penitent, and asked the way of Salvation. His prayers were answered. To-day Mac is holding down a $3,000 a year job in an Ontario town.

MAC, and hundreds of men who were once as tough as he, would tell you that the bright music of the Salvation Army Band touched a chord in their hearts that had been dormant since childhood. Having recalled their days of innocence they could not rest until the evil within them was conquered.

THE Salvation Army Band "makes a joyful noise unto the Lord," with many such results.

TETRANZZINI KISSES

FAT ROLL GOOD-BYE

New York, March 17—Kissing a fat roll of bills a laughing goodbye Mme. Tetranzzini, the popular opera star, passed them over to "Big Bill" Edwards, internal revenue collector, to pay her first income tax installment.

"How much income did she declare?" the collector was asked.

"That would be telling, and the law doesn't allow me to tell," replied "Big Bill." He admitted, however, that it was more than $100,000.

Daily Intelligencer.

Printed and published every afternoon (except Sundays) for The Intelligencer Printing and Publishing House (Limited) in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 287 Front street, Charles James Bowell, Publisher.

RATES OF ADVERTISING. Measurement, Agate, 14 lines to the inch. Display advertisements, 10c. per line. Reading advertisements, 15c. per line. Legal advertisements, 10c. per line first insertion, 5c. per line subsequent insertions. Preferred position, 20 per cent. advance upon usual contract rates. Minimum space 10 lines. Births, &c. each insertion. Marriages, 50c. each insertion. Deaths or funeral notices, either singly or combined, $1.00. In Memoriams not exceeding 10 lines, $1.00. Rates for condensed advertisements will be found elsewhere. Business cards by the year at low rates. Further information may be obtained at The Intelligencer business office.

SUBSCRIPTION RATES. Daily Edition—One year delivered in city, $5.20; one year, post office box or general delivery, $4.00; one year by mail to rural offices $3.00; one year to U.S.A., $4.00. Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.00; six months pro rata. All above subscriptions payable in advance or an additional amount of 50 per cent will be added.

BELLEVILLE SCHOOL ACCOMMODATION

In another column will be found a letter from Judge Wills upon the local school situation which is well worthy of careful perusal by readers of The Intelligencer. Judge Wills was formerly a member of the Board of Education as well as Mayor of the city of Belleville, and presents the case for more school accommodation in a forceful, well-reasoned manner, backed by facts and figures which call for close consideration.

The movement for increased school accommodation has been handicapped by lack of information upon the subject furnished to the general public and a full and fair presentation of the facts in the possession of the Board of Education will go a long way towards clearing the air of any misunderstandings.

Judge Wills' letter is the best presentation of the case for the Board of Education published thus far, and is absolutely fair to all parties concerned and moderate in tone, recognizing possible differences of opinion and the abnormal times.

The public is entitled to all the facts and figures connected with the building and cost of a modern Collegiate Institute with its technical school and agricultural department, also the percentage of costs of construction and maintenance to be paid by the Government. Belleville's new Collegiate Institute will no doubt be the last word in educational facilities and progress, and as there is to be no move toward construction this year there is plenty of time for calm discussion. Any reasonable amount of space will be furnished freely by The Intelligencer to present the facts and figures clearly before the citizens.

POWER FROM POTATOES AND GRAIN.

The manufacture of alcohol to be used for industrial purposes is a comparatively new industry which is attracting world-wide attention on account of its possibilities, the many uses of the alcohol, and the variety of raw materials which may be utilized in its making. Citizens of the County of Hastings are particularly interested in this question on account of the fact that the large plant at Corbyville operated by the Canadian Industrial Alcohol Co., Limited, which rendered such good service during the war in the manufacture of munitions alcohol is being continued as a plant for the manufacture of alcohol to be used for industrial purposes, light, heat, power, etc. Farmers should be interested in the development of the industrial alcohol business because this will provide an outlet for farm products, particularly products which have partially spoiled or are in imminent danger of being spoiled—such products instead of becoming a total loss will be marketable at the industrial alcohol plants at good prices.

The restrictions placed upon the manufacture of industrial alcohol in Canada are a serious handicap to this industry, chief of the disabilities being the necessity of sending all alcohol to Ottawa, where it is denatured under Government supervision. The demand for industrial alcohol has outstripped the facilities of the Government's denaturing plant and the result is a growing scarcity of industrial alcohol, causing inconvenience and actual financial loss to other industries depending upon it as a necessary ingredient of goods manufactured.

An industrial alcohol plant in Vancouver might have an order to supply an industry in Calgary with alcohol, but this would have to be shipped from Vancouver to Ottawa to be denatured, then back to Calgary to the customer. This seems a clumsy method which could easily be overcome by a bonded denaturing plant in connection with each plant for the manufacture of industrial alcohol.

Industrial alcohol as a substitute for gasoline as a motor fuel is now engaging attention, but the high cost of manufacture resulting from Governmental imposts and restrictions must be materially reduced to permit the industry to attain the largest expansion possible.

Mr. John H. Burnham, member for West Peterborough, referring in the House of Commons to the possibilities of the industrial alcohol business, said:

Industrial Alcohol for Power.

"Now, Mr. Speaker, there is offered by the Alberta people a very fair solution of the question with regard to coal, and I purpose also to introduce the matter of industrial alcohol, which, as I ventured to intimate the other day, has undoubtedly appealed to the western world, at any rate, as a source of all forms of energy, including heat, of course. Lest the people generally, who are so concerned in Ontario about alcohol, should step in the way and oppose any legislation having to do with that product, I wrote to the Prime Minister of the province at Toronto and asked him if we might consider the question of alcohol for Ontario. I live in Ontario and represent a constituency there; and whilst, of course, I am deeply concerned in the welfare of Canada, and, for that matter, the world at large; still I am more particularly interested about the welfare of Ontario. The Prime Minister, Hon. Mr. Drury, in a letter dated February 24, wrote:

> I am in receipt of your letter of the 21st instant, in which you ask whether the manufacture of alcohol for mechanical purposes is to be permitted in Ontario in the future. I am not aware that this is a matter on which the provincial legislature has any control or jurisdiction. So far as my advice goes, the matter is entirely within the purview of the Parliament of Canada.

Grain, Corn, Potatoes, Furnish Alcohol.

"A very large source of alcohol lies in grain, corn, potatoes, etc., and the alcohol thus produced is the drinkable liquor, which constitutes by far the greater portion of all alcohol used for industrial purposes. At the present time it is shipped to Ottawa to be denatured. That is to say, it is so poisoned as to be unfit for drinking purposes. In other words, it is methylated. Having been rendered unfit as potable liquor it is despatched to the various users who employ it as they see fit. Heretofore industrial alcohol has been so expensive in the production as to have been practically out of the question. Its universality, of course, at once appeals to the whole industrial world, and industrial chemists everywhere have been bending their energies to find some solution of the difficulty with regard to price. This difficulty decreased with the rise in the price of the rival of alcohol, namely, gasoline. It was found possible in the course of time to manufacture industrial alcohol at a price that put it on a par with gasoline, and now, owing to the scarcity of gasoline and its consequent high price, alcohol has come into the market. The price of alcohol has been going down, while the cost of gasoline has been going up. Alcohol will really be the source of energy in the future, and the National Council of Industrial Research has consequently appealed to the Government to effect, if possible, an increase in the natural sources of alcohol, such as corn, potatoes, etc. It is not necessary that these products should be all of the highest quality, but they must be grain, from which can be secured all the alcohol, and therefore all the energy we need without fear of exhaustion.

Inexhaustible Source of Energy.

"So long as there is seed-time and harvest, so long will there be a source of alcohol and a source of energy which we can utilize. While this may have seemed for a time largely fanciful, it is now well within the realm of practicability. We know this on the authority of our scientific men, who are the only persons that are really capable of expressing an opinion on the subject. And in Canada, which at last has reached that stage of civilization in which the people are able to appreciate that form of organized or systematic knowledge, known as science, we are prepared at least to investigate, and probably to adopt, in very many particulars, the recommendations of scientific men."

CRISP COMMENT

Old Sol is finishing the work of the snow shovel slackers and the sidewalks are again fit to walk on—in spots.

× × ×

The man whose wine-cellar was robbed, while he was at church, of $2,500 worth of good spirits says never again.

Old Man Winter strenuously resented Miss Spring's valiant attempt to break his back, but she has sufficiently recovered from his stinging wallop to again come up smiling. Past performances afford a life-sized tip that Miss Spring will eventually win out.—Hamilton Spectator.

× × ×

In one of the Toronto dailies recently appeared an advertisement of a "Bachelor, returned soldier, discharged, A1, who wishes to meet lady or widow around 36 (not 36 around) who believes in prayer with a view to matrimony, if suitable; state particulars as to height, abilities, etc. Photos exchanged." Ladies who believe in prayer with a view to matrimony please take notice. How about the Ouija board?

OTHER VIEWS

Almost Doubly Weary
(Hamilton Herald)

The country is weary of Hon. Chas. Murphy's diatribes against Hon. N. W. Rowell. And is not far from being tired of the Hon. Charles Murphy.

An Easy Guess
(Hamilton Spectator)

Perhaps nobody was better pleased with the defeat of the amendment for an early election than the mover. Hon. Mackenzie King.

The Union Government
(Halifax Herald)

Sir Thomas White pricked a number of opposition blown bubbles with regard to the Union Government in his speech in the House of Commons. He particularly emphasized what we have repeatedly demonstrated that the government is in no need of having excuses made or apologies offered for it. No government could have a better record to its credit for so short a period of service. No straight party government could have accomplished as much in the circumstances. Several of its most valuable acts would probably never have been undertaken by a party government, or, if undertaken, performed so satisfactorily. This is notably true with reference to civil service reform, in accordance with Sir Robert Borden's previous pledges.

The factious opposition cry that the government has outlived its mandate is pure buncombe. The government was elected in the usual way for a five year period. It has still three years of power and usefulness before it. It was specially commissioned to end the war; but "ending the war" did not mean dropping arms as soon as the last shot has been fired, and leaving the cleaning up of the battle debris to other and inexperienced hands. It implied after war settlement and restoration, quite as momentous business in its effect with regard to the future as fighting. The government's mandate from the people was a continuing and by no means a temporary one.

FORCE A LAUGH

Are you feeling sad and sulky?
Is your line of outlook blue?
Are your troubles extra bulky?
Here's a remedy for you.
Just remember that your trial's not so big as some by half.
Throw your head back. Force a laugh!

Force a laugh! It's not a very, very, easy thing to do;
And at first it isn't merry,
And it doesn't ring quite true,
But with practice you will find the process easier by half—
You wont' have to force a laugh.

Not in Hoyle

The young woman from the country was a guest at a dinner at which a noted explorer was the centre of attraction. Being of a somewhat languid turn, she devoted more attention to the dinner than to the conversation When the repast was at an end she turned to her left-handed neighbor and asked:

"And what was that tiresome old gentleman talking about?"

"Progressive Peru," was the reply.

"Is that so?" continued the young woman, with some interest. "And how to you play it."

Aged Quickly

A visitor going through a rug factory stopped beside an Armenian who was busy plying his shuttle. "You make antique rugs, too?" he inquired, presently.

"Oh, yes," was the grinning reply. "Dis rung when hees finished is 200 years old."—Boston Transcript.

INTESTINAL INDIGESTION

A Form of Dyspepsia Usually Resulting From The Inabilty To Digest Starchy Food

A great many people are severely bothered with intestinal indigestion due to the fact that the starchy foods, such as potatoes, rice, white bread, etc., are digested in the small intestine and not in the stomach as is generally supposed.

To relieve this condition Stuart's Dyspepsia Tablets are well supplied with an intestinal digestant so that instead of practicing severe diet you may eat these essential, nourishing foods without distress.

In the small intestine the pancreatic juice acts upon the starches and ordinarily, in a state of health, possesses the power of converting them into grape sugar and dextrine. Starch must be transformed before it can be of use to the bodily economy. Remaining as unchanged starch, it either passes through the alimentary canal, and proves a useless burden to the system, because it resists absorption, or it caues intestinal indigestion, the food products becoming acrid through putrefaction which often sets up a catarrhal inflammation of the intestine, resulting in diarrhoea.

In a complaint of this character many persons use paregoric, bismuth and tannin to relieve the diarrhoea, all powerful astringents and they stop the trouble suddenly, "locking up" the morbid secretions, throwing the toxic intestinal poison back on the system and often causing auto-intoxication.

STUART'S DYSPEPSIA TABLETS contain among other powerful digestives a substance called pancreatin, which thoroughly digests starchy foods in the small intestine, thus preventing intestinal indigestion.

These tablets also contain calcium carbonate, which is a mild though effective sub-astringent, and which by its antiseptic properties removes the intestinal poisons that are always present in intestinal indigestion and diarrhoea.

Not only are the starches digested by the use of Stuart's Dyspepsia Tablets, but through the action of other ingredients they relieve stomach indigestion and dyspepsia. Buy a package from your druggist today for 50 cents and note the sense of relief that follows in short order.

Neuralgic Pains

Give Way to Soothing Hamlin's Wizard Oil

Hamlin's Wizard Oil is a safe and effective treatment for headache and neuralgia. Rubbed in where the pain is, it acts as a tonic to the tortured nerves and almost invariably brings quick relief.

Its healing, antiseptic qualities can always be relied upon to prevent infection, or other serious results, from sprains, bruises, cuts, burns, bites and stings. Just as good, too, for sore feet, stiff neck, frost bites, cold sores and canker sores.

Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

THE MIRACLE of LOVE
A Paramount Artcraft Picture

"The Miracle of Love"
A picture that lays bare the intrigues of British society, enters the halls of state, follows a forbidden romance to the end, and culminate's in love's great miracle.

Magnificent sets, gorgeous gowns, blood-stirring action, and a plot that burns with emotion. Founded on Cosmo Hamilton's celebrated romance in the Cosmopolitan. With Wyndham Standing, Lucy Cotton and Jackie Saunders. Filled with scenes you'll want to see.

AND SOME GOOD COMEDY AND TOPICALS.

Sports

HOCKEY.

The O.H.A. champions for 1920 are: senior Granites; intermediate, Collingwood; junior Toronto Canoe Club. Having defeated Collingwood handily, the Sudbury team, champions of the N.O.H.A. an affiliated body, have the privilege of playing two games with Granites for the right to defend the Allan Cup. The games will be played Wednesday and Saturday night.

TIGERS 9—BEAVERS 7

An interesting game of hockey took place at the Arena last night between the Tigers and the Beavers, the Tigers winning by the score of 9 to 7. J. Hunter starred for the Tigers scoring 8 of the 9 goals. All the Beavers played well especially Hedger in goal, Anderson, Whalen and Scott being the goal getters. The ice was covered with water making play difficult.

The line-up of the teams was as follows:

Tigers—R. Stark, J. Hunter, D. Smith, L. Arnott, Cook, L. Van.

Beavers—G. Anderson, R. Beatty, A. Whalen, R. Scott, W. Scott, J. Hedger.

CARPET BOWLING

Last evening eight members of the Belleville Carpet Bowling Club and a similar number of members of Lydford Lodge, Sons of England, participated in a friendly game of carpet ball. The result was a decisive win for the Englishmen who in the game scored 53 points to 14 for their opponents. Messrs H. Lennox and B. Sills were the successful skips, while Mr. B. Kelly and R. Robinson skipped for the Belleville Club. A number of spectators witnessed the game. A return game will be played on the 29th inst. The players were as follows:

Sons of England—H. Lennox, B. Sills A. Harman, W. Armitage, T. Weymark, Geo. Barlow, W. Bennett and C. Sutton.

Belleville Club—B. Kelly, F. B. Naylor, A. Bruein, H. Robinson, E. Fenn, R. Grouse, F. Parish and F. Bowen.

FOUND GUILTY OF RECEIVING STOLEN AUTO

Toronto, March 17.—Samuel J. Rowe, formerly a member of the Toronto Police Force, was convicted by a Sessions jury of receiving an auto which he knew had been stolen and was remanded in custody for sentence. The auto was stolen from Ethel Shanklin in November last, and when the police recovered it in the possession of Rowe, it had been repainted and the serial number of the engine removed. Rowe's defence was that he bought the car from a man named Clarke who had disappeared. Rowe stated that he had borrowed $200 from a friend to complete the purchase. He admitted that he had the car re-painted but never tampered with the serial number. Rowe also declared that he bought the car in all good faith and never for a moment thought it had been stolen. The jury acquitted him on the theft charge.

CHINESE OUTLAW CHIEF RELEASES U. S. MISSIONARY

Washington, March 16.—The State Department has received word from Pekin that Dr. A. L. Shelton, who was kidnapped by outlaws while he, his wife and two daughters were travelling from Batang to Yunnan Fu, in Yunnan Province, has been released.

The case has been receiving the attention of the department since it was first reported at Pekin, soon after Shelton's capture.

Dr. Shelton and his family were travelling with an escort of six police and were within two days of their destination when the party was attacked by a notorious outlaw named Yang Tin Fu. The outlaw carried Dr. Shelton away into the hills, but allowed Mrs. Shelton and the children

ULTIMATUM FROM ANTHRACITE MINES

New York, March 15.—Anthracite coal miners will cease work beginning April 1 if their negotiations with operators to conclude a new contract covering wages and working conditions is not concluded by that time, Philip Murray, international vice-president of the United Mine Workers, said. He said that so far negotiations are proceeding smoothly and he "is convinced an amicable settlement will be reached."

LUCKY MEETING

By accidental acquaintance, D. R. McIntosh, commercial traveller, met W. J. Fair, district manager for an Assurance company, in a hotel in Perth about the middle of January last. Mr. Fair induced Mr. McIntosh to place $2,000 insurance with his company and early in February ws informed of the serious illness of Mr. McIntosh in a Belleville hotel. He died on February 13th, leaving a widow and four children. Mr. Fair informs us that the cheque for his insurance was forwarded to the widow through the Rev. C. A. Ferguson, Vankleek Hill.—Perth Expositor.

Newsy Paragraphs From All Canada

SOLDIER FRUIT GROWERS

Vancouver, B.C., March 17—Announcement is made that the Kettle Valley railway will next year build a branch from Penticton, B.C., south to the international boundary—35 miles, thus opening a great tract of irrigated land, which will contain the largest soldier settlement area in British Columbia. The land will be devoted to fruit-growing.

NEW COAL DEPOSITS

Winnipeg, Man., March 17—Bituminous coal deposits totalling nearly 30 million tons, and lying within three feet of the earth's surface so that it may be loaded on cars as cheaply as gravel can be loaded in a ballast pit, has been located near asper Park, according to Geo. E. McDonald, general manager of the Pacific Great Eastern railway, who was recently in the prairie provinces on a business trip.

MOVING HOUSES TO UTILITIES

Calgary, Alta., March 17— Because the government housing scheme places too large a risk on the municipalities, Commissioner Samis proposed to use, if possible, any such money borrowed, for the purpose of moving houses at present beyond the range of the city utilities, into the area where the ratepayer would have every convenience, instead of extending the utilities to meet the scattered population.

PAINT CALDER'S PORTRAIT

Begin, Sask., March 17—Inglis Sheldon-Williams, an artist of London, England, formerly of Regina, has been commissioned by the Provincial Government of Saskatchewan to paint a life-sized portrait of Hon. J. A. Calder, L. L. D., Minister of Immigration. It will be placed in the Saskatchewan Legislature building at Regina, with others of those who have been notable in connection with efforts for the advancement and development of the province.

WILL FLY IN CANADA

Vancouver, B.C., March 17—Two Vancouver pilots formerly of the R.A.F.—Lieut. Charles Bayley and Lieut. A. McBride, may again take to the air in aerial warfare. They are negotiating for position with the Chinese government in connection with efforts to suppress the Tong conflicts in the Far East.

CITY ADVERTISING

Saskatoon, Sask., March 17—To place the merits of Saskatoon and its business advantages before a greater section of the public, the Board of Trade have made arrangements for a half-page advertisement and a skyline cut of the city to be inserted in the Manchester Guardian at a cost of $670.

CURBING "WILD-CATS"

Victoria, B. C., March 17—In his bill to amend the Mineral Survey Act, Hon. William Sloan believes he has a measure that will drastically curb, if not actually bring to an end, the activities of "wild cat promoters." One of the prime objects of the bill is to ensure that money invested in mining and other enterprises will be spent in actual work and "not for the benefit of brokers and promoters whose chief interest is commission." Promoters of mining companies must not only file their prospectuses with the registrar of joint stock companies, but also with the resident engineer of the district, in which the mine is located. The latter official is charged to report on the truthfulness of the claims for the property as set forth in the prospectus.

SELL DEBENTURES LOCALLY

Regina, Sask., March 17—The city has received permission from the local Government Board to increase the interest rate from 5½ to 6 per cent. on several issues of city debentures which the city council expects to sell direct to the citizens over the counter at the city hall. By-laws for debentures totalling $61,000 have been passed by the council to enable Commissioner Thornton to immediately advertise them and place them on sale in the local market.

IRRIGATION PROJECT

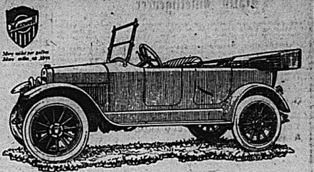
Edmonton, Alta, March 17—That the proposed $500,000 for the construction, operation and maintenance of the Lethbridge northern irrigation project is an extreme outside figure is discernible in the report of George C. Andeson, the United States irrigation expert employed by the provincial government to make a full report on the subject.

WONDERFUL WAR RECORD

Regina, Sask., March 17—Saskatchewan school cadets established a wonderful war record. Figures available now show that 1,620 cadets enlisted during the war, of whom 178 were killed and 206 wounded. Members were awarded 52 decorations, including one Victoria Cross.

FISHERMEN STRIKE

Cleveland, Ohio, March 17.—A strike of union fishermen and housemen prevented the tugs of Lake Erie's fishing fleet from going out.



MAXWELL
Has Won Its Following Through Its Quality

THE metals used in the Maxwell chassis compare favorably pound for pound with those in the best cars that the world has produced, according to metallurgists.

There is a real reason for this quality in a Maxwell.

The fundamental purpose of the Maxwell is to carry the same passenger load over the same roads and at the same speeds as larger and more expensive cars.

But it must perform this mission *in an extremely economical way.*

Therefore the Maxwell has to be light. But to make it strong as well as light only the very best of materials can be employed.

Hence, the quality metals.

And it is through the quality of its metals that Maxwell has developed its following.

This is a following that began five years ago with a foundation of 5,000 and now reaches a mark of 100,000 new Maxwell enthusiasts in 1920.

300,000 Maxwells now on the highways of two continents are a daily endorsement of the merit of this great car.

BELLEVILLE, ONT.

2,000 COOLIES BREAK FROM VANCOUVER CAMP

Victoria, B. C., March 16—At the point of the bayonet several hundred Chinese coolies who had made a determined attempt to escape from the William Head cantonment were finally rounded up by the military guards and herded back within the encampment fences.

Over 8,000 coolies are at the encampment and when the riot occurred, it is estimated that about 2,000 succeeded in breaking away from the strongly barricaded enclosure.

The guards were insufficient to stem the onrush and the leading forces of the mutiny succeeded in getting out into the surrounding country and scattering before reinforcements could be rushed to the scene and the crowd of rioters forced back at the point of the bayonet into the camp.

The cause of the riot is not known. It was stated, however, that the riot had been quelled and that order prevailed at the camp.

CONSERVATIVES DECIDE TO RETURN TO PARTY LINES

Toronto, March 16—At a special meeting of the Central Liberal-Conservative Association of Toronto, it was decided that the Liberal-Conservative organization in Toronto should return to party lines.

The decision was embodied in the following resolution, which was passed by the Association:

"That in the opinion of this Association, the time has now arrived to return to party lines; and it is further suggested that the Liberal-Conservative party proceed to reorganize on a broad, patriotic, national basis, without delay."

A comprehensive plan of reorganizing the party in Toronto was also outlined.

SECOND ELECTION MAY BE HELD IN SOUTH AFRICA

Cape Town, Union of South Africa, March 16—It is virtually certain that a second election in South Africa will be necessary, because no party or combination will be able to form a Government. General Smuts recognizing this possibility, declared today that he is ready to fight in every election "until the people know the truth and vote accordingly."

DESERTER IS CHARGED WITH BRUTAL MURDER

Toronto, March 16—Joseph Arthur sor for trial by Provincial In-Toronto yesterday morning from Wind Currie, alias Walker, was brought to specter Storey of Sudbury and Constable Smith. Currie is charged with the murder of Michael Donoghue, a trapper, who lived in a shack near Crerar on the C.N.R. and was killed in January. The trapper's head had been beaten with an axe. Currie is stated to have confessed to the crime and to have also stated that he robbed the body of $250, and went to Montreal, where he was robbed of $200. Thence he beat his way to Toronto and on to Windsor. Currie is also a deserter from the C.E.F.

City AND Country

DEATH OF INFANT

Eric George Keegan, infant son of Mr. and Mrs. Frank Keegan, of this city, died this morning after a few days' illness.

FINED FOR INTOXICATION

A stranger in the city was this morning before Magistrate Masson charged with intoxication. He pleaded guilty and a fine of $10 and costs was imposed which was paid.

SPOKE ON CHRISTIAN SCIENCE

Rev. R. C. Blagrave, D.D., lectured to a crowded Convocation Hall at Trinity College on Saturday afternoon upon Christian Science and Church. Very high encomiums were passed upon the ability of the lecturer.

CLEAN BILL OF HEALTH

The Canadian published in connection with the Ontario School for the Deaf here, in its issue of the 15th inst. says: "We are very glad and thankful to announce that at the time of going to press every boy and girll here is well enough to be in school. All of our pupils have so far been so fortunate as to escape the flu and we can now report a clear bill of health.

HYDRO FOR FARMERS

Hydro-electric power for residents in the front section of the Township of Elizabethtown, adjoining Brockville, will shortly be an accomplished fact as the result of a decision reached by the Council of the township of Elizabethtown at a special meeting. The Hydro-Electric installation which will follow will be the first in this section.

WANTS PART OF THE FINE

Lindsay Town Council, believing that the Government should pay for the use of the local police court, the time of the Magistrate and the time of an attending policeman, when Government liquor cases are being heard will continue to seek amendment to the legislation which will permit part of the fine being retained by the town. At the present time when Inspector Thornby arrests an intoxicated man, or holds police court, the entire fine goes to the Government while the town furnishes the accomodation.—Lindsay Warder.

MUSKRAT TRAPPING CASE

On Monday next, at Kingston, Judge H. A. Lavell will be called upon to decide what parties have the right to trap muskrats on a piece of land on the south shore of Wolfe Island. The judge granted an interim injunction ordering Thos. Brown to cease interfering with traps, the property of Lawrence McDonald, Lionel Doyle, Lewis Doyle and Wm. Kiell, which were placed on some unclaimed property on the shore of the island. Brown claims that he has the sole right to place his traps on this property.

CHIEF ROUGHLY HANDLED

Chief of police Short, of Lindsay, on Tuesday wlked into the Dominion Cafe of that town and foaund thrae young men seted at a table and a bottle of liquor was part of the bill of fare. Chief Short pounced on the bottle before the astonished trio could say "Jack Robinson" and then the proceedings were very much enlivened when two of the young men attacked the Chief and gave him a couple of blows on the face and head, while the third seized the bottle. The Chief fought gamely for a few minutes, suffered much insulting language and gave the trio a few biffs in return, but they quickly extricated themselves and made their get-a-away. However, he has their names and police court proceedings will follow.

Last evening at Holloway Street church the Rev. R. J. Campbell, who is in Belleville in the interests of the Brotherhood Movement gave a strong and inspiring address. He showed how the Great War had discovered not only the resources of Canada, but also the splendid spirit of heroism and sacrifice. It was a direct challenge to the churches to conserve that spirit and enlist it in the greater warfare against sin and evil. Men are ever capable of such devotion if we can only make it apparent that the cause is worthy. There was never such a high and splendid vision given to men as the new appeal for a world wide federation of men to secure practical brotherhood. It is the only way to solve the great problems of the world that are causing so much unrest in all nations today. One was in which we are evidencing our practical brotherhood is by taking up the burdens of stricken and impoverished countries. He then made an earnest appeal for the orphaned children of Serbia. The special services continue each night this week.

STILL IN HOSPITAL

John O'Connell, who is under arrest charged with the attempted murder of Miss Margaret McGee on a farm near Brockville, and is confined to the General Hospital at Brockville, following his attempted suicide, will not be moved from the hospital until towards the end of this week, it was stated at Brockville police headquarters. O'Connell is making good progress toward recovery but will be allowed to remain in the hospital under guard until the stitches are removed from the wound and all danger of hemorrhages has passed. Miss McGee is slowly recovering from her injuries. The Brockville police say that O'Connell admits having been employed on the G. T. R at Belleville as sectionman and that he got into trouble here as a result of a fight with a fellow workman. A man named O'Connel and an Italian, both railway sectionmen fought with shovels and both received severe injuries some months ago, O'Connell being taken to the hospital. The case was afterwards ventilated in the police court.

"ULSTER NIGHT"

There was a record attendance at Ulster Masonic Lodge, No. 537, G.R.C., when the annual "Ulster Night" was enjoyed as never before in the history of the lodge. The distinguished visitors included: M. W. Bro. F. W. Harcourt, K.C., grand master, Grand Lodge of Canada; R. W. Bro. Lieut.-Col. W. N. Ponton, K.C., deputy grand master; R. W. Bro. Dr. Emerson Bull, D.D.G.M., Toronto West, District No. 11; W. Bro. Fred Dane; M. W. Bro. W. D. McPherson, P.G.M., and Bro. Rev. Wesley Megaw, B.A., of Ottawa, an Ulsterman, who is making Canada his home W. Bro. William Steen, W. M., and the members of the lodge received the eminent visitors in accordance with their rank and gave them the usual honors. R. W. Bro. Lieut.-Col. Ponton responded in a speech eloquent, dignified and touching in its reference to Ulster and Ireland. "What Ulster wants is permanent peace," he said, "one with confidence and security; no other will serve. Sir Edward Carson and Ulster know that Ulster must be that which constitutes a true State, a true democracy; that it may always be the collected will of the province crowning good and repressing evil. We must be loyal enough to be free and loyal enough to enforce the law." He concluded with the toast: "Here's wishing good health and long life to ye, and here's the choice of the girls for a wife to ye, and your land without penny of rent to ye." Concluding, he said: "If these three blessings are sent to you there will be peace and praties and content to you forever and ever." Cheers).—Toronto Telegram.

ALONG THE MOIRA

There is considerable apprehension and not without cause, that Belleville will experience another flood. About two o'clock this morning a considerable body of ice came down the River Moira from the vicinity of Lazier's Mills near Canifton. This caused the ice to be broken up in the vicinity of the upper bridge and the large ice field moved down the niver to a point just above the foot-bridge where it is held solid owing to the ice in the river at this point being still solid. At the time of writing there is a field of broken ice reaching from near the footbridge, to what is known as Lott's Dam, a distance of nearly half a mile. If this should take another move down the river it is feared that the ice will go over the embankment. At present from Lott's Dam to a point above Lazier Mill the river is almost clear of ice. In the shove this morning no particular damage was sustained. There were in the ice some timbers and boards indicating that a portion of one of the dams along the river had been smashed. A few stables and some buildings along the eastern bank of the river in the vicinity of the Albion Hotel were surrounded by water causing some inconvenience, but no damage was done as everything possible was moved from the high water mark. The water rose to the sill of Mr. Vicker's bake shop near the old Hastings House but did not enter the building. Every precaution has been taken to prepare for the worst if it should happen. A gang of men were busily engaged today in making a channel in the mouth of the river south of the railway bridge at the junction of Front street. This, it is expected, will give the ice an opportunity to move out into the bay when it reaches this point. A number of citizens, who were upon the footbridge this morning, were interested in a moving picture machine which was being operated taking views of the ice from different positions.

Letters To The Editor

NECESSITY OF MORE SCHOOL ACCOMMODATION

Belleville, March 15, 1920

To the Editor of The Intelligencer:

Dear Sir:—I was engaged upon Friday evening last in attending our weekly meeting of the local committee of the Candian Patriotic, Post Discharge Relief and Soldiers' Emergency Fund Relief, where practically all matters are dealt with for the City and County in disbursing to the returned soldiers and their dependents these several funds after proper application and investigation and thus I was unable to attend the public meeting in the City Hall.

As you know, I was a member of the Board of Education for twenty years and resigned in December, 1912, to become Mayor of the City, and have always taken a deep interest in educational work. During the time I was a member of the Board, the question of building a new High School or Collegiate Institute was thoroughly discussed. We decided to build our Public Schols and remodel the present High School. We prepared our plans which were quite modest and came to the City Council requesting a Bylaw to be passed to raise $70,000 for this purpose. The Council declined and required us to go to the people. The Bylaw was submitted and through the activity of Mr. J. J. B. Flint and others, the Bylaw was defeated. The members of the Board regretted this step as they knew the necessity for the new schools. They had not given enough publicity to the matter and thought that the people knew of the necessity. The general public realized the necessity within two years from that date, and the Council at once acceded to the requisition of the Board of Education and the necessary funds were forthcoming. But in the meantime property had risen in value and everything else, and instead of having three schools we were only able to build two (Queen Alexandra and Queen Victoria) at a cost of about $90,000 or a little more, and the High School was remodelled at a cost considerably over our estimate in the first place. The next school to be built was Queen Mary in Murney Ward. This completed our programme at that time and it was decided that we should proceed with the High School The war came on and the question was held in abeyance until after war activities ceased. No one could realize that the war would last as long as it did, and we were all satisfied to bend every effort towards its successful conclusion. The war is over and we are now all endeavoring to get back to normal civil life. In order to equip our children to the best advantage of the State and citizens thereof, the children must be well and carefully trained. To insure a strong healthy race the conditions of living must be improved; this refers to the housing conditions, the factory conditions and the school conditions. We have three excellent Public Schools and a fourth school is required in the northerly part of the city in Coleman Ward. The law requires every child to attend school to the age of fourteen years and that provision is recommended to be changed to sixteen years and will probably become law at the present Session of the Ontario Legislature. The average age at the time of passing from the Public to the High School is thirteen years, and we are required to provide school accommodation for every child of school age in the city, whether it be Public or High School. The present High School building places our children at a great disadvantage. We have the teachers and we have to pay them salaries, but we do not help them sufficiently with the necessary equipment and therefore the results are not as they should and would be under better conditions. Proper light, ventilation, heating, together with properly equipped departments in science, agriculture, mechanics, etc., are absolutely necessary to meet the requirements of the present day and the immediate future. We then as citizens must meet the conditions that exist and provide to the best of our ability for the betterment of our oncoming citizens. We hear some persons complain of the burden of taxes. I am quite in sympathy with them, as I would desire to be as careful as possible in the necessary expenditure required. I have much confidence in the Board of Education, who are careful leading men of our city who realize what is required and are acting upon that knowledge, and it would appeal to me very strongly that we should act in accordance with their better understanding of the children's needs than listen to those who appear to consider self before every other interest. The matter of taxation, so far as the Collegiate Institute is concerned, would not appear in the tax bills until the year 1923 for the new building proposed. Many of the children attending the schools today will be citizens working and bearing their share of the taxation, if not at the time of the first payment very shortly thereafter and will be the persons who will complete the payments in the thirty years immediately following the year 1923. I am quite satisfied that I will have passed away by that time if not long before then and that most of my octogenarian friends need not worry about the small addition to the taxes during the short space of time in all probability they may remain with us.

I have no axe to grind, I have no children to educate at the Collegiate Institute, except other citizens' children and there is no tax that I pay as willingly as the school tax, because it benefits every person in the community We were told many times in the Great War to subscribe and pay towards the various funds raised and pay "until it hurts." We cannot do better in these days of war in civil life than to prepare our children and equip them in every way so that the citizenship of our country may be bettered.

There should be no hesitation on the part of our progressive City Council to meet without delay the requirement of the Board of Education, and pass the necessary Bylaw to enable the Board to undertake the plans and prepare for this absolutely necessary work in the replacing of the present inadequate High School by a modern well equipped High School. No expenditure would be on the tax bill this year in connection therewith and the whole cost would be when the building is completed some three years from now placed in the form of debentures which would date from that time and the proportionate parts would then commence to be repayable and placed in the taxes from then on.

Some people would counsel delay in this matter. How can there be delay? Do you want to favour some children more than others? You can neglect doing this necessary work and thus cause a loss to the children who will be immediately entitled to the training of a proper school such as proposed. What will you gain? Possibly a few dollars. But what will be your loss? The value to the children of 1923, 1924 and as many years after as you delay this necessary work in not having the advantage of education and training in the best possible conditions in those years.

Thanking you for your courtesy in placing this long space at my disposal,

I remain,
Yours faithfully,
J. F. WILLS

FOR THE FIRST TIME IN OVER 100 YEARS

Dublin, March 17.—For the first time in 100 years many cities in Ireland will not hold St. Patrick's Day parades today. The majority of the Irish people decline to apply for the necessary permits from the Government, which has announced that the military will break up any unauthorized parades.

Poor Sight Makes a Backward Child

School work often requires close application of sight that the eyes are not able to meet, because they are not fully developed.

When a child dislikes school work and has difficulty in keeping up in it, the eyes should be examined by a competent optometrist. Don't blame the child if it is backward. It is your duty to see that the eyes are not at fault.

Blackburn's makes a specialty of examining children's eyes. Bring your child in for consultation.

Yale University has decided not to send track athletes and crews to compete with Oxford and Cambridge in England.

Wall Street was rather irregular in tone, profit-taking sales being a feature.

Wedding Bells

PORTT—GALLAGHER.

A quiet wedding was solemnized near Shannonville at William Henry Portt's residence, on Monday last, the 15th inst., when Robert Arnold Portt was united in holy matrimony to Anita Elizabeth Gallagher, daughter of Mr. and Mrs. Robert Gallagher of Dorland, county of Lennox and Addington. The bride, who was very neatly attired in a dress of taupe crepe de chine, and holding lovely pink carnations, was given away by her father. The Rev. J. Cantrell, Rector of Shannonville, performed the wedding ceremony. On account of the bridegroom's sickness the friends present were only the immediate relatives of the happy couple, viz.: Mr. and Mrs. W. H. Portt, Mr. and Mrs. Robert Gallagher, J. R. Stratton Gallagher, Mr. and Mrs. Dayton Milligan, Mrs. Detlor and others.

MARRIED

PORTT—GALLAGHER—On Monday, the 15th inst., at Shannonville, Robert Arnold Portt was united in the bonds of Holy Mantrimony by Rev. J. Cantrell (Rector of the Parish) to Anita Elizabeth Gallagher, of Dorland, County of Lennox and Addington.

DIED

HAYES—In Belleville Hospital, Belleville, Ontario, Canada, on Tuesday evening, March 16, 1920, Emma Perks, the beloved wife of Wm. W. Hayes, aged 44 years, 7 months.

The funeral service will be held at her late residence, 162 James St., at 2.30 p.m., on the 18th of March. Interment in Belleville Cemetery.

EXTREME COLD DESTROYS MANY VIOLET PLANTS

New York, March 16—Violet growers in Duchess County say flowers valued at $50,000 have already been destroyed and $200,000 worth more are threatened by the extreme cold. Coal intended for use in the greenhouses has been held up by snowdrifts blocking the railroads, and the supply on hand is almost exhausted.

Unionist Caucus In Favor Of Minimum Jellicoe Plan

LEGISLATION LAYING DOWN NAVAL POLICY NOT TO BE PRESENTED TO PARLIAMENT AT PRESENT SESSION —PROVISION MAY BE MADE FOR DEVELOPMENT OF AN AIR FORCE AS PART OF DOMINION'S DEFENCES.

OTTAWA, March 18—Legislation laying down a naval policy and program for Canada will not be presented to Parliament at its present session, if the counsel of the Unionist Senators and members of the House of Commons is accepted by the Government. On the other hand, it is possible that some provision may be made for the development of an air service as a part of the armed forces of the Dominion

The subject of naval defence, together with the report thereon by Viscount Jellicoe, recently presented to Parliament, were under discussion at the caucus of Government supporters. It was suggested, it is said, that Canada should make a modest start in the direction of the establishment of a fleet by accepting the minimum plan outlined by Admiral Jellicoe That plan called for a naval force consisting of eight submarines, four local defence destroyers, eight "P" boats and four trawler mine-sweepers. It would be of use for the defence of Canadian coasts and commerce in the vicinity thereof, but would provide no margin of strength for offensive purposes in connection with an Imperial naval campaign. It would cost, Lord Jellicoe estimated, $5,000,000 a year. It was pointed out, however, that certain of the vessels for this force would be presented to Canada by Great Britain.

Certain British Columbia members and representatives of other maritime constituencies, it is understood, favored the adoption of such a policy. The majority of the speakers, however, were not in favor of embarking upon a program of naval construction and expenditure at the present time. They assigned several reasons for their attitude.

In the first place, they contended that, in view of the country's financial situation, Parliament should hesitate before adding to the public expenditures. Furthermore, they argued that the lessons of the war had not yet been sufficiently studied to permit of a decision as to the best form of naval activity for Canada ,.and that the organization of the League of Nations might have an important influence upon armaments.

Air Service Useful Branch

On the other hand, they pointed out that Canadians had distinguished themselves in the air service, which had proved a useful branch of the force during the war. Those members drew attention to the fact that Canada had at present 5,000 trained and experienced airmen and a number of aircraft as a nucleus of an air force.

Moreover, there were in Canada plants which had been used in the construction of aircraft, and practically all the materials entering into the construction were produced in the Dominion.

Members left the caucus convinced that, while naval legislation would not be introduced this session, provision would likely be made for the development of an air force. It was suggested that an initial programme calling for an expenditure of about $800,000 a year might be adopted.

Jamaica To Impose Export Tax On Sugar

KINGSTON, Jamaica, March 18.—The Government formally introduced legislation for State control of the liquor traffic. The measure will be opposed on the ground that it is unnecessary.

The Governor of Jamaica, Sir Leslie Probyn, in his address at the opening of the Legislative Council, submitted a proposal to reduce by 50 per cent. the duty on cotton and woollens produced in the British empire on entering Jamaica. This would have the effect of diverting trade from the United States to the United Kingdom.

It is proposed also to impose a tax on sugar exported from the colony and to establish a cement factory to augment the revenue of the Government.

A loan of $15,000,000 is to be floated for carrying out works of improvement.

Ask Woman Judge For Female Cases

TORONTO, March 18—The necessity for the appointment of a woman judge to hear all charges against women and girls taken to the Police Court was brought to the attention of the Local Council of Women at their annual meeting, when Mrs. W. H. Becker recommended that the matter should be pressed as rapidly as possible. Mrs. Becker also recommended that women probation officers, physicians, and lawyers be appointed for women in the Police Court and that the City Council be approached with regard to the appointment of more women police officials. Mrs. Becker objected, as well, to the indiscriminate reporting of the proceedings in the Juvenile Court, and advocated the appointment of a publicity committee to issue reports calculated to arouse the sympathy of the public and to waken public sentiment with regard to the problems of these courts.

KINGSTON DECIDES TO OFFER FREE INDUSTRIAL SITES

Kingston, March 18.—The City Council has adopted the policy of offering a free site and exemption from taxation for a period of years to worthy concerns looking for industrial locations, in order to get industries that would employ over a hundred men. Kingston has to do something out of the usual in order to make up for the present unfavorable power conditions that exist in Eastern Ontario.

New Reservation To Peace Treaty

"U. S. Will View With Grave Concern Future Upheavals."

WASHINGTON, March 18.—A general declaration of international policy, under which the United States would view with "grave concern" any future upheaval threatening the peace and freedom of Europe, was agreed upon by Republican Senate leaders and presented as a new reservation to the peace treaty.

Intended to replace the more definite pledges of Articles 10, the reservation is to be pressed in the Senate as the farthest step the Republican leaders are willing to go toward abandonment of United States isolation and participation in European conflicts Its text follows:

"It shall be the declared policy of this Government that the freedom and peace of Europe being again threatened by any power or combination of powers, the United States will regard such a situation with grave concern, and will consider what, if any, action it will take in the premises."

Ontario G.W.V.A. Supports Scheme For The Gratuity

PETERBORO, March 17—"You men are being watched from one end of the country to the other by the advocates of the old party lines," said Sergt.-Major McNamara, to the G.W.V.A. convention in a special speech made this afternoon. He advised the G. W. V.A. to avoid becoming a political party.

The report of the special re-establishment committee embodied all the resolutions on the question into two classes. They presented the following motion:

"That this Ontario convention of the G.W.V.A. most heartily endorses the gratuity scheme of re-establishthe gratuitp scheme of re-establishment, as placed before the Parliamentary committee last fall, and recommend the adoption of this as the official stand of the Dominion G. W. V. A.

WINS DOG DERBY

The Pas, March 18—Walter Goyne, the Alaskan, won the Hudson's Bay dog derby; Pranteau was second and Hayes third. The winner's time was thirteen hours, twenty-two minutes for the hundred mile course.

Cash Bonus Now Before Commons

Petitions Introduced for Money Grants To Returned Men

OTTAWA, March 18—The J. Harry Flynn proposals for a $2,000 cash bonus to soldiers who served in France were introduced in the House again in the form of two petitions by Mr. H. C. Hocken (West Toronto.)

The preamble to the first petition sets forth that it is supported by the Naval Veterans' Association, Originals Club, Grand Army of Canada, United Veterans' League, Army and Navy Veterans in Canada, and His Majesty's Army and Navy Veterans, and all other ex-sailors and soldiers who served in the Canadian Expeditionary Force, or having been resident in Canada before or during the Great War of 1914-1919, served in any branch of the allied forces; and the dependents to those who sacrificed their lives in defence of the Empire."

Cannot Compete With Aliens

The petitioners point out that the men, on their return, found aliens established in business and operating under conditions which made it impossible for veterans to compete with them. They, therefore, ask a further cash bonus of the following proportions: $2,000 to officers, N.C.O.,s and men who served in France or any of the active zones of warfare; $1,500 to officers, N.C.O.'s and men and women who served in England, or on fortress duty; $1,000 to officers, N.C. O.'s, men and women who served in Canada; $2,000 to officers, petty officers and ratings in the naval service, who were engaged in the official war zone; $1,500 to those engaged in lightship or patrol duties; $1,000 to those who served in Canada only.

Cash Bonus for Dependents

They further petition that a cash bonus, based on the same ratings as above be paid to the parents, wives, children or proven dependents of deceased soldiers or sailors.

Of between 200 and 250 names attached to this petition from returned men, a very large percentage give Toronto house addresses. The other petition, with some 300 names, many being Toronto men and women, sets forth that Canada oves a great debt to those who suffered in the C.E.F. or Allied forces during the great war. After the preamble of this petition, the schedule of cash bonuses is set forth.

Beck And Drury Had Conterence On Huge Proiect

Sir Adam Beck has lost no time getting back into harness upon his return from the Old Country. Wednesday he had an hour and a half conference with Premier Drury, Col. Carmichael and Hon. Beniah Bowman at the Premier's office with regard to the $5,000,000 Hydro project for the supply of power to the Great Lakes Pulp and Paper Co., at Fort Frances. The situation has caused the Government deep concern during Sir Adam's absence, and today the whole matter was threshed out by the Hydro chief and several members of the Cabinet. "There is something new all right if the Premier wishes to give it out," said Sir Adam as he left the conference at noon. He said that he did not wish to make any statement as to what had transpired at the conference. He immediately accompanied Hon. Peter Smith, Provincial Treasurer, to the former's office and was closeted with him for another hour.

Murder Charged Against F. Larson

Toronto, March 18—The following verdict was returned by a jury enquiring into the death of James Davidson, farmer, of Cooksville, who died from gunshot wounds on March 3rd: "We find, on the evidence produced, that the deceased, James Davidson, came to his death by gunshot wounds in the head, the gun being in the hands of Frank Larson."

Immediately after the coroner's inquest the preliminary proceedings were opened when Larson was charged with murder by the Crown, and committed for trial. He was taken back to the jail in Brampton.

Men are so contrary that if their wives wanted them to stay out late they probably wouldn't do it.

WILLIAM JAMES CLUFF
President Canada Pipe & Steel Company, Toronto, Ont.

PLAYING THE OSTRICH GAME WILL NOT MEET LEAPING NEWSPRINT AND OTHER COSTS.

"It is obvious that many daily newspapers are not taking adequate measures to meet rapidly mounting costs of newsprint and other materials and services entering into the production of a daily newspaper.

"These increases are too substantial to be trifled with or to be met by any haphazard, trust-to-good-luck policy. Those daily newspapers that refuse to meet the situation squarely and make adequate increases in their subscription or advertising rates, or both, will soon find current revenue wholly inadequate to meet current expenses."

Dominion House Wants New Power

OTTAWA, March 18—Without a division, the House of Commons approved the Peace Treaty with Bulgaria. The debate, which lasted practically throughout the afternoon and evening sittings, brought the important announcement that negotiations were under way to empower the Dominion Parliament, with the concurrence of the provinces, to amend the Canadian constitution.

Great Minds Agree

Mr. Mackenzie King, leader of the Opposition, had asked why, if Canada now had equality of status within the Empire it should be necessary still to go to the Parliament of the United Kingdom, for amendments to the British North America Act. Mr. King then suggested that authority be sought whereby, with the concurrence of the provinces, the Dominion Parliament would be empowered to amend the Act.

The declaration aroused applause from the Opposition. A few minutes later the Minister of Justice smilingly announced that he had entered into negotiations with the Attorney-Generals of the various provinces with this end in view. Mr. Doherty also remarked that he had previously spoken to one or two Opposition members on the subject and perhaps that was "where the idea came back."

There was a murmur of protest from the Opposition benches.

"The leader of the Opposition mentioned it to me last year," ejaculated Dr. Beland.

"Well, it shows how great minds can agree," retorted Mr. Doherty, as a laugh rippled round the House.

Objects to Imperialism

Mr. King criticized Mr. Rowell in particular for reiterating principles which had already been accepted. Mr. King strongly resented any idea that the Opposition should be classed as "little Canadians" but he could not accept the view that there had been any recent change in Canada's status. It was merely that the status which Canada already possessed had secured international recognition. Mr. King expressed the fear too, that there was danger of swinging to the other extreme and developing a form of centralized Imperialism which would be "most objectionable."

NOVELIST ISUES WRIT

Toronto, March 18—Sir Henry Rider Haggard, K.B.E., and Longmans Green Company today at Osgoode Hall issued a writ against Fox Films Corporations Limited, asking for an injunction restraining the making, selling, letting, for hire, advertising, offering for sale or hire, or authorizing public exhibition of a motion picture entitled "Cleopatra." It is claimed that this infringes a copyright held in "Cleopatra' by Sir H. Rider Haggard and the publishing company.

Ten Millions' Loss In Annapolis Bridges

Several Months Before Vehicular Traffice Resumed Over Two Streams

Halifax, March 18—Officials of the Nova Scotia Highways' Board today stated that the damage to the bridges in Annapolis county during the recent floods will be at least $10,000,000, and that it will be several months before vehicle traffic across the Anapolis and Lequille Rivers can be resumed. Four steel bridges, two wooden bridges, and at least a dozen smaller ones were demolished to a greater or less degree. The largest loss was in the bridge across the Anapolis River at Bridgetown, which is of steel, and has a 150-foot span.

Last Minute Telegraph Briefs

Admiral Sims Concludes

Washington, March 18—Concluding his long arraignment of the Navy Department's conduct of the war Rear Admiral Sims laid before the United States Senate investigating committee today thirteen specific counts in his indictment charging mistakes and costly delays.

Calm at Constantinople

Constantinople, March 18—The second day of the inter-Allied occupation of Constantinople carried out on Tuesday by large forces from an imposing war fleet in the Bosphorous passed with entire calm; Turkish police co-operating in keeping order. The ferry and telephone services have been resumed. Only small detachments of allied soldiers are stationed in the streets and about public buildings.

Ebert in Berlin.

London, March 18.—President Ebert arrived in Berlin last night. Ebert has ordered the Imperial court at Leipsig to bring action against the leaders of the revolution, Dr. Kapp, General Von Luettwitz, Gottlieb Von Jagow, Admiral Trotha and Capt. Erhardt.

London, March 18.—Despite recent reports to the contrary, it is evident that the recent South African elections have gone overwhelmingly in favor of British connection. The Nationalists will have 44 members, South African party, 39; Unionists, 23; Labor 21, and Independent 3. It is believed that Labor will give General Smuts qualified support and that the Nationalists and South Africans will effect a compromise.

Late Telegraph Briefs

Monarchist Revolt Collapses Followed By Anarchy

CONDITIONS IN BERLIN ARE THREATENING FOLLOWING COLLAPSE OF REACTIONARY GOVERNMENT—CITY MAY BE ATTACKED BY SPARTACAN FORCES WHICH ARE GAINING STRENGTH.

Special Despatch to The Intelligencer, Canadian Press, Limited.

PARIS, March 18.—Official advices from Berlin describing conditions there last night said that public places of the city were filled with crowds in an ugly humor. The military appeared to be of a panicky nature and many Baltic troops joined forces with Independent Socialists, who were reported to have 1,200 armed men at their command.

LONDON, March 18.—Rumors are current in Berlin that Dr. Wolfgang Kapp, head of the reactionary government set up in Berlin last Saturday, and whose resignation was announced yesterday, had committed suicide. These reports were received by telephone in Amsterdam from the German capital.

COBLENZ, March 18.—Gustav Noske, Minister of Defence in the Ebert Cabinet, arrived in Berlin by airplane late yesterday, having made the trip from Stuttgart. General Von Seecht, chief of staff for the constitutional government, has replaced General Von Luettwitz as commander at Berlin.

The danger from Bolshevism seems to be extreme. Kappist troops are withdrawing from Berlin and forces commanded by Spartacan leaders are expected to attack the city at any time. A consolidation of all parties to fight the Bolshevik has been formed. Elections will be held no later than June, according to a late despatch from Stuttgart.

National Assembly Meets

STUTTGRAT, March 18—Two hundred and fifty members of the German National Assembly held a meeting in the art hall here this afternoon. Military forces are occupying the great open place before the hall. No disorders occurred while members were assembling. Airplanes are flying over the city warning the people against demonstrations.

Constantinople Occupied By Strong Allied Forces

TURKS RESISTED AND OCCUPATION WAS ATTENDED BY FIGHTING AND LOSS OF LIFE — TWO BRITISH SOLDIERS KILLED — GUNS OF ALLIED FLEET TRAINED ON CITY — RESISTANCE SPEEDILY OVERCOME.

LONDON, March 18.—Great Britain now is in absolute control of Constantinople and of the Dardanelles, but the occupation of the Turkish capital was attended by fighting with loss of life.

Andrew Bonar Law announced in the House of Commons today that the Turk capital had been occupied by allied troops, as proposed, and that at only one point was there fighting. Two British soldiers were reported killed and one officer and three men wounded. One Turkish officer and eight Turks were killed and others were wounded.

Mr. Bonar Law said that at the same time the Turkish Government had been warned that the occupation of Constantinople would continue until the terms of the Peace Treaty were duly executed, and, further, if outrages against native Christians continued the terms would be more severe.

For reasons previously indicated, it was decided that the Government, in conjunction with its allies, should proceed with the occupation of Constantinople. The general administration, of that city would not be taken over, but the Ministries of War and Marine would be occupied. The postal and telegraph services and navigation on the Bosphorus would be placed under control and the police put under allied officers.

Details of Fighting.

Constantinople, March 16.—Constantinople was occupied this morning by allied forces under General Sir George F. Milne, of the British army. This long-looked-for military demonstration by the allies against Turkey was carried out with only one untoward happening, serious clash at the War Office where the Turks resisted the allied troops.

An exchange of shots resulted, in which several Punjabi, of the British East Indian forces, and a few of the Turks were killed.

The excitement caused by the occupation quieted down before darkness, which brought absolute calm.

The landing of the forces of occupation was carried out under the guns of the formidable Allied fleet anchored in the Bosphorus. The British dreadnought Benbow was moored at the Galata Quay, her guns trained on Stamboul. Another man-of-war faced the Arsenal in the Golden Horn, while all the other warships in the Bosphorus were standing by with their decks cleared for action.

Except in the instance stated, however, there was no resistance to the Allied forces as they carried out the orders for the occupation of the historic capital of the Ottoman Empire. The population, in fact, showed little alarm nor was there any sign of panic except in one section of Stamboul, as the commanders of the allied troops brought their forces ashore.

4,000 British Blue Jackets.

These forces included four thousand blue jackets and marines from the British warships, and contingents from the forces of all the allies represented here. Indian detachments having Moslems on their rosters were among the troops taking part in the operation. Comprehensive military and naval plans had been made for carrying out the Allied measures and precautionary steps taken. Last night a number of Turks and other persons who were regarded as possible disturbers of the peace were arrested, including the commander of the Tenth Turkish Division.

The dead walls of Constantinople have been placarded with a proclamation by Major-General Henry F. M. Wilson of the British troops, declaring that anyone committing any act that threatened the safety of the allied forces would be tried by court-martial and sentenced to death, or such other penalty as the court might fix. The proclamation was printed in Greek, English and French, and it was eagerly scanned by curious crowds in all sections of the city, which after the landing took place, wandered around the streets in a dazed manner, apparently unable to understand exactly what had happened.

French Patrol Stamboul.

The French this evening are patrolling Stamboul with Senegalese troops. The British are guarding Pera, the suburb northwest of the Golden Horn, while the Italians are guarding Scutari, the portion of Constantinople on the Asiatic side of the Bosphorus.

The flutter that occurred in Stamboul as the troops marched in was on the part of the shopkeepers near the war office, where the clash occurred. They closed their shops, in their first fright, but speedily reopened them.

The allies are declared to believe their measures have provided amply for the maintenance of security and order in Constantinople and consider it questionable whether even the so-called Nationalist forces in Anatolia are in a position to attempt anything serious.

Government House Becomes Democratic

Good Roads Apostles Dined, but not Wined by Lieut.-Governor

The Good Roads Convention which met last week in Toronto was notable for a number of things. Mr. McKay the President, was able in his opening address to give a review of substantial progress in the improvement of roads in certain parts of the Province. What was better still, he forecasted a policy of work in the immediate future of much greater proportions than anything as yet undertaken. This was justified when shortly afterwards the Minister of Public Works spread before the Convention a map of the Province showing a system of good roads extending to eighteen hundred miles of trunk and branch lines which the Government is pledged to push forward within the next five years.

The Convention which was the largest on record, voiced the genuine appreciation of the country of this great scheme. It will mean, if carried out in the spirit in which it was launched a transformation of the whole existing system of roads, which nobody can appreciate better than the farming community.

One of the pleasant incidents of the Convention was the warm welcome extended to the delegates by His Honour the Lieutenant Governor of the Province of Ontario. It came with all the greater effect inasmuch as His Honour has been for years actively associated with the Good Roads Movement and has been in close touch with the work of the Association.

The part of the welcome, however, which seemed to interest the Convention most, was the cordial invitation to everyone present to take luncheon at Government House on the following day. The invitation was accepted in the same cordial spirit with which it had been extended and the event will be long remembered by all those who participated.

The Company which numbered about three hundred and fifty, were conveyed to Government House by private street cars, four pair of double-deckers being required. The guests were received in the morning room by His Honour, assisted by Mrs. Lionel Clarke and Miss Diana Clarke and while the accommodation of the house was taxed to capacity it was found possible to seat everyone comfortably. There were no speeches on the programme but the delegates would not be denied the opportunity of expressing their hearty thanks for the gracious hospitality extended to them.

It is the first time in the history of the Province that such an event took place in the Government House. Indeed it would not have been possible for lack of accommodation in the old house for so many guests to assemble. Furthermore, the company was thoroughly representative of the people of the Province—wardens of counties, reeves, municipal councillors, county and township engineers, supervisors of districts, etc., made up a very remarkable body of men. The gathering was altogether democratic and informal and everyone felt absolutely at home.

This is very much as things ought to be and it was felt that the occupants of Government House realize the possibilites for public service that may centre in their official residence.

The Honourable Mr. Biggs made a good impression and it is evident that that he is very much in earnest. He appealed for the support and co-operation of the Good Roads Association in carrying out what after alll is the biggest work with which his department is connected and there seems to be little doubt that his appeal will not go unanswered.

Special Notice

A Heintzman & Co. piano was placed by special request in the rooms of Anna Case, the noted singer at the Ritz Carlton Hotel, for her personal use during her stay in Montreal over the week-end. Miss Anna Case gave a recital in Montreal on Sunday afternoon, March 14th, and before leaving Montreal on Monday she expressed her big appreciation of the piano to the agents for Heintzman & Co., Messrs. C. W. Lindsay, Limited, 249 Front street, Belleville.

Social And Personal

Mrs. S. Nicholls, formerly of Belleville, now of Port Hope is very ill.

Miss Margaret Griffin is, through illness, confined to her home on Sidney Street.

Mrs. H. A. Morgan of this city, returned home last evening after a three weeks' visit with relatives at Waterloo, Guelph and Kitchener.

Major Eric Osborne, Secretary of the Ontario Society for the Prevention of Cruelty to Animals, who assisted at the organization of a Belleville branch of the Society Wednesday evening, has a very pleasing personality and made many friends while here. He served three years in France with the machine gun section, going over with the Eaton Battery. Major Osborne's home is in Toronto.

MUSIC AND DRAMA

(What the Press Agents Say)

"THE OLD HOMESTEAD"

Augustus Pitou Inc., are presenting the only authorized version of Denman Thompson's 'The Old Homestead' now on its thirty-third annual tour. The play comes to Griffin's next Monday night, March 22, with a cast of unusual excellence, headed by William Lawrence as "Uncle Josh" and a double quartette of talented singers in the good old songs which have always proven so popular with the production.

"A LADY'S NAME"

Cyril Harcourt, who wrote "A Lady's Name" in which Constance Talmadge and Harrison Ford are appearing at Griffin's to-night to Saturday with a matinee Saturday, is a playwright of the modernist school who writes delightful comedies. He also wrote "A Pair of Silk Stockings," in which Miss Talmadge recently starred and in "A Lady's Name" he has given her one of the best light comedies in which she has appeared for some time. In the form of a play the comedy was most successful on the American stage. It depicts the humorous and somewhat extravagant adventures of a young woman writer in search of literary material, who is also trying to escape the boredom of a somewhat priggish fiance. Her adventures are amusing and unexpected and keep the audience in constant good humor. "The screen's greatest kidder," Harold Lloyd is appearing on the same program in "From Hand to Mouth," the third of his special 2-reel comedies, other attractions of interest will also be shown on the same program.

"THE MIRACLE OF LOVE"

A fairly common situation in British high life, which is non-existent in this country, owing to lack of a social order of nobility, is treated in Cosmo Hamilton's story The Miracle of Love which has been adapted to motion picture form and will be shown at the Palace tonight to Saturday, matinee daily. The hero is the younger son in a nobleman's family, who has no hopes of the title, is without funds, yet cannot go to work like an ordinary man owing to the disgrace which it would bring to his family. The youth finally solves the problem by planning to leave the country and earn money in a land where his precious family is unknown. However, on the pier he meets a woman who completely changes his life. The great and almost tragic love which springs up between the two leads rapidly to a startling climax. Prominent in the cast are Lucy Cotton, Wyndham Standing and Jakeie Saunders. A program of selected comedy and topicals are also being screened on the same program.

MILITARY NEWS

At a meeting of sergeants held in the Sergeants Mess at the 15th Regiment Armouries, March 17, 1920, the following officers for the year were ellected:—

President—C. S. M. McTaggart, F. Secretary and Treasurer—Sgt. F. Belton.

Mess Committee—Sgts. Hay, Sutton and Ranfield.

The folllowing points were decided on:—

To hold meetings the first Tuesday in every month and members to attend in uniform.

A mess fee of 4 dollars per year payable quarterly on the first of every quarter.

R.S.M. J. A. Playford presided at this meeting and it was further decided to hold a special meeting Tuesday, March 23rd, at 8 p.m. at the Armouries to discuss matters in connection.

On Friday evening next, the 26th, the 15th Regiment of this city will be inspected by Major-General Victor Williams. The regiment will parade at 8 o'clock that evening in the armories. All members on the strength of the regiment will turn out for this inspection.

£50,000,000 IN TREASURE RAISED

London March 17—Sunken treasure worth £50,000,000 has been raised since the war began around the British Isles.

The Restorer and the Reliant, two salving vessels that were bought by a British concern from the American Navy, have a new device, an oxy-acetylene flame which is worked under water for cutting holes in the sides of submerged vessels.

Each ship has 25 electric pumps capable of pumping 1,000,000 gallons of water an hour, and carries two divers, searchlight line throwing guns electric welding plants, rock drills and other accessories. Each diver is equipped with a telephone.

The Restorer last year recovered £1,000,000 in gold from the Laurentic off Lough Swilly, and both vessels are now operating off Newhaven, on the Channel coast.

At the age of six a boy thinks his father is the smartest man on earth; at the age of sixteen he imagines that he has forgotten more than his father ever knew.

Shaun Rhue Was A Great Success

St. Patrick's Day Fittingly Celebrated At St. Michael's Academy

St. Patrick's Day, Ireland's Day, 1920, will long be remembered by theatre-goers of Belleville who were fortunate enough to be present at St. Michael's Academy last evening to see that delightful Irish comedy drama, "Shaun Rhue." Older play goers will remember with what joyous anticipation the annual visit of Joe Murphy was awaited and the pleasure it was to listen to the Irish wit and Irish music which flowed so freely from his Irish lips. Joe Murphy himself has never given greater pleasure to an audience than that experienced by last night's gathering. The costumes were very beautiful, being of the late 18th Century period, and were supplied by Jos. Ponton, costumer, Montreal. The scenery was appropriate and the make up of the actors would do credit to any professional companies.

The success of the play was entirely due to the tireless efforts of Mr. Geo Lee, the energetic actor manager, who was ably assisted by Mr. L. E. Young, who acted as stage manager; Mr. T. V. Scanlon, assistant manager, Miss Helen Foltz, the delightful accompanist, and the work of the hard working cast.

The story of the play deals with an attempt of unscrupulous tricksters to secure valuable lands in Ireland, and to enhance their drooping fortunes at the expense of the good people, whose guests they were. Peter Callaghan, the father, played by Mr. Edward Brown, and Byron Callaghan, the son, excellently portrayed by Thos. Barrett, were the villainous pair responsible for so much of the unhappiness. They had secured the assistance of "Waddy, the Lawyer," played by Geo. Lee, in a manner which left no room for improvement. The attempt to trick Morris Donovan in the bartering of his daughter, Kate, as well as the loss of his land was frustrated by his son, Larry Donovan, who masquerading as "Shaun Rhue," not only saved his father's honor but won the girl of his dreams, Dora Kavanaugh.

While Belleville missed Fisk O'Hara's annual visit owing to the "Flu" we have one in our midst who can outfisk Fisk, Harold Barrett as "Shaun Rhue" gave a delightful performance. His acting had just the proper Celtic touch and his singing of the various numbers used in the production was of such a delightful quality that our favorite professional Irish tenors will have a new standard to live up to in Belleville.

Mr. John Fahey gave a most convincing portrayal of the easily duped old man, Morris Donovan, and Miss Priscilla Doran was entirely delightful as his daughter, Kate Donovan. Miss Hilda Foltz as Dora Kavanaugh was sweet and dainty, and Mr. Lou Howe as her father, the learned professor was one of the surprises of the piece. His make-up and deportment left nothing to be desired. Mr. James Boyle as Gerald Kavanaugh was finished and forceful. Felix Blanchard gave a most sympathetic performance of the abused boy "Tim."

During the intermission Miss K. Bawden rendered "Acushla I'm Calling" in her usual delightful way and was obliged to respond to encores.

The orchestra under the leadership of Belleville's premier musician, Lieut. Reginald Hinchey late director of Canada's greatest overseas band, the 21st Battalion, supplied the audience with selections of Irish airs that finished the round of enjoyment.

At the end of the third act beautiful bouquets were presented Miss Doran, Miss Hilda and Helen Foltz.

It is to be hoped that last night's performance will not be the last Belleville will hear of "Shaun Rhue" and that St. Michael's Dramatic Club will find it possible to repeat for the benefit of those who were unfortunately absent last night.

DECISION AWAITED ON BEER AND WINE

Ogdensburg, March 18—Ogdensburg citizens may soon be able to get beer on doctors prescriptions at drug stores which may handle whiskey for medical purposes. A ruling is now being awaited on the amount that can be prescribed. Pending announcement from Commissioner Kramer in Washington, State Commissioner O'Connor has ruled that only one pint a week can be prescribed, but letters from Congressman Snell say it is reported in Washington the ruling will allow a case a week of beer and two quarts of wine.

Sooner or later a brave man bumps into a brand of terror that makes him look like a dollar minus 70 cents.

Troops Employ Murderous Devices to Fight Dresden Spartacans

THE HAGUE, March 18.—The Telegraaf's Dresden correspondent, describing the fighting for the telegraph office says the Spartacans had to engage a small force protecting the office, but later had to encounter a larger force, which fought with grenades and armoured cars. One of the cars was destroyed by the Spartacans and all the crew killed.

The civic guard by mistake fired on the Government troops. Toward seven o'clock the building was in the hands of the Spartacans. Many were killed or wounded.

According to The Telegraaf, the Baltic troops who advanced on Hamburg were captured and disarmed before they reached the city.

The Telegraaf says that 100 soldiers including four officers, were killed in the fighting with Spartacans at Wetter. The official losses of the Government troops in this conflict, however, are placed at one officer and nine men.

In the Eastern part of the industrial region at Bochum, Dortmund, Gelsenkirchen and Unna the proletariat is in charge. Armed laborers are speeding to various places to assist their comrades engaged in fighting. The Government troops are using artillery.

All Rhenish and Westphalian industry is declared to be ready to follow in the footsteps of the Soviet.

Canada's Oldest Orangeman Dies On 17th Of March

KINGSTON, March 17—Ex-Alderman Joseph Tait, said to be the oldest Orangeman in Canada, died early this morning in his hundredth year. He was born in County Armagh on August 21, 1820, and lived in Kingston since 1847. He was a veteran of the Fenian Raid, serving under Captain Jackson, and receiving a medal for his work in the campaign. Mr. Tait was a Past Master of L.O.L. No. 6, and during the seventy-three years he had lived in Kingston he missed only two annual parades of the Orangemen. He was Alderman for Frontenac Ward for eight years, being returned for the first time in 1895.

THE PLAIN PEOPLE.

A new serial story begins in the current issue of The Intelligencer, "Under the Greenwood Tree," a tale of English people, their loves and hates, and simple pleasures. It is a homely narrative of plain people and is sure to please.

CLAMS THREATEN PLAGUE

New York, March 18.—The Health Department's squad of mosquito experts returned to Staten Island last night after a vain attempt to break through the ice at Rockaway Beach and clear the shore of tons of dead clams washed up by the recent storm, which threaten a pestilence.

Party Line Consideration

A TWO-PARTY LINE IS A SINGLE CIRCUIT, SHARED IN COMMON by two subscribers. It is not reserved for a single user and should be used on the share-and-share-alike basis.

On a two-party line, it is possible for both users to try to talk out on the same circuit at the same time. There is also the liability of both being wanted at the same time to receive incoming calls.

Therefore, there are special considerations which we urge a party-line user to keep in mind:

1. Long conversations prevent the use of the line by the other subscriber; therefore party-line talks should be as brief as possible.
2. Whenever another party-line subscriber requests the use of the line for an emergency, courtesy should prompt the first user temporarily to give up the use of the line.
3. Whenever a party-line subscriber takes the receiver from the hook and finds the line in use, the receiver should be replaced at once in a careful manner.
4. At the end of a conversation the receiver should be replaced upon the hook immediately, otherwise the other subscriber cannot signal the central office.
5. Be sure always to give the operator the letters W or J in calling a party-line subscriber.

Co-operation is required to ensure good service of any kind.

LABOR "JURY" DIFFERS ON MURDER VERDICT

Tacoma, Wash., March 17.—The "jury" of Labor men which attended all sessions of the trial at Montesano, Wash., of ten Industrial Workers of the World charged with murder in connection with the killing of four former soldiers during an armistice day parade, returned a verdict of "not guilty." A statement which accompanied the finding, made public here, said the verdict was adopted unanimously.

Seven of the defendants were found guilty by the real jury Saturday night of second degree murder for killing Warren O. Grimm. Two who were acquitted were returned to Centralia, Wash., where the former soldiers were killed, to stand trial for the murder of Arthur McElfresh. The other men, who were found not guilty, but insane, were placed in jail here.

SOLICITOR TO ONTARIO GOV'T.

Toronto, March 17.—R. T. Harding, a former law partner of H. H. Hartley Dewart, K.C., M.L.A., Liberal leader in Ontario, has been appointed solicitor to the Ontario Government for the investigation of returns of estates. James E. Bain formerly occupied the position. The fees in connection with the office in 1915-16, it is said, amounted to $18,000.

From Our Own Correspondents

GILEAD

For a time last week the weather seemed very spring-like but Saturday and Sunday made us think of winter again.

The Revival Meetings held at the church last week are to be continued this week.

Mrs. Harvey Wallace attended the funeral of the late Mr. McMullen of Anson, on Saturday.

Mrs. J. F. York spent last week with her daughter, Mrs. W. Hodgens at Carmel.

The W. M. S. meeting was held at the home of Mrs. T. Coulter on Wednesday and was well attended.

Mr. Frank Huffman and family have moved to their new home near Uxbridge.

Miss Muriel Hutchinson spent last Wednesday with Miss Francis Huffman.

Mr. and Mrs. G. Lazier, Melrose, Mr. J. Collins and Miss Ida, Halston, spent Wednesday at the home of Mr. and Mrs. Albert Lawrenson.

Miss Cora Wright is spending a few days with her brother, Mr. R. Wright, Zion's Hill.

Mrs. Jas. Huffman was appointed delegate to attend the W. M. S. Convention at Peterboro in June.

REDNERSVILLE & ALBURY

Mrs. George Weese was the guest of her daughter, Mrs. Rae Roblin on Tuesday.

Mrs. Clifford Peck and Mrs. John Weese were in Belleville on Thursday afternoon.

Mr. and Mrs. Joe Allison were in Trenton on Tuesday.

Mr. Wilfrid Cretney of Corbyville, was at his home on Sunday.

Mrs. J. W. Brickman called on Mrs. W. Sager, who is ill.

Mr. and Mrs. P. Delong of Foxboro, took dinner at the home of E. W. Brickman on Tuesday.

Mr. and Mrs. E. W. Brickman took tea at the home of Mr. S. Bent.

Mr. and Mrs. John Garbutt spent Sunday at the home of Mr. and Mrs. F. Crouter.

4TH CON. OF SIDNEY

Service next Sunday evening at 7 p.m. Rev. Wallace pastor.

Mr. C. Harris of Wallbridge, spent a couple of days last week with Mr. R. McPherson.

Mr. Geo. Wallace of Belleville, spent Sunday under the parental roof.

Mr. and Mrs. Frank Langabeer, Mr. A. Brown, Miss M. Latchford, Mr. Harry Pound and Miss Bessie Langabeer, were Sunday guests of Mr. and Mrs. F. Harris.

Miss Maud Phillips was the guest of Mrs. W. Holmes on Wednesday last.

Mrs. Harry Tweedie, of Thurlow, who has been confined to the home of her parents, Mr. and Mrs. S. Pope, through illness for the past 2 months returned to her home on Wednesday of last week.

WEST HUNTINGDON

Misses Christina Wilson and Lulu Sarles spent the dinner hour on Wednesday with Bessie Jeffrey.

Miss Gertie Ashley of Peterboro Normal School, visited her parents, Mr. and Mrs. Howard Ashley, last week.

Miss Estella Wilson spent Wednesday with her friends, Margaret Post.

Miss Jeane Adams has returned home after visiting friends in Belleville.

Miss Jennie Murray is visiting her aunt, Mrs. Reid of Belleville.

HOLLOWAY

Mr. S. Bird has sold his farm to Mr. Herbert Townsend and is moving to his new home in the 4th of Thurlow.

Miss Phoebe Kerr of Thomasburg, spent a few days last week the guest of her cousin, Mrs. R. Townsend.

Mr. T. D. Morgan, Kingston, spent a couple of day with his parents, Mr. and Mrs. George Morgan.

Mr. R. Townsend attended the Presbytery in Kingston last week.

Mr. and Mrs. E. Lowery, spent the week-end visiting friends in Madoc.

Mr. George Morgan is spending a few days in Cobourg as a delegate of L.O.L. to Grand Lodge.

Mrs. R. Townsend, Miss Kerr and Mrs. S. Hamilton called on Mrs. E. Lowery one day last week.

Mrs. G. H. Rose and daughter Vera, spent Sunday in Stirling.

We were visited with quite a snow storm again Saturday evening which will help to carry away the old snow.

Mr. F. Saragent spent Sunday in Trenton.

Our flu patients are all recovering.

SOLDIERS GUARD JUDGES IN BELFAST

Belfast, March 16—Judges Dodd and Gibson, in going to the Queen's Assizes at Tifford Court House were escorted by police armed with carbines and revolvers.

Soldiers also lined the streets. The Judges' homes are guarded day and night by the military.

Judge Dodd, in opening the Assizes, said that his heart bled for the police, to whose courage he paid high tribute.

Hastings County Ores

J. E. McEWAN.

Just as Canada gleams forth today as one of the brightest jewels in the British Imperial crown, so Hastings county has proved itself a jewel beyond price in Ontario.

Forty years ago a great writer prophesied that in fifty years Hastings County would be the "Treasure Island" of Ontario. The idea then was scorned for the greater portion of the largest county of the province offered but little inducement to the agriculturist. Although people generally realized that far beneath the covering of sand there were minerals, they considered them of minor commercial value. In the early part of the nineteenth century mining in Hastings county had become a stock joke, for every effort so confidently started, had terminated in disaster.

A blast furnace had been built in 1820 near Marmora to smelt the magnetic ores at Blairton. This attempt proved a failure, and in 1828 when the Hon. Peter McGill, who had been its chief creditor, asked for a provincial loan of £10,000 it was refused. In 1847 another effort to open up the plant proved as futile, as the firm could not secure sufficient financial backing.

Four thousand years before the Christian era gold had taken its place as the most valuable metal in the world. Every new party of colonists hoped and endeavored to find gold in their new homes. History tells many tragic tales of "gold rushes" but never has it recorded a superabundance of the metal.

Valuable Gold Veins.

No different has been the gold incident in Hastings county. In 1866 the Richardson gold mine was started and it was then discovered that valuable gold veins ran through Madoc, Hungerford and Tudor townships. The Government here again failed to realize its possibilities. A private firm bought the rights and before very long they were facing financial loss as well as a lawsuit.

Several other attempts were made to reveal the mineral wealth of the county, but until recently all efforts have been futile. It was the war which brought to so many a realization of their capabilities, that reveals the true mineral value of Hastings county.

The manufacture of munitions and the shortage of shipping facilities resulted in a more extensive investigation of the mineral resources of Canada. The report of mineralogists who have been engaged in research work in Hastings county is most encouraging. Those interested are now convinced that the mineral values of Hastings county are quite equal to any in the world.

Probably no other country was brought to a greater realization of itself and its material wealth than Canada was during the war. Its import trade was greatly diminished and Canada, which had hitherto been as dependent as a child, tried its ability in the realm of independence. Prior to the war Canada imported most of her arsenic insecticides from France. Directly the war cut off this supply the mispickel ores of Hastings county became valuable. Now the arsenic plant at Deloro, near Marmora, is working overtime producing arsenic for insecticides and glass.

Flourspar for Flux.

The Canadian steel furnaces require annually 10,000 tons of fluorspar, which is used as a flux. There are few such extensive fields as those of Hastings county, which as yet have been barely touched, although in a limited way flourspar is being mined in Madoc and Huntingdon townships.

Throughout the province—in fact, I might say throughout the Dominion—there are few talc deposits, excepting those in Hastings county. Talc mines have been successfully operated in a small way at Madoc and Eldorado. The Eldorado mine is fortunate in having as its chief John Haig, who is full of vitality and confidence in the country's possibilities.

The talc in these localities is much different from that mined in the talc areas of the United States. Its superiority makes it in great demand, not only as a filler but also for gas tips and crayons.

An outline, no matter how brief, on the mineral wealth of Hastings county would be strikingly incomplete without mention of the great iron deposits. In nearly every township there are rich stores of iron of varying quality. Although few of these mines have been opened up those in the township of Mayo have been very successful. Madoc township has several rich iron mines in the neighborhood of Eldorado and Bannockburn. That these mines will soon be working to their full capacity is sincerely hoped because the locality is in much need of commercial development.

Then, as all other countries rich in mineral wealth, Hastings county has geological formations quite superior to those of other counties. There are splendid marble quarries in Madoc and Marmora townships. Throughout the northern portion of the county also, vast stores remain untouched. Lithographic stone, a fine-grained homogeneous limestone, spreads over the southern districts of the county.

So this has been the extent of the mining efforts in Hastinga county. Indifference has prevented it from realizing the magnificent treasures stored beneath its rocky and unpromising surface. For decades that mineral wealth has remained untouched save for a few small mines which, because of primitive methods employed and lack of sufficient capital, have failed. But now Canada realizes more fully than ever before the tremendous extent of her mineral wealth, and she realizes, too, that this resource must be developed more rapidly and more efficiently. The mineralogical report shows that considerable of Ontario's minerals lie in Hastings county.

Hastings Waking Up.

From a commercial viewpoint it is evident that Hastings county cannot long sleep on in her virginal sleep. Yes, the commercial world before long will demand that she throw open the doors of her great storehouse. But there are other reasons equally as imperative.

In the latter part of the eighteenth century when the splendid vitality of Governor Simcoe was causing the eastern part of the province to be opened up, Hastings county received its first settlers. From England, Ireland and the United States they came, these would-be citizens of a new country, eager and ambitious to prosper in their new homes.

Sad has been the disappointment of many settlers; hard beyond words has often been the task. So it was with the fine, virile men and women who came to live in Hastings county. Had Governor Simcoe remained in office conditions might have been changed, but as it was when the people found that the country would not yield itself to agriculture they remained. Many settled down to lives of comfortless poverty, disappointment killing their ambitious ideals.

For those settlers who first ventured into the unbroken wilds nothing can be done; but to their descendants the Government of Canada owes it to open up the treasures of the land. Many have grown hard and cynical in the years of privation, but despite their skepticism they still have great confidence in the county. They tell stories of great caves of sparkling jewels and hidden pots of glittering gold. These stories have passed from generation to generation and many have been the Wolfert Webber expeditions to wrest the treasures from their superhuman guards.

It is this background of legendary glory which weaves about their lives a golden halo that holds and fascinates the people. But now the Government must, if for no other reason than that Hastings gave such a gallant contribution to the fighting men of the Empire, change that golden halo to a golden reality.

THIS FREES YOUR SKIN FROM HAIR AND FUZZ

(Toilet Tips)

The method here suggested for the removal of superfluous hair is quick and certain and unless the growth is extremely stubborn, a single application does the work. Make a stiff paste with some powdered delatone and water; apply this to the hairy surface and after about 2 minutes rub it off, wash the skin and the hairs are gone. To avoid disappointment be sure your druggist sells you delatone.

◆

After some men get a start in life they don't know enough to stop.

And the old hen moves in a set of her own.

CANADIAN INDIANS DID NOBLY IN THE GREAT WAR

Ottawa, March 18.—An interesting record of the part that the Canadian Indians played in the Great War is told in the report of the Department of Indian Affairs for the fiscal year ending March 31, 1919, tabled in the House of Commons by Hon. Arthur Meighen, Minister of the Interior. More than 4,000 Indians from the various tribes enlisted with the C. E. F. This was over 35 per cent. of the Indians of military age. One man, John Campbell, a full-blooded Indian, travelled 3,000 miles by trail, canoe and river steamer to enlist. Indians were decorated for various deeds of bravery. Several served as shipers, and Corporal Francis Pegahmagabow, of Parry Sound, was credited with having killed 378 Germans.

PRESIDENT BEATTY Y. M. C. A. WORK.

In a foreword to an attractive little pamphlet issued by the Railway Y.M.C.A. of Canada, Mr. E. W. Beatty, President of the C.P.R., pays a tribute to the work of this association.

"The high value of the work," says Mr. Beatty, "of the Young Men's Christian Association in the interests of men and boys has come to be generally and properly recognized, particularly on account of its efforts and accomplishments on behalf of our soldiers during the recent world war.

"Among the various spheres of the Association's activities not the least valuable is the work of the Railway Branches which minister to the intellectual, the social, the moral and the physical needs of railway men irrespective of race or creed.

"The inception of this work on the Canadian Pacific Railway dates back to 1906 when the building at Revelstoke, B.C., was erected, and so well satisfied were the Company's officers with the experiment tried there that 9 additional branch associations have since been established. These provide home surroundings and comforts for men in train service when away from home and to many employees located at outlying points they afford the only home facilities that are available to them.

"It is not only that good meals and clean beds and baths are provided, but the educational advantages, the recreational facilities and the opportunities for social intercourse amidst wholesome surroundings must necessarily contribute to the well being of the men and benefit the community in which they live, and the Company with which they are employed.

"The eminently satisfactory results of this work on the Canadian Pacific lines in the past for which I desire to express my admiration and appreciation, have without doubt been achieved through the earnest and cordial co-operation of the Company's employees with the Association's officers and staffs, and with the continuance of their united efforts the future success of the work can, I feel sure, be confidently entrusted to them."

The Railway Y.M.C.A. provided 140,000 beds to railway men and served 328,000 meals in 1919. Its buildings are valued at $580,000.

◆

HAIR OFTEN RUINED BY CARELESS WASHING

Soap must be used very carefully, if you want to keep your hair looking its best. Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and ruins it.

The best thing for steady use is Mulsified cocoanut oil shampoo (which is pure and greaseless), and is better than anything else you can use.

One or to teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at any pharmacy, it's very cheap, and a few ounces will supply every member of the family for months.

◆

DIRTY COLLAR CAUSED COURT ADJOURNMENT

Montreal, March 17—Because he did not have a clean collar, Dr. Zeno, charged with murder in connection with an illegal operation, objected to his trial proceeding. He made a request through his counsel to Crown Prosecutor Lafortune for the collar and Mr. Lafortune asked the judge what was to be done. Judge Desy said it was certainly not up to him to look after the laundry of prisoners, but ordered an adjournment till Thursday instructing the sheriff to see that Dr. Zeno was supplied with the collar.

◆

GROWING DEAF WITH HEAD NOISES? TRY THIS

If you are growing hard of hearing and fear Catrrhal Deafness of if you have roaring, rumbling, hissing noises in your ears go to your druggist and get 1ounce of Parmint (double strength) and add to it ¼ pint of hot water and a little granulated sugar. Take 1 teaspoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils open, breathing becomes easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who is threatened with Catarrhal Deafness or who has head noises should give this prescription a trial.

DENIES BROMISE FOR KINGSTON HARBO

Ottawa, March 17.—In the Hou yesterday afternoon Archambult o Chambly-Vercheres directed attention to a Kingston despatch in a Montrea paper stating that the Governmen had given Kingston the assurance o a vote of $2,500,000 for harbor improve ments. "I would like to ask," he sai "if the report is true and if so, if is in fulfilment of an election promi by the Minister of Finance who is member for that city?"

"The report," said Sir Henry Dra ton "is absolutely incorrect. Th answers also the second question I wish to make it even more em tic. There were no electio

ayment o ermany's obliga e bonds of that country, "hav such security and priority as per nitted by the peace treaty."

SUFFERED DAY AND NIGHT

The Tortures of Dyspepsia Relieved By "Fruit-a-tives"

Little Bras D'or, C. B.

"I was a terrible sufferer from *Dyspepsia and Constipation* for years. I had pain after eating, belching gas, constant headaches and did not sleep well at night. Finally, *a friend told me to try "Fruit-a-tives"*. In a week, the Constipation was corrected and soon I was free of pain, headaches and that miserable feeling that accompanies Dyspepsia. I continued to take this splendid fruit medicine and now I am well, strong and vigorous". ROBERT NEWTON.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

AIR—In Kingston, March 17, 1920 Mrs. Mary Belair, wife of the late Alexander Belair, of Madoc. e funeral will take place on Friday, March 19th, from the residence of son, W. N. Belair, 104 Victoria e, at nine o'clock to St. Michael's urch. Interment St. James cemetery.

LLOYD—In Belleville on Thursday March 18th, Herman Lloyd, aged 22 years, 5 months.

Owing to illness at home the funeral wil ltake place from the residence f his uncle, J. W. Lloyd, 81 Mill St., n Saturday, 20th inst., at 2.30 p.m. Service at the house at 2 o'clock. Interment Belleville cemetery.

JIREH BREAKFAST FOOD

COOKS IN A FEW MINUTES

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER I

To dwellers in a wood, almost every species of tree has its voice as well as its feature. At the passing of the breeze the fir-trees sob and moan no less distinctly than they rock; the holly whistles as it battles with itself; the ash hisses amid its quiverings; the beech rustles while its flat-boughs rise and fall. And winter, which modifies the note of such trees as shed their leaves does not destroy its individuality.

On a cold and starry Christmas eve less than a generation ago, a man was passing along a lane in the darkness of a plantation that whispered thus distinctively to his intelligence. All the evidences of his nature were those afforded by the spirit of his footsteps, which succeeded each other lightly and quickly and by the liveliness of his voice as he sung in a rural cadence

"With the rose and the lily
And the daffadowndilly
The lads and the lasses a-sheep-shearing go."

The lonely lane he was following connected the hamlets of Mellstock and Lewgate and his eyes, casually glancing upward, the silver and black-stemmed birches, with their characteristic tufts, the pale-gray boughs of oak, the dark-creviced elm, all appeared now as black and flat outlines upon the sky, wherein the white stars twinkled so vehemently that their flickering seemed like the flapping of wings. Within the woody pass, at a level anything lower than the horizon all was dark as the grave. The copsewood forming the sides of the bower interlaced its branches so densely even at this season of the year, that the draught from the north-east flew along the channel with scarcely an interruption from lateral breezes.

At the termination of the wood, the white surface of the lane revealed itself between the dark hedge-rows, like a ribbon jagged at the edges; the irregularity being caused by temporary accumulations of leaves extending from ditch on either side.

Mail, the man who had hallooed to Dick.

The next was Mr. Robert Penny, boot and shoe-maker, a little man, who though rather round-shouldered, walked as if that fact had not come to his own knowledge, moving on with his back very hollow and his face fixed on the north quarter of the heavens before him, so that his lower waistcoat buttons came first, and then the remainder of his figure. His features were invisible, yet when he occasionally looked round, two faint moons of light gleamed for an instant from the precincts of his eyes, denoting that he wore spectacles of a circular form.

The third was Elias Spinks, who walked perpendicularly and dramatically. The fourth outline was that of Joseph Bowman, who had now no distinctive appearance beyond that of a human being. Finally came a weak, lath-like form, trotting and stumbling along with one shoulder forward and his head inclined to the left, his arms dangling nervelessly in the wind as if they were empty sleeves. This was Thomas Leaf.

"Where be the boys?" said Dick to his somewhat indifferently matched assembly.

The eldest of the group, Michael Mail, cleared his throat from a great depth.

"We told them to keep back at home for a time, thinken they wouldn't be wanted yet awhile and we could choose the tunes, and so on."

"Father and Grandfather William have expected ye a little sooner. I have just been for a run to warm my feet."

"To be sure father did! To be sure 'a did expect us—to taste the little barrel beyond compare that he's going to tap."

"O'd rabbit it all! Never heard a word of it!" said Mr. Penny, small gleams of delight appearing upon his spectacle-glasses, Dick meanwhile singing parenthetically:

"The lads and the lasses a-sheep-shearing go."

"Neighbors, there's time enough to drink a sight of drink now afore bed-time," said Mail.

"Trew, trew—time enough to get as drunk as lords," replied Bowman cheerfully.

This argument being convincing, they all advanced between the varying hedges and the trees dotting them here and there, kicking their toes occasionally among the crumped leaves. Soon appeared glimmering indications of the few cottages forming the small hamlet of Lewgate, for which they were bound, while the faint sound of church-bells ringing a Christmas peal could be heard floating over upon the breeze from the direction of Mintfield parish on the other side of the hills. A little wicket admitted them to a garden, and they proceeded up the path to Dick's house.

CHAPTER II

It was a small, low cottage, with a thatched pyramidal roof and having dormer-windows breaking up into the eaves, a single chimney standing in the very midst. The window-shutters were not yet closed and the fire and candle-light within radiated forth upon the bushels of variegated box and thick laurestinus growing in a throng outside, and upon the bare boughs of several codlin-trees hanging above in various distorted shapes, the result of early training as espaliers, combined with careless climbing into their boughs in later years. The walls of the dwelling were for the most part covered with creepers, though these were rather beaten back from the doorway—a feature which was worn and scratched by much passing in and out, giving it by day the appearance of an old key-hole. Light streamed through the cracks and joints of a wooden shed at the end of the cottage, a sight which nourished a fancy that the purpose of the erection must be rather to veil bright attractions than to shelter unsightly necessaries. The noise of a beetle and wedges and the splintering of wood was periodically heard from this direction; and at the other end of the house a steady, regular munching and the occasional scurr of a rope betokened a stable, and horses feeding within it.

The choir stamped severally on the door-stone to shake from their boots any fragment of dirt or leaf adhering thereto, then entered the house and looked around to survey condition of things. Through the open door-way of a small inner room on the left hand, of a character between pantry and cellar, was Dick's father, Reuben, by vocation a "tanter," or irregular carrier. He was a stout, florid man, about forty years of age, who surveyed people up and down when first making their acquaintance, and generally smiled at the horizon or other distant object during conversations with friends, walking about with a steady wary and turning out his hogshead ready horsed he did raise

his eyes at the entry of his visitors well knowing by their footsteps that they were the expected old acquaintance.

The main room, on the right was decked with bunches of holly and other evergreens and from the middle of the huge beam bisecting the ceiling hung the mistletoe, of a size out of all proportion to the room and extending so low that it became necessary for a full grown person to walk round it in passing or run the risk of entangling his hair. This apartment contained Mrs. Dewy, the tanter's wife, and the four remaining children, Susan, Jim, Bessy and Charley, graduating uniformly, though at wide stages, from the age of sixteen to that of four—years—the eldest of the series being separated from Dick, the first born, by a nearly equal interval.

Some circumstance having apparently caused much grief to Charley just previous to the entry of the choir, he had absently taken down a looking glass and was holding it before his face to see how the human countenance appeared when engaged in crying which survey led him to pause at the various points in each wail that were more than ordinarily striking, for a more thorough appreciation of the general effect. Bessy was leaning against a chair, and glancing under the plaits about the waist of the plaid frock she wore, to notice the original unfaded pattern of the material as there preserved, her face bearing an expression of regret that the rightness had passed away from the visible portions. Mrs Dewy sat in a brown settle by the side of the glowing wood fire—so glowing that with a doubting compression of the lips she would now and then rise and put her hand upon the hams and flitches of bacon lining the chimney, to reassure herself that they were not being broiled instead of smoked—a misfortune that had been known to happen at Christmas-time.

TO BE CONTINUED

YOU WILL NOT GET THE "FLU"

If You Build Up Your Run-Down Condition

It Attacks People Who Are All Worn Out, Anaemic, Devitalized and Weak

Strong People Never Get Influenza

During every epidemic it is always the weak, run-down, over-worked, devitalized men, women and children who so quickly fall a prey to the ravages of disease.

When, therefore, an epidemic is prevalent why not use a little precaution and build up the tired out, run-down over-worked, devitalized members of your family by giving them VINOL.

There is nothing that acts so quickly as a tonic reconstructor. It makes red corpuscles, enriches the blood, quickens the circulation, sharpens the appetite, promotes sound sleep, and imparts strength, vitality and energy to every organ and muscle in the body.

Your physician recommends VINOL and your druggist agrees to return your money if it fails to benefit.

For all run-down, nervous, anaemic conditions, weak women, over-worked men, feeble old people and delicate children there is no remedy like VINOL.

GERMAN GIVEN POST, PROFESSOR RESIGNS

Montreal, March 17—The reason for Dr. J. M. Elder's resignation from the teaching staff of McGill University, after 30 years' service, is stated in his letter of resignation, which reads:

"I herewith tender my resignation assistant professor of surgery in the University. I do so because your board has recently seen fit to appoint a man of German birth, parentage and preliminary training to the position of professor pathology.

"It is with deep regret that I thus sever a long connection with the teaching staff of my Alma Mater, but I feel that never again can I associate with a colleague of German birth and parentage."

Efforts were made by the University authorities to induce Dr. Elder to reconsider his resignation, but without avail, and it was therefore accepted.

Dr. Elder was a colonel in the Canadian army, and served in France.

The professor who was the cause of Dr. J. M. Elder's resignation is Dr. Horst Oerpel.

FROM FROZEN NORTH

Peterboro, March 17.—Among the latest arrivals to the G.W.V.A. Provincial convention here, F. Pitts and A. Wilsher from Chapleu, Northern Ontario. They have traveled five hundred miles to get here and intend to go to the Dominion convention in Montreal. They represent a little less than one hundred members, but their expenses are being paid by the Town Council. According to their story, they have left a country covered with six feet of snow.

Souvenir Fiends Had A Gala Time

Took $500 Worth of Stuff at Luncheon to Prince—Real Cost $11 a Plate.

MONTREAL, March 17.—Souvenir hunters had a gala time at the luncheon given to the Prince of Wales on top of the mountain, according to a statement made by Mr. De Gorog, proprietor of A. Joyce, Reg'd., who did the catering, in answer to a statement published on information given out at the City Hall as to the cost of the function.

"At a moderate estimate fully $500 worth of silverware, glassware, table decorations and the like, were taken by the souvenir hunters," said Mr. De Gorog.

In answer to the City Hall information that the cost of the luncheon worked out at $19 a plate, Mr. De Gorog says that the figure is wrong as the true cost was $11 a head.

"That figure is not at all exorbitant when everything is taken into consideration," he said. "It has to be remembered that the luncheon was served to one hundred and twenty-five people and tremendous cost was necessitated by reason of the fact that it had to be served on the top of Mount Royal, and therefore the food, plate, cutlery, etc., had to be transported thereto and therefrom, and in addition it was necessary to instal complete kitchen arrangements. No price was arranged beforehand with the city officials since it was impossible for me on four days' notice, to estimate how much this luncheon would cost, but I was told to make it worthy of the host and the Royal guest.

"Taking into consideration the extra expenses caused by the place of service, and expenses occasioned by the decorations and the shortness of notice of the luncheon, the cost should have been considerably larger, but a compromise was made upon the basis of $11 a head and some $500 extras, which, under the circumstances was, to say the least, not unreasonable.

The City Hall statement was to the effect that the dinner was for 100 people, whereas 125 were served. Further, Mr. De Gorog, denied that any verbal arrangement, as stated, was made that the luncheon should cost $5 a plate.

CANADIAN NEWS SERVICE DIRECTED FROM NEW YORK

Ottawa, March 16—J. M. Sinclair, Antigonish and Guysborough, was informed at question time in the House that there is no Director of Canadian News Service at Washington, but there is at New York. A staff of five is employed, including Col. J. A. Cooper, director. The news was supplied to the United States newspapers from July 17, 1919, to February 1, 1920, the cost was $10,185.79. The expenses of this office are met by equal contributions by the Departments of External Affairs, Trade and Commerce and Immigration and Colonization. An announcement of the Government's intention toward a continuation of this office will be made in due course, Mr. Sinclair was informed.

LOST HIS SPIRITS WHILE AT DEVOTION

Baltimore, March 16—While Luke McGuire was at church Sunday night three men with a small automobile truck made three trips to his home and hauled away his five barrels of whiskey. McGuire places the conservative value of $1,270 on his lost stock.

A neighbor sat in the room of his home and watched the entire procedure, but as all the lights in the McGuire home were burning it was thought that McGuire was home.

When McGuire returned from the church he found the gate was open and started to investigate. The kitchen door was unlocked but he found nothing disturbed until he went to the cellar, and then—gloom!

SENATE DISAPPROVES OF PROPOSED CANAL

Albany, N.Y., March 17.—The Senate stamped its disapproval on the proposed Canadian ship canal through the St. Lawrence River by adopting a concurrent resolution introduced by Senator L. W. H. Gibbs, of Buffalo.

Senator Gibbs said he had been informed that several western States were vigorously pushing the project to have American financial assistance aid the proposed canal, not withstanding that such a canal would prove detrimental to the barge canal of New York He further stated that if the Canadian canal project goes through it will sound the death knell of canal business in New York.

The resolution urges the New York Senators and representatives in Congress to oppose the project in Congress.

HOUSECLEANING TIME

In the Spring a Woman's Fancy Turns That Way.

She Finds the Work Fascinating—Some Very Practical Hints as to Doing the Job — Recipes for Cleaning and Polishing.

(Contributed by Ontario Department of Agriculture, Toronto.)

HOUSECLEANING for the most part is fascinating work, that is, after we pass the cellar. After all, this is really the most important part of the house and should receive first consideration in the spring. Probably it will never be known how much of the low state of vitality found in some families is to be charge to illy-ventilated, badly-lighted, poorly-drained cellars, where decaying vegetables are kept, sending its foul germ-laden air to every part of the house. If vegetables are stored in the cellar they should be carefully picked over and all growth and decayed ones removed. In addition to thorough cleaning, the walls should be white-washed, and if the cellar is at all damp, it is well to keep a metal or earthen receptacle containing unslaked lime constantly present. Not a day should pass without the cellar being properly aired. In the very hot summer days, the windows should be opened every night and closed during the day. The reason for this is, that the outdoor air in the daytime is much warmer than in the cellar. This warm, moist-laden air enters the cooler atmosphere of the cellar, and the moisture condenses and rests on all-surfaces making the cellar damp and warm. By opening the windows at night and closing them in the day-time the cellar is kept dry, pure and clean. It is well, too, before leaving the cellar to see that the screens are placed properly in the windows—screens of fine wire netting to prevent flies, or insects entering. We cannot emphasize too emphatically the need for proper protection against flies. More diseases are caused by flies than we are wont to believe, and while doing the spring cleaning it is well to see that each room is screened properly to prevent the entrance of flies.

If we attend to the little things before we start the actual cleaning, such as sorting and cleaning drawers, putting away furs, winter curtains, extra blankets, etc., and laying in a supply of cleaning materials, this will save a lot of time. It has been customary to envy the home with new furniture. We think it would be easy to make the house look well if we just had some new chairs, dressers, tables, etc., but, as a matter of fact, it does not make the housecleaning half as interesting as if we have some old furniture (which we have longed to discard for years) to transform into something new. What could be more fascinating than the painting of chairs, tables and other furniture in order to have it harmonize with the walls, the drapery, the woodwork, and the floor.

It is not only that a floor looks much better if it is painted or polished, but it saves time and energy in cleaning. The rough surface collects greasy moisture, dust settles into it and soon grimy discolored and unhealthy conditions exist. Pine floors are hard to keep clean. The following methods of treating them may be of value:

1st. Spread over the floor strips of old sheeting; to this add two coats of paint. This will secure a very satisfactory border for the floor and the centre may be covered with a rug.

2nd. Apply a coat of linseed oil. Then fill cracks with "Crack and Crevice Filler," and apply an oak stain and two coats of floor finish.

It is difficult to say which rooms in the house should receive the most careful consideration. The bedroom is important because it is in the bedroom the person should receive that perfect sleep which will insure physical and mental strength.

The kitchen, too, is important, because here the woman spends a great deal of her time. It will be found most satisfactory to have linoleum placed on the kitchen floor. This is easily kept clean, and is soft, warm, elastic and wears well. There should be nothing in the kitchen which cannot be washed. The furniture, walls, etc., should be washable. While cleaning this spring it is especially important that we should see that all the utensils which are being used constantly should be in a convenient place, and if possible, closed cupboards should be placed in the kitchen. The following recipes and information may be found of value in doing the spring cleaning:

Washing Windows.—Always dust first and clean the woodwork before the glass. The glass may be washed with warm water and soap, ammonia, or kerosene, or whitening and ammonia. In washing wring the cloth almost dry, rinse off the window, and dry with a soft cloth and polish with a soft paper or cloth.

Painted Woodwork.—Wash in warm soapy water with a soft cloth, doing a little at a time and drying as you go along. For light painted wood use whitening paste.

Vanished Woodwork.—If very soiled use soap and water. Dry very thoroughly and then rub with ammonia or kerosene. To use kerosene just dampen the cloth and after rubbing on the varnished woodwork rub again with a dry cloth. If not, you will find a white glow will result.

Dustless Dusters.—Dip the cheese cloth in a mixture made from ½ cup melted parowax.

Note.—These dusters may be washed several times before they require to be dipped again.

There are many helpful suggestions for cleaning, and labor-saving devices appearing in weekly papers and magazines from time to time It is a good plan to cut these out, place them in a labelled envelope or box for future use.—Miss D. M. Sutherland, Women's Institutes Branch.

City AND Country

SHIPPED SILVER

The Deloro smelter near Marmora recently despatcher ninety-six bars of silver, weighing 8,540 pounds, to China via Vancouver and San Francisco and is valued at over $130,000.

LEAVING FOR WEST

Mr. Sandy Grant, ex M.P.P., has disposed of his residence at the corner of Spring and Metcalf streets, Tweed, to H. E. Wagar, of the C.N.R. It is understood that Mr. Grant contemplates taking up his residence in Manitoba.

HOGS ADVANCE IN PRICE

Live hogs are again advancing in price. Last week $19 per hundred weight was paid. Today the price paid was $19.25. Mr. Robt. Empson & Son shipped a large number from here today.

A PAINFUL ACCIDENT

Mrs. Beal Roberts, residing at 78 Mill street on Tuesday fell on the side of the walk on Front Street in front of Mr. D. Bleecker's drug store with the result that her right leg was broken in two places.

ARCHB'P SPRATT HONORED

Before leaving for Rome Archbishop Spratt was presented by the Knights of Columbus at Kingston with a handsome portable altar, and by the Ancient Order of Hibernians with an address. Both bodies pledged their loyalty and devotion.

A CHARMING STORY.

"Under the Greenwood Tree," an interesting story of Merrie England in days gone by, begins as a serial in the current issue of The Intelligencer. The characters are quaint and the love interest running through the tale novel and appealing.

STEAM YACHT CHANGES HANDS

The express steam yacht Lotus Seeker, one of the fastest and most beautiful steam yachts on the St. Lawrence has been purchased by Clarence Bretsch, of Gary, Ind., from George U. Mercier, of Clayton. Mr. Bretsch is well known at river resorts and expects to use the steam yacht on the river this year.

A FALSE RUMOR

A rumor became freely circulated about the city last evening that Mr. D. Dime of this city, had been killed in a runaway near Foxboro. Fortunately there was no truth whatever in the matter. Upon investigation it was ascertained that a telephone message was sent from Foxboro that the fatality had taken place and an effort will be made to ascertain the name of the party who phoned such a startling and false report.

AN ALLEGED MISAPPROPRIATION

Before His Honor Judge Wills N. Fluke, whose home is in the northern part of the County, was today on trial on a charge of converting to his own use a sum of money the property of Mr. Dime of this city. It is alleged that the accused received from Dime a certain sum of money to buy furs and that he did not use it all for that purpose, hence the charge. Case was in progress this afternoon. Mr. Carnew for Crown, M. C. A. Payne for the accused.

NEW STEAMSHIP COMING

The Canada Steamship Lines intend to place a monster passenger boat in commission on Lake Ontario as soon as it can be built. The plans are already outlined and the contract to build it is under consideration. The officials are reticent about the design of the boat as they perhaps want to surprise their patrons. It is not yet known whether the new boat will be ready for this summer, or whether it will be 1921 before it is in commission, but every effort is being made to have it finished for 1920. It is stated by an authority on navigation that the new boat is to have four decks, and that it will be one of the biggest passenger ships on the Great Lakes, if not the biggest.

RIVER SITUATION UNCHANGED

There was no particular change to note today in regard to the ice situation in the river. No further shoves have taken place since an early hour yesterday morning and the field of ice from a point opposite Deacon's Shirt Factory to Lott's Dam remains intact. The cool weather yesterday and particularly last night, no doubt, had considerable to do in holding the ice. If we have a sudden thaw and rain there may be trouble as the ice from just above the lower bridge to the railway bridge remains intact and is of considerable thickness. A few of the back yards on the west side of Front Street above the footbridge are flooded to some extent owing to the water being held back by the large body of ice. A report was current yesterday afternoon that a large quantity of ice had moved at Corbyville and was going down the river towards the city. It, however, failed to reach here, which was fortunate as it would, no doubt, have caused trouble.

OLD RAILWAY MEN

In a letter to the Brockville Recorder William Neilson, of "Blink Bonnie Farm," Lyn, formerly for many years in the service of the Grand Trunk Railway, first as agent at the outer station, Kingston, and later as agent at Lyn Station, grows reminiscent at the death of John M. Riddell, general agent for the Grand Trunk at Portland, Me., and formerly superintendent at Belleville: "I was exceedingly sorry to read in your Saturday's issue," says Mr. Neilson, "the sad news of the death of Mr. John M. Riddell, the veteran railroad man. By his death the Grand Trunk Railroad has lost a valued employee and I want to say that he will be much missed by his railroad friends and the population of Brockville. I have lived to see a great many heads of the departments pass over to the Great Beyond and there is no doubt in my mind if there is any one alive today in the service when I entered it on the 1st of June, 1854. S. P. Bidder was then general manager. My next door neighbor Norman Lathman, is a close competitor. He entered the service in 1861 as Pullman car conductor, running east as far as Island Pond, Vt., and west to Sarnia. Like myself he retired without receiving any reward for past service. The employees are differently treated now from what they were then. I was also pleased to note that W. H. Brownlow had celebrated his 83rd birthday and was likewise sorry to hear that he was having rather poor health. I hope for his speedy recovery. We have known each other and enjoyed the best of friendship ever since he entered the Grand Trunk service. He was a first class engine-driver and when any trials of speed were required he was the driver selected. Again, when a special train was required for transportation of Royalty, they considered themselves perfectly safe when "Billy" was at the throttle." Mr. Neilson is indeed one of the few surviving employees of the early days of the Grand Trunk and his reminiscences of that period are most interesting.

Called By Death

HERMAN LLOYD

At an early hour this morning Mr. Herman Lloyd passed away in this city after a few weeks' illness. Deceased was a young unmarried man in his 23rd year. He was a son of Mr. and Mrs. W. A. Lloyd and was born at South Fredericksburg. For the past few years Mr. Lloyd had resided at Belleville, being employed at the Canada Steel Plant here. Deceased was exceptionally poplar with his fellow employees and all who knew him. He was a member of the Methodist Church. In addition to the parents, four brothers and three sisters survive. The brothers are Clarence, Harold, Raymond and Addison, and the sistes, Marjory, Ethel and Deretha, all of this city.

MARY JANE McKNIGHT

Miss Mary Jane McKnight, an aged maiden lady, passed away here last night. Deceased was 84 years of age and had been a resident of this locality for many pears. The body was taken to Picton for interment.

MRS. MARY BELAIR

The body of Mrs. Mary Belair arrived here at noon today and was taken to the residence of her son, Mr. Walter Belair, 104 Victoria avenue. Deceased was the widow of the late Mr. Alexander Belair and was a lady highly esteemed by all who knew her. She was a member of St. Michael's church.

SINN FEIN FLAG WAVES IN QUEBEC

Bryson, Que., March 1—After a gathering of persons in the town hall of this municipality yesterday morning Secretary-Treasurer Leonard Coyne floated from the flagstaff of the building in honor of St. Patrick's Day, the Sinn Fein republican flag of green, orange and white.

"We fly this flag," he said, "as we wish to recognize the right of the Irish people to govern themselves. We likewise, in doing so, pay tribute to Papineau and Mackenzie, through whose rebellion 3 years ago Canada secured self-government."

The population of the town is mixed as far as nationality is concerned but no objection has been made to the Sinn Fein flag.

Cruelty To Animals Will Be Prevented

Belleville Society Formed to Protect Animals from Cruelty

A meeting was held in the Council Chamber of the city building last evening, the object of which was to hear Mr. Eric Osborne, secretary-treasurer of the Ontario Society for the Prevention of Cruelty to Animals and to organize a branch of the society here. The attendance was meagre, the ladies being in a majority.

Mr. Wm. Carnew, County Attorney in opening the meeting stated that the object was to form in Hastings County and the city of Belleville, a branch of the Humane Society for the protection of animals. An active organization was necessary. When it is known that such an organization is established here it will have a beneficial effect. In speaking of an officer as the head of the local branch, he (the speaker) referred to Judge Wills as a fit and proper person to be the presiding officer.

Judge Wills in taking the chair thanked Mr. Carnew for his kind remarks.

Mr. W. H. Nugent was appointed Secretary of the meeting.

OBJECTS EXPLAINED

Major Eric Osborne of Toronto said he was a member of the Toronto branch and recently had been appointed as the secretary-treasurer of the Ontario Society. Mr. Osborne, in speaking of the annual meeting held recently in Toronto referred to the admirable address given by Mr. Dr. Rose of Massassachutes. The distinguished speaker spoke eloquently and feelingly in reference to the work of the Humane Society and the good work it was accomplishing. We, as superior beings should see that beings of a lower order are properly looked after. In Toronto the Humane Society has been in existence for thirty years and four inspectors are at work from early in the morning until late at night. Never a day passes but what some one is summoned for cruelty to an animal, some for beating their horses and others for overloading them, also for using the tight over check rein. The Society is asking for better laws to be enacted for the Humane Society. In Toronto one inspector's duty is to inspect the abbitoirs and stock yards and see that the cattle are properly shipped. The speaker suggested that a branch of the society be formed in Belleville and later became affiliated with the Ontario Society. Ladies can do much in this society.

His Honor Judge Wills thanked Mr. Osborne for the information imparted Mr. J. W. Evans asked if there was anything being done to protect the birds.

Mr. Osborne—Yes and there is a society in Canada which looks exclusively after birds.

Miss Falkiner asked if the Toronto branch would provide literature and how far the power of the local society would extend geographically.

Mr. Osborne—Literature would be supplied and in regard to the scope of the Society that can be determined. A County branch might be formed.

The chairman asked the concensus of opinion as to what society would be formed in Belleville, a Humane Society or a branch of the Ontario Society for the prevention of cruelty to animalls. The latter society is an incorporated society. The Humane Society is not a statutory society.

Mr. Carnew spoke in support of a branch of the Ontario Society being established here which would no doubt be beneficial.

Mr. J. W. Evans moved that a branch of the Humane Society be formed in Belleville.

Mr. Carnew seconded the motion of Mr. Evans which was unanimously adopted.

Mr. Ruston moved in amendment seconded by Miss Faulkiner that a society be formed to be known as the Ontario Society for the Prevention of Cruelty to Animals, Belleville Branch.

Upon a vote being taken, the amendment was adopted.

The officers selected were as follows:

President—Judge J. F. Wills.
Vice President—Miss Falkiner.
Secretary—Mr. W. H. Nugent.
Treasurer—Miss Milburn.
Executive Committee—Judge Fraleck, Mrs. P. J. M. Anderson, Mr. Wm. Carnew, Mrs. Curtis Bogart and Mrs. McQuaig.
Inspector—T. D. Ruston.
Assistant Inspectors—Chief Newton and Sergt. Naphin.

The membership fee was fixed at 50 cents.

Letters To The Editor

To The Editor of The Intelligencer:

Dear sir—I believe I have solved the mystery to prevent the big floods of ice from coming down the river until they can be looked after better than the present and with very little expense, as most of the material will be at the hand of the contractor.

J. R. MIKEL,
Moria St., Belleville

Ed. Note—Just what Mr. Mikel's solution is his letter fails to state, but a personal interview by the authorities might be illuminative.

CREDITS OF $1,000,000,000 BY U. S. TREASURY TO GERMANY

Washington, March 18.—Extension by the United States Treasury of one billion dollars credits to Germany for the purchase of food and raw material in the United States is proposed in a bill introduced in Congress.

The credits would be controlled by the War Finance Corporation, which would regulate the purchases and accept in payment of Germany's obligatoins the bonds of that country, "having such security and priority as permitted by the peace treaty."

DIED

BELAIR—In Kingston, March 17, 1920 Mrs. Mary Belair, wife of the late Alexander Belair, of Madoc.

The funeral will take place on Friday, March 19th, from the residence of her son, W. N. Belair, 104 Victoria ave., at nine o'clock to St. Michael's Church. Interment St. James cemetery.

LLOYD—In Belleville on Thursday March 18th, Herman Lloyd, aged 22 years, 5 months.

Owing to illness at home the funeral wil ltake place from the residence of his uncle, J. W. Lloyd, 81 Mill St., on Saturday, 20th inst., at 2.30 p.m. Service at the house at 2 o'clock. Interment Belleville cemetery.

Children's Eyes Need Watching

The eye is not a fully developed organ at birth. As it grows through the years of childhood, its progress should be watched scientifically. Often school work puts a strain on the eyes. They are not ready for reading and blackboard work, and permanent harm to sight is apt to result. Blackburn makes a specialty of examining children's eyes and caring for them. Bring your child in for consultation.

Complete Coal Tie-Up By April 1 Predicted

TORONTO COAL DEALER, RETURNED FROM UNITED STATES SAYS MINERS PRESENTED DEMANDS UNACCEPTABLE TO OWNERS.

TORONTO, March 18.—"There seems to be no doubt in New York among Wall Street men that there will be a complete suspension of coal mining on April 1."

Mr. Chas. McGill of the McGill Coal Company, Limited, who yesterday returned from the United States where he has been studying the coal situation, made this statement in reply to a query as to the coal situation in the United States at the present time. The reason for this apparently well-founded belief, Mr. McGill continued is that the bituminous coal miners whose present four-year agreement terminates on March 31 have presented demands with which the operators will be unabe to comply. Briefly they ask for an increase of $2 per day for men paid by the day; the reduction of working [illegible] to six per day in a five-day week, full recognition of their union and that [illegible] practicable, coal be paid for on the short-ton basis. The short-ton basis refers to the difference in Canadian and American tonnage of 40 pounds. For contract miners a 60 per cent. increase is asked.

Although this agreement is only at present affecting bituminous miners Mr. McGill stated the anthracite miners whose agreement also terminates at the end of the month are refraining from presenting their demands until they see with what reception the demands of the bituminous men meet.

If a strike becomes inevitable and Mr. McGill is amost certain that it will, the anthracite miners will join the general walk-out.

The effect of a strike on Ontario, said Mr. McGill, would be to leave the Province absolutely without means of obtaining fuel. There are at present no reserve supplies in the Province, and the operators themselves are depending on the supply mined from day to day.

The shortage in the present supply, Mr. McGill stated is due chiefly to the fact that only 60 per cent of the coal cars on United States railroads are in use, a condition which he attributes to the policy pursued by the U. S. Railroad Administration in failing to repair cars when repairs are required.

Says Ouija Board A Spirit Bolshevik

Must Be Spirits of Evil or Some Good Would be Imparted.

Winnipeg, March 18.—The ouija board is "the Bolshevik of the spirit world," and no reasonable person is safe in assuming that the device, or any other device used by spiritualistic mediums, may be the means of "making a plaything of the author of our being" or "permitting us to communicate with the shades of the departed."

This view of spiritualism was given by Rev. S. J. McDonnell, assistant pastor of St. Mary's Roman Catholic Church, in an interview.

He advised people to beware of reposing faith in seances, incantations, table rappings, ouija board and such other alleged manifestations incident to the ritual of spiritualists.

"That there are spirits which may communicate with the living there is no denying," Father McDonnell said, "but if they are not spirits of evil why don't they impart information which will benefit mankind?"

"In no single instance has anything been suggested by spirits which has helped to solve the great industrial problems, prevented wars or provided means to make the world better.

"If there were spirits of good, enjoying communion with the Supreme Being, how could they be at the beck and call of anyone wishing to communicate with the dead? Can it be supposed that those who are in the presence of God can be summoned, at the fancy of a person who wishes only to ask some unimportant question? The assumption is too illogical to be credited."

Spiritualism does not inspire the artist or the inventor or assist the maker of peace, Father McDonnell asserted. It supplies information which appeals only to the unwary and confuses their thoughts in regard to the hereafter. He said that spiritualism was referred to several times in the Old Testament. On one occasion the inhabitants of a country were warned not to have mediums in their midst if they would avoid severe punishment.

U. S. PROHIBITIONIST TO MAKE EUROPE DRY

Chicago March 18—Mrs. Anna Gordon, President of the W.C.T.U., has left to start a movement in twenty-two European countries to bring about prohibition She will go to Plymouth, Eng., and meet the Countess of Carlisle, President of the World W. C. T. U. England, France, Spain, Italy, and the new war Republics will be bombarded by Mrs. Gordon.

GREAT ICE JAM CAUSING FLOOD AT THAMES MOUTH

Chatham, March 18.—An ice jam four miles in extent has formed at the mouth of the Thames and hundreds of acres of low-lying land near Prairie Siding are flooded to the average depth of two feet. Reports that the ice in Lake St. Clair is still intact and three feet in thickness gave little hope of any easing of conditions for

FOUR SONS FROZEN TO DEATH

Bismarck, N. D., March 18—The blizzard which has gripped North Dakota for two days, with a loss of at least four lives, is the worst since 1888, according to reports of the weather bureau. No freight trains were running in the State last night and several passenger trains were reported stalled in the snow. The four frozen to death were the small sons of Gus Wohlka, a farmer of Near Rider.

New York funds stood at 12½ most of Wednesday.

People Of The East Fans Of The Movies

The reception given to the touring cinema out in the East came as a surprise to the West. Lional Phillips, F. R.G.S., sys that when 10 years ago, the first film to travel east of the Suez Canal was shown in Bombay, there were few who prophesied success for the moving pictures in the Orient.

It was argued that the Eastern perception was too childlike, too placid, to follow the rapid changes thrown upon the screen and what was an entertainment to the educated people of Europe would be displeasing to the unread millions of the Far East.

As usul, the prophets were wrong. So great was the interest evinced in the new toy that almost before it had ceased to be a novelty to the London child the Eastern cinema proprietor had to remove the seats from inside his cinema in order to get rid of the enthusiastic audiences, who, with a total disregard of time, would have lived, eaten and slept in the "magic houses" if steps had not been taken to drive them away. Today it is no uncommon thing for patrons to spend the screening of a "seril" which films in the East are frequently run right through at one sitting (or standing), the 30 or 40 reels taking 8 to 12 hours to project.

Many of the cinemas are mere traveling bands, who wander from village to village and give their shows in the largest hut, or even in the open air.

There is no attempt to advertise their coming, except when a stay is made in the larger towns, but news travels quickly in the East and it is no uncomon sight to find an audience of thousands waiting for the arrival of the camera men.

On one occasion a wandering cinema band failed to return to the town from which it started. Days passed and no news came of the fate of the missing men. Then a certain regiment came back from the hills to its barracks with the lost film men, who had had the unique experience of being "kidnapped" by the British army and had spent the time showing the same two films to six houses nightly.

In the large towns conditions are more civilized, but even today in many places in China sets are unknown for the reason stated. Prices of admission are lower than in Europe; for the equivalent of sixpence you can in many places secure best view but in the houses which cater for the white population the prices are higher than in Europe.

The films are more often projected on to the screen by hand, and if the result is sometimes jerky, the audience takes this to be an added treat and is correspondingly pleased.

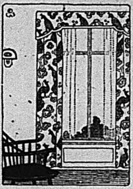
As the popularity of the film spread it became clear that those who prophesied that the moving picture would ever remain a mystery to the Asiatic had misjudged the understanding which will teach the children of one end of the Empire how the other end lives.—Christian Science Monitor.

Tewkesbury Crew Landed Safely

St. John's, Nfld, March 18—The crew of the British steamer Tewkesbury, which was wrecked in St. Mary's Bay, Nfld, has landed safely at Peter's River, according to messages received here. The crew, which consists of forty-one men and two women, left the ship in two life-boats. The ship was broken up by the heavy seas.

RITCHIE'S

Choosing Draperies Is a Pleasure at Ritchie's



Few Drapery Departments in Canada can display a larger range of Decorative Materials than our imported 1920 fabrics represent on the third floor. They display exclusive designs and harmony of colors that will meet with your every desire for home decorating. Mr. Poste, our drapery designer, has a host of new ideas for the Spring season, and his knowledge is at your command.

Spring's Prettiest DRAPERY FABRICS

Scrim and Marquisettes, 36 to 45 ins. wide, in White, Ivory and Ecru, plain tape edges, 40c. to $1.25 yard.

English Curtain Nets in designs of Verdure, Conventional, Block, Panel and French Filet Nets, 42 to 54 inches wide, at 50c. to $3.90 yard.

Sash Madras and Nets in white or cream, 18 to 36 ins. wide, at 35c. to 50c. yard.

Scotch Madras in white or cream, Trellis, Floral and Verdure patterns. Priced from 50c. to $1.50 yard.

Colored Casement Madras, direct from Scotland, 36 to 54 ins. wide, at $1.00 to $2.50 yard.

Silk Poplins and Repps, suitable for window and arch draperies, a large variety of shades, 50 ins. wide, priced $2.00 to $3.75.

Against Daylight Saving Is Chamber Of Commerce

PRINCIPLE FAVORED IF GENERALLY OBSERVED, BUT NOT ADVISABLE FOR BELLEVILLE UNLESS PROVINCIAL OR NATIONAL. CONCENSUS OF EXPRESSED OPINION AT GET-TOGETHER DINNER OF CHAMBER OF COMMERCE—GOOD-WILL OF FARMERS ESSENTIAL—BRIDGE OR DUNDAS STREETS FOR PROVINCIAL HIGHWAY?

The "Get-Together Dinner" at the Hotel Quinte Thursday evening arranged by the Forum Committee of the Belleville Chamber of Commerce was an unqualified success, several questions of local interest being discussed in a frank and free informal manner. The greatest harmony prevailed even when sharp differences of opinion developed.

The menu provided by the Hotel Quinte management was as usual a credit to that progressive institution and was the subject of many complimentary references on the part of the speakers.

Mr. C. J. Symons, Chairman of the Forum Committee of the Belleville Chamber of Commerce, acted as chairman of the gathering in a very capable manner and the programme was carried out smoothly and efficiently. An excellent orchestra furnished an entertaining program of music.

Topics for discussion were provided as follows:

Daylight Saving.

The Choice of a Local Link for the Proposed Provincial Highway.

The Creation of a Rural Section of the Chamber with a special Membership Fee.

Daylight Saving

The discussion of Daylight Saving disclosed a remarkable unanimity of opinion. While the speakers were in favor of the principle of Daylight Saving they considered it inadvisable to have the city of Belleville adopt it unless it was general by Government decree. The fact that Belleville is the home of many railway employees is a strong reason why daylight saving should not be adopted locally unless the railway schedules were changed to conform and there seems no possibility of that happening. Another strong reason emphasized by most of the speakers was the advisability of not antagonizing the farmers who are against the principle practically unanimously. The movement to form a rural section of the Chamber of Commerce would be endangered if the Chamber of Commerce was to go on record as in favor of the adoption of Daylight Saving under the present circumstances.

Those who took part in the discussion included Messrs W. B. Deacon, Rev. Geo. Marshall, Jamieson Bone, W. A. Elliott, W. R. McCreary, Col. Marsh, H. Ackerman, T. Blackburn, F. B. Diamond, J. A. Higgs, John W. Cook, H Bryant, Ald. Hanna, Geo. Graham, Rolston, W. Walsh, Ald. Ostrom, W. C. Springer, Wm. Cook, J. O. Herity.

It developed in the discussion that local mechanics are not all in favor of Daylight Saving.

Provincial Highway Route

The discussion upon the question as to the best route through the city for the Provincial Highway was interesting and developed a sharp but friendly difference of opinion. Bridge street had many champions who made out a strong case for the provincial highway to proceed straight up Bridge street deflecting at Herchimer avenue at the old church to Dundas street, passing the principal public buildings and the Hotel Quinte, and proceeding through what was described as the finest residential portions of the city. Particular emphasis was laid upon the danger of making the sharp turn at Front Street if the Dundas Street route was favored. The opposition against the Bridge street route came back with strong arguments why the historic old Kingston Road via Dundas street should be followed with its beautiful view of the Bay of Quinte, etc. The lower bridge, it was contended, would not be able to take care of the increased traffic consequent upon the opening of the provincial highway and it was argued that a new bridge would be necessary and should be constructed opposite Dundas street, the route deflecting at the Devil's Elbow, thus eliminating sharp turns and heavy grades and making a straighter route. It was intimated during the discussion that the chief engineer of the Provincial Highway Department had recently examined both proposed routes and expressed himself as personally convinced that Bridge street was the best route. Residents of Bridge street, who spoke declared themselves as not particularly anxious to have the provincial highway pass their properties, but thought it was the best route and would favor it from that standpoint.

Those who spoke in favor of the Bridge street route were: Messrs Col. Marsh, Lucius Allan, C. E., President of the Good Roads Association; Mayor Riggs, J. S. Fisher, Col. Lazier, Major Ponton, Jamieson Bone, A. McGie, S. Burrows.

Dundas street advocates were Ald. Ostrom, ex-Mayor Ketcheson, Mr. W. R. McCreary and Dr. Day.

Rural Relations

The speech of the evening was made by Mr. John Elliott, Manager of the Standard Bank, and Chairman of the Rural Relations Committee of the Chamber of Commerce. Mr. Elliott's remarks were witty and pointed showing the necessity of closer and more sympathetic and helpful relations between the residents of the rural sections adjoining Belleville and the residents of the city. He made many excellent suggestions of ways and means to promote co-operation between city and country and saw no reason why a large membership could not be secured for the Rural Section of the Belleville Chamber of Commerce. Belleville Board of Trade was the first organization in Ontario to establish a farmer's section and had sent a farmer representative of the Board to the London meeting of the Associated Boards of Trade of Ontario. He eulogized Col. Ponton for his excellent service to Belleville in advertising this city far and wide wherever he travelled. Col. Ponton's eloquence had always been used effectively to draw favorable attention to Belleville in other places and he was a gentleman in whom the citizens should take the greatest pride for his achievements and loyalty to Belleville.

Mr. Parker, of the Royal Bank, and Mr. Jones of the Judge-Jones Milling Co., Mr. J. G. Moffat and Mr. W. B. Deacon made helpful suggestions in regard to the forming of a rural section, and Mr. Deacon pointed out the danger to the prosperity of Eastern Canada from the free trade movement originating in the west and the necessity of having the eastern agriculturalists realize that such a movement endangered their prosperity as well.

A card vote was taken to record the views of those present upon the three questions discussed, for the guidance of the directors. Daylight Saving was not approved of. Bridge Street route was endorsed, and the directors were authorized to proceed with the formation of a rural section of the Belleville Chamber of Commerce.

FORUM ECHOES

George Graham, as chairman of the Recreation Committee, declared himself unqualifiedly in favor of Daylight Saving.

From an engineering standpoint Bridge street route is preferable said Lucius Allan, President of the Dominion Good Roads Association.

Mr. Elliott, of the Elliott Woodworking Co., favored leaving the clocks alone and changing the hours of labor to begin an hour earlier and cease an hour earlier.

The daylight-to-dark work schedule on the farm is dislocated by Daylight Saving because the hired man quits an hour before dark, was a rural objection voiced by Alderman Hanna.

Some of the men at the steel plant are not favorable to Daylight Saving, because they say their wives make them work when they go home, according to Mr. J. A. Higgs, manager of the plant.

Burrows, of Belleville, that veteran booster of all things good and helpful, made an eloquent speech in favor of the Bridge street route for the Provincial Highway and in brief snappy sentences full of pep and wit aroused much enthusiasm and merriment.

Thinking cheese and dreaming cheese he could almost say that he slept on a cheese, was a remark of Chairman John Elliott, of the Rural Relations Committee, in expressing his deep interest in the dairy business

Five Lives Lost In Fire From Oil Lamp Explosion

MOTHER AND THREE CHILDREN PERISH IN QUEBEC FIRE, ALSO BOARDER, WHEN TENEMENT BURNS—FATHER JUMPED FROM WINDOW AND ESCAPED.

Special Despatch to The Intelligencer, Canadian Press, Limited.

ST. JOHN'S, Que., March 19.—Five lives were lost in a fire which destroyed the residence of Phillippe Lariviere, 34 Queen street, St. John's, Que., last night. The victims are: Mrs. Philippe Lariviere, aged 29; Salin Bessette, her brother-in-law, aged 30; and three Lariviere children. The house was a double two-story tenement and the fire started in the sleeping quarters of the Lariviere house, presumably by the explosion of an oil lamp attached to the wall. Mr. Lariviere, who had arrived home a short time before and retired, was awakened, and seizing one of the children, jumped from the window, but as he jumped he dropped the child and it fell back into the blazing room.

Fripp, Of Ottawa, Would Dismiss The U.S. Experts

Chicago Laymen, Without Any Knowledge of Printing are Reorganizing Government Employment Bureau

OTTAWA, March 19.—Brig.-General Langton, of Toronto, Paymaster-General of the Militia Department was given a clean bill of health by Hon. Hugh Guthrie, Minister of Militia, in the House of Commons yesterday afternoon. In reply to a series of questions asked by Mr. Tobin, the Minister said General Langton volunteered for overseas service with the 1st Contingent but he was urgently needed in Canada as General Transport officer and was kept on this side by Sir Sam Hughes against his will. He is now receiving $7,000 a year.

A. E. Fripp, of Ottawa, cut loose on Chicago experts who have been reclassifying the civil service at cost of $90,000 to date with an additional $60,000 in sight. There is a good deal of soreness over the work of the Chicago people (Arthur Young and Co.,) which Mr. Fripp characterized as a stupendous farce. His attack was vigorously applauded by many Government supporters.

WOULD FIRE U. S. EXPERTS

"I ask the Government to get rid of these Yankee experts and call in the Deputy Ministers, who know more in five minutes than these American gentlemen in five years."

Mr. Fripp was amazed, he said, to learn that these laymen from Chicago with no knowledge of printing, had been given the task of reorganizing the Government Printing Bureau.

"I submit that is patronage of the worst kind," declared Mr. Fripp amid another outburst.

"There is a feeling of unrest in the service as a result of these experts in the Mines Department because of the bungling in connection with this reclassification farce."

CENTRALIZED PATRONAGE

J. H. Burnham, of Peterboro, also jumped on the Government for taking away the patronage from the "responsible representatives of the people." They had been helped on by the newspapers to rush headlong into "this catastrophe," and waste $100,000.

"Legislation is an expression of the will of the people, who haven't any will nine times out of ten," said Mr. Burnham.

"We have Canadians much better qualified to do this work," said Edmond Proulx of Prescott, who feared the Government had gone back on its cry, "No truck or trade with the Yankees."

U.S. Senate Kills Irish Clauses

WASHINGTON, March 19.—The Senate laid on the table the question of Irish independence along with the whole question of self-determination for subject peoples.

By a vote of 54 to 21, the Senate tabled a reservation to the Treaty, offered by Senator Owen, Oklahoma, stating that the British protectorate over Egypt would be ended. The reservation carried an amendment recognizing the Irish Republic and stating that the United States understood that Great Britain would also recognize Irish independence and further amendments of the same imports as to Korea the Philippines, Porto Rico and Hawaii.

Mrs. Charlie Chaplin is seeking a divorce from her husband, the great movie comedian.

Ross Takes Part Of Returned Men In Legislature

TORONTO, March 19.—Continuing the debate on the address in the Legislature, Brig.-Gen. Ross took up the cudgel on behalf of the returned men, saying that many of them had returned to find that their service militated against them in seeking positions.

"These men who went forth realized that as citizens of the British Empire they had a duty to perform in the saving of the British Empire, and they now return seeking an answer to their question why some men have been favored to stay at home while they had to go out."

He pointed out that in Scotland the mothers saw to it that their boys went out to fight, and today the Scottish boy took first place in the world of science and business and finance. They had lost nothing by their service—the boys with the qualities and characteristics which they had adopted from the Scottish home.

Naval Estimates Are Cut In Half

Capital Ship Remains the Unit on Which Sea Power is Built

LONDON, March 18—The navy estimates were in the House of Commons program. They are down nearly one-half the amount voted last year, being a net sum of eighty-four and a half millions sterling, as compared with one hundred and fifty-seven and a half million. Provision is made for 136,000 personnel, against 280,000. The First Lord of the Admiralty was given full credit in the discussion for his important reductions.

Interesting facts in his explanatory statement are that the capital ship, in the opinion of the naval staff, remains the unit on which sea power is built, and that it is proposed to create a naval air wing. The First Lord said that Admiral Jellicoe's reports on the Dominions' navies would require careful consideration, and that the scheme could only be settled by discussion with representatives of the Dominion in London. The Dominions had accepted immense responsibilities and made heroic sacrifices and were bearing great burdens. They must not be hurried in these naval developments.

The House finished the discussion on the supplementary estimates which included $100,000 for the Prince's new tour.

The House of Lords had a general discussion on commercial and industrial policy on the first reading of the bill to give effect to the recommendations of the recent Commission.

PRISON FOR BANDITS.

Timmins, March 19.—Quick Justice came to J. Grogoran, Louis Geroux and Alphonse Fecteau, three men who held up and robbed with violence, A. Dorfman, last night, when this morning they drew sentences of five, three and one year respectively. Dorfman was going home to Schumacher; the trio, driving in a cutter, offered him a lift only to later hit him on the head, rob him of $121 and leave him unconscious in a snow drift near the Hollinger mine.

Ex-Soldiers Protest

Hamilton, March 19—Returned soldiers have called a mass meeting for Saturday night at the market square to protest against the decision of Magistrate Jelfs releasing a colored man charged with an assault on a fourteen-year old girl.

Last Minute Telegraph Briefs

S. A. Election Indecisive

London, March 19—Discussing the South African elections the Manchester Guardian says there must either be a new election shortly or General Smuts must be kept in office by the Hertzogites or Laborites. Probably by the Laborites who although extremists have been more in sympathy with Smuts than the other parties.

Senate Still Stalling

Washington, March 19—Preparing for a final vote in ratification of the Peace Treaty the Senate today adopted a modified reservation preamble worked out in the bi-partisan conference under which an affirmative acceptance of the reservations by the other powers would not be required.

Exchange Higher

New York, March 19—Foreign exchange rates were substantially higher at the opening of the stock market here today. Demand bills on the English pound sterling were quoted at $3.79¼ or 5½ cents above yesterday's closing prices. The Canadian dollar was quoted here at 88.65 cents.

Hundreds Killed

London, March 19—Hundreds of persons have been killed in mining districts in Germany in collision between the miners and troops. Fighting is proceeding in nearly all thickly populated areas where soldiers and workers are opposed.

Killed His Brother

Hamilton, March 19—Stanley Young died in the hospital this morning as a result of a bullet fired by his brother, Joseph, aged 13, while at target practice in the cellar of their home with a 22-calibre rifle which clogged and went off unexpectedly. Joseph is held by the police.

Holland Weary Of Royal Fugitive

Dutch Government and People Changing Attitude Under Responsibility.

LONDON, March 19.—Despite the former Kaiser's reported assurance to the Dutch Government that he will refrain from all political activities, the belief prevailed in official circles here that the Entente will demand that Holland exile him to Curacao (in the West Indies) or to the Dutch East Indies.

Although the Kapp coup was short-lived, it was said to have furnished Holland with evidence that it will be impossible for Wilhelm to remain in Europe because of the endless trouble of guarding him, both from his enemies and his friends.

Sentiment throughout Holland was authoritatively reported to have changed since the Allies practically placed upon that little country the responsibility of preventing the former Kaiser from influencing the future peace of Europe, either directly or indirectly.

Admittedly he is broken down and personally unimportant, but it was pointed out that he symbolizes an institution which is dangerous in the hands of the militarists.

Clipping His Wings.

Several communications and discussions between the Entente and Holland have occurred in the last few days. Yesterday a royal decree was published in Holland confining Wilhelm to that portion of the province of Utrecht in which Amerongen and his new house at Doorn are located. At the same time Holland was understood to have informed the Entente Governments that the strictest precautions would be adopted regarding the ex-Kaiser.

The Ebert Government, according to reliable information, is extremely anxious that Wilhelm be "properly disposed of" and is willing to acquiesce in his exile. It was even said that if Holland returned him to Germany the Ebert administration would hand him over to the Allies.

Hint Regarding Sanity.

Amerongen, March 19.—Reinforcement of the Dutch guard at von Bentick's castle, which since the Middle Ages has been protected by moats and drawbridges, has made the former German Emperor's refuge a veritable prison fortress capable of defence even in the unexpected event of an attack by raiders desiring to free the exile.

The castle is situated in a big square, the four sides moated, while two of them have additional walls. The latter two sides are on the public road, and on the other two sides which have no walls, are private paths belonging to the von Benticks. Constables and military police patrol the roads with loaded rifles night and day.

General Communist Outbreak Threatens In Gemany

FIFTY KILLED IN VIOLENT STREET FIGHTING IN LEIPSIC BETWEEN WORKMEN AND SOLDIERS — TROOPS FIRE INTO CROWD AT COBLENZ, KILLING TWENTY—NATIONAL ASSEMBLY CONVOKED.

Special Despatch to The Intelligencer, Canadian Press, Limited.

COBLENZ, March 19.—The Ebert Government will return from Stuttgart to Berlin on Saturday, it is learned. The National Assembly and Prussian Diet have been convoked to meet in Berlin on Sunday.

TWENTY PERSONS KILLED IN RIOT.

Twenty persons were killed when General Von Luettwitz's troops fired into a crowd of civilians as the soldiers were leaving Berlin yesterday afternoon, according to Berlin advices received here. Troops of the Ebert Government are now guarding the city add the despatches, which state that a general Communist outbreak is still threatening. Information direct from Berlin is that the Independent Socialists have decided to continue the strike. Food conditions are reported serious as no trains have gone into Berlin for five days.

FIFTY KILLED AT LEIPSIC.

STUTTGART, March 19.—Fifty persons were killed in most violent fighting at Leipsic, it is reported. Workmen in that city clashed with troops, threw up barricades, dug trenches and fought almost organized warfare. Mines were exploded near the railway station.

BERLIN A BARREL OF GUNPOWDER.

LONDON, March 19.—All Germany, with the exception of the southern states, is in rebellion, and Berlin is a barrel of gunpowder which may be ignited at any time, says a Berlin despatch to the Exchange Telegraph Company, filed at Berlin yesterday. Workmen are especially provoked at the action of Von Kapp's troops in turning their machine guns on the crowds as they left Berlin.

BUDDING BOLSHEVIKS' BLUFF.

THE HAGUE, March 19.—The Handelsblad takes the view that no one should be frightened by despatches announcing that Soviet republics have been proclaimed here and there in Germany. These proclamations, says the paper are only the work of troops and armed laborers supported by army deserters whose political convictions depend largely on a couple of hundred marks and a piece of bacon. They occupy the town hall, chase out the burgomaster, install themselves comfortably behind the green table and proclaim a Soviet republic. The newspaper adds that this is a matter of only a few minutes; but to chase the whole Government away it would take longer.

Elections Act Limits Source Of Party Fund

OTTAWA, March 19.—When the act hereafter to be known as the Dominion Elections Act, appeared in printed form yesterday, so far as the English version is concerned, close attention was given to it by various members. The explanation given by Hon. Hugh Guthrie, Solicitor-General, covered most of the important points. It repeals the Dominion Elections Act as it appears in the revised statutes of 1906, and the ten acts passed since that time and consolidates their main features.

STOPS CONTRIBUTIONS

One clause makes it an offense for contributions for political purposes to be made by any companies or associations other than those incorporated for political purposes. In other words contributions for campaign purposes must be from individuals alone, and companies cannot enter such expenditures in their books hereafter as legitimate expenses. Foreign canvassers are debarred from election campaigns. Two hours other than the noon hour must be given by employers to their employees for voting without deduction of pay. The chief electoral officer is the Parliamentary counsel for the House of Commons.

Qualified electors, as announced are those who, not being Indians ordinarily resident on an Indian reservation are British subjects by birth or naturalization twenty-one years or older and who have resided in Canada twelve months and in the electoral district two months before the writ of election is issued.

NO SOLDIER DISQUALIFICATION

Personal naturalization of foreign-born wives of citizens is made necessary except where such wives are born in North America. Disqualifying clauses contain no surprises, except that in disqualifying persons disqualified on account of race by any Legislative Assembly of a Province the following is added: "Provided, however, that the provisions of this paragraph shall not disqualify or render incompetent to vote any person who has served in the naval, military or air force to the Registrar upon the making of the voters' lists and to the Deputy Returning Officer at the time of polling. Japs who fought overseas in the Expeditionary Forces would thus get votes."

MAN AND WIFE ONLY ONE JUROR

Grand Rapids, Mich., March 19.—When man and wife occupy seats in a jury box they are to be regarded as one juror, according to a ruling made by Judge Willis D Perkins, in Circuit Court. The judge said he based his ruling upon the construction of the old English law, which holds man and wife are one.

Mrs. Peter Long had been regularly drawn as a juror to serve on a case in which a will was being contested. The panel was early exhausted, when spectators were drafted as talesmen. Among them was Peter Long. The judge excused him, explaining Long and his wife would be but one juror. Other women on the jury giggled triumphantly, regarding the action of the court in permitting the wife instead of the husband to occupy the seat as recognition of the superiority of their sex.

Compensation Recommended For Kapuskasing Settlers

COMMISSION FINDS MANY GRIEVANCES JUSTIFIED—RECOMMENDS SOLDIERS BE GIVEN PRIVILEGE OF STAYING OR LEAVING — SPEEDY ACTION URGED IN CLOSING UP PRESENT ORGANIZATION.

Special Despatch to The Intelligencer, Canadian Press, Limited.

TORONTO, March 19.—The commission which investigated the complaints of the settlers at Kapuskasing camp, finds that many of the soldiers' grievances were justified and recommends that the soldiers be given the privilege of staying or leaving, and that compensation be given. Speedy action is urged in closing up the organization as it exists at present.

WHY IS IT
that chronic skin diseases which have defied all other treatments yield to Zam-Buk?

It is because Zam-Buk is germicidal, and also has such power of penetration that it reaches disease in the underlying tissues and cures from the "root" up. That is the only way a permanent cure can be effected.

Mr. H. C. Buckley of 461 E. Broadway, Portland, Oregon, says: "For chronic skin diseases there is nothing like Zam-Buk. For fifteen years I had eczema, and I tried an endless number of so-called 'eczema cures,' but nothing was capable of curing me permanently until I used Zam-Buk. Ten months' use of Zam-Buk has effected a complete cure."

For ulcers, abscesses, boils, ringworm, blood-poisoning, piles, burns, scalds and cuts, Zam-Buk is equally good. All dealers or Zam-Buk Co., Toronto. 50c. box, 3 for $1.25.

New Bills At Local Theatres

Constance Talmadge and Harold Lloyd at Griffin's—Lucy Cotton at Palace

The excellence of Constance Talmadge. This is a subject that is becoming more and more popular with photoplay lovers. She is developing a new style of light comedy that is all her own, and with each picture she demonstrates more fully her right to be considered one of the biggest stars of the screen. Constance is in a class by herself. There is no one on the screen today who is doing the same sort of work that she is. She has a field of her own in which she reigns supreme. Her field is good, clean comedy, not the hit-or-miss variety of slap-stick comedy, but drawing-room comedy blus drama. In "A Lady's Name" which is from the pen of the brilliant English author Cyril Harcourt who wrote "A Pair of Silk Stockings" in which Miss Talmadge has already starred and appeared in, in Belleville. "A Lady's Name" is a delightful comedy of surprisingly original situations, and she is given excellent support by a well trained cast headed by Harrison Ford. The Kill Kare Komedian, Harold Lloyd, is appearing on the same program in his latest two reel comedy "From Hand to Mouth" acknowledged by many to be one of the best of his career. Pathe News, "Topics of the Day," containing the wit of the press and a beautiful Outing Chester Travelogue are al being offered on the same program.

"MIRACLE OF LOVE"

Cosmo Hamilton is among the few authors of the present day who writes stories about the upper stratum of British society with any degree of fidelity. Mode than that he makes his Lords and Ladies real human beings and the adventures in which they figure entertaining. A recent novel from his pen has been done into a motion picture called "The Miracle of Love" and was shown last night at the Palace before a large audience. "The Miracle of Love" was written by an Englishman, and the chief male role is enacted by that model leading man and talented product of the London stage, Wyndham Standing. It is to the credit of Lucy Cotton, the pretty little Texas favorite, that her imperonation of the Duchess-Heroine is as convincing a bit of acting as Mr. Standing's. The action is helped considerably by the really remarkable British atmosphere and background secured by the director. There is one scene in particular, that of the House of Lords in session, with the hero making a fiery speech for the rights of the common man, that is unusually successful in transferring the spectators to the shores of the Thames. The program is augmented by the exhibition of some good comedy and topical subjects.

TAKEN FROM REAL LIFE

To the many thousands who have become fond of the delightful old play and its people, it may be interesting to know that Mr. Thompson took most of the characters of "The Old Homestead" from real life. Uncle Joshua is a composite reproduction of two persons who lived in Swanzey, one known as Captain Whitcomb and the other as Joshua Helbrook. The Captain furnished the comedy and Joshua suggested the more serious moments of the play. The original of Aunt Matilda was a sister of Joshua Holbrook and known to all the people of Swanzey as Aunt Rhody, a tender, honest, faithful, respectable old woman. Cy Prime was a fellow townsman who had the reputation of being the biggest liar in Cheshire county and Seth Perkins was a composite of several characters, Henry Hopkins was a real boy playmate of Denman Thompson who went to New York, "made good" and acquired wealth. The good wholesome philosophy of "The Old Homestead" was a living philosophy of a real Uncle Josh and its people were people from real life. It is probably a sound conclusion, therefore, that "The Old Homestead" was a living philosophy of a real Uncle Josh and its people were from real life. It is probably a sound conclusion therefore, that "The Old Homestead" appeals so strongly because it represents life truly.

(What the Press Agents Say)

WILLIAM LAWRENCE IN "THE OLD HOMESTEAD"

"The Old Homestead," America's greates classic now on its thirty-third annual tour comes to Griffin's next Monday night, March 22nd. "The Old Homestead" will be presented here with a typical "Homestead" cast headed by that great rural comedian Wm. Lawrence, who has succeeded Dorman Thompson as "Uncle Josh." Augustus Pitou Inc., are presenting the only authorized version with an absolutely new scenic production with all the famous original features of years ago.

Hear the great double quartette in the good old songs of Mother's childhood days. See the Grace Church by moonlight and the most wonderful organization to come out of the way, "The Salvation Army." "The Old Homestead" is the cleanest and most wholesome comedy offering of the season.

Against Daylight Saving

Continued from page one.

of Belleville section This led Mr. Parker of the Royal Bank to reminiscences of his banking experience in the grain sections of the west when he felt that even his bed was a grain bin.

The Hotel Quinte as an asset of great advertising value to Belleville which had not cost the citizens one cent, was eulogized by several of the speakers The Hotel Quinte is well and favorably known from coast to coast as one of the finest hostelries in Canada, or on the Continent for that matter.

Ald. Ostrom made a strong, snappy and effective appeal for the Dundas street route as part of the provincial highway and he went directly at the argument of his opponents hammer and tongs, but in a good natured way, and his frequent witty sallies provoked laughter. That Ald. Ostrom is a fair and bonnie fighter was shown by his remarks.

Rev. Mr. Marshal speaking in favor of Daylight Saving, said that it was a pity that the opposition to the measure had lacked understanding and sympathy with the great boon conferred upon urban dwellers by the extra hour of daylight for recreation. It was a pity that such a good measure had died in infancy, but it had been killed and the only thing remaining was to give Daylight Saving decent burial.

Ex Mayor Ketcheson presented a strong case for the Dundas street route, emphasizing the fact that the lower bridge would be incapable of handling the increased traffic, that a new bridge would have to be constructed and showed the advantage of spanning the river at Dundas street, also pointing out an alternative route from the Devil's Elbow with better grades and less curvatures which could be constructed at far less expense.

Col. S. S. Lazier, a veteran Belleville civic builder, said that at one time in his life he thought that no local forward movement could go right without his assistance, but the passing of the years had slowed him up. He was proud of the interest taken in the city's welfare by the energetic young business men as exemplified by this gathering, which promised progress and prosperity. Belleville was in good shape financially and good for any amount of judicious expenditure for civic improvement.

Result of the Ballot.

WANT ROAD FROM KINGSTON TO PERTH

Toronto, March 19—Hon. F. C. Biggs met a large deputation from Westport and other places in Leeds County which asked consideration of a Provincial highway from Kingston to Perth. This is an unlinked system and they wanted a new short connecting road designed. The Minister said he would consider it.

LONDON DOCTOR INJURED.

London, Ont., March 19.—Dr. J. E. Kidd was seriously injured when his automobile was struck by a light engine, at Maitland street level crossing. He is expected to recover. He had been attending patients all night, but was responding to another hurried call when his car was struck.

THE PLAIN PEOPLE.

A new serial story begins in the current issue of The Intelligencer, "Under the Greenwood Tree," a tale of English people, their loves and hates, and simple pleasures. It is a homely narrative of plain people and is sure to please.

STANDS FOR EVERYTHING PURE AND RIGHT IN MILLING

The Good Judge Finds:

that although our Mill has started operations and milled a considerable amount of Flour, which has been tested and found to be as good as anything on the market, there are a few little adjustments to be made before we will make any deliveries. These adjustments will be made in one or two days, which will complete two months experimenting and many of our own inventions. Then our Flours will be just a little better than most of other brands. Orders are coming in very fast for immediate shipment and would advise that you place your orders now in order to avoid delay in receiving supplies.

To Beautify Complexion

All You Need is Stuart's Calcium Wafers to Clear the Skin of Pimples, Rash, Blackheads and Such Local Skin Eruptions

The calcium sulfide in Stuart's Calcium Wafers is nature's contribution to skin health. It is the substance that seeks the skin, assists in its activity to prevent stagnant pores, to stimulate circulation and divert impurities from finding lodgment in the skin texture; it sweeps its way through the bowels, removing wastes that otherwise may be absorbed into the circulation and thus try to escape through the skin. Use these wafers regularly for a few days and notice how the skin clears, how pimples, blackheads and such kinds of skin eruptions are removed. They simply cannot remain. Their redness and itching disappear. Proper food and Stuart's Calcium Wafers will surely take the place of all your creams and lotions and you won't need your powder puff. Get a 50-cent box of Stuart's Calcium Wafers today at any drug store and join the ever-growing throng of American complexion beauties.

TORONTO INCOMES EXCITE CURIOSITY

Ottawa, March 19.—The number of persons or corporations in Toronto paying income tax under the Dominion Government scheme and the aggregate amount paid by persons and corporations during the fiscal years of 1917 and 1918, whose assessed income was over $1,500, $6,000, $10,000, $20,000, $30,000, $50,000 and $100,000 is asked by W. C. Kennedy, Essex North in a question before the Commons.

MONTREAL HAS OIL BLAZE.

Montreal, March 19.—Four hundred thousand gallons of crude oil blazed throughout the night at the plant of the Barrett Company, manufacturers of roofing and paving materials. The whole fire fighting force of the city was called out and the firemen announced that the oil in the containers would burn itself out. The fire temporarily disrupted the system of the C. P. R. telegraph wires between Montreal and Quebec.

Cinnaform Pastilles

dissolved in the mouth, effectively destroy the many disease germs which are constantly floating in the air, and lodging in the throat. Cinnaform Pastilles are wonderfully successful in preventing Sore Throat, Tonsilitis, Quinsy. Excellent for children who suffer with Sore Throats and Colds.

Soldier Resents Loss Of Social Glass

TORONTO, March 19—Soldier and Labor representatives took up the debate on the Speech from the Throne in the Ontario Legislature yesterday, and from both elements came warnings of impending serious unrest if certain conditions were not remedied. Brig-Gen. A. E. Ross (Kingston) said that in taking away from the soldier his social glass of beer legislators had left him no other meeting place than the street corner. Mayor M. McBride (Brantford) declared that serious unrest was being occasioned among returned soldiers and workmen by the vulgar display of wealth on city streets and urged that public men put themselves on record against it.

When the House opened Mr. Dewart arose to refer the Premier to a reported interview in an evening paper, inwhich the Premier was quoted as saying that his conference with Sir Adam Beck had concerned Fort Frances Hydro matters. Mr. Dewart remarked, somewhat acridly, that the House might well be expected to receive the Hon. Mr. Drury's confidence in competition with the evening paper. But the Premier declared that the newspapers report was "wholly inaccurate" and that Fort Frances affairs were not even mentioned.

Then Hon. Manning Doherty made an apology for his statement in the House on the previous day to the effect that probably Hon Dr. Cody in resigning his seat, had had in mind the receipt by the churches of $14,000,000 and "wanted to keep where the sledding is good." He said: "In my remarks referring to Dr. Cody it was furthest from my mind to cast any aspersion upon the gentleman's character of his intention. It brings to me the realization that as a humorist I am a failure."

Gilded and Gaudy Opening as in Past

Brig-Gen Ross of Kingston was accorded general applause from the Conservative benches when he arose to deliver his first address. While great things had been expected from the Drury Government, he regretted to have to say that the menu prepared for the banquet looked no better than those in former years, and apparently, was to be served on the same old dishes in the same old way. The preliminary functions had been just as gilded and gaudy as in the past. Mr. Speaker had been arrayed in beauteous robes whose glamor took second place to nothing that had ever preceded and "the guns boomed just as loudly as ever I have heard them boom."

Brig-General Ross went on to voice the grievances of returned soldiers, many of whom, he said, had come back only to find their positions filled by men younger than they and abler to have represented their country on the firing line. Some returned men, he declared, had even discovered that their war record militated against them in peace activities. He had several incidents to quote and ended by pointing out that before Lieut.-Col. H. S. Cooper, M.P.P., with honors and four years' service could secure appointment in the militia, there were 950 permanent officers in this country who must first be placed in position. Of the 950 the speaker was ready to guarantee that eighty per cent of them had, during the war, been holding down cushy jobs in Ottawa or London.

Restore Veteran's Social Life

What had come to take the place of the glass of beer of which the soldier had been deprived during their absence? The only place where they could meet now was the street corners, "where they get discontent, unrest, dissatisfaction." While he was absolutely in accord with the abolition of the bar, something must be done to restore to the men something of social life. Overseas they had been accustomed to Sunday baseball. "And who will put up the least objection," Brig-General Ross declared, "to any game of baseball, cricket or anything else on a Sunday afternoon?" (Applause.)

The speaker regretted the entire absence in the Speech from the Throne of reference to public health legislation. After declaring that he wasn't one who would speak on the subject with hushed breath, he proceeded to quote statistics in regard to venereal diseases of Ontario. Conditions in the Corps area in London are better than in Ontario, and "the men in London representing the Canadian forces might as well have been old women for all t heinfluence they had on that committee."

Not for a minute did the speaker accept the Premier's statement that the U. F. O. wasn't a class movement, or that the present Government wasn't a class Government. Referring to the absence of eight-hour day reference in the Speech, he pictured the Labor ship as being "scuttled." He was in favor of sane patronage. Although cries of "No, No" and "Shame" greeted his declaration that Hon. Mr. Doherty's remarks concerning Dr. Cody's resignation constituted "a direct attack on the clergy of this country," Brig-General Ross pressed home his assault and interjected for a few moments an atmosphere decidedly uncomfortable.

His concluding remarks were a criticism of the Drury Government for "debauching" with liquor Ontario's sister Provinces and a defence of the old political parties whom it was popular to defame.

Nationalist Head Taken By Allies In Turk Capital

CONSTANTINOPLE, March 19.—The second day of the inter-Allied occupation of Constantinople, carried out on Tuesday by large forces from the imposing war fleet in the Bosphorus, passed with entire calm, the Turkish police co-operating in keeping order. The ferry and telephone services have been resumed. Only small detachments of Allied soldiers are visible in the streets and about the public buildings.

The French and the Italians had only small forces here a[illegible] far less active than the British troops which are excellently organized and took the city over with the precision of clockwork.

Among the prisoners taken were Essad Pasha, Nationalist leader and Mohammed Pasha, who was Minister of War just before the great war opened and has been the chief organizer of propaganda for an American mandate.

WOULD SOW DISSENSION

The Turkish newspapers and the Foreign Offices are so heavily censored that it is impossible to obtain the authoritative Turkish view of the situation. Turks with whom the correspondent spoke, however, were free in declaring their opinion that Constantinople was about to repeat the history of Cairo that the British would remain in Turkey as they have done in Egypt. Meanwhile the French and English newspapers here are featuring Paris and London despatches which allege the expectancy that the United States will assume responsibility in restoring order in the near East.

The general opinion expressed among Americans here in touch with near East conditions is that the occupation was prompted more largely by political than human motives.

Beaten To Death By Schoolmates

Barefooted and in Tatters, He Was Cleverest in Class

PUEBLO, Colo., March 19—A child's tragic life ended in murder when Ted Kuykendall, 11 years old, known among his juvenile friends as "Poverty" died in agony from the injuries he had received last Friday at the hands of five boys who literally kicked and beat him to death.

District Attorney Charles Hughes is in possession of affidavits penned by the dying boy's hand, which he declares will fix the guilt upon the assailants, all of whom, he says, are under 16.

Little Ted lived with his grandfather and his mother, a laundress, in a forsaken old house.

The family was in such dire straits that even in Winter the lad had to go to school barefooted. His clothing was always in tatters. He was, however, the smartest pupil in the class at school, and from this, his own brightness, grew the jealousy of other students, which is believed to have caused his death.

Thursday morning, while on his way to school, a number of boys are said to have accosted Ted, calling him 'Poverty' and making fun of his appearance. The youngster could stand the heartless insults no longer; he challenged two of his tormentors, much older than himself and gave them a real thrashing.

Friday, on his way home shortly after dusk, five children set upon him and beat him unmercifully. He defended himself as best he could, but was knocked down. Then the assailants jumped upon the prostrate body with their heels, thrashing his abdomen and frightfully bruising his head. He was left in the shadows to breathe his last.

Neighbors discovered the child, carried him home, where he died.

Sports

HOCKEY.

WIN FOR TIGERS.

A very interesting game took place at the Arena last night when the Tigers defeated the Midgets by 4 to 2. Then the Tigers trimmed the Beavers by 11 to 1. The Tigers have a good team and will play again Saturday from 7 to 8.

The line-up:

Tigers—Goal, C. Lloyd; defence, L. Hunter, R. Stork; wings, D. Smith, J. Semark; centre, E. Cook.

Midgets—Goal, R. Arnott; defence, C. Arnott, R. Arnott; wings, J. Arnott, Smith; centre, B. Scott.

Try Magnesia For Stomach Trouble

It Neutralizes Stomach Acidity, Prevents Food Fermentation, Sour, Gassy Stomach and Acid Indigestion.

Doubtless, if you are a sufferer from indigestion, you have already tried pepsin, bismuth, soda charcoal, drugs and various digestive aids and you know these things will not cure your trouble—in some cases do not even give relief.

But before giving up hope and deciding you are a chronic dyspeptic just try the effect of a little bisurated magnesia—not the ordinary commercial carbonate, citrate, oxide or milk but the pure bisurated magnesia which you can obtain from practically any druggist in either powdered or tablet form. Take a teaspoonful of the powder or two compressed tablets with a little water after your next meal, and see what a difference this makes. It will instantly neutralize the dangerous harmful acid in your stomach which now causes your food to ferment and sour, making gas, wind, flatulence, heartburn and the bloated or heavy lumpy feeling that seems to follow most everything you eat.

..You will find that, provided you take a little bisurated magnesia immediately after a meal, you can eat almost anything, and enjoy it without any danger of pain or discomfort to follow and moreover, the continued use of the bisurated magnesia cannot injure the stomach in any way so long as there are any symptoms of acid indigestion.

$16,250 FOR ORIGINAL OF POEM BY SHELLEY

New York, March 19—The original manuscript of Percy Bysshe Shelley's poem, "Julian and Madalo' was sold for $16,250 to Ernest D. North at an auction of the library of the late Harry B. Forman yesterday. The original manuscript of "The Spectacles," by Edgar Allan Poe brought $9,100 at the same sale.

Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.50; six months pro rata. All above subscriptions payable in advance or an additional amount of 20 per cent. will be added.

SIR SAM HIMSELF AGAIN.

Sir Sam is himself again, even though he is in hospital and the rejuvenation of five million red corpuscles in his blood does not take place with the wonted celerity of Hughesian mobility. The old warrior has revealed himself as the "compleat" letter writter and the Toronto World recently published correspondence between Sir Sam and the General Superintendent of the Methodist Church in Canada. Dr. Chown is also—or was—Colonel Chown, thanks to Sir Sam's regard for the church militant when he was directing the war. Dr. and Colonel Chown is grateful for what Sir Sam has done for him to this day, which is more than can be said for some whom Sir Sam exalted above their fellows. As becomes the spiritual father of all good Methodists, of whom Sir Sam is one, Dr. Chown, who is just out of hospital, says a word in season to the first of all the wounded veterans of the great war:—

> "I have found, when facing the ultimate issues of life, that there was nothing so needful or so true as the old gospel of forgiveness through repentance toward God and faith in the Lord Jesus Christ."

Sir Sam makes suitable reply—it is the deep of Wellesley Hospital responding to the height of the Book Room. Read:—

> "I heartily agree with you in your remark concerning the old gospel of forgiveness through repentance towards God and faith in the Lord Jesus Christ. But if I remember aright, 'repentance on the part of the sinner must precede forgiveness.' I do not feel that I am called upon to forgive an unrepentant sinner."

It will be observed, firstly, that the divine wrote of repentance toward God, and secondly, that the general replied concerning repentance toward Sir Sam Hughes. Perhaps he is thinking of another sick man, Sir Robert Borden, with side glances towards Sir George Perley and Sir Thomas White, who, during two troublesome years, were set to try his faith, even unto patience, which never had a chance to produce her perfect work. Sir Sam is always as ready to forgive as others are to repent. The announcement from his sick room, therefore, is a sign of grace abounding, in the opinion of the Toronto World.

CANADIAN OPPORTUNITIES IN THE NEAR EAST.

"The earliest of all trade routes with which the first peoples who lived in Europe were concerned was that which stretched from Bagdad to Damascus and Aleppo and to Constantinople, which became the meeting place of the East and West, the most cosmopolitan city of the early ages and the one from which the highest culture in the world at that time radiated for centuries," says a recent number of The American.

"Asia Minor and Palestine have held greater places in the economic and religious history of the world than any other of its parts. From the year 330, when Constantine, with remarkable foresight, established the city of Constantinople on the site of the ancient town of Byzantum and made it the capital of the Roman empire, to 1543, Constantinople was truly called the centre of the world.

"Whatever disposition is made of Turkey, Armenia, Anatolia, Syria, Palestine and the other hazy nations of the Levant, it is certain that they will be opened to the trade and commerce of the world and will never again be shut in through religious fanaticism and Asiatic brutality as they have been since the Turk obtained his ascendancy in Asia Minor in 1453. In the final peace settlement the Turk may retain considerable of his former empire, but it will be on condition that he open his territory to the trade of the world on terms that give a fair field to all nations."

Other parts of the Near East that are certain to develop as markets are the lands bordering on the Black Sea and Greece. Writing in the Weekly Bulletin of the Canadian Trade and Commerce department, W. McL. Clarke, Canadian Government Trade Commissioner, who was then on an official visit to Athens, said:

"Greece has requirements which can be met in Canada, but in our endeavor to get Greek trade our manufacturers must not lose sight of the fact that Greece in one sense is a part and not the whole. In other words, without minimizing the needs of this market, we must emphasize the greater and similar needs of the Levant and treat the Near East in some respects as a composite whole. That territory which stretches from the Danube down to the Mediterranean and Northern Africa and from Italy to the Caspian Sea down to the Persian Gulf—the real Levant—buys annually $500,000,000 worth of goods, and it is this territory as a whole I believe which will furnish the Canadian manufacturer with a large market, and they will do well to keep this larger horizon in view."

CRISP COMMENT

Life in the United States is one reservation after another.—Toronto Globe.

× × ×

It is enough for a man to understand his own business, and not to interfere with other people's.—Charles Dickens.

× × ×

The Brockville Recorder professes to understand why some people in Canada want a navy—they are already on the water wagon.

× × ×

The motorization of the fire department has been dropped for another year at least. Had the matter been pressed, the ratepayers would have snowed it under.—Kingston Whig.

× × ×

Herr Noske may be the strong man of Germany but we incline to pick the Hohenzollern prince in the Berlin restaurant who held the limburger cheese till it was time to throw it at the French commissioner, says the Ottawa Journal.

× × ×

The London Daily Mail's editorial to the effect that "someone had blundered" in the battle of Jutland is freely quoted in some American papers as a life-saver while publishing Admiral Sims' evidence as to the mismanagement of the American Navy Department.

× × ×

The organization in Belleville of a Society for the Prevention of Cruelty to Animals is timely. Too little thought is given to the comfort or feelings of dumb brutes and participation in the splendid work of the society should be a pleasure and eagerly sought after. One of the chief movers for the organization of the local society was Miss Falkiner, who accepted the position of Vice-President, and she is to be congratulated for her successful efforts in promoting a good work.

OTHER VIEWS

The British Way,
(Winnipeg Free Press)

British Labor, by an overwhelming majority, has killed direct action and given a black eye to the old German theory that might is right.

Pounding Friendship In
(Toronto Mail and Empire)

Toronto University is doing its bit to promote friendship between Canada and the United States by sending a picked team of boxers to the University of Pennsylvania with the fraternal object of denting the frontispieces of sporting representatives of the later learned body.

What a Moral
(Sioux City Tribune)

A Maine girl has been left $100,000 by a newspaper man to whom she was kind. Moral: be kind to newspaper men.

Dictatorship in England
(Victoria Colonist)

From the way elections are going in England the assumption seems to be reasonable that the fall of the Union Government is not so imminent as press despatches, doubtless for a purpose, have predicted. The fact appears to be that the English people are no fonder of dictators now than they ever were in their history. A dictatorial attitude on the part of newspapers is just as objectionable as it ever has been on the part of individuals.

The Poet's Corner

THE DEATH OF WINTER

The pussy willows show their silver tips,
 With pearl-crowned mace they herald Springtime's birth;
The swelling rivers loud a requiem chant,
 Winter is dead no more he grips the earth.

The black clad crows proclaim in loud, harsh notes,
 They have returned in time to see the pall
Of shrunken snow dissolve and ebb away,
 Then welcome Spring as goddess over all.

—Christina W. Partridge.
Brockville, March 13.

A Laugh or Two

His Mistake

Weary and worn and sad, the young man, who was prematurely grey crawled into the registrar's office.

"Are you quite sure," he asked desperately, "that that was a marriage licence you gave me three months' ago and not a dog's license?"

"Quite—quite. Of course!" said the registrar sharply. "Why do you ask?"

"Because I've led a dog's life ever since," said the weary one, as he turned sadly away.

The First Essential

"When I thought running a house was simple, I made a big mistake," sighed the young wife.

"Practice will teach you a lot," said her older friend. "Of course, there are books you know. Have you a good cookery-book?"

"Well, I have several," replied the beginner in the domestic art, "but none of them gives any information on the most important feature in cooking."

"What is that? Perhaps I can help you."

"How to get a cook and keep one."

Back-Ache

Limber Up With Penetrating Hamlin's Wizard Oil

A harmless and effective preparation to relieve the pains of Rheumatism, Sciatica, Lame Back and Lumbago is Hamlin's Wizard Oil. It penetrates quickly, drives out soreness, and limbers up stiff aching joints and muscles.

You have no idea how useful it will be found in cases of every day ailment or mishap, when there is need of an immediate healing, antiseptic application, as in cases of sprains, bruises, cuts, burns, bites and stings. Get it from druggists for 30 cents. If not satisfied return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30 cents. Guaranteed.

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER I

To dwellers in a wood, almost every species of tree has its voice as well as its feature. At the passing of the breeze the fir-trees sob and moan no less distinctly than they rock; the holly whistles as it battles with itself; the ash hisses amid its quiverings; the beech rustles while its flat-boughs rise and fall. And winter, which modifies the note of such trees as shed their leaves does not destroy its individuality.

On a cold and starry Christmas eve less than a generation ago, a man was passing along a lane in the darkness of a plantation that whispered thus distinctively to his intelligence. All the evidences of his nature were those afforded by the spirit of his footsteps, which succeeded each other lightly and quickly and by the liveliness of his voice as he sung in a rural cadence:

"With the rose and the lily
And the daffadowndilly
The lads and the lasses a-sheep-shearing go."

The lonely lane he was following connected the hamlets of Mellstock and Lewgate and his eyes, casually glancing upward, the silver and black-stemmed birches, with their characteristic tufts, the pale-gray boughs of oak the dark-creviced elm, all appeared now as black and flat outlines upon the sky, wherein the white stars twinkled so vehemently that their flickering seemed like the flapping of wings. Within the woody pass, at a level anything lower than the horizon, all was dark as the grave. The copsewood forming the sides of the bower interlaced its branches so densely, even at this season of the year, that the draught from the north-east flew along the channel with scarcely an interruption from lateral breezes.

At the termination of the wood, the white surface of the lane revealed itself between the dark hedge-rows, like a ribbon jagged at the edges; the irregularity being caused by temporary accumulations of leaves extending from the ditch on either side.

The song (many times interrupted by flitting thoughts which took the place of several bars and resumed at a point it would have reached had its continuity been unbroken) now received a more palpable check, in the shape of "Ho-i-i-i-i-i!" from the dark part of the lane in the rear of the singer, who had just emerged from the trees.

"Ho-i-i-i-i-i" he nswered with unconcern, stopping and looking round, though with no idea of seeing anything more than imagination pictured.

"Is that thee, young Dick Dewy?" came from the darkness.

"Ay, sure, Michael Mail!"

"Then why not stop for fellow-craters—going to thy own father's house too, as we be, and knowen us so well?"

Young Dick Dewy faced about and continued his tune in an under-whistle implying that the business of his mouth could not be checked at a moment's notice by the placid emotion of friendship.

Having escaped both trees and hedge he could now be distinctly seen rising against the sky, his profile appearing on the light background like the portrait of a gentleman in black cardboard. It assumed the form of a low-crowned hat, an ordinary-shaped nose an ordinary chin, an ordinary neck, and ordinary shoulders. What he consisted of urther down, was invisible from lack of sky low enough to picture him on.

Shuffling, halting, irregular footsteps of various kinds were now heard coming up the hill from the dark interior of the grove and presently there emerged, severally, five men of different ages and gaits, all of them working villagers of the parish of Mellstock. They too, had lost their rotundity with the daylight and advanced against the sky in flat outlines, like some procession in Assyrian or Egyptia incised work. They represented the chief portion of Mellstock choir.

The first was a bowed and bent man who carried a fiddle under his arm, and walked as if engaged in studying some subject connected with the surface of the road. He was Michael Mail, the man who had hallooed to Dick.

The next was Mr. Robert Penny, boot and shoe-maker, a little man, who though rather round-shouldered, walked as if that fact had not come to his own knowledge, moving on with his back very hollow and his face fixed on the north quarter of the heavens before him, so that his lower waistcoat buttons came first, and then the remainder of his figure. His features were invisible, yet when he occasionally looked round, two faint moons of light gleamed for an instant from the precincts of his eyes, denoting that he wore spectacles of a circular form.

The third was Elias Spinks, who walked perpendicularly and dramatically. The fourth outilne was that of Joseph Bowman, who had now no distinctive appearance beyond that of a human being. Finally came a weak, lath-like form, trotting and stumbling along with one shoulder forward and his head inclined to the left, his arms dangling nervelessly in the wind as if they were empty sleeves. This was Thomas Leaf.

"Where be the boys?" said Dick to this somewhat indifferently matched assembly.

The eldest of the group, Michael Mail, cleared his throat from a great depth.

"We told them to keep back at home for a time, thinken they wouldn't be wanted yet awhile and we could choose the tuens, and so on."

"Father and Grandfather William have expected ye a little sooner. I have just been for a run to warm my feet."

"To be sure father did! To be sure 'a did expect us—to taste the little barrel beyond compare that he's going to tap."

"O'd rabbit it all! Never heard a word of it!" said Mr. Penny, small gleams of delight appearing upon his spectacle-glasses, Dick meanwhile singing parenthetically:

"The lads and the lasses a-sheep-shearing go."

"Neighbors, there's time enough to drink a sight of drink now afore bed-time," said Mail.

"Trew, trew—time enough to get as drunk as lords," replied Bowman cheerfully.

This argument being convincing, they all advanced between the varying hedges and the trees dotting them here and there, kicking their toes occasionally among the crumped leaves. Soon appeared glimmering indications of the few cottages forming the small hamlet of Lewgate, for which they were bound, while the faint sound of church-bells ringing a Christmas peal could be heard floating over upon the breeze from the direction of Mintfield parish on the other side of the hills. A little wicket admitted them to a garden, and they proceeded up the path to Dick's house.

CHAPTER II

It was a small, low cottage, with a thatched pyramidal roof and having dormer-windows breaking up into the eaves, a single chimney standing in the very midst. The window-shutters were not yet closed and the fire and candle-light within radiated forth upon the bushels of variegated box and thick laurestinus growing in a throng outside, and upon the bare boughs of several codlin-trees hanging above in various distorted shapes, the result of early training as espaliers, combined with careless climbing into their boughs in later years. The walls of the dwelling were for the most part covered with creepers, though these were rather beaten back from the door way—a feature which was worn and scratched by much passing in and out, giving it by day the appearance of an old key-hole. Light streamed through the crecks and joints of a wooden shed at the end of the cottage, a sight which nourished a fancy that the purpose of the erection must be rather to veil bright attractions than to shelter unsightly necessaries. The noise of a beetle and wedges and the splintering of wood was periodically heard from this direction; and at the other end of the house a steady, regular munching and the occasional scurr of a rope betokened a stable, and horses feeding within it.

The choir stamped severally on the door-stone to shake from their boots any fragment of dirt or leaf adhering thereto, then entered the house and looked around to survey condition of things. Through the open door-way of a small inner room on the left hand, of a character between pantry and cellar, was Dick's father, Reuben, by vocation a "tanter," or irregular carrier. He was a stout, florid man, about forty years of age, who surveyed people up and down when first making their acquaintance, and generally smiled at the horizon or other distant object during conversations with friends, walking about with a steady sway and turning out his hogshead that stood in the pantry ready horsed for the process of broaching, he did not take the trouble to turn or raise his eyes at the entry of his visitors well knowing by their footsteps that they were the expected old acquaintance.

The main room, on the right was decked with bunches of holly and other evergreens and from the middle of the huge beam bisecting the ceiling hung the mistletoe, of a size out of all proportion to the room and extending so low that it became necessary for a full-grown person to walk round it in passing or run the risk of entangling his hair. This apartment contained Mrs. Dewy, the tanter's wife, and the four remaining children, Susan, Jim, Bessy and Charley, graduating uniformly, though at wide stages, from the age of sixteen to that of four years—the eldest of the series being separated from Dick, the first born, by a nearly equal interval.

Some circumstnce having apparently caused much grief to Charley just previous to the entry of the choir, he had absently taken down a looking glass and was holding it before his face to see how the human countenance appeared when engaged in crying which survey led him to pause at the various points in each wail that were more than ordinarily striking, for a more thorough appreciation of the general effect. Bessy was leaning against a chair, and glancing under the plaits about the waist of the plaid frock she wore, to notice the original unfaded pattern of the material as there preserved, her face bearing an expression of regret that the rightness had passed away from the visible portions. Mrs Dewy sat in a brown settle by the side of the glowing wood fire—so glowing that with a doubting compression of the lips she would now and then rise and put her hand upon the hams and flitches of bacon lining the chimney, to reassure herself that they were not being broiled instead of smoked—a misfortune that had been known to happen at Christmas-time.

"Halloo," my sonies, here you be, then!" said Reuben Dewy at length, standing up and blowing forth a vehement gust of breath. "How the blood do puff up in anybody's head, to be sure, stooping like that! I was just coming athwart to hunt ye out." He then carefully began to wind a strip of brown paper round a brass tap he held in his hand. "This in the cask here is a drop o' the right sort" (tapping the cask); "'tis a real drop o' cordial from the best picked apples—Horner's and Cadbury's—you d'mind the sort, Michael?" (Michael nodded) "And there's a sprinkling of they that grow down by the orchard-rails—streaked ones—rail apples we d' call 'em, as 'tis by the rails they grow and not knowing the right name. The water-cider from 'em is as good as most people's best cider is."

"Ay, and of the same make, too," said Bowman. "It rained when we wrung it out, and the water got into it, folk will say. But 'tis on'y an excuse. Water-cider is too common among us."

"Yes, yes: too common it is!" said Spinks, with an inward sigh, while his eyes seemed to be looking at the world in an abstract form rather than at the scene before him. "Such poor liquor makes a man's throat feel very melancholy—and is a disgrace to the name of stimmilent."

"Come in, come in, and draw up to the fire; never mind your shoes," said Mrs. Dewy, seeing that all except Dick had paused to wipe them upon the door-mat. "I be glad that you've stepped up-along at last; and, Susan, you run across to Gammer Caytes's and see if you can borrow some larger candles than these fourteens. Tommy Leaf, don't ye be afeard! Come and sit here in the settle."

This was addressed to the young man before mentioned, consisting chiefly of a human skeleton and a smock-frock, and who was very awkward in his movements, apparently on account of having grown so very fast that before he had had time to get used to his height he was higher.

"Hee—hee—ay!" replied Leaf, letting his mouth continue to smile for some time after his mind had done smiling, so that his teeth remained in view as the most conspicuous members of his body.

"Here, Mr. Penny," continued Mrs. Dewy, "you sit in this chair. And how is your daughter, Mrs. Brownjohn?"

"Well, I suppose I must say pretty fair," adjusting his spectacles a quarter of an inch to the right. "But she'll be worse before she's better, 'a b'lieve."

"Indeed—poor soul! And how many will that make in all, four or five?"

"Five; they've buried three. Yes, five; and she no more than a maid yet. However, 'twas to be, and none can gain-say it."

Mrs. Dewy resigned Mr. Penny. "Wonder where your grandfather James is?" she inquired of one of the children. "He said he'd drop in tonight."

"Out in the fuel house with Grandfather William," said Jimmy.

"Now let's see what we can do," was heard spoken about this time by the tanter in a private voice to the barrel, beside which he had again established himself! lllllalnllllllewllld tablished himself and was stooping to cut away the cork.

"Reuben, don't make such a mess o' tapping that barrel as is mostly made in this house," Mrs. Dewy cried from the fire-place. "I'd tap a hundred without wasting more than you do in one. Such a squizzling and squirting job as 'tis in your hands! There, he always was such a clumsy man indoors."

"Ay, ay; I know you'd tap a hundred, Ann—know you would; two hundred, perhaps. But I can't promise. This is an old cask and the wood's rotted away about the tap-hole. The hubird of a feller, Sam Lawson—that ever I should call'n such, now he's dead and gone, pore old heart!—took me in completely upon the feat of buying this cask. 'Reub,' says he—'a always used to call me plain Reub, pore old heart—'Reub,' says he, 'that there cask, Reub, is as good as new; yes, as good as new. 'Tis a wine hogshead; the best port-wine in the commonwealth have been in that there cask, and you shall have en for ten shillens, Reub'—'a said, says he—'he's worth twenty, ay, five-and-twenty, if he's worth one; and an iron hoop or two put around en among the wood ones will make en worth thirty shillens of any man's money if—'"

"I think I should have used the eyes that Providence gave me to use afore I paid any ten shillens for a jim-crack wine-barrel; a saint is sinner enough not to be cheated. But 'tis like all your family were, so easy to be deceived."

"That's as true as gospel of this member," said Reuben.

Mrs. Dewy began a smile at the answer, then altering her lips and refolding them so that it was not a smile, commenced smoothing little Bessy's hair; the tanter having meanwhile suddenly become oblivious to conversation, occupying himself in a deliberate cutting and arrangement of some more brown paper for the broaching operation.

TO BE CONTINUED

A Witness Testifies

SHE WAS WEAK AND NERVOUS

Brampton, Ont.:—"About five years ago I began suffering with woman's trouble. I became all run-down weak and nervous. I was so completely down and out that I could not do anything, could scarcely dress myself. I had the doctor and took other medicine but without getting better until I began taking Dr. Pierce's Favorite Prescription and his Golden Medical Discovery. It was only necessary for me to take about three bottles when I was completely restored to health and strength and I have been in better health than I ever was before. I have had no use for medicine since, but should I need it I would take these same remedies, knowing them to be excellent."—MRS. HARRY KNIGHT, Jessie St.

OWES HER LIFE

Ft. Saskatchewan, Alta.:—"It is with great pleasure that I write the following and I hope it will help the many sufferers who do not know the good Dr. Pierce's medicines would do them if they would try them.

"In regard to my condition, I will say that I suffered from childhood from a very weak back; I had the misfortune of having spinal meningitis when I was one year old and until I was 13 I did not see a well day, but a very kind lady told my mother about Dr. Pierce's Favorite Prescription and she got a bottle to try it. It did me so much good that mother got me 6 bottles. Recently I happened with a car accident and hurt my back badly. My doctor gave me up and said I would not live, but I still stick to Dr. Pierce's Favorite Prescription and to my surprise in three weeks I was out of bed and better. I owe my life to it and nothing else, and shall never be without it.

"If any sufferer wishes to write I will answer with pleasure."—MRS. NOEL BARTHOLOMEW.

HOW CAN WE DO IT?

We pay more for wheat, more for labor, more for taxes - but Shredded Wheat sells at about the same old price - very little advance on account of the war. How can we do it? We can do it because the volume of sales now reaches many millions of Biscuits per day. Considering its real food value **Shredded Wheat** is the cheapest food in the world today. It is 100 per cent whole wheat in a digestible form. Two Biscuits, with hot milk, make a nourishing meal for a few cents.

SOME REASONS WHY A NEW HIGH SCHOOL IS NEEDED

Written By Arthur McGie

Chairman Belleville Board of Education

SOME REASONS

To the Editor of The Intelligencer:

Dear Sir:—The present building was absolete years ago, and much money has been wasted by trying to repair and rearrange the interior and equipment. Many may not be aware that the Government grant was withheld some years ago, and was only continued after a deputation visited Toronto and promised to build a new school at earliest possible time. About that time the present new Public Schools had to be built and the Department of Education accepted the explanations then made. Then the war came and it was not deemed good policy to build during that time. During the last few visits of the Inspector, the High School Committee met with him and discussed the High School requirements. The Inspector inferned the Committee there was only one poorer High School Building in his inspectorate than the one in Belleville. The Committee promised that as soon as the war was ended the Board would start at once to erect a school and promised to have it completed in two years after the war ended. The Board of Education are only endeavoring now to carry out the promises given to the Department of Education from time to time.

OVERCROWDED

The lower forms are always overcrowded. There is no ventilation! Light is poor and electric light has to be used in class rooms if the weather is the least bit dell, consequently pupils' and teachers' eyes suffer. A few years ago a large boiler and heating plant was installed at considerable expense to endeavor to heat the building, but, it is impossible to do so and in severe weather the temperature cannot be kept up to anything approaching comfort. During the months of December, January and February the temperature of the present High School Building cannot be maintained as required in school buildings. This cannot be remedied as the building is old and the wind blows in around windows and doors. Therefore, there is a great less as regards feel.

NO VENTILATION

There is no ventilation at present. When the heating system was changed from hot air to steam, the ventilating system was destroyed. The building is cold, poorly lighted and ventilated. It is therefore detrimental to the health of the pupils and the best work cannot be expected from pupils or teachers under present conditions. This is the building pupils have to enter after passing through our splendid public and separate schools. The Federal and Provincial Governments are doing their utmost to improve our educational system and encourage School Boards to secure better buildings and equipments because it is realized that a sound education is a necessity, and we as a people should be willing to do our part and see that every child has the opportunity. With our present building and equipment we are losing annually about $1100 in grants which we might receive with a proper building. The Government may at any time withdraw our present grants, which would mean an annual loss of $2457. The Government at the present time is prepared to pay 50% of the cost of construction of that portion of the building used for Industrial and Technical Education, and 25% of the cost of Assembly Hall, Gymnasium, Library and Laboratories used in common by the Industrial and Technical pupils and Collegiate pupils. This would mean a grant from $75,000 to $100,000 for building. They are prepared to pay from 50% to 75% of the annual salaries of the teachers engaged in teaching Industrial and Technical Classes which would probably amount to four or five thousand dollars a year.

SCHOOL AGE EXTENDED

Under the new Adolescent Act of 1919 all towns and cities of 5,000 population and over must provide school accommodation for all young people under 18 years of age, unless required to remain at home to assist in home duties, or to work to help maintain himself or persons dependent on him, or that have passed the Junior Matriculation examination. Every person in such localities must attend school full time until 18 years of age. If, after investigation by the School Attendance Office, any young person is permitted to assist in the work of his own maintenance, he must attend school at least 400 hours each year. Under very similar conditions, all young people between the ages of 16 and 18 are required to attend school for 320 hours each year. This will mean for our city that we will have to provide for above 400 young people for which at the present time there is no school accommodation.

GOVERNMENT REQUIREMENTS

I might state that the Government requires that Industrial, Technical, Commercial and Agricultural Departments have to be provided in all High Schools built in towns or cities of 5,000 and over. This is why the Board of Education at a regular meeting voted unanimously to petition the City Council to vote a grant of $250,000 for a new building. Some citizens now ask why not put it off for the future. Can the Board of Education honestly do so and do their duty to the pupils and also keep good faith with the Department of Education?

DEBENTURES ISSUED 1922

Should the City Council favor the request of the Board for this sum, the 1920 assessment would not be affected, as a contract could not be let before 1921 and debentures would not be issued before 1922 at earliest as much time and thought would have to be given to plans in order that all requirements should be fully met.

A. McGIE

We Fit Your Feet.

HOLMES & MURDOFF

MR. LINDSAY CRAWFORD MAKES STRANGE SPEECH

New York, March 19—Lindsay Crawford, of Toronto, figured prominently in the St. Patrick's Day celebration of the supporters of the "Irish Republic" here. With President de Valera he was among the guests of honor at the Queen's Borough St. Patrick's Society dinner. According to reports printed in the papers, he contributed a speech which contained several surprising statements, and was given a reception second only to that of De Valera.

Accordin gto the New York Times, the diners loudly applauded when Mr. Crawford asserted that Canadians are also talking of a republic. The problem for Ireland, Canada, Australia and South Africa, Mr. Crawford added, is a problem of imperialism in the twentieth century. He said it is impossible to evolve a system by which popular opinion can fully express itself within an Empire, and unless England can find such a system she will lose all her colonies.

"IN THE PUBLIC EYE" BY Alex. Ray, Opt. D.

EYE-CAUTION IS HEALTH WISDOM
CARE OF THE EYES

EVERYONE should take exceptional care of his eyesight. At the first indication that its vigor has been impaired he should consult our optometrist who will advise conscientiously concerning its condition. If you don't need glasses we will so advise you. If you are in need of them we will give you satisfactory service.

Our Job

As the leader of a great industry, Willard is held responsible, and rightly, for storage battery improvement, for storage battery service, and for giving all necessary help and information to the great car-owning public.

To make the new Willard battery owner's task easier, in addition to our responsibility for the quality of material and workmanship, we offer to all such as properly register the new battery at a Willard Service Station, a 90-day service free of charge, with full and complete printed information on every point the owner needs to know.

The Nation-wide Willard Service Organization was established and is maintained for the car-owner's benefit, to assist him in getting a really trained service by men who know their job.

The latest of many Willard contributions to battery improvement is the Still Better Willard with Threaded Rubber Insulation—an invention which entirely does away with what was previously an almost universal battery repair expense—reinsulation.

Our one objective is the car owner's complete satisfaction, and this we pledge to those who make or sell motor cars and to the millions of men and women who drive them.

City AND Country

CIVIC COMMITTEES.

A regular fortnightly meeting of the Civic Committees will be held this evening, when matters appertaining to the city's welfare will be considered.

BACK DOORS INSECURE.

The police last night, during their rounds of inspection, found the back doors of two business places insecure.

BOARD OF EDUCATION

A regular monthly meeting of the Board of Education will be held this evening. There are several matters of importance to be considered.

ACQUITTED OF CHARGE.

N. Fluke, who was yesterday on trial before His Honor Judge Wills on a charge of appropriating to his own use a sum of money the property of Mr. Dime, of this city, was found not guilty. Mr. Carnew for Crown, and Mr. C. A. Payne for the accused.

FELL AGAINST REVOLVING SAW

Marshall Howard, son of Joseph Howard, of Crookston, was the victim of a painful accident on Tuesday last. He was assisting his father to cut wood at the home of Ernest Jones and just as they were about to shut down for dinner, he stumbled and fell against the saw, with the result that he was terribly lacerated from his knee to his shoulder, and the side of his face was also badly cut. Dr. Kindred, of Tweed, was called and it required between sixty and seventy stitches to close up the wounds, which were very deep. Had it not been for the fact that the saw was slowing down, he would have been cut in two. He is progressing favorably, and no serious results are anticipated.

NO CHANGE IN ICE SITUATION

The continued cold weather has had the effect of holding the ice in the river and in consequence there has been no change in the situation. This morning the water rose to some extent in the back yards on the west side of Front street north of the footbridge, but up to the present time no serious inconvenience has been experienced. A gang of men with two teams are still busily engaged in cutting a channel at the mouth of the river below the railway bridge. The ice from the railway bridges to the footbridge remains intact and is of considerable thickness.

AFGHAN WILD WOMEN AIRMAN'S HOODOO

What air fighting is like on the Northwest frontier of India is graphically described by Capt. O. H. Sharpe, a Canadian airman, who writes to his employer, Prof. Gauthier, of Ottawa.

The danger of landing in Afghan territory is considerably more than that of landing in France, for the reason that the letter states, as follows:

"The two tribes we are fighting are the Mahsuds and the Wajers. The country is simply a series of one mountain range after another until peaks tower 12,000 feet high. Our objective is usually about 120 miles into the country. I think it is harder on the nerves than in France, as one is almost certain to be killed if his engine fails, and in case the pilot does make some sort of a landing he falls into the hands of one of the most savage tribes in the world, who have invented a very nice assortment of tortures.

"We are each given a letter printed in their language, offering a large reward if the bearer is returned alive. If a fellow could manage to land near some place not recently bombed it might prove useful, but I do not think so otherwise. Personally I carry five grains of morphine to be used if things turn out badly. Strange to say, it is the women who do the cutting up piecemeal, etc."

NEW STAR DISCOVERED IN SAGITTARIUS AT HARVARD

Cambridge, Mass., March 19—Discovery of a new star, the sixth in the constellation Sagittarius, was announced by the Harvard College observatory. The Nova was found by Miss Woods of the observatory staff, on photographic plates taken in 1905. It does not appear on recent plates.

The sugar-saving cereal
Grape-Nuts
finds a handy place in homes where the cost of living is considered.
"There's a Reason"

Says Soldiers Should Replace Men in Power

OTTAWA, March 19.—That instead of a Parliamentary Committee being again appointed to enquire into questions of soldiers re-establishment be replaced by men who had been soldiers, was the suggestion of Mr. Mackie of Edmonton, in the House.

Mr. Mackie spoke to a resolution moved by Major Andrews of Centre Winnipeg, and seconded by Col. Beck, V. C., of Skeen and calling for the appointment of such a committee.

Major Andrews declared that the slogan of the 15 million men who had fought in the Great War was "a square deal." If the axiom "as a man sows so shall he reap" were not true today then civilization had slipped back and red anarchy only was left.

Col. Peck declared that he was not in favor of extremist demands but that he thought three questions in order, pension, re-establishment and gratuities, should again be given consideration by a committee.

Mr. Mackie believed that the chief reason why the men weren't satisfied was because Sir James Lougheed, head of department was 'Cold and Official' and not a soldier. Neither was his deputy. The resolution received the support of Col. Cooper, Capt. McGibbon, Archie McCoig, Captain Burnham and others.

When the House opened Sir George Foster laid on the table a petition received from the United Veterans' Association.

Called by Death

REV. E. A. SAUNDERSON

At Madoc on Friday last, Rev. A. E. Saunderson passed away. Deceased was born at Kingston, Ont., Feb. 2, 1835. His parents James Saunderson and Ann Hassard were of Scotch-Irish origin. He was married March 10, 1857 to Laura Jane, daughter of Dr. James Allen, a physician of Napanee. To them were born a large family of whom now are living Rev. E. G. of Montello, Wis., Mr. J. Frank at home Rev. R. A. of Minneapolis, Min., Arthur, a dentist at Grand Forks, N. Dak., Rev. Henry Hallam of Boston, Miss Emma at home, Clara, (Mrs. Max Crombie) and Mrs. James White.

Rev. Robert Saunderson of the Toronto Conference is a brother and several nephews also entered the ministry.

E. A. Saunderson was a man of strong convictions. What he believed to be his duty he was willing to make every effort to accomplish. At the age of 33 he entered the ministry of the Methodist Episcopal Church and for 33 years served faithfully his calling on many large fields where the work was unusually hard. Some of the fields which he travelled are St. Ola, Blairton, North Marmora, Bridgwater Tousdale, Marlbank, Newburg, Camnifton, Millford, Edwardsburg, Inkerman and Beachburg. On these wide fields there are many who bear testimony to his genial personality, stirling integrity and effectiveness as a preacher of righteousness. Nineteen years ago he retired from the active ministry and settled in Madoc. Mr. Saunderson took an active interest in many things that are for the public welfare. He was a life-long advocate of temperance and a prominent member of the Orange Association for many years.

MRS. SUSAN GREEN.

In the passing of Mrs. Susan Green this morning, at the residence of her daughter, Mrs. Edward Iaylor, 227 Foster Avenue, an aged lady, entered into rest. Deceased was in her 86th year and had been ill for some time. Mrs. Green was much respected by all who knew her. For many years she had been a resident of this city and vicinity. She was a member of the Baptist Church. Her husband predeceased her some years ago. Three daughters, all of whom are married, survive.

Social And Personal

Mrs. T. A. Gardiner leaves today for St. Catharines, where she will spend a few days.

Mr. B. O. Frederick of this city has returned home from Hamilton, where he attended as a delegate the Dominion Council of the Royal Templars of Temperance.

Dr. and Mrs. W. P. Redick, of Belleville, announce the marriage of their cousin, Nellie E. Roberts, to Mr. Arthur V. Clark, of Trenton, which will take place on Wednesday, April 7.

DIED

GREEN—In Belleville, March 18, 1920 Susan Green, widow of the late John Green, aged 85 years, 2 months and 18 days.

The funeral service will be held at the residence of Mr. and Mrs. E. Naylor, 227 Foster Ave., on Saturday afternoon, March 20th at 2.30 p.m. Interment in Belleville cemetery.

MISS MABEL S. DESCHANES, a popular and attractive young woman of Lewiston, Maine, is now an ardent champion of Tanlac, since she began using it a few weeks ago.

Miss Mabel S. Deschanes, a popular and attractive young woman residing at No. 7 Bartlett Street, Lewiston, Me., is now an ardent champion of Tanlac, since she began using the medicine a few weeks ago.

"I prize Tanlac above every other medicine, even, that which was prescribed for me," said Miss Deschanes in relating her experience recently. "I dislike publicity but there are so many others who, no doubt, suffer as I did, I feel that I ought to tell them about it.

"I had been a great suffered from indigestion and had been under the doctor's care for six months without relief. At the time I began taking Tanlac I was on a very rigid diet and at times could not retain food of any kind. Even cold water would cause extreme nausea. I suffered from loss of appetite, severe cramping pains after eating and extreme nervousness.

"Finally my condition got so bad I simply had to give up and go to bed until I got relief. I was unable to go down town to do my shopping and although I had been under treatment for six months, there seemed to be no relief for me. Honestly, I don't believe I would be alive now if I hadn't gotten Tanlac, for I was suffering terribly and getting worse all the time.

"Finally my sister persuaded me to try Tanlac. I improved from the very first and one bottle did me more good than the six months' treatment. Why, I actually gained four pounds weight while taking this one bottle. I have now taken four bottles and I feel just like a different person and am eating just anything I want. In fact, everything seems to agree with me perfectly. I am now able to do my shopping without becoming [illegible] in the least and am not nervous like I was.

"Tanlac is simply [illegible] cannot praise it too highly."

Tanlac is sold in Belleville by Ostrom's Drug Store and by leading druggists in every town.

Obsequies

MRS. MARY BELAIR

The funeral of the late Mrs. Mary Belair took place this morning from the residence of her son, Mr. Walter Belair, 104 Victoria Avenue. At St. Michael's Church Rev. Father Killeen conducted services. Interment took place at St. James cemetery. The bearers were Messrs. T. Collins, T. Hurley, J. Perkins, J. M. Truiasch, L. P. Hughes and F. P. Carney.

Stratford juniors have won the championship of the Northern Hockey League for the fourth consecutive year.

SISTER WILLS HIM $50,000.

Toronto, March 19.—Joe H. Seagram will receive $50,000 from the estate of his sister, Mrs. Adine Seagram Bowlby, of Kitchener, Ontario, who was killed in a motor accident in July, 1919. Mrs. Bowlby bequeathed her brother $50,000 in a will of unusual length. A codicil made in November, 1918, again reinstated the $50,000 gift. The will bequeathed $4,000 to local charities, and made numerous small gifts to many friends, among them a silver coffee pot dated 1785 to the son of Joe H. Seagram, or should he have no heirs, to those of Tom W. Seagram.

THE JOHN LEWIS COMPANY, LTD.

STOP LOOK and LISTEN
before purchasing a baking powder that may possibly contain injurious ingredients. Many food scientists claim that baking powder containing alum is unsafe for use in food. The mere fact that some brands of baking powder have the words "No Alum" on the label is not sufficient proof that they are what they are represented to be. Our chemists find a good many have "No Alum" on the outside but large quantities of it inside.

Jewelery for Easter Gifts

One may give a present at any time, to be sure, but Easter is an especially good time. It is a pretty custom, when all Nature is coming into new life, to add new life to friendship through a pretty present.

For a woman no gift quite equals jewelry from Blackburn's. Its genuine quality and beauty of design and color delight her. She is truly glad to have it. Her joy in it endures for a long time, and is greater because it came from Blackburn's.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL

BELLEVILLE, ONTARIO, SATURDAY, MARCH 20, 1920.

British Liberals and Labor Party Cannot Unite, Declares Premier

LLOYD GEORGE URGES THE ABSOLUTE NECESSITY OF COMPLETE CO-OPERATION BETWEEN THE MODERATE ELEMENTS IN ORDER TO FIGHT THE SOCIALISTS.

LONDON, March 20—Great interest centred in the meeting this morning of Premier Lloyd George and the Coalition Liberals for a discussion regarding the proposed formation of a new party by fusion with the Unionists. It was expected the Premier would make his intentions absolutely clear.

The meeting was a private one, but later it was reported that Lloyd George, in a lengthy speech, maintained the impossibility of a coalition between the Liberals and the Labor party, and urged the absolute necessity of complete co-operation between the moderate elements in order to fight the Socialists. He is said to have asserted that a large number of the members of the House of Commons, supposed to represent the labor of the country did not really do so.

The evening papers quote the Premier as declaring that the extremists were in control of the Labor party in this country and that their policy was the policy of Bolshevism. They disdained the redress of grievances and the improvement of conditions. What they sought was to destroy system, root and branch, and plant another tree. As a Liberal, Mr. Lloyd George is quoted as saying he was out to fight despotism, whether on the part of the autocracy or on the part of Trade Union officials.

The Parliamentary correspondent of the Westminster Gazette understands that Mr. Lloyd George said that he would be willing to retire and take a rest, after 15 years of strenuous service, if his party desired it.

Unfavorable Time To Market Bonds

Toronto, March 20—The City Council held a private meeting yesterday for the purpose of hearing a confidential report from Finance Commissioner Bradshaw regarding the financial situation and to determine what local improvement works already authorized but not commenced, might be laid over until next year in order to keep the tax rate within reasonable limits. It would be unfair to say the meeting was barren of results, and yet nothing was actually accomplished, for the simple reason that the aldermen could not agree upon a system of reduction that would do justice to all the wards. So it was finally decided that each member of the Council should be supplied with a detailed copy of all works authorized, after which they will decide what works may be allowed to stand. At the outset Mayor Church suggested a reduction of 75 per cent. of the whole, but found few supporters, each alderman contending that certain works he was interested in could not possibly be left undone. Ald. Burgess moved a fifty per cent cut in all wards as being the most fair and equitable. Then it was suggested that certain of the larger works recommended, like the Rosedale bridge be eliminated anl all locals gone cn with. This was opposed by Mayor Church and Controller Maguire.

Eight Per Cent. Money too Costly

Finance Commissioner Bradshaw contented himself with pointing out the absolute necessity of curtailing the capital expenditures and telling the aldermen they could make the reductions in any manner they chose. If they decided all must remain, he no doubt would be able to market the debentures, but the money obtained would cost from 6¼ per cent upwards. He stated that certain provincial and municipal loans had recently been negotiated, which in some instances cost as much as 8¼ to 9 per cent. The city could not afford to pay such a price for money, and even if it could, it would be most unwise to do so, considering that it would be necessary to raise a large amount of capital in the near future for transportation matter. This information given by the Commissioner created a profound impression upon the aldermen, but whether or not it will have a beneficial effect remains to be seen. The matter of salaries was not taken up, as it was deemed advisable to allow the Board of Control to go carefully into the recommendations of the departmental chiefs and make whatever increases that in their opinion were fair and just, having regard to the present cost of living.

Heavy Fines For Tax Defaulters

OTTAWA, March 20.—Convictions were registered in the Ottawa Police Court yesterday morning in connection with the Dominion Income War Tax Act of 1917, when Messrs. Harry Brouse, W. E. Hasley and A. A. Proulx were each fined $600 without costs.

New York funds weakened to 11½ and closed at 11 11-16.

Wall street, after a session in which general firmness was shown, sold off to some extent near the close.

Cities Claiming Share Of Fine

TORONTO, March 19—A change in the law giving police court revenue to the municipalities in which the fines are collected instead of going to the Provincial Treasury, was urged by a deputation representing cities and towns from Ottawa to Windsor and Fort William, which waited on Premier Drury, Hon. W. E. Raney, Hon. H. C. Nixon and Hon. Peter Smitn. The deputation also sought to have local option for municipal election dates and that the Government change the law so that municipal elections might be held at any time between December 1 and January 10. Another request was that commercial travellers be given the same privilege as railway men in having separate voting days. The deputation asked that the Government appoint a commission to investigate and report on the best form of municipal government. In this connection a bill will be introduced this session in which London will endeavor to get permission for government by a commission. London delegates thought it would be a model for the Provinces and were willing to have the experiment tried in London.

Liner Imperator Helpless At Sea

LONDON., March 20—The former German and now British liner, Imperator, has just completed the most sensational journey of her career. For three days the vessel was virtually helpless, with a list of 45 degrees. A number of first-class staterooms were flooded. Some, members of the crew were killed.

The Imperator left New York on March 8th. All went well until last Sunday evening when, in the course of a concert in the first class saloon, 600 passengers were thrown from their seats as the big ship dropped to a sharp list, which increased steadily. The passengers say there was no panic, however.

The cause of the trouble is not quite clear as yet, but it is known there was considerable water in the holds.

The engineer staff battled day and night with the disabled machinery, Chief Engineer Moore was the hero of the occasion, at his post continuously for 72 hours, up to his waist in water.

The Imperator was scheduled to sail for New York on the 27th, but yesterday those who had booked passage were notifed by telegraph that the sailing had been cancelled, but no explanation was given.

DISTILLERIES AND BREWERIES TO PAY BUSINESS TAX

By action of the Government the distilleries and breweries of Ontario are subject to business taxation. After the passing of the Ontario Temperance Act such manufacturing places were exempted from taxation. By the proclamation of yesterday the distilleries will be subject to a tax on 150 per cent of the assessed value of the prpoerty and the brewers to 75 per cent. of the assessed value of their property. This brings the taxation as it was previous to the passing of the O. T. A.

Act Aims At Assimilation Of Redskins

OTTAWA, March 20.—The act to amend the Indian Act, now seen for the first time in its printed form, shows provisions so sweeping that the act, if it passes, will sweep away in the course of a generation all the legal distinction now existing between Indians and those now citizens of Canada. The vital clause of the act says:

"On the report of the Superintendent-General that any Indian, male or female, over the age of twenty-one years, is fit for enfranchisement, the Governor-in-Council may by order enfranchise such Indians and from the date of such orders the provisions of the Indian Act and of any other act or law, making any distinction between the legal rights, privileges, disabilities and liabilities of Indians, and those of his Majesty's other subjects shall cease to apply to such Indian or to his or her minor unmarried children, or, in the case of a married male Indian, to the wife of such Indian and every such Indian and child and wife shall thereafter have, possess and enjoy all the legal powers, rights and privileges of his Majesty's other subjects and shall no longer be deemed to be Indians within the meaning of any laws relating to Indians."

MAY CHOOSE NEW NAME

An adult Indian enfranchised can choose his old Indian name or any other by which he wishes thereafter to be known. If he holds any land on a Reserve, letter patent will be issued to him for that land, provided that he pay to the funds of the band such amount per acre as the Superintendent-General considers to be the value of the common interests of the band in such land. Such payment shall be a charge against the share of such Indian in the funds of the band.

Upon enfranchisement each Indian will be paid his or her share of the funds to the credit of the band, including an amount determined by the Superintendent-General to be his share of the value of the common interest of the band in the interst of the Reserve or share of the principal of the annuities of the band, capitalized at 5 per cent., out of the monies provided by Parliament or otherwise available for the purpose. Non-treaty Indians and Indians not belonging to the band also get letters patent to land in a Reserve, provided they pay to the credit of the band the value of the common interest of the band in such land. When the letters patent are issued such Indians cease to have claims against any common property or funds of the band.

DIVIDE FUNDS

When a whole band, or the majority of the members of a band are enfranchised, the common land or other public property may be sold by the Superintendent-General and the proceeds of such sale placed to the credit of the funds of the band, to be divided with the exception of such sums as are considered necessary for the perpetual care and protection of any Indian cemetery or burial plot Public auction for three months is made necessary for any of this land to be sold to other than Indians.

As the new bills provide that the Superintendent may enfranchise any Indian on a report from an investigator, that such Indian is fit, and as this fitness is supposed to be based on education which is made compulsory, the disappearance of the reserves in a generation is likely. The bill provides for power to establish a Federal day school in any Indian reserve for the children and industrial or boarding schools wherever the Superintendent-General designates.

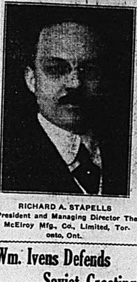
The bill also provides that religious schools already established may take the place of such schools, that Chiefs and Councils of any band will have the right of inspection, that all the schools must come up to certain standards that transportation of pupils may be provided for that children shall not be sent to schools established by Churches to which they do not belong that attendance is compulsory and that truant officers may be appointed Indian women marrying outside their race cease to be Indians within the meaning of the act, although still participating in monies distributed.

DEFEATED CANDIDATE GIVEN RAILWAY POST

Cobalt, March 20.—Alexander Montgomery, Labor-Farmer candidate in the provincial election, has been appointed acting superintendent of the Nipissing Central Railway. He succeeds Kenneth McDonald, who resigned yesterday.

The Nipissing Central is a subsidiary of the T. and N. O.

IN THE PUBLIC EYE



RICHARD A. STAPELLS
President and Managing Director The McElroy Mfg., Co., Limited, Toronto, Ont.

Wm. Ivens Defends Soviet Greeting

WINNIPEG, Man., March 20.—A defense of the Winnipeg Labor organizations and Calgary convention for sending greeting to the Bolsheviki in Russia was voiced by Wm. Ivens, one of the defendants in the strike trial, upon resuming his speech to the jury today.

"There was nothing seditious in sending greetings to the Soviets," he said. "You farmers (addressing the farmer jury) send greeting to farmers in Ontario and North Dakota, not because you know them or what they have accomplished, but because you rejoice that they are making progress toward a great ideal. Workers sent greetings to the Soviets with the same idea in mind. We rejoiced that our fellow-workers in another country had thrown off oppression."

Ivens denied that Labor had any intention of bringing about a revolution in Canada. "It would be madness to imagine Labor so mad as to attempt such a thing with all the armed forces of the nation against them," he declared. "What we want is justice so revolution won't come. There is no revolution in countries where justice prevails."

He cited Greece, Egypt, Russia and Germany as nations that had fallen because of injustice to the working classes.

Ivens attempted to quote from Hansard, but was interrupted by Justice Metcalfe. "You cannot quote from Hansard here," said the justice. "Sedition often is spoken in the Parliament of Canada under privilege."

Ivens then upheld the One Big Union, saying it was simply a step in advance of the old labor unions.

Newsprint In Enormous Demand

MONTREAL, March 20.—Some "truths regarding the great industry of advertising" were given by Jason Rogers, owner and publisher of the New York Globe, in an address on the "Relation Between the Newsprint Shortage, Advertising Agents, Advertisers and Publishers," at a special luncheon of the Montreal Publicity Association, held in the Queen's Hotel.

The shortage in freight cars is crippling all lines of business, declared Mr. Rogers. One shipper had told him that he had a thousand cars of material ready to load and he could not get a single car. He was, therefore, sending out a wire which would be in the hands of every United States newspaper, proprietor and manager tomorrow, asking that they demand cars for Canada and he believed that this would be used for carrying newsprint, and some for other things that were urgently needed, but they must bear in mind that there was a shortage of 3,000 to 4,000 cars that could not be made good owing to the lack of construction of this number of cars during the years of war.

There was an enormous demand at present for newsprint, said Mr. Rogers. The demand curtailing the advertising, save space, even if they charged more for the advertising they published. If conditions were going to go on—in January and February they used 54 per cent. more of newsprint than in the same months of the previous year—there would be no newsprint to publish papers in the Fall.

Influenza has invaded the Yukon Valley, a number of cases being reported at various points.

Communists Are Active In Britain

Special Despatch to The Intelligencer
Canadian Press Limited

LONDON, March 20.—Steps are being taken in Great Britain to form a Communist party affiliated with the third international, the ultimate aim being to create a revolutionary communist party, say The Daily Herald, Organ of Labor. It is hoped to form a party from a fusion of existing left wing organizations, the newspaper says, and in the meantime, active work for the organization of Local Communists bodies called Social Soviet is going on.

Mayor of Cork Was Murdered

Special Despatch to The Intelligencer,
Canadian Press, Limited.

LONDON, March 20.—Advices from Cork indicate that a state of excitement prevails this morning following the murder of Lord Mayor Thomas MacGurin, Sinn Feiner, of that city, by a gang of so far unidentified assassins. Mayor MacGurin was shot down without being given a chance to defend himself by six masked men who invaded his home. His murderers escaped in an automobile.

LONDON, March 20.—The Lord Mayor of Cork was shot dead at one o'clock this morning. The revolver was fired by masked persons, whose identity is unknown. They entered his residence, and after firing the shot, escaped in an automobile.

A half-dozen men knocked at the door of the home of the Lord Mayor, Thomas MacGurin. Mrs. MacGurin opened the door and the men rushed in. Some of them held her while others ran upstairs to the Mayor's bedroom. They took him to the landing and shot him in the chest. They then fled hurriedly.

Mrs. MacGurin telephoned immediately for a doctor and a priest. The Mayor died soon after the arrival of the priest.

Mayor MacGurin, who is a prominent Sinn Feiner, was interned after the Easter Rebellion.

Great Nationalist Uprising In Turkey

LONDON, March 19—A great nationalist uprising in Turkey is reported Col. Jartayar, commander of Thrace, is leading the movement. He has established an independent Government at Adrianople.

The extent of his following is not known here but it is believed the situation in Turkey is more serious than the vague facts at hand indicate.

Later this evening it was learned that the nationalist movement is spreading throughout Asia Minor.

Col. Jartayar has issued a proclamation denouncing the armistice between Turkey and the Allies, and threatening to oppose force to any Allied coercion and resistance to any peace terms not acceptable to the Turkish Nationalists.

The Evening Standard says it learns the commander of the Turkish troops in Thrace has refused to accept orders from Constantinople, has refused the armistice, and purposes to establish a Government in Adrianople.

Last Minute Telegraph Briefs

Warring Senators Refuse Peace.

WASHINGTON, March 20.—The Treaty of Versailles was formally returned to President Wilson today by the Senate after it had failed of ratification last night for the fourth time.

Turks Angry.

CONSTANTINOPLE, March 20.—The Turkish Chamber of Deputies adjourned sine die Thursday as a protest against the Allied occupation of this city and the deportation of a number of Turkish Nationalist leaders.

FATHER SENDS DAUGHTER OUT INTO STREETS TO BEG

Montreal, March 20.—Before the juvenile court were two girls under sixteen, arrested for begging. They had mastered the art of professional beggars who paint themselves to look scared and infirm, and the charge against one of them was laid by her father. Under cross-examination the father confessed that he had sent the girl out to beg and his complaint really was that she did not bring enough money home.

Two Thousand Killed In German Revolt Riot

ALLIES MAY ADVANCE CONCENTRATION OF TROOPS FARTHER INTO GERMANY IF DISORDER CONTINUES—REPORTED THAT SPARTACAN ARMY OF 100,000 MEN CAPTURED ESSEN AND DECLARED SOVIET REPUBLIC.

Special Despatch to The Intelligencer,
Canadian Press, Limited.

LONDON, March 20.—The German National Assembly will continue its session at Stuttgart until conditions at Berlin are normal, says a Stuttgart despatch to the Exchange Telegraph Co.

German Schooners Captured.

HAMBURG, March 20.—The German schooners, Schwarzburg, Regensburg and Wittlesbach were taken possession of at Kiel without bloodshed yesterday morning by sailors at the naval station after Government troops in the station had been disarmed, according to reports from Kiel received here. The officers of the cruisers were deposed and the white flag hoisted over the vessels. The captain of the Wittlesbach, the report adds, committed suicide by shooting.

Public Buildings Bombed.

LONDON, March 20.—Ebert Government troops have bombed public buildings at Leipsic in an attempt to oust German workers' forces and several hundred have been killed as a result, says a Berlin despatch to the Exchange Telegraph Co. The message says 100 were killed and 200 wounded in street fighting in Berlin on Thursday.

Soviet Republic Declared.

LONDON, March 20.—There are many indications, according to a despatch from Cologne, today, that the Allies are preparing to advance the concentrations of troops at Strassbourg and Metz further into Germany if the country does not quiet down soon. The Exchange Telegraph correspondent at Amsterdam reported that two thousand persons have been killed late in the fighting incident to the German revolutionary movement and disturbances of the past week, according to Berlin estimates.

The capture of Essen was affected on Friday by a Spartacan army of about one hundred thousand men with guns and an equipment of armored automobiles, according to advices from Aix la Chapelle. The Sparatcans proclaimed a Soviet republic there.

Farmers Isolated In Homes By Flood

Rising Water Near Chatham Assumes Serious Proportions

CHATHAM, March 20—The four-mile ice jam at Prairie Siding, four miles west of here, still remains intact and the overflowing of the River Thames at that point has developed into a serious flood. The average depth of water in the flooded area which extends many square miles, was eight feet yesterday.

Reports say the water is steadily rising. Many farmers and families are still in their homes, but living in the upper rooms, and get into boats from the bedroom windows to move from place to place. Barns and farm buildings have been washed from their foundations. Farm stock can be seen on floating straw stacks, although farmers took precaution to move most of the stock to higher land when the flood threatened.

Blasting of the ice jam is still in progress, but results are not encouraging. The river is rising in the city and the basements of some business houses are already flooded. The northern pipe line, which supplies Wallaceburg and vicinity with natural gas has burst, it is believed, near Prairie Siding and those places are without gas. Most of the gas producing wells in Dover Township are under water.

The Grand Trunk tracks at Chatham, were submerged for a quarter of a mile during last night and all trains today for Windsor and Detroit are running via Port Huron.

KING FEISAL, OF SYRIA, FRIEND OF THE ALLIES

London, March 20.—Details of the Syrian situation received in London state that Prince Feisal, the newly proclaimed King of Syria, has officially intimated that neither the independence of Syria nor his acceptance of the throne will in any way affect the cordial relations between himself and the allies. The King has declared himself in favor of an Arab State, comprising Lebanon, Mesopotamia and Palestine, over which he shall have sovereignty. He also favored an indivisible Syria which would not affect the present European administration and advocates the assistance of British and French advisers, advices received here state.

The latest despatches show that the situation in Damascus is normal, but elsewhere there are signs of much nationalistic activity, as the result of the pan-Syrian congress, which dissolved after a declaration pledging activity for an independent Syria. The country around Aleppo is much disturbed, and the despatches say it is indicated Prince Feisal has not carried the whole population with him.

The closer a man is the harder it is to touch him

Pledges of Hohenzollerns Are Declared Insufficient

DUTCH GOVERNMENT TAKEN SEVERELY TO TASK AT MEETING OF PARLIAMENT—CAN CROSS FRONTIER ANY TIME THEY WISH.

THE HAGUE, March 20—The Dutch Government was taken severely to task for what was declared to be its leniency towards the former German Emperor in a debate in the Second Chamber of Parliament, when the Premier announced a decree limiting Count Hohenzollern's movements and his pledge not to mix in politics.

Deputy Schaper, Socialists, whose questions brought about announcement of the decree, said he was dissatisfied with the Premier's answer as a mere slight increase in the guards about the former Emperor was not enough, and Count Hohenzollern's pledge not sufficient. He said there were plenty of opportunities for the friends of the exile to bring him letters, and asked why visitors to the von Bentinck Castle were not searched.

The Premier, in answer, referred to his letter to both Houses of Parliament, informing them of the assurance obtained from Count Hohenzollern that he would refrain from all political activity and do nothing which would involve Holland in any international difficult. He added that similar action with reference to the former Crown Prince had been considered.

Partiality Shown

Deputy con Ravensteyn, Communist, declared that the Government's policy of silence, had strengthened the general belief that the former Emperor came to Holland originally with Holland's silent approval. Count Hohenzollern, he said, had been permitted to live the quiet, easy life of a retired country gentleman with a motor car at his disposal, in which he could cross the frontier any time he saw fit. The same also could be said, Deputy von Ravensteyn continued, about the former Crown Prince, who could maintain communication with the reactionary party in Germany Other persons whom the Government considered undesirable were imprisoned and maltreated in concentration camps even when provided with good passports, the Deputy asserted.

Other deputies took a similar stand some wated to know how long the Hohenzollern's would be allowed to stay in Holland. The Premier said the Government long ago stated it knew nothing in advance of the former Emperor's coming and not a single person in the new Government knew of it Up to the present, the Premier declared, it has not appeared that the former Emperor or his son has participated in a single political action.

FRECKLE-FACE

March Brings Out Unsightly Spots. How to Remove Easily

The woman with tender skin dreads March because it is likely to cover her face with ugly freckles. No matter how thick her veil, the sun and winds have a strong tendency to make her freckle.

Fortunately for her peace of mind, Othine—double strength, makes it possible for even those most susceptible to freckles to keep their skin clear and white. No matter how stubborn a case of freckles you have, the double strength Othine should remove them.

Get an ounce from your druggist and banish the freckles. Money back if it fails.

◆

BALLOON TO RISE ABOVE ATMOSPHERE

New York, March 20.—Prof. David Todd, head of the Department of Astronomy at Amherst College and A Leo Stevens, chief of the United States Army Department of Aeronautics have announced a project to rise above the earth's atmosphere in a huge anchored balloon of a new type in order to conduct astronomical, meteorological and pathological observations.

The balloon already is under way at Omaha, Neb., they said, and is to have a cubic gas capacity of 140,000 feet, as well as to be equipped with an elaborate installation of scientific devices for observing and recording and special apparatus for making the great gas bag habitable at extreme altitudes.

Prof. Todd, who with Mr. Stevens will be the only occupant of the balloon when it makes its first ascent in a few months, said it is planned to go up 10,000 feet the first time, then 25,000 feet and finally from 45,000 to 50,000 feet, which would be considerably above the record altitude attained in an airplane at Dayton recently, by Major Rudolph Schroeder of the army.

"FLU" GERMAN "FAIRY" SO LIGHT AND AIRY

Budapest, March 20.—That "flu" germs are so small and light they can travel hundreds of miles on air currents is the statement of Prof. Detruss, head of the Medical Faculty of Budapest University. He calls upon meteorologists to organize a system of notifying the world during influenza epidemics of the direction of air currents, and thus aid in combatting the disease.

◆

HOLSTEIN COW JUMPED INTO WELL

Woodstock, March 20—While E. Nevill, east of Woodstock, was driving home a herd of five Holstein cows, purchased at the big Holstein sale here one of the animals, Bessie of Belleview, purchased for $285, took fright, dashed into a vacant lot, and fell down an old well and was killed.

MUSIC AND DRAMA

(What the Press Agents Say)

"THE OLD HOMESTEAD" AT GRIFFIN'S MONDAY

If you have any doubts about "The Old Homestead," being the greatest American play, ask dad. He knows. It has been a favorite for nearly two generations and is proving as popular today as it ever was. For fifteen years, William Lawrence has made the whole nation laugh and cry, with Uncle Josh.

The adventures of the New Hampshire farmer in the metropolis, his fight to keep the postman from "robbin the mail box," his being shocked at seeing a nude statue and his finding of Reuben made pictures that the theatregoer can never forget. "The Old Homestead," with a metropolitan cast, will be presented at Griffin's Monday night.

"A LADY'S NAME"

"A Lady's Name," in which Constance Talmadge and Harrison Ford are appearing at Griffin's to-night, presents a great field for the talents of the ever popular Constance Talmadge. Constance is delightful throughout the whole picture, which offers her a splendid chance to portray her versatility. Harold Lloyd is appearing in the latest of his special 2-reel comedy series, the title of his latest comedy vehicle being "From Hand to Mouth," Pathe World Wide News, "Topics of the Day" with its amusing paragraphs garnered from the press from everywhere and a new Outing Chester Travelogue of interest are also being shown on the same program.

BIG PRODUCTION AT PALACE

The beautiful 7-part photplay, "The Miracle of Love," is being shown at the Palace to-night for the last time, with Lucy Cotton and Wyndham Standing in the chief roles. It is described as a strong story of British high life written by Cosmo Hamilton. "Babies is Babies" a funny big V comedy and other attractions are also being shown on the same program.

"THE WOMAN THOU GAVEST ME"

Virtually an all-star cast presents the 8-part special picture, "The Woman Thou Gavest Me," Hall Caine's masterpiece which is to be shown at Griffin's next Tuesday and Wednesday. The role of Mary McNeill is portrayed by Katherine MacDonald, one of the most beautiful of actresses, who will be remembered for her excellent work as Lady Diana in "The Squaw Man" when it was presented in Belleville, and for her work in support of Douglas Fairbanks and William S. Hart as well as in other notable pictures. Miss MacDonald is fitted in every way for the tremendously powerful emotional part in the Caine picture, for she is not only beautiful but accomplished in the histrionic art and gifted with a splendid sense of proportion. Her rendition is declared to be a work of real art. Milton Sills seen on several occasions as leading man for Clara Kimball Young, a well known actor of the screen, is cast as Martin Conrad, the intrepid young explorer, whose love for Mary is one of the inspiring features of the theme. He is particularly excellent in the emotional moments with which the picture abounds. Theodore Roberts, the veteran character actor, is Daniel McNeill, the stern and unyielding father of Mary. He is hard as flint, proud as Lucifer—and he sacrifices his child on the altar of his selfishness. The part is a most absorbing one and is portrayed by Mr. Roberts with infinite artistry. Jack Holt who was Cash Hawkins in "The Squaw Man" plays the heavy role of Lord Raa, the scapegrace scion of a noble family. The part is a despicable one and it is a tribute to an actor's genius that he is able to interpret it in such a convincing fashion as Jack Holt has done. Fritzi Brunette, a well-known screen actress, depicts the adventuress, Alma Lier and does it with great art and a verisimilitude that is rare even in these days of finished acting. The difficult character becomes real and convincing in Miss Brunette's capable hands. A funny 2-reel Mack Sennett comedy and three other selected attractions will also be shown on the same program.

Ontario Veterans Vote In Favor Of Open Door Policy

E. D. O'Flynn, Belleville Officer, Elected President of the Association By Acclamation

PETERBORO, Ont., March 19—By a per capita vote of 18,195 to 4,326 the Ontario G.W.V.A. convention today endorsed for an "open door" policy in membership.

This means that at the Dominion convention next week, Ontario will recommend that all men who served honorably in the forces of Great Britain or her allies may become members of the association.

The election of officers, which began after this decision, saw five nominated for president as follows: E. D. O'Flynn, of Belleville; C. E. Wilson, Toronto; President C. E. Jeakins, Brantford, McKessick, Westboro, and McKessick Sudbury. All withdrew except O'Flynn, and he was elected by acclamation amid hearty cheering.

Early in the session, the convention decided to select the Ontario representative to the Dominion command on the open floor of the convention. The selected number will be a voting member of the Ontario Provincial command also, and will act as a link between the two bodies.

Again Limits Speakers

President Jeakins ruled that each speaker should have only three minutes to discuss the Soldiers' Land Settlement Board.

"The settlers are not asking the Government to nurse them," said Comrade Green, Oshawa. A suggestion that the board provide a staff of veterinary surgeons was turned down.

The Federal Government will again be approached to pension the widows and children of veterans pensioned under eighty per cent. and who die as a result of disabilities. The idea was unanimously endorsed by the convention.

"If we don't do something soon, the association is going to die," said J. Armstrong, Mount Dennis, in reference to Riverdale's motion for juvenile branches. He supported the idea. It carried.

A resolution was then put to the convention to allow all who served in the forces of Great Britain or her allies regardless of time or place of service to become members of the G. W. V. A.

"We, in Hamilton, are handicapped by the narrowness of some points of the constitution," said A. H. Peart. He advocated the "open door" membership scheme.

He strongly supported the motion and would fight for it at the Dominion convention, even if the Provincial did not favor it.

According to Peart, there were 17,000 conscripts who went to farms after being called up. These men should not be admitted to memberships.

Comrade A. W. Marshall, of Riverdale Branch, Toronto, moved an amendment that the convention endorse the result of the Provincial referendum taken three months ago.

Comrade McFeat, Ottawa, said it had not been fair to place the question of the "open door" alongside that of political action. He did not want the door opened.

"I have served on a M. S. A. tribunal and I have seen men whom I would rather see serving in jail than in the G.W.V.A.," said Haight, Toronto. "I am absolutely opposed to allowing draftees who did not leave Canada, to enter the G.W.V.A."

"I come from what is known as the German county," declared Haight, of Kitchener. He said that there were many young boys of German parents who were glad when conscription came to don the khaki. The objection of their parents was the only thing that held them back. He supported the "open door."

"If we take the door right off it's hinges," said Comrade A. E. Appleyard (Woodstock,) "the association might go wrong." On the other hand, it was possible to have the door closed too tight. He favored a medium policy. Any man, who had the spirit to want to go, even if conscripts should be admitted.

"I am ordered by my branch to place 2,000 votes against any amendment to the constitution," declared Rigby (Ottawa.) A per capita vote was taken on the question and the amendment carried.

BORDEN TO RETURN IN MAY.

Ottawa, March 20.—Latest information as to the health of Sir Robert Borden is that the Prime Minister is rapidly regaining his former health and that his recovery is being maintained. He will likely be in Ottawa about May 1. The session is expected to continue for a couple of weeks after that date.

A LONG LIFE GOOD HEALTH AND VITALITY

Is the Birthright of Men and Women

It all Depends Upon Good Blood and a Normal, Healthy Circulation

Men and women who are anaemic, thin, pallid, all run-down, dejected, no energy, no strength and no vitality, miss all the joy of life—are prone to disease, and a burden to themselves and families, and their lives are shortened by this condition.

Here is a guaranteed non-secret remedy, and if you have drifted into this condition, why not take advantage of your druggist's guarantee and give VINOL a good trial.

You will certainly find that in a very short time your appetite will improve—it will enrich your blood, quicken your circulation, and strength and vigor will be imparted to every organ and muscle in your body and the bloom of health will return and life be worth living.

The reason physicians recommend VINOL is because they know it contains iron in its most easily assimilated form, together with the tissue, flesh and strength-building elements of cod liver and beef peptones and glycerophosphates, which are recognized as the best blood and body building tonics known.

Letters To The Editor

PROVINCIAL HIGHWAY ROUTE

Belleville, March 20, 1920

To the Editor of The Intelligencer:

Dear Sir:—Kindly permit me to place myself on record with a few knocks about the Government highway We know that it is not the right place for the road, there is only one route and that is Dundas street. But the craving desire of the Bridge street residents and his worship the Mayor, thinks Bridge street is the only route But what about all the stores, garages and Queen's Hotel lying south of Bridge street? There sure must be one great object of putting the road up Bridge street, but it looks like a few big fish trying to gobble up everything in sight.

Now sir, I would say to the wise men of the East Hill they might just as well try to change the water in the Moira river as to change the regular route, which is the best, and the scenery for the tourist would be much better by the Dundas street route.

AN ADDITIONAL $60,000 FOR INGERSOLL SCHOOL

Ingersoll, March 20.—The sum of $120,000 provided by a by-law voted on several months ago, being deemed insufficient, the council has complied with the request of the Board of Education and granted an additional $60,000 for the purpose of completing the erection of the proposed central school. At the suggestion of the council petitions were hurriedly circulated yesterday among the ratepayers with the result that 349 sanctioned the granting of the additional sum, while only seven were opposed to it.

◆

HOUSEWIVES, PREPARE!

Ottawa, March 20.—Housewives of Canada are urged to begin now laying in a supply of sugar for the canning season, buying a few pounds extra each week from now on, until they have sufficient set aside to cover their canning requirements. Control over import and export licenses for sugar has been vested in the Canadian Trade Commission, which body will grant no export licenses while there is a demand in Canada for sugar. However, there is no likelihood of a reduction in prices, and it is pointed out that because of increased population, higher wages, and prohibition, the consumption of sugar has increased twenty per cent. In regard to prohibition it is stated that many people are taking to sweets as stimulants, where they formerly consumed liquor.

Ontario Veterans Vote In Favor Of Open Door Policy

E. D. O'Flynn, Belleville Officer, Elected President of the Association By Acclamation

PETERBORO, Ont., March 19—By a per capita vote of 18,195 to 4,326 the Ontario G.W.V.A. convention today endorsed for an "open door" policy in membership.

This means that at the Dominion convention next week, Ontario will recommend that all men who served honorably in the forces of Great Britain or her allies may become members of the association.

The election of officers, which began after this decision, saw five nominated for president as follows: E. D. O'Flynn, of Belleville; C. E. Wilson, Toronto; President C. E. Jeakins, Brantford, McKessick, Westboro, and McKessick Sudbury. All withdrew except O'Flynn, and he was elected by acclamation amid hearty cheering.

Early in the session, the convention decided to select the Ontario representative to the Dominion command on the open floor of the convention. The selected number will be a voting member of the Ontario Provincial command also, and will act as a link between the two bodies.

Again Limits Speakers

President Jeakins ruled that each speaker should have only three minutes to discuss the Soldiers' Land Settlement Board.

"The settlers are not asking the Government to nurse them." said Comrade Green, Oshawa. A suggestion that the board provide a staff of veterinary surgeons was turned down.

The Federal Government will again be approached to pension the widows and children of veterans pensioned under eighty per cent. and who die as a result of disabilities. The idea was unanimously endorsed by the convention.

"If we don't do something soon, the association is going to die," said J. Armstrong, Mount Dennis, in reference to Riverdale's motion for juvenile branches. He supported the idea. It carried.

A resolution was then put to the convention to allow all who served in the forces of Great Britain or her allies regardless of time or place of service to become members of the G. W. V. A.

"We, in Hamilton, are handicapped by the narrowness of some points of the constitution," said A. H. Peart. He advocated the "open door" membership scheme.

He strongly supported the motion and would fight for it at the Dominion convention, even if the Provincial did not favor it.

According to Peart, there were 17,000 conscripts who went to farms after being called up. These men should not be admitted to memberships.

Comrade A. W. Marshall, of Riverdale Branch, Toronto, moved an amendment that the convention endorse the result of the Provincial referendum taken three months ago.

Comrade McFeat, Ottawa, said it had not been fair to place the question of the "open door" alongside that of political action. He did not want the door opened.

"I have served on a M. S. A. tribunal and I have seen men whom I would rather see serving in jail than in the G.W.V.A.," said Haight, Toronto. "I am absolutely opposed to allowing draftees who did not leave Canada, to enter the G.W.V.A."

"I come from what is known as the German county," declared Haight, of Kitchener. He said that there were many young boys of German parents who were glad when conscription came to don the khaki. The objection of their parents was the only thing that held them back. He supported the "open door."

"If we take the door right off it's hinges," said Comrade A. E. Appleyard (Woodstock,) "the association might go wrong." On the other hand, it was possible to have the door closed too tight. He favored a medium policy. Any man, who had the spirit to want to go, even if conscripts should be admitted.

"I am ordered by my branch to place 2,000 votes against any amendment to the constitution," declared Rigby (Ottawa.) A per capita vote was taken on the question and the amendment carried.

G. J. CARSON OF AUGUSTA SUMMONED BY DEATH

Brockville, March 20.—The death occurred of G. John Carson, a prominent resident of Augusta, age 75. Mr. Carson had served in the County Council and as reeve of the township, and latterly was municipal treasurer.

BORDEN TO RETURN IN MAY.

Ottawa, March 20.—Latest information as to the health of Sir Robert Borden is that the Prime Minister is rapidly regaining his former health and that his recovery is being maintained. He will likely be in Ottawa about May 1. The session is expected to continue for a couple of weeks after that date.

A LONG LIFE GOOD HEALTH AND VITALITY

Is the Birthright of Men and Women

It all Depends Upon Good Blood and a Normal, Healthy Circulation

Men and women who are anaemic, thin, pallid, all run-down, dejected, no energy, no strength and no vitality, miss all the joy of life—are prone to disease, and a burden to themselves and families, and their lives are shortened by this condition.

Here is a guaranteed non-secret remedy, and if you have drifted into this condition, why not take advantage of your druggist's guarantee and give VINOL a good trial.

You will certainly find that in a very short time your appetite will improve—it will enrich your blood, quicken your circulation, and strength and vigor will be imparted to every organ and muscle in your body and the bloom of health will return and life be worth living.

The reason physicians recommend VINOL is because they know it contains iron in its most easily assimilated form, together with the tissue, flesh and strength-building elements of cod liver and beef peptones and glycerophosphates, which are recognized as the best blood and body building tonics known.

Letters To The Editor

PROVINCIAL HIGHWAY ROUTE

Belleville, March 20, 1920

To the Editor of The Intelligencer:

Dear Sir:—Kindly permit me to place myself on record with a few knocks about the Government highway. We know that it is not the right place for the road, there is only one route and that is Dundas street. But the craving desire of the Bridge street residents and his worship the Mayor, thinks Bridge street is the only route. But what about all the stores, garages and Queen's Hotel lying south of Bridge street? There sure must be one great object of putting the road up Bridge street, but it looks like a few big fish trying to gobble up everything in sight.

Now sir, I would say to the wise men of the East Hill they might just as well try to change the water in the Moira river as to change the regular route, which is the best, and the scenery for the tourist would be much better by the Dundas street route.

B. A. SANFORD

AN ADDITIONAL $60,000 FOR INGERSOLL SCHOOL

Ingersoll, March 20.—The sum of $120,000 provided by a by-law voted on several months ago, being deemed insufficient, the council has complied with the request of the Board of Education and granted an additional $60,000 for the purpose of completing the erection of the proposed central school. At the suggestion of the council petitions were hurriedly circulated yesterday among the ratepayers with the result that 349 sanctioned the granting of the additional sum, while only seven were opposed to it.

HOUSEWIVES, PREPARE!

Ottawa, March 20.—Housewives of Canada are urged to begin now laying in a supply of sugar for the canning season, buying a few pounds extra each week from now on, until they have sufficient set aside to cover their canning requirements. Control over import and export licenses for sugar has been vested in the Canadian Trade Commission, which body will grant no export licenses while there is a demand in Canada for sugar. However, there is no likelihood of a reduction in prices, and it is pointed out that because of increased population, higher wages, and prohibition, the consumption of sugar has increased twenty per cent. In regard to prohibition it is stated that many people are taking to sweets as stimulants, where they formerly consumed liquor.

Redpath's Quality

Northway GARMENTS

Cleverly Styled Spring Frocks

These charming dress modes fairly radiate newness. On some pleatings of self material are employed, and skirts are more decorative than for some time past. Tricotine and Serge are both much in favor in black, navy or brown.

Tricolette
—is one of the season's most popular fabrics for Dainty Frocks. It is so readily adaptable to gowns graceful and charming; shown in black, navy, buck and nigger, 42 inches wide, at **$6.50 per yard.**

New York Model Suits
In this collection are a few sample Suits of the very latest New York models, suits which if obtained in the usual way would cost at least twenty-five per cent. more. In sizes 16 and 18 years and 36 bust, made from excellent qualities of Serge and Tricotine, with beautiful silk linings. If you desire one of these suits you will have to act quickly, for at the prices marked they are exceptionally good values, and will not be in stock long. Prices from .... **$75.00 to $87.50**

NEW NECKWEAR
The desired touch of charm may be given to any frock by a selection from this new neckwear. The very newest styles are included at moderate prices.

A SMART VEIL
—will accent the smartness of your new Spring Hat, and here you will find a truly pleasing collection of Veils to choose from. Veiling by the yard in many patterns is also shown.

Wool Plaids
No wardrobe will be complete this Spring without a plaid skirt. The materials are here in a good variety of plaids and block checks. They are all wool and 54 inches wide. Prices **$5.00 per yard to $13.50 per skirt length.**

Ginghams
—are at he height of their popularity, and in this showing at the height of their beauty. These Ginghams are so crisp, so fresh, and so very attractive in their varied plaids, that it is a genuine pleasure to work with them. Plain Chambrays are also shown in many tones. When unusual serviceability is required prudent women choose Gingham. Prices **35c. to 75c. per yard.**

Store Closes Saturday at 6.30 p. m.

MILITARY NEWS

The 15th Regiment (A.L.I.) will be inspected by Major General V. A. S. Williams, C.M.G., General Officer commanding Military District No. 3, on Friday next, March 26th, at 7 p.m.

Members are expected to make special effort to attend this parade.

Members are reminded that they should be clean and smart as possible as appearance is one of the first impressions made by inspecting officers.

Members who have not yet drawn their uniform can do so on drill night. Company drill is now being carried out, and, as this drill is part of the programme laid down for the inspection, drill will be held every evening next week commencing on Monday, 22nd March, at 8 p.m.

The drills for next week will be at 8 p.m. Monday, Tuesday, Wednesday and Thursday, concluding with the in-

Called by Death

MRS. ELIZA HASLIP

Mrs. Eliza Haslip, widow of the late Mr. James Haslip, passed away last evening at the residence of her daughter, Mrs. G. Garrison, 21 Brown street, city. Deceased had been ill but two weeks. Mrs. Haslip was 65 years of age and was born in Hungerford Township, being a daughter of the late Mr. Wm. Harrison. All her life was spent in the city and vicinity. For a number of years she had been a member of the Methodist Church. A family of two sons and two daughters survive. The sons are William and Edward and the daughters are Mrs. G. Garrison and Mrs. J. Lafferty, all of this city. A sister, Miss Anna Harrison is living.

MARJORY A. WELLS

Marjory A. Wells, infant daughter of Mr. and Mrs. Arthur Wells of this city passed away this morning.

38 th Anniversary Of City Mission

Institution Built on Faith Thirty-Eight Years Ago Constantly Grows Stronger.

If any one wished to see a lot of bright-eyed children and happy faces they should have dropped around at the City Mission, Dundas Street, Thursday evening about 6.30, as this was the occasion of the celebration of the 38th anniversary of the mission. It began, as usual, of late years, with a free tea given to the scholars of the Sunday School. Fifty of them sat down to a most excellent tea served by the loyal teachers of the Sunday and Sewing Schools of the mission. After tea and until the program proper was begun the time was occupied in singing and chatting and visiting, and a most interesting time was spent by many of the scholars listening to short story telling by Miss Templeton, who, by the way, has proved herself many times before an adept at this most interesting occupation.

Promptly at eight o'clock Mr. F. S. Deacon was installed as chairman and a most excellent one he was. Congregational singing of that beautiful hymn, "The Church's One Foundation," and prayer and scripture reading by Rev. Mr. Wallace, constituted the opening exercises. Mr. E. A. Ridley sang a beautiful gospel solo very acceptably. The following annual reports were presented: Treasurer's, Mr. C. Elvins; Sewing School, Miss Templeton; Sunday School Secretary-Treasurer, Miss Reeves; Mothers' Meetings, Mrs. (Capt.) Smith.

Owing to the illness of Miss Peake, the Librarian, no report of the library was given.

It was quite a significant fact that in the financial part of all these reports there was a balance on hand. The mission never goes into debt. If anything is needed, and it is got, it is paid for at once—an excellent example for other religious organizations.

The address of the evening was given by Rev. Mr. Kerr, of St. Andrew's Church, who captivated the boys and girls, and the older ones as well, by his earnest, interesting and kindly remarks. His description of the Bible was very interesting and helpful to all and the behavior of the scholars during this address, as during the whole evening, was praiseworthy. After Mr. Kerr's address a solo by Mr. Ridley and the benediction by Mr. Kerr brought the 38th anniversary of the city mission to a close.

In thinking over the decision of the City Council recently to appoint a social service worker for the city at a salary of $1200 per year, it may be remembered how forty years ago Rev. Mr. and Mrs. Schuster entered this city mission work here without any stated salary and accepted whatever the Lord's people willingly contributed towards the work. It was truly a work of faith and the inscription on the tablet over the entrance to the building enforces this conviction:

"Asked of God April 16th, 1882. Received from God Dec. 30, 1882."

It must be a source of great comfort to Mrs. Schuster, now in her less active years, to be surrounded by so willing and loyal a band of helpers as those who now constitute the staff of workers in all its departments. Those who contribute to this work—and they are many—may have the satisfaction of knowing that their money is well invested.

CHARLIE CHAPLIN IN SERIOUS ROLE

Los Angeles, Ca., March 20—Domestic troubles in the family of Charlie Chaplin, which have been known to friends as having existed for several months, are soon to culminate in a suit for divorce, filed by Mrs. Chaplin, who is known in the film world as Mildred Harris.

Chaplin is said to have stated that he will file a counter-suit in the event action is taken by his wife. This is by no means the first time that the family affairs of the Chaplins have been the topic of gossip in moving picture colony here, but more importance is attached at this time than ever before.

When seen at his club, the comedian said that he had no statement to make and his attorney would not talk for him. Mrs. Chaplin said: "I have not seen Mr. Chaplin for two weeks, and he has not been living with me for several months. I am forced to conclude that he does not want to live with me. I do not want a divorce neither do I want Mr. Chaplin's money, but I must have support."

COSTS $41.45 TO KEEP FAMILY OF THREE IN TORONTO

Toronto, March 20.—City Hall employees asking the Board of Control today for a minimum wage of $30 a week, instead of $24, as at present, cited figures to show that the cost of maintenance for a man and his wife and three children totalled $2,155 a year, or $41.45 a week. They quoted statistics compiled by a Mercantile Agency to the effect that the purchasing power of the dollar had been reduced since January 1, 1914, practically to fifty cents.

Concrete Pavement For Portion Of Street

At the meeting of the various Civic Committees held last evening, the business transacted was chiefly in passing accounts. The Public Works Committee recommended that asphaltic concrete pavements be put down on a portion of Bridge Street west and Catherine streets.

G. T. R. OFFICE WIN AGAIN

At the Arena last night, the G.T.R. Apprentices went down to defeat before the G.T.R. Pen Pushers. The winners showed some pretty combination throughout the game and scored 4 goals to the Apprentices. Cook and Cannifton Jack starred for the losers while McNeal and Hurley with Baker in goal were the best for the winners. The boys from Cannifton made some sensational rushes, only to be stopped by the Ink Slingers strong defence, Savage and McKee. The line up for the winners was: Goal, Baker; defence Savage and McKee; forwards, Young, Hurley and McNeal; subs, Meagher and Mills; trainer, Moose Heffernan.

BASEBALL

G.T.R. ATHLETIC ASSO. ELECTS OFFICERS

At a meeting of the G.T.R. Athletic Association, held recently officers were elected and are again preparing for a successful season in athletics, along any line which may be prompted in Belleville.

Messrs Geo. K. Graham, H. N. Pringle and G. S. Flagler were appointed as delegates to represent the Belleville Baseball team at Peterboro on the 24th inst. The Central Ontario League meet on this date and the above gentlemen will be present in the interests of the local team.

The following are the officers of the Association for 1920:

Hon. Pres.—W. D. Robb.

Hon. Vcie-Pres.—J. D. MacMillan, N. P. North, W. H. Towner, J. E. Laporte, C. Stapleton.

Vice-Pres.—W. A. Forbes, F. A. Pinkston, Thos. Fegg, J. G. Skelcher.

Secretary—G. S. Flagler.

Asst. Sec.—A. G. Meagher.

Treasurer—R. D. Adams.

Trustees—M. P. Duff, E. Fay, C. Young and J. Miles.

Chairmen of Committees:

Grounds—R. Snell.

Printing & Advertising—F. A. Pinkston.

Motive Power Dept.—J. Miles.

Transportation Dept.—C. Stapleton.

Car Department—J. G. Skelcher.

Executive Committee representing City to Assist with Baseball—J. G. Moffatt, G. Graham, S. Robertson, C. Hanna, Mac Robertson.

FRACTURED AN ARM

Mrs. G. W. Casement residing on Church street was this morning the victim of a painful accident. While attending to her household duties she fell in such a manner as to fracture her right arm above the elbow also injuring her shoulder. The victim was taken to the hospital where the fracture was reduced.

U. S. SENATOR "TALKS TURKEY."

"Stop this demagogery against Great Britain," Senator William S. Kenyon, of Iowa, declared in a short but impassioned speech in the United States Senate, after a series of speeches by Senators Shields, of Tennessee, Owen, of Oklahoma, and Phelan, of California, in which the wrongs of Ireland, Egypt and India were held up to the Senate.

The debate was occasioned by the proposed reservation, declaring it the understanding of the Senate that self-determination would be granted Ireland and Egypt.

"I am as good a friend of the Irish as anyone else," declared Mr. Kenyon, "not only because the election is approaching, but because I admire the sterling qualities of the race. But let us have an end of this fussing at Great Britain for the purpose of gaining Irish votes." It would be an insult to the British nation for us to pass any such resolution and we don't want to insult her. These two nations have got to stand together for civilization. We don't want any disputes. Britain is doing what is the right and square thing for Ireland. "I wonder what we would think here if people were going up and down in England raising funds to establish independence and thus end American rule in the Philippines or Porto Rico, or the Virgin Islands.

"I saw the British fleet during the war, more than 1,150 splendid vessels; and I looked at it with the thought it was the first line of American defence. Then I was thrilled when that splendid Scotchman, Haig, told Britons to stand and die, and they were willing to stand and die for civilization. Go back in history to Manila Bay. At that time German plans for conquering the world had nearly been perfected, when the Germans tried to prevent Dewey from demolishing the fleet it was the British who stopped them. I wish all this demagogery could be stopped and we would let England manage her own affairs. Nothing can be gained by maligning Great Britain on the floor of the Senate."

A POLICY OF HUMBUG.

Mr. F. F. Pardee, sometime chief whip of the Laurier Liberal party, sometime Unionist conscriptionist, and now Mr. King's leading Ontario lieutenant, joins Mr. W. S. Fielding, Mr. D. D. Mackenzie and Mr. James Robb in refusing to go bail for the 1919 Liberal Free Trade platform. Addressing the Montreal Reform Club the member for East Lambton stated that in his opinion Canada must have a protective tariff for two reasons: (1) for the protection of Canadian industry, and (2) because of the need of revenue.

Thus, since the Liberal low-tariff platform of last summer was announced four of the leading Opposition parliamentarians, representing respectively Ontario, Quebec and the Maritime Provinces have renounced it; and even Mr. Ernest Lapointe, upon whom has descended the mantle of Laurier, and who is regarded as a Radical (he is spoken of as a possible ally of Mr. Crerar) has declared that he is "no Free Trader."

We are not objecting to Liberal leaders holding such fiscal views, says the Ottawa Journal. Mr. Fielding held office for fifteen years in a Protectionist Government; Mr. Pardee during the same years was chief Ministerial whip, and no one has ever justly suspected Mr. James Robb of being an ardent disciple of Cobden. These men have a right to remain Protectionists. What we object to, is the spectacle of the Opposition blowing hot and cold upon the tariff at one and the same time; the almost indecent spectacle of Mr. King and Mr. McMaster being chorused by the Globe in a chant of love for Free Trade and of hate for the profiteers, while Mr. Fielding denounces the tune as humbug, while Mr. Pardee breaks in with discord, and Mr. D. D. Mackenzie shouts to the top of his voice, "no truck or trade with the Yankees."

EFFICIENCY-EXPERT UNMITIGATED NUISANCE.

"Theoretically the system is perfect; practically it is a dismal failure," said Dr. C. Clark, dean of the Faculty of Medicine at Toronto University, in an interview when discussing the whole situation of education in the schools, especially from the standpoint of the need for special classes. "This is the age of efficiency and the efficiency expert is abroad in every hole and corner. Sometimes he is useful, at others he is an unmitigated nuisance. Certainly the time has come when his services will be useful in recasting school systems. "At all events, while the public school system is being regularly condemned, there is little real knowledge of what the trouble really is."

The trouble is that all the pupils are taught as if they were all as much alike as the bricks in the wall, says Dr. Clark. Everything is judged on the basis of the examination results. "Often the so-called nuisances are the brightest children in the class, reacting against a system that gives no proper outlet to their energies. Basing my remarks on what experience has taught—sixty per cent. of the children will measure up to the average—that is, your system is fitted to the needs of only the bare majority. Of the other forty per cent., fifteen per cent. are well above the average, capable of doing far better work than they are asked to attempt. Five per cent. are of a higher grade still."

Of the twenty per cent. that are now left, three-quarters are simply dull "normals", future "hewers of wood and drawers of water," not ever to achieve great things. They are a distinct hindrance, and keep the bright pupils marking time.

"The fifteen per cent. group of pupils above the average are made up of children who are robust, both physically and mentally, and are able to travel any reasonable pace set. It is from this group, too, we must expect to pick our leaders and successful citizens.

"Of the extra group of so-called supernormals I am not too certain—indeed this name is to me objectionable, because it is difficult to satisfy the psychiatric observer that many of these remarkable children are anything more than precocious, and doomed to early failure. Frequently, too, their physical attributes are far from satisfactory."

The so-called intelligence tests, Dr. Clarke said, are a rough and ready way of arriving at conclusions, reasonably accurate in grading the sub-normal, but fail completely when detecting the mentally diseased comes into consideration.

In conclusion, Dr. Clarke maintained that the whole system needed revision, so that individuals would receive rational treatment.

CRISP COMMENT

When the threatened dollar haircut materializes there will be a mad rush for poets' license.

The depreciation of our currency today is nothing to be compared with the slump in Confederate paper money after the Civil War. General Mullholland relates that shortly after Lee's surrender he heard two Confederate soldiers bargaining over a very ordinary looking horse. "He'll do my farm, Jim," said one. "I'll give you $20,000 for him." "No," said the other. "Give you $50,000." "No." "Give you $100,000." "Not much," replied the owner. "I just paid $120,000 to have him shod."—Boston Transcript.

In referring to the fact that women in Canada are to be granted the franchise in Dominion elections, although not having the vote in some of the provinces they may not enjoy the vote in local affairs, the Cleveland Plain Dealer says: "Women will be permitted to vote for members of Parliament, but denied the privilege of voting for constables, road supervisors, and justices of the peace." But we do not fill these offices by voting men into them. Through executive bodies we appoint men, or employ men to perform these duties.

× × ×

Marsden G. Scott, president of the International Typographical union, is a courageous stickler for conciliation and arbitration, despite the fact that his stand on the question frequently invokes the wrath of a considerable faction of the membership he represents. Following is one of his latest sayings: "The brutal and inhuman lockout is bad enough, but the ill-advised strike which pays no heed to the wives and children of the strikers is ten times worse. The man, or men, who unnecessarily brings, or bring, hunger and privation into the homes of the workers is a criminal and a coward by every moral law; a social leper and a menace to the country."

× × ×

"A Handful of Earth from the Land of My Birth," sung by the greatest portrayer of Irish characters of his day and generation on the stage, Joseph Murphy, was vividly recalled to old-time admirers of the only Joe Murphy at the presentation of "Shaun Rue," so splendidly given by St. Michael's Dramatic Club this week. Pleasant recollections lost none of their glamor with the reincarnation of Joe Murphy in Harold Barrett, the talented Belleville vocalist and amateur actor. Years vanished like magic and youth returned to many of the older members of the audience in recollections of pleasant evenings spent among the throngs who flocked to hear Joe Murphy on his periodical visits.

× × ×

A full-page advertisement in the Watertown, N.Y., Times, of March 12th, carries this heading: "20 Per Cent. Discount on Canadian Coin." It is signed by all the leading banks in the city, and declares that "due to the difference in exchange, and to the additional fact that the local channels of trade are being flooded with Canadian coin, the banking institutions of Watertown give notice that a discount of 20 per cent. will be charged on all Canadian coin presented for deposit."—As the Yanks don't seem to want our money what is the use of trying to force it on them. The Canadian dollar is worth one hundred cents in Canada and Canadian goods are worth every cent of it.

A London despatch in the Montreal Star of thirty years ago throws a strong light upon the life and character of the German Kaiser. It says: "William started on his career as a full-fledged journeyman Kaiser by announcing his desire than the French language, as a medium of diplomatic and social intercourse, should perish and that German should take its place. He would eat at no dinner where the bill of fare was called a "menu" instead of a "speisekarte," and where any dish was given a French name, yet today, when the Labor Conference was opened in Berlin, the president, Baron Berlepsch, had to speak in French, as not one in ten of the visiting delegates knows German enough to suggest that a fresh keg of beer be tapped."

× × ×

It is reported from Toronto that the Drury Government will supply automobiles for its Cabinet Ministers. Seven runabouts for the farmer ministry would seem to be pushing democracy off its feet too fast. Quite a lot of criticism was occasioned first and last over auto expenses for Ottawa ministers, but consider the hills and hollows of By-Town and the necessity of an occasional visit to Hull to study the latest wrinkles in irrigation, walking over is out of the question, and walking back might be difficult if not impossible. Seven autos in Drury Lane seems quite a mouthful and the walk from Queen's Park to the nearest help-yourself eats emporium is not very extensive unless their city boots pinch their country corns. However when cheap alcohol supplants dear gasoline, joy rides will not be so expensive.

× × ×

Kenora, Ont., is reported in the full enjoyment of fourteen wholesale liquor licenses. The Hudson Bay Company operates under one license that is said to cover the sale of $10,000 worth of liquor per day. If the scandal of fourteen liquor licenses in the Kenora district could be tied up to a Conservative Government The Globe and Star would publish the villainy of their political opponents in big headlines. Rev. Ben. H. Spence and all the other Peter the Hermits of the Dominion Alliance would run from pulpit to pulpit every Sunday preaching a crusade against the Tory protectors of pro-alcoholic iniquity in the Kenora district. But Hon. E. C. Drury and Hon. W. E. Raney never were Tories and are both GOOD MEN after the Dominion Alliance's own heart. Therefore Kenora can be inundated with the output of wholesale liquor licenses that increase and multiply and replenish the earth under the auspices of the Drury Government. The press and pulpit oracles of righteousness would howl blue murder if they could trace the responsibility for the Kenora iniquity to a Conservative source. These oracles were never silent when noise could make trouble for their political enemies. These oracles are always silent when noise would make trouble for their political friends.—Toronto Telegram.

OTHER VIEWS

Allee Same Montreal
(Cleveland Plain Dealer)

"The streets are not very bad," says the city hall authorities. It's nice to get an expert opinion on the subject and to know that we have all been mistaken about the streets.

Lest We Forget
(London Daily Chronicle)

Amid the thousand distractions and will-o'-the-wisps which confuse the international outlook today the British public must not lose sight of the basic principle that, in the century lying before us, it is indispensable for our country to preserve at its side a France that is friendly, and a France that is strong and prosperous.

The Magnitude of the Disaster
(Springfield Republican)

The magnitude of the economic disaster which all Europe has suffered is better appreciated now than it was a year ago, and it is realized that if Germany collapses it will pull down other countries with it. The economic program of the Supreme Council, upon which we shall in a few days have fuller information, is nothing less than an energetic if belated effort to stave off ruin.

True, Very True!
(Chicago Tribune)

There must be an end of all this luxury. Land waste is land luxury. Slowing up waste is idleness luxury. Money waste is land luxury and idleness luxury combined. As much can be taken from one acre intensively farmed as from two acres neglected. A small farm owner is better than two tenants. A dollar's worth of land is worth more than $10 worth of silk shirts. A day's honest labor is worth a trunkful of promises to pay.

Something New in Libraries
(Christian Science Monitor)

Public libraries have been generously and assiduously promoted, of late, for all sorts of locations and conditions. Yet there is a touch of novelty, as well as reason, in the idea of Spanish authorities, to place small collections of books for public use in the parks and squares of Madrid. Certainly diminutive public libraries of this sort will "take the books of the people" at times when the people will be idly receptive to the notion of "something good to read."

McFEE'S EYE TALKS

PROTECT THE CHILDREN

PROTECT your children's eyes. If you neglect them in their youth serious eye trouble may later result. At times the use of glasses in childhood corrects early defects and enables them to enjoy later in life what optometrists describe as second sight.

THE JOHN LEWIS COMPANY, LTD.

City AND Country

APPOINTED TOWN CONSTABLE

Mr. W. A. Allpott, of Hermon, North Hastings, has been appointed town constable at Havelock. Mr. Allpott holds a diploma for detective work and has served in the army being discharged in November last with the rank of Sergeant. He has been instructed to report for duty on May 1st—Bancroft Times.

HORSE ELECTROCUTED

Mr. Jacob Miller, of Cornwall, lost a valuable mare which bit the insulation off the electric light wires in a box stall and when Mr. Miller went to the stall about six o'clock he found the mare dead. In trying to free her mouth from the current the animal broke the wires.

WOMAN VETERAN

Mrs. W. Garland Foster of Nelson, B.C., is the first woman to sit in a Dominion convention of the G.W.V.A. Mrs. Foster served during the war as a nursing sister, and was twice decorated for bravery. She is now vice-president of Nelson Branch, G.W.V.A. which body she will represent at the Dominion convention in Montreal.

WRONGLY ACCUSED

Yesterday afternoon, a woman who had been for a brief period a housekeeper for a resident of the city was before Magistrate Masson, charged with theft. It was alleged the accused when she left the place she was engaged at, took a pair of boots and rubbers When the case was investigated it was shown no theft had been committed and the case was dismissed, the complainant having to pay the costs.

NEW ATHLETIC CLUB

A meeting was held last night by the employees of the different branches of the Hydro Electric Power Commission in Belleville, with the idea of forming an athletic club for the Hydro boys, as great enthusiasm has been shown by them in hockey this season. Officers were elected and they hope to soon have a basket-ball team, and in the coming summer a base-ball team to compete with the different city leagues.

PROFITABLE POULTRY

Isaac Pelletier of Chesterville, who is an admirer of the Andalusian hen, says the Record, gives the following record of his flock for the twelve months from Feb. 22nd, 1919. From forty hens he got 5636 eggs, the average weight per dozen of which was 26 ounces. Nine hens hatched out 87 chicks. The smallest number of eggs laid in one day was five. The market price of the eggs averaged sixty cents per dozen, with a total revenue of $281.90 and an expense for feed of $112.00.

OUT IN ALL-NIGHT STORM

In a pitiful condition from all-night exposure in open fields near Manotick an old woman, 78 years of age, wandered into Ottawa Police Station and asked to be looked after. Her right hand had been frozen and was swollen and she complained that her feet were also frost-bitten. She told a pathetic tale of being lost in the open while the snow storm was raging The woman gave her name as Nellie Gilfil She rooms in a house on Rochester street but did not know the house number or the name of the family who lived there.

NO QUORUM

A regular monthly meeting of the Board of Education was called for last evening but up to the hour of 8.30 only seven members put in an appearance which was not enough to form a quorum, hence no meeting could be held. Those present were Messrs A. McGie, Chairman; F. S. Deacon, B. Mallory, H. W. Ackerman, H. McGinnis, C. F. Wallbridge and D. V. Sinclair. Every teacher of the High and Public Schools of the city was in attendance to support a petition presented to the Board asking for a bonus for the present, and an increase in salary when the question of salaries is considered.

DROWNED THROUGH CARLESSNESS

The appeal of S. C. Dennison, ice merchant of Napanee, from the judgment for $500 pronounced against him by Mr. Justice Clue in favor of Mrs. Castaldi has been allowed by the appellate division. Mrs. Castaldi suffered damages for the death of her two boys, who while skating, broke through thin ice. In dismissing the action Chief Justice Meredith said "The effective cause of the accident was the carelessness of the boys and not anything done in cutting the ice." The place where the boys broke through the ice and were drowned in February, 1919, was in an area where ice cutting operations had been conducted by Mr. Dennison, the place having been selected by the Medical Officer of Health and assigned to Mr. Dennison who protected it with a wire fence as well as a fringe of bushes.

ADDRESS AND PRESENTATION

At Holloway Street Church on Thursday afternoon a pleasing function was held when about fifty of the church gathered to bid farewell to Mrs. A. M. Leavens who is leaving the city. The gathering included the members of the Sunday School, the Women's Missionary Society and the Ladies' Aid in each of which Mrs. Leavens has been an active and untiring worker for a number of years. After a short program which included a few words from the pastor, Rev. A. H. Foster, Miss I. A. Martin read an address of appreciation and a handsome chair and casserole were presented to Mrs. Leavens by Mrs. Geo. Bacon and Mrs. Myron Ellis. Mrs. Leavens replied, thanking her friends for their gifts and assuring them of a hearty welcome in her future home. After singing "Blest Be the Tie That Binds" tea was served to guests grouped around prettily decorated tables. The address was signed on behalf of the Sunday School by Mrs. Robert Anderson for the Ladies and by Mrs. Chas. Pearce for the W.M.S. by Mrs. L. Forces.

ALLEGED ASSAULT

Fred Humphrey of this city, was last evening arrested on a warrant charging him with assaulting Wm. C. Bennett. This morning the accused was remanded to jail for a week.

PAID HIS FINE

James Horax this morning before Magistrate Masson pleaded guilty to a charge of intoxication. A fine of $10 and costs was imposed which was paid.

THE WRONG COMPLAINANT

In the case of N. Fluke charged with the misappropriation of money entrusted to him on which charge he was acquitted, the name of N. Dime appeared as the complainant. It should have read Mr. Goodman, complainant.

FURNISHED BONDS

Adolphus Derry, who a week ago, pleaded guilty to a charge of committing an indecent act was this morning by the Magistrate allowed his liberty for a week upon furnishing the necessary bo ndsorhfidu Ulqztn v Ap sary bonds for his appearance.

PITCH IN ON G. T. R.

During the blinding snow storm which prevailed last evening a pitch in occurred at Brighton between Grand Trunk Railway freight trains which caused a wreck but not of great magnitude. Fireman Staples of this city, a returned man, was injured to some extent and was brought to the city and taken to the hospital, where he received every attention. Fortunately his injuries are not of a serious nature. One of the box cars caught fire and was burned up.

THE MARKET

There was a fair attendance upon the market this morning and good prices were realized for all farm products offered for sale. Fresh dairy butter sold readily at 65c a pound and in a few cases a higher price was obtained. Fresh eggs dropped in price selling at 50 to 55c per dozen. The former price was for basket lots. Dressed chickens commanded a high price namely $1.75 to $2 each. Potatoes sold at $4.50 per bag. One lot of maple syrup was offered for sale and 75 cents per quart was asked and obtained.

CHARGED WITH ASSAULT

Warren Hawley, Enterprise, was committed for trial at the June assizes by Magistrate Rankin, of Napanee, on the charge of assaulting and neglecting an eleven-year-old girl, a ward of the Orphan's Home. Hawley pleaded not guilty and was allowed out on $2,000 bail. It will be remembered that some time ago the girl was brought to the Kingston General Hospital suffering from cuts on the back and feet, the latter being also frozen. She also suffered a great deal from burns, and was suffering for some time in the hospital. The information against Hawley was laid by Inspector Martin of the Provincial Children's Aid W. F. Nickle, K.C., is the counsel for the Orphan's Home.

WAR PHOTOS

Despite the inclement weather last evening a number of citizens visited the G.W.V.A. quarters on Front street for the purpose of viewing the war photos which were much admired. Mr. Barranger, of Toronto, a returned soldier, was in charge of the exhibit. The photos were taken by Canadian officials overseas and their task was by no means an easy one. A number of the pictures show Canadians in action and also in front and behind the lines. One picture of local interest shows the Prince of Wales inspecting a Canadian machine gun battalion on the Velenciennes front. Among the Canadians is Major McCorkell, of this city, who is seen shaking hands with the Prince. There are some 300 photos taken at Ypres Passhendaele, Cambrai, Somme, Vimy Ridge, Hill 70 and other places on the battle field where the Canadians distinguished themselves. The photos are distinct and the views are with the Canadians from Ypres to the Rhine. Many of the pictures were minutely scrutinized by those viewing them and the general impression was that they were of an educative nature. Later these views will be made into slides and exposed upon a screen and explained.

RHEUMATISM

This is just the season when Rheumatism with its grinding pain and stiffening of joints gets hold of you. Fight it with

Templeton's Rheumatic Capsules

NATIONALISTS ARRESTED

Constantinople, March 19—All is quiet in the Turk capital today.

The Turkish newspapers and the Foreign Office are so heavily censored that it is impossible to obtain the authoritative Turkish view of the situation. Turks with whom the correspondent spoke, however, were free in declaring their opinion that Constantinople was about to repeat the history of Cairo; that the British would remain in Turkey as they have done in Egypt. Meanwhile the French and English newspapers here are featuring Paris and London despatches which allege the expectancy that the United States will assume responsibility in restoring order in the Near East.

The better known prisoners already are in custody and many other political prisoners whose names have not been announced as yet will be sent to Malta, to which many other Nationalists have been deported

* * *

Situation in Berlin is critical. No food trains are reaching capital.

New allied note to Holland will definitely demand removal of ex Kaiser to some distant exile.

The Canadian System Of Banking

At the invitation of Mr. I. L. Moore, Principal of Ontario Business College, Mr. John Elliott yesterday afternoon addressed the students of the College on "Banking." Mr Elliott explained the organization of a Canadian chartered bank and contrasted our system of branch banks with the National and State Banks of the United States, which have no branches. Valuable information was given regarding the note circulation and the provision made for its redemption. The Canadian banks afford the strongest security to depositors and billholders; they render the best possible service to borrowers, and also yield the shareholders a satisfactory dividend return upon their investment.

Mr. Elliott's address was very instructive, and was much appreciated by all who heard it.

DIED

HASLIP—In Belleville on Friday, March 19th, 1920, Mrs. Eliza Haslip, widow of late James Haslip, aged 65 years.

The funeral will take place on Monday, 22nd inst., from the residence of her daughter, Mrs. G. Garrison, 21 Brown street, at 3 o'clock. Services at the house at 2.30 p.m. Interment Belleville cemetery.

Orangemen Elect Grand Officers

Music Lovers Enjoy Lecture Recital

Lovers of music were very much pleased and impressed at the Lecture Recital given Friday evening in Bridge Street Methodist Church by Mr. Vincent P. Hunt, A.A.G.O., Musical Director of Albert College, the subject being "The Appreciation of Music and the Development of the Sonata—form under Haydn, Mozart and Beethoven, embracing the following delightful and comprehensive program:

Sketch of Joseph Haydn (1732-1809). The Surprise Symphony—Haydn, arranged for piano (four hands.)

Sketch of Wolfgang Amadeus Mozart (1756-1792) Sonata in C Minor (Mozart) Piano Solo. Aria from "The Magic Flute," Mozart, Mr. James Booth. Sonata in Amaga, Air with variations, Mozart—Piano Solo.

Sketch of Ludwig Van Beethoven (1770-1827) Symphony No. 5 C Minor, 1st movement, arranged for piano (four hands.) Song—In Questa Tomba, Miss Stella Lane. Sonata of 13 Pathetique, 1st movement, piano solo. Andante from the Surprise Symphony, Haydn arranged for piano (four hands.)

Aria, To the Evening Star—Wagner, Mr. James Booth.

Piano Solos—(a)—The Ox Minuet, Haydn; (b) Turkish March, Beethoven, (from the Ruins of Athens.)

Poor Sight Makes a Backward Child

School work often requires close application of sight that the eyes are not able to meet, because they are not fully developed.

When a child dislikes school work and has difficulty in keeping up in it, the eyes should be examined by a competent optometrist. Don't blame the child if it is backward. It is your duty to see that the eyes are not at fault.

Blackburn's makes a specialty of examining children's eyes. Bring your child in for consultation.

Grand Orange Lodge of Ontario East Meets at Cobourg

COBOURG, March 19.—The annual convention of the Grand Orange Lodge of Ontario East, the Grand Black Chapter of the Loyal Orange Lodges of Eastern Ontario was held here for four days this week concluding this afternoon.

The Grand Black Chapter opened its session on Tuesday afternoon in St. Andrew's Hall with Sir Knight C. H. Woods in the D.G.M. chair and Grand Master Sir Knight S. E. Stanley presiding. Mayor D. Denton and Councilor Lieut.-Col. S. D. Boggs welcomed the delegates on behalf of the town and spoke of the splendid work and worthy aims of the order. The Grand Chaplain and Grand Master expressed their thanks for the kind words of greeting.

The Grand Master's address of fraternal greeting was well received. He urged the members to make use of their very best endeavors to assist in steadying and settling the present unrest and called their attention to the message from the Ulster delegates that all true citizens should strive with all their endeavors to keep the British dominions united.

The report of the Grand Registrar, Sir Knight D. J. Sutherland, showed that the chapter had made splendid progress. Reference was made to one preceptory being instituted with a charter membership of 52 and with 40 more applications.

Short speeches were delivered by Grand Chaplain Sir Knight Rev. John Tottenham, Chaplain Rev. A. H. Cregg, Sir Knight Rev. A. S. Green and Pas. Grand Chaplain Rev. Geo. Nickle.

Two delightful solos were rendered by Prof. Sir Knight R. N. Leslie. Inspiring addresses were given by Past Master Boyce, M.P., Duncan Munroe, H. A. Graham, T. A. Allen and Prof Leslie of Cornwall.

Resolutions were adopetd advocating inspection by the Government of all religious and charitable institutions; abolition of bilingual schools and the creation of one national school system with English as the only language of communication; taxation of all property held in the name of charity and religion.

RITCHIE'S

Spring Apparel

The whole store is aglow with fresh New Goods for Milady's early seeing. Remember, Easter is early this year, and plan your buying of wearables accordingly. Shop often, at Ritchie's.

SPRING
Dress Modes
AT THEIR BEST

The new Dresses reveal great variety in line. There are frocks with extended hips and Harem draped skirts; others with short sleeves and vestees; many which give plaited ruffles a new twist as trimming; and where there is not a complete absence of ornamentation one may find radiant beading, tinsel and silk embroideries. To carry out these beautiful style designs the fabrics are rich, supple and luxurious. Altogether the Springtime frock is a beautiful garment.

SILK DRESSES

Taffetas, Georgettes and Crepe de Chines are the favored fabrics, and shown in all the season's popular shades. Mostly short and three-quarter sleeves, adorned with tucks, frills, drapes and beaded work.

$30.00 to $115.00

EVERY MONTH MANY WOMEN

Take ZUTOO Tablets and are free of the Griping Pain and Sick Headaches.

Read what Mrs. Wright says: "I received your sample of Zutoo Tablets, and took them for severe pain (monthly) and headache. At the end of 30 minutes, I was entirely free of pain and experienced no more throughout the period. I suffer a great deal at these times and feel grateful that I have a remedy which affords quick relief. Every woman in the land should know about Zutoo Tablets and what they will do."

Mrs. ALLEN WRIGHT, Fulford, Que.

TAKE ZUTOO

STIFF JOINTS

Limber Up After Being Rubbed With "ABSORBINE JR."

A stiff knee, due to rheumatism—or a stiff ankle, the result of a sprain—or a stiff arm, because of a fall—can be relieved of pain and stiffness, by the use of "ABSORBINE JR."

Many people who have limped and suffered for years, now have free use of their limbs since treating themselves with "ABSORBINE JR."

This successful home treatment gives prompt relief from Rheumatic Pain, Lumbago, Sciatica, Inflammation of the Joints, Weeping Sinew and Lameness and Stiffness.

No matter what else you have tried, get a bottle of "ABSORBINE JR." and see what relief it will give you.

$1.25 a bottle—at most druggists or sent postpaid by W. F. YOUNG, INC., Lyman Building, Montreal. 37

NOTICE TO CREDITORS.

In the Matter of the Estate of Wesley Moise, late of the City of Belleville, in the County of Hastings, Railway Conductor, Deceased.

NOTICE IS HEREBY GIVEN that all persons having claims against Wesley Moise, Deceased, who died on or about the 12th January, 1918, are required to send to the undersigned Solicitor for Annie Moise, the Administratrix on or before the 10th day of April, 1920, their address and full description with particulars of claim, duly verified.

AND TAKE NOTICE that after the said 10th day of April, 1920, the Administratrix will proceed to distribute the assets of the said Deceased among the parties entitled thereto, having regard only to the claims of which she shall then have received notice.

WM. CARNEW,
Court House Bldg., Belleville,
Solicitor for Administratrix.

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, *three thousand, one hundred and twenty-two cases* of Influenza and 139 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for $2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

EXECUTORS' NOTICE TO CREDITORS.

The creditors of Edgar W. DeShane, late of the City of Belleville in the County of Hastings, Policeman, who died on the 20th day of February, 1920, are to send to the undersigned on or before the 30th of March, 1920, full particulars of any claims against the said deceased or his estate, verified by Statutory Declaration. After said date the said estate will be distributed, having regard only to claims of which notice has been received, without liability on the part of the executor for any other claims.

O'FLYNN, DIAMOND & O'FLYNN,
Solicitor for the Executor.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

AS OTHERS SEE US.

Riverside (Cal.) Enterprise.

On several occasions lately we have spoken in these pages of the excellent work in the way of reconstruction that has been accomplished by the Canadian Government since the war ended. The gentlemen we send to represent us at Washington are so busily engaged enquiring into the affairs of the people to the south of us that they seem to have no eyes or ears for the splendid progress that is being made by our neighbor to the north. Yet the source of this progress and the channel along which it moves should be of interest to these gentlemen:

For instance, they might find out why it is that Canada, with her small budget as compared with our own, has been able to pay a war service gratuity to her soldiers much in excess of that paid by Britain and the United States; why is it that every Canadian soldier who was permanently disabled is now in receipt of a regular monthly pension, that all the dependents of those who made the supreme sacrifice are already in possession of an allowance sufficiently high to enable them to live in measurable comfort; and how the Dominion Government has found a way to loan the enormous sum of $150,000,000 to ex-service men that they might secure farms that are well furnished with livestock and agricultural implements.

Pursuing further this line of enquiry these gentlemen might ask why, when we find it essential to withdraw Federal supervision of a merchant marine, thus relinquishing the advantage we gained during hostilities, Canada is embarking upon a course of Government management of freighters, which will, in twenty months from the beginning of the current year, put her in possession of harbors, docks, and a net tonnage of 400,000 sea bottoms. Already ten of these freighters are plying between the Canadian ports and the ports of the West Indies and the countries of South America, thus opening up avenues of trade.

They might further enquire how the Canadian merchants found time, at the request of the Government, to equip and operate for two months a magnificent trade exposition in far-off Athens, conducting daily excursions for the merchants of Greece and the nearby Balkan states, and thus receiving orders enough to keep some of their factories going full time for five years.

We hold, that the above accomplishments, which are exact in every detail, are well worth an investigation. And then, if these gentlemen asked us why Canada was doing so much while we were doing so little, we should somewhat heartlessly reply that the people of Canada were sending a few broad-gauged statesmen to Ottawa, while we are sending many parochial politicians to Washington.

Newsy Paragraphs From All Canada

WINNIPEG KILTIES

Winnipeg, Man., March 19.—The 79th Cameron Highlanders of Winnipeg sent 3,891 officers, N.C.O.'s and men overseas during the late war, according to Lieut. Col. H. F. Osler, officer commanding. Of this number 1,189 were killed in action or died of wounds. Those receiving honors and awards totalled 386, one member being awarded the Victoria Cross.

HUNTING DOPE PEDDLERS

Vancouver, B.C., March 19.—In their aggressive efforts to stop the illicit peddling of "dope" local police recently brought to light a clever device employed by an Oriental named Yung in concealing his stock in trade. Persistant search of Yung's home resulted in the finding of three thousand dollars worth of drugs and hypodermic needles secreted in a huge pocket bored in the top of a heavy door.

40.40 TAX RATE

Saskatoon, Sask., March 19.—This year's tax rate will be 40.40 mills, Commissioner Yorath pointed out in correction of the report that the city council had settled on 20.20. For separate school supporters the rate of 17 would be substituted for the public school rate of 15.10 making their total tax rate 42 mills.

DEVELOP LIGNITE FIELDS

Regina, Sask., March 19.—Interesting developments are looked for this year in connection with the operations of the Lignite Utilisation Board of Canada. The object of the board is to develop the Saskatchewan lignite fields and give the people of the west cheaper and better fuel than is possible at the present time, as well as placing the briqueting industry on a commercial basis. The Federal, Manitoba and Saskatchewan governments have appropriated $100,000 for the use of the board, one half of this amount to be paid by the Federal Government and one-quarter each by the two Provincial Governments.

INCREASE MOTOR FEES

Victoria, B.C., March 19.—Motor license fees in British Columbia are to be substantially increased by legislation and the full amount used for road improvements, Hon. J. H. King, Minister of Public Works, told members of the Good Roads League.

VETERAN OF INDIAN MUTINY

Virden, Man., March 19.—Virden and district has paid its last tribute to the venerable patriot, Sergt. Patrick Noon, born at Mount Bellah, county Galway, Ireland, March 17, 1827, a veteran of the Imperial army in the early Victorian days. He enlisted in the 61st Regiment for 21 years, going through the whole of the Indian Mutiny and being present at the siege and capture of Delhi. Sergt. Noon came to Canada in 1871 and spent eleven years in Ontario, coming to Virden in 1882.

PRESSMEN COMING

Vancouver, B.C., March 19—A Sydney, N.S.W. cable to a local newspaper says that the following will represent Australian newspapers at the Empire Press Conference to be held next August in Canada: H. R. Denison of the Sydney Sun; D. D. Braham Sydney Telegraph; J. O. Fairfax, Sydney Herald; Theodore Fink, Melbourne Herald; Wm. Wright, Bendigo Advertiser; Geoffrey Syme, Melbourne Age; Chas. Davis, Hobart Mercury; J. J. Knight, Brisbane Courier; Norman White, Brisbane Daily Mail; Sir Langdon Boynthon, Adelaide Advertiser and G. H. Varley, Grafton Examiner.

PROTECTING EGG BUYERS

Regina, Sask., March 19—After the first day of June, 1920, in accordance with the new Egg Marketing Act, every dealer in eggs in Saskatchewan either wholesale or retail who purchases eggs directly from producers, must be licensed and after that date no eggs may be purchased by such dealers until they have been candled and all eggs unfit for human food rejected.

YOUNG TRAVELLER

Winnipeg, Man., March 19—Arthur George Glazebrook, a sturdy youngster of 9 years old, arrived here after travelling from Godalming, England alone This young gentleman adventurer was put on the boat by his parents and is travelling to British Columbia where he will visit his grandfather at Chilliwack.

FARM MACHINERY SHORTAGE

Winnipeg, Man., March 19.—An early spring is likely to precipitate a serious shortage in farm machinery and tillage implements generally, dealers declare. The demand is active now and is likely to be abnormally large by the time spring opens up. Farm implement factories both in Canada and the United States have been held up in their production through shortage of materials and difficulty of obtaining delivery. As a result goods which have been ordered months ago by local firms have not been delivered yet.

CLAIMS HE KILLED WIFE WITH TOY DRIVING REINS

New York, March 19.—A man taken to Bellevue Hospital after having attempted suicide at the Park Avenue Hotel, is said by the police to have confessed that he strangled his wife, at their lodgings in New Britain, Conn.

He registered at the hotel last night as George E. Vane. Yesterday he was found in bed with his throat cut with a piece of bottle glass. He had also taken poison. In delirium yesterday afternoon, two detectives say they heard him admit that he had choked his wife, Anna, to death with the reins from their child's hobby horse.

DOZEN YOUNGSTERS AT MIMICO ESCAPE

Toronto, March 19—Twelve boys between the ages of twelve and fourteen years made their escape from the Victoria Industrial School, Mimico, yesterday, and are still at large.

It is understood that the boys made their escape in the early hours of the morning by picking the locks of the dormitory door and then managing to elude detection by the guards.

The boys were all dressed in the school uniform. It is expected that some of them will have made their way to the city and the local police were notified to keep a lookout for them.

Outside points were also notified, as some of the fugitives may have turned toward the west along the lake shore. This is the largest number of boys to escape from the institution at one time for a number of years.

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER II—Continued

"Ah who can believe sellers?" said old Michael Mail in a fearfully cautious voice by way of tiding over this critical point of affairs.

"No one at all," said Joseph Bowman, in the tone of a man fully agreeing with everybody.

"Ay," said Mail, in the tone of a man who did not agree with everybody as a rule, though he did now; "I knowed an auctioneering feller once—a very friendly feller a' was too. And so one day, as I was walking down the front street of Casterbridge, I passed a shop door and see him inside, stuck upon his perch, a-selling off. I jist nodded to en in a friendly way as I passed and went my way, and thought no more about it. Well, next day, as I was oilen my boots by the fuel-house door, if a letter didn't come wi' a bill in en, charging me with a feather-bed bolster and pillers that I had bid for at Mr. Taylor's sale. The slim-faced martel had knocked 'em down to me because I nodded to en in a friendly way; and I had to pay for 'em too. Now, I hold that that was cutting it very close, Reuben."

"'Twas close, there's no denying," said the general voice.

"Too close 'twas," said Reuben in the rear of the rest. "And as to Sam Lawson—pore heart! now he's dead and gone too!—I'll warrant that if so be I've spent one hour in making hoops for that barrel, I've spent fifty, first and last. That's one of my hoops"—touching it with his elbow—"that's one of mine, and that, and that, and all these."

"Ah, Sam was a man!" said Mr. Penny, looking contemplatively at a small stool.

"Sam was!" said Bowman, shaking his head twice.

"Especially for a drap o' drink," said the tranter.

"Good, but not religious-good," suggested Mr. Penny.

The tranter nodded. Having at last made the tap and hole quite ready, "Now then, Suze, bring a mug," he said. "Here's luck to us, my sonnies!"

The tap went in and the cider immediately squirted out in a horizontal shower over Reuben's hands, knees and leggins and into the eyes and neck of Charley, who, having temporarily put off his grief under pressure of more interesting proceedings was squatting down and blinking near his father.

"There 'tis again!" said Mrs. Dewy.

"D—I take the hole, the cask and Sam Lawson too, that good cider should be wasted like this!" exclaimed the tranter, excitedly. "Your thumb! Lend me your thumb, Michael! Ram it in here, Michael! I must get a bigger tap, my sonnies."

"Idd it cold inthide te hole?" inquired Charley of Michael, as he continued in a stooping posture with his thumb in the cork.

"What wonderful odds and ends that chiel has in his head to be sure!" Mrs. Dewy admiringly exclaimed from the distance. "I lay a wager that he cares more about the climate inside that barrel than in all the other parts of the world put together."

All persons present put a speaking countenance of admiration for the cleverness alluded to, in the midst of which Reuben returned. The operation was then satisfactorily performed when Michael arose, and stretched his head to the extremest fraction of height that his body would allow of, to restraighten his bent back and shoulders—thrusting out his arms and twisting his features to a mere mass of wrinkles at the same time, to emphasize the relief acquired. A quart or two of the beverage was then brought to the table, at which all the new arrivals reseated themselves with widespread knees, their eyes meditatively seeking out with excruciating precision any small speck or knot in the table upon which the gaze might precipitate itself.

"Whatever is father a-biding out in the fuel-house so long for?" said the tranter. "Never such a man as father for two things—cleaving up old dead apple-tree wood, and playing the bass viol. 'A'd pass his life between the two, that 'a would."

He stepped to the door and opened it.

"Father!"

"Ay!" rang thinly from round the corner.

"Here's the barrel tapped, and we all a-waiting!"

A series of dull thuds that had been heard through the chimney-back for some time past, now ceased; and after the light of a lantern had passed the window and made wheeling rays upon the ceiling inside, the eldest of the Dewy family appeared.

CHAPTER III

William Dewy—otherwise Granfather William—was now about seventy, yet an ardent vitality still preserved a warm and roughened bloom upon his face, which reminded gardeners of the sunny side of a ripe ribstone-pippin, though a narrow strip of forehead, that was protected from the weather by lying above the line of his hat-brim, seemed to belong to some town man, so gentlemanly was its whiteness. His was a humorous and gentle nature, not unmixed with a frequent melancholy; and he had a firm religious faith. But to his neighbors he had no character in particular. If they saw him pass by their windows when they had been bottling off old mead, or when they had just been called long-headed men who might do anything in the world if they chose, they thought concerning him: "Ah, there's that good-hearted man—open as a child!" If they saw him just after they had lost a shilling or half a crown or accidentally let fall a piece of crockery, they thought: "There's that poor weak-minded man, Dewy again! Ah, he'll never do much in the world either!" If he passed when fortune neither smiled or frowned on them, they merely thought him—old William Dewy.

TO BE CONTINUED

AFTER EFFECTS OF INFLUENZA OFTEN SERIOUS

Victims Are Left Weak, Tired and Mentally Depressed—Tonic Treatment is Strongly Recommended

No pestilence in years has caused more widespread suffering than the epidemic of influenza which swept over Canada in the fall and winter of 1918-19 and again this winter. The danger from this trouble is seldom over when the characteristic symptoms, the fever, headache and the depression of spirits have passed away. Influenza leaves behind it weakened vital powers, thin blood, impaired digestion and over-sensitive nerves. Men and women who were robust before stricken with influenza find their bodies racked by pains previously unknown to them. This condition is due to an abnormal thinning of the blood and leaves the system an easy pray to other serious troubles. This is the time when the convalescent from influenza should build up the blood, with a reliable blood-making tonic such as Dr. Williams Pink Pills. Weak blood means impoverished nerves, impaired digestion, a feeling of tiredness after even slight exertion, and sometimes even more serious symptoms. When the blood regains its rich red quality the nerves recover their strength and the organs of the body function naturally. In fact building up the blood will vitalize the whole system.

The experience of Mr. Andrew Marty, Bathurst, N. B., will prove of value to a host of influenza sufferers who still suffer from the effects of the disease. Mr. Marty says:—"The new life and consequently new hope brought into my life through the use of Dr. Williams Pink Pills is almost beyond my power of expression. Following a severe attack of influenza in 1918 I found myself rapidly failing in health, and was naturally much alarmed. I began to lose in weight, could not eat, did not sleep well, and in a word I was reduced to a mere shadow. I was forced to discontinue work because of my weakened condition and things had a very blue outlook. I tried a number of suggested remedies, but without benefit. And then one day Dr. Williams' Pink Pills were suggested to me. I acted on my friend's advice, began taking these pills and soon felt an improvement. Every day I seemed to grow stranger, and after four weeks' treatment I felt fully restored to my old-time health. From my own experience I feel that, if given a fair trial, there is no medicine superior to Dr. Williams Pink Pills in building up a run down system."

Dr. Williams Pink Pills are a tonic not a stimulant. They build up the blood, and not only the disastrous after effects of influenza but also troubles due to poor blood, such as anaemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear. You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

SISTER OF NICHOLAS DISOVERED IN RAGS

Washington, March 19.—Grand Duchess Olga, sister of the late Czar Nicholas of Russia, has been found by American Red Cross workers living in a box car near Norvorossisk, South Russia; it was announced at the headquarters of the American Red Cross here. The Grand Duchess, according to the announcement, is one of three survivors of the house of Romanoff. She was found "toiling among fellow refugees from the territory recently conquered by the Bolsheviki, giving such assistance as she could, although herself clad in rags and grateful for any food and clothing she could find."

"Who said FRY'S?"

He just loves its delicious chocolaty flavor.

Kiddies who get FRY'S regularly are vigorous, warm-blooded and healthy. They throw off colds quickly. They are more likely to escape epidemics. If you have some little pale faces at home, just try FRY'S. You'll be glad you did. But—remember

"Nothing will do but FRY'S"

209

Our Job

As the leader of a great industry, Willard is held responsible, and rightly, for storage battery improvement, for storage battery service, and for giving all necessary help and information to the great car-owning public.

To make the new Willard battery owner's task easier, in addition to our responsibility for the quality of material and workmanship, we offer to all such as properly register the new battery at a Willard Service Station, a 90-day service free of charge, with full and complete printed information on every point the owner needs to know.

The Nation-wide Willard Service Organization was established and is maintained for the car-owner's benefit, to assist him in getting a really trained service by men who know their job.

The latest of many Willard contributions to battery improvement is the Still Better Willard with Threaded Rubber Insulation—an invention which entirely does away with what was previously an almost universal battery repair expense—reinsulation.

Our one objective is the car owner's complete satisfaction, and this we pledge to those who make or sell motor cars and to the millions of men and women who drive them.

Cars on Which Willard Batteries are Regular Equipment:

OTTOMANS MAY LOSE THEIR CAPITAL

Constantinople, March 19—The Allied High Commissioner here has issued a statement declaring that the Allies have no intention of destroying the authority of the Sultan, but wish to strengthen his power. It also says the Allies will adhere to their intention not to deprive the Turks of Constantinople, but that they may be compelled to modify their decision if massacres and disorders continue.

The Allies have occupied the Ministries of War and Navy and assumed control of the posts, telegraphs and telephones, which have been temporarily suspended. Shipping also has been suspended.

Chinese Bandits Free Missionary

PEKING, March 18—(Delayed)—The Rev. Dr. A. L. Skelton, a missionary of the Disciples of Christ Church, who was captured in January at Loayakuan, near Yunnan-Fu, has been released through the efforts of the American legation and is proceeding under escort to Yunnan-Fu, where he is due to arrive next Monday. He is reported to be well.

Simultaneously with advices of the release of Dr. Skelton, came news of the capture by the same band of bandits of a British missionary named Metcalfe, belonging to the China Inland Mission.

Dr. Skelton and his wife and daughters were on their way from Batang to Yunnan-Fu, and had reached Rufang, less than fifty miles from their destination, when they were captured January 3. The Americans had a small escort, which gave battle to the bandits, with the result that several of the escort were killed.

Mrs. Skelton and the children were allowed to proceed, but Dr. Skelton was held with the purpose of enforcing political demands made by Yang Tien-Fu, the bandit chief.

The bandits at first demanded amnesty for himself and the release of his family, which was being held as hostages at Yunnan-Fu, and also that he be appointed chief of the constabulary of his district. Later, when terms had virtually been arranged he stipulated that he should be allowed to levy taxes on his own account. Another effort was made to exert military pressure against the bandits but was abandoned as endangering the life of the captive. The central government and the local governor took active part in the negotiations for Dr. Skeleton's release and the French mission priest also assisted. After several weeks of fruitless effort the American legation instructed Colonel Drysdale, the American military attache, who was on his way from Saigon, Cochin-China, to Pending, to proceed to Yunnan-Fu. He arrived there and shortly afterwards on his request the legation telegraphed him $1,000 presumably to meet the expense of the release of Dr. Skelton.

CREW FOR ELEVEN DAYS IN OPEN LIFEBOATS

New York, March 19—For eleven days Captain A. Andreassen and 11 members of the crew of the Norwegian bark Sydnaes were afloat in an open boat in heavy gales part of the time without water and food. On the morning of March 13, just as the captain was thinking of cutting the throat of the ship's puppy in order to drink its blood, the Tanker Vaarli noticed the boat's last signal flash, and picked up the castaways. A second boat containing the mate and the rest of the crew, has not been found. The survivors were brought here yesterday by the Vaarli. They were very weak and suffering from exposure. The Sydnaes left Montevideo with sand in ballast, and in the storm the sand shifted, making it necessary to abandon the vessel March 2 about 1000 miles off the Virginia Capes.

Publishers Protest Price Of Paper

OTTAWA, March 19.—An appeal by Canadian newspaper publishers involving approximately $110,000 is being heard here before Justice Middleton, Judges Archer and White. The publishers, represented by W. N. Tilley, K.C., Toronto, claims that an order made by R. A. Pringle, as former Paper Controller is in direct opposition to an order made by the judges named sitting as an appeal court to deal with prices for newsprint. The Fort Frances Pulp and Paper Company, it is claimed has been receiving under the Pringle order of December 21 last, $73 instead of $69 per ton.

Justice Archer remarked that to his recollection the Appeal Court took into consideration prices charged by the Fort Frances Pulp and Paper Company, Ltd., prior to the time specified in the order and that the Paper Controller should have taken all such previous prices to have been settled. His Lordship's view was concurred in by the other judges.

Mr. Tilley took up practically the whole of the morning session presenting his argument, his main point being that Mr. Pringle had taken it upon himself to adjust prices for a longer period than that specified by the judges and could not circumvent the order of the appeal tribunal.

Canadian banks are bringing pressure to bear on merchants to reduce their stocks

GRAY-DORT Dealers Lead

Most good automobile dealers know motor cars inside and out. They've watched the business from its infancy. They've seen cars come and go. Above all they know motor car values. They have to.

You will find in practically every city and town in Canada, that the leading motor car dealer is a Gray-Dort dealer.

Every motor car dealer knows the reason for this. Every Gray-Dort owner knows the reason. *The Gray-Dort offers unequalled value to motor car purchasers.*

The $1365 (PLUS WAR TAX) GRAY-DORT is Dominant Value

What other car at anywhere near $1365 offers you these Gray-Dort qualities?

A motor larger and finer than usual for light cars—3½" bore and 5" stroke—built from flawless castings and tough, high-carbon steel—and finely finished. The crankshaft weighs *40 pounds.* The radiator is cellular type and the water jackets are extra large. An improved carburetor marks this car, and a better electrical system. Starting and lighting are Westinghouse, as in the most expensive cars.

There's over-strength in the Gray-Dort frame of heavy channel steel; in the husky, Chatham-built rear axle; in the long, cantilever rear springs; in the specially designed, new steering gear; in the big brakes, now lined with Thermoid. The front wheels now have roller bearings. There is a new gas tank—larger, and in the rear.

Convenience of riding and driving is in the Gray-Dort. The steering wheel is of the height and size for tireless driving. The gears can be shifted with two fingers' pressure. The horn, the ignition and light switches, the clutch and brakes, all are placed for greatest ease in driving.

A shorter and smarter cowl now gives more room in the driving compartment. A new Gray-Dort feature has greatly increased the leg-room in the tonneau. Seats are tilted at just the proper angle for comfort. As in cars costing $2000 and upwards, the Gray-Dort now has side-curtains opening with the doors.

CLEAN-CUT GOOD-LOOKS

The Gray-Dort is not startlingly extreme, the Gray-Dort is a car of quiet beauty—smooth lines and perfect proportions. The smart, new top is hand-tailored in our own shops. The new hood, with its many long, narrow louvres lends just a touch of European style. French-pleated upholstery, too.

And completing the picture—the wonderful Gray-Dort finish—development of 60 years' coach-building—applied by master craftsmen, Gray-Dort trained.

Unquestionably there will be a shortage of these cars at $1365. You had better see the Gray-Dort dealer now.

PRICES

The Gray-Dort 5-passenger car, finished in Gray-Dort green and black and with standard equipment is $1365 f.o.b. Chatham. War tax extra.

The roomy 2-passenger roadster is the same price.

THE GRAY-DORT SPECIAL

For the man who wishes something a little extra in his car, we have built the Gray-Dort Special. Maroon body, with brown rayntite top. Plate glass rear window. Gipsy curtains. Rookie tan wheels. Motometer. Tilting steering wheel. Real leather upholstery. Mahogany instrument board. Just the touches which lift this car above the ordinary. $150 extra on the standard.

AND THE ACE!

The Gray-Dort Ace—the most beautiful light car of to-day. Sapper green body with handsome California top to match.

Trouble lamp and bull's-eye flashlight. Electric cigar lighter. Rear-vision mirror. Plate glass windows. Oversize, grooved-tread tires. This is the *de luxe* car for the man who does not wish to pile up a tremendous operating cost. $255 extra on the standard.

SPRING CALF FEEDING

How to Feed and Handle the Young Arrival.

The Dam's Milk the Best First Food—Skimmilk Should Gradually Replace Whole Milk—Grass or Stable for Calves?

(Contributed by Ontario Department of Agriculture, Toronto.)

THE calf that comes in the spring, comes just at a time when everybody is so busy getting the spring work done that he is very liable to be neglected to a certain extent. Young calves are very susceptible to disease common to young cattle and a little lack of attention to spring calves is liable to cause serious trouble to them.

There are two menaces to calves in spring and summer, and those are extreme heat and flies, and one is on a par with the other. Arrangements should be made whereby the calves are kept in during the day and allowed to run out in a paddock at night. By this means they are afforded a liberal amount of exercise and good pure, fresh air, and also they are allowed to get some of the nice juicy green grass, which is the nearest thing to a complete and balanced ration that can be found outside of milk.

When the calf is dropped it may be well to leave it with the dam for a few hours in order that it may get the first milk (or colostrum) which is so necessary on account of its actions on the digestive tract. When the calf has received sufficient colostrum to set up the necessary action it should be removed from its mother into a separate stall, or it may be put into a stall with other calves of the same age or nearly so. If, by any chance, the cow's udder is inflamed, the calf may be left for a few days, because of the beneficial effect that the calf's punching has upon it.

For a few days the calf should be fed whole milk, but when it is two to four weeks old a change should be made, skimmilk gradually replacing the whole milk, from eight to ten days taken for the change. When the whole milk is totally replaced the milk may be increased to eighteen or twenty pounds per day for a calf six weeks old. The best kind of skimmilk for calves is warm, just when it leaves the farm separator. However, everybody may not have a separator, and then this is not possible. In any event the system started with the calf should be followed as nearly as possible at all times, because radical changes in diet are sure to cause severe digestive troubles. Pails and all feeding utensils should be kept very clean to eliminate any danger of disease from bacteria that might be lurking within. Skimmilk feeding may be continued on as long as it is thought advisable, up to eight or ten months old. Good thrifty calves may be weaned as early as three months old, providing good substitutes for the milk are used.

The most frequent trouble in raising calves is indigestion or common scours. This trouble is usually caused by overfeeding, feeding milk too cold, feeding milk heavily laden with the disease germs, or by keeping the calves in a dark, dirty, poorly ventilated quarter. The calves should be watched carefully, and if they show signs of scours immediate steps should be taken to effect a cure. The ration should be reduced and a little lime water put into the milk. If immediate action is needed, about one-half cupful of strong black tea or some castor oil should be given.

As for meal for the calves, rolled oats are good, and if they are getting no whole milk a little linseed oil cake should be added. The oil cake has a laxative property as well as supplying a little fat to the ration. A good meal for calves: 100 lbs. of ground oats, 50 lbs. bran and oil cake (nutted) 25 lbs. Good clover hay is essential at all times, giving enough to allow the calves to pick out the nice succulent parts, and still not be wasteful.—J. C. McIlcath, O. A. College, Guelph.

Should Calves Go Out to Grass or Remain in the Stable?

Generally speaking, calves are better kept in the stable during the first summer, except where stable conditions are not good, and where there is not enough labor to look after them and keep them dry and clean. The only other exception is in the case of calves dropped in the early winter and which have had three to six months of milk and more or less dry feed. Such calves may be all right, if turned out to grass as soon as the pasture is good and the weather warm and pleasant. Particularly is this the case where milk and other feed is scarce on the farm.

The chief advantages of keeping calves in the stable, the first summer are:

1. They can be fed milk and other feed as required, which is often neglected when calves run with the cows, or are pasturing some distance from the barn.

2. Calves in a clean, well-ventilated stable are protected from the hot sun, storms and flies, which often prevent that good growth which is essential for a well-nourished thrifty calf.

3. If allowed to run with the herd, the older animals are likely to "boss" the calves and may injure them, or deprive them of their proper share of feed.

4. Cases of sickness, such as indigestion or "scours" are more likely to be noticed, and properly treated, if the calves are inside where they are seen frequently.

5. As a result of this better care and feed, better cows are more likely to be reared, which means larger returns to the owners of cows.—Prof. H. H. Dean, O. A. College, Guelph.

Telautograph.

Two Swedish engineers have invented a telautograph that can be used on either a short or long circuit without adjustment, or even on a telephone line.

More than 200,000 people are employed in the mines in India.

The H. C. of B.

is largely caused by waste resulting from spoiled cakes, pies and pastry.

Many people do not consider baking powder a very important ingredient in baking, whereas it is *most important*—Success or failure depends upon the powder you select.

EGG-O Baking Powder

helps keeps down the *HIGH COST OF BAKING*, because, first, it is sold at a reasonable price, and second, its double acting qualities absolutely assure perfect baking at all times. Always follow the directions on the label, you use less powder.

Buying Egg-O in the larger tins is most economical for family use.

"THE BOND OF SYMPATHY BETWEEN ONE WOMAN AND ANOTHER."

If you are discouraged with your condition, weak, tired, subject to headaches, backache, bearing down sensations, weakness of bladder, constipation, hot flushes, melancholy, tendency to cry over trifles, nervousness and loss of interest in things generally, I want to help you to better things.

My own was probably as deplorable a case as could be found, yet it yielded to "Orange Lily" treatment and today I am a well woman.

"Orange Lily" is a simple, natural, common-sense remedy that you apply yourself. To go to drinking harmful drugs for troubles such as ours, is like trying to cure a sprain with pills. The only right and effective treatment is a strictly local application like "Orange Lily."

Because I am sure in advance of the wonerful results you will have, I want to send you ten days' treatment, FREE. Will you write me to-day, NOW, and let me help you. Enclose three stamps. Address: Mrs. Lydia W. Ladd, Windsor, Ont. Sold by leading druggists everywhere.

GRANTS ANNUAL PASSES.

C. P. R. Encourages Loyalty in Service.

The C.P.R., to encourage loyalty in service, and recognize the principle of co-operation has, through the president, Mr. E. W. Beatty, announced a new departure which will, doubtless, be much appreciated. This is the granting of annual passes to officers and employees and their wives under the following classifications:

Employee on a general superintendent's district, who has had continuous service for a period of not less than ten years, will be granted an annual pass good over district on which employed.

Such employee, who has had continuous service for twenty years and over, will be allowed annual pass good over eastern or western lines upon whichever employed. Employee of any other department of the service will enjoy the same privilege as above, stating the territory over which pass is desired. Head office employees who have had fifteen years' service will receive annual passes over eastern or western lines where employed. Women employees are to be treated the same as men in this connection. This action expresses the policy of the C.P.R. to aim at the contentment and loyalty of the employees of whom there is an army of 60,000 at present, including all classes.

The Pension Fund, a free gift of the company, was the thought of Lord Shaughnessy. The employees contribute nothing. Already the operation of the fund has wrought great benefit. The effect of it has been to increase the contentment and loyalty of the employees, to give the sense of mutual co-operation, and to stimulate the general purpose and interest of the company. There are many all over the system on the Pension Fund, which offers protection in declining years. Millions of dollars are involved in the operation of the fund since its inauguration.

Wilhelm Says Don't Be In A Hurry

LONDON, March 19—The former Kaiser, according to information received in diplomatic circles here, has warned his adherents against any precipitate action looking toward restoration of the Hohenzollerns.

Wilhelm's advice, it is said, was addressed to former Foreign Minister von Kuehlmann, Count von Bernstorff and Gen. von Groener, all of whom sent out couriers during the past week ordering junkers in various parts of Germany, particularly Prussia, to keep their heads down and not risk drastic action by the Allies which would kil lthe prospects of restoration of the dynasty forever.

It was further stated by the ex-Kaiser, according to these advices that if restoration to the throne of any member of his family is to be expected, this can be brought about only by cautious, gradual action.

Gen. von Groener, one of the strongest figures of the old regime, is said to have been the brains behind. Dr. Kapp, secretly guiding him in military and political matters. Kapp is also reported to have had the support of Gen von Lettow-Vorbeck, former commander in German East Africa, who is now virtual dictator of Meeklenburg.

ACCIDENTS AT NAPANEE

Napanee, March 19—The death occurred on Monday morning at Gretna of Mrs. George W. Perry, after an illness of several months of anaemia. Besides her husband, she leaves two daughters, Alma, at home, and Mrs. Edward Hambly. Deceased will be greatly missed in the neighborhood where she resided for a number of years for her kindness and thoughtfulness of others. The funeral will take place on Wednesday and the remains will be placed in Riverside vault to await interment at Bethany.

Dr. G. H. Cowan was called to Guelph on Sunday owing to the serious illness of his son, Aubrey, who has been sick for the past five weeks in the Guelph Military Hospital.

Mrs. Perry Detlor fell going down cellar on Saturday morning and broke her wrist.

"Dude" Powell fell on the icy sidewalk on Saturday morning and fractured his wrist.

Miss Helen Davy was taken to the Kingston General Hospital on Sunday, where she underwent an operation for appendicitis.

BOILER EXPLOSION FATAL.

Galt, Ont., March 19.—John A. McLean, aged 39, blacksmith, while testing a steam boiler, under pressure of 430 pounds at the Goldie & McCulloch works, was instantly killed when a union joint broke.

Fraudulent Use of Mails Charged

NEW YORK, March 19.—After a week's questioning by Post Office Inspectors, Frederick A. Clawson, president of the "American Canadian Corporation," and head of F. A. Clawson & Co., investment brokers, at 309 Broadway, was arraigned before United States Commissioner Samuel M. Hitchcock Saturday on a complaint made by Post Office Inspector G. B. Johnson, charging him with fraudulent use of the mails. The accused waived examination and was released under $5,000 bail to await action of the federal grand jury.

"The defendant," the complaint sets forth, "in connection with the scheme to defend investors caused the directors of the American Canadian Corporation to issue to him all the capital stock of the corporation in payment of certain alleged and fictitious contracts claimed by him to be then in existence and which he transferred to the corporation.

Clawson then sent through the mails the complaint alleges, false representations to his victims to the effect that the corporation had just purchased some fast turbine steamships amounting to $53,968,000 and had let contracts for the construction of six 18,000 ton passenger steamers for trans-Atlantic service. In addition, Clawson is alleged to have asserted that his concern already had closed contracts for $1,000,000 in cargo shipments.

FIX WAR PROFITEERS TO PROVIDE SOLDIER BONUS

Washington, March 19.—An extensive legislative program by which heavy taxes would be imposed upon war profiteers to provide a bonus for the service men and to wipe out the present floating indebtedness of the Government, is being formulated and strongly advocated by prominent Democrats of the House.

Proposals now being discussed by Democratic members of the Ways and Means Committee and other congressmen provide for an additional tax on war profits of as high as 80 per cent. As yet not one has been able to estimate the amount that could be raised in this manner, except to predict that more than enough to pay the $2,000,000,000 and the floating treasury deficit of nearly $1,000,000,000 could be obtained.

Representative Henry T. Rainey, Illinois, one of the strongest advocates of the plan, claimed 23,000 millionaires were created during the war. Thousands more large fortunes were made despite the high war taxes, he said.

BEN SPENCE AGAINST REFERENDUM NOW

Toronto, March 19—"Will the Alliance and the Referendum Committee confer on a united action as suggested by Premier Drury in the House on Tuesday?" This question was put to Rev. Ben H. Spence, secretary of the Ontario Alliance, and Rev. Dr. A S. Grant of the Referendum committee.

"We are waiting for an answer from the Government. We asked for a referendum," replied Dr. Grant.

"If in some way a campaign were brought on that would make a clean up of the whole damnable liquor business, then I am in for it to the limit, but a vote on Bill 26 as its stands now, nothing doing!" said Mr. Spence. "Nor can I see anything in Premier Drury's speech that even hints that he would propose such a vote. Indeed, it is to the contrary. He knows that Bill 26 as it stands, is an impossibility, and he is too good a temperance man and too wise a politician to force a vote upon any such doubtful proposition.

BENEFIT OF ALCOHOL DECLARED AN ILLUSION

Paris, March 19—Claims that the moderate use of alcohol is beneficial were disposed of by the Academy of Science in a report of the result of observation of the effects of alcohol in several thousand cases.

These observations, the report says, prove conclusively that the increase of muscular force, intellectual power and rapidity of movement is merely an illusion. The sensation of warmth produced by the drinking of alcoholic beverages also is declared to be detrimental rather than beneficial because the effect is only temporary and is produced at the expense of the temperature of the internal organs.

GIANTS HARD AT WORK

San Antonio, Texas, March 19.—If John McGraw does not kill them all with hard work, the Giants will have a creditable baseball team this season. The regulars were too weary to walk when yesterday's seance was over.

So severe was the morning work-out that in the afternoon the recruits had no difficulty in beating the wan regulars 6 to 2. Fletcher helped along by heaving a ball into right field in the sixth, thus letting in three runs for the opposition.

Reynolds Kelly, who pitched the first three innings for the recruits was the star of the day.

In Closed Auto On River Bottom

DETROIT, Mich., March 19.—Travelling at a speed estimated at be-Travelling at a speed estimated at bedan driven by Travis F. Beal, 25, son of Julius Beal, Regent of the University of Michigan, rushed down the steep Woodward avenue hill at three o'clock yesterday morning and plunged off the dock into the Detroit River where the water is thirty feet deep.

Beal had no time to jump, in fact, he says he did not know he was so close to the river and as the car made its mad leap Beal went with it to the bottom of the river. Every window of the autombile was closed and Beal stood a fine chance of drowning like a rat in a trap until he recalled his experience as an Ensign in the submarine division of the navy.

He struggled madly to force open the wind shield but the water pressure was too great. Using his elbow he managed to smash a hole through the plate glass, but was badly gashed in the attempt. The hole, however, proved too small, and he smashed another and dived through the opening after steadying himself with the steering wheel. Beal reached the surface bleeding and exhausted, but was able to grasp a life preserver thrown from the dock. His escape is regarded as most miraculous. The car is still on the bottom of the river.

Veteran Debate Was Not Stormy

PETERBORO, March 19.—Early in yesterday's session of the G.W.V.A. convention here, A. H. Peart of Hamilton rose and strongly objected to a Toronto morning newspaper's account of Wednesday's proceedings, which alleged a "stormy debate." President Jenkins promised to make a statement on the question.

"Natural resources," caused no discussion. A resolution was unanimously adopted "That wheras 85 per cent. of timber cut in Canadian forests is being shipped to points in the United States and the wholesale monopoly on our timber, with a view of holding for higher prices, "the Government should be petitioned to take immediate steps to conserve Canada's timber reserves, either by an embargo or prohibitive export duties and to speed up work of reforestation.

FREE MEDICAL AID

A resolution from the London command recommended that the period of free medical aid for all ex-members of the C.E.F. be extended to a term of three years and that a fully qualified medical practitioner be selected by the soldiers requiring aid. There was no discussion on the question.

Another recommendation passed quickly was that the Provincial and Dominion Governments should be memorialized of the need of an adequate and up-to-date public health policy. The infant mortality rate was quoted as being too great.

The deportation of unnaturalized citizens who refused allegiance received favorable consideration.

SPRING WEATHER HARD ON BABY

The Canadian Spring weather—one day mild and bright; the next raw and blustery is extremely hard on the baby. Conditions are such that the mother cannot take the little one out for the fresh air so much to be desired. He is confined to the house which is often over-heated and badly ventilated. He catches cold; his little stomach and bowels become disordered and the mother soon has a sick baby to look after To prevent this an occasional dose of Baby's Own Tablets should be given. They regulate the stomach and bowels, thus preventing or relieving colds, simple fevers, colic, or any other of the many minor ills of childhood. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

HEAVY MURDER TOLL IN IRELAND

London, March 20—The assassination of twenty-seven police and Government employes in Ireland since January 1 of this year was officially announced in the House of Commons by James Ian MacPherson, Chief Secretary for Ireland. In reply to a question as to the number of murders and attacks in that period he gave the following statistics:—

Murders—Royal Irish Constabulary 18; Dublin Police, 6; soldiers, 2; other Government servants, 1. Total 27.

Attempted murders—Irish Constabulary, 65; Dublin Police, 17; soldiers, 4; other Government servants, 3. Total 80.

In addition 25 attacks were made on police in barracks.

Nature Gave Man Juniper—to Preserve His Health

THERE is one great restorative and corrective for deranged Kidneys. It is obtained from the Juniper Berry. When combined scientifically with other medicinal properties, valuable as diuretics and with antiseptics, as it is combined in Gin Pills, a sure, quick and safe remedy for Kidney and Bladder trouble is available. In fact, no other formula begins to compare with that on which Gin Pills are prepared. They stand alone as the finest aid in Kidney and Bladder trouble.

Our forefathers were wont to use Gin for treating these troubles. The help it rendered was due to the Juniper in the Gin. In Gin Pills there is not a trace of the harmful alcohol. But all the soothing, healing action of Juniper has been retained.

Since Gin Pills were placed on the market—sixteen years ago—the work they have done in relieving the pain and danger resulting from Kidney and Bladder troubles is almost beyond reckoning. Thousands and thousands of letters, sent voluntarily by grateful users, testify to the enormous benefit Gin Pills have brought to sufferers throughout the length and breadth of Canada, in the United States, and in parts of Europe, where a sale was never sought.

If you are enduring the agony of backache, gravel, rheumatic, sciatica and neuralgia pains, brick dust deposits, mucus, congestion, or inflammation of Kidneys or Bladder, or any of the symptoms, lose no time in getting Gin Pills. Your druggist or dealer has them—at 50c. a box, with money-back guarantee. Get them *at once*. Free sample sent on request.

Moira Again In Flood Ice Shove Raises Water

PROPERTIES ALONG RIVER BANK INUNDATED — HOUSEHOLDERS FORCED TO LIVE UPSTAIRS—FURNACE FIRES EXTINGUISHED BY FLOOD WATERS AND BIG DEMAND FOR STOVES — SOME STREETS FLOODED AND NAVIGABLE FOR SMALL BOATS.

On the 20th day of March, 1918, Belleville experienced a flood which did damage to the extent of several thousands of dollars. At that time many buildings along the banks of the river within the city limits were severely damaged, while the footbridge was put out of commission. Two years and one day later the city was visited by another flood, but the damage done was not so great.

First Ice Jam.

At an early hour on Wednesday morning last a large field of ice came down the river from Lazier's mill, blocking the river from a point just above the footbridge to what is known as Lott's dam, a distance of nearly half a mile. For four days this field of ice was held intact, and it was hoped that it would move out before any more ice came down the river, but such was not the case.

A Surging Mass.

Shortly before two o'clock on Sunday afternoon a telephone message was received in the city that a large ice field which had jammed in the river above Lazier's mill, had broken away and was sweeping toward the city. When this field reached the ice which was already piled up above the footbridge it set it in motion and with irresistible force it rushed on towards the bay.

Bridge Holds Jam.

It was anticipated by many that the large channel which had been cut in the ice at the mouth of the river, below the railway bridge, by the city, would divert the ice in that direction and over the top of the ice in the bay. This did not happen, as the moving ice did not reach the channel, but was held up by the railway bridge. The piers upon which the superstructure rests apparently had the effect of arresting the onward progress of the ice. A few cakes of ice became divert from the channel of the river and were carried over the roadway leading to Victoria Park. At the railway bridge the ice piled up to such an extent that it not only went to the top of the piers, but rested against the iron work. Here it was securely held, and at the time of writing looks as if it might stay there for some time.

Evidence of Damage.

In its course through the city it was apparent from timbers and boards seen in the ice that some buildings had suffered. In rear of Mr. H. E. Fairfield's store there is what is termed a raceway, and a wooden bridge reached from the mainland to an island. This bridge was carried away and some damage was done to outbuildings on the east and west sides of the river, but fortunately was not of an extensive nature.

Bridges Slightly Damaged.

The footbridge, as usual, came in for hard knocks, and had it been a rigid structure it might have been carried away. It swayed to and fro on its cable supports, the ice passing beneath it. Some of the sleepers and a few of the cross pieces were broken. The city officials have closed the structure to traffic for the time being. It could not be used at present anyway owing to the depth of the water in the gangway. At this place the water did not reach as high a mark as it had in some previous spring freshets. The water was, however, from two to three feet deep and ran into the cellar of The Ritchie Company's store. No damage resulted, however, as the goods had been removed to a place of safety. In several of the buildings on the west side of Front street the water in the basements rose high enough to put the furnaces out of commission. The foot walk on the north side of the lower bridge was broken by the ice. A number of planks were forced up and the iron girders bent. This side of the bridge was closed to pedestrians.

Ice Goes Over Wall.

A considerable quantity of ice was carried over the west revetment wall just below the lower bridge and deposited on Coleman street in the vicinity of the Springer Lock Works. Water also ran over the road at a considerable depth and in a short time a number of residences on the lower portions of Coleman, James, Colborne, Brock and King street were surrounded by water. In some case the water came in on the ground floor, forcing the occupants to take shelter upstairs. In a few instances the occupants were taken out in boats and conveyed to homes of friends and elsewhere. In this particular portion of the city long rubber boots were much in evidence.

The Flooded District.

During Sunday afternoon this section of the city was visited by hundreds of citizens, who viewed the inconvenience and predicament of many of their fellow citizens from vantage points near by. Many expressions of regret were heard. Cameras were also in evidence and many views of the flooded district were taken. A moving picture machine was also operated from various points.

Water on Front Street.

When the jam occurred at the railway bridge cakes of ice were carried out by the rush of water on to the lower part of Front street just below the Queen's Hotel. That portion of the street was soon inundated, in which condition it still remains. Water went through the rear of premises on the east side of the street as far as Pinnacle street. A large cake of ice did some damage to the rear of Mr. R. Orr's livery stable, situated on the west side of Front Street near No. 1 fire hall. While no water entered upon the flooring of the fire hall, the building is completely surrounded by water, which is about two feet deep. Last night Chief Brown had the horses and hose wagon removed to other quarters in the vicinity. This precaution was taken in case the water rose higher.

Water Pipe Burst.

The inflow of a large quantity of water into the cellar of Messrs. Earl & Cook's store on the west side of Front street caused a pipe which supplies water to run the elevator to move and break, flooding the cellar to a depth of about five feet. Officials of the water works department were notified and in a short time the water was shut off.

Spirits Had Fled.

A mysterious casket story is a feature of the 1920 flood events. This casket came down with the first ice shove last week and was carried down under the footbridge, where it was swirled around in a miniature whirlpool until the cover was loosened, showing an array of bottles in the interior. A rescue party was speedily organized, the sombre couch of the dead hauled ashore, and the contents inspected, revealing whiskey and beer bottles galore, but divil a drop of the crater—the spirits had fled. The coffin was fitted up to hold a considerable jag of wet goods and no doubt saw service in the bad old bootlegging days previous to the ban on importation being lifted. It is surmised that it floated out of some cellar or had been hidden in the bush where the rising waters whisked it away down the Moira. The owners have not claimed it as yet.

The coffin was constructed out of solid walnut and is of considerable value. It could not have travelled far as there were few marks of ice jamming. The coffin was taken out by Mr. F. Andrews.

Ripples.

Druggists and others who keep kodak supplies did a thriving business as the demand for films was extensive.

A number were today busily engaged in securing wreckage from the ice and a large quantity of wood was secured.

Owing to furnaces being out of commission in stores on the west side of Front street, stoves were in good demand.

At the city building the water in the basement was this morning over four feet deep, partly submerging the furnaces and putting out the fires.

Some damage was sustained at outbuildings in the rear of houses along the east side of the river between the footbridge and the lower bridge.

Ald. Hanna, after considerable difficulty, rescued a horse, which was attached to a buggy and which had been placed in a shed in rear of Walker's hardware store. The animal was standing in water three feet deep.

Ald. Hanna, Chairman of Public

Ontario Ends Year With $1,559,802 Deficit

SHOWN BY PUBLIC ACCOUNTS TABLED IN THE LEGISLATURE — STARTED WITH GOOD BALANCE.

On ordinary accounts Ontario had a deficit of $1,559,802 for the year ending October 31, 1919. This is shown in the public accounts tabled in the Legislature. The Government presents the accounts this year some time previous to the Budget and not with it, as has been the custom in the past. The U.F.O. Government is not responsible for the accounts, however, and what defence is made of them will come from the Conservative benches on the Opposition side. Considerable discussion is expected. The members meantime will get ample opportunity to study the volume of figures.

The Province started the year with a balance of $5,140,176.35. The payments for the year amounted to $21,465,547.88 and the receipts totalled $19,904,772.04, leaving a deficit of over a million and a half.

Loans totalling about thirteen millions were floated, in which there was four millions for the housing scheme. Over $10,000,000 was secured by treasury bills, but on the other hand loans of $3,055,458 were retired, as well as over $4,000,000 in treasury bills. The balance at the present time in the bank is $7,603,110.19.

Ordinary Expenditures

The ordinary expenditures were: Civil Government, $1,165,864.27; Legislation, $315,768.16; Administration of Justice, $653,530.56; Education, $3,302,487.91; Public Institutions Maintenance, $2,693,857.52; Colonization and Immigration, $67,661.30; Agricutulre, $1,101,065.16; Hospitals and Charities, $782,589.71; Repairs and Maintenance $348,365.41; Colonization Roads, Maintenance,$140,062.87; Charges, Crown Lands, $1,180,947.57; Refunds, $58,330.74; Game and Fisheries, $477,003.75 Highways Department, $114,725.52; Attorney-General's Department (miscellaneous) $129,131.36; Provincial Secretary's Department, Miscellaneous, $354,250.13; Treasury Department, miscellaneous, $131,471.93; Miscellaneous Services, $71,138.26; Hydro-electric Power Commission, expenditure charged to Province, $202,537.49; Special Warrants, $302,970.86; Statutory Expenditure, ordinary $5,673,719.60; Public Buildings, $318,990.68; Public Works, $386,354.75.

Sources of Revenue

The main sources of revenue follow: Lands, Forests and Mines, $1,968,341.93; Provincial Secretary, $1,521,717.62; Department of Highways, Motor Vehicles Branch, $1,580,105.61; Sucession Duty, $3,366,823.95; Corporations Tax Act, $1,707,935.28; War Tax, $2,085,497.03. Receipts from the Hydro-Electric Power Commission were for interest amounting to $2,036,969.54.

Death Threat Sent To Mayor Before Killing

LONDON, March 20.—Not since the attempted assasination of Viscount French, lord lieutenant of Ireland has any Irish outrage of the scores perpetrated caused such a sensation throughout the United Kingdom as the murder of Lord Mayor MacGurin of Cork. Reports from Cork indicate that the people declined to attribute the affair to the Sinn Fein, and already there is talk of reprisals which, as some put it, may affect the whole country.

The MacGurin tragedy comes on the heels of sinister rumors of a Sinn Fein plot for another revolution in Ireland at Easter time.

If such a plot exists, it is pointed out, the murder of one of the Sinn Fein leaders would not tend to throw water on the fires of conspiracy. At the moment, the whole affair remains a sensational and dark mystery, whose clearing up is rendered difficult owing to the disordered conditions in Ireland.

Cork, Ireland, March 20.—The sensational murder Saturday morning of Lord Mayor MacGurin has not yet been solved, but it has become known that he received a threatening letter which he regarded as a joke. The letter directed the lord mayor to prepare for death, as he had been doomed.

'A special meeting of the Cork city council will be held and Mayor MacGurin's body will be removed to the City Hall where it will lie in state. two hours before the lord mayor was murdered Constable Murtag of the Royal Irish constabularly, was shot dead in the street. His body was riddled with bullets.

When the police visited MacGurin's house to make inquiries for inquest purposes, they were refused admission. The lord mayor's body draped in Sinn Fein volunteer uniform, lies in his residence which is guarded by volunteers, while the body will lie in state in the city hall from to-night until Monday when a public funeral will be held.'

VISITED BY MILITARY

Two hours after the murder a large force of military visited MacGurin's home and searched the room where the body was lying. Thus far the identity of the murderers has not been discovered, nor has any motive for the murder been assigned. It is held that the crime could not have been committed by Sinn Feiners against one of their own number and many residents of Cork are expressing fear of reprisals which may affect all of Ireland. The murder of MacGurin follows an attempt Thursday night against the life of Professor Stockley, who was an alderman in the Cork corporation in the Sinn Fein interests.

Ivens' Voice Gives Out After Two Days

WINNIPEG, March 22.—Inferring that the crown had arrested the accused originally to break the Winnipeg general strike and had intended to deport them without a jury trial under the amendments to the immigration act, E. J. McMurray, defence counsel, addressed the strike trial jury Saturday.

"We contended that faced with the necessity of making a case the crown had dug up the evidence presented at the trial after the arrest of the accused and had enlarged the scope of the conspiracy to cover the whole Dominion. Mr. McMurray pointed out the class of witnesses called by the crown, detectives, reporters and employes and asked the jury if their evidence could have been impartial. He dealt with the original information sworn against the accused. This, he said, dealt originally entirely with the Winnipeg strike and was laid for the purpose of getting the accused out of the way.

Shortly before adjournment, Rev. Ivens informed the court that he was sick and asked permission to go home. This was granted. Mr. Ivens stated that he was suffering as a result of the strain of speaking to the jury for two days.

When Mr. Ivens informed the court that he was unable to address the jury Saturday morning Mr. McMurray asked permission, stating that he wished to go east Sunday with the body of his father. Mr. McMurray, senior, died Friday.

Mr. McMurray opened his address by praising the jury for their patience in listening to the trial. This trial, he stated, was the most important that had ever been heard in Canada. It would be read by their descendents as were other persecutions of the early social reformers.

The whole trial concerned the rights of trades unions to organize. The matter had been argued previously before many courts, but had never been handled so thoroughly before.

"What is the great British people?" McMurray asked, "Is it the parliament or the house of lords, or is it the common people with their trial by jury, their freedom of speech and their power by vote?"

Time was when a man stood up for trial and was persecuted by the judges, the government and the parliament when uttering his opinion.

Mr. Justice Metcalfe: "I must stop you talking about the judges."

Mr. McMurray continued by saying that men had died for freedom of speech.

MEASLES HIT WINNIPEG

Winnipeg, March 22—An epidemic of measles is sweeping this city. From 40 to 50 new cases are reported daily. A general warning to parents to keep their children out of crowds was issued today by the city health department.

Thirteen Injured In Railway Wreck

Special Despatch to The Intelligencer
Canadian Press Limited

YARMOUTH, N.S. March 22—Thirteen were injured, a few seriously, when a pullman and a first class passenger coach of the eastbound Halifax express on the Canadian National Railway left the rails and rolled down an embankment at Belleville, eighteen miles from here this morning. A special train carrying doctors and nurses was despatched to the scene and the injured were brought back here for treatment in a local hospital.

Dominion G.W.V.A. Opens Convention

MONTREAL, March 21.—Over two hundred delegates, the advance guard of the Dominion great war veterans convention which opens tomorrow were registered here tonight. The total attendance is expected to reach 400 and at the usual executive meeting today all members of the Dominion executive were present including President W. P. Purney. He is not in good health and it is probable that the duties of chairmanship will fall upon R. B. Maxwell, of Winnipeg, first Dominion vice-president.

TRAVELS A MONTH

Among the delegates registered tonight was J. L. Johnson, of Dawson City, who after traveling nearly a month by dog sleigh and train, has arrived to represent the ninety-six members of their G.W.V.A. in the Yukon.

The first woman delegate ever to represent a branch is Mrs. W. Garland Foster, a former nursing sister, who is here to represent the Nelson, B.C., branch.

Approximate numerical strength of the delegates is:

Ontario, 200; Manitoba, 30; Saskatchewan, 30 to 40; Alberta, 40; British Columbia, 30; Nova Scotia, 25; New Brunswick, 20; Prince Edward Island 5; Quebec 27. Newfoundland is not represented, that colony having an independent organization.

The convention will open at ten o'clock tomorrow morning, the first business being registration of credentials.

Women Demand Trial Reopened

HAMILTON, March 22.—The Women's Citizens' League has joined other organizations in the cause of the young girl who charged a colored man in the Police Court on Thursday with having assaulted her. Mrs. Gordon Murray, on behalf of the League has forwarded a letter to the Attorney-General drawing his attention to the published reports of the case in which the negro, accused of having committed the crime, was allowed to go, and asking if the case may be reheard. The feeling generally is that if the man who was acquitted was not guilty, some other person was guilty of a terrible offense against a fourteen-year-old girl and that this guilty person should be punished. Few cases in recent years have stirred up such general feeling as this.

Outlook Black in Germany.

Berlin, March 22.—Conditions in Germany were described by the Defence Ministry this morning as extremely serious. "You cannot paint the situation throughout Germany too black," an official at the Ministry declared to an Associated Press correspondent after surveying reports which arrived during the night. The southern and eastern parts of Germany are reported quiet, although unrest was said to be spreading among the agricultural population in Pomerania and Mecklenburg. Berlin is quieter, while in the Halle district the position was reported worse from the government aspect.

8,000 Slain in Germany Since Revolution Began

EIGHT HUNDRED AND FIFTY KILLED IN BERLIN ALONE—CONDITIONS SAID TO BE GETTING WORSE—COMMUNIST MOVEMENT SHOWS GREAT STRENGTH AND PITCHED BATTLES ARE BEING FOUGHT WITH GOVERNMENT TROOPS.

Special Despatch to The Intelligencer, Canadian Press, Limited.

PARIS, March 22.—Negotiations between members of the Ebert Government and party leaders of the German National Assembly and delegates of workers, which have been going on at Berlin, are declared in an official British report to have been interrupted because of an increase in the claims of the workers.

Eight thousand persons have been killed since the revolt broke out on March 13, according to a despatch received here. Of this number 850 were killed in Berlin alone. The Berlin Ministry of Defence announced that conditions in the Ruhr district were becoming worse, the towns of Oelde, Ahlen and Drensteinfurt, in Westphalia, having been taken by the Communists, it was stated, and the movement was spreading north and east. Pitched battles have been fought, the ministry's information showed, and two crack Government Regiments have been forced to fall back on the fortress of Wesel, on the right bank of the Rhine, northeast of Essen, after heavy losses had been sustained on both sides. The Red army, it was added, was well armed with artillery.

Spartacan forces in the Ruhr valley number at least twenty thousand, while other estimates place the number at forty thousand.

Given Two Years In State Prison

Senator Newberry, Convicted, Gets Maximum Sentence

GRAND RAPIDS, March 21—Truman H. Newberry was on Saturday convicted, and within two hours, sentenced to serve two years in the United States penitentiary at Leavenworth and fined $10,000 for conspiring to violate the Federal Corrupt Practices Act

With him were convicted and either sentenced to prison, fined, or both, 16 others of the 85 defendants who have for weeks been on trial in the United States District Court for the Western District of Michigan.

The sentences imposed by Federal Judge Sessions upon Mr. Newberry was the maximum permitted under the law. Two other—Paul H. King, Mr. Newberry's compaign manager in Michigan, and Frederick Cody, Mr. Newberry's confidential adviser in New York—received the same sentence. Other sentences ranged down to a fine of $1,000.

Released Pending Appeal

After imposing the sentence, Judge Sessions, denying a motion for a new trial, granted a 90-day stay of execution in which the defence might perfect appeal, and released the 17 convicted men on personal bonds of $5,000 each pending that appeal.

Mr. Newberry and Hannibal A. Hopkins, another of those convicted, prepared to leave tonight for Washington.

Demobilization Is Ordered Of Canadian Naval Service

SHIPS TO BE WITHDRAWN FROM COMMISSION, AND THE NAVAL DOCKYARDS PLACED IN CHARGE OF CARETAKERS — FIVE HUNDRED OFFICERS AND MEN TO BE DISBANDED.

Special Despatch to The Intelligencer
Canadian Press Limited

OTTAWA, March 22.—A statement with regard to the demobilization of the Canadian Naval Services will be made in the Commons within two or three days. Until it is made, Hon. Ballantyne, Minister of Naval Service will say nothing. It is stated, however, in authoritative circles that the news as published so far is practically correct. Orders for demobilization of service were not, however, given out by Mr. Ballantyne until he had consulted his colleagues of the Cabinet on the matter and reached with them a decision.

The demobilization of the Canadian Naval Service follows a decision of the Unionist caucus held recently at which it is stated, plans of Admiral Jellicoe looking to the establishment of a Canadian navy were turned down in a decisive manner. The attitude of the caucus and the decision of Government to demobilize the Naval Service means that Canada will lose a fleet of ships valued at pre-war figures at $16,500,000.

NAVAL LEAGUE PROTESTS

Toronto, March 22.—Protesting against the action of the Government in stripping Canada of all naval defences and abandoning the Naval Policy, the Navy League of Canada has issued a call to all branches of the organization in the Dominion to press upon the Government the imperative need for the development of Canada's naval forces. All members of the Dominion Cabinet have already been memorialized to the above effect.

OTTAWA, March 22.—Orders which will have the effect of demobilizing the 500 officers and men now engaged in the Canadian naval service, of withdrawing ships from commission, and placing the naval dockyards in charge of caretakers at the end of the present month, are reported here to have been issued by Hon. C. C. Ballantyne, the Minister of the Naval Service. The story in circulation is that the majority of the force of officers and men now employed on ships, in dockyards and in clerical capacities in the Naval Service Department here will be disbanded by April 1, the beginning of the new fiscal year, 1920-21. A skeleton force, it is said, will be retained until July 1 to wind up the business of the Department, lay up certain ships, sell others, and close up the yards. It is stated that the closing of the Royal Naval College at Esquimault was at first ordered, but that subsequently the order was countermanded. The principal vessels of the Canadian Naval Service are the cruiser Niobe and the Hochelaga on the Atlantic coast, the cruiser Rainbow and Stadacona on the Pacific, and a number of lesser craft, including trawlers, drifters, tenders and other auxiliary boats. The Niobe has not been in full commission for some time. The Rainbow is a small, unarmored cruiser, and certain other vessels, which were employed in the mine-sweeping and coast-patrol services during the war, are naturally not required now. Certain of these auxiliary craft, it has been reported, are to be sold.

News Confirmed.

Several members of the Government, spoken to with regard to the report, stated that it must have been a Departmental order, no action having been taken by the Government. Hon. C. C. Ballantyne and his deputy are both out of the city. The news comes, however, from an apparently good source, and is in a measure confirmed by a despatch from Esquimault announcing the receipt of such orders there.

The orders are said to result from the placing of only $300,000 for the Naval Service in the estimates for 1920-21, which are to be presented in Parliament tomorrow. The appropriation to be sought in the main estimates was limited to that amount, it is alleged, pending a decision whether or not Canada should embark on a new naval programme. The Unionist caucus, however, pronounced against naval legislation this session. The amount to be voted, $300,000, it is stated, is sufficient to carry on the present Naval Service until July 1.

MUSIC AND DRAMA

(What the Press Agents Say)

"THE OLD HOMESTEAD"

With a splendid cast and a magnificent production, Augustus Piton Inc., presents Denman Thompson's "The Old Homestead," America's greatest rural comedy drama at Griffin's Opera House to-night for one night only. It was presented for the first time at the Boston Theatre in April 1886. This rural classic has been amusing the theatregoers for the past thirty years and has played to more people than any other modern play, with the possible exception of 'Uncle Tom's Cabin' It is clean, wholesome and witty with heart throbs and humor so intermixed that it keeps the smiles holding back the tears.

In the cast will be found William Lawrence as "Uncle Josh" who has played for the past fifteen years, also George L. Patch who has played the country fiddler for twenty-five years and there are many others, who have been with "The Old Homestead" for years giving laughter and tears to this the most human of all plays. That the play makes a special appeal to all with its natural sentiment, its pure intent and its genuine natural touches there is no gain-saying and will be a most welcome offering to all lovers of clean wholesome comedy.

'THE WOMAN THOU GAVEST ME'

A magnificent picturization of "The Woman Thou Gavest Me" by Hall Caine, the most famous novel by the Manx Author, will be seen at Griffin's to-morrow night and Wednesday matinee and night. Hugh Ford, one of the most experienced of stage and screen producers, includes Katherine MacDonald, Milton Sills, Theodore Roberts, Jack Holt, Fritzi Brunette, Katherine Griffith and others. "The Woman Thou Gavest Me" was produced upon the stage by Derwent Hall Caine, son of the author, in 1917, in Boston with success. As a novel it outsold all other works of Hall Caine. As a picture it doubtless will prove one of the screen's greatest triumphs. The tremendous story of Mary's srtuggles after being sacrificed upon the altar of wedlock to a man she hates is unforgettable and as the story covers a wide field—Egypt, Africa, India, England and the South Polar regions—it will be not only powerful dramatically but colorful and fascinating in every other way. The production has practically an all star cast of players. Miss MacDonald, a prime favorite, has the leading feminine role and Jack Holt has one of the best roles of his screen career. A 2-reel Mack Sennett comedy and two other selected attractions are also announced for exhibition.

MITCHELL LEWIS AT PALACE

You have seen Mitchell Lewis, the hypical man of the great outdoors, with his hulking form and gigantic strength at he Palace in such splendid thrilling and vital pictures as "The Code of the Yukon," and "Children of Banishment." In "Jacques of the Silver North," his latest picture, he has the greatest role of his screen career. As Jacques La Rouge, the half-breed, who is in love with Memory Baird, the pride of the camp, he gives a striking and lovable characterization of the man of the Northwest. A story alive with action, smiles and pathos. "Jacquest of the Silver North" is being shown at the Palace tonight to Wednesday, matinee daily, along with Harold Lloyd in another of his always funny comedies, the 9th chapter of "The Fatal Fortune" serial and other plays of interest.

Demand Return of 20 Cases Liquor

TORONTO, March 22.—Because Justice Hunter and Ruttan, of Kingston, convicted Sam Hogan, of Wolfe's Island, on a charge of a breach of the Ontario Temperance Act, and fined him $200 and costs, when he was not present throughout the proceedings, the conviction was quashed here today on an appeal to Mr. Justice Masten. Hogan was tried in the morning and after lunch the two magistrates, with the counsel for the proseeutor called on the Crown Attorney with reference to the case The accused was fined $200 and costs following this conference, at which he had not been represented. The accused had the right to be present at all the proceedings and the action of the magistrates was held by Justice Masten to have been against the common rule of law.

"Having regard to the unfairness of the whole proceedings, the conviction must be quashed, with costs to be paid by the magistrates," said Justice Masten. The magistrates are granted immunity from an action for damages on the ground that what they did was "not done maliciously or with the intention of being unfair."

WANT LIQUOR BACK

Kingston, March 22.—Legal proceedings in connection with the Wolfe Island liquor cases are not over. The Appeal Court at Toronto quashed the convictions against John Aulison and Edward Kelly, who were found guilty of having liquor for sale, and now they will demand that liquor seized be returned. There were ten cases taken from each.

LETTERS FROM READERS ON CIVIC AFFAIRS

Expressions Of Opinion Welcomed, But Name of Writer Must Be Attached to Letter for Publication.

MORE ECONOMY NEEDED

To The Editor of The Intelligencer:

Dear Sir,—In reading your report of the last meeting of the Board of Education I saw that our city teachers were there in force to demand increased salaries. Should it be necessary to grant their request the taxes will have to take another higher jump. Surely that will be sufficient expenditure, and cut out the Collegiate question for the present owing to the almost unthinkable prices of material. Consider brick at thirty dollars per thousand, ordinary siding, seventy dollars per thousand, shingles nine dollars and these items only a drop in the bucket, leaving labor out of the question altogether.

Is it not criminal to force such expenditure on the poorer citizens, who are desperately struggling to live, either paying rent or as owners of rented property have the extra taxation to pay and must raise the rent, also those who are trying to procure homes. The writer knows from higher authority than our School Board that the Government is prepared to be lenient re grants while labor and material are in their present condition. It is very easy for men with assured incomes, also war-rich citizens to be generous with other people's money, however, we were not all fortunate enough to grow independent during the war. How many of us are doing without everything possible in order to make ends meet and many more without necessities, on account of the prohibitive prices of food.

The Editor's recent writing also Mr. Flint's letter are the only rays of light on our clouded financial horizon.

A few years ago there was another panic re High School conditions. Since that time I have not heard of any serious illness of either teachers or pupils caused by said conditions.

Surely the voices of the laboring classes, which are greatly in the majority in our town, should be heard above a few rich men who want to force their projects through.

They know if it goes to a vote of the people it will be defeated, and justly so.

Unless we do as Mr. Flint suggested, get together and send a petition to the Government.

I am not only voicing sentiments of hundreds, but thousands of our citizens in the above remarks. One seldom reads a paper without seeing items from different cities crying economy in civic expenditures and none need it more than ourselves.

Hoping our Council and Board of Education will consider the necessity of economy for the present until the majority of us working people get on the level again.

Thanking you for space.

L. DOXIE.

Belleville, March 22.

Protect Dairymen Under New Bill

Inspectors to See That Producers Get Fair Content Test

Hon. Manning Doherty's important measure to protect the milk and cream producers of the Province in the sale of their product was introduced in the Legislature. The bill covers two important phases of dairying, applying to:

"All cream purchased for sale, shipment or manufacture."

"All milk paid for on a butter-fat basis."

It declares that all milk or cream so marketed shall be paid for by the purchasers according to its butter-fat content as revealed by the Babcock test. The measure outlines the method of taking samples and testing the cream or milk and provides authority for the Government to make the Act effective. This will be done by the appointment of Government inspectors, who will have the right to test milk in any factory, upon wagons, or cream en route to the purchaser.

The inspectors will make frequent tests and a record of the tests made will be sent to the shipper who upon receiving the statement from the purchasers as to the fat content of the product will be able to compare it with that of the inspector. Where a discrepency exists to the disadvantage of the shipper, he will be able to secure redress by informing the inspector, who in turn, will take action against the offending firm. Fines of $25 to $100 are provided as penalties upon any person who interferes with an inspector, who falsifies any record or makes an improper reading.

The necessity of legislation has been demonstrated to the department. Hon. Mr. Doherty states that one series of tests, covering over two hundred cases, showed that the butter fat for which the shipper was paid, was declared by the purchaser to be, on the average, about three per cent. below the actual content.

Moira Again In Flood

(Continued from page 1).

Works, was, as usual, a busy man, and was soon upon the job rendering what assistance he could. He was ably assisted by Mr. John Henderson, city foreman, and some other Aldermen and city employees.

Even best cellars are not respected by the flood, and it is rumored that congenial and convivial spirits flitted from cellar to garret under the threat of dilution.

No. 4 Fire Hall was turned into an island, but Chief Brown and his laddies are so fond of water that they have been known to swim in it, so they are holding the fort on a wet basis.

The Mad Moira even invaded the City Hall cellar and extinguished the fires in the furnaces, so that unless the Aldermen get het up personally tonight the indications are favorable for a cool and quiet meeting.

Again the question is open for discussion: Why not take preventive measures to make future floods impossible. The consensus of engineering opinion points to the upper reaches of the river as the proper place to control the ice shoves of the spring. The floods cause great financial loss and serious inconvenience, and no good can result from persistently and continuously shelving the question of flood prevention.

Moving picture operators for the Pathe Illustrated Screen News service, after a long wait, were able to get some good views of the Moira on the rampage. Immense fields of ice, moving down with seemingly irresistible force, engulfing everything in its reach and tearing away protesting timbers like matchwood, afforded a great spectacle, which will be reproduced on the screens of the world under the caption: "It Happened in Belleville."

Over 1,200 Saved By Great Heroism Of Asylum Head

NEW YORK, March 22.—In the low rambling wooden assembly hall on Ward's Island 1,200 of the 6,000 patients of the Manhattan State Insane Asylum were watching last night the big screen where the regular weekly program of movies were flashing. Watching, too, from the second row was Dr. Marcus B. Heyman, superintendent of the asylum and his family.

The first half of the show was over before 9 o'clock and the first reel of the second photoplay was just starting when Dr. Heyman caught a whiff of smoke. Then he saw a tiny trickle around the edge of the screen. Realizing the danger he glanced hurriedly around at the spectators. In the semi-darkness he saw the 1200 faces gazing intently at the screen and he knew that the spurt of fire had not been seen, else the dread signs of panic would have been seen running through the hall.

Quietly leaving his seat and whispering to members of his family near him to sit still, he made his way to the stage. He posted himself at one side of the screen, where the pictures were still running. Then speaking slowly he leaned out toward the more than a thousand in the darkness and said:

ORDERS PATIENTS TO LEAVE

"First of all, I want to tell you that everything is all right, and I want to caution you to be extremely quiet. It is essential that there be not a sound. You see, there's a little trouble here. It is nothing of any consequence, I understand, but I want all of you to file out and by the way, I want you to go in the regular fire-drill formation."

Carrying out his pretense that there was "nothing of any consequence" happening, the physician cooly turned his back to his spectators, surveyed the pictures for a second or two and then walked down and sat beside his family. He told them about the fire and how fire holds a great impelling attraction for the insane and that if the patients knew of the flame, much difficulty might result in attempting to get them from the hall.

While Dr. Heyman was telling this, the patients, still unaware of the fire, got up from their seats and fell in by pairs. In unhurried fashion they filed out of the exits, and in two minutes the escorting nurses reported all of them back in their own wards in buildings some distance from the assembly hall. And they were scarcely out before the fire ripped through the screen and belched in ball-shape out into the auditorium and up toward the ceiling. The rush of the flames was seen by Dr. Heyman shutting the iron door behind himself and his family.

When The Day Is Over

When the household cares and the worries of everyday life have dragged you down, made you unhappy, and there is nothing in life but headache, backache and worry, turn to the right prescription, one gotten up by Dr. Pierce fifty years ago.

Everything growing out of the ground seems intended for some use in establishing natural conditions. Dr. Pierce, of Buffalo, N. Y., long since found out what is naturally best for women's diseases. He learned it all through treating thousands of cases. The result of his studies was a medicine called Dr. Pierce's Favorite Prescription. This medicine is made of vegetable growths that nature surely intended for backache, headache, weakening pains, irregularities, and for the many disorders common to women in all ages of life.

Orillia, Ont.:—"I suffered from a bad case of woman's trouble with backache, nervousness, disordered digestion, irregularity and I had great pain all the time, sometimes I would faint at my work. I had one physician after another but they did me no good. I then took Dr. Pierce's Favorite Prescription and it fixed me up all right, I look much better and feel fine. I will recommend the 'Prescription' to all suffering as I did."—MRS. MAYBELLE B. GRATRIX, 115 Albert St.

Write Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for confidential advice and you will receive the medical attention of a specialist, wholly without fee—no charge whatever.

THE FUTURE OF WAGES

Philadelphia—Present high incomes of wage workers will not continue indefinitely. Scales of pay may not come down, but less steady employment and loss of bonuses inevitably will bring about a decrease of the average annual income of the workers

These predictions are made by Roger W. Babson, the statistician.

"Now is the time to save in prepaation for a rainy day ahead." He said: "When labor says it will not submit to a reduction of wages, regard less of conditions, it does not say it will not get along with less 'pay' than it is receiving now.

"There is a real drop in wages coming, but it will be in the average annual income of the wage earners rather than in their wage scales."

MILITARY NEWS

The 15th Regiment (A.L.I.) will be inspected by Major General V. A. S. Williams, C.M.G., General Officer commanding Military District No. 3, on Friday next, March 26th, at 7 p.m.

Members are expected to make special effort to attend this parade.

Members are reminded that they should be clean and smart as possible as appearance is one of the first impressions made by inspecting officers.

Members who have not yet drawn their uniform can do so on drill night. Company drill is now being carried out, and, as this drill is part of the programme laid down for the inspection, drill will be held every evening next week commencing on Monday, 22nd March, at 8 p.m.

The drills for next week will be at 8 p.m. Monday, Tuesday, Wednesday and Thursday, concluding with the in-

Letters To The Editor

CHRISTIAN SCIENCE DEFENDED

To the Editor of The Intelligencer:

Dear Sir,—In your issue of March 16 appears a report of a clerical attack on Christian Science. This criticism is there described as "a searching analysis" of Christian Science and a "thorough examination" of its doctrines, but I aver that your account displays it as a very superficial and unfavorably prejudiced "scoring" to borrow from your caption, "Christian Science Teachings Scored." Per contra, it may be said that the teachings of Christian Science always score largely in any fair field of investigation and experience, i. e., when accurately applied in practice.

The critic calls Christian Science one of the absurdities of that which Mrs. Eddy uncovered as 'mortal mind.' Mrs. Eddy uses this term as synonymous with "the carnal mind" which our Authorized English Versions gives to translate St. Paul's term. He defines it as enmity against God, and Mrs. Eddy, referring to God as divine Mind, defines "mortal mind" as the suppositions opposite of divine Mind. Therefore it is readily seen that her thought ran in the same current as that of the great Apostle, whose writings, as indeed those of the entire Bible, she studied so profoundly. Critics too frequently jump at the conclusion that Mrs Eddy, being a woman, could not think deeply and must be considered mired. Nevertheless she thought her way through her subject, as thousands who continue to study her works testify.

The preacher admits that the undertakings of Christian Science to obliterate pain and disease is a very attractive one. It should be understood, however, that Christian Science does not undertake this problem in any superficial or magical sense. In her boog, "Science and Health with Key to the Scriptures," Mrs. Eddy writes: "Better the suffering which awakens mortal mind from its fleshy dream, than the false pleasures which tend to perpetuate this dream." (Page 196). It is a travesty of Christian Science to say that there is no pain, because there is nothing to be pained. Christian Science overcomes pain by a process of undermining sinful belief by lifting thought to a sense of confidence in and reliance upon divine love as supreme over all.

And so we agree with our critic that the demonstration of healing is important, but genuine healing must be a part of the whole process of moral and spiritual regeneration and must be based upon an understanding of God as divine Mind, Love, Principle, Spirit. A mere charming way of uncomfortable symptoms by unthinking credulity or by hypnotism ,or by faith in drugs, is diametrically opposite to the spiritual healing of Christian Science.

Our critical friend attempts to minimize the effects of healing through Christian Science. He says cases of healing are not so general nor so successful as is popularly believed. He should consider that there is often encountered an atmosphere of disbelief in the divine power and willingness to heal, which tends to make the healing less general than it should be. And of course Christian Scientists are only beginners in this Science. It is recorded that even the Master, Christ Jesus, did not many mighty works in certain communities because of prevalent unbelief. Will our critics unite with us in encouraging their flocks to believe that all good is possible with God? Then healing will become more widespread, and in all Christian churches the healing of physical ills by spiritual means will be more frequent. Mrs. Eddy says on page 345 of "Science and Health:" When the omnipotence of God is preached and His absoluteness is set forth, Christian sermons will heal the sick."

Whatever may be said of cases in which the patient, though benefitted for years, eventually succumbs to some dread disease for which relief was sought and admittedly obtained in some measure, let our critic be assured that in genuine Christian Science healing the results are thorough and permanent, and the patient does not die of a return of a specific ailment. It can be shown that children brought up under the influence of Christian Science are intelligent, happy and healthy, though it would be absurd to claim that either children or adults are immune to all diseases. Equally absurd wold it be to claim that Christian Scientists do not pass from this sphere of human existence. But in a vast number of instances their human life has been lengthened and improved in many ways. Our critic must admit the Apostolic teaching that death is the last enemy to be overcome. Christian Science is allied with every earnest effort to undermine the enemy by lessening the sickness and sin, "the wages" of which, according to St. Paul, is death. Therefore let us help rather than hinder one another in this Christian warfare.

Sincerely yours,
GEORGE R. LOWE.
Christian Science Committee on Publication for Ontario.

WILD SCENE IN COURT

Hamilton, March 22.—There was a wild scene in the police court when Robert Boyd, a colored man, charged with an offence against a white girl under fourteen was found not guilty and given his liberty. When the magistrate gave his decision the mother of the little girl seized a chair and hurled it across the court room at Boyd. The chair missed him.

The enraged mother then attempted to force her way to the dock and the father joined her, to get at the prisoner.

Boyd quickly made his escape and the child's parents were finally overpowered by the police and forced from the court.

Sudbury beat Granites 5 to 1 Saturday night and win the Allan Cup round by 11 to 3. Sudbury meet University of Toronto in the semi-finals the winners meeting Falcons of Winnipeg for the cup.

You Can See That

Grape-Nuts

contains its own sugar

and the first taste verifies it

Hold some Grape-Nuts in the palm of the hand under a good light and you will see tiny shining particles on each granule. This is dextrin—partly converted sugar. But with your first spoonful comes the sweet taste you recognize, the fully converted sugar *within* the granules.

The famous Grape-Nuts method of making, converts the starches of wheat and malted barley. You get the result not only in flavor but easy digestibility and valuable nutrition.

Other cereals lack this sugar

Isn't this a good thought in connection with the high price and scarcity of sugar?

Eat Grape-Nuts

SUDBURY 5—GRANITES 1

Toronto, March 22—Sudbury, champions of the N.O.H.A. has supplanted Granites as the hope of the East against the West in the Allan Cup finals. Reversals in form come thick and fast and in the last days of the O. H. A. race, and when Granites, tired though they were through their exertions, put Tigers away decisively they were hailed as the best team in the East. Sudbury, however, were underestimated, and it remained for them to administer a crushing defeat to the battle-scared Curlers. On Wednesday night they defeated the locals 6 to 2 and were not given full credit for their achievement, but when they came back on Saturday and administered a 5 to 1 beating to the Granites, the hats of local fans were doffed to them. University of Toronto will meet Sudbury tonight and again on Wednesday, but the only Queen City team remaining in the running faces a mountainous task.

Granites were an exhausted team on Wednesday, but they got a much-needed rest and went into the game on Saturday determined to overcome the lead. In the first seven minutes they caught the Northerners off their stride and rained shot after shot at Goaler Duncan, but good fortune was with the N.O.H.A. champions and only one goal was tallied against them. Duncan made several stops of the horshoe kind; some which he didn't see hit him, while others rebounded from his pads and always within easy reach of one of his defence players.

It was the only time throughout the game that Granites appeared to have a chance to overcome the lead and when they succeeded in tallying but one goal the backbone of the team was broken. The Curlers worked frantically and their own anxiety cost them at least three counters. Aird and Jeffrey got past the defence for close-in shots on Duncan, but the latter either saved cleverly or the puck-carrier shot wide. After maintaining a fast pace for a few minutes the worn out and weary Granites subsided and were not again a factor.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly, and avoid penalties

CLASS 2

Forms to be used in filing returns on or before the 30th of April, 1920:

All individuals other than farmers and ranchers must use **Form T 1.**

Farmers and ranchers must use **Form T 1 A.**

Corporations and Joint Stock Companies must use **Form T 2.**

PENALTY

Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provisions of the Act, shall be liable on summary conviction to a penalty of $100.00 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding $10,000, or to six months' imprisonment or to both fine and imprisonment.

Address of Inspector of Taxation for this District.

BELLEVILLE, ONT.

1

R. W. BREADNER, *Commissioner of Taxation.*

Daily Intelligencer.

Printed and published every afternoon (except Sundays) for The Intelligencer Printing and Publishing House (Limited) in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 237 Front street, Charles James Bowell, Publisher.

RATES OF ADVERTISING. Measurement, Agate, 14 lines to the inch. Display advertisements, 10c. per line. Reading advertisements, 15c. per line. Legal advertisements, 10c. per line first insertion, 5c. per line subsequent insertions. Preferred position, 20 per cent. advance upon usual contract rates. Minimum space 10 lines. Births, 50c. each insertion. Marriages, 50c. each insertion. Deaths or funeral notices, either singly or combined, $1.00. In Memoriams not exceeding 10 lines, $1.00. Rates for condensed advertisements will be found elsewhere. Business cards by the year at low rates. Further information may be obtained at The Intelligencer business office.

SUBSCRIPTION RATES. Daily Edition—One year delivered in city, $5.20; one year, post office box or general delivery, $4.00; one year by mail to rural offices, $4.00; one year to U.S.A., $5.00. Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.00; six months pro rata. All above subscriptions payable in advance or an additional amount of 20 per cent. will be added.

SHOVEL SLACKERS MADE TO PAY.

The pressing need of some systematic method of removing the snow from the walks in Belleville was never more emphatically illustrated than this year. Some people pay little attention to their walks, not even clearing a six-inch trail through the snow banks for pedestrians. Some of the walks are not clear yet and citizens have to plod wrathfully through slush because someone else is thoughtless or selfish or lazy, or all three combined.

The walks can be kept clear of snow all winter at small individual expense by a system of civic snowplows, and action should be taken by the City Council now before the pleasant smiles of Old Sol charm away the memories of the late strenuous and unlamented winter.

Even city property, parks and schools, were included in neglected sidewalks, where the snow was permitted to linger long, and longer than the temper of the public.

Brockville experimented with a civic snowplow this year with successful results, and the Recorder of that place, urging an extension of the system, says:

> The success that has attended the use of a municipal snowplow in Brockville this winter should act as an incentive to a better equipment and more general system of removing snow for next winter. Like all new things, there is likely to be opposition to it, but the acquisition of a snow-removing plant would prove a boon to Brockville. Some means, perhaps, of paying for the removal could be adopted. All remember the opposition to the garbage removal system. Today no person would revert to the old system of a few years ago. While discussing snow removal, it has been suggested that the roadways of at least the main thoroughfares should be kept more clear of snow and thus assist traffic that is essential in the municipality. The matter is worth consideration.

A LONG TIME AGO.

It was The Intelligencer's privilege and pleasure to peruse copies of some old newspapers the property of Mr. Hope McGinnis, highly prized by that gentleman, as well they might be, on account of their historical interest and the message which they convey on their pages, yellow with age. Some of the papers were published in Belleville, others in Kingston and Toronto, and contain frequent reference to that turbulent spirit of the times, William Lyon Mackenzie, whose agitations and activities in the cause of reform contributed an interesting and exciting chapter to Canadian history.

The Phoenix, published weekly at Belleville, U.C., by T. Slicer, and printed by W. A. Welles, is represented in Mr. McGinnis' collection with a copy dated February 7, 1832. This issue contains a variety of reading matter, including poetry, short stories, selections from other papers of the period, summary of legislation passed by the Provincial Parliament, local news, advertising and editorial. The leading editorial pleaded with the people of Hastings to refrain from signing a petition on grievances "manufactured by that indefatigable grievance monger, W. L. Mackenzie, of York," who is styled as a "contemptible and unprincipled demagogue."

That there were differences of opinion in those days as in ours is evidenced by "Letters to the Editor," in which brotherly love and tolerance is not the most conspicuous feature.

One advertisement notified the public that John Maybee, Junior, an indentured apprentice, was a runaway from Saml. Stevens, and all persons were forbidden to harbor the said apprentice.

John O'Connor, a tailor, announced that he had sharp shears and a clear conscience and was prepared to turn out clothes of a cut that would make one's eyes water and cause the ladies to say, "That's the time o'day, my flower."

Charles Nelson notified the public that he had a large stock of dry goods, also wet goods, including Jamaica Spirits, Cognac Brandy, and Bordeaux Wine, good and common, and Holland Gin.

Abraham Stimers kept the Union Hall, a comfortable hotel; James MacNab and Samuel Bull kept the "Cheap Store," James Shaw the "Cash Store"; Manahan & Willard, dry goods, groceries, wines and liquors, etc., while John Rutter made a specialty of hats for "cash or short approved credit, but the former would be preferable." A legal advertisement is signed by T. Parker, J.P.; Robert Smith, J.P., John Turnbull, J.P., A. Marshall, J.P., William Bell, J.P., Wm. Ketcheson, J.P.

Other papers in the collection include several copies of the Hastings Times of the vintage of 1832, published by William A. Welles, for the Proprietors, and delivered weekly to subscribers in the village of Belleville at Seventeen Shillings and Sixpence per annum, with a reduction to subscribers from the country who may call or send for their papers. By mail the paper was Twenty Shillings per annum.

Wilson's Experiment, published in 1848, by Joseph Wilson, mentions another publication issued from the same office, The Victoria Magazine, edited by Mr. and Mrs. Moodie, described as the two best writers of fiction in Canada at that time, Mrs. Moodie's poetry being especially eulogized. This will be interesting to readers who are familiar with "Moodie Cottage," which sheltered this noted couple, now occupied by Rev. A. L. Geen and family.

The Hastings Chronicle of 1852, and the Belleville Free Press of 1877, are also interesting features of the collection, deserving of more extended reference in future articles relating to the contents of these old newspapers.

The Upper Canada Herald, Kingston, 1828; Christian Guardian, York, 1831; Correspondent and Advocate, Toronto, 1835; Spectator, Kingston, 1835; Herald, Kingston, 1842, are also included in the collection.

CRISP COMMENT

The German Kapp looks suspiciously like a Prussian helmet.—Toronto Globe.

× × ×

To own his own home should be the ambition of every man.—Hamilton Times.

× × ×

History repeats itself. Dempsey is not going to France to fight.—London Opinion.

American papers are unkindly reminding Dempsey that he shirked fighting when the war was on. But Dempsey can retort, if he does come to France to fight, that he wasn't very long after his countrymen.—Passing Show.

The Poet's Corner

EXILE OF ERIN

There came to the beach a poor exile of Erin;
The dew on his thin robe was heavy and chill;
For his country he sighed, when at twilight repairing
To wander alone by the wind beaten hill.
But the day star attracted his eye's sad devotion
For it rose o'er his own native isle of the ocean.
Where once, in the fire of his youthful emotion,
He sang the bold anthem of Erin go Bragh.

"Sad is my fate!" said the heartbroken stranger;
"The wild deer and wolf to a covert can flee,
But I have no refuge from famine and danger;
A home and a country remain not to me.
Never again in the green, sunny bowers
Where my forefathers lived shall I spend the sweet hours,
Or cover my harp with the wild woven flowers,
And strike to the numbers of Erin go Bragh!

"Erin, my country! Though sad and forsaken,
In dreams I revisit thy sea beaten shore;
But, alas! in a far foreign land I awaken,
And sigh for the friends who can meet me no more!
O cruel fate! wilt thou never replace me
In a mansion of peace, where no perils can chase me?
Never again shall my brothers embrace me.
They died to defend me, or live to deplore!

"Where is my cabin door, fast by the wildwood?
Sisters and sire, did ye weep for its fall?
Where is the mother that looked on my childhood?
And where is the bosom friend, dearer than all?
O my sad heart! long abandoned by pleasure,
Why did it dote on a fast fading treasure?
Tears, like the raindrop, may fall without measure,
But rapture and beauty they cannot recall.

"Yet, all of its sad recollections suppressing,
One dying wish my lone bosom can draw.
Erin, an exile bequeaths thee his blessing!
Land of my forefathers, Erin go Bragh!
Buried and cold, when my heart stills her motion,
Green be thy fields, sweetest isle of the ocean!
And thy harp striking, bards sing aloud with devotion—
Erin mavourneen, Erin go Bragh!"

—Thomas Campbell.

OTHER VIEWS

Crack at Mackenzie King

(Regina Post)

The Union Government is said by the veracious Ottawa despatches to be looking for a strong man to lead it in the election campaign. Upon reading which about eighty per cent. of the Liberals in Canada will heave a "we-too" sigh.

Daylight Saving

(Kingston Whig)

Many Canadian cities have adopted the daylight saving plan, which however it may affect the country districts is a distinct blessing to city dwellers It assures them the advantages of an extra hour of sunlight and fresh air In this connection it is interesting to note that Great Britain is passing a statute law making the system permanent

One Form of Nationalization

(London Daily Telegraph)

Nationalization and bureaucracy go together and if there is to be no bureaucracy the nationalization is a sham. Nevertheless—and here the dishonesty enters—the name has to be retained because it is popular and wins votes and draws over to the miners' side a number of people who are too lazy to think. It is not nationalization proper that the miners desire, it is not state ownership and state control of the mines; it is the control of the mines by the Miners' Federation. The cry of the "mines for the nation" may possibly have some allurement for the general body of trade unionists. The cry of "the mines for the miners" would scarcely be so popular outside the mining villages.

The Right to Vote

(Toronto Globe)

The new Dominion Franchise Bill appears to be drafted with the purpose of securing for all British subjects, male and female, above the age of twenty-one years the right to vote at Parliamentary elections The only important qualifications required are residence in Canada for twelve months and in the constituency for two months Some of the clauses of the measure providing for the preparation of the voters lists may require amendment, particularly those dealing with the compilation of the lists in rural municipalities, but, speaking generally the Bill should prove acceptable to Parliament and the country

A Laugh or Two

Early Gardening

O, the pretty pictures in the seedsmen's catalogues!
Pretty soon the time will come to don your garden togs.
Make your seed selections now—onions, beets and beans,
Parsnips, peppergrass and chard and all the other greens,
Eggplant, endive, cucumbers, celery and corn,
Spinach, melons, cauliflower and parsley to adorn,
Okra, cabbage, kohl-rabi fetticus and cress.
Peas enough of every kind to make a savoury mess,
Turnips, taters, summer squash, pumpkins for your pies,
Radishes, tomatoes, too, sage to make you wise,
Brussels sprouts, celeries, carrots, corn to pop—
O, the lists so lovely it is mighty hard to stop!
Make your seed selections now, for garden truck to cook,
Then see if you can grow things like the picture in the book!

A high-salaried office is kept busy trying to dodge the man.

Too Good to be True

Doctor: "Nothing serious. Your wife merely has a small blister on the end of her tongue.'

Henpecked: "Is that a fact?"

Doctor: "I hope you don't think I would misrepresent the case."

Henpecked: "Oh, no; but your discovery that her tongue really has an end seems too good to be true."

A Final Favor

"My darling," said a fond mother who believed in appealing to children's tender feelings instead of punishing them, "if you are so naughty you will grieve mamma so that she will get ill and have to lie in bed in a dark room and may die and have to be taken to cemetery and be buried, and, you—"

The child had become more solemn, but an angelic smile overspread his face at his mother's last words, and, throwing his arms about her neck, he exclaimed:

"Oh, mamma and may I sit beside the coachman?"

MAN AND TEAM DROWNED IN WASHOUT AT BRUSSELS

Brussels, Ont., March 22—James Sinclair of Grey township was returning home by the 12th Concession about 10 o'clock at night, and his team plunged into washout, caused by the overflowing of the river. Sinclair and his team were both drowned, despite every effort to rescue them by nearby residents, who heard his cries for help.

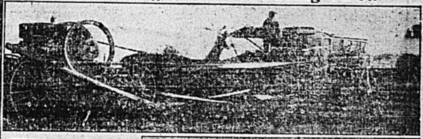
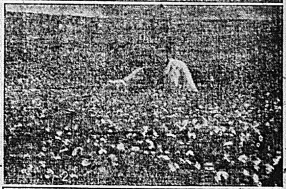
The Coming Seed Producing Area





(1) Threshing scene on J. E. Strong's farm, where his large yield of alfalfa seed was secured in 1919.

(2) Alfalfa in Bloom.

(3) Cutting Alfalfa on Strong's farm.

That there are great possibilities in the growing of seed on the irrigable lands of Southern Alberta is again evidenced by the successes obtained last year. On several farms in different parts of the irrigated area small pieces of land have been reserved for growing seed during the last few seasons. The success of Don H. Bark, Superintendent of Irrigation Branch of the C.P.R., along these lines in previous years has, no doubt, induced many others to try seed growing, and in 1919 much seed was grown with considerable profit on irrigated land in the districts surrounding Brooks, Strathmore and Coaldale.

Up to now seed-growing has perhaps received more attention in the Brooks district than in the other parts of the irrigated area. Alfalfa, clovers, and grain have been chiefly grown. No doubt the greatest success last season was that of J. E. Strong, who farms five miles north of Brooks. From a two year old field containing eleven acres of Grimm alfalfa, Mr. Strong threshed 8,400 bushels of seed. The quality of the seed may be judged from the fact that at the British Columbia Seed Fair held at Kamloops in the latter part of January this year an exhibit of it was awarded the first prize, and they grow excellent seed in British Columbia. Mr. Strong's crop has been sold for eighty-five cents to a dollar a pound, so that the proceeds from this field of eleven acres was between seven and eight thousand dollars from seed alone.

Mr. Strong's was one of the largest fields of seed grown, and his success is interesting because it proves that the results others are obtaining on fields of one or two acres can be duplicated on larger areas. Up to now farmers have been growing seed mainly for their own requirements, seldom having more than an acre and often less. For two years in succession Mr. Bark has grown alfalfa seed on an acre of land at the C.P.R. demonstration farm at Brooks. From this acre in 1918, 893 pounds of re-cleaned marketable seed was obtained. This seed was sold for fifty cents a pound. In 1919 the field produced 740 pounds of re-cleaned seed, which is being sold to farmers in the district at seventy-five cents a pound although in the open market it would probably bring a dollar a pound. The value of the seed and the hay harvested on this acre of land in the two seasons is considerably more than one thousand dollars.

Growing clover seed is also proving very profitable. A three-quarter acre field at Tilley, east of Brooks, last year produced six bushels of red clover seed to the acre. This seed is worth more than sixty-five cents a pound, which works out at a return of more than three hundred dollars to the acre. At the Idaho State Seed Show held at Pocatello, Idaho, a few weeks ago, it was awarded first prize. This speaks well for its quality, for this prize was won in competition with seed grown in one of the best seed growing areas in the United States.

A three acre field of alsike clover gave a yield of six bushels to the acre. Sixty-five cents a pound is the value of this seed and it brought a return of more than two hundred dollars to the acre. Yellow sweet clover on a three and a half acre field at Tilley had a yield of five bushels and fifty pounds to the acre. A return of more than one hundred dollars an acre was obtained from these three and a half acres. That similar results can also be obtained on larger fields is shown by the harvest taken from nineteen and a half acres of white sweet clover planted on the C.P.R. Demonstration Farm at Tilley. This field yielded 18,500 pounds of clean seed, which was sold for an average price of thirty cents a pound. The total returns for the field were, therefore, more than $5,590, or $288 for each acre.

Perhaps the most significant success in the growing of grain for seed has been that of Robert B. Sangster, who has just been awarded the first prize of $500 for the best acre of wheat grown from Kitchener seed. Mr. Sangster's acre produced sixty-six and a half bushels of grain, or five bushels more than that of his nearest competitor.

The district in which this seed was grown represents a corner of an area containing of three quarters of a million acres of irrigable land.

Brings the fun and fascination of the newest dance music into your home.

An Incomparable Entertainer!

TO over 100,000 Canadian homes this year the Stewart Phonograph will bring fun and happiness, the bubbling cheer of the liveliest music! When the young folks call eagerly for the dance, the Stewart is always ready—with the bewitching rag, the newest jazz, or the dreamiest, old-time waltz! A veritable fountain of pleasure—yielding an amazing volume of rich, true tones. Yet this musical marvel costs but $15.00 You can carry it from room to room. Have it on the verandah in summer. Take it to your summer home. Carry it in the car or canoe! It is the *universal* entertainer! You must *hear* it, to realize what a revolution it has brought!

$15.00

WARBLER IN TROUBLE

New York, March 20.—Charles Eisert, twenty-four years old, of No. 312 west Seventy First street, insisted on giving an imitation of a Hartz mountains cuckoo bird calling to its mate at all hours of the night, according to the charge preferred against him by Ethel Cozzens, an actress of No. 520 West 114th street, in the west side court.

According to the charge, Eisert caught a flash some days ago of Miss Cozzens' pretty face and walked right up to her and asked her to go to Palm Beach with him. Having seen some of the photographs published from that resort, Miss Cozzens says she indignantly declined the invitation and told her volunteer acquaintance to seek a clime far-more warm than Palm Beech.

She told Magistrate Sweetzer that ever since the first impromptu meeting Eisert had appointed himself her official serenader and held forth under her window at all hours of the day and night.

At first Miss Cozzens laughed at the warblings of her unknown admirer Then his songs and his pluckings at a one-stringed ukelele began to sink deeper and finally touched hea nerves.

"How wonderfully life-like your Victrola sounds," cooed Miss Pauline Sethler, a friend and also an actress.

"Victrola nothing," vehemently broke in Miss Cozzens. "That's an oil can that's been singing to me for a week."

"Why don't you put your foot on the brake?" asked her friend.

"I've shied everything at him from a teacup to a mattress" answered her friend, "and still he sings on."

And then, tiring of the lad who was trying to "out-mac" McCormack the petite actress called upon the majesty of the law. When Policeman Robinson clapped his chubby fist over the yawning cavity, that was emitting howls in every octavo known to music it was the first peaceful moment the neighborhood has had for ten days.

In court, this morning, Eisert freely admitted singing under the window of Miss Cozzens' apartment. He also pleaded guilty to plunking away at the decrepit ukelele.

"Are you crazy?" asked Magistrate Sweetzer.

"Sure," answered Eisert, "I'm crazy about her."

As Eisert was led away, the attendant in the psychopathic ward at Bellevue was dusting out a nice new room where Eisert will spend the next ten days.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. BOURASSA ANGERS IRISHMAN BY ATTACK ON BRITAIN

Montreal, March 20.—Henri Bourassa, editor of Le Devoir at the St. Patrick's National Society's annual banquet attacked bitterly what he described as "The spirit of domination which is the curse of the British Empire." A. Mea Murphy, president of the Irish Protestant Benevolent Society, replied to him, saying that there were two Irelands in Ireland, neither of which would submit The British Empire in its desire to give Ireland self-government had been embarrassed and up to now, tied by the Irish irreconcilable character

TO RATIFY PEACE TREATY CAME HIGH

Ottawa, March 20.—The special session of Parliament called last year for the purpose of ratifying the peace treaty with Germany cost the county $924,185.33. This information was tabled in the House of Commons in answer to a question by Hon. W. S. Fielding. The statement of expenditures, which was brought down by Hon A. L. Sifton, shows that the House of Commons was responsible for a total expenditure of $682,188 and the Senate for $242,000.

FORMER EMPEROR LEARNS OF THE ENDING OF THE COUP

Amerongen, March 20.—The former German Emperor remained up, last night long after the others in Bentinck Castle had gone to bed. News of the failure of the Kapp revolution reached him in the evening.

For several days past the former ruler of Germany had been in a state of excitement over the events in Berlin. Last night he retired early but the lights in his wing of the castle shore through the windows until an early hour in the morning.

TAKE NEGRO AFTER THREE-HOUR FIGHT

Baltimore, Md., March 22.—Riddled by shots and probably mortally wounded, an unidentified negro was captured by police reserve after a desperate three hour battle waged from a barricaded house Two policemen were wounded in the fracas, and another negro, mistaken for the hunted man, was shot three times by policemen and beaten by a mob before it was learned that he was not the man sought.

The trouble started in the theatrical district when two negroes engaged in a fight. At the apearance of police, one of the two fled and barricaded himself in the cellar of a residence occupied by whites. As the police approached, he opened fire, wounding two.

A riot call brought reserves from three disritets and several of the policemen entered the house while the others held the ngro at bay. The policemen in the house chopped away part of the floor making loopholes through which they fired the contents of two heavily charged shot guns.

TURKISH MINISTRY COLLAPSES

London, March 22.—The correspondent of the Post reported that the Turkish Government is on the point of falling as a result of Allied occupation of Constantinople.

The Turks became panic-stricken when the Allied troops marched into the city and organized resistance was quickly broken, he said.

British military officials have arrested Riouf Bey and Karavassif Bey, representatives of Mustapha Kemel,

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER III—Continued

"Ah, so's—here you be! Ah, Michael and Joseph and John—and you too Leaf! A merry Christmas all! We shall have a rare leg-wood fire directly, Reub, if it d' go by the toughness of the job I had in cleaving 'em." As he spoke he threw down an armful of logs, which fell in the chimney-corner with a rumble and looked at them with something of the admiring enmity he would have bestowed on living people who had been very obstinate in holding their own. "Come in, Grandfather James."

Old James (grandfather on the maternal side) had simply called as a visitor. He lived in a cottage by himself and many people considered him a miser; some, rather slovenly in his habits. He now came forward from Grandfather William, and his stooping figure formed a well-illuminated picture as he passed toward the fireplace. Being by trade a mason, he wore a long linen apron reaching almost to his toes, corduroy breeches and gaiters, which, together with his boots, graduated in tints of whitish brown by constant friction against lime and stone. He also wore a very stiff fustian coat, having folds at the elbows and shoulders as unvarying in their arrangement as those in a pair of bellows; the ridges and the projecting parts of the coat collectively exhibiting a shade different from that of the hollows, which were lined with small ditch-like accumulations of stone and mortar-dust. The extremely large side-pockets, sheltered beneath wide flaps, bulged out convexly whether empty or full; and as he was often engaged to work at buildings far away—his breakasts and dinners being eaten in a strange chimney-corner, by a garden wall, on a heap of stones, or walking along the road—he carried in these pockets a small tin canister of butter, a small canister of sugar, a small canister of tea, a paper of salt, and a paper of pepper; the bread, cheese, and meat, forming the substance of his meals, hanging up behind him in his basket among the hammers and chisels. If a passer-by looked hard at him when he was drawing forth any of these—"My larder," he said, with a pinched smile.

"Better try over number seventy-eight before we start, I suppose?" said William pointing to a heap of old Christmas-carol books on a side table.
anhlsg :' ? ltonodhare rtsnaeg-fi

"Wi' all my heart," said the choir, generally.

"Number seventy-eight was always a teaser—always. I can mind him ever since I was growing up a hard boy-chap."

"But he's a good tune, and worth a mint o' practice," said Michael.

"He is; though I've been mad enough wi' that tune at times to seize en and tear en all to linnet. Ay, he's a splendid carrel—there's no denying that."

"The first line is well enough," said Mr. Spinks, "but when you come to 'O, thou man,' you make a mess o 't."

"We'll have another go into en, and see what we can make of the martel. Half an hour's hammering at en will conquer the toughness of en: I'll warn it."

"'Od rabbit it all!" said Mr. Penny interrupting with a flash of his spectacles, and at the same time clawing at something in the depths of a large side pocket. "If so be I hadn't been as scatter-brained and thirtingill as a chiel, I should have called at the school house wi' a boot as I cam up-along. Whatever is coming to me I really can't estimate at all!"

"The brain hev its weaknesses," murmured Mr. Spinks, waving his head ominously.

"Well, I must call with en the first thing to-morrow. And I'll empt my pocket o' this last to, if you don't mind, Mrs. Dewy." He drew forth a last and placed it on a table at his elbow. The eyes of three or four followed it.

"Well," said the shoe-maker, seeming to perceive that the sum-total of interest the object had excited was greater than he had anticipated and warranted the last's being taken up again and exhibited, "now, whose foot do ye suppose this last was made for? It was made for Geoffrey Day's father over at Yalbury Wood. Well, when a' died, I used the last for Geoffrey, and have ever since, though a little doctoring was wanted to make it do. Yes, a very quaint, humorous last it is now 'a b'lieve," he continued, turning it over carelessly. "Now, you notice that there" (pointing to a lump of leather bradded to the toe—"that's a very bad bunion that he've had ever since 'a was a boy. Now, this remarkable large piece" (pointing to a patch nailed to the side) "shows an accident he received by the tread of a horse, that squashed his foot a'most to a pomace. The horseshoe cam fullbutt on this point, you see. And so I've just been over to Geoffrey's to know if be wanted his bunion altered or made bigger in the new pair I'm making."

During the latter part of this speech Mr. Penny's left hand wandered toward the cider-cup, as if the hand had no connection with the person speaking; and bringing his sentence to an abrupt close, all but the extreme margin of the boot-maker's face was eclipsed by the circular brim of the vessel.

"However, I was going to say," continued Penny putting down the cup "I ought to have called at the school" —here he went groping again in the depths of his pocket—"to leave this without fail, though I suppose the first thing to-morrow will do."

TO BE CONTINUED

Kitchener Young Business Men's Association will form a stock company for the erection of a modern artificial ice arena at Kitchener next summer.

Greatly increased activity was visible on the Canadian Exchanges and higher prices generally ruled.

Lives Lost In Western Blizzard

WINNIPEG, March 22.—Railway men arriving here from the West say the blizzard which swept Manitoba and Saskatchewan last week was about the worst in experience and believe that when the wires are working again it will be found that many lives have been lost and hundreds of farm stock killed.

Trains are still delayed in arrival from the West and between Ellie and Portage la Prairie 20 miles of telegraph poles were snapped off about six feet from the ground. The semaphore tower at Neepawa was burned down and so bad was the storm that people 100 feet away could not see the fire.

INSANE FROM INFLUENZA FARMER WRECKS VILLAGE

Winnipeg, Man., March 20.—For more than six hours Sandy Beggs, farmer, insane from the effects of influenza, terrorized the village of Rose Isle until overpowered by a crowd. He is now in the Provincial jail here. After wrecking the interior of a general store, littering the street with merchandise and severely beating the owner, Beggs smashed every plate glass window in a restaurant, went to the post office and here wrecked the interior assaulting the postmaster and a woman with a horse whip.

City AND Country

CITY COUNCIL

A regular fortnightly meeting of the City Council will be held this evening when some matters of importance will be considered.

TEACHERS-BONUS

A special meeting of the Board of Education has been called for this evening. The meeting is for general business and the petition of the teachers for a bonus may be considered.

FINED FOR INTOXICATION

One unfortunate this morning was compelled to contribute $10 and costs to the city treasury for being intoxicated. In answer to the usual enquiry as to where he obtained his liquor he stated from Montreal.

A SERIOUS CHARGE

George H. Conley, aged 24 years, who is employed in this city, was on Saturday evening placed under arrest charged with a serious offence, namely criminally assaulting a girl 10 years of age. The accused has been remanded to jail until Monday next, the 29th inst.

SPLENDID APPOINTMENT

The many friends of Lieut. E. S. Elliott, who went overseas with the 80th Battalion will be pleased to learn of his appointment as a Director and Treasurer of the Canadian Drawn Steel Company, Hamilton, of which company Mr. H. J. Waddie is President and Managing Director.

WANTED AS ABSENTEE

Police Officer Thompson last evening while patrolling his beat ran across Harry Titterson, a member of the Canadian Permanent Machine Gun Brigade of Kingston who is wanted as an absentee. Titterson was apprehended and an escort from Kingston arrived here today and took him back to Military Headquarters.

HEIR TO NEARLY A MILLION

According to a despatch from Enid, Okla., Dr. W. F. Hazelton, a native of Leeds County, has fallen heir to a twentieth part of the estate of Thos. Quinn, a former British soldier, which is valued at $19,000,000. Claimants for the estate have been found at several points in Leeds county and until this word from Dr. Hazelton it was not known that any distribution had

DISTURBING A MEETING

Sunday evening the police answered a call to a Hornerite meeting, which was being conducted in a hall on Bridge street east. Some boys, it was alleged, were acting in a disorderly manner disturbing the worshippers. The lads left when the police arrived and possibly they will be summoned before the Magistrate to answer for their conduct.

MADE A GET AWAY

On Thursday last thirteen boys who were wards of the Industrial School at Mimico made a get away. Last evening one of them, Harry Atkinson, aged 12 years, whose home is in Hamilton, was apprehended here, being found in a shanty near the G.T.R. Station. A companion of Atkinson left him here and proceeded eastward by way of a freight train. The authorities at Mimico were notified of the lad's detention here. Most of the boys have now been recaptured.

BOY DIED FROM BURNS

Carmeno Lebano, the five-year-old son of Mr. and Mrs. Nicholas Lebano, Cornwall, who was terribly burned about the limbs, body, arms and face, by the upsetting of a coal oil stove, in his father's grocery store, on March 6, died on Thursday from the effects of the burns. The little fellow suffered terribly, and the wonder was that his constitution was such as to prolong his life for a week and a half. His father, who had both hands badly burned in his efforts to extinguish the flames which enveloped the boy, is still suffering from the effects.

COMMITTED FOR TRIAL

John O'Connell, farm hand, appeared for preliminary trial at Brockville on a charge of murderously assaulting Margaret McGee, near Lansdowne on the 10th instant. O'Connell, unrepresented by a lawyer, pleaded guilty, but the evidence of seven or eight witnesses was taken, including that of the girl, who still bears marks of her terrible encounter, having suffered twelve knife wounds on the body, also blows from a sledge hammer on the head. The clothing exhibited was torn to shreds. Miss McGee and O'Connell were employed by Wm. A. Boulton, in whose absence the deed was committed. O'Connell was committed for trial.

COLLEGIATE INSTITUTE

It is expected that the Collegiate Institute propositions will be brought before the City Council this evening and a large attendance of ratepayers in the Council Chamber is anticipated. The regular meeting of the City Council is scheduled for tonight as well as a special meeting of the Board of Education.

Obsequies

MRS. S. GREEN

On Saturday afternoon, the funeral of the late Mrs. Susan Green of this city took place at the residence of Mr. Edward Naylor, son-in-law of deceased. Rev. Mr. Wallace of the Baptist Church, conducted a service, assisted by the Rev. Dr. Scott of Bridge Street Church. Upon the casket were placed a number of floral tributes. Interment took place at Belleville Cemetery. The bearers were Messrs. A. Blackburn, C. A. Harte, Wm. Faulkner, B. F. Butter, Fred Cook and Wm. Harris.

Berlin Aroused Against Jews

Leaflets and Cartoons Protesting Against Presence are Freely Distributed

BERLIN, March 22—A sudden and widespread revival of the anti-Semitic movement made itself felt yesterday when at intervals throughout the day leaflets were distributed protesting against the presence of Jews in public office and attempting to inflame the public mind by cartoons picturing the German people as starving in a cage while well fed and prosperous Jewish merchants look on and are made to say: "Don't feed the animals." Prominent Jewish residents are outspoken in expressing their serious apprehension over the recurrence of the movement at this time.

The Baltic troops, which made such a sanguinary departure from the city are accused of taking a leading part in the agitation, and numerous inciting handbills are attributed to them. Among the anti-Semitic street speakers were Baltic officers and enlisted men.

Since the first German revolution in November, 1918, it has been estimated that about 80,000 Jews from Russia, Poland, Galicia and east Prussia have come to Berlin. The Jewish population of the capital now is estimated at 210,000 perosns. The great influx of Jews stirred up feeling because of the widespread circulation of reports that many of the Jews were speculating in foodstuffs, and other necessities and also operating as money lenders.

The Jews are generally keeping off the streets today. The recrudescence of the anti-Jewish movement is attributed by some to the attempts of the Conservatives to combat the growing strength of the radical elements, many leaders of which are Jews.

St. Kitts Bakery Was Bombed

ST CATHARINES, March 22.—A bomb placed in the doorway of the International co-operative bakery and grocery on Facer street caused considerable damage to that building and broke windows on both sides of the street for some distance at 1.20 Sunday morning.

The establishment is owned by a co-operative society of Polish residents of the neighborhood, bread being sold at cost price. The bomb contained seven large-sized railroad spikes which were imbedded in woodwork.

No one was in the building when the explosion occurred. The damage is chiefly to the store. The operation of the bakery, which is in the rear, will not be impeded.

The police yesterday afternoon had been unable to throw any definite light on the mystery.

Trading fell off in volume on the Canadian exchanges Saturday, but prices remained steady to firm.

Esquimalt navy yard is to be closed down on April 1, and the Rainbow sold.

Mrs. Elsie Davidson McNiven, the oldest citizen in Barrie, died in her ninety-seventh year.

Lewis King, aged twenty-one acting postmaster, lost his life in a fire which destroyed a block in Oxford, N.S.

The Canadian National Poultry Association was organized at Ottawa last week.

St. Catharines Board of Education has decided to remove the vaccination ban imposed since the Christmas holidays.

The body of Harry Tisdale, the eighteen-year-old Charlotteville lad missing since the 10th inst., was found in Young's Creek, near Simcoe.

Two hundred British and American business men were taken from Leipzig to Coblenz yesterday by special train.

There was a round-up of prominent Sinn Feiners throughout Kerry on Saturday. A number of them were put aboard a destroyer for deportation.

Is Glad She Took Friends Advice

by Taking Tanlac—Delighted to Recommend it

Although it is more than a year now since Mrs. Elsie Mavor, of 11 Mallon avenue, Toronto, Ont., Canada, realized the wonderful powers of Tanlac, she still finds pleasure in praising it, for she says it was the means of restoring her to health when she was in an extremely weak and run down condition. In the course of conversation with the Tanlac representative at Tamblyn's Drug Store, Mrs. Mavor said:

"When I look back on those two years of suffering and ill health, I realize what a boon Tanlac has been to me. I was in an extremely run down condition. My appetite was feeble, and although not troubled with indigestion I had to eat sparingly or my liver would get out of order. I was continually having such frightful headaches that I simply had to give up and lie down. I had severe pains in my back, especially whenever I went to stoop over. I hardly knew how to get through the day and my sleep was so broken that I would rise in the mornings feeling tired and heavy.

"It was a friend of mine who advised me to try Tanlac and as she herself had tried it with excellent results, I decided to take her advice and I am very thankful I did. In a very short time I knew the medicine was doing me good for my appetite picked up wonderfully and I felt so much better and stronger. By the time I had got through the second bottle all my aches and pains had disappeared and I have been well ever since. I can sleep fine, eat well and am so much stronger that I can do all my housework with perfect ease. It is over a year now since I stopped taking Tanlac but I am so delighted with what it did for me that I take pleasure in recommending it."

Tanlac is sold in Belleville by Ostrom's drug store and by leading druggists in every town.

Wedding Bells

CONGER—WOOD

On Saturday last at the Methodist Parsonage, 44 Hillside St., the Rev. A. H. Foster united in marriage Miss Mabel C. Wood, sister of Mr. Leonard Wood of 51 Strachan St., this city, to Mr. Chas. Garnet Conger. The young couple are both residents of Napanee.

Social And Personal

Mr. D. V. Sinclair left today for Ottawa on business.

Ald. Demarsh is confined to the house through illness.

Dr. and Mrs. J. A. Faulkner will arrive home on Tuesday.

Mr. Ed. Lowe left yesterday for Detroit where he intends to remain.

Mr. and Mrs. W. E. Ludgin, of Winnipeg, are in the city having been called here to attend the obsequies of her mother, the late Mrs. S. Green.

Mrs. W. Ham and little daughter, Jean, are visiting her sisters and mother, Mrs. A. Randle, Mrs. W. Harvey, Mrs. W. J. Tyers and Mrs. Ellen Merrifield.

HISTORY REPEATS ITSELF

History has a habit of repeating itself and here's little rhyme published in The Intelligencer a number of years ago which a reader has preserved and requests republication:

TIMELY RHYMES

A local rhymster sends in the following:

Belleville has a little Board—
  Board of Education—
Did I say a little one??
  That's prevarication.

It's so big it's cumbersome
  Numbering twenty-one;
"Twenty-three" would best express—
  "Skidoo"—the work it's done.

When they have a meeting night
  Nine or ten attend it.
But the others of the bunch
  Rare their presence lend it.

There's no quorum—must postpone—
  Must have their right quota—
But there's ten don't caer a jot—
  School's a mere iota.

Hoary fathers! there's reward
  E'en in resignation
Jump the job before the town
  Speaks its indignation.

Prove your Board's not water logged;
  Prove it's good sound number.
And for goodness sake, wake up
  From your ancient slumber.

Have I got a remedy
  For the School Board ailment?
Sure, I have! and here it is
  Just in one instalment.

I'll suggest that Twenty-one
  Be reduced to Seven.
Get the best—then send the rest
  Anywhere—to Heaven
—"PATER"

CALLS FOR POLICE

Since Saturday afternoon the police responded to four calls, the result of which was that one arrest was made. All calls were of a trivial nature.

Called by Death

JAMES RICHARDS

In the passing of Mr. James Richards at an early hour on Sunday morning, a well known and much respected citizens has entered into rest. For several years he had been in failing health. In the year 1829 Mr. Richards was born at Whitley, England being thus in his 91st year. Deceased was by occupation a carpenter and for several years was a valued member of the Board of Education and also superintendent of Buildings. He was a member of Benjamin Lodge, L.O.L. being one of the oldest members. In religion he was a life-long Methodist being attached to Bridge Street church In his public and private life Mr. Richards was a gentleman who was esteemed for his many sterling qualities and his numerous friends will extend to the bereaved family their sincere regret at his departure. An aged widow, one son and four daughters survive. The son, C. W. Richards, resides in Toronto, and the daughters are Mrs. W. E. Reid, of Toronto; Mrs. S. P. Armstrong of Peterboro, and Misses Elizabeth and Sarah of this city.

DIED

RICHARDS—In Belleville on Sunday, March 21st, 1920, James Richards, aged 91 years.

The funeral will take place from the family residence, 73 Dundas street, tomorrow, (Tuesday) at 2.30 o'clock Services at the house at 2 p.m. Interment Belleville cemetery.

NEPHEW GETS FORTUNE

Winnipeg, March 22—Catholic organizations in Winnipeg and St. Boniface are to get $70,000 from the estate of Dennis T. Lennon, proprietor of the Woodbine Hotel, who died recently. His will, bequeathing that amount to various Catholic Charities and nearly $600,000 to his nephew, J. D. Lennon, an employe of a Chicago mail order house, was probated Saturday.

Tommy Jones told me their hired girl said we must be good eaters at our house, the grocery boy brings so many

British General Given Full Power In Turk Empire

LONDON, March 20—General Milne, commanding the allied forces in Turkey, has been given virtually blanket poer to administer affairs in the Sultan's empire until the treaty of peace between the allies and Turkey is complete, it was learned today. Until that time the British general's power is practically absolute and extends throughout Turkey.

Disposition of the Greek troops in the Smyrna district has been turned over to the British commander without restrictions or reservations, but with the understanding that eventually they will be returned to the present Greek zone of occupation. One of the first tasks General Milne will assign to the Greeks, it was believed, will be the restoration of order in Anatolia.

General Milne, it was learned authoritatively, has been instructed to institute harsh measures if he considers it necessary. Wholesale arrests of Turkish reactionary leaders was one of the first steps anticipated. Turkish leaders accused of crimes during the world war also will be sought out.

Prominent Nationalists Deported

Constantinople March 19—Halide Edib, the most prominent woman leader among the Turkish Nationalists and Reouf Bey, deputy for Sivas and mouthpiece of Mustapha Kemal in this city; Cara Bessif Bey and several other members of the Chamber of Deputies, have been deported, presumably to Malta, by the British. After Mustapha Kemal and Reouf Bey, Halide Edib was probably the best known speaker and organizer in the Nationalist movement. She cast aside all traditions of Turkish women, organized and addressed mass meetings and has often been described in the British press as a "Firebrand and a dangerous agitator."

Leaders of the Turkish Nationalists from Azerbaijan to Palestine, have been co-operating in a movement to oppose allied proposals for a peace unfavorable to Turkey. The Arabs, Kurds and other tribes are said to be aligned with forces planning to checkmate any movement for the partitioning of the country.

French detachments are reported to be meeting stubborn resistance in their efforts to occupy districts northeast of Aleppo.

Porter Is Surprised At Company's Action

HAMILTON, March 22—"There is not a thing involved in my resignation except the matter before the Board of Commerce," declared A. S. Porter, who was sales manager for the Canadian General Electric Co. in Hamilton district until his telephone conversation with Premier Drury, which started the probe into the affairs of the wholesale grocers here.

"Last Monday," he continued in an interview with The Star, "I went to Toronto to see Senator Nicholls to find out how the company felt about the matter. He said nothing could be done but to accept my resignation by letter and have not heard since.

"I was very much surprised at the company's decision," continued Porter, "as it take my livelihood away altogether and it will be a great disadvantage in obtaining another position. It is an astonishing thing that, because of doing something which I believed to be right, that I should be penalized in this way. Such action will surely deter others from trying to do what is right."

Porter, who was born on Spadina avenue, Toonto, and educated there entered the employ of the C.G.E. about five years ago. He served in the Royal Air Force and in December, 1918, was asked to take charge of the sales branch here. "I have worked faithfully in the company and worked early hours before others started in Toronto and late hours here building up this office."

According to Porter the statement he told Premier Drury—that H. C. Beckett, a wholesaler here had said: "To —— with the consumer; I'm looking after the wholesale grocers—was given in confidence. Beckett said yesterday that this remark was a figure of speech and not meant literally. "It's just a habit," he said, "Why I'm the best friend the consumer has. My record in black and white shows it."

Senator Fredrick Nicholls stated that Porter's resignation had been accepted and he did not think it would do any good to discuss the matter any further."

Grip, Influenza

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

$300 Cash Bonus Requested By Belleville Teachers

PETITION PREPARED TO BE PRESENTED TO SCHOOL BOARD AS SOON AS A QUORUM CAN BE SECURED — NEW SCHEDULE OF SALARIES WILL BE PRESENTED IN APRIL, TO BE EFFECTIVE IN SEPTEMBER.

Belleville, Ont., March 16, 1920

Chairman and Members of The Board of Education:

Gentlemen,—We, the teachers of the Belleville Public and High Schools, respectfully wish to call the attention of the Board to the serious financial situation in which we have found ourselves placed during the last six months, through our salaries proving so inadequate to meet living expenses. This situation has grown steadily worse month by month, until we are forced to make this appeal to see if something cannot be done to temporarily relieve it.

At the outset we wish it to be clearly understood that we have no intention whatever of denying the legality of the contracts signed by us last June or of seeking to set them aside. We admit that we are bound by them and if you insist on adhering to the letter of these agreements, nothing more can be said at present; we shall have to endure, until their expiration, the penalty they, and living conditions impose on us.

But we would ask you to go back and consider conditions when those contracts were made. Judging from the public utterances at that time of many prominent men; judging from the freely expressed opinions of the business men of this city, the great majority of people believed that the past year would see a decided decline in prices. We concurred in that belief and in that belief we signed our agreements at salaries which we knew would be inadequate if the era of high prices continued.

And what actually happened? Scarcely had school reopened in September when almost every week brought its extra heavy demand upon all. Necessary after necessary advanced—we need not worry you with the list, the facts are only too well known and if you will give these facts due consideration they will convince you without any detailed enumeration here. The present winter of almost unprecedented severity, accompanied by so much illness among members of the staffs and their families, entailing extra demands on an income already inadequate for ordinary present conditions have further aggravated the situation. Therefore we feel that in asking for assistance at this time these conditions justify us, notwithstanding our agreements.

Bonuses and Increases

We would bring to your attention a few examples of what other Boards of Education have been doing for their teachers in the last three or four months as they realized the difficulties under which the teachers were working:

Collingwood	$343
Peterboro, per cent increase	25
Toronto, per cent increase	25
St. Thomas	$200-$500
Hamilton	200
Brantford, per cent increase	25
Kitchener, per cent increase	25
Fort William	400
Ottawa	400
Lindsay	$200 to 25%
Deseronto	100
Campbellford	300
Kingston	300
Brockville	$300 to $500
Galt, to heads of depts.	200
London, to all male teachers	400
Windsor	500

We pass over more general arguments that might be advanced, that, for instance, to leave the teacher in the same financial position as he occupied in 1914, salaries should now be twice what they were then that even then the teacher would be receiving little towards reimbursing him for the six to ten unremunerated years of study necessary to prepare him for his occupation, while in other lines of work the beginner was earning and learning at the same time.

New Salary Schedule

We pass over these things, for we do not at present seek to have a general re-adjustment of salaries made. We shall present for your consideration at the April meeting a schedule of salaries to become effective next September. The assistance we ask now is to enable us to pay our way to the end of our present agreements on August 31st.

That assistance we feel should be a bonus of $300 paid to each regular teacher of the city schools, in monthly payments during the remaining six months of our agreements.

We ask that the matter be fully considered by the Board at its regular meeting on Friday next and a decision arrived at. A deputation from the schools will be present and we herewith request that some of its members be given the privilege of speaking in regard to the matter.

We are, Gentlemen,
Yours respectively.

(Signed)—A. A. Affleck, L. M. Aull, E. L. Brown, K. Burns, V. E. Bullock, G. W. Bunton, D. Barragar, L. P. Campbell, D. M. Clark, H. Foster, M. Frost, C. I. Frederick, E. Gastrell, M. A. Haycock, C. New Fiscal Policy Drafted By Gov't

MONTREAL, Que., March 23—Announcement that a new fiscal policy is ready, and that it will be presented to the House of Commons on the return of Sir Robert Borden, about May 1, was made by Hon. C. C. Ballantyne, Minister of Marine and Fisheries, on Saturday night in an address to the Canadian Workers' Federation of Returned Soldiers and Sailors, who tendered the Minister a banquet in the Windsor Hotel here.

The Minister intimated that the proposed tariff would not be class legislation, nor free trade policy, but one that will grant favors to none and will cover the diversified interests of Canada, while yielding necessary revenue.

Discussing the question of shipbuilding, Mr. Ballantyne said that the Government had not arrived at a final conclusion in regard to the building of passenger ships, but that, with the completion of 62 cargo ships that part of the programme was at an end. In the course of his speech, Mr. Ballantyne said that the Dominion Steel Company would, within the next few days, be officially informed that the Government would take the maximum quantity of 75,000 tons of steel ship plates.

* * *

Hon. F. C. Biggs is promising no more trunk roads, as the Provincial highways program is complete.

Price Raised For Victory Bonds

MONTREAL, March 23—Sir Henry Drayton, Minister of Finance, held a conference at Toronto on Saturday with the Victory Loan Special Committee, the Montreal members present being Edwin Hanson and J. M. Mackie, who were accompanied by P. Cowans, Chairman of the 1919 campaign, and A. P. Frigon, Chairman of the Bond Dealer's Association.

The conference resulted in telegrams being sent out on Saturday to all bond dealers, and stock brokerage houses, authorizing an advance in the prices of Victory Bonds of the various maturities. This action, it is understood, is due to the fact that there are now more buyers than sellers of the securities in the market at present, and some of the issues are very scarce.

The following are the net prices, plus accrued interest, which the bonds will now cost the purchaser:

Maturity	Price	Previous Amended Prices
1922	99½	99
1923	99¼	99
1927	100	100
1933	100½	100
1937	102	101
1924	98½	97½
1934	97	97

It is understood that the new schedule will be put into effect immediately.

Home For Friendless Building Is Unsuitable

OLD CHILDREN'S SHELTER BUILDING COULD BE TRANSFORMED INTO NEW HOME FOR FRIENDLESS AT COST OF $2,500—NO RECOMMENDATIONS MADE.

Belleville, Ont., March 13, 1920.

To His Worship the Mayor and Aldermen of the City Council.

Gentlemen,—We, the committee appointed by the Council to inspect the present quarters of the Home for the Friendless and to look into the advisability of providing a new home, beg leave to report that we find the present quarters to be a building 27x32 feet.

This building is badly in need of repairs, both inside and out. We find on the lower floor of the present building two fair sized rooms with one bedroom and kitchen. Ceilings on this floor are 8½ feet high. One large room is occupied by men. There is also considerable storeroom back of the kitchen. Basement is 5 feet high with bad entrance. Going upstairs we find a very narrow stairway, this being the only stairway to the second story. On the second floor we find three rooms. One of these rooms consists of bathroom and closet. The bathroom and closet is used by both males and females, being the only room of this nature in the building. The one large room furnished with single cots is occupied by five females. The present building we believe to be inadequate.

We also find that the city has a property known as the old Children's Shelter on the corner of West Moira and Frank Streets. This property consists of a large stone building with spacious foregrounds. The walls of this building are 20 inches thick, and the building is equipped with storm windows. Upon entering the building we find a large hall with a large Queen Anne staircase. On the east side of the hallway there are two large rooms with fireplace in front room. On the west side of hallway we find two large rooms with summer kitchen. On this floor is bathroom, closet and wash basin. Back of summer kitchen is a large woodshed and wash basin. Back of the kitchen is a large woodshed and barn. There is a seven foot basement the full size of the building, part of which has a floor of rock and cement. There is a large furnace which was installed only three years ago and is practically as good as new. There is a first class sewer leading to the main sewer on Moira street. On the second floor we find a large landing which would make a nice reading room or office, being well lighted. There are six other rooms on this floor. Three of these rooms are larger than any of the rooms in the present quarters. One of these rooms could be used as a detention room. There is also bathroom and closet and wash basin on this floor.

These premises are electric wired and water piped throughout. The ceilings in this building are 10 feet high and the entire building is twice as large as the present home.

We believe that with an expenditure of $2,500 on this building it will fulfil the requirements.

We are,
Yours respectfully,
(Signed) W. B. RIGGS,

Re-Establishment Still Live Issue In Parent G.W.V.A.

MONTREAL, March 23.—The secretary's report for the past year in the Dominion G.W.V.A. was presented at the annual convention by C. G. McNeil. He pointed out that there had been no wavering from the pursuit of the ideals of the association, glimpsed by those who founded the order." Despite the severest strain, the bonds of comradeship, cemented on active service, have held together in fraternal relationship and unselfish endeavor, men of widely divergent soical and economic views," he said.

The report was divided into seven parts, but the greater portion dealt with re-establishment.

Secretary McNeill outlined the whole history of the endeavor of the G.W.V.A. to secure proper re-establishment for the returned men until the time when Major G. W. Andrews withdrew his last amendment in the House of Commons which asked for further representations from the returned soldiers.

WATCHFULLY WAITING

"Obviously, further action on this question demanded a definite change of policy and it was decided by the Dominion Executive Committee that such change could only be determined by democratic reference to the general membership of the association. This convention, therefore, was summoned upon the earliest date possible, allowing an opportunity for a series of Provincial conventions and still permitting of representations to the House of Commons, while in session. It therefore, devolves upon this convention to determine in what manner further demands shall be made upon the Government to complete the satisfactory re-establishment of returned soldiers and dependents."

Under the heading or organization, the secretary reported that there had been an increase of three hundred and twenty branches since the last Dominion convention. A Provincial command had been formed in Quebec and four branches had been started in the United Kingdom.

UNITING THE EMPIRE

In this connection, Mr. McNeill said the organization of a federation of returned soldiers' organizations throughout the Empire was under way.

Speaking in reference to the Veteran Magazine, the secretary said that the policy pursued by the members of the Dominion Executive as directors of the Veteran Limited had been to maintain a publication of fearless editorial independence and to convey to the public of Canada the sentiments which actuate our organization He recommended that a special committee be struck off from the Convention to deal with the importance of the enterprise.

The Dominion Executive met four times during the recess between the last convention and the present, the secretary said.

Col. W. P. Purney took ill at noon yesterday and R. B. Maxwell of Winnipeg took the chair during the afternoon session.

Belated Honors For Dead Hero

Died Hated as Pro-German But Gave Gas Mask to Belgians

LONDON, March 23—Awards have just been made to two Belgian women, Madame Clement and her sister, Mlle Marie D'Have and posthumously to their father, Theodphile d'Have for giving to the Belgian General staff details of the first German gas mask.

Posing as a Pro-German M. d'Have was able to send one of his daughters to Harve, then the Belgian great headquarters, with a design of the mask concealed in her dress.

She went by way of Holland, and at the Dutch frontier she was searched for four hours in vain Had the document been found she would have been shot.

Altogether Mlle d'Have crossed the frontier five times until, at the end of 1915, she thought it would be safer to remain in Holland.

So well did the father pose as a pro-German that his neighbors hated him, and their behaviour to him hastened his death from heart disease.

At the time of the armistice a crowd tried to burn down his home.

Last Minute Telegraph Briefs

COAL CONTROL REMOVED

Washington, March 23.—Government control over maximum price of bituminous coal was withdrawn today by President Wilson effective April 1.

CIVIL WAR CONTINUES

Aix La Chapelle, March 23.—Another battle is reported in progress between Spartacans and troops of the regular army at Wesel, twenty-two miles northeast of Essen. The Regulars, reports say, appear to have been out-flanked by the insurgents.

Little Change In Flood Conditions

Shortly before 6 o'clock last evening a considerable body of ice came down the river from near Corbyville and when it came in contact with the field of ice already in the river between the C. P. R. bridge and Cooper's Mill it caused the whole body to move. It was anticipated by many that there would be force enough to carry the jam under the railway bridges on to the bay but such was not the case. It only piled up against that structure where it remained stationary for the time being. The shove caused the water to back up to a height exceeding that attained on Sunday. In the various yards along the west side of Front street water poured in until in some places it reached a height of three or four feet. The water also backed up through the sewers and caused some of the cellars in buildings on the east side of Front street to be flooded to a depth of a foot or two. Some slight damage was sustained to buildings on the river banks.

As a result of the blockade the water rose to a considerable height on the west side of the river inundating that portion of Coleman street near the lower bridge and a portion of Bridge street west. It also caused more trouble to residents on portions of Brock King, Colborne, James and Coleman streets in the southwest portion of the city. In some cases the water came in upon the ground floor causing much inconvenience. During the night the water lowered a few inches but rose again when the ice made another slight move this morning.

NOTES

The river is now virtually cleared of ice from the city to Corbyville.

Members of the police force were on Sunday and last evening alert to their duties and rendered valuable assistance to those in distress owing to water about their premises.

A number of men and even boys appeared to be jeopardizing their lives by going out upon the ice jam and securing wood. Last evening two men came near being caught in the jam when it commenced to move.

Citizens residing in West Belleville were last night and this morning considerably inconvenienced owing to the fact that neither the footbridge or lower bridge could be utilized owing to the depth of water about the structure. Later in the day temporary walks were laid so that pedestrians could use Coleman street, also the south side of bridge street west.

Railway Men Strike In Spain

Special Despatch to The Intelligencer
Canadian Press Limited

MADRID, March 23—At a meeting of railway men early today, it was unanimously decided to declare a strike at midnight tonight on all railways in Spain.

Soldiers Fired on Dublin Crowd

Special Despatch to The Intelligencer
Canadian Press Limited

DUBLIN, March 23—One of the two persons killed in last night's riot here was a domestic servant, the other was an unidentified man. Several persons were wounded, including one of the soldiers who was shot through the head. The conflict, according to observers had its origin in the bolsterous conduct of a party of soldiers attending a performance at the Theatre Royal. A large crowd followed the men to the barracks and soon after the soldiers reappeared firing several volleys as a result of which the fatalities occurred.

Official reports issued by the military and police do not say that the soldiers entered the barracks and then returned to fight the crowds.

CANADIANS LARGEST WHEAT CONSUMERS IN THE WORLD

Chicago, March 23—Canada is the largest consumer of wheat in the world, figured on a par capita basis, 9.5 bushels, based on an average production for the past ten years, the compilation being made by the United States Department of Agriculture. Belgium is next with 8.3 bushels, and France third with 7.9 bushels, the United Kingdom is given 6 bushels and the United States 5.3 bushels.

Railway Bridge Responsible For This Year's Flood

A MOTION TO THAT EFFECT ADOPTED BY CITY COUNCIL—RAILWAYS REQUESTED TO BUILD A LARGER CULVERT — REPORT ON NEW SITE FOR HOME FOR THE FRIENDLESS—TRACKS ON PINNACLE STREET.

At the City Council meeting last evening the business transacted was of a routine nature and the session was brief. No new legislation of an important nature was introduced.

Mayor Riggs presided. Aldermen present were: Bone, Hanna, Adams, Doyle, Wensley, Woodley.

Minutes of last meeting read and confirmed.

On motion reports of committees, communication, petitions, etc., were placed upon the table and Council went into Committee of the Whole on reports, etc. Ald. Adams in the chair.

Accounts recommended to be paid by the various committees were passed.

Auto License

A communication was read from Hon. Mr. Biggs, Provincial Minister of Public Works re automobile license and portion of the license being paid to the city. This matter the Hon. Minister stated had not yet been considered by the Government.

The communication was received and filed.

Dredging Wanted

A communication was read from Mr. E. P. Frederick, Secretary of the Chamber of Commerce, re resolutions in regard to dredging at the new Government dock, the Murray Canal and Telegraph Island so as to allow larger vessels to come by way of Belleville.

The Council concurred in the resolution.

Pinnacle Street Track

Mr. J. D. McMillan, local superintendent, of the G. T. R., wrote the Council relative to the tracks being placed in the centre of Pinnacle street. The railway engineer will be in the city in a few days and consult the City Council relative to the matter.

City Clerk Holmes stated the railway was prepared to pay their share of the cost of paving Pinnacle street.

Deep Water Course

A communication was read from the deep water route commission which would meet in this district some time in the future. Kingston would be the nearest place to Belleville where a meeting would be held, namely on June 8th.

The City Clerk was instructed to send a reply on behalf of the city.

Home of Friendless

A report was presented from the special committee appointed by the Council re providing another building in lieu of the present building used as a Home of the Friendless. The Committtee's report showed that the present building was inadequate for the needs. The committee visited the old Childrens Shelter building on Moira street and it is twice as large as the present building. An expenditure of $2,500 would place the building in a first class condition.

A motion prevailed that a copy of the report be submitted to the ladies of the Women's Christian Association.

Athletic Field

A deputation was present to ask the Council to take steps to provide athletic grounds.

Mr. J. G. Skelcher addressed the Council stating that the Grand Trunk Athletic Association had been reorganized and the same baseball team that won the championship last year would be the same this year. What was required was an atheltic ground that would be central to the city.

Ald. Bone stated that Mr. George K. Graham as Chairman of the Athletic Committee of the Chamber of Commerce was attending to this matter and sites weer being looked for for suitable grounds.

Ald. Hanna stated that ample grounds would be secured and they would be good grounds.

Ald. Bone—The City Council is in favor of athletic grounds being secured.

Mr. R. Snell—We desire a ground by the 24th of May as a team from Ottawa would be here to play on that day.

Ald. Hanna—We are not in a position at present to make everything public what is being done.

A motion prevailed that if the new athletic grounds are not in readiness by the 24th of May the fair grounds be put in shape.—Carried.

The Committee rose and reported. The report was received and adopted.

Enquiries

Mayor Riggs asked if something could not be done to make an approach to the foot bridge.

Ald. Hanna—The bridge is damaged and must be repaired.

Ald. Wensley asked if it was not a fact that the assessment rolls were to be published.

City Clerk—That was only for one year and it was submitted to the people and was defeated.

Motions

Ald. Hanna moved, seconded by Ald. Bone that the C. P. R. and C. N. R. be requested to take immediate steps to construct a culvert under their tracks at the foot of James street as the present culvert is not in the proper place to relieve the flood.—Carried.

Moved by Ald. Bone, seconded by Ald. Hanna that in the opinion of this council the C. P. R. and C. N. R. bridges across the river is this year responsible for the flooded condition of Front and other street.—Carried.

Moved by Ald. Hanna seconded by Ald. Adams that the H. A. Wood Mfg. Company be given permission to build a fire escape over the gangway at the south end of their building, same to be erected under the supervision of the City Engineer.—Carried.

Council adjourned.

German Radicals Hold Western Industrial District

REPORTED THAT WORKERS' GOVERNMENT WILL BE FORMED IN GERMANY—HEAVY FIGHTING WITH INSURGENTS — ARMED BANDS PLUNDER VILLAGE.

Special Despatch to The Intelligencer, Canadian Press, Limited.

COPENHAGEN, March 23.—The whole western industrial district of Germany is being solidly held by radicals, and disaster is inevitable if government troops try to interfere there, according to information received from Berlin this morning by the Berlinske Tidende. Other advices state that a purely workers' government is on the point of formation without co-operation with the bourgeoise parties.

BATTLE WITH INSURGENTS.

BERLIN, March 23.—Heavy fighting between regular troops and insurgents occurred yesterday north of Spandau. Strong bands equipped with machine guns, which had plundered the village of Boetzow, encountered the regulars near Henningdorf, and the latter were obliged to retire temporarily. Reinforced, however, they returned to the attack with artillery preparation and violent house-to-house fighting ensued. The insurgents finally retreated, leaving fourteen dead and many wounded. The regulars pursued them.

FIGHTING CONTINUES.

COPENHAGEN, March 23.—A Leipsic Telegram received here says that fighting at Halle and vicinity continues with undiminished violence. Both the troops and insurgents are using artillery. Halle has been completely cut off from the outside world.

The strikes in Leipsic and Breslau have ended and postal and railway services are being resumed in both cities, which are quiet, according to the latest advices.

MUSIC AND DRAMA

'THE WOMAN THOU GAVEST ME'

Like a slave in the market place sold to the highest bidder, Mary McNeill, heroine of "The Woman Thou Gavest Me," by Hall Caine, passes through the most terrible experiences that could fall to the lot of a woman. Yet she finally overcomes them and wins a measure of happiness. This wonderful story with a few necessary modifications, has been made into a motion picture that is said to be one of the most powerful ever attempted, presented with a virtually all-star cast It will be presented at Griffin's tonight and Wednesday matinee and night.

The wide range of territory covered by the story embraces England, Egypt Africa, India and the Antarctic and in the cast are such well known players as Katherine MacDonald, Theodore Roberts, Jack Holt, Milton Sills, Katherine Griffith, Fritzi Brunette and others. When the novel was published in 1913 it excited much discussion. Derwent Hall Caine, the son of the author dramatized it and it was produced in Boston in 1917, where it had a long run to big business. A 2-reel Mack Sennett comedy, Gaumont World Wide News and other selected plays of unusual interest will also be shown on the same program. Regular prices will prevail during the exhibition of "The Woman Thou Gavest Me."

JACQUES OF THE SILVER NORTH

No better picture of the great North west has ever been seen than "Jacques of the Silver North," Mitchell Lewis' latest picture, which heads the bill at the Palace Theatre the first three days of this week. Vivid—alive—stirring, a typical story of the North this picture will hold your interest from start to finish. It is not like one of those many so-called Northern pictures because they contain some heavy-set men and a couple of snow scenes. "Jacques of the Silver North" has a plot—a good plot which never drags but is loaded with suspense. Mitchell Lewis as Jacques La Rouge the Canuck trapper, who loved Memory Baird with a love that is almost beyond human comprehension, is one of the most wonderful characters the screen has ever seen. Great of soul, with the gentleness of a baby and the ferocity of a wolf, his devotion to memory is like that of a dog to its master. He knows he cannot win the love of this white girl and although his heart aches with love for her he helps another man to win her—a man she loves, a man whom he hopes will make the girl he worships happy. Jacques is an unforgettable character—a character that will inspire every man and woman and teach them the real meaning of love—a love so beautiful and strong that it sacrifices everything. The program is augmented by the exhibition of a funny Rolin comedy and the latest chapter of the thrilling and interesting "Fatal Fortune" serial.

◆

DAUPHIN MAN., IS OIL MAD

Dauphin, Man., March 23.—The people of this district are oil mad. They think and talk oil, oil from the moment they arise until they go to bed and at night they dream of it.

The rush of fortune-hunters from Winnipeg and every other place within a day-and-night ride of Dauphin has subsided since it has been advertised widely that oil leases have been grabbed up on every foot of land for miles around. But the excitement aroused when it first became known that a farmer just outside town had struck real petroleum while digging a well is as intense as ever. The digging of more wells in the vicinity and finding of traces of petroleum in practically all of them has confirmed the community's faith in the original find. The people are sitting back now, awaiting impatiently for the arrival of drilling machinery, confidently expecting that when the deep holes are dug every one will turn out a "gusher."

In their belief there is a great oil field in the district, business men of Dauphin have subscribed $80,000 to be used in drilling and assurance has been received from Ottawa that two Federal engineers will be sent to investigate.

Dearth Of Mill-Feeds Menaces Dairy Farms

WITH BRAN AND SHORTS UNOBTAINABLE PRODUCTION IS LIKELY TO SHOW BIG DROP UNTIL PASTURES TURN GREEN.

Shortage of bran and shorts is causing alarm among the stock and dairy farmers of the Province. Even small quantities of mill-feed cannot be purchased by the farmers and with months yet before the pastures will be capable of supporting herds of cattle, production may be lessened considerably. Hon. Manning Doherty, Minister of Agriculture, has renewed his efforts to get the Wheat Board to take prompt action and save the situation. He has enlisted the co-operation of Quebec and New Brunswick, where the situation is as serious as in Ontario.

Mr. Doherty pointed out to the Federal authorities before he became Minister of Agriculture, the possibility of a famine of such feeds. He urged that foreign and British buyers be requested to take part flour when they ordered wheat, so that the feeds would be left for Canada. The suggestion was not acted upon and Britain and European countries got the whole wheat. Mill-feed, as a consequence, has become almost impossible to buy.

On March 4, Mr. Doherty telegraphed Chairman Stewart of the Wheat Board, suggesting that if a new export development in flour took place that Ontario millers get a share of it to ensure supplies of bran and shorts to Ontario farmers. On March 14, he wrote suggesting that a policy which would be of assistance might be adopted, even if the flour export did not increase.

"Would it not be possible for you to place with our Ontario mills an order for flour, which you would have no difficulty in disposing of within the next three or four months?" he asked.

"Unless the live stock and dairy farmers of this Province are able to get mill offal within the next few weeks, the production of live stock will be materially reduced and an additional element of discouragement added to the already heavy load." He also wrote the Minister of Agriculture in Quebec, Hon. J. E. Caron and the Minister of Agriculture in New Brunswick, Hon. J. F. Tweedale, asking for support in the request. Both have promised co-operation.

Canadian Steers Surprise French

Toronto and Guelph Grand Champions' Triumphal Tour

Canada's grand champion steers, "Black Hector," the winner at the Toronto Fat Stock Show, and "Roan Jasper," the winner of the premier honor at Guelph Winter Fair are creating quite a stir in France where they are now being exhibited. H. P. Kennedy purchased the Toronto champion and gifted it to the Canadian Government to be used as a means of advertising the Dominion's cattle products, Mr. Kennedy in addition to paying the cost of the animal, undertaking the expenses of a keeper's time throughout the tour. The Government bought the Guelph champion and latest advice reported both cattle at Le Mans, in Southern France, Lieut. P. W. T. Ross, government representative in charge of the exhibit has urged going into Switzerland. So far the champions have been shown at Caen, Lisieux, Rouen, Nevers, Moulins and Lyons.

Sam Cooper, Mr. Kennedy's man from Toronto in charge of the steers in a recent letter states that the cattle are in good show condition. All classes of people have flocked to see them and farmers have expressed the opinion that Canada must be "some country." Most folks regard the champions as bulls and seem amazed when told they are not. Already the mission would appear to be bearing fruit as one Frenchman has already asked for a quotation on 200 yearlings and another has declared his ability to handle a consignment of stockers and feeders. The French people, Sam Cooper states are boosting Canada all the time but they say very little about the United States. "I could not have been better treated by the people here if I had been a king," Cooper adds.

COAL INDUSTRY MAY BE TIED UP

Indianapolis, Ind., March 23.—Possibly another tie-up of the coal industry, beginning April 1, was declared to exist as a result of the United States' Government's prosecution of operators and miners for alleged violation of the Lever Fuel Control Act, in a statement issued here by E. D. Legson of Indianapolis.

Mr. Logson is one of the five coal operators arrested Saturday by Federal officials and one of 125 men indicted by a Federal Grand Jury here for alleged conspiracy to enhance the price of coal. He says there is danger that the Government's action may delay the agreement on a new wage scale effective April 1 and miners may refuse to work after that date.

Uncle Josh Welcome With His Homely Humor

Large Audience at Griffin's. Show Marked Appreciation of Wm. Lawrence in "The Old Homestead."

The quaint "Way Down East" characters representing rural life in New Hampshire are always pleasing when capably given on the stage, but no rural drama has had a stronger appeal to the hearts and heads of the people than "The Old Homestead" which made fame and fortune for Denman Thompson beginning with a continuous run of four seasons at the Academy of Music in New York City. To many of the primitive natives of little old New York, "The Old Homestead" was the first real glimpse they had ever had of farm life close up. Many of them had never seen a cow and few had seen a load of hay. Denman Thompson supplied these real thrills by driving a real sure-enough load of hay on the stage of the old Academy every night and at all the matinees and had a plentiful supply of live stock including cows, thus was the age of realism on the stage well ushered in. Many imitators sprang up but "The Old Homestead" goes on for ever and seems to have joined the class of "Uncle Tom's Cabin."

A worthy successor of Denman Thompson in the part of the warm-hearted old "Down East" farmer, Uncle Josh, is William Lawrence, who has been presenting "The Old Homestead" for several years now with unqualified success.

Last night at Griffin's Mr. Lawrence and company presented the delightful old play to a crowded house and the pathos and humor of the story were well brought out by the excellent cast. Uncle Joshua Whitcomb, as presented by Mr. Lawrence is a lovable old chap who, despite his years still feels his oats considerable, yes, sir, and takes no back talk from anyone, by hickory. His bubbling good nature and witty remarks followed hard upon the pathetic portions of the story and chased away tears which threatened to moisten the cheeks of the sympathetic ladies present. Uncle Josh in New York is one of the choicest morsels of the story and the Grace Church scene with wealth, poverty, vice and crime passing in review along the city street shaded by the soft lights and shifting colors from the stained glass windows of the church, while the soft notes of sacred music come from the church as "The Palms" is sung by the choir to the accompaniment of the great church organ is particularly effective.

The double quartette favored the audience with some beautiful selections well rendered and were repeatedly recalled.

The play closes with an old fashioned dance, the orchestra consisting of a little old melodeon, a fiddle and a horn. It sure was a scream, and a fitting climax to an evening of rare enjoyment, an entertainment without an unclean thought or taint of suggestion a bunch of laughs punctuated with just enough serious thoughts to make the humor more rich and wholesome. And the audience enjoyed every moment of it as anyone could see by watching their faces. There may have been an occasional blase old regular theatre-goer who professed to be bored by the old reliable, but the audience as a rule were not of the regular type of constant attenders, rather were they those discrimniating people who love the melodrama and wish to laugh and cry with the stage folks in the unfolding of life stories which could happen and might very well happen to any of us.

When the flood of silly musical shows have subsided then may we look for a return of the old fashioned melodrama without triangles, bedrooms, or problems, and may tha "Old Homestead" live forever with others as capable as William Lawrence to perpetuate the traditions of all that is good and true in life on the stage.

GOOD HEALTH IS MAGNETIC

All Admire Strong, Robust, Healthy, Vigorous Men and Women

If You Are Weak, Run-Down and Ailing, Let Vinol Enrich Your Blood and Create Strength and Vitality for You

For the weak, run-down, anaemic, over-worked, ailing men and women there is little joy in life. It is easy to drift into this condition, overwork, a neglected cold, or a severe sickness may have left in its wake, poor, thin, devitalized blood, a sluggish circulation, no vitality and you are simply dragging around from day to day, getting up each morning just as tired as you went to bed.

Now, why not change all this by taking advantage of your druggist's guarantee that VINOL will enrich your blood, quicken your circulation and carry strength and vigor to every part of your body, or return your money if it fails. Mrs. W. J. Nixon, of Vankleek Hill, Ont., says: "I was sick for months. I had no appetite and could not seem to get my strength back. I told my doctor I was going to try VINOL, and he said it was fine. I found it gave me a good appetite and I rapidly gained in strength."

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children there is nothing like VINOL.

Federal Budget of $537,000,000 Is Tabled In House

OTTAWA, Ont., March 23.—After numerous revision and much paring, the main estimates for the coming fiscal year were tabled by Sir Henry Drayton, Minister of Finance, in the House of Commons. They provide for heavy reductions in public expenditure as compared with the estimates of last year.

Last year's estimates totalled $900,000,000; the main estimates for 1920-1921 amount to $537,000,000. Included in the estimates of last year, however, was an appropriation of $350,000,000 for demobilization. The provision for demobilization. The provision for demobilization in the coming year is $38,000,000. With the exception of $2,000,000 for completion of the Parliament Buildings at Ottawa, provision is made for expenditure on public buildings on capital account. The Government shipbuilding program is reduced from $40,000,000 to $20,000,000 but there is an increase in capital expenditure on harbor and river improvements of from $3,201,000 to $4,100,000, of which $897,000 are revoted.

◆

The handsome $60,000 school, just completed at Iroquois Falls, was destroyed by fire.

The Canadian General Electric Company shareholders heard that the company was now doing the best business in its history, though, owing to dullness in the early part of last year, net profits showed a reduction.

"The Woman Thou Gavest Me"

- HER MARRIAGE -

A Blessing or a Curse?

To this young wife it meant everything—the giving of herself, of all she was or hoped to be, to the man of her heart. Yet she was forced to wed a man she loathed. And she rebelled. See this powerful picture—and blame her if you can! You'll get a new angle on man's "Double standard" of morality when you see "The Woman Thou Gavest Me." Come. See for yourself!

French Bankers and Beau Brummels Attend Races in Old Suits

PARIS, March 21—A spectacular lesson was given to extravagant society women by Maurice Rothchild, richest banker in Europe; Edmond Blanc, the Monte Carlo roulette king, and Andre Fouquieres, noted as a twentieth century Beau Brummel.

This trio astonished the fashionable throng that overflowed the Auteuil paddock on the occasion of the Spring Grand Prix, by appearing in old, unpressed suits with trousers frayed at the bottoms.

Never before had such a striking contrast been witnessed among the fashionable circles assembled at the season's first smart meeting, where money apparently was no object, gambling reaching undreamed of proportions and the extravagance in dress equalling that of Babylon's palmy days.

Campaign is Encouraged

Frederick Francois Marshal, Minister of Finance, and reported to be one of the soundest financiers in France, is said to be encouraging the campaign opened by the noted trio as a means of killing by ridicule the extreme extravagance which has been a feature of the post-war era.

Having personally lectured society matrons on the necessity for the ceasing to spend fabulous amounts on gowns, which are generally discarded it is said, is now starting a secret society among the more sensible leaders of fashion, with the purpose of wearing old clothes as a sign of patriotism and good breeding.

An antigambling crusade is included in the programme. The first step in this way was taken when Rothschild, Blanc and Fouquieres stood alongside the gambling booths displaying their old clothes. Their shabby attire was a silent reproach to those who might have been inclined to risk a thousand dollars or more on a horse.

Many Hard Hit

The decision to adopt direct methods to stamp out extravagance and gambling was arrived at this week when it became known that many fashionable women had been placed in an extremely precarious situation through heavy losses in the stock market as a result of the temporary slump due to the German revolution.

The need of silk stockings, which averaged a hundred dollars a pair, and the mad desire for flimsy tango costumes has driven women into the stock market with disastrous results.

Race track betting, the figures of which have reached an amount approximating that of the yearly budget of the Governments of some of the small nations, is only one of the latest crazes which the new society intends to stamp out

Display of Pearls

The display of pearls at Auteuil today surpassed anything seen this year and caused anything seen this year such wealth is coming from. Some women paraded about the enclosure wearing strings of pearls worth hundreds of thousands of dollars hanging down their bare backs, in accordance with the latest fad.

As a protest against the edict barring display of silk hosiery, several girls appeared stockingless with the evident purpose of showing that morality is bound to lose by the enforcement of such a law. The richness of their gowns and the wealth of the jewel display afforded an awkward paradox, however.

Bare arms, bare backs and bare legs and clinging dress materials emphasizing the outlines of figure continue to be the principal features of the present fashions, which encourage anything that is rich enough or undressy enough to recall or surpas the gay days of the directorate of the Empress Josephine.

KAPP APPROACHED THE BOLSHEVIKI

London, March 23—General F. B. Maurice, noted military critic, writing in the Daily News, asserts the German militarists prior to their coup a week ago had attempted to enter into negotiations with the Russian Bolsheviki, but that these efforts were frustrated, Soviet Russia refusing to deal with them

Newspapers As Necessaries Of Everyday Lite

OTTAWA, March 23.—Hearing was concluded in Supreme Court of Canada in the application of Price Bros. & Co. to have declared unconstitutional an order isued by the Board of Commerce of Canada fixing price and disposition of newsprint paper manufactured at the Price Bros. mills in Quebec.

Argument of counsel for Price Bros. on the one hand and for the Attorney-General of Canada on the other, has occupied the best part of three days and the decision of the court will affect the right of the Federal Government to control as newsprint paper. This control is necessary to secure an adequate supply of paper to Canadian newspapers at a reasonable price, according to the argument of defence counsel.

The argument which counsel for Price Bros. advanced against the order was that it constituted an infringement of provincial rights not justified by the conditions.

Just before Mr. Biggar concluded there was an interesting little exchange of opinions between the counsel and the learned judges as to whether newspapers could be considered necessaries of life.

Mr. Justice Duff held that the phrases as contained in the Combines and Fair Prices Act was intended to mean things necessary to physical sustenance.

Mr. Biggar maintained that newspapers were necessary and clearly came within the words "such other articles of any description" contained in the opinion of the board were of a character essential to the continuance of the normal social life of the country.

Mr. Justice Idington: "A newspaper is as necessary to a man as his pipe."

Mr. Justice Anglin: "More so, I think."

Chief Justice Sir Louis Davies: "I don't like the general words used by counsel to describe articles necessary to life. Let us get to more concrete terms and see where we stand."

Mr. Biggar—"I take it, My Lords, that necessaries of life are articles necessary to the common way in which men live, things they use from day to day. Newspapers are clearly in that class. Take away our newspapers and our whole mode of life would be changed."

Mr. Justice Duff—"Necessaries of life are articles of food and clothing and without the advertisements in the newspapers we might not know where to procure them."

Chief Justice Sir Louis Davies—"The order as framed seems to me to include many superfluities which the rich man can get out of his funds and the poor man may be unable to provide."

Mr. Justice Duff—"Such as motor cars."

Mr. Justice Brodeur—"Or silk gowns."

Mr. Biggar continued to state that the Commerce Board had advertised in the Royal Gazette that it had included newsprint as among the necessagies of life before the Price Brothers order was made.

GERMAN WARSHIPS FOR UNITED STATES

Washington, March 22—Five German surrendered warships allocated to the United States under the armistice terms, a battleship, a cruiser and three destroyers, will be brought to the United States next month, it was announced.

The cruiser Frankfurt and three destroyers, now at Rosyth, Scotland, will be towed over by three mine sweepers and a transport which will sail for Scotland early in April to bring them back. The battleship is the Ostfriesland, 22,400 tons, built in Rosyth, under the agreement by which she was to leave Kiel, March 15, but was expected to be on hand in time to accompany the other ships, crossing the Atlantic under her own power.

The Navy plans to exhibit the ships at Atlantic coast ports, it was said, in addition to a careful study of them by naval experts. Later they will be sunk at sea. Under the Supreme Council agreement they must be destroyed within a year after their arrival.

the war. She was not arrived at 1911, and the second line ship during

TO MAKE PAPER MONEY PAYABLE IN GOLD

Sir Henry Drayton has announced in Parliament that it is the intention of the Government to restore the law making bank notes redeemable in gold "at the first practical opportunity, due regard being had to the interests of the country." He also tabled figures showing that the increase in paper money since the war was $282,811,837, the increase of bank notes being $126,516,979; and of Dominion notes $156,294,858.

REV. DR. BARCLAY HAS PASSED AWAY

Montreal, March 22—The death of Rev. Dr. James Barclay, formerly pastor of St. Paul's Presbyterian Church Montreal, is announced in a cable from Scotland. He was seventy-six years of age. He came from Edinburgh to St. Paul's in 1883, and continued his pastorate there until 1910. In 1913 he left Canada to spend his remaining days in Edinburgh. In 1903, after the death of Rev. Principal Grant, he was elected to the Principalship of Queen's but declined the honor. In recognition of his services at St. Paul's, Lord Mountstephen fifteen years ago made a gift of $75,000 in securities to Dr. Barclay.

Games Today

O.H.A. Memorial Cup—Selkirk vs. Toronto Canoe Club.

Toronto Varsity 2—Sudbury 2

Toronto, March 23—There are eight wiser wolves in Toronto today. Having dined sumptuously of their favorite food, Granite, they trotted out on the ice last night all prepared for a little desert in the shape of eight blue-clad warriors from Varsity. But the meal wasn't the least bit to their liking, and to-day they are wandering around not only hungry, but with their sleek coats a bit ruffled and torn, and a husky branch from the tree of knowledge flung across the path which seemed to lead straight to the gang plank of the S. S. Melita. In case you were not at the game last night and don't know what all this is about, we will let you into the secret. It is only a roundabout way of telling you that Varsity outplayed the formidable wolves last night, and were outlucked themselves, and at the end of the 60 glorious, thrill-filled minutes the score stood Varsity 2, Sudbury 2. If Varsity can repeat their performance—well, Mr. Silverman, in the meantime, please hold that order for widow's weeds.

It was some game! The Arena has seen some mighty battles this year, but there has been nothing approaching last night's battle. Five thousand roaring, ramping students are looking for throat lozenges today and even we who are almost immue to hockey excitement had to do a little "P. T" in order to get strength enough to punch the editorial typewriter. Friend of the megaphone, who wanted to know what we think of the Varsity rooters now, we answer you by telling you that for the first time this year you let the public know you were alive You let them know it so well that you made the aurora borealis do a shimmy in the sky for sheer joy, and you drove that old team of yours over the rough spots like the Scottish snake charmers used to push the infantry up that last hill behind which the optimist was sure the billets would be found. But don't forget there is another game on Wednesday night. The battle is only half over.

WE have your size in the new Spring styles.

The fine and careful tailoring of every Fit-Reform Suit is the very foundation of the Fit-Reform success.

SUBSCRIPTION RATES. Daily Edition—One year delivered in city, $5.20; one year, post office box or general delivery, $4.00; one year by mail to rural offices, $3.00; one year to U.S.A., $3.00. Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.00; six months pro rata. All above subscriptions payable in advance or an additional amount of 25 per cent. will be added.

CRAZY FOR DANCING.

Dancing was at fever heat just before the war, and writers who love to philosophise history pointed it out as a symptom of the great conflict to come. Now that the war is over and dancing resumed it is still a symptom, and parallels are sought again in the past. "Diarists writing about the period after the Napoleonic wars allude to the same outbreak of the dancing habit," says Philip Gibbs, in the London Daily Chronicle, adding:

"It is perhaps—almost certainly—the reaction of youth against the tragedy of war and the pervading gloom of years when sacrifice was demanded by the gods. It is the dance of life following the dance of death, and a joyous proclamation of youth's divine rights against unnatural discipline.

"There must be some tremendous law of psychology in this enthusiasm, because it is not restricted to one nation or to one class, but is general, I believe, among all the peoples who were involved in the great conflict, directly or indirectly—that is to say, nearly the whole world. Going about Europe in the latter part of last year, and in America, during the first months of it, I tracked the progress of this dancing 'craze' and could not escape from its spheres of influence."

TIME TO WAKE UP.

The Montreal Star sounds a progressive note in calling for the application of modern business methods to the science of government for the people, of the people, by the people, to replace the cumberous political machine at present rumbling and blundering along so enmeshed in red tape and the accumulation of hangers-on picked up all through the years, the flotsam and jetsam of various governments and both parties, that it functions like a horse with the heaves, and efficiency is conspicuously absent.

Municipal governments are in need of a shaking up also, and an improvement in the transaction of civic business is very much to be desired. In this connection the development of the City Manager idea will be watched with interest.

Dealing with the larger arena of Government the Star says:

> WAKE UP, CANADA!
>
> If Canada were owned by Rockfeller or Morgan, he would work it on a business basis to produce the maximum as a dividend-paying concern. He would aim first at population, because population would:
>
> (a) Solve the railway question,
> (b) Strengthen the home market,
> (c) Reduce the per capita national debt.
>
> He would hire at adequate salaries managers of every department for:
>
> (a) Land settlement,
> (b) Income revenue,
> (c) Customs,
> (d) Civil service,
> (e) Internal revenue,
> (f) The National Debt Sinking Fund and interest.
>
> If the balance sheet or surface indications denoted inefficiency, there would be radical changes until the right results were produced.
>
> Instead of a Rockefeller or a Morgan — whom we don't want—we might have patriotic Canadian politicians capable of seeing the great opening for the making of a great Canadian nation.
>
> Group government will never do the trick, and to group government we are plunging forward.
>
> Oh, that a trumpet blast could be given which, echoing from Halifax over the Rockies to Victoria, would
>
> WAKEN UP CANADA!

So sweet of Bridge street residents to be willing to relieve their fellow citizens of Dundas street of the dust, oil, noise and nuisance of the Provincial Highway traffic. Strange to relate, Dundas street residents are a bit doubtful of the disinterestedness of the sacrifice.

× × ×

Twice now have the Belleville school teachers, forty-seven strong, stormed the Board of Education citadel, only to find the defenders of the treasury in retreat. If the teachers cannot catch up with the Board of Education, how can they hope to catch up with the High Cost of Living.

× × ×

Looked as if some people were doomed to disappointment on the flood question but the long-looked-for event occurred Sunday and the ice-shove was spectacular enough to suit everybody but the people whose furnace fires were extinguished and who were chased upstairs by the rising waters.

The announcement that James Richardson has undertaken to build an athletic stadium for Queen's as a memorial to his late gallant brother, George T. Richardson, is one of the most pleasing surprises we have had for some time. The generosity of this family in promoting various schemes of benefit to Kingston has always been striking, and this latest gift is only one of many. The athletic committee of the university is indeed fortunate in having secured the interest of the donor in so tangible a manner, and the sporting activities of Queen's will be placed on a level with those of Toronto and McGill by the gift.—Kingston Whig.

× × ×

The robins are here for the season and busily concerned with the housing question. Mr. Robin-Hyphen-Redbreast states that the Housing Question is acute this season and that early birds have picked out all the choice locations, while building material is so high as to be almost out of reach. As to labor, even old Jim Crow won't flap a wing for less than four measures of corn per diem, and common or mud robins demand fourteen worms an hour for an eight-hour day.. However, spring is here and we can all soon forget all our troubles in the backyard garden building castles in the air on the estimated value of the crop we are going to raise—in our mind. Of course if we lose our mind we will be broke, or badly bent at least.

OTHER VIEWS

Steady John Bull
(London Advertiser)

John Bull continues to live up to his reputation for weathering the roughest storms. There is no blow so severe but that he makes a rapid recovery.

Makes a Difference
(Wall Street Journal)

Sir Horace Plunkett says he found dislike for Britain in America; and the Princes of Wales would probably say that it depends on what you seek.

Inhospitable
(Chicago News)

In the League of Nations matter it is as if America had given a party and then left home when the guests arrived.

Have Learned Nothing
(New York Evening Sun)

The Senate of Berlin University has unanimously decided that Professor G. F. Nicol who opposed Germany's course in the war and fled from the country in an airplane, is unworthy to remain a member of the faculty. Apparently the German Universities remain now what they were before and during the war.

The Drinking Question
(Vancouver Province)

According to the conclusion of the French Academy of Medicine the individual Academy of Medicine the individual consumption of potatoes has been tripled, that of meat doubled, and people drink six times as much coffee as they did 80 years ago. It must be remembered however, that the old-timers had an abundance of liquid nourishment that is denied the present generation.

"Big Bill" in Trouble
(Hamilton Spectator)

"The Hon. W. H. Taft's visit to Owen Sound brought out the fact," says the Orillia Packet, "that there is not a hotel in the town where a guest can get a room with a bath." This is a rather humiliating confession. But, no doubt, "Big Bill" has been in predicaments equally as embarrassing before, as, for instance, when one of those 2x4 baths, which oftimes go with hotel rooms, has been placed at his disposal.

A Laugh or Two

To kill time try hard work.

"Never," said a wise woman, "ask a man if he cared about anyone else before he met you. He will lie—or you will cry."

Proving it

Doctor—There is absolutely nothing the matter with you, my dear lady.

Lady—Nothing the matter with me! Suzanne, cough for the doctor, the way I coughed last night.—Life.

Knew By Experience

"So our dentist friend has puchased a mining prospect."

"Yes."

"Well, he ought to win out. That fellow can hit a pay streak with the least drilling of anybody I know."

"Son," said old Kloseman, "you must give up smoking; it affects the heart."

"Don't worry, father; my heart's all right."

"That may be, but it gives me palpitation every time I see you light one of those expensive cigars."

Poorpays—I've brought that last pair of trousers to be reseated. You know I sit a lot.

Tailor—Yes, and perhaps you've brought the bill to be receipted, too. You know I've stood a lot.

They were sitting out a dance.

He: "Here comes the young parson. I wonder if he means to join us?"

She (frigidly): "Wouldn't it be advisable for you to propose first?"

But hard and cold were the looks of those

The Poet's Corner

FOREST LOVE SONG

Slim thrust the birches through the virgin forest mould;
Hushed stand the beeches in a vestal dream untold;
But glory of the primal woods and wonder ever new—
Are these things but as once they were to me, or are they you?

Young as the green woods is your heart and wise as they;
Strong as the stark woods to outlive a winter day;
Enchantment of blue distances at noon no longer lies
Alone on summer tree tops, but smoke soft about your eyes.

Dusk of the forest and your shadowing twilight hair,
Spell of the wildwood and your native wilding air,
Silence and speech and laughter, sky and bird and dappling sun—
O tangle of delight!—all these are no more two but one.
—V. H. Friedlaender, in Westminster Gazette.

BETTER THAN GOLD

"A tender smile on the lips we kiss,
A flush of joy on the cheek,
A clinging clasp in the hands we press,
Ah, friend, these are better a thousandfold
Better tha' nglittering heaps of gold.

"The light of love in a shining eye,
Dear arms that round us, twine,
Oh, these are the treasures of price untold,
Better than heaps of shining gold!

"The swift, warm touch of dear little hands,
The music of childish words,
Sweet voices that ring from morn till eve
Like songs of summertime birds;
Love's tones when the dear ones speak;
And peace that deepens as years go by
Unchanged by the light of time;
Oh, these are treasures to keep and to hold,
Better, far better than silver or gold!"

MILITARY NEWS

The 15th Regiment (A.L.I.) will be inspected by Major General V. A. S. Williams, C.M.G., General Officer commanding Military District No. 3, on Friday next, March 26th, at 7 p.m.

Members are expected to make special effort to attend this parade.

Members are reminded that they should be clean and smart as possible as appearance is one of the first impressions made by inspecting officers.

Members who have not yet drawn their uniform can do so on drill night. Company drill is now being carried out, and, as this drill is part of the programme laid down for the inspection, drill will be held every evening next week commencing on Monday, 22nd March, at 8 p.m.

The drills for next week will be at 8 p.m. Monday, Tuesday, Wednesday and Thursday, concluding with the inspection.

The above represents the number of years spent in fruitless efforts to cure a bad case of eczema with ordinary ointments, compared with the time it took Zam-Buk to effect a complete and permanent cure.

This was the experience of Mr. H. C. Buckley of 461 East Broadway, Portland, Ore. Writing to the Zam-Buk Co., he says: "For fifteen years I suffered with a bad case of eczema, and used all kinds of so-called "cures" and treatments, but nothing was capable of curing me until I tried Zam-Buk. This wonderful balm, however, completely cured me in less than a year, and not only so, but I have had no return of the disease. I strongly recommend Zam-Buk to anyone afflicted as I was."

This is but one of the hundreds of cases where Zam-Buk has effected a cure when everything else failed. The reason is easily explained. Zam-Buk being unusually refined—containing absolutely no animal fats or mineral drugs such as are contained in ordinary ointments—is capable of penetrating to the underlying tissues where skin diseases have their roots. Ordinary ointments, on the contrary, never get beyond the surface skin and so are incapable of effecting permanent cures.

Zam-Buk is just as good for salt rheum, ringworm, boils, ulcers, abscesses, blood-poisoning, piles, cuts, burns, scalds and all skin injuries. All druggists or Zam-Buk Co., Toronto. 50c. box, 3 for $1.25.

ZAM-BUK

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. German Planned War Of Revenge

BERNE, March 22.—Chancellor Bauer caused a sensation at the German National Assembly at Stuttgart when he revealed the conditions presented the Government by Dr. Wolfgang Kapp and Gen. Von Luettwitz before they entered Berlin last Saturday morning. "They wished to prepare for a war of revenge and plunge the coutry into another cataclysm," cried the Chancellor. "Pitiless punishment must come to these offenders, their fortunes must be seized and they must be tried before the Supreme Court at Leipsic."

Philipp Scheidemann, leader of the Majority Socialists; Herr Burlage of the Centre Party; Herr Kron of the German Nationalists and Herr Becker of the People's Party, are unanimous in their condemnation of the attempted revolution, according to advices received here.

MANY INQUIRIES ABOUT CONTROL OF NEWSPRINT

Ottawa, March 22.—Several questions affecting the Canadian newsprint situation are due for the Commons. P. F. Casgrain, Charlevoix-Montmorency is adding the following list to his name:

"Is it the intention of the Government to introduce at this session an act in regard to the control of papers and newsprint?

"If so, has the Government engaged one Mr. Biggar, K.C., to prepare such legislation?"

"Why has Mr. R. A. Pringle, K.C. resigned as Commissioner and Paper Controller and why has Mr. R. W. Breadner also resigned as Paper Controller? Has Mr. J. L. McNichol been dismissed by the Board of Commerce? if so, for what reason?

THAT COLD IS DANGEROUS

Don't wait Till you are Sorry.

Britain Offers Warship Fleet

Would Present Canada With Ships Worth $16,500,000

OTTAWA, March 23.—Examination of the report of Admiral Jellicoe, recently tabled in the House of Commons, shows that the British Government is prepared to present to Canada a fleet of ships which, at pre-war prices, would be worth $16,500,000 and at present prices would have a much higher value. These vessels, as indicated in table number four of the Admiral's report, are as follows:

One light cruiser, four torpedo-boat destroyers, eight patrol boat one flotilla leader, eight submarine and four mine-sweepers. In connection with the gift of these vessels the suggestion of Admiral Jellicoe is that Canada adopt a naval scheme the cost of which for the first year would be $5,800,000. Of this amount, however $800,000 would be used for the construction of ships, which could be postponed till a convenient date, and $500,000 more would be for erection of defences, maintenance of mine-sweepers etc, which apparently need not be undertaken immediately. The necessary expenditure to give Canada a small navy, which would have necessitated no capital outlay will therefore appear to be about $1,500,000 annually.

BUILD CRUISERS HERE

Admiral Jellicoe's scheme provides for an increase by construction of new cruisers in Canada, but this need not be undertaken until the finances of the country would warrant it. Until these vessels are built the annual expenditure would be between four and a half and five million dollars.

In connection with the manning of these vessels, it is understood that a personnel of 1,500 officers and men would be required for this purpose. As a result of the war the Canadian navy has now 500 well-trained men on the books of the ships and a number of other men who served during the war and acquired considerable experience would probably be ready to enlist.

CANADIANS FOR JUNIOR RANKS

The Naval College of Canada has turned out a number of well-qualified men, sixty of whom are now serving on ships of the Imperial navy. Therefore it seems likely that there would be no difficulty in filling all the junior officers' positions in the proposed fleet. The senior officers would probably have to be borrowed from Great Britain until such time as the Canadian officers attained sufficient seniority and acquired the necessary experience to fill the more advanced positions.

◆

General Manager Government For Chatham Is Plan

The Most Inexpensive Form of Commission Government and Insures Same Oversight as Successful Business

If the Ontario Legislature approves the bill now being drawn up by the city solicitor of Chatham, Ont., that will have to adopt the general manager form of government. The City Council has adopted the report of a committee delegated to find on a suitable form of government for the city, and which recommended that a general manager be appointed. However, it is not recommended that the scheme be adopted at once. The report says:

"The foregoing report is submitted as the form of Commission Government most suitable to Chatham should the electors of this city decide to adopt a form of Commission Government. Personally the members of your committee aren't enthusiastic for the adoption of the new form of Government at the present time except for the fact that in comparison with former years few men are willing to offer themselves for public service, consequently the electors have not the same large range of candidates from which to elect those to whom they wish to entrust the management of the city's business."

Under the plan submitted there would be a council of seven and a mayor, all elected for a two-year term. To provide for continuity, four members of the council would be elected every two years and only three in the alternate years.

COUNCIL TO APPOINT MANAGER

The council would appoint a general manager for the City of Chatham at a stated salary who would be given full control over all departments now under control of the City Council and who would be held responsible for everything done in the management of the city.

The mayor and council would act as advisory board and would have authority to dismiss the general manager and appoint a new one in his stead at any time.

This is the simple outline of the scheme which is now being incorporated in a bill to be presented to the Ontario Legislature. If the Legislature passes the bill, it must then be approved by the ratepayers before the new system of government can be inaugurated. Giving its reason for the adoption of the plan, the committee says:

"For a city the size of Chatham, we submit that the most suitable form of Commission Government is "The General Manager System." That form is not entirely different from the present system, but it gives to the city the same oversight as every successful business should have. It ensures for the city the entire time of a capable man to see that the citizens of Chatham get one hundred cents for every dollar spent, and at the same time it is not so expensive as the complete Government by commission would be where several commissioners are appointed at a substantial salary."

Another clause of the report recommends that civic elections be held on the first Monday in November, instead of on New Year's Day as at present.

"When and why was an embargo placed upon the exportation of newsprint paper manufactured by some of the mills?

"Has the Government received any communication, written or oral, from the State Department at Washington or from the Foreign Office in London, in regard thereto?"

◆

AUTOMATIC PHONE COMING

Toronto, March 23.—Predicting the universal adoption of the automatic telephone exchange system, E. L. Grauel, field engineer of the Automatic Electric Company of Rochester, N.Y., addressed the Engineering Institute of Canada even Kenneth Dunstan, western general manager of the Bell Telephone Company seeming to take a great interest. At question time Mr. Dunstan did not make any inquiries but a companion was inquisitive. It has been reported that the system will be installed in Toronto within two years by the Bell Co.

"We have an order from the Bell Company in Canada for $25,000,000 worth of equipment, or enough to keep the factories busy for five years," said Mr. Grauel. The automatic telephone was invented in 1892, two years before the manual system.

With a complete five-line switchboard, he demonstrated the rapidity with which numbers could be secured. You get the number by the use of a small dial on the base of the phone, which is numbered from 1 to 0, the 0 being the long distance signal. To call 12, one would first move the indicator to 1 and then to the figure 2, and he would be connected in four seconds. One wire will connect a hundred phones, if necessary. Six digits on the dial would look after a million lines, while seven would take care of a billion.

"The reason why the present manual system is in a more or less chaotic condition is because they have reached the limit of human endurance," he said. "They cannot pay enough money in wages to keep the operators they need. At the peak load of your system, the girls are worked to the limit of human endurance and that is when errors creep in. With the automatic system that is the time it works best because the machine is in proper use."

The Bell Company were already substituting party lines and he predicted the next thing they would suggest would be a measured service and to meter the calls. "The average length of a conversation on an automatic telephone is 83 seconds, while using the other it is a matter of minutes," he emphasized.

The automatic telephone has many attachments. A signal service can be given by the watchman merely lifting the receiver. A police and fire alarm service is also connected from which a voice can be heard for 200 feet on the street by merely speaking naturally into it. A dictaphone can be connected after office hours and when a call comes in, it will deliver any message. The attachment is very simple. Or a manager of a factory in his office can tell just what machinery is running in each room, or a long distance conversation can be recorded on the dictaphone. Through a gong code system, a man could be found in any part of a plant. And you can "listen in" on an automatic.

New York, Boston, Buffalo, Calgary Vancouver and Winnipeg and many other places are now using the automatic. In Honlulu, it was found absolutely necessary. "No operator could understand all the languages," said Mr. Grauel, "but all people can count to 10."

◆

DRILLING IN SASKATCHEWAN

REGINA—Oil claims have been filed by the Imperial Oil Company on twenty sections of land south of Consud, along the Battle Creek line. It is understood that the exploration party is preparing to sink a number of wells in the extreme south of the province.

The sinking of the wells will start just as soon as it is possible to send the equipment down to the Battle Creek country. Some of the drilling machines are already on the way from Edmonton, it was learned yesterday.

There's No Limit To its good points in Infusing Qualities.

213 FRONT ST.

The Telephone Situation.

The World At The Telephone

The demands upon the telephones nowadays are enormous. Everybody telephones. As a result the complexities and perplexities of the business were never so pressing.

Wherever you turn, especially in the larger cities of this continent, telephone men are wrestling with the greatest difficulties they have ever faced.

Very heavy demands for new connections have come right atop of world-wide shortage of vital material.

The heaviest traffic loads in the history of the business have come when facilities were lacking because of the scarcity of material, and when labor unrest and unsettlement were most acute.

Expanding business in all lines means insistent demand for extensions of telephone facilities. The cumulative requirements of a fast growing community like ours tax our resources to the limit!

We were never trying harder than we are today to make our facilities and service meet the demands of a difficult situation.

The Bell Telephone Company
of Canada

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER III—Continued

He now drew forth and placed upon the table a boot—small, light and prettily shaped—upon the heel of which he had been operating. "The new school mistress."

"Ay, no less; Miss Fancy Day—as nate a little figure of fun as ever I see and just husband-high."

"Never Geoffrey's daughter Fancy?" said Bowman, as all glances present converged like wheel-spokes upon the boot in the center of them.

"Yes, sure," resumed Mr. Penny, regarding the boot as if that alone were his auditor; "'tis she that's come here school-mistress. You knowed his daughter was in training?"

"Strange, isn't it, for her to be here Christmas-night, Master Penny?"

"Yes; but here she is, 'a b'lieve."

"I know how she d'come here—so I do!" chirruped one of the children.

"Why?" Dick inquired, with subtle interest.

"Parson Maybold was afraid he couldn't manage us all to-morrow at the dinner and he talked o' gettin' her jist to come over and help him hand about the plates and see we didn't make beasts of ourselves; and that's what she's come for."

"And that's the boot, then," continued its mender, imaginatively, "that she'll walk to church in to-morrow morning. I don't care to mend boots I don't make; but there's no knowing what it may lead to, and her father always comes to me."

There, between the cider-mug and the candle, stood this interesting receptacle of the little unknown's foot; and a very pretty boot it was. A character, in fact—the flexible bend at the instep the rounded localities of the small, nestling toes, scratches from careless scampers now forgotten—all, as repeated in the tell-tale leather, evidencing a nature and a bias. Dick surveyed it with a delicate feeling that he had no right to do so without having first asked the owner of the foot's permission.

"Now, naibors, though no common eye can see it," the shoe-maker on, "a man in the trade can see the likeness between this boot and that last, although that is so deformed as hardly to be called one of God's creatures and this is one of as pretty a pair as you'd get for ten and sixpence in Casterbridge. To you, nothing; but 'tis father's foot and daughter's foot to me, as plain as houses."

"I don't doubt there's a likeness, Master Penny—a mild likeness—a far remote likeness—still, a likeness as far as that goes," said Spinks. "But I haven't imagination enough to see it, perhaps."

Mr. Penny adjusted his spectacles.

"Now, I'll tell you what happened to me once on this very point. You used to know Johnson, the dairyman, William?"

"Ay, sure; that I did."

"Well, 'twasn't opposite his house, but a little lower down—by his pigsty in front o' Parkmaze Pool. I was a-walking down the lane, and, lo and behold, there was a man just brought out o' the pool, dead! He had been bathing and gone in flop over his head. Men looked at en; women looked at en; children looked at en: nobody knowed en. He was covered in a cloth; but I catched sight of his foot, just showing out as they carried en along. 'I don't care what name that man went by,' I said, in my bold way, 'but he's John Woodward's brother, I can swear to the family foot.' At that moment up comes John Woodward, weeping and crying, "I've lost my brother! I've lost my brother!" "

"Only to think of that!" said Mr. Dewy.

"'Tis well enough to know this foot and that foot," said Mr. Spinks. "'Tis something, in fact, as far as that goes. I know little, 'tis true—I say no more, but show me a man's foot and I'll tell you that man's heart."

"You must be a cleverer feller, then than mankind in jineral," said the tranter.

"Well, that's nothing for me to speak of," returned Mr. Spinks, solemnly. "A man acquires. Maybe I've read a leaf or two in my time. I don't wish to say anything large, mind you; but nevertheless, maybe I have."

"Yes I know," said Michael, soothingly, "and all the parish knows that we've read something of everything almost. Learning's a worthy thing and we've got it, Master Spinks."

"I make no boast, though I may have read and thought a little; and I know—it may be from much perusing but I make no boast—that by the time a man's head is finished 'tis almost time for him to creep underground. I am over forty-five.

Mr. Spinks emitted a look to signify that if his head was not finished, nobody's head ever could be.

"Talk of knowing people by their feet! said Reuben. "Rot me, my sonnies, then, if I can tell what a man is from all his members put together, oftentimes."

"But still, look is a good deal," observed Grandfather William, absently moving and balancing his head till the tip of Granfather James's nose was exactly in a right line with William's eye and the mouth of a miniature cavern he was discerning in the fire. "By the way," he continued in a fresher voice and looking up "that young crater, the school-mistress must be sung to-night wi' the rest. If her ear is as fine as her face, we shall have enough to do to be up-sides with her."

"What about her face" said young Dewy.

"Well, as to that," Mr. Spinks replied, "'tis a face you can hardly gainsay. A very good face—and a pink face as far as that goes. Still, only a face, when all is said and done."

"Come, come, Elias Spinks, say she's a pretty maid and have done wi' her," said the tranter, again preparing to visit the cider-barrel.

TO BE CONTINUED

PACING OF SENTINEL GETS ON KAISER'S NERVES

Amerongen, March 23—The constant pacing of the sentinel behind former Emperor William when he walks in the Bentinck Castle garden has so annoyed the one time ruler that on several occasions he has told the guard not to follow him so closely, but to stay out of sight.

$13 FOR A TURKEY

Cobourg, March 23—At Mr. Norman Jevell's sale at Fenella near here, a record was made when one turkey sold for the high price of $13. Prices on all live stock, implements and effects were high, the total proceeds of the sale being $6,240.

VICTIMS RESCUED

GOLD MEDAL HAARLEM OIL CAPSULES

The world's standard remedy for these disorders, will often ward off these diseases and strengthen the body against further attacks. All druggists, 50c. a box. Look for the name Gold Medal on every box and accept no imitation

UP GO ROAD COSTS.

Toronto, March 22.—Statistics of the civic Works Department show that the cash cost of roadways today is practically double what it was before the war. But while the city pays cash for its roadways, it borrows the money wherewith to do so. And the rate of interest on the necessary debentures works out at 6.25 per cent. today, as compared with 4.50 per cent. in 1913. So that the expenditure mounts up like this for what was a $20,000 roadway job in pre-war days:

Cash cost, 1913	$20,000
Including interest on 10-year debentures	25,275
Cash cost, 1920	40,000
Including interest on 10-year debentures	54,932

These figures throw new light on the reason actuating the Finance Commissioner in his plea for the cutting of capital expenditures to the lowest possible limit.

COCOANUT OIL MAKES A SPLENDID SHAMPOO

If you want to keep your hair in good condition, be careful what you wash it with.

Most soaps and prepared shampoos contain too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless), is much better than anything else you can use for shampooing as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Mulsified cocoanut oil shampoo at most any drug-store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

IRELAND AND HAYTI

New York, March 22—Discussing the action of the United States Senate in declaring for the Irish Republic the World says:

"Why should the enthusiasm of United States Senators for the principle of self-determination be suddenly exhausted when in the fullness of their hearts they have renewed the expression of their undying sympathy with Ireland?

"Not very far from the coast of the United States lies Hayti, where an officer in the United States uniform, with a company of marines at his back, dictates to the President of the Republic at Hayti the decrees that shall be issued to his name. Why did no Senator raise his voice to plead the right of self-determination for the people of Hayti?"

A Surprising Improvement In Comfort often comes to the coffee drinker, when he changes from coffee to Postum.

That seems to be the sure way to determine whether coffee is harmful.

If any discomfort due to coffee is disturbing you, change to

INSTANT POSTUM

The standard of quality is high, there has been no increase in price and the taste is most satisfying to those who enjoy a coffee-like flavor.

Canadian Postum Cereal Co. Ltd. Windsor, Ont.

May Mean Riches for Ontario

THE invention of a new steel, far in advance of any high-speed steel hitherto made, is described in the London Daily Mail by John Oliver Arnold, professor metallurgy at Sheffield University. Prof. Arnold, who is said to have been the discoverer of vanadium steel, claims, according to the Daily Mail, that the new steel possesses far more commercial possibilities, that it is unrivaled in hardness, that in tool form it will remove a greater weight than any other steel, and that it possesses comparatively longer life.

The Daily Mail indicates that Prof. Arnold uses molybdenum instead of Tungsten, and says:

"If large quantities of molybdenum (a hard silver-white metallic element) can be found and the price reduced, Tungsten will take a back seat, because 6 per cent. molybdenum will achieve more than 18 per cent. Tungsten."

Prof. Arnold, says the newspaper, is prevented, under the Defence of the Realm Act, from utilizing his invention industrially. He is patenting his invention in England and America, and will be allowed to proceed with his American patent on condition that he publishes nothing concerning it. He is absolutely forbidden to communicate the details of his discovery to anybody in Great Britain except under censorship.

The Daily Mail says the Government has asked Prof. Arnold whether he is willing to hand over his invention to the state and on what terms, but that Arnold does not intend to comply with the Government's desire to secure it. A representative of the American Government, the newspaper continues, made a special journey to Sheffield to investigate Prof. Arnold's discovery, and agents of the United States are prospecting in America and Europe for deposits of molybdenum, which previously has been found chiefly in Canada.

Immense deposits of molybdenite have been found in the Ottawa Valley, on the Quebec side of the river, especially in Pontiac County, in the district about Quyon.

In the early part of the war there was a tremendous demand for this mineral for the purpose of hardening steel, but it is understood that latterly the enquiry fell off, due chiefly to a substitution of other hardening processes. For this reason many of the showings were never developed.

Should Prof. Arnold's discovery prove to be of such great value, the future of the Ottawa district properties will be assured.

According to the best authorities molybdenum is usually found as molybdenite. Molybdenite has also been found in British Columbia in considerable quantities.

The report of the Ontario Bureau of Mines for 1919 contains these particulars of the molybdenum mines in the province:—

International Molybdenum Co.—The only mines operated by this company in 1917 in Ontario was the Moran in Brougham Township adjoining the O'Brien mine. Most of the ore mined was taken from an open cut, and the shaft was continued to a depth of 40 feet. The company is also a purchaser of molybdenite ores, having a custom concentrator at Renfrew and a smelter and refinery at Orillia.

At the concentrating plant at Renfrew three additional flotation machines were installed, and the capacity increased about 30 per cent.

The smelting plant at Orillia was operated for seven months when all equipment was transferred to a new plant, an additional electric furnace, new transformers and other equipment being added, thereby doubling the capacity of the old plant. The company manufactures molybdic acid, ammonia molybdate and ferro-molybdenum.

Renfrew Molybdenum Mines, Ltd.—The mine and concentrating mill of this company, situated on lots 8 and 9, concession 11, Township of Brougham, operated continuously during 1917.

During the year the two-compartment shaft was sunk 75 feet to the 150-foot level, and about 600 feet of lateral development done.

Owing to lack of fuel for power, the mill ran only about 34 per cent. of the possible running time. The total production of molybdenite for the year was about 58,000 pounds. The concentrates are shipped to France in barrels, the weight being about 1,000 pounds each. The mill has a daily capacity of 40 tons.

The Spain Mine on Lot 31, in the fourth concession of the Township of Griffith, operated intermittently during the year. The production came principally from the open pit.

Wilberforce Molybdenite Co., Ltd.—On lot 33 in the fifteenth concession and on part of lot 33 in the fourteenth concession of the Township of Cardiff, the above company is opening up a molybdenite prospect. A concentrator is being erected at Wilberforce.

The Sunset Mine, concession 14, Township of Brougham, is being operated by a company known as the Steel Alloys Corporation.

Molybdenum Products Co., Ltd.—This company has a capitalization of 1,075,00 shares of a par value of $1. The mine is located in the sixteenth concession of the Township of Monmouth, in Haliburton County, about half a mile from the village of Wilberforce. A 75-ton mill is in course of construction.

Paudash Lake Molybdenite Mines, Ltd.—Mr. Joiner has also done some work on a molybdenite deposit on lot 18 in the ninth concession of Cardiff, the Mooney farm, about fifteen miles southeast of Wilberforce.

Alcohol From Cuba To Relieve Shortage

TORONTO, March 22.—A serious shortage of pure alcohol exists throughout Ontario at the present time, according to local druggists, who state that they have experienced extreme difficulty in obtaining supplies and that the situation is one calculated to cause grave concern. There is no shortage of immature alcohol, which is obtainable for manufacturing purposes only, but the matured alcohol is reported as being an exceedingly scarce commodity. In view of this fact, druggists are pressing for temporary removal of the restrictions upon immature alcohol.

Montreal merchants have paid as high as $20 a gallon for alcohol, according to W. J. Carnahan, speaking for the retail trade of this city. The last regular list price he received, he stated, had been $4.90 a gallon, but he had since paid $13.50.

"But for the last week," he added, "there has been none obtainable in Toronto at any price."

"What would be the consequences if druggists were unable to obtain alcohol?" The Star asked.

"They would be very serious indeed. Probably three-quarters of the druggists would be forced out of business."

With a view to relieving the situation, the Ontario License Commission has placed an order for 100,000 gallons of sugar alcohol in Cuba. The shipmet is now due, in fact, it has been expected for some time, according to W. S. Dingman, vice-chairman of the License Commission. This alcohol, he states, will be disposed of to manufacturers and druggists on its arrival.

"I consider that our general manager showed unusual foresight in making the purchase" Mr Dingman stated "He secured it at a much better price than those now prevalent, and when it is placed on sale, it will probably do much to check present prices."

Arrival of the shipment referred to this being looked forward to by local druggists, as promising at least temporary relief. The sugar alcohol, they state can be used for general purposes as well as grain alcohol.

DISAPPEARS WITH $14,000

New York, March 22—Another robbery was added to the already long list among New York brokerage houses when John Muir and Company reported to the police that a messenger sent out yesterday to deliver negotiable securities valued at $14,000 disappeared. When getting the job three months ago he gave the firm, the police say, a false name and address.

◆

A good reputation is a valuable possession—but you can't mortgage it.

LIQUOR SMUGGLERS OUTWIT OFFICIALS

Bridgeburg, Ont., March 22—The Buffalo police, or, rather, the federal enforcement officers across the line, are handing it to some clever liquor smugglers, for, whoever he or they was or were, the wool was pulled very nicely over the eyes of the customs officials and the federal enforcement officials.

Six barrels of Canadian liquor were shipped, it has been discovered, from Bridgeburg to Buffalo, billed as lumber. When the car arrived in the Black Rock yards, before the customs men had an opportunity of inspecting its contents, the doors were opened, a wagon or a truck requisitioned and the six barrels removed.

One of the barrels was leaking and it was through this and the marks made by the bottoms as they stood on the car floor which gave the United States officials a clue. While investigation has been made here into the railroad records, nothing has been produced which would result in implicating the persons concerned.

TWO ARRESTS MADE

Two arrests were made by the police last night, one for intoxication, and the other a young man charged with being a vagrant.

AT G.W.V.A. CONVENTION

In Monday's Montreal Star the picture of Major R. D. Ponton appears in a large group picture of G.W.V.A. leaders present at the Dominion Convention in Montreal.

RESIGNED AS PRINCIPAL

F. W. McConnell has resigned as principal of the Brighton public school owing to ill health and Smith Langdon of Kingston, has been engaged in his place, to assume his duties after the Easter vacation.

WHO OWNS THE CART?

A four-wheel hand cart is at the police station awaiting an owner. It was picked up on Sunday afternoon near the footbridge by a boy, who took it to the station.

MORE BOYS ESCAPE

The police here have been notified to be on the lookout for four more boys who on Sunday escaped from the Industrial School at Mimico. One of the boys has an arm in a sling. One of the quartette's home is in Toronto, one at Perth and two from Kitchener.

ACQUITTED OF CHARGE

Before His Honor Judge Wills two men named Wilkins and Fletcher, of Deseronto, were yesterday on trial on a charge of breaking into and stealing from a hotel in that town. As a result of the trial both were acquitted Mr. Carnew for Crown, and the accused conducted their own defence.

DROVE INTO THE WATER ......

Shortly before 8 o'clock last night a man drove a horse attached to a buggy down the gangway in the rear of the old Anglo American Hotel premises on Front street and experienced some difficulty in getting out owing to the depth of the water and it being dark. The driver was unaware of the flooded condition of the yard and there was no barricade at the entrance of the gangway.

HOUSING SCHEME

Members of the Brockville Housing Commission will shortly go to Toronto to seek assistance from the Drury Government for the local housing scheme. Brockville's application for help in this direction has been in the hands of the Bureau of Municipal Affairs for months, and it is to determine the attitude of the Government that a deputation will visit the Parliament Buildings.

TATTOOED MAN WANTED

The police here have received a description of a man named Fred Chamberlain, who is wanted by the police of Lavenworth, Kansas, having escaped from the penitentiary reservation. Chamberlain is said to have part Indian blood, is aged 43 years and is 5 feet, 8 inches in height. He is a much tattooed man, with the tattoo of a sailor girl on the left forearm, a tattoo of a dragon coiled around a spear on the same arm, a tattoo of heart pierced by a dagger, and a tattoo of a girl's head on the right arm.

WANT DOCK EQUIPPED

At the Council meeting last night the following resolution emanating from the Chamber of Commerce was unanimously endorsed: "Resolved that the Government through its Department of Public Works be asked to complete the equipment of the Government dock at Belleville by installing at once a modern unloading plant to expedite and facilitate the proper handling of coal and thus enable the city and its industries to derive the full benefit that would accrue as a result of the installation of such unloading apparatus.

GUNS FOR BELLEVILLE

Eighteen pounder field guns being drawn down Front street led people to enquire their presence here. It was ascertained that four had arrived in Belleville and are being set up for use of the 34th Battery, C.F.A., which will be reorganized here under the capable and popular commander, Lt. Col. W. R. Riordon, D.S.O., who commanded the battery when it went overseas. This battery did excellent service during the recent war. When the battery left here 4 guns were taken, one of which was destroyed by a hit from the Huns' artillery and another was considerably damaged. The other two were sent back to England to be rebored. The guns arriving here come from Kingston and were deposited in the Armories. The old battery headquarters on Church street adjacent to the armories will be put in shape for artillery purposes and when this is done the 34th will be reorganized. The prospects are that the battery this coming summer will go into camp at Petawawa.

CHARGED WITH VAGRANCY

William H. Chamberlain, a young man who was arrested here last evening on a charge of vagrancy, was this morning by the Magistrate remanded to jail for a week.

AN EXPENSIVE DRUNK

A young man was arrested yesterday while under the influence of liquor, as he had upon his person a partly consumed bottle of liquor he was assessed $200 and costs under the Ontario Temperance Act.

NEW ADV. MAN

W. D. Dougherty, for some time a member of the Kingston Standard, left for Belleville, where he has accepted a position as advertising manager with the Ritchie Departmental store succeeding Mr. Wotten, who is going into business for himself.—Kingston Standard.

FRONTENAC U.F.O. CLUBS

W. J. Kennedy, M.P., Glengarry, and Mr. Halbert, M. P., Chief Organizer of the U.F.O. for the province, were the chief speakers at a large meeting of 24 U.F.O. clubs of Frontenac, held in the Court at Kingston. The meeting passed a resolution against daylight saving. Mr. R. J. Vair, President of the Glenburne U.F.O., was elected delegate to the provincial convention in Toronto. Mr. Brodie, Provincial President of the U.F.O. was to have spoken, but illness prevented him being present.

MAY BE MADE SURGEON

Lieut.-Col. Garfield Platt son of the late Dr. J. M. Platt, warden of Portsmouth penitentiary, is prominently mentioned in connection with the office of surgeon now vacant at that institution. Lieut.-Col. Platt is a graduate of Queen's and Harvard and served in the Canadian Army Medical Corps in France during the war. He has been practising his profession in Picton since his return from overseas in September last. By an amendment to the penitentiary schedule the surgeon, who formerly was permitted to practise is obliged to give his whole time to the institution.

School Teachers Ask Bonus To Meet High Cost of Living

BOARD OF EDUCATION BESIEGED BY DELEGATION OF TEACHERS FROM PUBLIC AND HIGH SCHOOLS BACKING UP REQUEST FOR CASH BONUS— TWO MEETINGS OF BOARD CALLED WITH NO QUORUM.

The special meeting of the Board of Education called for last evening did not materialize as there were not enough members present to form a quorum. Those in attendance were: Messrs. A. McGie, chairman; A. E. Pailey, B. Mallory, F. S. Deacon, W. R. McCreary, C. F. Wallbridge and Col. Ponton.

The teachers of the High and Public Schools were present, forty-seven strong, to back up their petition for a cash bonus, in addition to salary, and although the Board did not meet, members of the staff were heard in reference to their petition.

The chairman, Mr. McGie, said those present would constitute themselves a committee to hear the representatives of the teachers and report to the Board. There had been two to the Board. There had been two Board, but there was no quorum.

NOT A LIVING WAGE

Mr. G. W. Bunton said he could cite instances of teachers whose salaries would not equal their expenditure on account of the high cost of living. Speaking of the High School particularly, he said there was dissatisfaction. "I maintain," he declared "that at the present time the teachers of the city are not receiving a living wage—the ordinary expenses of living." He declared some of the new teachers were going to be behind. It must be admitted that the teachers are in a different class of skilled and unskilled labor. Skilled labor is paid more than the teachers. The people expect the teachers to live in a respectable house, as good as that of the ordinary business man. Rents are high. In the matter of dress, he said the teachers have to wear clothes as good as that of the ordinary business man, if he is not to be laughed at by the public and scholars. There are heavy demands upon the teachers for local institutions and philanthropic work. The social position of the teacher puts him or her at a disadvantage. The teachers felt perfectly justified in asking a small bonus to tide them over the present season. School Boards are doing much for the teachers throughout the province, but nothing had been done here.

COSTS INCREASING

The petition cited the increase in the cost of living since last September. The teachers did not deny the legality of their contracts, and if the Board did not see fit to grant the bonuses they would endure to the end of the term. Increases had been granted by Boards in other cities and towns averaging 25 per cent., or $200 to $500.

The petition was signed by 47 teachers.

Mr. A. A. Affleck, of the B.H.S. said that the High School teachers' salaries had risen 32 per cent. Up to November the cost of living had risen 111 per cent., leaving 79 per cent. behind the cost of living.

LADY TEACHERS

Miss E. Gastrell, spoke on behalf of the ladies of the public schools. The average salary per lady teacher was $714.68, while her average expense was $790.20, leaving $75.52 of an average deficit to be overcome by self-denial, or help from home. Teachers are not getting anything for travel or study.

Mr. V. E. Bullock said that there was a scarcity of teachers today, due to low salaries. Students had left the public schools, taken a three months' course, and then started to work at salaries larger than three-quarters of the teachers of the public schools. Teachers are not at their best unless relieved of financial worries. Mr Bullock praised the public schools but to point out the system though there should be adequate salaries for teachers.

STREET CLEANERS WAGES

In Peterborough the street cleaners get larger salaries than most of the teachers of Belleville.

"We're up against the wall and we are kicking. Put yourselves in our position. You'll need some imagination to realize it."

Capitular Masons Honor St. Patrick

Members of St. Patrick Chapter Accept Invitation to Visit Quebec.

TORONTO, March 22—St. Patrick Chapter, Royal Arch Masons, held high festival in honor of Erin's famous patron and the anniversary of the founding of the chapter which justly boasts of having the largest membership and being the best known capitular body in the British Empire. Over three hundred companions were in attendance in addition to a large number of distinguished visitors, among them M. Ex. Comps. Lt.-Col. W. N. Ponton, Belleville, Grand Z; F. W. Harcourt, Grand Master of the Grand Lodge of Canada; R. Ex. Comps. H. T. Smith, Grand Scribe E; Wm. Croft, Grand P.S.; R. J. Gibson, Dr. Reid, W. L. Tinker, Jas. Glanville, J. L. Gardiner, Rev. Prof. Brandt, Montreal, and E. E. Gleeson, Granby, Que., Golden Rule Chapter; Ex. Comps. R. J. Wilkinson, Z; H. J. Healey, H; W. S. Spooner, P.S., and C. Macfarlane, D. of C., Carnarvon Chapter, Montreal. A large contingent was expected from New York City, but the visitors were detained at Rochester, and had to be content with wiring fraternal greetings.

No less than ten Past First Principals of St. Patrick Chapter were present, ex-Comps. J. A. Cowan, Geo. McQuillan, C. J. Smith, Surgeon-General G. Sterling Ryerson, B. Cairns, Percy Rogers, T. Graham, W. Tow, J. J. Shelley and Percy Sprague. The distinguished visitors were received and welcomed with all honors due their exalted rank by Ex-Comp. T. Harrison, Z, and the officers of the chapter, after it had been duly opened. Greetings and felicitations were exchanged, but no ceremonial work was undertaken.

The usual banquet followed, which was on a scale of pre-war days. The hall was profusely decorated with flags and bunting, while the tables were adorned with shamrocks, ferns, flowers and Irish flags. The musical programme rendered by members of the chapter, assisted by several well-known artists, was of an exceptionally high order, and included many well-known Irish glees and melodies. The oratory as befitted the occasion, was punctuated with many fine examples of Irish wit and epigrams.

Lieut.-Col. Ponton ridiculed the pretensions of De Valera that the Irish people desired to establish a republic. Ireland was an integral part of the Empire and would always so remain as long as there were Irishmen in existence of the spirit of the 350,000 who answered the call for service during the great war and of the spirit and calibre of the 56,000 immortal Canadians who gave their lives for Empire and Liberty.

The toast list comprised "The King and the Royal Craft," "Grand Chapter," "The Day We Celebrate," proposed by M. Ex-Comp. John A. Cowan, responded to by M. Ex-Comp Lt.-Col. Ponton; "Canada and the Empire," by General Ryerson, Principal Brandt responding; "Visiting Companions," Ex-Comp. R. J. Wilkinson responding for the guests.

The members of St. Patrick Chapter accepted an invitation to pay a fraternal visit to Carnarvon Chapter, Montreal, on May 14 next.

Called By Death

JOHN REID

Death came suddenly this morning to Mr. John Reid, who resided with his sister, Mrs. Bradshaw, at Foxboro. Although deceased had been in failing health for some time his demise was by no means anticipated. Mr. Reid was 83 years of age and was born in Thurlow township where he resided all his life. He was well and favorably known in the community. For a number of years deceased had been a member of the Methodist Church. Mr. Reid was a widower and is survived by three sons namely, Ernest and Morley of Rochester N.Y., and Armour of Trenton. Mrs. Bradshaw of Foxboro is the only surviving sister.

HERMAN LLOYD

On Saturday afternoon the funeral of the late Mr. Herman Lloyd took place from the residence of his uncle, Mr. J. W. Lloyd, 81 Mill street and was attended by many relatives and friends. Rev. Mr. Elliott of the Tabernacle Church officiated at the house and interment at Belleville cemetery. A number of floral tributes were evidence of respect to the departed. The bearers were immediate relatives.

ELIZA HASLIP

Monday afternoon the body of the late Mrs. Eliza Haslip was consigned to the tomb at Belleville cemetery. At the residence of Mrs. G. Garrison, Brown Street, daughter of the deceased, services were conducted by Adj. Cavender of the Salvation Army. Interment took place at Belleville cemetery. Upon the casket were placed a number of floral designs. The bearers were Messrs H. McGinnis, J St. Louis, J. Alexander, A. Buskard, J. Lloyd and B. Johns.

Social And Personal

Mr. H. E. Tickell has returned home from a business trip to Toronto.

B. H. Willings, factory manager for Natural Tread Shoes Ltd., was in the city this week. Mr. Willings is moving to Belleville about May 1st.

CLEANLINESS IS HEALTH

By the use of Gillett's Lye, house cleaning is made a pleasure instead of a drudgery. It softens the water and cleans thoroughly whether the dirt is visible or invisible. Destroys all bacteria and infectious germs, removes obstructions from drain pipes, closets, sinks, etc. Refrigerators are made delightfully fresh and clean by using one teaspoonful of Gillett's Lye dissolved in two gallons of water.

"GILLETT'S LYE EATS DIRT"

Made in Canada.

A Diamond for Easter

The chief reason for owning a diamond is the attractiveness it adds to one's appearance. And at Easter time, when new Spring raiment is donned and special attention given to looking attractive, the effectiveness of diamond jewelry is uncommonly pleasing.

Blackburn diamonds have that ineffable, gleaming brilliance, alluring charm of color, and indescribable beauty that have fascinated mankind for centuries and made fine diamonds most desired of all gems.

G. W. V. A. May Go To Ottawa

Special Despatch to The Intelligencer Canadian Press Limited

MONTREAL, March 23.—The procedure committee appointed by the Great War Veterans in annual convention yesterday, this morning recommended the following schedule of matters to be discussed and the order in which they will be taken up; Pensions, Re-establishment, Land Settlement, Association, Constitution, Labor, Natural Resources, Policy and Fraternal Ideas.

This report was adopted and the pensions question was dealt with in a long resolution which supplied many suggestions for improving pensioners' conditions. A motion to change the venue of the convention to Ottawa in order that the entire body could present to the Government a resolution to be passed at the convention required a roll call, a show of hands failing to definitely establish the issue. At this juncture the session was adjourned with the understanding that the matter should form first business of this afternoon.

Late Telegraph Briefs

CHARLES DANA GIBSON NOW CONTROLS "LIFE"

New York, March 23—Charles Dana Gibson, the artist, has bought a controlling interest in Life, the weekly humorous paper, and will take charge on April 1. On Tuesday last Mr. Gibson purchased the majority of stock from the widow of John A. Mitchell, the former editor.

Thirty-four years ago Mr. Gibson sold his first drawing to Life for $4. It was called the "Moon and I."

That night he went home and drew twelve more sketches, all of which the magazine rejected the following day. Later he became a frequent contributor.

HYDRO FOR THE NORTH

North Bay, March 23—Mayor John Ferguson, of North Bay agrees and is pleased with Premier Drury's standing behind Sir Adam Beck in his Hydro development. As no one knows better than these gentlemen, he says, that what Niagara has done for western Ontario and the St. Lawrence for eastern Ontario, the French River alone

MAPLE SUGAR FINE, BUT FARMERS KEEPING MORE

Ingersoll, March 23.—Most of the farmers of the neighboring districts who have tapped their sugar bushes report a splendid run of sap. The general opinion is that the season will be short, owing to the entire absence of snow, which, it is claimed, is very essential. Syrup of exceptionally fine quality has already been made, but it is not expected there will be a heavy supply on the market. Many farmers are inclined to retain more than ever for their own use, owing to the high cost of sugar and other syrups.

Give Votes To All Adults In Municipal Elections

ONTARIO GOVERNMENT'S NEW FRANCHISE MEASURE PLACES WOMEN ON AN EQUALITY WITH MEN—PROPERTY QUALIFICATION FOR CANDIDATES TO BE WIPED OUT.

One of the most important franchise measures since the Hearst Government extended the Provincial franchise to women, was introduced in the House by Hon. F. C. Biggs. Under the bill, which received first reading, the Government recognizes the principle of partnership in a family in respect to freehold or leasehold municipal franchise rights. In other words where the head of the family, either father or mother, owns property or is a tenant of property, all other members of the family of age, whether sons or daughters, will have equal franchise rights.

The law is an extension of the principle adopted by the former Government in giving the franchise to the sons of farmers living at home, and the existing bill will be repealed to make way for the broader measure. The Government takes the position that the wife of the farmer, or the daughter working at home, has an equal interest in the community with the son, and therefore should have the franchise. The same principal has been made to cover the urban family. The new law will work two ways, since it will also give the municipal franchise to the husband where the property is held in the name of the wife. At present the husband only votes if the wife consents to the surrender of her right.

One effect of the change will be to tremendously increase the municipal voting lists and this in turn will simplify the task of getting the lists ready for a Provincial election. One of the reasons why the former Government resorted to enumeration was that the Provincial franchise was so much wider than the municipal franchise. So many names had to be added to the municipal lists that it appeared advisable to start at the beginning and make new lists. Under the bill introduced yesterday, all married women will be placed on the municipal lists—providing the husband is now qualified, and many thousands of adult franchise voters who are living at home. This will leave a comparatively small number to be added when a Provincial election comes along and the municipal lists are made the basis for those of the Province.

Abolish Property Requirement

Another important change is made by the bill introduced by Hon. Walter Rollo, to reduce the qualifications required of candidates for municipal office. The measure declares the qualification of the candidates shall be only that of voters. The property qualification is to be eliminated, but a candidate must be a tenant of the municipality.

Two minor election changes are a bill by Hon. Mr. Biggs to require persons nominated in villages and a bill by Hon. Mr. Rollo to make 25 names sufficient endorsation of a nomination paper.

Roebuck Draws Fire Of Whole Trade Board

TORONTO, March 23—Just before time for adjournment at the Board of Commerce session Monday afternoon, A. W. Roebuck, counsel for the Crown, undertook to ask A. C. Pyke if in his organization "there had been any discussion of the relationship to the Wholesale Grocers' Association of the Board of Commerce." Instantly all the spirit of amity and friendliness, which had characterized a more or less humdrum all-day session, vanished. Figuratively speaking, the Board of Commerce lion, beared in its den, stood up on his hind legs and roared.

One of the roars mentioned Mr. Roebuck's "indecency" and later on another intimated an intention. If Mr. Roebuck did not adhere to certain principles, of requesting the Attorney-General to appoint another counsel. A torrent of criticism was poured upon the head of Mr. Roebuck. Messrs O'Connor, Murdock and Major Duncan contributing in quick succession. As opportunity afforded, which was rare, Mr. Roebuck made pointed replies, outstanding among which was a declaration that he would no longer examine at a "sham" investigation.

Coal Shortage Hits St. Thomas

Municipal Gas Plant is Now Using Its Last Carload

ST. THOMAS, March 23—The municipal gas plant of St. Thomas is now using its last car of bituminous coal and unless further shipments arrive in the city in the course of the next few hours, the plant will have to be closed down and the citizens will have no gas supply for domestic use. S.O.S. calls have been sent out to other municipalities, but they are all practically in the same boat and no help can be given.

Several cars are supposed to be on the way to St. Thomas from the United States, but it is said that this coal has been confiscated by the railroads. The local coal merchants are completely sold out and not a pound of bituminous coal can be secured from any source in this district. An oil gas machine is being installed at the municipal plant, but this will not be ready for several weeks and in the meantime it is probable that the citizens will have to resort to other fuel for cooking purposes. Fortunately the city is well equipped with Hydro Electric service, almost every house in the city being wired.

Murdock Slams U.F.O. At Board Of Commerce

Might Be Said They and Milk Producers Were Unduly Enhancing Prices

TORONTO March 23—At the opening of this morning's proceedings of the Board of Commerce, Chairman W. F. O'Connor told Mr. Roebuck he would like to hear argument from him as to the relevancy of the document to put in as an exhibit yesterday, being a circular letter from A. S. Pyke to the wholesale grocery trade in reference to the appointment of Mr. O'Connor as chairman of the board.

Mr. Roebuck submitted it was relevant as showing the attitude of the witness at the time, explaining his action and the actions of the association in passing a resolution of that nature.

Mr. O'Connor asked him to address himself to the question as to whether the document be admitted in evidence as a document proving a combine. "If you cannot do it I will have to conclude there is an ulterior motive."

Mr. O'Connor read the letter in question and asked "apart from the utter indecency of it, what relevancy has it to the proceedings?"

Mr. Roebuck:—"It has been already pointed out in evidence that one of the other parties implicated in this combine had undue relationship with the Board of Commerce on which he counted for success." The resolution to stand as a unit was a resolution of policy.

The chairman ruled the document was irrelevant and said it would be excluded.

Commissioner Murdock declared that Mr. Roebuck should not go on with the investigation before him and make "absolute misrepresentations bordering on blackmail."

Hits at U. F. O.

"The Wholesale Grocers' Association and Hamilton's Grocer's Association were referred to as 'double headed monsters' just for the purpose of unduly and indecently influencing the public mind" said Mr. Murdock. "No such reference was made to the U. F. O. or to the Toronto Milk and Cream Producers' Association, yet it might be said there were efforts being made on their part to starve children and unduly enhance the cost of living to a far greater extent than any of those 'double-headed monsters' would ever get a chance to do. I am sick and tired, as a Labor man for many years, to sit and listen to this, in my opinion, almost blackmail, just for the purpose of drawing a sprat across the trail and to distract attention from something closer at home. For heaven's sake bring out evidence to show a combine and I will be ready to deal with it."

New Election Act Was Introduced By Premier Drury

Enumerating System Wiped Out By The Drury Government

TORONTO, March 24—Ontario's new Election Act was introduced in the Legislature yesterday by Hon. E. C. Drury. The measure makes a number of radical changes in the existing law, chief among them being the sweeping away of the system of enumeration, and a return to the former lan of using the municipal lists as the basis for Provincial lists—with this exception, that in the cities all names will go on the lists by registration before an election. Another important change, or rather an addition, is a provision for the holding of the Provincial election on a fixed date every four years—nominations on the second Thursday in October and polling on the second Monday thereafter. The present Legislative Assembly, barring unforseen events, will be dissolved on the first day of August, 1923, according to the Prime Minister's announcement

The general principle of the bill is the elimination of Government control over the preparation of the lists, and, as far as possible, over the conduct of elections.

"While it is possible that there was no actual wrong-doing as a result of the former system of appointment of enumerators, it is wrong in principle that the Government or its political supporters should have the nomination of elections officers' said Hon. Mr. Drury, 'and the bill is intended to discourage the interference of candidates and political organizations with the machinery of the preparation of the lists."

Measure fixes qualification to vote as twelve months' residence in Ontario, three months in the electoral district, prior to the day of polling, but provision is made for addition of the names of persons who have moved from one electoral district to another within the three months period.

"At the last election," said the Premier in explaining the bill, "clergymen, bank clerks and other classes were disfranchised in large numbers through being moved in the course of their ordinary occupation within the period of three months."

Provision is made for special polling places in practises and returning officers, poll clerks and agents are authorized to take the vote of bed-ridden patients.

In the cases of women of foreign birth, who have become naturalized by marriage, they are required to produce a judge's certificate that they possess the necessary qualifications for naturalization and have taken the oath of allegiance before being allowed to vote.

ON THE INDIAN LIST

Special provisions are made with regard to Indians who are qualified to vote by reason of military service. Indian reserves are treated as territory without municipal organization and voters' lists will be prepared as in other unorganized terriotry.

Stamping of ballots by returning officers is dispensed with as unnecessary in view of the present form of ballot. "At the last election, the stamping cost something like $500,000, said the Premier.

Polling hours throughout the Province are made uniform, from 9 a.m. to 7 p.m. The municipalities are required to provide polling places, subject to the approval of an election board, which corresponds to the voters' registration board. The Province will pay municipalities $6 for each polling place. A ten-day period is set between nomination and election days, instead of the present seven-day period. Election writs must be issued not more than 20 nor less than 16 days before nomination.

EX-KAISER, EATS BERRIES THAT COST $1.25 PER BERRY

Brussels, March 24.—While thousands of his former subjects are in desperate straits from starvation in Germany, William Hohenzollern is eating strawberries at $1.25 each in Holland it was learned today.

The strawberries are being bought here and shipped to Amerongen for the former Kaiser's table.

Toll Bridge Barbarism Says Prince Edward

The following report was presented to the County Council of Prince Edward from the deputation appointed to attend a meeting concerning the Prince Edward-Belleville Bridge:

Shire Hall, Picton, 9th March, 1920

To the Corporation of the County of Prince Edward:

Your committee appointed to meet the Belleville Board of Commerce after making two or three appointments, finally concluded to meet in Toronto and interview the Minister of Public Works re Belleville Bridge.

We therefore met the Belleville Board of Commerce in the Parliament Buildings on Tuesday and went into the matter very thoroughly with the Minister, Hon. Mr. Bigg. We found that the Belleville delegation had really no plan to submit to the Minister and your committee was pleased to outline a plan whereby the Government could take over the said bridge under the Colonization Act and make it a County Bridge and then make it a part of the Provincial County Highway whereby the Government will pay 60 per cent. for maintenance, the balance to be paid by an agreement between the County of Hastings, the City of Belleville and the County of Prince Edward. After discussing the matter at some length the Minister would not listen to the proposal but suggested that Belleville take it over under the Act making it a suburban area and controlled by a Commission whereby the Government could pay 40 per cent. of the upkeep. This evidently was a scheme that had been worked out in the Western part of the Province by other cities but did not appeal to your committee and the Minister would not listen to any other scheme so that the interview really amounted to naught and the bridge at present will remain as it is and we will still have to pay tolls and have the mark of barbarism—a toll bridge—in the most enlightened part of the Province of Ontario.

All of which is respectfully submitted

(Signed)
Jno. Hazel
R. H. Fox
E. M. Young
D. W. Robinson.

$20,000,000 Finish Program Of Shipbuilding

Interesting Figures Presented in Commons by Hon. C. C. Ballantyne

OTTAWA, March 24. Hon. C. C. Ballantyne, Minister of Marine and Naval Affairs, asked the House to vote $20,000,000 to complete the Governments merchant shipbuilding programme.

He said that before the war there were 43 million tons of merchant shipping, 23 of which were owned by the British. Fifteen million tons of ships had been destroyed by enemy action, of which seven million tons were British ships. Over 14,000 lives had been lost on ships that were sunk.

In 1919, over 85 ships had been built with a total tonnage of 109,780. Mr. Ballantyne said the average cost of 63 vessels during the war was $191.92 per ton, the larger vessels costing $180 per ton and the smaller ships $215 a ton. Since the armistice was signed the Government had paid $167 a ton for large ships.

The expenditure up to March 1st on ships for the merchant marine was slightly over 43 million dollars.

The Minister said the Imperial Munitions Board had bought 44 steel ships in Canada at $190 a ton and 60 wooden ships at $204 per net ton dead weight.

After that the Canadian Government served notice on them that no more money would be advanced to Britain for the construction in Canada of ships under British register. The Canadian Government decided to build ships for itself to be used in conjunction with the national railways.

FARMER INSTANTLY KILLED

Meaford, March 24.—Robert Young a well-known farmer, residing about three and a half miles from Meaford was instantly killed, while helping to tear down a barn belonging to Mr. Milton Taylor, on the adjoining farm. As Mr. Young was lowering some of the framework, a large beam fell on his head, smashing his skull. He was married, but had no children. He was about forty years of age.

RADIAL RAILWAY BELLEVILLE TO TORONTO

Sir Adam Beck, in addressing the Ontario Municipal Electric Association at Toronto yesterday, upon the radial railway question, is reported by The Globe as saying:

"HE HOPED TO SECURE GOVERNMENT AUTHORIZATION TO PROCEED WITH THE WORK ON THE RIGHT-OF-WAY FROM BELLEVILLE TO TORONTO BEFORE THE FROST IS OUT OF THE GROUND."

Strike In Spain Near Settlement

Special Despatch to The Intelligencer Canadian Press Limited

MADRID, March 24.—A plan was agreed upon early today for ending the general strike on Spanish railways inaugurated yesterday. It was announced that after prolonged conferences between the Minister of Works and representatives of railway companies a solution had been reached under which the wage demands of men would be conceded.

16,000 Soldiers Frozen To Death

Special Despatch to The Intelligencer Canadian Press Limited

LONDON March 24—More than sixteen thousand anti-Bolsheviki soldiers have been found frozen to death on the Russian Steppes, it is announced in Soviet Military communique received from Moscow by wireless. The statement reports progress by Red troops against General Denikine's forces along the railway in Ekaterineda region on the Caucasus front.

Gratuity Question Before G.W.V.A

Special Despatch to The Intelligencer Canadian Press Limited

MONTREAL, March 24—Great War Veterans Association had before it the problem of re-establishment at this morning's session of their annual convention. Chairman of the Re-establishment Committee, J. E. Akins, presented its report and with the regular resolution recommended. He read the Calgary resolution which calls for an additional payment of one dollar per day to men who served on the belligerent front other than Siberian, eighty cents per day for service in Great Britain and Siberia only, and fifty cents a day for service in Canada only, and a cash bonus of fifteen hundred dollars in a lump sum to widows. A long discussion followed which was in progress at lunch adjournment. Nomination of officers was fixed for this afternoon.

Last Minute Telegraph Briefs

ARRESTED GOVERNOR

Constantinople, March 24.—Ali Said Pasha, Military Governor of this city has been arrested by British forces.

STERLING HIGHER

New York, March 24—Sterling exchange rose on the local market this morning to $3.82¼, its strength being attributed to reports that Great Britain's exports are now nearly at prewar rate and that continental countries are now buying British bills. Canadian dollars advanced to 91.43 cents.

* * *

QUITS $14,000 JOB; TOO MUCH CRITICSM

Detroit, March 24—Allan E. Barker, Grand President of the United Brotherhood of Maintenance of Way Employees and Railroad Shopmen and its 50,000 members, is no longer at the head of the organization, his resignation having been accepted. The position paid $14,000 a year.

"I will not work again for a Labor union, Mr. Barker said. E. F. Grabie, one of the Grand Vice Presidents, is acting as President temporarily.

It is understood that Barker was resentful of criticisms of his handling of the recent situation in which his organization called a strike and later called it off, the latter action being taken, it is said, against strong opposition.

* * *

Boston, March 24.—A robbery of jewels and bonds valued at $30,000 was discovered at a local loan office. The burglars entered by sawing a hole through the floor of the office above.

Troops Sent To Cork Empty Houses Occupied

SINN FEIN SAID TO BE PROTECTING LEADERS WHO ARE REPORTED TO HAVE RECEIVED LETTERS THREATENING VIOLENCE.

Special Despatch to The Intelligencer, Canadian Press, Limited.

CORK, Ireland, March 24.—More troops and Royal Irish Constabulary have been sent here and empty houses at strategic points have been occupied by military and police forces. The Sinn Fein organization is maintaining secret watches and guards to protect its leaders, some of whom are reported to have received threatening letters similar to that delivered to Mayor MacCurtain before he was murdered last week.

LONDON, Wednesday, March 24.—The Dublin correspondent of the London Times describes the situation in Ireland in the darkest colors. He says the outlook is serious. Conditions in the west and south are extremely grave The position, bad last week, is now definitely worse. Public feeling is so fiercely inflamed as to become quite irrational. The most outrageous charges against the Government are accepted as gospel truth.

The correspondent says the Sinn Fein asks the country to accept the monstrous theory that Lord Mayor MacCurtain was killed by actual agents of the Government. He describes the overnight riot in Dublin as another danger signal, and says it is impossible to get an impartial account of the incident the popular version being that the soldiers provoked and assaulted civilians. The correspondent learns that the soldiers were stoned by a crowd because they left the theatre singing the National Anthem as a project against the failure of the theatre orchestra to play it. He adds that public opinion throughout the country is exasperated by a wild charge against the police and soldiers, who hardly would be human if they did not resent the campaign of murder and calumny.

Sinn Feiners Deported

Queenstown, March 24—Sixty-five Sinn Fein prisoners under heavy military escort, were brought by motor lorry from Cork jail to this city this morning where they were put on board a British sloop which set sail presumably for England. The sloop was accompanied by two destroyers. The prisoners sang republican songs and returned the farewell of watching crowds as the vessels left the harbor.

New German Cabinet Will Contain Socialists

FIGHTING CONTINUES IN GERMANY — GOVERNMENT TROOPS BATTLE WITH 15,000 COMMUNIST GUARDS—SOCIALISTS DISSATISFIED WITH GOVERNMENT'S ACTION.

Special Despatch to The Intelligencer, Canadian Press, Limited.

COPENHAGEN, March 24.—The formation of the new German Cabinet is the matter of only a few hours and the Independent Socialists are sure of getting several important portfolios, according to telegrams from Berlin this morning.

WESEL, March 24.—Six thousand Government troops, reinforced by armed countrymen, had a skirmish with Communist guards numbering about fifteen thousand near here last night. Reports state sixty-two were killed and about one hundred wounded.

COPENHAGEN, March 24.—Gas, water and electric light services have not been resumed in Berlin and the tramways are still idle, as the Independent Socialists have assumed a waiting attitude. They are said to be dissatisfied with the Government's soft attitude towards the traitors, while armed Spartacans are simply stood against a wall and shot.

DENTAL CRIPPLES

Chicago, March 24—Too many teeth are being pulled, said Dr. V. P. Fuqua, President of the Chicago Dental Society, at a meeting of the Illinois Dental Society.

"We are fast becoming a nation of dental cripples," he said. "It's on account of the X-ray. The X-ray is adjustable. You can read anything into it. People get an X-ray taken and rush down to have their teeth pulled.

"Too much reliance is placed upon physician's diagnosis. The physician says: "Go, get your teeth pulled your lumbago is caused by the toothache,' and the patient rushes and does as he is told."

FOREIGNER HAD PLANS

Montreal, March 24.—Having in his possession when arrested here, plans of several buildings at Winnipeg, Regina and Toronto, Enrich Asketstrom, who claims to be a Swede of no city, address or occupation, appeared before Judge Lanctot on a charge of theft, the prisoner was refused bail for his appearance on the 30th, until the detectives get some information and account of the numerous plans and blue prints in his possession. He says he is a diplomatic delegate, but refuses to say who he represents. Police claim that he is a Bolsheviki leader.

Rise In Anthracite Coal To Follow Wage Increase

MEN HAVE AGREED TO WORK AFTER APRIL 1, PENDING NEW WAGE AGREEMENT, PROVIDED OPERATORS AGREE TO MAKE AWARD RETROACTIVE.

NEW YORK, March 23—The anthracite mine operators notified the mine workers late to-day that they would reply tomorrow night at eight o'clock to the proposal of the coal diggers to remain at work after April 1 pending negotiation of the new wage agreement, "providing the operators agree to make any wage award retroactive to that date."

Unless a new wage agreement is reached by April 1, when the present contract expires, the reply of the anthracite operators will determine whether there will be a suspension of work in the hard coal region after that date. The General Scale Committee of the miners, by virtually a unanimous vote, to-day decided that they would not remain in the mines at the expiration of the present agreement unless the employers agreed to make any wage award retroactive.

The decision of the mine workers was presented to the operators this afternoon at a meeting of the sub-committe of operators and employes. The employers are understood to have spoken in opposition to accepting such a proposal on the grounds that they would have to meet any wage increase by raising the price of coal, which prices, they pointed out, could not be made retroactive.

After several hours' discussion the conference was adjourned, with the announcement from the mine owners that they would reply to the miners' proposals tomorrow night.

"PERHAPS I DID MAKE THE REMARK"

Washington, March 24.—Rear-Admiral Benson has tactily admitted that it was he who gave Admiral William S. Sims the now famous admonition, "Don't let the British pull the wool over your eyes," when Sims took charge of the U. S. fleet in foreign waters.

"I was so busy directing the operations of our ships at that time that perhaps I did make such a statement" said Admiral Benson.

At the same time he absolutely refused to discuss the matter further.

Hall Caine's Great Story Filmed

"The Woman Thou Gavest Me" Makes Entertaining Screen Story

Most people have read Hall Caine's masterpiece, "The Woman Thou Gavest Me," and those who have not probably will, sooner or later. Either class will enjoy the remarkable presentation of this story upon the screen at Griffin's, where it opened to a packed house last night. A cast of super-excellence interpret the characters. Katherine MacDonald is Mary; Jack Holt is Lord Raa; Alma Lier is played by Fritzi Brunette, Milton Sills Joes Conrad and Theodore Roberts is Daniel, the stern father of Mary. The aunt is played by Katherine Griffith. The settings and locations of the exterior scenes are alike realistic and beautiful. The picture covers India, Africa, England, Egypt and the Antarctic. Every scene is vividly portrayed. The dramatic features of the story are deftly and delicately handled, yet always with a vigor that makes them convincing. The direction throughout is highly artistic. Miss MacDonald as Mary is exquisite and gives a wonderfully strong performance. The same may be said of the others and in every way this picture offers the best possible entertainment for those who like real drama which wrings the heart, but which ends happily for those who deserve it. "The Kitchen Lady," a very funny two reel Mack Sennett, and some good topicals and travelogues, and a funny cartoon comedy, are also being shown on the same program, all of which will be shown again tonight for the last time.

JACQUES OF THE SILVER NORTH

"Jacques of the Silver North," Mitchell Lewis' latest picture which is being shown at the Palace tonight for the last time, is a delightfully human picture of the people of the Northwest. It is the story of Jacques La Rouge, a Canadian trapper, whose devotion to Memory is like that of a dog to its master. He worships her and he sacrifices everything for her happiness. Mr. Lewis' leading lady in this picture is Fritzi Brunette. A funny Rolin comedy and the 9th chapter of the thrilling and interesting "Fatal Fortune" serial are also being shown on the same program.

◆

Will Dispense With Written Examinations

Requirements for High School Entrance to be Radically Changed This Year

A change in the High School entrance examinations is being made to take effect this year. Hon. R. H. Grant, Minister of Education, has announced that High School Entrance Boards under the new plan will be left free to decide whether the candidates shall be accepted on the certificates of Public School Principals or shall write on the examinations as usual.

The boards will determine the conditions under the Principal's certificates are to be accepted. The boards may in addition, recommend to the Minister the admission of candidates, who, in their opinion, are fitted for High School work, even though, in certain respects, they have failed to attain the required standard at written examinations. Moreover, those who, for adequate reasons, were unable to write on the examinations, may have their applications for admission to High Schools considered by the Public School Inspectors and High School Principals at any time.

The changes involve considerable alteration of the existing regulations which will be modified accordingly. The chief complaint has been that admission by Public School Principals was hampered by the requirement that the promotion examination papers and results had to be submitted to the Entrance Board, and the result, in the opinion of many, was merely an entrance examination of a different sort. In future, the Entrance Boards may dispense with the set form of examination and accept such recommenations from Principals as are deemed satisfactory.

◆

AIRMAN KILLED IN SAHARA DESERT

Algiers, March 23—The body of Gen. Laperriene, who left here early in February in an attempt to fly across the Sahara Desert to Timbuctoo, has been found about 75 miles from Tinzulin, an oasis in the Sahara, 120 miles southwest of Morocco. General Laperrine was killed by the capsizing of his airplane, but the pilot and mechanician of the machine escaped uninjured.

Nothing had been heard from Gen. Laperrine or his assistants since February 17, when the airplane reached Tamanarasset, midway to Timbuctoo.

Gen. Laperrine died on March 5, after suffering greatly from his injuries. The pilot of the airplane, Adjutant Bernard and the mechanician, Wasselin, walked two days in an endeavor to obtain help. Finding none, they returned to the machine, where they were found.

Motor Maniacs Have Many Victims

J. J. B. Flint writes of Autos, Flowers, Volcanoes and School Board

Los Angeles, Cal., March, 1920.

A great attraction here is the opportunity afforded of hearing the best and most eloquent preachers, listening to high class music, and attending wonderful movies in theatres costing a million. Two movies possess grand organs, each having an orchestra of about seventy. Many movies charge only eleven cents, including war tax. The average price at the best houses is twenty-five and thirty cents.

Scarcely a day passes that some of the new parks will not have an auto or motorcycle, or horse race.

Five days next week will witness what is called a "stampede," which will be an exhibition of roping cattle and a general Wild West spectacle.

Tomorrow a four-ringed circus exhibits.

Ball and golf games are played every day.

Three churches I know of have an average attendance of five thousand. These services are very attractive.

Last evening I saw a wonderful series of views in Japan, accompanied by a descriptive lecture. I thought this land was a land of flowers, but it does not approach Japan. The cherry trees were masses of pink flowers, the chrysanthemums and other flowers most beautiful. The beautiful lakes, rivers, valleys and mountains were lovely. The quaint costumes, strange vehicles are so entirely different from European countries. The people are the most polite and courteous people on earth. From observation here I find the Japs very industrious, cleanly, and making fine citizens. There is a terrible feeling working up against them in this State. The American birth rate is low, the Japanese very high. The American laborer demands higher wages than the Jap. For this reason the Jap is disliked by the laboring class. Fond of flowers, the Japs cultivate them assiduously.

Two great museums afford me much pleasure. Every product of the country is represented.

In Hawaii.

Hawaii is Americanized and very many articles made by the natives are exhibited. There is in Hawaii a volcano, active always. There is a lake of lava on fire which has burned for years. A night it presents a wonderful spectacle—waves and billows on fire. An amusement by the natives is wonderful. A surf board is about ten feet long and eighteen inches wide, the ends rounded, the middle of the board wider than the ends. The exhibitor swims out in the ocean, mounts the board, standing upright. The waves bring him in; he rides the great billows and the surf and reaches the shore. He stands erect upon the board, retaining his balance. There are large lakes of borax and magnesia here from which fortunes are made. There is a lake of salt. Water from the lake is brought by an aqueduct about two hundred miles.

Alfalfa yields seven crops frequently in one season. It, however, requires irrigation.

Speed Fiends.

The autos here run at fearful speed. Last week David Warfield, the great actor, playing an engagement here, was run down and his leg fractured in two places, a tooth knocked out, and mouth and nose injured. Last night a minister finished his sermon, pronounced the benediction, walked out of the church, was run down and killed by an auto. A short distance from where I live two lads, aged each about seventeen years, were riding a motor cycle. An auto struck them, threw one boy in the air, who struck on his head on an iron rail and smashed his skull. The poor lad was cremated in two or three days. The other lad was uninjured. People will take chances. There were over two thousand accidents from autos in December.

Aesop's Fables.

I recommend the School Board to seriously consider two of Aesop's Fables, written many centuries ago. In many respects he was wiser than Solomon.

A dog with a piece of meat in his mouth, was crossing a brook on a narrow plank. Looking at the water he saw his reflection and thought "I might as well have that piece of meat also." He opened his mouth to catch it but dropped his own piece. We should be content with what we have and not lose by grasping at a shadow.

A little frog sat by the margin of a brook. He saw a poor cow with hollow sides approach and drink. As she drank her sides filled and she appeared rotund and plump. The frog witnessed the miracle and thought: "I can be as large as that cow," and began to drink. He saw his sides swelling and drank more to become still larger; but alas! the skin of his back burst with his efforts, and he died! Let the Board obey the scriptural injunction as to being content with the things we have.

J. J. B. FLINT.

Political candidates are like watches—it depends a good deal on their works whether they run well.

In Maidenhood, Womanhood and Motherhood

London, Ont.:—"For many years Dr. Pierce's Favorite Prescription has been my most favorite medicine. I have taken it for the ailments pertaining to womanhood and before and after motherhood, and it always proved excellent. I have also recommended 'Favorite Prescription' to many friends who have taken it with good results. It is the best medicine I know of today for women or girls who are weak and suffering."—MRS. WM. STEEL, 179 Richmond St.

SAVED HER LIFE

St. Catharines, Ont.:—"I was in a very miserable condition when I first started taking Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Favorite Prescription sixteen years ago. I suffered and was extremely emaciated and weak. Although I was a young woman my doctor thought I was going through the critical stage of life, but after using these remedies my strength returned, another child came and from that time on my health was perfect and my weight increased. I really believe that Dr. Pierce's remedies saved my life and I shall always praise them as long as I live."—MRS. ELIZA OVERHOLT, 43 Beach St.

Favorite Prescription should have the full confidence of every woman in Canada because it contains no alcohol and no narcotic. Dr. Pierce knew, when he first made this standard medicine, that whiskey and morphine were injurious, and so he has always kept them out of his remedies. Send 10c to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y., for trial package Tablets.

MUSIC AND DRAMA

(What the Press Agents say)

WILLIAM FARNUM IN HEART-STIRRING PLAY

Those who love to see William Farnum in heart-stirring drama have a real treat in store for them in the coming of "Heart Strings," which will be shown at Griffin's tomorrow to Saturday, with a matinee Saturday. A love story of unusual theme and great merit, "Heart Strings," like its name, is said to play upon the emotions of humanity, to make one forget self in the alluring beauty of the scenes. It is a story of hope deferred, of poignant sorrow, of sublime love. Abounding in tense situations, the plot is unfolded in a series of stirring scenes, for the most part depicting life among the beauty-loving French Canadians. The star portrays the character of Pierre Fournel, a marvelous violinist and composer, who gives up his great ambition and search for fame for the sake of his weakling sister. "Switches and Sweeties", a 2-reel Big V. comedy and other selected plays of merit will also be shown on the same program.

PARIS GOWNS IN NEW PLAY.

Of the many women noted for their exceptional taste in clothes, Emmy Wehlen, Metro star of "Sylvia on a Spree," has richly gained the enviable reputation of being the "best dressed woman on the screen." Not only is Miss Wehlen's taste exquisite, but she has the unusual art of making her clothes look a natural part of herself. In "Sylvia on a Spree," which will be shown at the Palace tomorrow to Saturday, matinee daily, this beautiful star displays an entire new outfit—sport clothes, morning and motoring costumes, dainty and delicate frocks of chiffons and silks for afternoon wear, tailored and more elaborate street clothes and evening gowns of the most beautiful description. All of the accessories which go to make up the complete wardrobe of a well-dressed woman, such as shoes, gloves, hats, veils, and the countless little touches of which every well dressed woman is familiar, add to the beauty of this star's wardrobe, which will be seen to great advantage in the many scenes of the picture. A program of selected comedy and varied attractions will also be shown on the same program.

Motor License Fees Spent On Roads

In regard to the revenue derived from motor license fees being expended upon the highways, which was the subject of a memorial recently addressed to the Provincial Department of Public Works by Belleville City Council, the following reply was received from Hon. F. C. Biggs, Minister of Public Works:

Department of Public Works,
Minister's Office,
Toronto, March 8th, 1920.

Dear Sir,—Yours of recent date, enclosing resolution from your Council, to hand. We appreciate the attitude of your resolution, but also hope that the cities will appreciate the moneys derived from motor license fees spent on provincial roads which lead the traffic to your cities; also encourage more prompt delivery of farm products to your consumers, while in addition lessening the expense of delivery of your products to the rural people. We are very glad at the present time, in the Province of Ontario, that we have a programme for a provincial road system, which we contemplate we will be able to carry through financially, without imposing any direct taxation on the people of this province. I might cite that in the States, to the south of us, the moneys for state roads, corresponding in classification to our provincial roads, are raised by direct tax over all the assessed value of the county in which the roads are built, and if the same system were used here in the Province of Ontario, the cities would be called upon to contribute very large sums of money through direct taxation, which would very largely reduce taxation in the rural districts. At present the rural districts are called on, through direct taxation in their counties, to help build these roads. Kindly look into this matter very thoroughly and join with us in giving the Province of Ontario a provincial road system without direct taxation on the people.

Yours very truly,
(Signed) F. C. BIGGS,
Minister of Public Works
and Highways.

Mr. J. Wilfred Holmes,
City Clerk,
Belleville, Ont.

5,000 FOREIGN BRIDES

Washington, March 24.—American doughboys, gobs and devildogs have married about 5,000 foreign brides, during the Americans' service abroad and have already brought 3,700 of these new wives "back home," according to figures submitted to the War Department by the commanding general of the port of embarkation at Hoboken, N.J. Up to March 15, 1920, the number of brides who came into this country through Hoboken separated by nationalities were: French, 2,295; British, 1,101; Luxemburgian, 92; Belgian, 79; Italian, 41; German, 31; Russian, 23; Spanish, 7; Swiss, 5; Polish, 5; Greek 4; Dutch, 3; Rumanian, 3; Serbian, 2; Jugo-Slav, 2; Czechs, 1; Mexican, 1; unknown nationality, 14. Total 3,700.

No record is available of the number of brides returned to Europe.

The figures given do not represent the entire number of foreign brides brought home by members of the American Expeditionary Forces, but only those who were received and cared for in the hostess houses under the supervision of the Red Cross. A number also came in by commercial steamships.

* * *

MUCH ORATORY YET IN TORONTO HOUSE

Toronto, March 23.—Apparently two solid weeks of oratory are ahead of the Ontario Legislature before the serious business of the session can be proceeded with. The debate on the speech from the throne is unfinished, but by running in as many speakers as possible today it may be finished in time to allow Provincial Treasurer Peter Smith to make his budget speech on Thursday afternoon, as he wishes to do. Then will come the discussion on the budget, which may last until the latter part of the week.

* * *

Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff wil be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never

Sports

PORCUPINE CLASSIC

Timmins, Ont., March 24.—At last, after two postponements the first on account of the "flu" epidemic and the second, the terrific snowstorm which tied up traffic and held the North Country in its ice grip and rendered the trail absolutely impassable to man or beast the big Winter sporting event of the Northland was very successfully run off here under perfect weather conditions. The Porcupine dog race is a permanent Winter fixture. It is an event that old and young of this North Country look eagerly forward to as soon as the first snow appears in October. It is as much an institution as the Exhibition is to the people of Toronto.

The race is held over the old prospectors' trail, starting at the corner of Third Avenue and Pine Street, Timmins, thence south-easterly to the Porcupine Crown Mine, continuing in an easterly direction to the Dome Lake Mine, thence to the Dome, to South Porcupine to Schumacher and to the finishing line at Timmins, a distance in all of fourteen miles.

Driving a team of four dogs of mixed breed W. Martin negotiated the course in 1 hour, 28 minutes, 18 seconds, was placed first. F. M. Wallingford with a team of four Huskies, was second; D. Goudis, with a wonderful quartette of Great Danes, finished third. E. Everard, driving a mixed four, one of which fell by the way shortly after leaving South Porcupine and which by the rules must finish with the others, was taken aboard, finishing fourth; Johnny Jones, fifth; Jack Thomas, sixth; B. Jones, seventh S. Zimmerman, eigth.

The winner receives $150 cash, the A. R. Globe shield of which he becomes the permanent owner and the Dr. H. H. Moore Cup; second prize, a pair of snowshoes, seven pairs of socks, and $100 cash; third prize, a large mantel clock, nail clip and $50 cash; fourth prize a rhinoceros hide dog whip made by hand; fifth prize, tie pin; sixth prize, sweater; seventh prize, coat shirt; eigth prize, watch; ninth prize box of soap.

The boys' dog team race was won by Robert Charlebois; second, Harry Boyd; third, Laurie Rhude; fourth, Ernest Martin. To the winner of this event, first prize, dog harness; second prize, sleigh. A representative of the Canadian National Pictorial was on hand and secured some excellent moving pictures.

BASKET BALL CHAMPIONSHIP

The final game of the Public School Basket Ball League took place on Tuesday evening at the Y.M.C.A. when Queen Victoria Public School defeated Queen Alexandra School by 16 to 7. These two teams were tied on the two rounds, each having won all but one game. The League was composed of teams representing Queen Mary, Queen Alexandra and Queen Victoria Public Schools and a team from the High School of those under fifteen years of age.

The line up:

Q. A. S.—centre, Jeffrey, forwards, Strachan and Kerr; defence, Post and Sarley; Sub. Cole.

Q.V.S.—Centre, Emerson; forwards Reid and Wilbur; Defence, George and Andrews; Subs, Watts, Jordan and Rigby.

BASEBALL.

Scandal?

Cincinnati, March 24.—Lee Magee, baseball player, barred this season from National League clubs, is threatening to "spill the beans."

Magee says that on Saturday he will make public the charges on which the National League bases its action in barring him, and also the documents in the case.

"If I'm barred, I will take quite a lot of noted people with me," he declared. I'll show up some people for tricks turned ever since 1906, and there will be merry music in the baseball world."

BICYCLE.

Non-Stop Grind.

At a meeting of the Executive of the Canadian Wheelmen's Association several matters pertaining to the season's sport were taken up. A review of the past season showed that the C. W. A. had the most successful season in years, the following sanctions having been issued by Chairman Johnston of the Racing Board: Toronto, 8; Brantford, 1; London, 2; Orillia, 1; Ottawa, 2; Weston, 1; Woodstock, 1.

In addition riders' licenses were issued as follows: Toronto, 108; Brantford, 11; London, 27; Orillia, 9; Sudbury, 2. Applications for affiliation from new clubs at Peterborough, Niagara Falls, Kingston and Hamilton were received.

The official program of cycling events at the Olympic Games at Antwerp were discussed and it is proposed to put on several trials at various distances, so that the riders may have a chance of making the team that will be sent to Belgium. One of the first trials will be a non-stop ride from Toronto to Montreal. The record for the ride is 29 hours, made in 1899, and five riders have stated that they are ready to enter this contest, and it is believed that the course will be covered in less than 24 hours. The final arrangements for checking controls and judges are now being arranged. A suitable trophy will be given and will be open for future competition.

The annual meeting of the C. W. A. will be held at the Queen's Hotel on Saturday, April 10th, at 2.30 p.m.

HOCKEY.

Soft Ice at Ottawa.

Ottawa, March 24—The second game in the Stanley Cup series, between the Ottawa and the Seattle teams, will be played tonight at the Arena. There was practically no change today in the weather conditions, the mild spell continuing, and it is certain that the teams will have to fight again over a watery sheet of ice, but President Calder, of the National League announced last night that the match would take place as scheduled. It is possible that the remaining games will take place in the Queen City, the Arena having been engaged for next Tuesday evening.

Frank Foyston, Harry Holmes and other members of the Seattle team, who formerly played with Toronto, have received many messages from friends in the Queen City requesting them to use their influence to have some of the matches there, and Manager Muldoon announced yesterday that he was ready to finish the series in Toronto. If Ottawa wins tonight only one more game will be required, but in the event of the western champions turning the tables, at least two would be necessary.

* * *

Demands of miners to Lloyd George for increase in wages have been rejected. Another strike of miners now appears certain.

New Election Act brought down by Premier Drury provides for Provincial election every four years, the present Assembly to remain in power until August 1st, 1923.

Paroid Solves Your Roofing Problems

TO receive roofing satisfaction whether on a Barn, Warehouse, Railroad Building or large Industrial Plant, consider the following points.

Roofing must primarily give continuous service under every weather condition. It must be easily laid—adaptable to every description of roof. Further, roofing once laid should not become a liability through requiring constant repair.

NEPONSET PAROID

withstands hard and continuous wear, and is adaptable to all roof surfaces. Cheapness of first cost, as compared with wood and metal shingles, or slate, and economy of maintenance are some of its principal features.

The base of Neponset Paroid is a high grade rag felt thoroughly impregnated with asphalt, making it positively water-proof and fire-resisting.

It is further reinforced with a talc surface, grey in color; or with a permanent slate surface, red or green in color.

EASY TO LAY — With every roll of Neponset Paroid is supplied sufficient nails and cement with full directions.

Ask the Neponset dealer in your district, or write to us for an interesting booklet, "Roofing Canada"

Made in Canada by
BIRD & SON, LIMITED
HAMILTON, ONTARIO

Daily Intelligencer.

Printed and published every afternoon (except Sundays) for The Intelligencer Printing and Publishing House (Limited) in the City of Belleville, County of Hastings, Province of Ontario, at their offices, 237 Front street. Charles James Bowell, Publisher.

RATES OF ADVERTISING. Measurement, Agate, 14 lines to the inch. Display advertisements, 10c. per line. Reading advertisements, 15c. per line. Legal advertisements, 10c. per line first insertion, 5c. per line subsequent insertions. Preferred position, 25 per cent. advance upon usual contract rates. Minimum space 10 lines. Births, 25c. each insertion. Marriages, 50c. each insertion. Deaths or funeral notices, either singly or combined, $1.00. In Memoriams not exceeding 10 lines, $1.00. Rates for condensed advertisements will be found elsewhere. Business cards by the year at low rates. Further information may be obtained at The Intelligencer business office.

SUBSCRIPTION RATES. Daily Edition—One year delivered in city, $5.20; one year, post office box or general delivery, $4.00; one year by mail to rural offices, $4.00; one year to U.S.A., $3.00. Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.00; six months pro rata. All above subscriptions payable in advance or an additional amount of 20 per cent. will be added.

A BARE-FACED HOLD-UP !

In the program of provincial highway improvements scheduled for this year by the Drury Government, Western Ontario, as usual, gets the lion's share of the good things. From Toronto east there is one highway only, the trunk road to Montreal ,with the exception of three roads branching from the provincial highway to Lindsay, Peterborough and Ottawa. West of Toronto the province is gridironed with new roads which the province will build, twelve to fifteen of them, to Eastern Ontario's three roads outside of the main provincial highway. Is it not about time Eastern Ontario was protesting in no uncertain tones against this persistent discrimination—first the Hydro, now the roads——hand everything to the people west of Toronto, but Eastern Ontario can wait. Municipal Councils and Boards of Trade should protest vigorously against seventy-five per cent. of the new government roads going to Western Ontario, and the protest should be carried in force to Queen's Park in an immense delegation, perhaps, using a special train starting from Cornwall and picking up delegates all along the line. The Government's Eastern ear is evidently closed and the Wise Men of the East will be wiser and wealthier if they make noise enough to penetrate the government ear turned so persistently and continuously to the West.

The greatest mistake in the good roads program is the ignoring entirely of beautiful Prince Edward County in the provincial highway scheme—surely the Garden of the Gods is not to be closed to visiting tourists?

WOMEN'S WIDER FIELD.

In current discussions concerning the waning supply of school teachers it seems always to be assumed, says the New York Times, that the one thing needful to supply the demand is the payment of larger salaries. To do that will help, unquestionably, both to keep the present teachers in their places and to attract others. It is at least possible, however, that the schools are having difficulty in keeping and replenishing their staff of teachers, not wholly because salaries in many cases are too small to deserve the name of a living wage, but in part because the field of woman's permitted and commended work is far wider than it used to be and is steadily extending.

In other days no small number of women took to teaching, not because they had a particular liking for it, or because they found it better than dreary drudgery, but because it was one of the very few paid occupations into which women not technically of the "working class" could enter without loss of social standing and, therefore, self-respect. Those times are past. No woman need teach now, unless she wants to do so. Rulers of schools, therefore, and Boards of Education, if they are wise, will think first, perhaps, of better salaries for teachers, but they will think of other things as well—things by which the teacher's work can be made more attractive for more well educated and intelligent men and women.

CRIME IN IRELAND.

The murder on Saturday morning of Mr. Thomas MacCurtain, Lord Mayor of Cork, from the reports sent out, would appear to be an act of personal revenge or malignity rather than an assassination planned by political or semi-political conspirators. In times of civil disturbance such crimes are of frequent occurrence. Sometimes behind them there is a desire to gratify personal hatred; sometimes they are part of schemes of robbery. The latest tragedy, because of the position of its victim, as well as from the circumstances attending it, will draw renewed attention to the unfortunate state of affairs that exists in Ireland. The law seems powerless either to prevent or punish crime. The murders of policemen, soldiers or other Government servants have averaged over two a week since the year opened; the attempts at murder have been more numerous than the days. The inference is that most of the crimes have been premeditated, possibly ordered by organizations which have power to enforce obedience to their behests and having so much sympathy, or causing so much terror, in their communities that they are safe from exposure. Such conditions are not new in countries where political dissatisfaction exists for prolonged periods. They have been noted before in Ireland's history. Usually they ended in heavy punishment of some of the criminals, if not of those who inspired them. In this, too, history may repeat itself. Then, perhaps, such action will be taken as will bring about a better order. The night has been long and dark; the dayspring should be nearly due.—Montreal Gazette.

CRISP COMMENT

Ham. Spec. summaries most important news items of the day as follows: Patronize the fuel man; Lay in sugar while you can; Clothes and shoes are bound to rise; Mutton down!—the one surprise.

× × ×

The German Kapp capped the climax by making a flivver of his revolution, but creating a condition of confusion worse confounded.

× × ×

Stranger than the fact that seventy-five cents a quart was asked for new maple syrup Saturday was the fact that it found a ready sale at that price. War is certainly hell, first, last and all the time, and the aftermath begins to partake of the nature of a protracted meeting.

× × ×

Alcohol is industrious as well as industrial and it works harder and sooner with some people than with others—certain foods contain large quantities of alcohol, and that probably is the reason why some people are so stupid after eating, says the Brockville Recorder.

× × ×

A detective with a diploma has been engaged as chief of police for a village in Central Ontario, which reminds us of a celebrated detective of modern fiction who was a graduate of the "Rising Sun Correspondence School for Amateur Sleuths," and combined the trade of paper-hanging with that of the profession of crime detection with remarkable results—in fiction. Sherlock Holmes, on the other hand, did not need a diploma; he used a needle.

× × ×

Signboards on the provincial highway apprising motorists that they are approaching Belleville, as suggested by the Chamber of Commerce, will at least be signs of a progressive community, and should carry an invitation of welcome "Tarry with us yet a little while and we will do thee good." No accent on the DO, however. Government and Motor League signs are dead affairs, conveying information only, and if the landscape is decorated with a really worth while artistic invitation to make Belleville a visit, more tourists will decide to give us the "once over" at least.

OTHER VIEWS

Where They Are
(Washington Post)

Paris is puzzled about the stand of the United States in world affairs, and so is the United States.

(Philadelphia Ledger)

The Turks themselves continued to furnish excellent reasons for their being driven out of Europe.

Plain Talk
(Hamilton Spectator)

Marsden G. Scott, president of the International Typographical Union, is a courageous stickler for conciliation and arbitration, despite the fact that his stand on the question frequently invokes the wrath of a considerable faction on the membership he represents. Following is one of his latest outbursts: "The brutal and inhuman lockout is bad enough, but the ill-advised strike, which pays no heed to the wives and children of the strikers, is ten times worse. The man, or men, who unnecessarily brings, or bring, hunger and privation into the homes of the workers is a criminal and coward by every moral law; a social leper and a menace to the country."

Unripe Fruits of Intolerance
(Victoria Colonist)

Pouring oil upon the fire of enmity which burns between Ontario and Quebec, a French-Canadian member of the Dominion Parliament declared that Quebec is a constant receiver of unjust treatment as a member of Confederation. Possibly that is so in view of French-Canadians. Certainly we are always being told that it is so. And yet where could French-Canadians be likely to receive fairer treatment than they have been accorded in the Canadian Confederation under laws framed by the Imperial Parliament.? They have complete freedom there practically under the institutions they cherish as a distinct race living and thriving under the British flag. They have freedom of conscience and absolute liberty in the exercise of their religion. The French language is recognized by the State. It is spoken in Parliament and printed upon the statute books. It is one of the official languages of the country. They have their own school in which their children are educated. Could they have any of these rights or privileges if Quebec were state of the American Union, as some of the more ardent or thoughtless of their leaders sometimes have suggested? Could they have more if they were independent, as the Apostle Bourassa has occassionally advocated in his moments of extreme aberation? The level-headed leaders in Quebec affairs know that annexation to the United States is absolutely impossible and that independence under existing conditions is quite impracticable. In fact, Quebec, is in reality the favored daughter of Confederation, and her wise men, where in church or state, know it.

The Poet's Corner

SIR ROBIN

Rollicking robin is here again,
What does he care for the mild spring rain?
Care for it? Glad of it. Doesn't he know
That the warm spring rain carries off the snow;
And coaxes out leaves to shadow his nest,
And washes his pretty red Easter vest,
And makes the juice of the cherry sweet,
For his hungry little robins to eat?
"Ha, ha, ha!" Hear the jolly bird laugh,
"That isn't the best of the story by half."

Robin, sir robin, gay red-vested knight,
Now you have come to us, summer's in sight.
You never dream of the wonders you bring,—
Visions that follow the flash of your wing:
How all the beautiful by and by
Around you and after you seems to fly!
Sing on or eat on, as pleases your mind,
Well have you earned every morsel you find,
"Aye, ha, ha, ha,' whistles robin, "My dear,
Let us all take our own choice of good cheer!"

—Lucy Larcom.

A Laugh or Two

An indolent man is a dead one who can't be buried.

When a man has married a woman, he seems to think her emotions are like the hot water tap in the bathroom—to be turned on at a touch and turned off just as easily.

Men are filled with conceit, women are vain creatures, but the popinjay undefiled is a fourteen-year-old boy training his first pomadour in the way it should go.

How the Money is Made

Customer: "So you sell those watches at half a guinea each? It must cost that to make them."

Jeweller: "It does."

Customer: "Then how do you make any money?"

Jeweller: "Repairing them."

Tommy Puts His Foot in It

"Say, grandpa make a noise like a frog," coaxed little Tommy.

"What for, my son?"

"Why, papa says that when you croak we'll get a thousand pounds."

U. S. MAY MAKE A SEPARATE PEACE

WASHINGTON, March 24—While the original copy of the Versailles treaty is back in the possession of President Wilson (the copy that he brought back with him from the Peace Conference,) Washington is wondering today what the next step is to be in connection with the document that the Senate has repudiated.

It is the general impression that this step will be to notify the other powers, regardless of what decision Mr. Wilson may take later as to the disposal of the treaty itself.

There is a widespread belief that the President may announce his own policy at the same time as he issues notification of the Senate's failure to ratify. For this reason, Senate leaders have delayed action on their plan to declare a state of peace with Germany. They want the President to show his hand first.

In diplomatic circles the view prevails that the United States may establish peace with Germany, negotiate a modus vivendi with the Allies and leave the League of Nations covenant people."

Give Stomach What It Needs

The Alkaline Effect of Stuart's Dyspepsia Tablets Usually Corrects The Stomach Faults That Provoke Attacks of Indigestion or Dyspepsia

To sit back after a good meal and know there is not going to be sour risings, gas, drowsiness and discomfort is the logical result of using Stuart's Dyspepsia Tablets immediately after eating. Most people believe they can trace each attack of indigestion to the something they ate and can still "taste." And it surprises them, invariably, to note how quickly relief comes after using one or two of these tablets. Whether it is highly seasoned food, rich pastry, the heavy hearty food, or some one particular offender the relief comes just the same. Those who are susceptible to attacks of indigestion or dyspepsia should try Stuart's Dyspepsia Tablets as they supply the stomach with an alkaline effect just as it does naturally when it is working in a perfectly healthy condition.

Stuart's Dyspepsia Tablets are so widely known and used that you can get them in any drug store in the United States and Canada at 50 cents a box.

SEPARATED 50 YEARS AGED COUPLE REUNITED

Baltimore, Md., March 24.—A husband and wife, separated for 50 years living under the same roof for five years, each believing the other dead, were reunited a few days ago at a festival for the inmates of the Home of the Little Sisters of the Poor here. The couple are Mr. and Mrs. Barney McGahan, 78 and 86 respectively. McGahan joined the navy 50 years ago and lost trace of his wife. For five years both have been in the institution.

The Cough Syrup that Stops the Cough

NADRUCO Syrup of Tar with Cod Liver Oil Compound

A pleasant yet most efficient cough medicine; its soothing effect on raw and husky throats is felt almost instantly. It strengthens the breathing and makes expectoration easy, and quickly relieves the most stubborn cough.

Contains no harmful ingredients and can be given with confidence to infants and children. The genuine is in a Red Box with Na-Dru-Co trademark. 14R

Manufactured by National Drug and Chemical Company of Canada, Limited.

A SORE MOUTH

Or Pyorrhea Quickly Relieved By "ABSORBINE JR."

Are your gums sore and tender? Do they smart or bleed when you brush them? Are they slipping away from the teeth? When your gums get in this condition, they need something to kill all germs in the mouth——something to change the spongy, bleeding flesh into firm, healthy tissue.

As one Dentist writes:—"ABSORBINE JR." has a future for dentists in the treatment of Pyorrhea."

Used in diluted form, "ABSORBINE JR." makes a mouth wash that destroys germs, heals the gums, prevents decay. Clean and refreshing in taste and odor—and being a vegetable germicide, is absolutely safe.

$1.25 a bottle; at most druggists or sent postpaid by W. F. YOUNG, INC., Lyman Building, Montreal. 38

We Know This Bunion Cure

For many years hundreds of our customers have used FAIRYFOOT—the instant bunion relief and cure. It gives wonderful results. Almost instantly after applying FAIRYFOOT the pain vanishes and the inflammation disappears.

FAIRYFOOT literally melts away the bunion enlargement. Before you realize it, the foot is back to its normal size and shape.

It is well to take the word of many users but not necessary, for a FREE trial will convince you. Call and get a box of FAIRYFOOT. If after using two plasters you are not satisfied, return and get all your money back. We guarantee you this.

UNDER THE GREENWOOD TERE

BY THOS. HARDY

CHAPTER IV

Shortly after ten o'clock the singing boys arrived at the tranter's house, which was invariably the place of meeting and preparations were made for the start. The older men and musicians wore thick coats, with stiff, perpendicular collars and colored handkerchiefs wound round and round the neck till the end came to hand, over all which they just showed their ears and noses, like people looking over a wall. The remainder, stalwart, ruddy men and boys, were mainly dressed in snow-white smock-frocks, embroidered upon the shoulders and breasts, in ornamental forms of hearts, diamonds, and zigzags. The cider-mug was emptied for the ninth time, the music-books were arranged and the pieces finally decided upon. The boys in the meantime put the old horn-lanterns in order, cut candles into short lengths to fit the lanterns and a thin fleece of snow having fallen since the early part of the evening, those who had no leggins went to the stable and wound wisps of hay round their ankles to keep the insidious flakes from the interior of their boots.

Mellstock was a parish of considerable acreage, the hamlets composing it lying at a much greater distance from each other than is ordinarily the case. Hence, several hours were consumed in playing and singing within hearing of every family, even if but a single air were bestowed on each. There was East Mellstock, the main village; half a mile from this were the church and the vicarage, called West Mellstock, and originally the most thickly populated portion. A mile northeast lay the hamlet of Lewgate, where the tranter lived; and at other points knots of cottages, besides solitary farmsteads and dairies.

Old William Dewy, with the violoncello, played the bass; his grandson, Dick, the treble violin; and Reuben and Michael Mail the tenor and second violins respectively. The singers consisted of four men and seven boys, upon whom devolved the task of carrying and attending to the lanterns and holding the books open for the players. Directly music was the theme, old William ever and instictively came to the front.

"Now mind, naibors," he said, as they all went out one by one at the door, he himself holding it ajar and regarding them with a critical face as they passed, like a shepherd counting out his sheep. "You two counter-boys, keep your ears open to Michael's fingering and don't ye go straying into the treble part along o' Dick and his set, as ye did last year; and mind this especially when we be in 'Arise and hail.' Billy Chimlen, don't you sing quite so raving mad as you fain would; and all o' ye, whatever ye do, keep from making a great scuffle on the ground when we go in at people's gates; but go quietly, so as to strik' up all of a sudden, like spirits."

"Farmer Ledlow's first?"

"Farmer Ledlow's first; the rest as usual."

"And Voss," said the tranter, terminatively, "you keep house here till about half past two; then heat the metheglin and cider in the warmer you'll find turned up upon the copper and bring it wi' the victuals to the church porch, as th'st know."

Just before the clock struck twelve they lighted the lanterns and started. The moon, in her third quarter, had risen since the snow-storm; but the dense accumulation of snow-cloud weakened her power to a faint twilight which was rather pervasive of the landscape than traceable to the sky. The breeze had gone down and the rustle of their feet and tones of their speech echoed with an alert rebound from every post, boundary-stone, and ancient wall they passed, even where the distance of the echo's origin was less than a few yards. Beyond their own slight noises nothing was to be heard save the occasional howl of foxes in the direction of Yalbury Wood, or the brush of a rabbit among the grass now and then, as it scampered out of their way.

Most of the outlying homesteads and hamlets had been visited by about two o'clock; they then passed across the Home Plantation toward the main village. Pursuing no recognized track great care was necessary in walking, lest their faces should come in contact with the low-hanging boughs of the old trees, which in many spots formed dense overgrowths of interlaced branches.

"Times have changed from the times they used to be," said Mail regarding nobody can tell what interesting old panoramas with an inward eye and letting his outward glance rest on the ground, because it was as convenient a position as any. "People don't care much about us now! I've been thinking we must be almost the last left in the country of the old string players. Barrel-organs and they next door to 'em that you blow wi' your foot, have come in terribly of late years."

"Ah!" said Bowman, shaking his head; and old William on seeing him, did the same thing.

"More's the pity," replied another. "Time was—long and merry ago now!—when not one of the varmints was to be heard of; but it served some of the choirs right. They should have stuck to strings as we did and keep out clar'nets and done away with serpents. If you'd thrive in musical religion stick to strings, says I."

"Strings are well enough as far as that goes," said Mr. Spinks.

"There's worse things than serpents," said Mr. Penny. "Old things pass away, 'tis true; but a serpent was a good old note; a deep, rich note was the serpent."

MOTOR CAR NEWS

Pennsylvania has more than 10,000 grade crossings.

Autombile tires are now manufactured in Japan.

Passenger autombiles in Copenhagen Denmark, total 1289 cars.

Of the 4,455 motor cars stolen in Chicago last year, 3,198 were recovered.

State license fees for motor vehicles in the United States range from 6 to 175 dollars.

In the Philippines there are nearly 10,000 miles of roads available for autombile travel.

The National Automobile Dealers' Association is composed of over 10,000 members throughout the United States.

In North and South Carolina the courts have ruled that a pedestrian struck by a motor car can sue for the possession of the vehicle.

Motor vehicles have proved to the average farmer that he can take care of 400 to 500 acres of land without going outside the family for labor.

To encourage all steps in relieving the overcrowding of street cars in Philadelphia, Mayor Moore is in favor of the operation of motor busses in that city.

During the recent gold rush near Topec, Arizona, several thousand men went piling into the mountains in all kinds of automobiles and staked claims that promise to yield rich gold ore.

During the world war Canadians distilled a gasoline substitute from waste straw. The Greeks ran their motors on a liquid distilled from trees. In Sweden motors are operated on fish oil. Turkey moved motor trucks on mustard oil, and the Germans used a gasoline substitute not known, but which has a sickly, sweetish odor.

City AND Country

STOLE 13 BAGS OF SUGAR.

A carload of sugar was delivered in Bowmanville the other day for several of the grocers of that town. During the night thieves entered the car and stole thirteen bags. With the present price of sugar this makes quite a serious loss.

SOLDIER LAWYER.

John Dale O'Flynn, of Belleville, a McGill student, who served in the C. E. F., for two years and eight months and now, owing to the effects of the campaign, is unable to attend lectures, is to be authorized to practice by a bill introduced by Mr. Denyes, U. F. O., in the Ontario Legislature.

A YOUTHFUL DISPENSER.

A young lad, who says he is 20, but whom it is claimed is but 16 years of age, was let out on $200 bail yesterday afternoon by Police Magistrate Bradford, of Lindsay. He is charged with being a dispenser of liquor, three men previously fined having stated that they secured the bottle from this lad.

MARRIED IN THE SOUTH

Arthur E. R. Jones, manager of the Standard Bank, Brighton, Ont., was recently married at Jacksonville, Fla., to Miss Laura Augusta Bettes, of Orstega Fla. Mr. and Mrs. Jones came to Brighton to take up residence. The bride's travelling suit was a brown velour. Mr. Jones is the third son of the late Rev. R. N. Jones, Aultsville.

TO HAVE GOOD ROADS

The Prince Edward county council has voted $100,000 to be expended this year on roads; fifty per cent. for construction and fifty per cent. for maintenance. Two miles of provincial county highway, one mile running through Bloomfield and one mile running through Wellington, will be constructed with tarvia. The council also voted $4,000 for the improvement of Main Street, Picton.

16TH REGT. CEASES TO EXIST

In the new militia organization no provision is made for the continuance of the 16th Prince Edward county regiment. It seems unfortunate that this historic militia unit should be no longer in existence, says the Picton Gazette. With the splendid armory that we have in Picton and what a splendid community, it would seem that there should have been provision made for a local militia unit. It is apparently another case of Prince Edward county getting the "go-by," and it seems about time that there was someone on the job looking after the interests of this county. While the announcement of the re-organization leaving Picton out in the cold has been made, it ought not even yet be too late to secure some change in this situation.

GOOD ROADS ALLEN.

Ottawa Journal: Mr. Lucius E. Allen, president of the Ontario Good Roads Association, who was in the city today, found time to visit The Journal office to convey his appreciation of the part The Journal is playin in the good roads movement. With regard to the Ottawa-Prescott highway, Mr. Allen stated that in an interview with the Hon. F. C. Biggs recently, the minister had expressed his determination to push the work of construction during the coming summer. It was expected that the road would be completed this year, provided no serious difficulties as to labor were encountered. Although the macadam road, which is now to be built, did not compare with the concrete one which had been proposed, Mr. Allen thought that it would prove a satisfactory start anyway and be a good foundation when it was decided to construct a better highway. The annual convention of the Dominion Good Roads Association, which is to be held in Winnipeg in June, will be attended by a very large delegation from the Ontario body. The secretary, Mr. McNamara, expects that it will be the biggest convention in the history of the association. Mr. Allen said the executive of the Ontario Good Roads Association was considering the annual tour to some section of the province during the summer. It had not been definitely decided on as yet, however, and the direction was still under consideration.

SCHOOL DENTISTRY

A dental survey of pupils of the Public Schools of the city is to be made. Through the efforts of Miss Sinclair, the School Nurse, and with the co-operation of the Dentists of the city who have very generously offered their services a dental clinic has been established for the school children. Dr. Marshall has loaned a chair which has been placed in Queen Alexandra School and this very important work will now be systematically carried on. This work has been done in many cities in Ontario for some time and with astonishing results. It is hoped that parents and guardians will assist by giving prompt attention to charts which the pupils will be given for their information. The city dentists met last evening and arranged a schedule of hours to be devoted to the school clinic.

CLEANING FRONT STREET

Front street is being cleaned up and that portion which has been attended to presents an inviting appearance.

FINED FOR INTOXICATION

Three residents of an adjoining community appeared before Magistrate Masson and pleaded guilty to being intoxicated on Sunday last and were fined $10 and costs each. Inspector Arnott was the complainant in the cases.

REPAIRS TO FOOTBRIDGE

Workmen were busily engaged today in making repairs to the footbridge so that it would be perfectly safe for pedestrians. The ice jam broke off some of the under supports also damaging some of the sleepers. The reopening of the bridge will be a source of great convenience to residents in West Belleville.

A NARROW ESCAPE

Mr. J. W. Walker of this city, yesterday afternoon had a narrow escape from serious, if not fatal, injuries. He was passing through the High School grounds when a tree was being felled by some workmen. The tree fell just as Mr. Walker reached the spot and he was struck by some of the smaller branches and escaped with some slight bruises.

MANUFACTURERS SECTION

A meeting of the manufacturers of the city was held last evening in the Council Chamber of the city buildings and was fairly well attended by those engaged in industrial pursuits in this city. Matters appertaining to the various trades were discussed and it was decided to form an industrial branch in connection with the City Chamber of Commerce. Committees were named to represent the various industries and a further meeting will be held to complete the organization.

ICE MOVING OUT

Shortly after one o'clock this afternoon a considerable quantity of ice came down the river from above Corbyville, from what is known as the dead water. The ice was very dirty in appearance and mud was two or three inches thick was to be observed on a number of the larger cakes demonstrating that the water had been frozen to the bottom of the river. This jam had the effect of starting the field of ice which filled the river from below the footbridge to the railway bridges and a large quantity was carried out over the ice on the bay. The water subsided to a considerable extent allowing traffic to be resumed to the footbridge. Cellars along the west side of Front street were also relieved of water which for the past three days had caused much inconvenience. There will be no further trouble from the ice jams. In the lower portion of West Belleville in the vicinity of the C.P.R. and C.N.R. tracks a number of residents are still surrounded by water but this will, no doubt, abate by evening. The various yards along the west side of Front street are now free of water.

Social And Personal

Mrs. Howard VanDusen and son of Deseronto are visiting her cousin, Mrs. H. Langabeer, for a few days.

Mr. S. R. Armstrong, City Clerk of Peterboro, with Mrs. Armstrong was in this city yesterday attending the obsequies of her father, the late Mr. James Richards.

Mrs. N. B. Gilbert, of Belleville, was a visitor on March 17 at the big exhibit of southern California products maintained free to the public in the Los Angeles Chamber of Commerce. She also attended the lectures and moving pictures that are a part of the daily program. The exhibit is the largest of any in the country maintained by a commercial organization. Before returning home Mrs. Gilbert expects to visit several of the many other places of interest in the Southland.

Samples may be had at Dolan's Drug Store.

CHARLES STENSTROM, well-known contractor of Peoria, Ill., who says he was in such bad health he had about decided to retire from business. Declares he now feels thirty years younger and is enjoying splendid health since taking Tanlac.

"I feel thirty years younger since I got hold of Tanlac and if it was necessary I could handle a shovel and turn as much dirt as any of my men," said Charles Stenstorm, the well-known concrete and excavating contractor, living at 607 Fishgate street, Peoria, Ill.

"For thirty years I have suffered all the misery that goes with stomach trouble, rheumatism and disordered kidneys, and when I began taking Tanlac I was so bad off I was about to retire from business.

"My stomach was so badly upset that it nearly laid me up altogether and after every meal I took cramping spells that sometimes were so bad I couldn't leave the house for I was afraid I could not get back. I bloated up so with gas that I could not get a long breath. My legs pained me almost every minute of the day and when the weather was damp my arms hurt me so much it was agony for me to bend them. My kidneys were so badly out of order that I had pains all through my back and at night I was in such misery I could hardly sleep at all. Every morning my back was so stiff it was hard for me to get out of bed and during the day I couldn't think of doing my work.

"Things are different now as Tanlac has made a wonderful change in my condition. Everything I eat agrees with me perfectly. The rheumatism has almost disappeared and the pains and stiffness in my back have all gone. I sleep sound every night and I get up in the mornings feeling fine and ready for breakfast. I have given up all idea of retiring from business, as Tanlac has given me new life and strength and I am now enjoying better health than I have for many years."

Tanlac is sold in Belleville by Ostrom's drug store and by leading druggists in every town.

In Memoriam

YORKE—In loving memory of our dear son and brother, Gunner C. H. Yorke, who died March 23, 1919.

We do not forget him—we loved him too dearly
For his memory to pass from our life like a dream.
The lips need not speak, when the heart mourns sincerely,
And tears often flow where they seldom are seen.
—His loving Mother, Father, Sisters and Brothers.

Wedding Bells

BRINTNELL—BARTRAM

At Jacksonville, Florida, very quietly Monday afternoon, the marriage took place of Miss Georgia Mabel Bartram, daughter of Mr. A. R. Bartram, of Toronto, and the late Mrs. Bartram, of Toronto, to Mr. W. Leigh Brintnell, of Belleville, a former Lieutenant in the R.A.F. stationed at Camp Borden before serving overseas. The bride, who was unattended, wore a travelling suit of navy blue duvetyn with smart New York hat. After the ceremony Mr. and Mrs. Brintnell left for their orange grove at Lauderdale, Florida, where the honeymoon will be spent.

Obsequies

JAMES RICHARDS

On Tuesday afternoon a number of relatives and friends were in attendance at the obsequies of the late Mr. James Richards of this city. At the family residence, Dundas street, Rev. Dr. Scott of Bridge Street Church conducted a service and officiated at the interment at Belleville cemetery. A number of floral tributes were evidences of the popularity of deceased. The bearers were Messrs. R. B. Wiseman, G. F. Cole, J. L. Boyce, G. W. and C. W. Richards.

ENTRANCE EXAMS. START ON JUNE 28

Someone is always taking the joy out of life. On the first day of spring when the sun was shining its warm rays and calling everyone outdoors, along comes the Ontario Department of Education and announces the melancholy days of exams.—the saddest of the year—in the official time tables for junior High School entrance, junior Public School graduation diploma examinations, annual departmental examinations for lower, middle and upper schools.

There is a change this year in the examinations for entrance into Normal Schools and for junior matriculations. Formerly there were two different examinations but this year there will be the same examination for junior matriculation and entrance into Normal Schools in all subjects except German authors and German composition and French authors and French composition, which are not required for entrance into Normal Schools, and art or agriculture which are not required for pass matriculation.

Examinations in junior Public School graduation start on June 21, and those in junior High School entrance start on June 28 and finish on June 30. The middle and upper school and honor and scholarship examinations start earlier this year than usual. Pass matriculation examinations start June 14, when the first exams to be tackled are German authors and German composition. It was on June 13-14, 1916, that the Canadian First Division won back from the German troops all the high ground around Sanctuary Wood and Maple Copse, where the Third Canadian Division had fought so stubbornly in the sanguinary battle of Hooge, on June 2-4. Pass matriculation examinations end on June 28, with examinations in Greek authors and Greek composition. Honor and scholarship matriculation, and entrance into faculties of education examinations start on June 11, and finish on June 29. Lower school examinations start June 8.

FRANCE PUTS BAN ON SILK STOCKINGS

Paris, March 24.—Ban on importation of silk stockings has been decided upon by the Government as a means to improve the exchange rate.

Twenty million women who have no large stock of silk hosiery are praying for quick restoration of trade relations with Germany, hoping the exchange rate on the mark, so favorable to France in some respects will induce Finance Minister Francois-Marsal to take drastic action allowing them to obtain the coveted silk stockings.

Last year, instead of exporting silk hosiery, France was obliged to import from the United States twenty million pairs, valued at half a billion francs.

RITCHIE'S

Easter Millinery

Winsome Little HATS for Children

They are in delightful little Mushroom, Poke and Sailor effects, all trimmed with Ribbons and Flowers. There is a charming little complement for every young face. —2nd floor.

The Art of Millinery is delightfully expressed in our Easter display of spring Millinery. There is a new inspiration in these Hats. It is "cire", which means shiny. In a word, the new Hats are gleaming, and further, they are bright with flowers, fruits, glossy satins and taffetas. A few of the fashions are Napoleonic hats which turn away from the face in becoming style, and all are in the new Cellophane Straws. Many of the recent models are embroidered with brightly-colored Raffia Straw.

A Sale of WINDOW SHADES $1.00

One hundred Window Shades in best oiled opaque quality and mounted on Hartshorn Spring Rollars, in combinations of Green and Cream, White and Green and plain Green—all standard widths; but being all odd shades—some slightly soiled—sale price to clear, $1.00 each.

Another lot at 75c

At this price they are under standard sizes, being 24 to 37 ins. wide, in plain White or Green—all best oiled opaque quality, mounted on Hartshorn rollers. Sale price, 75c. each. —Third floor.

No More Direct Loans For Housing Purposes

BUT PROVINCE WILL IN FUTURE GUARANTEE BONDS TO BE ISSUED BY INDIVIDUAL MUNICIPALITIES.

Municipalities will get no more direct loans from the Ontario Government for house-building. In future they may issue their own bonds for that purpose and the Government will guarantee them. New legislation covering these two points was introduced in the Legislature by Hon. H. C. Nixon, Provincial Secretary.

Mr. Nixon informed the House that ten days ago word was received from the Dominion Government that there would be no further loans to the Provincial authorities for housing purposes. In view of this, his amendment was to wind up the work under the present act at the end of this year.

The amendment to the municipal act allows municipalities to issue their own bonds, which will be guaranteed by the Government. The money raised in such a way will then be expended for housing. It has been known for some time that the policy would be changed, in view of the fact that the Dominion was closing down on the grants, but until yesterday the extent of the change was not known. Toronto has been the only municipality in Ontario to have its own housing program but the bonds, of course, were not guaranteed by the Province.

During the year seventy municipalities in Ontario were carrying on active work under the act. For the completion of the work now under way there is a revised list of amounts which may be loaned. Following are the loans available under the old act and under "The Municipal Housing Act of 1920."

Amounts loaned under Ontario Housing Act 1919—House of frame construction, $3,000; brick veneer, $3,000 solid construction, $4,000.

In the case of brick veneer construction if the cost of the land is included $3,600 may be loaned. In the case of solid construction $4,500 is obtainable.

Amendments to Ontario Housing Act—House of frame construction, $3,200; house of brick veneer construction, $3,800; house of solid construction, $4,000.

If the cost of the land is included in the case of frame construction $3,800 may be loaned. If the cost of land is included in the brick veneer type, $4,200 is obtainable. If the cost of land is included in the type of solid construction $4,600 may be had.

Amounts of loans under limitations of "The Municipal Housing Act, 1920"—House of frame construction, $3,500; house of brick veneer construction, $4,000; house of solid construction, $4,500.

If the cost of the land is to be included then $4,100 is obtainable for frame, $4,600 for brick veneer and $5,100 for solid construction.

Probe All Qestions Affecting Veterans

OTTAWA, March 25.—The Commons approved the formal appointment of the Parliamentary committee to investigate further at this session soldiers' pensions and other matters pertaining to the re-establishment of returned men. The committee is the same size as the one appointed last session, and there are only two or three changes in the personnel.

The duties of the committee as set forth in the resolution are: "To consider the question of continuing the war bonus now being paid to pensioners under the existing pension law and any amendments to the law which may be proposed or may be considered necessary by the committee and to report the result to the House with power to call for persons, papers and records to examine witnesses under oath and to report from time to time."

COVERS WIDE FIELD

In introducing the resolution, Hon. N. W. Rowell explained that it was broad enough to cover any question which any member of the committee thinks should be considered by way of amending the existing law. Mr. Rowell said he believed the present pension law in its general terms and scope was an admirable one, and that the committee's work on the account would be less onerous this year.

In addition to the matter specifically mentioned in the resolution, Hon. Mr. Rowell said it would consider whether or not in granting pensions to widowed mothers their income from any other source should be taken into consideration and whether the pensions paid to widows were adequate.

CUT ADMINISTRATION COST

Another matter of moment which the committee would be asked to take into consideration was whether the Board of Pensions Commissioners should be authorized to commute the pensions of those who were suffering from a disability of less than twenty per cent. because the pension is necessarily of limited amount. More than fifty per cent. of the total number of pensioners were in that class, the Minister explained. The Pension Board estimated that the cost of administration could be reduced by $300,000 if these particular pensions were commuted.

The committee is composed of the following: Messrs. Arthurs, Beland, Bolton, Brien, Caldwell, Clark, Bruce Cronyn, Devlin, Fontaine, Green, Lang, McNutt, McCurdy, McGibbon (Muskoka), Nesbitt, Peck, Pecaud, Pardee, Power, Redman, Ross, Rowell Savard and Sutherland.

RUSSIA'S NEED IS GOLD FOR RESTORATION PURPOSES

Warsaw, March 25.—Soviet newspapers received here state that Russia needs thirty-two billion roubles in gold in order to restore herself. A Commission was recently appointed to calculate Russia's financial loss during the war and revolution.

Canada's Ships Justify Expense

Sugar Famine Averted by Publicly-Owned Merchant Fleet

OTTAWA, March 24—Ships of Canada's publicly-owned merchant fleet are earning substantial profits, Hon. C. C. Ballantyne was able to inform the Commons. The Minister of Marine, introducing the item of $20,000,000 included in the estimate for the completion of the Government's shipbuilding programme, told of the voyaging of 19 ships being operated by the Canadian Mercantile Marine in connection with the Canadian National Railway System. None of these vessels has been a full year in commission. Their gross earnings to date, however, have been $3,448,030, and the net earnings, after deduction of cost of operation, insurance and allowance for depreciation, were $1,406,000. The Minister did not announce what allowance had been made to cover depreciation, but other persons estimate it at five per cent. of the cost of construction. Mr. Ballantyne did, however, state that the Canadian Mercantile Marine had paid to the Government to the end of December $500,000 against the cost of the steamships. The balance of the net earnings, he said, would be sufficient to pay interest on the investment at the rate of 5½ per cent and leave a substantial sum in reserve fund. The 19 vessels have carried to foreign markets in various parts of the world moreover Canadian products to the value of $21,362,000. They have voyaged to the United Kingdom, Australia, South America and West Indian ports, and by the cargoes of raw sugar they have brought back from the last mentioned points, Hon. Mr. Ballantyne asserted, they averted a sugar famine in Canada.

Proclaim Fiume A Republic

Special Despatch to The Intelligencer Canadian Press Limited

ROME, March 25.—Fiume is on the eve of momentous events say despatches direct from that city. Capt. Gabriel D'Annunzio and Fiumian National Assembly have decided to proclaim Fiume a republic, but will probably not take action until after a meeting of Supreme Allied Council at San Remo, Italy, on April 21. Populace, despatches claim is determined not to submit to Jugo-Slavs.

$2,000 GRATUITY PETITIONS ALMOST FLOOD COMMONS

Ottawa, March 25.—Supporters of the $2,000 gratuity proposals almost flooded the Commons with petitions today, there being half a dozen from Toronto alone, introduced in the House by Sir A. E. Kemp and H. C. Hocken. Several thousand names were attached to the petitions received today.

Canadian Merchant Marine, Realizes Handsome Profit

GRATIFYING ANNOUNCEMENT BY HON. C. C. BALLANTYNE, IN HOUSE OF COMMONS, DURING SPEECH IN SUPPORT OF TWENTY MILLION DOLLAR VOTE FOR SHIP PROGRAM — MOTION STANDS OVER.

OTTAWA, March 25.—It was an interesting story Hon. C. C. Ballantyne told the Commons of the inauguration development and success of the Canadian merchant marine. Interesting in the founding of a great industry, in the successful invasion of world transportation as a national enterprise, and further interest was added by the enunciation of the policy of merchant marine by representatives of the three political groups.

Hon. C. C. Ballantyne told a plain story of this great enterprise and except in one instance avoided reference to the future policy of the government. That instance was when he admitted the government was giving careful consideration to the question of subsidies. Other members who spoke did not show similar caution. Edmund Bristol, Centre Toronto, from the government benches; William Duff, a Nova Scotia Liberal, and Dr. Michael Clarke, third party, indicated the sentiment of their immediate colleagues. Mr. Bristol, a director of the Canada Steamships Company, and an ardent protectionist, made a strong plea for protection for the shipbuilding industry; Mr. Duff would sell the government ships and subsidize private enterprise, while Dr. Clark argued that protection and a merchant marine were incompatible in any form. It is evident that the government will retain the present national merchant marine, though they may make no further additions than those ships contracted for and may aid private enterprise by subsidy. The Liberals will have no national merchant fleet, but would assist private enterprise, while the Farmers would not have a national merchant fleet nor subsidize a privately owned one.

Made Handsome Profit.

Last year there were brought in to the Canadian merchant marine at various periods nineteen ships, and it was on the operation of this fleet up to the beginning of the present year that the Minister of Marine was able to make such a handsome profit. After paying overhead and operating charges, insurance and allowing for depreciation there was a profit of $1,400,000.

Brakeman Falls, Is Fatally Hurt

Tries to Stop Flow of Blood by Banking up His Leg With Snow

COCHRANE, March 24—While passing over the top of freight cars while a C. N. Railway train was in motion, a brakesman named Drinkwater, aged 23, stepped short and fell between the cars The trucks of one car passed over his left leg near the hip Drinkwater had the presence of mind to pull himself clear of the tracks for a distance of fifteen feet, and endeavored to stop the flow of blood by banking up his leg with snow.

The train crew did not miss him until arriving at the next stop, Jacksonboro', twenty miles away. He was found an hour and thirty minutes after the accident had happened by two men who were walking to Fauquier, a mile away from where the accident occurred. A special train was immediately arranged for, and brought him to Cochrane Hospital, where he shortly after died. He had lost so much blood that chloroform would have no effect on him after several efforts.

It is not likely the body will be moved for burial for several days, as the local Coroner, being connected with the railway, cannot act, and other Coroners in the district refused to act.

Steps are being taken with the Attorney-General's Department to secure a Coroner.

New Gov't Loan Report Premature

OTTAWA, March 25.—There is apparently little expectation here of another popular loan issue by the Dominion Government this fall. Following the tabling of the estimates in the House of Commons yesterday there has been some suggestion that a new loan will be necessary to meet a difference which appears between anticipated revenue and estimated expenditure for the 1920-21 period. Inquiry from authoritative sources, however, elicits the information that the Government is not at present contemplating further borrowings from the public to meet the difference of aproximately $200,000,000 referred to.

It is pointed out that this prediction has been made entirely without regard to the fact that the Government still has a substantial cash balance unspent from the proceeds of the 1919 Victory Loan, which brought in some $600,000,000. Further, the total difference suggested may not actually exist in fact, as the estimates are only estimates and not actual expenditures.

It is stated authoritatively that there will be every disposition on the part of the Government to spread its available cash resources over the longest period possible and postpone further borrowing appeals.

New York funds again declined, dropping to 8 7-8 and closing at 9¼.

Last Minute Telegraph Briefs

SINN FEIN M. P. ARRESTED

Dublin, March 25.—William Cosgrove, Sinn Fein member of Parliament for Kilkenny north was arrested this morning at his home in Dublin.

STARVE THE MINERS

London, March 25.—The War Office denied today that any plan of action had been even considered to starve the miners into submission in the event of a strike by use of army as blockading force. A statement will be issued tonight, it was announced.

NEW GERMAN CABINET

Paris, March 25.—An Amsterdam telegram reports the formation of a W?,ment-Tin ?f W|YCdA g tea,rzl?e new German Cabinet with Gustav Bauer, remaining as Premier and Dr. Schieffer as Vice-Premier. Dr. Herman Mueller is said to have been again given the portfolio of foreign affairs. Herr Gessler, Mayor of Nuremburg, has been appointed Minister of National Defence. A number of portfolios have been distributed among Socialists and Democratics.

Exchange Climbing

New York, March 25—Rates on English Pound Sterling opened in the market here today at $3.84 or one cent above yesterdays close. Canadian dollars were quoted at 91.75 cents.

Truce With Workmen

Paris, March 25—The German government has reached a definite agreement with Ruhr Valley workmen where a general strike has been paralyzing industry and where hostilities between soldiers and workers have been in progress for several days past, according to news reaching French semi-official circles today from Berlin.

Freshen Up Cabinet

Berlin, March 25—Conferences over reconstruction of Cabinet took place yesterday and it was decided that the Ebert ministry will not retire in a body, but merely be subjected to freshening up. A leading Democratic Deputy declares that this was really all that was required in view of the proximity of new elections.

Sinn Finners Taken To Belfast Goal

Special Despatch to The Intelligencer Canadian Press Limited

BELFAST, March 25.—Sixty-five Sinn Feinners who sailed from Queenstown yesterday aboard a British sloop arrived here this morning. The men were removed from the ship under strong guard and taken to the city jail which has been fitted up with barbed wire protection and the prisoners will be guarded by troops.

The United Veterans of Windsor will be represented in the tennis tournament at the Olympic Games.

Truce Ends With Reds Heavy Fighting Resumes

SPARTACAN FORCES MARCHING ON WESEL, ONE HUNDRED AND TWENTY THOUSAND STRONG.

Special Despatch to The Intelligencer, Canadian Press, Limited.

THE HAGUE, March 25.—Fighting in the Ruhr district of Germany, where it was understood a truce had been agreed to, has been resumed, according to the Telegraf. The Spartacist forces are nearing Wesel, the newspaper says, and a Mucuster despatch to the Rotterdam Courant says the Red army's strength is now one hundred and twenty thousand.

Veterans Seek Unanimity On Gratuity Plan

MONTREAL March 24—The new Calgary bonus scheme was the principal topic of discussion at today's session of the G.W.V.A. convention, but at adjournment no decision as to its rejection or acceptance had been reached.

The resolution reads: That we Great War Veterans of Canada, in Dominion convention assembled, this 24th day of March, 1920, advocate as the fairest and most feasible plan for re-establishment yet submitted, and go on record as now requesting:

The payment of an additional dollar per diem to men who have seen service on a beliggerent front other than Siberia.

The payment of an additional 80c. per diem to men who have seen service in Siberia or Great Britain only;

The payment of an additional 50c per diem to men who have seen service in Canada only.

The foregoing payments to be made on actual length of service from date of attestation to discharge, irrespective of the length of service in either country and be in addition to whatever may have already been received in the way of gratuity, clothing allowance, working pay, pay for rank, etc. With the only reservation that this re-establishment bonus, together with the war service gratuity already received, shall not in the case of any soldier, total more than $3,000.

And further that the sum of $1,500 shall be paid in lump sum as a bonus to the fallen soldiers' widow, orphaned child or children, or dependent parent or parents as indicated by their separation allowance.

And further, that in the absence of the indication of any dependent being existent by virtue of their drawing separation allowance and pension on behalf of a soldier who has fallen that the next-of-kin of such a soldier shall receive the same bonus he would have received had he returned at the date of the armistice.

And further that, the time spent for treatment by a soldier be treated as actual service when computing the bonus.

And that this bonus shall also apply to men who were ordinarily resident in Canada before the war and served in the Imperial forces.

The term soldier to apply to any member of Canada's nursing, military naval or air forces."

oliti fxaor A.n. (a8t ucofsesoat H

SOLDIERS IN NEED NOW

W. S. Woods followed to support his own resolution. "The returned soldiers are in need at present," he said, "his war service gratuity was absolutely useless to him. It is spent and he is not re-established. Why, Mr. Flynn enjoys his success today comes from the fact that he supports a definite plan."

C. E. Wilson: "I object to the word success"

W. S. Woods: "Well, the principle draw-back of the G.W.V.A. scheme of re-establishment is that it is not easily understood, but this plan, that we are now advocating will be understood by everybody."

Here an amendment was put that the convention endorse the G.W.V.A. scheme with the depletion of the needy clause. An amendment to the amendment favored the adoption of the G.W.V.A. scheme in its entirety.

Comrade McKinistry: "I can't support any cash bonus. The principle is immoral. If we go on record in favor of this (the Calgary scheme), we will do harm. Let's get rid of all selfishness and remember widows and dependents. I am not sure that $2,000 would prove a re-establishment after a year's time."

General James Kirkaldy favored the G.W.V.A. scheme.

WOULD COST $300,000,000

J. H. Stitt (Ottawa) gave statistics to show that the bonus scheme would cost $300,000,000. Production had not decreased and the cost of living had increased a hundred per cent. If the Government had the ability to collect income taxes it could pay all gratuities and reduce the national debt to nothing in twenty hours. He claimed that the country was paying profiteers interest on money, which the country should own, through Victory bonds.

"Please be reasonable," continued Stitt. "You have provided for widows and orphans by the declaration of policy yesterday in asking for equalization of pensions. Next come the men from France."

J. E. Payne of Toronto, speaking in favor of the G.W.V.A. scheme minus the needy clause said: "The dollar a day plan is unfair to the man who went to France in 1914 and came back to civil life soon after."

B. McDougall: "Nova Scotia is putting itself on record as in favor of the G.W.V.A. scheme of last year."

W. S. Woods: "As far as Alberta is concerned I want to say this, we are prepared to meet the wishes of the rest of the convention (cheers) so long as the principle of a cash bonus without any frills or strings is maintained.

The session then adjourned until 2 o'clock.

Mrs. Humphrey Ward Dies In London

Famous Novelist, Passes in Her Sixty-Ninth Year—Born in Tasmania.

LONDON, March 25.—Mrs. Humphry Ward, the famous novelist, died of heart failure today in a London hospital.

Mary Augusta Ward, known to the world of book readers as Mrs. Humphry Ward, was born in Hobart, Tasmania, June 11, 1851. She was the daughter of Thomas Arnold, second son of Dr. Arnold, of Rugby, and a brother of Matthew Arnold, of whom she was a niece. Although of "colonial" birth, most of her education she received at Oxford, whither she went when a girl.

Although at an early age she developed a strong bent toward literature, it was not until she had reached her thirtieth year that her first novel, "Milly and Olly," was published. Although this book did not create any great notice in literary circles, it received favorable comment, and it was not until the publication of "Robert Elsmere" in 1888 that the real foundation for her literary reputation was laid. This novel, dealing in a striking way with current religious problems, soon became the talk of the whole world.

Mrs. Ward was a prolific writer, and novels flowed from her pen during the following years. Among the better known of her works were: "Marcella," "Eleanor," "Lady Rose's Daughter," "Fenwick's Career," "Diana Mallory" and, since the war, "Lady Connie," "England's Effort," "Toward the Goal," "The War and Elizabeth," and "Fields of Victory," published last year.

Mrs. Ward was, however, more than a writer, and occupied a large place in the social and political life of her day. She introduced into England the children's holiday play centres and sponsored the movement for a greater sense of responsibility toward school children in the hours when they were not in school. It is said that her son, Arnold Ward, owed his seat in Parliament, in great measure, to his mother's support and efforts as a campaigner. She was one of seven English women named under the Sex Disqualification Removal Act to act as Magistrates.

Her husband was Thomas Humphry Ward, also a writer of considerable attainments, whom she married in 1872.

Anthracite Coal Strike Averted

NEW YORK, March 25—Suspension of work in the anthracite coal fields April 1, when the present wage agreement between operators and workers expires, was averted last night, when owners notified the hard coal diggers that they would agree to make any wage increase decided upon in the new agreement being drawn up retroactive to that date.

Indications are that the sub-committee of miners and operators appointed to negotiate the new agreement will not complete their work before the middle of next month and the men threatened to suspend work until the pact was signed unless the owners would make any award retroactive.

The reply of the owners was received at a meeting of the sub-committee.

To Boost Canals From Lakes To Sea

Middle Western States Open Campaign on St. Lawrence Deepening Project

NEW YORK, March March 25.—The fight of 15 middle western states for a ship canal that will afford a deep sea route through the great lakes and the St. Lawrence river to the sea has been brought to New York State, where local officials and experts have opposed it on the ground it would injure the development of the barge canal should be given a thorough test before it is discarded as useless in favor of the new route.

The Great Lakes-St. Lawrence Tidewater Association is trying to convince business and industrial interests of New York State that the proposed ship canal would not injure the prospects of the barge canal, but would enhance its value. The campaign is being directed here by Robert R. Dunn of 165 Broadway. Mr. Dunn said yesterday that the western people seek transportation from their lake ports to the sea and were prepared to make a hot fight for it.

He has asked for a hearing, before the meeting of the chamber of commerce of the State of New York next Thursday, and has sent an appeal to Governor Smith.

NO COST TO NEW YORK STATE

Referring to the argument that this state would have to pay a large part of the cost of dredging a ship canal in the St. Lawrence river, Mr. Dunn says that the middle west does not want New York to pay anything. It is proposed to have the construction of the canal undertaken by the Federal Government jointly with the Canadian Government each paying half the costs.

It is the belief of the west the ship canal will not injure the development of the barge canal, but will stimulate it, for the reason that a deep-water route would increase the number of local shipments through the barge canal They dispose of the argument that the proposed ship canal route would be placed in control of the Canadian Government by saying that ships going through the great lakes could make almost the entire trip navigating American waters.

The states associated in the movement for the ship canal through the St. Lawrence, Mr. Dunn said, represent one-third of the country's area and population, and produce one-half to seven-eigths of its principal staples with the exception of cotton and tobacco. This section provides the surplus of wheat and other grain, cattle, meats and dairy products.

Villa Wipes Out Whole Settlement

EL PASO, Texas, March 25—According to reports brought to the border, an entire Mexican farm settlement near Santa Barbara, Chihuahua, was wiped out Sunday, March 14, when Francisco Villa and his followers massacred more than 50 men, women and children and burned their homes and crops.

Angered, it was said, because a small party of his men had been fired on in that vicinity on the previous day, Villa with 150 men attacked the place. The farmers defended their homes and it was not until 25 or 30 of them had been killed and their ammunition exhausted that the 25 survivors surrendered, the report said

According to the story one young man, crazed with grief over the loss of his wife and family, tried to wrest Villa's gun from his hand. Villa subdued the man after a struggle and shot him dead. Then it is said Villa ordered the men put to death, and the houses, grain and other possessions burned. Only three of the men escaped.

How a lucky man does enjoy pointing with pride to his superior judgment!

MUSIC AND DRAMA

WILLIAM FARNUM

William Farnum again will be seen in a beautiful William Fox production "Heart Strings" surpasses in some ways every other play in which this noted star has appeared. It tells the story of a brother's great sacrifice for the little sister whom he adores. The early scenes are laid in the beautiful Laurentian valley of Quebec. From there the action moves to New York's famous "Greenwich Village" the abode of artists, Musicians, genius and near genius. Then to the home of a millionaire, and again back to the peaceful village of the French-Canadians. The story is one in which laughter and tears are intermingled. Big scenes which stir the consciousness and play upon the heart strings of humanity abound. A two reel big V comedy and three other selected attractions are also being shown on the same program.

"SYLVIA ON A SPREE"

Among other clever specialties introduced in the cabaret scene in "Sylvia on a Spree" the Metro play starring Emmy Wehlen which is the feature offering at the Palace tonight to Saturday, matinee daily, is the new society craze, "The Ostrich Walk." The scene is laid in a fashionable road house on the outskirts of New York, and all the latest cabaret features are shown—the performance having been engaged from many of the most popular restaurants of the city. Among the exhibition are a Hawaiian dance, while a band of Nautch dancing girls give the performance for which they are famous the world over. During the lulls in the performance the diners frequently rise and do the "Ostrich Walk"—the latest society favorite which has taken the place of many other hitherto popular dances. The costumes of the restaurant guests, as well as those of the cabaret performers, are of the latest and most gorgeous description, showing many Paris models, procured with much trouble for this scene of the lavishly staged picture. A program of really good comedy and varied plays are also announced for exhibition in addition to the above feature.

BRANTFORD P. O. TO GO TO HOLSTEIN BREEDERS

Brantford, March 24—The Dominion Holstein Breeders' Association will establish its headquarters in Brantford. The City Council this morning passed the by-law authorizing the sale of the old Post-office to the association for $28,000, though not without opposition, based on the alleged secrecy surrounding the sale, the lack of opportunity afforded to others to bid, and the fact that the Government offered to buy or rent, probably the latter, for use as headquarters of the 54th Battery and the 25th Brant Dragoons. The Aldermen favoring the sale urged that to sell to the Government meant a perpetual loss of taxes on the property and that the Government had had time to put in a bona fide offer.

A despatch from Beirut says King of Syria has given French until April sixth to evacuate the country.

IS THE AURORA BOREALIS A WIRELESS FROM THE STARS?

BY J. L. MILLIGAN IN THE TORONTO GLOBE

The appearance of an extraordinary aurora on Monday evening aroused much curiosity on the part of citizens in this strange and fascinating phenomena of the heavens. Anything that can make people look upward in these, when mankind's gaze is so much in the opposite direction, is to be welcomed as a benediction. Indeed, the aurora which appeared on Monday evening was not in the form of the usual Northern Lights: it spread out northwest to southeast from a point at the zenith, like a pair of ethereal wings, radiating in a southern direction. The centre of radiation did not change, for it was observed to keep constantly in the region of a brilliant star, a little south of the zenith. At times this centre, nucleus, seemed to swirl or writhe as if a puff of smoke had been blown into the atmosphere from without. It would then radiate in a wing-like form across the whole of the sky in the direction above described. The edge of the "wings" were sharply defined as if the rays were prevented from completing a circular fan like movement.

These facts should be interesting—if not valuable—to scientists in view of the mystery that surroun this beautiful phenomena. Of one thing we are certain; that there luminous rays are electrical. This is very obvious to the unimaginative telegraph operator, whose business of sending out electric waves is seriously interfered with by these ethereal communications. It is not suggested here that the aurora is a visible demonstration of an attempt on the part of one of the planets to communicate by wireless with the earth, although there is an excellent opportunity for the more fanciful to work out a theory along these lines. The present writer has no doubt that the aurora that appeared on Monday night was not of terrestrial origin, but that it was projected into the atmosphere from some near or distant outside source. The sky was perfectly clear, and the stars could be seen even through the thickest parts of the aurora, so that the electrical energy would scarcely be generated by any disturbance in the atmosphere itself, as is the case with an electrical storm.

This theory finds some definite support from Dr. Donald Campbell Macfie, the poet, in his remarkable book, "Science, Matter and Immortality." In a chapter dealing with "Electrons and the Aurora Borealis," Dr. Macfie says that the spectrum of the aurora shows that it is largely produced by vibrating molecules of argon, krypton, xenon, neon and other rare gases of the air which collect in the upper layers of the atmosphere. The presumption is, therefore, very strong that the Aurora Borealis is caused by electrical discharges—discharges of electrons through the upper layers of the atmosphere. But where do the electrons come from? After explaining the effect of sun spots in sending out showers of electrons into space, Dr. Macfie concludes: "In brief, the Aurora Borealis is due to the bombardment of the rarefied gases of the outer atmosphere by electrons ejected by the sun and borne across space by light pressure."

This explanation, while it is interesting, does not quite satisfy us, so far as the aurora of Monday evenin is concerned. The idea of the "bombardment" is all right, but if there was such a bombardment on Monday evening it was directed on one definite point in the atmosphere, and the projectiles were of an explosive nature, as indicated by the central swirling movement and the ever-shifting, fan-like rays. If the aurora were caused by the "pelting" of our atmosphere with electrons the illumination of the rare gases would be of a nebulous or cloud-like character. This theory does not account for the ray formation of the aurora, which is an important discrepancy. It should also be noted that the display on Monday evening was not colored, but was pure white in every part. This may have been due to the fact that it appeared in the zenith, and that the prismatic effect usually seen in the Northern Lights is caused by the location on the horizon, like the gorgeous coloring of clouds and atmosphere at sunset.

MILITARY NEWS

The 15th Regiment (A.L.I.) will be inspected by Major General V. A. S. Williams, C.M.G., General Officer commanding Military District No. 3, on Friday next, March 26th, at 7 p.m.

Members are expected to make special effort to attend this parade.

Members are reminded that they should be clean and smart as possible as appearance is one of the first impressions made by inspecting officers.

Members who have not yet drawn their uniforms can do so on drill night. Company drill is now being carried out, and, as this drill is part of the programme, laid down for the inspection, drill will be held every evening next week commencing on Monday, 22nd March, at 8 p.m.

The drills for next week will be at 8 p.m. Monday, Tuesday, Wednesday and Thursday, concluding with the inspection at 7 p.m., Friday, 26th inst.

G.T.R. To Lay 140 Miles Of New Rail On Fifth District

Westbound Track from Montreal is to be Replaced—1,000 Men to be Employed—Spring Clean-Up Days Around the Local Yards—

It is understod that the Grand Trunk Railway is making arrangements to lay 140 miles of steel on the Montreal division this year, the new rail to be placed on the main line between Montreal West and Brockville and to continue the track operations which were carried on throughout last summer. The steel will be laid on the westbound track with an additional stretch between Morrisburg and Summerstown being covered on the eastbound track. The rail will be of the heavy type already in use and will replace steel which has been in service since 1907.

In addition it is expected that ballasting operations will be carried on, necessitating the employment of a large number of men on the Fifth district between here and Montreal. The installation of steel on the eastbound track will be in continuation of work carried on a few years ago between Coteau Junction and Summerstown, which was covered with 85 lb. steel. The rail now being laid is of the 100 lb. type.

Track work will be commenced within a few weeks' time and it is expected that fully 1,000 men, the number employed on track operations on this district last summer will be at work. These men are housed in boarding cars which move from place to place as their work progresses. Last year the work carried on was almost entirely composed of ballasting and raising track.

INCREASE SECTION GANGS

On April 1 the various section gangs along the railway will be brought up to summer strength of seven men to the section. Later extra gangs will be employed to fulfil the programme of track work which is contemplated.

The bridge and building department of the Grand Trunk has painters at work brightening up the buildings.

These are spring clean-up days around the terminal yards and employees of the track department are busily engaged in removing the debris of the winter and getting rid of the last remaining ice. King Frost's activities were severe on the railroads last winter and much heaving of track resulted. This is now being rectified while new rails are being placed at different points. The cylinders and other debris from the yards is being loaded on cars to be dumped at other places on the line.

Hydro Chief Raps Ottawa For Neglect

Sir Adam Beck Says His System Has Had Bad Treatment

TORONTO, March 24—"I think the Province of Ontario has had fearful treatment from Ottawa," declared Sir Adam Beck before a group of members of the Ontario Municipal Electric Association at the Provincial Hydro offices. "I think Ontario has fared very badly in the past so far as assistance has been given in the development of her natural resources and especially in transportation." He went on to refer specifically to the enormous burden of debt Ontario carried for excessive transportation exploitations in the west and north.

When the Ontario Hydro enlarged its plant at the behest of Ottawa during the war, Sir Adam declared they "had as much assurance as anyone would require that compensation or indemnity would be extended to us. I fear we are to be disappointed. I have little faith in any help coming from any Government, and all Governments appear to have been alike. They all seem to be influenced to a very much greater extent than they should be by the corporate interests of the country."

Will Not Take a Back Seat

Sir Adam went on to declare that everything that could be done had been done, he believed, to make a failure of public ownership. "We have little hope of getting assistance from Ottawa in our radial railway scheme. But we are not down-hearted and are not going to take a back seat because of this lack of encouragement. It will be the duty of the Hydro Commission as soon as the orders in Council have been brought down and the municipalities have signed their agreements and deposited their bonds to go ahead."

Although he made specific reference to the official organ of the U. F. O. for anti-Hydro comment, particularly in its declaration that Hydro-radials were to serve cities rather than rural districts, Sir Adam put it down to lack of information on the subject under discussion. "I think we should give the present Provincial Government credit," he said, "that they intend to do everything they can to assist the Commission in the construction of these roads." He hoped to secure Government authorization to proceed with the work on the right-of-way from Belleville to Toronto "before the frost is out of the ground."

Scores Dominion Government

Somewhat bitterly he reproached the Dominion Government for its refusal to lift the forty-two per cent. duty charge on machinery coming in from the United States for the Chippawa work. It was apparatus, he said, that could not be bought for love nor money on this side of the border. Although tripling and quadrupling of wage and other costs had boosted enormously the cost of work at the Chippawa plant, still he hoped to get through with a per horse-power capitalization of $100.

"No one made greater profits than the mining industries during the war," he said, reverting to the duty levy on hydro equipment. "Profiteering has been of a general character. The manufacturers of munitions were practically indemnified for any expenditure they made. They did not attempt to put up buildings, instal machinery to manufacture munitions unless the money was advanced or guaranteed. Yet the Hydro, which increased its plant at enormous expense to meet that demand has been ignored by Ottawa. He advocated continued propaganda to make Ottawa realize that unless it co-operated and did justice to Ontario in this great enterprise they need not expect the future support of the electors of the Province.

He hoped the present Minister of Finance, in return for the compliment paid him by Kingston, would listen to the appeal of his people when Ontario asked for her rights in the utilization of the surplus waters of the St. Lawrence.

Mr. W. K. Sanderson acted as Chairman, and P. W. Ellis, Mr. T. J. Hannigan, Guelph, and V. Buchanan, of London also spoke.

PROSECUTED FOR INCOME TAX DEFAULT

Toronto, March 24—Eight summonses in connection with failure to make the required income assessment returns were returned before Magistrate Kingsford in the Police Court here. The persons and firms implicated were: Dr. W. R. Barr, Joseph Waller, Waller's Limited; Wm. G. Harris, sr., and Wm. G. Harris, jr., president and manager respectively of the Canada Metal Company; Elley M. Raney, departmental manager of Swift Canadian Frank W. Burrows, 68 Roncesvalles ave., and Samuel G. Abbott.

In the case of Waller's Limited, there was failure to make returns as to the names and salaries of the employees of the firm. In the other cases there was failure to make returns as to personal incomes. When the cases came up for hearing, the department explained that some of the alleged defaulters had made returns since receiving their summonses, while in the others the department was making further investigation, and the matter was held over. Had convictions been recorded, the defaulters would have been liable for fines ranging from $600 to $800 each.

Some 1,000 "final" notices have been sent out, with a time-limit of April 2 set. Those who ignore these notices are assured by the department that there will be "something doing" in their cases.

Canifton School Destroyed By Fire

Fine New Public School Destroyed—Origin a Mystery

The bright reflection north of the city between the hours of 10 and 11 o'clock last night denoted that a fire was in progress and appeared to be of considerable magnitude. Upon enquiry it was ascertained that the fine public school, situated at the north end of the village of Canifton and upon an elevated site overlooking the river Moira was on fire and was doomed to destruction. An hour later all that remained of the seat of learning were the blackened walls. The fire originated in a class room situated on the east side of the building and away from the one furnace which was yesterday in operation. The origin is a mystery, as everything about the building was all right in the early part of the evening.

In the year 1909 the school was erected and was up to date in every respect, in fact it was one of the best equipped schools in a rural school section in the inspectorate of South Hastings. It was built by Mr. Thomas Manley of this city and its original cost was in the neighbor hood of $12,000. Today it would cost upwards of $20,000 to replace it. There were two large class rooms and also good cloak rooms and a large hall. The basement was commodious and could be utilized by the pupils on stormy days. Not a thing was saved and the loss to the pupils will be considerable. The school was provided with fine maps and charts which can be replaced. Miss Helen Farnham of Canifton and Miss Gowan of Tweed were the teachers in charge, and over one hundred pupils were in attendance. When the school was erected, Messrs. G. W. Kerr, G. W. Palmer and Joel Brenton were the trustees. The present trustees are Messrs. A. Loucks, Harry Brenton and Charles Mills. The school architectically was unique and presented an imposing position. The loss to the school section will be heavy as the insurance on the building and contents was only $4,000.

An effort is being made to carry on school work next Monday. The Orange hall and the town hall in the village have been placed at the disposal of the trustees for temporary occupancy and one of the buildings will be utilized for the purpose.

* * *

MISSIONARY SHOOTS BRITISH MAJOR

London, Tuesday, March 23—A United States medical missionary, the Rev. Mr. Jackman, shot Major H. D. Cloete dead at Sadiya, British India, a north-east frontier post, according to a Calcutta despatch to The Daily Mail dated March 15.

The full story apparently is not known but the correspondent says that the reasons for the tragedy were domestic. Jackman went to Major Cloete's bungalow with a loaded revolver and asked him to come out, and when he appeared he shot him. The missionary then went to Acting-Police Political Officer O'Callaghan and surrendered. Major Cloete was the son of Sir Henry Cloete, formerly an Indian Civil Service officer.

Sports

BASEBALL.

BASEBALL ANNUAL

At the annual meeting of the Central Ontario Baseball League held at Peterboro yesterday Belleville, Cobourg, Port Hope, Lindsay and Oshawa were represented. President S. Lockington, of Port Hope, presided and in giving his annual address referred as follows to Belleville winning the O. B. A. Championship:

"After a neck and neck race in the Central League, Belleville emerged with the championship and then continued the good work in the play-off with the O. B. A. teams, bringing the Provincial championship home. I am sure that I voice the sentiments of every official in the league when I extend the heartiest congratulations to the boys from the Bay of Quinte town. They threw every ounce of their energy into the game, and with the invincible Goyer and his backstop, Mills, they brought honor to the town they represented and also to the league of which they were members. We are indeed proud of our Belleville team, and without detracting one iota from their splendid achievement I might add just here that had Belleville been unable to accomplish the undertaking we had other teams in the league which could have done so. There was little to choose between the Belleville and Peterboro teams, and I am satisfied that had Peterboro won the championship of the Central League they would also have carried off the Provincial honors. This indeed speaks well for our league—two teams in a league just in its infancy strong enough to win the championship of Ontario.

THE RING.

CARPENTIER ARRIVES

New York, March 25—Georges Carpentier, heavyweight boxing champion of Europe, who served France in the world war as an aviator, arrived here on the steamship Savoie and was cordially welcomed by a throng of sporting enthusiasts and an enthusiastic delegation from the French colony. He was accompanied by his 17-year-old bride and his manager, Francois Deschamps. It is expected that Carpentier will sign a contract to meet Jack Dempsey for the heavyweight championship of the world during his stay in this country. Many promoters have made tempting offers, but Manager Deschamps has not yet indicated his probable decision. Carpentier will be entertained here for several days and then will make a trip to the Pacific coast.

HOCKEY.

SUDBURY PASSES AFTER GAME STRUGGLE

Battling grimly until utterly exhausted, University of Toronto and Sudbury finished their Allan Cup semi-final series at the Arena here last night, the Blue and White emerging triumphant by 4 to 3 in overtime.

University of Toronto outplayed the Wolves of the North in the early stages and had the score 3 to 0 in their favor at one juncture, but that meant nothing to the Sudburians. They went into the third period facing the odds against them without an indication that they had engaged in four fierce battles in seven days. They ripped into the University team as might be expected from a pack of desperate wolves, and forced the Blue and White into a defensive game. Taking advantage of the plight of the big "T" they whaled into the student outfit and were on even terms at the expiration of an hour of play with the score 3 to 3.

It was in the second half of the first overtime period that the University team scored. Then commenced a frantic struggle on the part of the Sudbury for the goal that stood between them and a chance at that Belgian trip. They couldn't get it. The Blue and White hung on like leeches. Roars not cheers, reverberated among the steel girders of the big ice palace when the timer's bell ended the game.

Conciliation Board For G.T.R. Employees

Dispute Involves Some 1,400 Clerks and Other Station Men

OTTAWA, March 25—The Minister of Labor has established a Board of Conciliation to deal with a dispute between the clerks and other station employees of the Grand Trunk Railway, members of the Canadian Brotherhood of Railroad Employees, to the number of approximately 1,400. The dispute involves questions of changes in wages and working conditions raised by the employees concerned. Fred Bancroft of Toronto has been appointed a member of the board on behalf of the employees. The other members have not yet been appointed.

As a number of the employees in these departments of the Grand Trunk Railway System are members of other Labor organizations, it has been intimated that an opportunity will be given to the latter of making such representations to the Board of Conciliation as they may see fit.

TOO LATE

Death only a matter of short time. Don't wait until pains and aches become incurable diseases. Avoid painful consequences by taking

GOLD MEDAL HAARLEM OIL CAPSULES

The world's standard remedy for kidney, liver, bladder and uric acid troubles—the National Remedy of Holland since 1696. Guaranteed. All druggists, 50c. a box. Look for the name Gold Medal on every box and accept no imitation

Accept A Dozen Warships From Great Britain?

Reported Government Policy Toward Foundation of Our Navy

OTTAWA, March 25—Not only will Hon. C. C. Ballantyne, Minister of Marine and Fisheries and the Naval Service, tell the House of Commons tomorrow why the Canadian Naval Service is being demobilized, but it is anticipated that a statement as to the naval policy of the Government will also be made.

In all probability it will be announced that the Government has decided to accept a dozen or so of the forty-one vessels offered by the British Admiralty, and to reorganize the whole service from the ground up along lines laid down by Admiral Jellicoe when here, and according to advice obtained from experts who will be sent here at the Government's request.

Some Want it All-Canadian

It is known that there are powerful influences working in the direction of having the navy entirely Canadian; that is, built in Canada, manned by Canadians and directed by Canadians. But others point out that in a time when national economy has become all important it does not look well to embark on an expensive building program when Great Britain has a surplus of modern vessels which it is to her interest to have operated by one of the overseas nations rather than be dismantled or maintained at the expense of the taxpayer.

* * *

SHEEP LOST IN STORM

Winnipeg, March 24—During the recent storm 700 sheep were caught out in the open two miles east of MacDonald, Man., and lost. They traveled with the storm until exhausted and lay down then to die. They were part of a flock of 1,400 belonging to Hon. J. W. Armstrong and Dr. W. A. Schultz.

IF YOUR EARS RING WITH HEAD NOISES

If you have roaring, buzzing noises in your ears, are getting hard of hearing, and fear Catarrhal Deafness, go to your druggist and get 1 ounce of Parment (double strength), and add to it ¼ pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils will open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs but little and is pleasant to take. Anyone who has Catarrahal trouble of the ears, is hard of hearing or has head noises should give this prescription a trial.

WE DO PLUMBING

WOMEN SMUGGLERS HAD WHISKEY IN DOLLS

Boston, March 24.—An Italian immigrant woman's eagerness to remove from her trunk a large china doll led to the discovery by customs officials of 300 quarts of brandy hidden in various parts of the White Star Liner Cretic, from Mediterranean ports.

The officers saw a woman hastily take a doll from her trunk and attempt to carry it away. They also noticed that two other women on the pier were cuddling dolls in their arms. Upon investigation they found a gallon jug of brandy beneath the dress of the first doll and a quart bottle concealed in the clothing of each of the others.

A search of the vessel brought to light quantities of liquor stowed up in ventilators and lockers behind piles of life preservers. Most of it was found in the crew's quarters. No arrests were made.

Many a man refuses to trust in the Lord as long as he has a dollar in the pocket.

ASK THE HYDRO MAN
HYDRO ELECTRIC POWER COMMISSION OF ONTARIO

Approved by Royalty

At a recent exhibition of Electrical labor-savers for the home, held at London, England, King George personally inspected and ordered a Hoover Special Suction Cleaner.

This machine was not a made-to-order product but a stock machine, a duplicate of which can be seen and demonstrated at "The Hydro Shop."

Your spring cleaning time has arrived with all its attendant worries and fatigue, but it can be made a pleasure if YOU too will order your "Hoover."

We will be glad to arrange a demonstration of the Hoover in your own home.

Weekly edition—One year by mail, $1.50; one year to U.S.A., $2.00; six months pro rata. All above subscriptions payable in advance or an additional amount of 20 per cent. will be added.

LESE MAJESTE! SOFT PEDAL!

Toronto newspapers are threatened with the "Tower" for lese majeste, contempt of court, or some other old thing in reporting the sessions of the Dominion Board of Commerce now sitting in that city investigating the methods of doing business which governed the actions of the wholesale grocers. The Board of Commerce seems to be resolving itself into a court of justice with all the circumlocution of rules of evidence, etc. It appears that the newspapers must not do any criticising or express any opinion upon anything which transpires at the Board. Well, what do you know about that? as Marse Henry would say. "Things have come to a helluva pass when a man can't wallop his own jackass!"

THE NEW CLASS CONSCIOUSNESS.

Reduction of the high cost of living is a common responsibility. The problem concerns alike capital and labor, the farmer and the city dweller.

High-priced necessities mean high labor costs, to an ever-increasing extent. The farmer must feel the reflected handicap, through his part as an employer and from the greater cost of everything he buys.

Capital feels the high cost of living in the continual restlessness of employees. This pronounced condition, observable for some time past, tends towards decreased production.

The time has arrived when class consciousness may be used most effectively in the exercise of disciplined effort, looking to the general good. The individual of any class who disregards the public interest sins against the vital needs of his own calling. What is right morally has become what is good materially, demonstrated in a manner none can fail to understand.—Montreal Star.

TEN COMMANDMENTS FOR CANADIAN TRADE.

Canadian money, Canadian made,
Should stay in Canada for Canadian trade.

1.—Buy Canadian Products.

In doing so you develop the home market, encourage factory expansion, provide employment for new populations, and create bigger and better markets for all kinds of farm produce. New factories, expansion of old factories, greater production, more workers, and better agricultural markets mean national progress.

2.—Import Only Necessities.

And then only if similar Canadian articles or substitutes are not available. With Canadian money at a discount of 10 to 15 per cent., exchange with the United States is costing Canadian consumers between $75,000,000 and $100,000,000 a year.

3.—Produce to the Limit in Field and Factory.

Increased production means new wealth and is essential to the success of any effort to reduce imports and promote export trade.

4.—Co-operate, Conserve, Specialize, Standardize.

These are the means to maximum production of high quality goods at minimum cost.

5.—Develop Export Markets.

Foreign business gives stability to trade. It reduces unit costs, benefits domestic consumers, affords employment to factories and workers in times of depression, and corrects adverse exchange by improving the trade balance.

6.—Utilize Canadian Services.

Ship by Canadian carriers through Canadian ports. Patronize Canadian railways, Canadian steamships, and Canadian banks. Place insurance in Canadian companies. Employ Canadian architects, engineers, scientists, and other experts. Spend vacations in Canada.

7.—Manufacture Raw Material to Final Stages in Canada.

Hundreds of millions of dollars are lost annually to the Dominion and especially to Canadian wage earners, by the exportation of raw materials and semi-manufactured products.

8.—Use Science for the Determination and Development of Natural Resources.

Industrial research will reveal new wealth, improve industrial processes, and help to relieve our economic dependence upon outside sources for fuel, iron and other essentials.

9.—Make Quality the Hall-Mark of Canadian Products.

In return for public support of the home market Canadian manufacturers should provide products that compare favorably with imported goods and Canadian workers should recognize good workmanship and maximum production as their standards.

10.—Be Fair to Capital.

Canadian money should be encouraged to invest at home and foreign capital attracted to promote Canadian industrial expansion.

CRISP COMMENT

Orators in the Queen's Park are self-starters, but they lack terminal facilities, says the Toronto Telegram.

× × ×

Even the Dominion Parliament is using an axe on estimates for capital expenditure. The news has reached Ottawa that this is an abnormal year and that Punkville is a City of Refuge compared to Junkville.

× × ×

Levi Thompson, whip of the Farmers' party in the Federal House, will move for legislation putting an end to long-winded speeches. Good. Make them brief—"brief as woman's love," as Shakespeare phrases it, suggests the Kingston Whig.

× × ×

"Over in Canada we are thinking of setting up a republic," said Lindsay Crawford, editor of the Laurier-Liberal Weekly Statesman, to a New York audience. WE, says Lindsay. Shure the ould boy must have a partner. Perhaps he meant OUI.

× × ×

Speaking at Kingston to a gathering of the United Farmer party, Mr. Kennedy, M.P., challenged any one to point to any plank in the U. F. O. platform which meant class legislation. Five minutes later, says the Ottawa Journal, the meeting unanimously passed a resolution denouncing daylight saving.

× × ×

A despatch from Paris says that Pussyfoot Johnson, the American prohibition propagandist who lost an eye looking for trouble in London, has started a prohibition campaign in France, but as he cannot speak French results thus far are meagre. The Paris correspondent suggests that Pussyfoot learn French—and watch his other eye.

The Poet's Corner

THE UNTRUTH

You say the dead come back to talk with us,
To carry on the tasks they used to do,
To cheer the hearts of their old loves loves again,
To teach us what is good and right and true.

These must be lies, else surely there would sound
Some phantom bugle o'er each plot of land
Where lies our hero dead. From each green mound
A soul would leap in righteous wrath to stand,
To fight again for that they thought they won,
When in the sodden fields of France they fell,
And died content to know their work was done,
Their lives were not in vain—and all was well.

If spirits come to men, these dead would speak
In tones to ring from gutter to the sky;
At which all traitor hearts would shrink—grow weak
With nameless terror urging them to fly.
And some who dwell in honored place, and trust
To fancied greatness, would be struck and thrown
From their high seats into the lowly dust
With blinding truths their faiths have never known.

The ghostly army sweeping from the coast
Where dawn suns shine to that whereon they set
Would fight the vicious foes that vilely boast
Of new, strange gods; who say we should forget
The flag that we have flown, of honored name—
Should tear it from the staff and in its place
Upraise a crimson banner red with shame;
A badge of infamy—a world's disgrace!

What would they do to those who hold back peace;
Whose vapid endless prating fills the days
With empty words; who talk and never cease
Of futile, foolish means and selfish ways—
Those who would quench the torch of Freedom's fire
Our brave men carried high until they died;
Who tossed the hard-won laurels in the mire;
Who, from the first, their sacred trust denied?
The dead come not, and "pity 'tis, 'tis true."
In these black days they would have much to do

—Harry Varley, in New York. Times

OTHER VIEWS

An Effort at True Realism
(New York Sun)

Some day we intend to write a book in which the villain passes on from wickedness to wickedness, happy, cheerful, contented, successful and increasingly prosperous and respected.

Huns Good Sprinters
(Victoria Colonist)

It has become a habit in German rulers to turn tail and flee when confronted with difficult situation. Wilhelm has set a sad example for the guidance of his successors, whether kings or presidents.

View With Alarm
(Toronto Telegram)

Every time a German stubs his toe in a disturbance on the streets of Berlin, the allied nations are called upon to view with alarm the awful experience of the conquered Hun.

When the Paris Commune was the centre around which 35,000 Frenchmen were killed in six days, Bismarck did not offer to view with alarm the disturbance of Paris and the slaughter of the populace.

Bismarck gazed unmoved at the awful spectacle of the Commune in Paris and said in effect:

"If the French insist on destroying their own property and killing their own countrymen, they can go ahead; the Germans will stay right here until the slaughter is over and collect from the survivors. If there are no survivors, the Germans will take the whole of France in payment of their war indemnity."

World is Moving
(Toronto Star)

Those who say that nothing can be done—that it is impossible or unwise to fix prices, or regulate profits, or tax excess profits, or resort to public ownership, or regulate business through a Board of Commerce, or break up combines, or disband trusts, or admit labor to profit-sharing—those who say that nothing can be done in any direction, but that everything must go on as it used to go on, with the devil every day taking the hindmost, they are giving people a counsel of despair, and they, more than any others, are playing into the hands of those who denounce organized society, and advocate revolution, destriction and chaos.

At all times the race to which we belong has been able to adopt such reforms as were needed, and is able to do so now. Those who refuse to see that the world has reached a new turn in the road should look again.

INFLUENZA BREAKS YOUR VITALITY

If Leaves in its Wake Poor Blood, a run-down Nervous Condition

No Strength, No Ambition, No Energy

Vinol is Guaranteed to Make Rich, Red Blood, and Build You Up

If you are just recovering from influenza or any severe sickness, you need VINOL to restore your old time strength, energy and vitality, because the bad effects of poor devitalized blood cannot be over-estimated, and it is the beef and cod liver peptones, iron and manganese peptonates, and glycero-phosphates contained in VINOL that makes red corpuscles, enriches the blood, improves that sluggish circulation. In this natural manner VINOL creates a hearty appetite and soon every muscle and organ in the body is energized and re-vitalized, and you are once more restored to that vigorous, full-blooded health which is the birthright of every man and woman.

Mrs. Albert Boutilier of Halifax, N.S., says: "The influenza left me all run-down and so weak I could not work. Nothing seemed to help me until my daughter bought me a bottle of Vinol, and it accomplished wonders for me, as it built me up and restored my strength quickly. I cannot praise it enough."

VINOL is the one Remedy that is guaranteed to help you. Your druggist keeps it, so do not accept substitutes. He will return your money if it fails to help you.

A Laugh or Two

Malice Prepense

"Jimmy," said the fond mother to her smart eleven-year-old, "what became of that little pie I made for you as a treat yesterday? Did you eat it?"

"No, mamma," answered Jimmy, with a grin; "I gave it my teacher at school instead."

"That was very nice and generous of you, Jimmy," complimented his mother. "And did your teacher eat it?"

"Yes, I think so," answered Jimmy. "She wasn't at school today."

Better

Maud:—No, I can't marry you.

Percy (savagely—Oh, well, there are others just as good.

Maud—Better—I accepted one of them yesterday.

Party Line Consideration

A TWO-PARTY LINE IS A SINGLE CIRCUIT, SHARED IN COMMON by two subscribers. It is not reserved for a single user and should be used on the share-and-share-alike basis.

On a two-party line, it is possible for both users to try to talk out on the same circuit at the same time. There is also the liability of both being wanted at the same time to receive incoming calls.

Therefore, there are special considerations which we urge a party-line user to keep in mind:

1. Long conversations prevent the use of the line by the other subscriber; therefore party-line talks should be as brief as possible.
2. Whenever another party-line subscriber requests the use of the line for an emergency, courtesy should prompt the first user temporarily to give up the use of the line.
3. Whenever a party-line subscriber takes the receiver from the hook and finds the line in use, the receiver should be replaced at once in a careful manner.
4 At the end of a conversation the receiver should be replaced upon the hook immediately, otherwise the other subscriber cannot signal the central office.
5. Be sure always to give the operator the letters W or J in calling a party-line subscriber.

Co-operation is required to ensure good service of any kind.

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER IV—Continued

“Clar'nets, however, be bad at all times,” said Michael Mail. “One Christmas—years agone now, years—I went the rounds wi' the Dibbeach choir. 'Twas a hard frosty night, and the keys of al the clar'nets froze—ah, they did freeze!—so that 'twas like drawing a cork every time a key was opened; the players o' 'em had to go into a hedger's and ditcher's chimley-corner, and thaw their clar'nets every now and then. An icicle o' spet hung down from the end of every man's clar'nets a span long; and as to fingers—well, there, if ye'll believe me, we had no fingers at all, to our knowledge.”

“I can —” [illegible] back to my mind,” said Mr. Penny, “what I said to poor Joseph Ryme (who took the tribble part in High-Story Church for two-and-forty year) when they thought of having clar'nets there. ‘Joseph,’ I said, says I, ‘depend upon't if so be you have them tooting clar'nets, you'll spoil the whole set-out. Clar'nets were not made for the service of Providence; you can see it by looking at 'em,’ I said. And what cam o't? Why, my dear souls, the parson set up a barrel-organ on his own account within two years o' the time I spoke and the old choir went to nothing.”

“As far as looks is concerned,” said the tranter, “I don't for my part see that a fiddle is much nearer heaven than a clar'net. 'Tis further off. There's always a rakish, scampish countenance about a fiddle that seems to say the Wicked One had a hand in making o'en; while angels be supposed to play clar'nets in heaven, or 'some 'at like 'em, if ye may believe picters.”

“Robert Penny, you were in the right,” broke in the eldest Dewy. “They should ha' stuck to strings. Your brass-man is brass—well and good; your reed-man is reed—well and good; your percussion-man is percussion—good again. But I don't care who hears me say it, nothing will speak to your heart wi' the sweetness of the man of strings.”

“Strings forever!” said little Jimmy.

“Strings alone would have held their ground against all the new-comers in creation.” (“True, true!” said Bowman.) “But clar'nets was death.” (“Death they was,” said Mr. Penny.) “And harmoniums,” William continued in a louder voice and getting excited by these signs of approval, “harmoniums and barrel-organs” (“Ah!” and groans from Spinks) “be miserable—what shall I call 'em?—miserable—”

“Sinners,” suggested Jimmy, who made large strides like the men, and did not lag behind like the other boys.

“Miserable machines for such a divine thing as music!”

“Right, William, and so they be!” said the choir with earnest unanimity.

By this time they were crossing to a wicket in the direction of the school, which, standing on a slight eminence on the opposite side of a cross lane now rose in unvarying and dark flatness against the sky. The instruments were returned, and all the band entered the inclosure, enjoined by old William to keep upon the grass.

Miss Myrtle Weeks was the guest of her cousin, Miss Vera Carnrite for a few days last week.

The regular meeting of the Missionary Society was held at the home of Mrs. J. Chase on Thursday. Owing to the bad roads only a few were able to be present.

Important Notice!

Department of Finance — Dominion of Canada

Your Income Tax Return Should be Filed at Once!!

All persons residing in Canada, employed in Canada, or carrying on business in Canada, are liable to a tax on income, as follows:

Every unmarried person, or widow, or widower, without dependants as defined by the Act, who during the calendar year, 1919, received or earned $1,000 or more.

All other individuals, who during the calendar year 1919, received or earned $2,000 or more.

Every corporation and joint stock company, whose profits exceeded $2,000 during the fiscal year ended in 1919.

CLASS 1

Forms to be used in filing returns on or before the **31st of March, 1920:**

Trustees, executors, administrators, agents and assignees must use **Form T 3.**

Employers making a return of the names and amounts paid to all directors, officials, agents or other employees must use **Form T 4.**

Corporations and Joint Stock Companies making a return of all dividends and bonuses paid to shareholders and members during 1919, must use **Form T 5.**

NOTE.—Individuals comprising partnership must file returns in their individual capacity on Form T 1 or T 1 A.

PENALTY

Every person who is required to make this return, who fails to do so within the time limit, shall be subject to a penalty of $10.00 for each day during which the default continues—and all such penalties shall be assessed and collected from the person liable to make the return in the same manner in which taxes are assessed and collected.

Time Limit

All persons in Class 1, as shown hereon, must file on or before the **31st of March, 1920.**

All persons in Class 2, as shown hereon, must file on or before the **30th of April, 1920.**

General Instructions

Obtain Forms from the Inspectors or Assistant Inspectors of Taxation, or from Postmasters.

Read carefully all instructions on Form before filling it in.

Prepay postage on letters and documents forwarded by mail to Inspectors of Taxation.

Make your returns promptly, and avoid penalties

CLASS 2

Forms to be used in filing returns on or before the 30th of April, 1920:

All individuals other than farmers and ranchers must use **Form T 1.**

Farmers and ranchers must use **Form T 1 A.**

Corporations and Joint Stock Companies must use **Form T 2.**

PENALTY

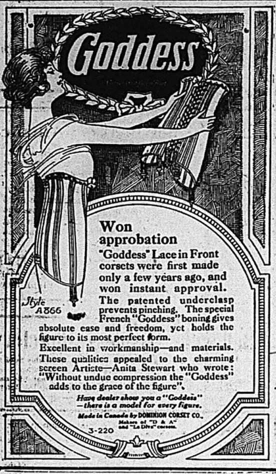
Every person required to make a return, who fails to do so within the time limit, shall be subject to a penalty of twenty-five per centum of the amount of the tax payable.

Any person, whether taxable or otherwise, who fails to make a return or provide information duly required according to the provisions of the Act, shall be liable on summary conviction to a penalty of $100.00 for each day during which the default continues. Also any person making a false statement in any return or in any information required by the Minister, shall be liable, on summary conviction, to a penalty not exceeding $10,000, or to six months' imprisonment or to both fine and imprisonment.

Address of Inspector of Taxation for this District.

BELLEVILLE, ONT.

R. W. BREADNER, *Commissioner of Taxation.*



Won approbation

"Goddess" Lace in Front corsets were first made only a few years ago, and won instant approval. The patented underclasp prevents pinching. The special French "Goddess" boning gives absolute ease and freedom, yet holds the figure to its most perfect form.

Excellent in workmanship—and materials. These qualities appealed to the charming screen Artiste—Anita Stewart who wrote: "Without undue compression the "Goddess" adds to the grace of the figure".

Style A866

Have dealer show you a "Goddess"—there is a model for every figure.

Made in Canada by DOMINION CORSET CO., Makers of "D & A" and "La Diva" corsets.

THE QUESTION IS OFTEN ASKED

"Who is This Dr. Chase?"

The Interesting Life Story of a Practising Physician of Remarkable Skill, Whose Well-Known Medicines and Receipt Book Have Made Him Famous Throughout the Civilized World

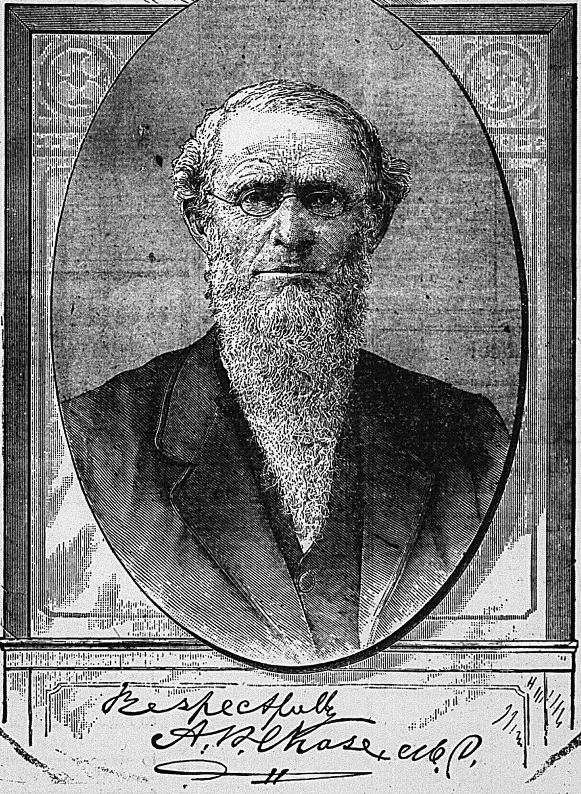
Nature undoubtedly intended Dr. A. W. Chase to be a healer of the sick, for from childhood his efforts were bent in this direction. Any crumb of knowledge regarding the human body and its diseases was eagerly grasped and carefully preserved for future use so that by the time he graduated from the Eclectic College of Medicine, Cincinnati, Ohio, and from the State University at Ann Arbor, Mich., he was qualified as few physicians are when beginning the practice of medicine.

Dr. Alvin Wood Chase was born in the County of Cayuga, N.Y., and spent his boyhood in the vicinity of Buffalo, where he received his early education in a log school house. Even then, it is said, he outstripped his fellow students and entertained the wish to study medicine.

After completing his medical education, Dr. Chase travelled throughout the greatest part of Canada and the United States, gaining wonderful experience and invaluable information before he settled down to make his home at Ann Arbor, Mich.

His success in private practice, his scientific investigations in search of better treatments, his work of collecting all the most successful prescriptions known to the profession, the publication of his now world-famous Receipt Book, the discovery of the great family medicines and the perfecting of them by tests made in his own practice, all these are incidents in a busy life of work for the benefit of humanity.

Dr. Chase became one of the most prosperous and well-to-do citizens of Ann Arbor, and was noted for his large gifts to educational and benevolent enterprises. News of his remarkable success in treating kidney and liver disorders, nervous troubles and other forms of serious diseases soon spread abroad and brought appeals for help from all over Canada and the United States.



Respectfully
A. W. Chase M.D.

"The Greatest Good to the Greatest Number"

"The greatest good to the greatest number" is a motto which the doctor kept before him throughout life, and in spite of strenuous opposition from fellow practitioners who desired, for the sake of greater financial gain, to keep the practice of medicine shrouded in mystery, he introduced his favorite prescriptions to the general public and published his now world-famous Receipt Book in order that all might read and learn the nature and cause of their ailments and apply the most effective treatment.

He began sending medicines to persons at a distance, but soon found it impossible to keep up with the demand on his time, and so resolved to put up his greatest prescriptions in convenient form for home treatment and to place these in the hands of local dealers.

This effort to simplify medical treatment and save the too often unreasonable doctor's bills met with a storm of opposition from members of the medical profession, who feared the effect on their practice and looked with envy on the wonderful success of Dr. Chase.

The many large gifts of Dr. Chase to all worthy objects prove that it was no mere desire for money-making that led him to so place on the market his great discoveries. Like a true physician, as he was, he thought most of relieving the suffering of his fellow-men.

As the details of manufacturing and distributing the remedies increased, it was found advisable to form the Dr. A. W. Chase Medicine Co., of which Edmanson, Bates & Co., Ltd., are proprietors, with offices and laboratories in Toronto, Can., and Buffalo, N.Y.

The success which has crowned the efforts of Dr. Chase to alleviate the sufferings of humanity has been most extraordinary. His name is now spoken with reverence in hundreds and thousands of homes. His Receipt Book remains today the most useful household work that was ever published and has a circulation second only to that of the Bible. His great Family Medicines have won the confidence of the people the world over, and have established a record of cures that is unparalleled in the history of medicine. It would be difficult to imagine a more useful life than that of Dr. Chase.

City AND Country

BACK TO THE OLD HOME

Fred W. Bradshaw, formerly of Roblin, who sold his farm there and went to northern Saskatchewan to live has come back to Deseronto.

SPECIAL MEETING

A special meeting of the Public Works Committee of the City Council will be held this evening to consider a program of the season's work as outlined by the Chairman, Ald. Hanna.

DEATH OF INFANT

Violet May, infant daughter of Mr. and Mrs. J. Brant, Point Ann, passed away on Tuesday and yesterday the body was interred in the cemetery in connection with the Anglican Church on the Mohawk reserve.

HOGS DROPPING IN PRICE

Live hogs are again depreciating in value. Last week $19.25 per hundred weight was paid, whilst this week the price is $18.50. At this price, Mr. R. Empson and son today shipped from here a large number.

COAL SHORTAGE IN PORT HOPE

There is a shortage of coal in town and dealers who have any of the precious stuff are not at all anxious to dispose of it. You practically have to be on the preferred list before your order is accepted—Port Hope Guide.

BIG LIQUOR SHIPMENT

One hundred and sixty-eight cases of whiskies, brandies, gins and wines, seized at Rockport in January by License Officers Taber and Sykes, were shipped by express to the license department, Toronto. Provincial License Officer A. G. Sykes accompanied the consignment.

OFFICIAL VISIT

Abraham Shaw, of Kingston, Supreme Grand Master of the Knights Templar Order in Canada and Henry Williams of Cornwall, the Provincial Prior of Kingston-Ottawa District are paying official visits to King Baldwin Preceptory of this city this evening.

CURLERS LIMITED

The Curlers Company Limited of this city held its annual meeting on Tuesday when the following directors were unanimously selected: Messrs. J. V. Jenkins, B. L. Hyman, M. Sprague, S. Robertson and H. F. Ketcheson. After the shareholders meeting the directors met and appointed Mr. H. F. Ketcheson, President and Mr. Sprague, Secretary-Treasurer.

THE FIRST MILD DAY OF MARCH

It is the first mild day of March:
Each minute sweeter than before
The redbreast sings from the tall larch
That stands beside our door.

There is a blessing in the air,
Which seems a sense of joy to yield
To the bare trees, and mountain bare,
And grass in the green field.
—William Wordsworth.

SHREWD BUSINESS MAN DEAD

James Hart died at Picton on Sunday. The deceased had suffered from heart trouble for some time. Prior to removing to Picton Mr. Hart conducted a mercantile business at Demorestville for many years, succeeding his father, the late James Hart who represented Prince Edward county in the legislature for a term. Mr. Hart was also treasurer of the township of Sophiasburg until he moved to Picton. The deceased was unmarried and seventy-three years of age. He was a shrewd business man.

MRS. JOHN OSTRANDER PASSED AWAY

Martha Loney, wife of the late John Ostrander, passed away at Picton, on March 15th. Mrs. Ostrander had been ill but a few days. In her eighty-fifth year she was remarkably smart notwithstanding her advanced age. About a dozen years ago Mr. and Mrs. Ostrander retired from the farm and took up their residence in Picton. Mr. Ostrander died seven years ago. Mrs. Ostrander was born in North Marysburgh. Her family are Merton and George Ostrander, Picton and Mrs W. J. Bradley, New Hamburgh. Two brothers survive, John Loney, South Bay and Henry Loney, Picton.

MARRIED IN PICTON IN 1845

The Marion (Ohio) Daily Star of March 4th, publishes an interesting sketch of Mr. and Mrs. Ephraim Baker who formerly lived in Picton and have many relatives thereabouts. Mrs. Baker is the only surviving member of the Baille family which comprised of the late Robert and William Baille, Mrs. Robert Hopkins and Mrs. Angus Lighthall, and is therefore an aunt of Dr. H. S. Lighthouse and the Baille and Hopkins families of Picton. Mrs. Baker's father died in Picton in 1887 at a good old age. Mr. and Mrs. Ephraim Baker, are probably the oldest married couple in Marion county, Ohio. Mr. Baker will be ninety-eight years old March 17th, and his wife will be ninety-four years old Dec. 3. On August 8th, this year, they will celebrate their seventy-fifth wedding anniversary.

JIREH BREAKFAST FOOD

ASK YOUR GROCER FOR IT

WILL HAVE A STEAMER

On Monday, when seen by the Kingston Whig, J. M. Campbell stated that in the course of a few days he would be able to announce the purchase of a steamer to run on the Kingston-Bay of Quinte route.

WILL RECEIVE THEIR PAY

On Monday word was received from Toronto that citizens and business firms who had accounts against the Ontario Government for the last election would receive their cheques in the course of a few days.

O. H. SCOTT VICE-PRESIDENT

At the annual meeting of the Ontario Municipal Electrical Association held in Toronto this week, Mr. O. H. Scott, of Belleville, Manager of the local Hydro organization, was elected a vice-president, being nominated by the Engineers' Association.

BROCKVILLE GIRL PROMOTED

Miss Rae McCrimmon, daughter of Mr. and Mrs. Donald McCrimmon, Brockville, has been appointed superintendent of the Vassar Hospital, at Poughkeepsie, N.Y. She is a graduate of the training school connected with the hospital and was previously Assistant Superintendent of the hospital.

INCREASED WAGES WANTED

Belleville municipal employees will present a new schedule of increased salaries to the public works committee which meets this evening to consider what public works will be undertaken this evening.

SCHOOL MASTER WILL FARM

W. G. Anderson, M.A., head of the English department at the Kingston Collegiate Institute is retiring from the service and purposes removing to the Niagara district, to take up fruit farming. He will leave at the close of the term in June. Mr. Anderson has been some time teaching and has been in Kingston for a dozen years or more and is highly regarded as an efficient master. There will be much regret at his removal as he has many warm friends in the city. Mr. Anderson has been associated with Queen Street Methodist church as its recording steward and also a superintendent of the Sunday school.

END OF THE FLOOD.

It seems almost incredible, but it is a fact, that the water in the river, from last evening until noon today, took a drop of more than six feet. This was owing to the fact that last evening the river was clear of ice to the railway bridge. During yesterday afternoon and evening the ice moved several times, being forced under the ice which still covers the mouth of the river and bay. All parts of the city which were flooded are now clear of water and a general cleaning up is in progress.

On both sides of the river bank damage was done to the revetment walls, a number of the large flag stones on top of the wall being shifted from one to three feet. The roadway under the railway bridge leading to Victoria Park has been washed away to such an extent that it will have to be repaired before a vehicle can pass over it. An iron railing on the top of one of the culverts was broken off. This afternoon a considerable quantity of ice came down the river from the vicinity of Foxboro, but no damage resulted.

The concrete retaining wall constructed by City Engineer Mills last summer to protect the new approach to Victoria Park stood the ice hammering well, and is practically uninjured.

Wedding Bells

AYERS—OSBORNE

On Tuesday, the 23rd inst., a very quiet wedding was solemnized at the Rectory, Shannonville, when William Malcolm Ayers, was united in Holy Matrimony to Lillian Osborne, both of this city. The Rev. J. Cantrell officiated. The young couple were unattended.

Social And Personal

Mr. J. J. Patrick, Stirling, who was operated on at St. Vincent de Paul Hospital some days ago, is recovering nicely and will be able to leave the institution for his home in a few days. —Brockville Recorder.

Mr. and Mrs. F. E. O'Flynn, Belleville, who are spending the winter in Los Angeles, Cal., are now the guests of Mr. and Mrs. John Nicolle, La Mesa.—Kingston Whig

Miss Hygenus Manley has returned home after finishing her course of three years' training at the Royal Victoria Hospital, Montreal.

THE TORTURES OF RHEUMATISM

Happily Stopped When He Began To Take "Fruit-a-tives"

3 OTTAWA ST., HULL, P. Q.

"For a year, I suffered with *Rheumatism*, being forced to stay in bed for five months. I tried all kinds of medicine without relief, and thought I would never be able to walk again.

One day while lying in bed, *I read about "Fruit-a-tives"* the great fruit medicine; and it seemed just what I needed, so I decided to try it.

The first box helped me, and I took the tablets regularly until every trace of the Rheumatism left me."

LORENZO LEDUC.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Called by Death

SARAH ANN KIZER

At an early hour this morning, Mrs Sarah Ann Kizer, wife of Mr. Chas. W. Kizer, of 121 Station street, passed away after a three weeks' illness. Deceased was born in this city on the 9th of June, 1885, being a daughter of Mr. and Mrs. John Hutchison and had lived here all her life. Less than five years ago she was united in marriage to Mr. Kizer, who with her parents and six sisters survive. Mrs. Kizer was a member of St. Thomas' Church and a lady much respected by all who knew her. The body was taken to the home of her parents at 11 Harriett street.

W. A. MILNE

Mr. W. A. Milne, a well known resident of Frankford, died suddenly during Tuesday night from an attack of heart failure. He was 45 years of age and had resided in Frankford for a number of years. He was by profession a miller, being engaged at Sills' Grist Mills. In religion deceased was an Anglican. A widow survives.

BIRTH

LANG—In Belleville on Monday, 22nd inst., to Mr. and Mrs. Ernest Lang, 90 Catherine street, a son.

CITY WATER GOOD

Mr. T. F. Wills, Sanitary Inspector, of this city, recently sent to Toronto samples of the city water for analysis. This morning a report received showed the water to be in first class condition. The samples were taken from taps about the city.

N. Y. JUDGE CAPS RHYMES WITH ROBBER

New York, March 25—The alleged "rhyming robber," James Smith, who is said to have quoted poetry to a druggist while he rifled the cash register, was given poetic justice when Magistrate William A. Sweeter, pronounced the following lyric judgment:

"I hold you in five thousand bail,
Which means you go right back to jail;
But before you go, just let me say—
This hold-up game—it doesn't pay."

To this poetic disposition of his case the prisoner promptly responded:

"It's all right, Judge: I'm on my way;
Your verdict means I'm going away."

L'Envoi.

And the Magistrate replied:
"You said it, boy; be on your way."

RITCHIE'S

Easter Millinery

Winsome Little HATS for Children

They are in delightful little Mushroom, Poke and Sailor effects, all trimmed with Ribbons and Flowers. There is a charming little complement for every young face. —2nd floor.

The Art of Millinery is delightfully expressed in our Easter display of spring Millinery. There is a new inspiration in these Hats. It is "cire", which means shiny. In a word, the new Hats are gleaming; and further, they are bright with flowers, fruits, glossy satins and taffetas. A few of the fashions are Napoleonic hats which turn away from the face in becoming style, and all are in the new Cellophane Straws. Many of the recent models are embroidered with brightly-colored Raffia Straw.

A Sale of WINDOW SHADES $1.00

One hundred Window Shades in best oiled opaque quality and mounted on Hartshorn Spring Rollars, in combinations of Green and Cream, White and Green and plain Green—all standard widths; but being all odd shades—some slightly soiled—sale price to clear, $1.00 each.

Another lot at 75c

At this price they are under standard sizes, being 24 to 37 ins. wide, in plain White or Green—all best oiled opaque quality, mounted on Hartshorn rollers. Sale price, 75c. each. —Third floor.

Public Works Program Entails Large Expenditure

LIST OF CONTEMPLATED EXPENDITURES FOR PAVEMENTS, SIDEWALKS AND SEWERS, TOTALLING OVER $360,000, WILL BE PRESENTED TO BELLEVILLE CITY COUNCIL BY PUBLIC WORKS COMMITTEE.

At a special meeting of the Public Works Committee held last evening, presided over by the chairman, Alderman Hanna, a contemplated programme of work to be carried out by the Public Works this year was submitted and adopted. It contemplates an approximate expenditure for pavements, sewers, granolithic walks and improvements of streets of $364,177.10. The report of the City Engineer, J. G. Mill, as adopted, is as follows:

Repairing the following roads at a total cost of: Yeomans Street, from Bridge to Moira Street; Grier Street, from Strachan to College Street; Geddes Street, from Strachan to College Street; Chatham Street, from Victoria Ave. to Bridge Street; Street opening up, grading and making roadway; Lingham Street, from Pine Street to Victoria Ave.; Pine Street to Elliott's factory; Wharf Street, from Front Street to Rolling Mills; Pinnacle Street from Dundas Street to Wharf Street, including raising all sidewalks at Canning Factory; Church Street from Dundas Street to Wharf Street; Bleecker Avenue from Pine Street to Queen Street; Octavia Street; Hillside Street; Cedar Street, and Albert Street from Pine Street to Bridge Street.	$17,000
Relaying approximately 500 lineal feet of the north end of Chatham Street sewer near Pine Street	1,500
Planking up a bridge floor	1,600
Cleaning Front and Bridge Streets	2,200
Cleaning Streets	1,500
Moira Street drain, extending to river and ditching at Commons	2,800
Lowering sidewalks on Murney Hill	2,500
Drainage	1,800
Oiling Streets (City's share)	500
Snow shovelling and cutting ice, etc.	800
Plant and machinery and repairs to same	1,600
Great St. James Street dainage and replacing steps	800
Repairing sidewalks	1,200
General repairs	2,000
General Expenses, city car, etc.	1,000
	$38,800

In the above item for repairing streets, I have mentioned those that are urgently in need of repairs, but there are several others in various parts of the city that will in all probability require some repairs before the end of the year.—City Engineer.

COMMITTEE'S RECOMMENDATION.

Recommended that the above estimate of the City Engineer be received and adopted and that the work and repairs as stated be undertaken by the Public Works Department.

PAVEMENTS UNDER CONSTRUCTION.

Pinnacle Street from Victoria Avenue to Dundas Street; Campbell Street, from Front Street to Pinnacle Street; Coleman Street from Bridge Street to Moira St.; William Street from Dundas to Bridge Street; Ann Street from Dundas to Bridge Street; George Street from Dundas Street to Forin Street.

City's Annual Payment	2,138

BY-LAW ADVERTISED UNDER SECTION 9.

PAVEMENTS CONTEMPLATED.	Total.	City's Share
Ann Street from Bridge Street to Forin Street	$24,200	$ 7,700
Charles Street from Bridge Street to Pine Street	32,900	11,700
William Street from Bridge Street to Forin Street	22,000	7,000
John Street from Bridge Street to Victoria Avenue	13,600	4,100
	$92,700	$30,500

6 per cent. of city's proportion	$1,830.00
3 per cent. of city's proportion	1,134.99
Total annual payment for city	$2,964.99

PAVEMENTS CONTEMPLATED BUT NOT ADVERTISED FOR.

East Bridge St. from Pinnacle St. to McDonald Ave.	$83,200.00	$41,600.00
Catherine Street from Coleman St. to Isabel St.	8,618.00	3,942.20
	$91,818.00	$45,542.20

6 per cent. of city's share	$2,698.20
3 per cent. of city's share	1,673.60
City's annual payment on above sts.	$4,371.80

West Bridge Street from James Street to Octavia St.	$7,995.00	$1,925.00

6 per cent. of city's share	$115.50
3 per cent. of city's share	167.92
City's annual payment	283.42
City's total annual payment	4,371.80
	$4,655.22

RECOMMENDATION.

Recommended that the matter of paving William Street from Bridge to Pine, and John Street from Bridge to Victoria Avenue, be laid over for the present and that pavements be constructed on Ann Street from Bridge to Forin, also on Charles Street from Bridge to Pine., as advertised by the Council of 1919, and that the intention of the Council to construct pavements on East Bridge street from Pinnacle Street to McDonald Avenue, also on Catherine Street from Coleman to Isabel, be advertised under Section 9 of the Local Improvement Act.

SIDEWALKS CONTEMPLATED.

	Total.	City's Share
Grier Street from Strachan St. to Ridley St.	$ 723.20	$ 493.90

	$63,602.60	$11,853.88

(Continued on Page 7)

Constitute Mightiest Danger To Humanity Since Deluge Spread

SCOURGES OF WHITE PLAGUE AND TYPHUS PRESSING AGAINST WESTERN EUROPE'S BORDERS—SHIP CARRYING NINE GENERALS, 24 COLONELS AND 700 TROOPS FROM RUSSIA ROVING THE MERITERRANEAN, REJECTED AT EVERY PORT.

By Henry P. Davison
(Head of The American Red Cross)

PARIS, March 26—No matter how many treaties are signed or not signed, world peace will remain unestablished until Central Europe and the Near East are thoroughly cleansed and disinfected.

Ninety-nine per cent. of the peoples of the world do not care one fot about the signature or ratification of treaties, but care immensely for their safety from the scourges now sweeping Eastern Europe and Asia, and which constitute the mightiest danger to all humanity since the deluge.

America is just as unsafe as Europe from typhus and the white plague now spreading over the world with lightning rapidity.

Two million three hundred thousand infected Russian refugees are now pressing against Western Europe's borders in their mad rush westward, in the hope of escaping death under the most horrible conditions.

A ship carrying two full-fledged generals, seven brigadier-generals, 24 colonels and 700 troops from Russia, is even now roving the Mediterranean rejected at every port like a hopeless pilgrim unable to land her infected cargo. The ultimate fate of this modern phantom ship cannot be foretold.

Conditions as bad as in Russia prevail in Hungary, Serbia, Austria, Montenegro, Turkey and Syria and throughout the Near East. Poland is especially severely stricken.

More people are daily dying now than during the war.

Whole populations are being wiped out. The germs pass from one country to another, owing to the lack of sanitary devices. The British, Italian and American Red Cross organizations are doing their very best, but it is impossible to combat this immense danger by private means. It is a matter to be handled by the Governments. They handled the war, and this is worse than war.

Unless relief is provided the world will see a tragedy greater than that of the last five years. Montenegro, for instance, with its population of 430,000 has only four doctors, no hospital supplies, and no medicines. The same appeals to the whole of Eastern Europe.

"The International Red Cross League finds itself unable to relieve the situation unless the Governments decide to contribute. Food must be sent immediately, as well as hospital supplies, soap and clothing.

The International Red Cross League has officially laid the situation of Europe before the League of Nations and is willing to become the League's agent, provide volunteers and aid to every country, and supervise the distribution—in short, to do everything in its power to prevent the world becoming a victim of the greatest cataclysm in history. If nothing is done, if Governmental aid is not forthcoming without delay, then the world will continue to revolve around its axle, quickly advancing towards utter perdition.

Thomas W. Lawson The Noted Broker Put Under Arrest

BOSTON, March 26.—The crusade of Attorney-General Allen against promoters and brokers who have been exploiting silver stocks led to the arrest of Thomas W. Lawson. He surrendered himself at police headquarters to answer to a warrant charging him with violating on four counts a State law regarding stock issues. Four other operators and brokers were arrested including L. C. Van Riper of New York, former secretary to Lawson.

PROMOTED SILVER STOCKS

Lawson and Van Riper in recent months have been active in the promotion of silver stocks which in the Lawson advertising were featured as "Silvers, the greatest gamble of the age." Each announced he was developing certain individual silver mine properties as units of general holding companies. In the campaigns the prices of individual stocks advanced from a few cents to $8 and $9 with subsequent reversals and fluctations. After news of the arrests yesterday these prices tumbled further. Nearly all the silver stocks which are named in the charges against Lawson, Van Riper and the other men are now selling for many cents a share.

It was the fact that securities were offered so cheaply, the Attorney-General said in a statement yesterday that attracted to them a class of persons without investigating experience who sacrificed Government bonds and savings accounts to obtain funds for stock purposes in hopes of early riches.

GAVE OCCUPATION AS FARMER

Lawson whose stock operations have attracted much attention in Canada as well as in the United States in the past quarter century, called at police headquarters this morning to submit to arrest, gave his occupation as farmer and author and walked through a noisy crowd to the courthouse where he was arraigned and held for a hearing on April 5th. He furnished bonds of $2,500.

◆

MINISTER MEETS PACKERS.

Ottawa, Ont., March 26.—"Condemnations" were under consideration at a conference between Dr. Tolmie, Minister of Agriculture, and a delegation of Ontario meat packers. The delegation represented that diseased animals in the market were a serious loss to packers, and urged that better methods of dealing with "condemnations" should be adopted. Full consideration of the representations made was promised by Dr. Tolmie.

G.W.V.A. Fixes Sliding Scale For Bonuses

MONTREAL, March 25—After two days of discussion which at times became somewhat embittered, the Great War Veterans Association of Canada ment is asked to deal with the matter agreed tonight and adopted a definite bonus plan which fixes a maximum of $2,500 and a minimum of $1,000 subject to no deduction, and payable to 100 per cent of the Canadian forces. This cash re-establishment bonus is based upon an additional $1 per diem, total period of their enlistment to men who have seen service on a belligerent front. It is also asked that dependents of foreign soldiers or their beneficiaries should receive equitable compensation in the form of a lump sum cash bonus to be not less than the amount the soldier would have received had he returned at the date of the armistice. Finally the Government s asked to deal with the matter at the present session of Parliament, in view of the many and serious differences confronting the returned soldiers in their endeavors to become re-established.

The cost of the proposed bonus would be approximately $215,000,000. Dominion Secretary-Treasurer MacNeill warned the delegates that the present Canadian Government had already definitely declared itself as being against an indiscriminate cash bonus and its opposition must be overcome before the passage of a measure embodying the bonus could be effected.

Having conceived a solution, he adds t only remains to convince the public of Canada.

Brisk Rally In Foreign Exchange

Special Despatch to The Intelligencer Canadian Press Limited

NEW YORK, March 26.—A brisk rally in Foreign Exchange before noon today sent demand bills up to $3.90½, a new high in the present movement. Canadian dollars were quoted at a discount of eight and one quarter.

GOLD SHIPMENT

London, March 26.—It is reported in the bullion market that four million pounds in gold will be shipped to America at the end of the week, comprising two million and a half from the Bank of England's stock and the remainder from other sources.

Anti-Bolsheviks Hold Sea Coast

Special Despatch to The Intelligencer Canadian Press Limited

CONSTANTINOPLE, March 26—An anti-Bolsheviki army is operating in the vicinity of Novorossisk and moving southward in the Black Sea provinces toward Batumias, moved its capital at Sochi-Lakhovsk on the Black Sea about midway between Novorossisk and Batum where a general committee is directing a so-called government.

General Keith of the British forces is reported to have visited Sochi recently where he discussed the situation with M. Filipposki, chairman of the committee for liberation or Black Sea provinces: Dispatches from Novorossiski indicate that the war-worn refugees in this region, confused by the multiplicity of factions and somewhat reassured by Bolshevik promises to abandon terrorism, are becoming reconciled to remaining in Russia, even if Bolsheviki should occupy Novorrossisk. The allies, however, are removing those who it is considered would unquestionably be in danger of Bolsheviki reprisals, transporting them to Theodosia in the Crimea. The Red Cross is removing its supply depot to Constantinople.

Dublin Magistrate Was Murdered

Special Despatch to The Intelligencer Canadian Press Limited

LONDON, March 26.—Allan Bell, resident magistrate, who presided over the inquiry into dealings of the Sinn Feinn with Irish banks was shot dead this morning outside the Masonic Club in Dublin, according to a despatch from that city.

G.W.V.A. Recommends Alien Deportation

Special Despatch to The Intelligencer Canadian Press Limited

MONTREAL, March 26.—Deportation of people of German, Austrian, Turkish and Bulgarian origin whom it is impossible to assimilate as Canadian citizens is demanded in a clause contained in the resolution relating to immigration, deportation and naturalization, passed by the Great War Veterans' Association on the resumption of its annual convention here this morning. The resolution which will be submitted to the Dominion Government suggests that all disfranchised aliens be given one year to dispose of their property, and also contends that all unnaturalized citizens should be examined before a properly constituted court which will determine whether or not they are desirable citizens, so that undesirables can be deported.

Last Minute Telegraph Briefs

Gold Held at Ottawa

New York, March 26—The Sun and New York Herald which last week printed a report that a large amount of British gold was being shipped to New York via Halifax today declares that the gold has been temporarily stored in Ottawa and is to be shipped here from the Dominion in the near future.

German Cabinet Quits

Paris, March 26—The German cabinet headed by Premier Bauer has resigned, according to a message received here from Berlin today.

Turks Also

Constantinople, March 26—The Turkish cabinet headed by Said Pasha, formed on March 9, has resigned and the Sultan has asked Damad Ferid Pasha, former Grand Vizier and Foreign Minister, to form a new government.

NEW FRANCHISE BILL

Ottawa, March 26.—Hon. Arthur Meighen, Minister of the Interior will make a statement in the House this afternoon on the disqualifying clauses of the Franchise Bill, now being discussed on second reading. Criticism of clauses, particularly in their relationship to naturalized aliens was based largely on misinterpretation of intent of sections, it is asserted in official circles.

Threaten To Destroy Factories In Western Germany

GERMAN COMMUNISTS, ARMED AND ENTRENCHED, SEEK TO CAPTURE WESEL — GERMAN REDS GAIN STRENGTH AND SEEK TO CAPTURE SEVERAL VILLAGES.

Special Despatch to The Intelligencer, Canadian Press, Limited.

LONDON, March 26.—Workers' forces entrenched along the Lippe River, south and southeast of the city of Wesel, threaten if they fail to capture Wesel to destroy all the factories and mines in western Germany, says a despatch to the Exchange Telegraph Company from Berlin this morning. The Reds are not issuing an official statement, and last night claimed to have captured several villages and to have taken more than two hundred prisoners during the day.

King George's Hired Help Want Eight-Hour Day

EMPLOYEES ON ROYAL ESTATES IN SCOTLAND DEMAND 8-HOUR DAY AND WAGE INCREASE TO THREE POUNDS WEEKLY—WORK TEN HOURS OR QUIT, SAYS KING'S COMMISSIONER.

Special Despatch to The Intelligencer, Canadian Press, Limited.

LONDON, March 26.—Employees on the King's estates in Scotland, including Balmoral Castle, are demanding an eight-hour day and a wage increase to three pounds weekly. The King's commissioner on the Balmoral estates has given the men the option of working ten hours a day or quitting their jobs. As far as is known he has said nothing about wages.

Strong Resistance To German Communists

Special Despatch to The Intelligencer Canadian Press Limited

AMSTERDAM, March 26—Government forces at Wesel have been reinforced, according to reports from the Dutch frontier. Coal trains to Holland from the Ruhr district were operating normally today although the crews were sometimes threatened by Sparticans. In the event of trouble with Soviet adherents the Dutch Government will combat movement with local detachments. The administration will not call on conscripts.

According to the Telegraaf's frontier correspondent Government forces at Wesel are strongly entrenched and are being constantly reinforced by armed farmers and bourgeoise from towns nearby.

Red army trenches are occupied by about six thousand men.

Casualties in the ranks of Communists up to last night numbered about sixty dead and one hundred wounded.

Communist soldiers receive thirty marks per day with rations.

Southeast of Wesel are Belgian forces which have been withdrawn to the left bank of the Rhine. French troops equipped with artillery are also arriving.

◆

GUELPH HOUSING COMMISSION HAS A NEW SECRETARY

Guelph, March 26.—At a meeting of the local Housing Commission this morning Mayor Westoby tendered his resignation as Secretary, stating it was impossible for him to devote the necessary time to the position. G. M. Yates was appointed to the office, and he entered on his new duties today. The commission received a large number of applications for houses, and five were approved of. It was decided to call for tenders for the erection of forty six-roomed houses, the work to be completed this summer.

Canada Maintains Navy's Pre-War Status Temporarily

NIOBE AND RAINBOW DISCARDED AND ONE CRUISER AND TORPEDOBOAT DESTROYERS, GIFT OF BRITAIN, SUBSTITUTED—DEMOBILIZATION ORDERED TO ALLOW OF THOROUGH REORGANIZATION.

OTTAWA, March 26.—The Hon. C. C. Ballantyne, on the orders of the day in the House yesterday afternoon made his promised statement with regard to Canadian naval affairs. He said:

"The Government has had under consideration for some time the question of the naval defence of Canada and the suggestions of Admiral Viscount Jellicoe in reference thereto.

In view of Canada's heavy financial commitments and of the fact that Great Britain has not as yet decided on her permanent naval policy and on the approaching Imperial Conference at which the question of the naval defence of the Empire will come up for discussion between the Home Government and the overseas Dominions, it has been decided to defer in the mean time action in regard to the adoption of a permanent naval policy for Canada.

Cruiser and Two Torpedo Boats.

The Government has decided to carry on the Canadian naval service along pre-war lines and has accepted the offer of Great Britain of one light cruiser and two torpedo boat destroyers to take the place of the present obsolete and useless training ships, the "Niobe" and the "Rainbow."

The Minister of Naval Service, in order to be free to thoroughly reorganize and place the present service on an economical and efficient basis, has issued orders for the demobilization of all officers and naval ratings and for the discontinuance of civilian help at headquarters and at the naval dockyards in Esquimault.

Mr. Ballantyne, concluded by announcing the retirement from the service of Admiral Kingsmill, director of the naval service, to whom he paid a warm tribute.

The Canadian officers who are in the Imperial fleet and who are now being paid by the Canadian Government will be recalled and placed on duty with the Canadian Naval Service. The Naval College will also be continued.

After re-organization has been completed, only those officers and other ratings and civilians will be taken on who are absolutely necessary and possess the qualifications desired.

Mr. Ballantyne, in announcing the retirement of Admiral Kingsmill, said he had been director of the Canadian naval service since its creation in 1910. He has performed good work in the organization of a new force. During the war heavy duties were placed upon his shoulders, which he discharged with energy and ability, and, as Minister of Naval Service, I extend to him the thanks of the Government and my own appreciation of the excellent work he has performed for the Canadian Navy.

"It will not be necessary to appoint an officer of such high rank to take charge of the smaller temporary force now proposed and a mere junior officer will succeed to his position."

New Bills At Local Movies

Beethoven's last sonata is visualized in "Heart Strings" the William Fox photodrama in which William Farnum was welcomed last night at Griffin's Opera House. This great scene in the play is enacted in a dingy studio in the famous Greenwich village, New York city's artistic centre; where Pierre Fournel (William Farnum) has brought his young sister to save her from the persecution of a good-for-nothing husband who has wrecked her life and used her as a shield for criminal acts. The play opens in a Canadian village where Pierre is wasting his marvelous talent as a violinist and composer of music. So strong is the appeal of the story that one can feel and almost hear the wonderous melody of the prayer when Pierre, who cannot use lip application, entreats divine pity to spare the life of his loved sister through the medium of music.

It is a powerful drama, which indeed plays upon the heart strings of the audience. It is forceful, compelling beautiful. The story is by Henry Albert Phillips. Gladys Coburn is Mr. Farnum's leading lady in this picture. "Switch and Sweeties," a funny two-reel Big V comedy, Pathe News Graphic, Topics of the Day with its amusing and punchy paragraphs and "Silver Trail," a beautiful Travelogue are also being presented on the same bill and proved most entertaining.

EMMY WEHLEN IN CLEVER METRO PLAY

As is usually the case when Emmy Wehlen, the charming Metro star, appears at the Palace theatre there is a large, appreciative audience to welcome this popular actress in her latest production, "Sylvia on a Spree," which opened yesterday and which will remain at the Palace till Saturday night. Delightful and dainty as her acting always is, Miss Wehlen has excelled in this her latest production, which brings into play her winsome charm and personal magnetism which has endeared her to so many photoplay lovers. The story is that of a young girl brought up in luxury and sheltered ease, watched over and protected on all sides, but who discovers when she at last makes her debut into society, that she has missed much of the fun and excitement which other girls possessing less wealth are accustomed to. She decides to remedy this and includes in her many plans the bright life of Broadway, the crowded restaurants, cabarets, after-theatre suppers and all the other gaieties which she considers goes to make up the sum and substance of the word "Life." The plot is original and the happy outcome of this somewhat risky scheme is cleverly carried out in the play. "Ten Nights in a Tea Room," a funny Lyons Moran comedy, British Canadian News and other interesting plays were also exhibited during the evening.

Salary Increases For City Officials

The Executive Committee Recommend Some Increases

The Executive Committee held evening made the following recommendations re increase of salaries to city officials:

J. A. Kerr, city assessor, from $1,060 to $1,400.

Jesse Harris, janitor, from $1000 to $1,150.

S. Masson, city solicitor, from $500 to $600.

Mr. B. Spafford, chief engineer pump house, from $1020 to $1080.

J. Alexander, engineer pump house, from $1020 to $1080.

J. Davidson, engineer pump house, from $960 to $1080.

The latter three increases date from January 1st of this year.

◆

ACTRESS MAY BE DELEGATE TO REPUBLICAN CONVENTION

Cambridge, Mass., March 25—The name of Alexandra Carlisle (Mrs. Albert Pfeiffer), well known as an actress in this country and England, has been placed on the Presidential primary ballot in the Eighth Congressional District. Miss Carlisle is the only Republican woman in Massachusetts making a contest for a delegateship.

Must Re-Establish All Returned Men Misery Must Stop

MONTREAL, March 26.—C. G. McNeil, Dominion secretary of the G.W.V.A. was given the privilege by the convention to speak on the question of re-establishment. Before getting to the point of his remarks, he assured the delegates that he did not wish to influence the delegates in favor of any scheme. He did not, either make any apology for the G.W.V.A. scheme which was brought up before the House of Commons last October but he urged the convention to do what it thought right, regardless of the consequences afterwards.

"This convention was called for a purpose. This association exists for a purpose, not the purpose for the association," he said. "I have been forced by reason of my experience to look at the question from a very practical standpoint. We, at Ottawa, are there to serve your interests and to advance your mandates in the best possible way. The question of tactics is bound up with that of policy."

MUST CONVINCE GOVERNMENT

He went on to say that many times the Government at Ottawa had definitely stated they would not entertain the idea of indiscriminate bonus. They had to be convinced that the scheme which the G.W.V.A. asked for was a good business proposition for the country. Resolutions made by the convention had to be backed up with definite instructions for the staff in Ottawa as to how the plan would benefit Canada.

"We are agreed on the principles of the need for re-establishment; the rest is only a mattr of technicalities," said Com. Moore, of Manitoba. He advocated that a vote be taken at once Many supported this but the chairman ruled that discussion go on.

Dr. A. McKenzie Forbes, Montreal: "You have asked for Quebec's attitude We feel with you that returned soldiers are not re-established."

"Question, question," from the audience.

Wilkes, Toronto: "We have heard all that before."

Cries of, "Sit down."

Chairman: "Go ahead, Comrade Forbes."

Forbes: "We read in the newspapers all over Canada what the Government has done. The Government must stand for the scheme put up in the first place."

"CONDOLENCE FUND"

Chairman: "Comrades. You must bear with me. This is the most important subject we have. Every opportunity must be extended for discussion."

A. LeFerriere: "I represent 6,000 members in Quebec. I happen to be one of the administrators of the $40,000,000 condolence which the Government has given. (Laughter) It has been my duty to receive comrades in misery. I ask the convention to stop this misery by adopting the motion of this morning."

◆

NEW PAY LIST FOR MILITIA

The new pay list for the permanent militia force which has been received in military circles contains the following rates per annum:

Second lieutenant, $1,500; after 1 year, $1,600; 2 years, $1,700; 3 years, $1,800. Lieutenant, $2,000; after 3 years $2,200; 5 years, $2,400. Captain $2,500; after 3 years, $2,700; 5 years $2,800. Major, $3,000; after 3 years, $3,200; 5 years, $3,300. Lieutenant-Colonel, $3,600; after 3 years, $3,800; 5 years $3,900. Colonel, $4,200; after 3 years, $4,400; after 5 years, $4,600.

The pay of an unappointed private is $1.70 per day. After 3 years in the ranks, $1.85 and after 6 years, $2 per day. For married officers up to captain $300 a year is allowed for separation allowance, Captains included and above receive $400 per annum. Privates receive $200 per year separation allowance.

These rates of pay include board and food allowance and 5 per cent. is deducted for pension.

The listing of second lieutenants is a new departure in Canadian military organization, which up to the present has been minus this rank, though it forms part of Old Country personnel.

Sentence Capt. Booth to Six Months In Jail

TORONTO, March 26.—Captain Daniel T. Booth, who pleaded guilty to defrauding the Government of $2,500 was sentenced to six months in jail by Judge Coatsworth, for conspiracy. Sentence was reserved in the charge of fraud.

Character evidence on behalf of Booth was given by Rev. Baynes Reid, Capt. Rev. Bridges and Rev. F. E. Powell, of St. Barnabas' Church.

Booth was formerly Regimental-Sergeant Major in the Paymaster's Department at the Quebec Regimental Depot, Seaford, England, and was acting as paymaster at the S.C.R. unit branch, Keen Building, Spadina avenue with the rank of captain.

Booth in the box, examined by Mr. Greer, stated he was born in England came to Canada, enlisted in 1914, went to France with the 3rd Battalion in July, 1915, as a corporal and served for three months. He returned to Canada in September, 1917, and was married, now having two children. He became paymaster of the S.C.R. in July, 1918. He first met Capt. Parr in about the same month as he joined the unit.

Recounting the story of the affair, he said he first had a conversation with a man named Wilson and Dr. Parr. It was suggested that the files would be got from the Central Registry and the names of certain men who were not likely to come on the strength for pay and allowances of the service for some time. Wilson would pass the files, Parr would authorize the slips and pass them back to witness and he would issue the checks.

"I would then split the money three ways," said Booth. "In some cases, more often by Parr, the slips were handed to me by Wilson." He cashed the checks.

Stomach Troubles Are Due To Acidity

Tells Safe, Certain, Speedy Relief For Acid Indigestion

So-called stomach troubles, such as indigestion, gas, sourness, stomach-ache and inability to retain food are in probably nine cases out of ten, simply evidence that excessive secretion of acid is taking place in the stomach, causing the formation of gas and acid indigestion.

Gas distends the stomach and causes that full, oppressive, burning feeling sometimes known as heartburn, while the acid irritates and inflames the delicate lining of the stomach. The trouble lies entirely in the excess development or secretion of acid.

To stop or prevent this souring of the food contents of the stomach and to neutralize the acid, and make it bland and harmless, a teaspoonful of bisurated magnesia, a good and effective corrector of acid stomach, should be taken in a quarter of a glass of hot or cold water after eating or whenever gas, sourness or acidity is felt. This sweetens the stomach and neutralizes the acidity in a few moments and is a perfectly harmless and inexpensive remedy to use.

An antiacid such as bisurated magnesia which can be obtained from any druggist in either powder or tablet form enables the stomach to do its work properly without the aid of artificial digestents. Magnesia comes in several forms, so be certain to ask for and take only Bisurated Magnesia which is especially prepared for the above purpose.

◆

London Italian Robbed Of $1,200 At Noon-Hour

Victim Seizes Armed Bandit, But Spectators Separated Pair, and Bad Man Escaped

LONDON, Ont., March 26.—James Crisofulli, 267 Wellington street west, was held-up in his store at noon yesterday and relieved of $1,200 in bills by two unknown Italians, who said they came from Detroit.

Under pretense of buying some oranges, the men entered the store, then asked for a drink of water and were taken into a room at the rear of the store.

One man drew a gun, and the other went through Crisofulli's pockets. The two robbers fled in different directions the armed man with the money being pursued by Crisofulli to the Grand Trunk Station, where spectators thought the men were merely quarreling and separated the pair.

The robber escaped by boarding a moving train Stratford-bound. Later, the train was reached but the hold-up man had left the train in the meantime.

Crisofulli's inability to speak English delayed the police in understanding what was the trouble.

A FINE PAIR TO DRAW TO.

Boastful talk from the camps of the once great Liberal party in Canada can not make that party any greater than its chosen leaders. Mackenzie King, during the war, was lost to sight in the mazes of the Rockefeller Foundation, inconspicuous behind the derricks and gold bins of the Standard Oil Company in the United States. Hartley Dewart was conspicuous during the war chiefly on account of his loud-lunged opposition to the Military Service Act, and during the last election even his own followers apologized for his leadership and darkly hinted that if the Liberal party was returned to power Dewart would be scrapped. A stream cannot rise higher than its source, and the Liberal party will never get anywhere with leaders who lack the confidence of loyal Canadians to whom the defeat of Germany meant more than the winning of elections.

UNCLE SAM DISGRACED.

The United States Government is still fiddling with the Peace Treaty, which has been transformed into an inglorious political bomb filled with noxious gases designed by jealous minds of peanut politicians with the object of destroying the reputation and political fortunes of President Wilson.

Political revenge and the hatred of hyphenates have transformed the Peace Treaty, as far as the United States is concerned, into a crazy-quilt of chicanery until even the Mother of Nations would fail to recognize it.

The League of Nations tail to the Peace Treaty kite has been so twisted by blind political rage, born in iniquity and conceived in ignorance, that its treatment by the Government of the United States will forever be a stain, a blot and a disgrace in the history of an enlighted nation.

The Peace Treaty, unratified, goes back to President Wilson as a tarnished example of how warping an effect ward politics can have upon professional politicians who have been pitchforked into public life by the indifference and apathy of the sensible and intellectual voters of the great Republic.

CHEAP INDUSTRIAL ALCOHOL.

The Parliamentary Committee on Scientific Research, having been reappointed this session with some additions on motion of Sir George E. Foster, might consider the removal of the restrictions which hinder the production and sale of denatured alcohol in Canada. Cheap alcohol is a necessity for a large number of industries, especially chemical industries, and it is also used in other countries as a motor fuel to replace gasoline and for illumination purposes. The consumptilon in Canada in 1917 was only 252,000 gallons owing to the restrictions imposed by law on denaturing, which can be done only at Ottawa, whereas if denaturing were done at the distilleries under regulations similar to those in the United States the consumption might have been twenty times as much.

The removal of the present denaturing and other restrictions, which increase the cost greatly, has been urged by the Canadian Manufacturers' Association, the Canadian Society of Chemical Industry, and other organizations, on the ground that many important industries are dependent upon cheap alcohol, and they point out that industrial or denatured alcohol in the United States freed from the restrictions which surround it here gives an enormous advantage to American manufacturers in competition with our own.—Toronto Globe.

In the final report of the Nitrogen Products Committee proposals are made for the development of the production of synthetic nitrogen under British Government patronage as a "key" industry. It is set forth that this can be done at an estimated factory cost of less than half the market price of combined nitrogen obtained from other sources. They urge the immediate establishment in Great Britain of works capable of manufacturing 60,000 tons of cyanamide annually.

People who run around offering higher rent than is being paid for houses by the present occupants, have small chance of ousting the tenants but a swell chance of causing the present tenant to pay more rent. Hell is so full of selfish people that the large increase in the tribe since the war may result in overcrowding in the hereafter, with choice locations in Satan's Sahara auctioned off to the highest bidder. In the same class are people who offer higher wages to domestic employees to coax them away from homes in which they are perfectly happy and contented and very much appreciated.

The fine display of Aurora Polaris, or Borealis, popularly called the Northern Lights, which attracted little public attention in Montreal and other Canadian points on Monday night, made a decided sensation in New York, where people got on their housetops better to view the spectacle in the heavens. The Northern Lights are common in Canada, so excite no particular interest. Auroral bands wave, wax and wane in the cool northern skies and give quite a friendly feeling to the Canadian. They are his home lights. The farther north the more magnificent are they. Even in northern Quebec the Merry Dancers of the polar regions are frequently seen and the inhabitants in the distant settlements will insist that they can hear the glorious heavenly curtains of white, green and red crackling in the frosty night. These humble spectators do not puzzle themselves as to the cause. They are satisfied that their Northern Lights are beautiful.—Montreal Gazette.

The Poet's Corner

UNCLE HENRY ON THE PASSING OF THE HORSE.

(The Horseman)

Every little while they tell us that the horse has got to go,
First the trolley was invented 'cause the horses went so slow,
And they told us that we better not keep raisin' colts no more.
When the street cars got to toting what the horses pulled before,
I thought it was all over for old Fan and Doll and Kit,
S'posed the horse was up and done for; but he ain't went yit.

When the bike craze first got started, people told us right away,
As you probably remember, that the horse had saw his day.
People put away their buggies and went kitin' round on wheels
There was lots and lots of horses didn't even earn their meals;
I used to stand and watch 'em with their bloomers as they'd flit,
And I thought the horse was goin'; but he ain't went yit.

Then they got the horseless carriage and they said the horse was done,
And the story's been repeated twenty times by Edison.
Every time he gets another of his batteries to go
He comes whoopin' out to tell us that the horse don't stand a show,
And you'd think to see these chauffeurs, as they go a chauffin' it,
'Twas goodbye to Mr. Dobbin; but he ain't went yit.

When the people git to flying in the air I s'pose they'll say
As we have long been sayin' that the horse has had his day.
And I s'pose that some old feller just about like me will stand
Where it's safe and watch the horses hauling stuff across the land;
And he'll maybe think as I do while the crows above him flit,
Oh—they say the horse is done for; but he ain't went yit.

STUDENTS HAVE GAY TIME SOUSING PROFESSORS

Hays, Kas., March 25—The Fort Hays Normal School is in the grip of what professors describe a "student Soviet" whose principal occupation is throwing professors into the lake on the college campus, according to Prof. Casper Harvey. He telegraphed State authorities at Topeka for protection, and R. J. Hopkins, Attorney-General, has directed the County Attorney to prosecute all persons responsible for the disorders.

On Monday, during the absence from town of President W. A. Lewis, an announcement was posted that all persons, including the faculty, would be ducked if they failed to report for duty at 1 p.m., Tuesday, March 23, to aid in building a running track. John Linquist, editor of the college newspaper was the first victim. He was taken from the college library, and although he cannot swin,he was thrown in water over his head.

Another person to suffer was Prof. James Start, a bridegroom, who was captured on the way to his classes next morning. He was rescued from the lake by three students. Prof. Harvey, a third victim, dived into the water before the students could act. Both Start and Linquist are veterans of the war.

SPORTING EVENTS

PETES PLAY AT BELLEVILLE ON MAY 24TH

The opening games of the Central Ontario Amateur Baseball League on May 24 will be as follows: Peterboro at Belleville, Port Hope at Oshawa, and Lindsay at Cobourg. The Dominion Day games will be: Belleville at Peterboro, Oshawa at Port Hope and Cobourg at Lindsay. These decisions were reached at the session of the Central Ontario League at Peterboro. It was comparatively easy to decide as to where the opening games should be played as three teams desired the opening games in their home town and the other three teams the Dominion Day game. Jake Solomon, on behalf of the Peterboro club made a request for a home game for July 12th, on which day there will be a big celebration in this city. He was promised that his request would be considered in drawing up the schedule. For the remainder of the season it was decided to let the secretary prepare a schedule and present copy to each club for their approval.

Sandy Lockington Re-elected

Although he requested to be allowed to remain out of the field this year, by a unanimous vote of the delegates Sandy Lockington, the successful president of the first year of the league was re-elected to the office. The determined manner in which the delegates showed their will in the matter left no room for him to decline the honor. The other officers elected were as follows:

1st Vice-President—A. Kimmell, Cobourg (re-elected.)

2nd Vice-President—E. Parsons, Oshawa.

Secretary-Treasurer — John Nott, Oshawa.

Councillors—Oshawa, Dr. Finnigan; Port Hope, A. Mark; Lindsay, F. W. Moynes; Peterboro, Jake Solomon; Cobourg, Mr. Mulholland; Belleville, Col. E. D. O'Flynn.

The only balloting necessary was in the case of the secretary, Messrs Dedman, Lindsay, and Nott, Oshawa, were for this office, and the result of the ballot showed Mr. Nott elected.

On the motion of J. Anderson, Lindsay, it was decided to follow out the practice of last year in electing the mayor of each town in the league as honorary president.

The Residence Rule

A suggestion was made by Jake Solomon to the effect that the rules of the league should be altered to comply with the O.B.A.A. rules with regard to residence. The new O.B.A.A. residence rule states that a player must be a resident of the town on which team he is playing from January 1st. This rule takes effect this year. Mr. Solomons' stand was that if the league was to be affiliated with the association it was necessary to comply with this rule. A result of not doing so would be that some team might win the championship of the Central Ontario League and yet when the players who could not qualify as to residence were eliminated the team would not be in a position to represent the league for the Ontario championship and the News Trophy. There was considerable discussion by the delegates on this point, but it was finally decided on the motion of A. Kimmell, Cobourg, to leave the residence rule as it stood for the season. The date at present fixed for residence is May 15.

Finances All Right

The financial statement, presented by the retiring secretary, M. J. Dedman, of Lindsay, showed the league to be in a splendid financial position at the close of last season. A balance of $15.28 was carried over.

The following changes in the rules were made:

"That if the president has received no notification that the teams have agreed on an umpire three days before the game he shall appoint an umpire."

"That all players must be residents of the town they represent on or before May 15 excepting returning soldiers and bona fide students, the latter being required to produce a certificate from the master of the school they are attending."

"Notice of all games played shall be sent to the secretary by the umpire within 48 hours of each game played."

"Spalding's or Reache's official ball shall be used in the league games."

CLASSIC BOAT RACE

New York, March 26—After a lapse of six years the classic collegiate rowing test between the Oxford and Cambridge university eights will be revived tomorrow in England. This annual rowing event which was first decided in 1841 and won 39 times by the Oxford oarsmen. The Cambridge crew finished in front in thirty-one races and once, on March 24, 1877, the result was a dead heat. On one other occasion neither crew scored a victory. This was on March 20, 1912, when both boats were swamped in the rough water and the race was declared void.

The last time these rival college crews met was in March 1914, when Cambridge proved the victor. Then the world war interrupted all sporting events of any prominence in Great Britain so that this year it was decided to revive this event in which the British sporting public takes a very keen interest, many big wagers being lost and won on the results.

This year, however, American oars men and followers of rowing on this side of the Atlantic will be interested in the outcome of the English Varsity rowing contest inasmuch as there is a probability that one or more American crews may meet either or both of the English collegiate crews during the English Henley regatta next July or the Olympic Games regatta at Antwerp later.

The course over which the Oxford-Cambridge race is rowed is on the Thames river between Putney and Mortlake a distance of 4¼ miles. Thousands of persons line the banks on either side of the river to watch the contest and everywhere one sees nothing but dark or light blue flags, streamers, ribbons, and other decoration in the rival colors of the Oxonians and Cantabs.

"NICK" BAWLF CONTRACT LABORER

Ithaca, N.Y., March 26.—Nicholas Bawlf, Ottawa Collegiate graduate, engaged to coach the Cornell lacrosse team is being held at the border by American immigration authorities as a "contract laborer."

This became known last night when Romelyn Berry, graduate manager of the Cornell Athletic Association, received a telegram from Bawlf stating he had been stopped at Ogdensburg, and was in need of assistance. Mr. Berry immediately forwarded affidavits to border inspectors, pleading that Bawlf be allowed to enter this country.

For several days the campus has been ringing with the question: "Where is Bawlf?" The lacrosse squad eager to enter upon its training has been particularly anxious.

HOCKEY.

Give the Sudbury team credit—they died game. One goal sent them back home instead of on their way to Belgium. It was a heart-broker for the Northerners, but nothing to be compared to the feelings of the people at home. A civic holiday had been declared in Sudbury for the coming Saturday and the populace had intended to have down and watch "the wolves" devour the Falcons. But Varsity upset all calculations and today Sudbury is in sackcolth and ashes.—Toronto Star.

Killing Time In Legislature

TORONTO, March 26—The Ontario Legislature is becoming increasingly proficient in the art of killing time. The House is now in the third week of the session and still the debate upon the Speech from the Throne drags along. Hon. Peter Smith was expected to make his budget statement to the House today, but that was dependent upon the debate on the speech being wound up yesterday and the Treasurer must postpone his speech until next week. Yesterday only two members were heard, J. W. Widdifield, U.F.O. member for North Ontario and R. Reece Hall, Liberal member for Parry Sound. The former member, like most of the preceding speakers had something to say about the tariff question which—according to a strict interpretation of House rules—should not be a matter of discussion at all. Mr. Widdiefield declared that he was neither a free trader nor yet a protectionist and he objected to questions of patriotism being raised whenever the tariff issue was discussed.

Mr. Widdifield spoke of the Hydro development pointing out that the Conservatives should not claim too much credit for the Hydro, for Sir Adam Beck in the early days had stood alone. He expressed himself in favor of the flat rate system of charging Hydro power, giving the municipality at a distance as favorable rates as the one close to the source of power.

IS A FREE TRADER

Mr. Hall, who had not completed his address when he moved the adjournment of the debate proved a forceful speaker with a good fund of humor. He had a little fun with Mr. Widdifield, wondering what he was since he was neither free trader or protectionist. Mr. Hall said that he was a free trader and did not hesitate to admit it. He was not afraid of matching his labor against that of any Yankee or European.

The Parry Sound Liberal was not enthusiastic about the Hydro, as at present operated and controlled. There was too much centralization of authority and though Sir Adam Beck's intentions were good, he was a little erratic and needed curbing. Mr. Hall likened the Hydro chief to a boiler without a safety valve. Sir Adam, he thought needed a pretty heavy weight to keep him down.

Continuing, he took a fall out of the labor group in the coalition. The coalition made him think of a farmer with a dog. When the dog barked at a stranger, the farmer said, "down collie." He thought it was impossible to have true accord between labor men who wanted an eight-hour day and farmers who wanted men to work eighteen hours.

Mr. Hall wanted something done to put an end to the combines and referred to the fact that the best the farmer can get for washed wool is 55 cents a pound. Allowing 25 cents a pound for manufacturing it into knitting wool—five times what was once considered a fair figure—the total cost came to only 80 cents a pound, compared with $3.60 a pound to the mother who wanted to knit socks for her children.

Fix Minimum In Hard Coal Area

Anthracite Mine Workers Demand 45 7-10 Wage Increase

NEW YORK, March 25—While pressing their original demand for a sixty per cent wage increase, anthracite mine workers declared tonight they will not accept less than 45 7-10 per cent.

Because of greater skill required in hard coal mines, these diggers until recent years received more pay than soft coal workers, according to officials of their union. This difference, however, has not been maintained, and hard coal diggers declare they are entitled to 18 7-10 per cent. in addition to the 27 per cent. wage increase just granted bituminous workers.

Following a conference of the General Scale Committee of the miners today, an official circular was drawn up, notifying the men in the anthracite fields to remain at work after April, as the operators had agreed to make "any wage award retroactive to that date" when the present contract expires.

"You are officially notified," said the circular, "to observe, as in the past, April 1, as a holiday, by remaining away from work, but after that day work is to be resumed, pending negotiations and in these negotiations it will be our aim to bring the matter to a conclusion as soon as possible.

Union officials explained that April 1 has for years been observed as a holiday, in commemoration of the anniversary of the granting of the eight-hour day in the coal industry.

City AND Country

INSPECTION OF REGIMENT

Major-General V. A. S. Williams, C.M.G., General Officer Commanding of Military District No. 3 arrived in this city this afternoon and this evening will inspect the 15th Regiment, A.L.I.

NOTES ON POLICE BLOTTER

The only items upon the police blotter this morning was a report of a bunch of keys being picked up upon the street and the finding last night of two doors of business places in-

TO EXEMPLIFY DEGREE

The degree team in connection with Moira Encampment of this city went to Stirling this afternoon for the purpose of exemplifying the Patriarchal degree in that village this evening. Grand Chief Patriarch Sinclair of Toronto, is expected to be present.

WOMEN WIN BOYCOTT

Kingston housewives were given a shock on the market, when they were informed that the first offering of maple syrup was selling at $5 a gallon. The women refused to buy with the result that the price was lowered to $4, but sales were not heavy.

FREE LIBRARY

The vote of Kingston ratepayers on the by-law for the establishment of a free library, resulted as follows: for 833; against 220. Only one quarter of the electors cast their ballots. G. Y. Chown has presented a building for the library and the city is to equip and maintain it.

SCHOOL EXAMINATIONS

The Junior High School Entrance and junior public school graduation will commence this year on June 24 and be concluded on June 30. The loer school departmental examinations start on June 8 and finish on June 30, and the middle and upper schools departmental examinations start on June 11 and finish on June 29.

GLEN TAY DAM GOES AGAIN

A few days ago the Glen Tay dam gave way with the water pressure and took with it the bridge, leaving the connection broken from one side of the county to the other. This is a serious proposition both for the country around and for Perth. This dam should be built substantial enough to hold back any pressure that might come. Perth depends on the water coming from that source and to ensure good clean water it is essential that this dam should be maintained.

CAMOUFLAGE ALLEGED

On the application of the village of Merrickville, Justice Logie, at Toronto, made an order quashing a by-law of the united counties of Leeds and Grenville to raise $566.653. This money was ostensibly to be used to meet certain debentures previously issued for war purposes. The statute under which money could be raised as on Jan. 1, 1920. It was alleged on argument that the by-law which is attacked was really to supply funds for good roads and was a frenzied finance scheme for doubling up the unexpended funds raised under former by-laws.

FARMER'S HEAVY LOSS

A barn, to which was attached several outbuildings, owned by Blake Edwards, near Algonquin, Leeds County, was destroyed by fire. Mr. Edwards was in the barn at the time working up some feed, when a lantern exploded in the hay mow. He was successful in getting his cattle and horses from the outbuildings, but two pigs, also ten tons of hay, a quantity of grain and all his implements, were destroyed. The insurance carried will not nearly cover the loss. Mr. Edwards had a narrow escape from being burned when caught by the flames in the hay, where he was at work.

ROBERT NEIL DEAD

Robert Neil of Peterboro, president of the Robt. Neil Co., Ltd., proprietors of a chain of shoe stores in Ontario towns, died in Rochester, Minn., where he had been under medical treatment for several weeks. He had been in ill-health for about a year. Members of the family were present at the time of his death. Mr. Neil was about 55 years of age. He leaves a widow, one son, Robert, and three daughters, Mrs. Hugh McLaughlin at present in England, wife of a Toronto lawyer and Margaret and Agnes at home. Mr. Neil was in religion at Methodist, a prominent curler and well known throughout Eastern Ontario.

PAID OFFICIAL VISIT

A large number of the members of King Baldwin Preceptory of this city were last evening in attendance at the Masonic Temple to welcome two distinguished members of this branch of Masonry; Abraham Shaw, of Kingston, Supreme Grand Master of the Knights Templar Order in Canada and Henry Williams of Cornwall the Provincial Prior of Kingston-Ottawa district paid an official visit. After the business of the Preceptory had been completed the visitors were entertained and an hour spent in social intercourse.

Prohibition An Appalling Disaster?

LONDON March 26.—Stephen Leacock has a column article in the London Times bewailing the "appalling disaster" that has overtaken the United States and Canada in the form of prohibition and bidding England "Beware" of the present dry agitation in Europe led by "Pussyfoot" Johnson, the American Prohibitionist.

The article is the main editorial topic of the papers here today.

The Evening News says: "A great majority of the people of those islands are moderate drinkers. They must avoid the mistake of those across the Atlantic who kept silence during the prohibition campaign and woke up to find themselves criminals under the law if they refused to order their lives on laws laid down by what Professor Leacock calls 'brutal, intolerant, fanaticism.' The matter of dryness or wetness in the United States is purely a domestic question so far as its inhabitants are concerned but it would be the rankest folly for us to decline to take warning by what happened across the Atlantic."

The Standard says: "We believe the English people, properly warned would stand no such invasion of their liberty but as in America the thing might be brought about by a compact between politicians. We hope therefore, that any legislative proposals on the subject be most rigorously examined. The sensible policy is to approve the public house."

The Globe says: "Engineers of that calamity in North America, employers of hordes of spies, fanatics who have done more to spread discontent than all the propaganda of Trotsky, now design to impose a like tyranny upon us. We will not have it and if they force us to talk to them in the fashion we have used to other tyrants, they may be sure we shall."

IF NOT BONE-DRY SELL BEER, WINES

Winnipeg, March 26.—If bone-dry prohibition is defeated in Manitoba at the plebiscite to be conducted this year by the Dominion Government the Provincial Government will probably hold a referendum on sale of beer and light wines, Premier Norris intimated today to a delegation from the Army and Navy Veterans' Association.

DRUGGISTS FATAL ERROR

New York, March 26.—Misreading of a doctor's prescription by a druggist is said by the police to be the cause of the death of Mrs. Bertha De Kara, of Brooklyn. The druggist is under arrest. The police say that the woman was given instead of the medicine prescribed for her a deadly poison with a similar name. The bottle was labelled poison, but she could not read English.

MASKED MEN RAID DISTILLERY

Lexington, Ky., March 26.—Seven masked men raided the old Tarr distillery warehouse here and after binding two guards at the point of revolvers, forced them to unlock the warehouse, stealing out 91 cases of whiskey seized last January at Versailles, Ky., alleged to be the property at that time of R. T. Wathen and Company, Louisville.

Public Works Program

(Continued from Page 1)

6 per cent. of City's share $711.23
3 per cent. of City's share 249.17

City's Total annual payment $960.40

RECOMMENDATION.

Recommended that the Engineers' report and estimate of the cost of the above contemplated sewers be received, and that those that have not been petitioned for, together with a sewer on East Moira from North Front Street to G. T. R. tracks be constructed under section 9 of the Local Improvement Act.

Pavement, West Bridge street from River Moira to east side of James Street, to cost $12,522, recommended.

Recommended that a macadam road be constructed on South Front street from Dundas to Wharf streets.

Recommended that tenders be advertised for, for Catherine street pavement.

Recommended that tenders be advertised for, for the construction of concrete sidewalks.

Recommended that the cleaning of Front Street be charged to the frontage tax.

Toronto Man Has Gained 16 Pounds

"Tanlac Has Changed Me Into a Strong Healthy Man," He States

"I have gained sixteen pounds in weight and have been changed from a sick, wornout, broken-down man into a strong, healthy one since I started taking Tanlac," said Andrew Thompson, of 1 Poulton avenue, Toronto, Ont., Canada, an employee of E. B. Blaine, wholesale grocer.

"For the past six years I had been suffering with rheumatism in the small of my back so bad I was never free from pain. I could get no relief either standing, sitting or lying down, and if I stooped over it caused me so much agony I could hardly bear it. My left arm finally became affected, my elbow got stiff and pained me terribly and the balance of my arm and hand felt numb and dead all the time. I also suffered with severe headaches and was in such constant misery I could get but little sleep, lying awake many a night all night long without sleeping a wink. I lost a great deal of weight, going from 218 pounds to 176, felt tired and worn out all the time and finally became so badly run down and weak I could hardly get around. I had to lay off from work a great deal and for one whole summer was absolutely unable to do a thing. I tried many different treatments and medicines, but never found anything that did me a particle of good until I started taking Tanlac.

"A friend told be about Tanlac and the good it had done him, and I decided to give it a trial. Well, sir, after I had taken the first bottle the improvement in my condition was simply remarkable. I continued taking it until now I am absolutely rid of rheumatism, never have a sign of a pain and can get around as good as I ever could. I have not had a headache since I started taking Tanlac, sleep well and have regained my strength and feel so good all the time I never miss a day from work. I don't think I could praise Tanlac too highly, and it is a real pleasure for me to tell others about it."

Tanlac is sold in Belleville by Ostrom's drug store and by the leading druggists in every town.

Called By Death

MRS. W. H. KETCHESON

The death occurred at her home in Cannifton, Friday morning, March 26, 1920, of Martha Matilda, wife of Mr. W. H. Ketcheson, of that place, in her 76th year. Mrs. Ketcheson had been in failing health for some months and her death was not unexpected. Mrs. Ketcheson was born in the township of Huntingdon, her father being Mr. Andrew Snider, a well-known and highly respected farmer of that township. The late Mrs. Ketcheson resided in Hastings County all her life and with her husband has been a resident of Cannifton since retiring from their farm, near that place. She was a lady whose many kindly qualities won many warm friends. A Methodist in religion she was an earnest Christian and devoted to her home and family. Surviving are the husband, three sons and one daughter, viz. Messrs. H. F. Ketcheson of Belleville; George E. at home; Fred G. Ketcheson, of Toronto, Ontario Manager of the New York Life Insurance Co.; and Mrs. Frank Garrison, of Corbyville.

PETER BERGERON

The death took place at the Hotel Dieu, Kingston, on Tuesday morning last of Peter Bergeron, whose home was in Hungerford township, a couple of miles out of Tweed. Mr. Bergeron attended Mass in St. Carthage Church last Sunday morning. During the service he complained of feeling unwell and was taken to Dr. Doyle's office. Dr. Mather was later called in consultation, and it was decided that an operation was necessary. He was taken to Kingston on Monday and was operated on the same evening for obstruction of the bowels. Mr. Bergeron did not survive the operation. The deceased is survived by a widow and one son, Joseph. A brother, Tenos Bergeron, lives on an adjoining farm.

BIRTH

BREMNER—In Belleville, March 23, 1920, to Mr. and Mrs. A. Bremner, 36 Bettes street, a daughter.

IRVINE—In Belleville Hospital Mar. 26, 1920, to Mr. and Mrs. J. A. Irvine, a son.

DIED

KETCHESON—At Canifton, Friday, March 26, 1920, Martha Matilda, wife of W. H. Ketcheson, aged 75 years.

The funeral will be held on Sunday morning at eleven o'clock from her late residence at Canifton.

KIZER—Died in Belleville on Thursday, March 25th, 1920, Mrs. Sarah Kizer, wife of Mr. Charles Kizer, aged 34 years.

The funeral will take place on Saturday, March 27th from the residence of her parents, Mr. and Mrs. John Hutchinson, 11 Harriett St. Service at the house at 2 p.m. Interment Belleville cemetery.

Obsequies

JOHN REID

At Foxboro village on Thursday afternoon the funeral of the late Mr. John Reid took place and many were in attendance. Rev. Mr. Kemp conducted services at the Methodist Church and the committal service at Elmwood cemetery. That deceased had many friends was evidenced by the many beautiful floral tributes. The bearers were Messrs J. B. Faulkner, Ira Simmons, Joe Bryant, W. Bamber, Geo. Smith and J. W. Sprague.

Social And Personal

Mrs. W. M. Hamilton, of Sidney, and Mrs. Harry Grills and daughter Virginia, have been visiting Mrs. G. H. Smith of Picton.

AND RIGHT IN MILLING

The Good Judge's Review

For several months we have been talking about our flour, etc., preparing you for the superior grade of goods and giving your dealer a chance to work off his old stock before our high grade flour comes on the market. Now, we are pushing it forward and we would like you to ask your dealer for the flour with the Judge's picture. We believe the dealers will have the high grade flour as they seem pleased to cooperate with us in putting this high grade flour on the market even at the sacrifice of profit, because either this high grade flour must be sold at a higher price or at a smaller margin of profit all round. If for any reason your dealer cannot supply you because he has too big a stock of other flour kindly advise us and we will see that your needs are supplied.

BEWARE OF DECEPTION

Statistics show that when egg albumen is used as a constituent of baking powder, the amount so used is too small (usually 15/100 of 1%) to affect the quality or effectiveness of the baking powder containing it, and when so used, is plainly for the purpose of fraud. Intelligent buyers will not permit themselves to be deceived by the water glass test.

MAGIC BAKING POWDER

contains no alum or egg albumen and is guaranteed to be composed of the ingredients printed on the label—and none other.

PROPOSAL TO EXCHANGE TEACHERS WITH ENGLAND

London, Ont., March 26—The London Board of Education has been interrogated by the Provincial Department of Education as to whether this city can furnish two teachers who would be willing to go to England with a party of Canadian pedagogues in exchange with a similar number of English teachers who are coming to Canada to take charge of classes in this country for a year. The Canadians would similarly take over the teaching of English classes. The plan is being considered to strengthen the bonds of the Empire. The local trustees, with Inspector C. B. Edwards, will put the matter before the teachers at once.

ANOTHER SINN FEIN RAID

Cork, March 25—Sinn Feiners attacked and captured the police station at Gortatlea, sixty miles west and north of Cork last night, according to messages here today. Three policemen were wounded. The barracks was dynamited and burned.

◆

DUTCH GET NERVOUS CONCENTRATE FORCE

The Hague, March 26—The Dutch Government has concentrated a considarable number of troops along the German border because of heavy fighting between Spartacans and Government troops southeast of Wessel, near the Dutch frontier. The Reds, according to Dutch military advices, have captured the manufacturing town of Boosholz.

◆

DUBLIN SLAYERS ESCAPE

Dublin, March 26—In the absence of information indicate another motive, the popular belief prevails here that the unidentified man who was shot and killed in a downtown street in broad daylight late yesterday was suspected of being a police spy. The man who was shot was about 25 years old, and well dressed. He was crossing the street when three men approached him one of them thrusting a revolver close to the victim's face and firing three times. None of the three have been arrested.

A Diamond for Easter

The chief reason for owning a diamond is the attractiveness it adds to one's appearance. And at Easter time, when new Spring raiment is donned and special attention given to looking attractive, the effectiveness of diamond jewelry is uncommonly pleasing.

Blackburn diamonds have that ineffable, gleaming brilliance, alluring charm of color, and indescribable beauty that have fascinated mankind for centuries and made fine diamonds most desired of all gems.

LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERTY IN THINGS NOT ESSENTIAL—CHARITY IN ALL

BELLEVILLE, ONTARIO, FRIDAY, MARCH 26, 1920.

COOKERY COLUMN

COCOA FRUIT BREAD

1 cup sugar
2½ cups graham flour
¼ cup Cowan Cocoa
2 tablespoons shortening
⅝ cup walnuts
¼ teaspoon cinnamon
1 teaspoon salt
5 teaspoons baking powder
1 cup milk
⅝ cup raisins
1 teaspoon vanilla

1. Mix and sift dry ingredients.
2. [illegible] milk.
3. Add shortening, melted.
4. Add fruit and nuts, floured.
5. Turn into greased and floured pan.
6. Bake in a moderate oven twenty minutes.

COCOA BROWNIES

¼ cup butter
6 tablespoons Cowan Cocoa
2 eggs
1 cup powdered sugar
1 cup flour
½ cup chopped nuts

Mix as for cake; spread batter on buttered tins as thinly as possible; sprinkle very finely chopped nuts on top. Bake in a very moderate oven till lightly browned. Cut in fancy shapes before removing from pan.

Hordes of Grasshoppers Menace Western Crops

INSECTS SEEN IN MILLIONS ON HILLS AND BARE SPOTS ALONG BORDER — ONLY HOPE THAT EGGS MAY HATCH AND LARVAE BE KILLED OFF BY FROST.

Winnipeg, March 26 — Alarming news, forecasting a possible grasshopper plague in Western Canada this coming crop season, has just reached the city from more than one source. Last summer, it will be remembered, the grasshopper worked great havoc in extensive districts in Southwestern Manitoba and Southern Saskatchewan and Alberta and this menace to the crops of the West is again giving evidence of coming back with increased fury, grasshoppers having been seen in millions on the hills and bare spots throughout the affected district.

J. Mills, who farms a thousand acres in the Oxbrow, Sask., district a visitor to the city, states that he has seen these hoppers this spring and that he is of the opinion that they are going to be worse than ever, and that the country will be almost entirely at their mercy. In Mr. Mills' opinion, little headway can be made against these pests by the use of poison, as they are far too numerous and cover entirely too much ground. The grasshoppers not only infest the crop fields and the roadways, but the hills and valleys of unbroken land, thousands of acres of which are held by speculators. This land is alive with them and proves favorable breeding ground.

"The only hope we can look forward to," says Prof. F. W. Broderick, entomologist at the Manitoba Agricultural College, "is that, if this warm weather continues, the great majority of the eggs will be hatched out, and if followed by cold and heavy frosts during April the swarms of grasshoppers will be killed off." Mr. Mills says he believes that hundreds of farmers will not sow crops this spring unless the climatic conditions are such as to curtail great the increase of these pests, thus lessening the danger of the threatened menace. Owing to the high cost of wheat and other seed, together with the scarcity of labor, it will not pay to take the chance of securing a crop with such a plague of the threatened present dimensions in sight.

Catch Them Early

Prof. Broderick said that the infested areas in case the season proved favorable to the pests, are likely to be more numerous and widespread this year. Last summer the hoppers were particularly bad around Melita, Lyeton and Medora, in Manitoba. This season, if the pests thrive, he fears they will be found in the Brandon and Portage plains districts, as eggs were laid there last summer.

The grasshoppers must be caught before they have their wings, he said.

The grasshoppers here are of the migratory type, Prof. Broderick added, and are not likely to remain in the country permanently. More than thirty years ago there was a hopper plague here, but the pests were of a different, but also migratory, type.

Tax Exemptions Strictly Limited

Ruling By Revision Court on Vitally Interesting Point

TORONTO, March 25—The Court of Revision yesterday announced that it had decided to confirm the assessment of Baldwins Limited, the new tin plate concern which took over the British Forgings plant in the Ashbridge's Marsh industrial area, as in the opinion of the court the property could not be legally exempted. Formal judgment was reserved for one week to enable counsel for Baldwins to present their side of the case. There is no doubt that if the Court of Revision persists in the attitude mentioned above an appeal will be taken to reverse its decision.

The point at issue is one of more than ordinary importance, and if the decision of the Court of Revision is sustained by the higher tribunals it will affect several large business concerns in the city which have for years been enjoying partial or total exemption from taxation.

Stated briefly, the City Council agreed to grant exemption from taxation for the period of the war and for two years thereafter on property in the Ashbridge's Marsh area leased by the British Forgings, Limited, from the Harbor Commission for the purpose of manufacturing munitions. This exemption was supposedly ratified by the Legislature, but owing to the indefinite manner in which the bill was drafted there is some reason for doubt as to whether the exemption was ratified in reality. However, that point is not so much in question as the one raised by Commissioner Ardagh, that even supposing the exemption to the British Forgings was valid, yet the moment the property passed to other parties the exemption was cancelled automatically. The other members of the Court of Revision concur in the contention of their colleague. In this city are supported by the action of the city assessors, who assessed the property at $635,000 for the present year. The appeal against this assessment was made by Assessment Commissioner Forman on the advice of the City Solicitor. When the appeal came before the Court of Revision Commissioner Forman was told his action was improper and that he was asking the court to do something it had no statutory right to do. The matter has been dragging along for several months and will now have to be settled definitely.

ELECTION IN 1917 COST $1,678,139

Ottawa, March 25—The recent Ontario general election cost nearly as much as the Dominion War-Time Election of 1917, including the cost of taking the soldier vote. The Ontario election cost $1,300,000.

The Dominion general election in 1917 cost $1,678,139, according to figures given in the Commons by Sir Henry Drayton. Other Dominion election, the Minister of Finance said, involved the following expenditures:

1896	$195,000
1900	232,000
1904	307,000
1908	391,960
1911	507,300

◆

DOLLAR WORTH OVER 90 CENTS IN NEW YORK

New York, March 24—The Canadian dollar was quoted at 90.80 cents, a new high record in the present upward movement, at the opening of the foreign exchange market here today. The English pound sterling was quoted at $3.81 or ½ cent above yesterday's close. French cheques sold at the rate of 14.37 for the American dollar, up 45 centimes and lire cheques at the rate of 19.87, up 40 centimes. German marks were quoted at 1.27 cents each.

Later sterling rose to $3.82¼ and its strength was attributed to reports that Great Britain's exports are now nearly at the pre-war rate and that continental countries are buying English bills. Canadian dollars advanced to 1.43 cents, franc cheques to 14.31 for the dollar and lire cheques to 19.72.

◆

A CANADIAN REFINERY BOUGHT BY AMERICANS

New York, March 25—A large Canadian sugar refinery has been acquired by New York interests, according to a report made public today. The name of the Canadian company is withheld by the firm which negotiated the deal.

According to the announcement the refinery is "one of the largest" in the Dominion. The corporation is to be refinanced by the bankers and placed under the supervision of the management which directs their other sugar interests. The refinery owned by the company can be increased with small expenditure, it was said, to 1,000,000 pounds a day and a full capacity of 1,500,000 pounds a day. The controlling interest was formerly held in Scotland.

POST TOASTIES

Women of Canada Who Testify

Tillsonburg, Ont.:—"Ever since I can remember, Dr. Pierce's medicines were used in our family at home and they never failed to give good results. The 'Golden Medical Discovery' was used as a tonic and blood purifier and for bronchial trouble, and it proved excellent. I have personally taken 'Golden Medical Discovery' for bronchial trouble, and the 'Favorite Prescription' to build me up when I was run-down and they both were very beneficial. Mother always used Dr. Pierce's Compound Extract of Smart-Weed for pain; it also was very good. I feel safe in recommending all of Dr. Pierce's medicines knowing them to be good."—MRS. CLIFFORD MITCHELL.

Central Butte, Sask.:—"I have used Dr. Pierce's Medical Discovery for a number of years and am pleased to recommend it as a blood purifier. I know it has no equal, as I used it for my boy for tuberculosis of the knee joint. My neighbors and friends were surprised with the results; in fact, I do not think he would be alive today had it not been for the 'Medical Discovery.' I also keep it on hand for coughs as it differs so from other cough medicines, instead of upsetting the stomach as most cough syrups do it is good for the stomach. I only wish I had known about Dr. Pierce's medicines sooner."—MRS. PERCY WOOD.

When you take Golden Medical Discovery, you are getting the benefit of the experience of a doctor whose reputation goes all around the earth. Still more, you get a temperance medicine that contains not a drop of alcohol or narcotic of any kind. Long ago Dr. Pierce combined certain valuable vegetable ingredients—without the use of alcohol—so that his remedies always have been strictly temperance medicines.

THE NIOBE TO BE SCRAPPED

Halifax March 25—The Royal Naval dockyard in Halifax is a part of this port that has been in operation since the foundation of the city, almost 170 years ago. It has been the rendezvous of the ships of the Royal Navy in much of the time. When the Canadian Navy was formed the dockyard became H. M. Royal Navy Canadian Dockyard. It is equipped with work-shops wharves and all the requisites for a naval station. There have been rumors from time to time that the dockyard might be closed and handed over for the commercial uses of the port but these attempts always fell through. One reason given for its retention by the navy was said to be that the property had geen taken over at the first by deed from a patriotic citizen who made it a part of the contract that it should forever remain a dockyard. It seems, however, that the end of the dockyard may now be in sight. Orders have been received from Ottawa to close the dockyard absolutely, selling its equipment and leaving nothing in it. The ships are to be sold, except one or two which can be utilized by the fisheries and lighthouse service. This sale will mean the disposal of the Niobe. The cruiser in that case, can only be scrapped and it is doubtful if she would find a purchaser for that purpose. The orders are that all the staff are to be demobilized by July 1 next, the only employes to be retained being two or three watchmen needed to keep an eye on the yard. The officials who have residences in the dockyard are to be allowed to retain those quarters for one month after July 1. In the dockyard is an expensive building, erected by the Y.M.C.A. for the use of the seamen of the Royal Navy.

◆

CHARGES HER HUSBAND WITH WHITE SLAVERY

Montreal, March 25—Mrs. Violet Shepherd, accompanied by officers of the Salvation Army, appeared before Judge Leet and charged her husband, Peter Shepherd, with white slavery. Mrs. Shepherd told the Judge that she had been married in England about a year ago, while Shepherd was still serving in the C.E.F. The marriage had been fairly happy, but on their arrival in Montreal he had brought her to a house on Dorchester Street east.

Later she managed to throw a slip of paper through the window of the room in which she had been confined. This was picked up and Detectives Tierney and Forget, to whom the appeal eventually came, arrested both Shepherd and his wife. She was held on a technical charge of vagrancy and then handed over to the Salvation Army. Shepherd was refused bail, and his preliminary trial was fixed for March 31.

◆

TWO BROCKVILLE SHELLS ARRIVE FROM ENGLAND

There has arrived from England a four and eight-oared shells, built during the winter for the Brockville Rowing Club. The shells are of the latest approved models and the gift of Mrs. G. T. Fulford, and Mrs. C. E. Fulford, two liberal supporters of the organization, which now has an excellent equipment. It is just probable that a junior eight may be sent to the Canadian Henley this year.

WATCHMAN SAVED BIG STOCK OF LIQUORS

Baltimore, Md., March 24—Watchman Thomas Kennedy saved $75,000 stock of liquor at the country home of A. T. Carozza of Fisher and Carozza, a wealthy contractor at Catonsville, a fashionable suburb of Baltimore, this morning when men dressed in the uniforms of policemen and soldiers were refused admittance to the house. While Kennedy detained the men in conversation as he looked out of the second storey window and the "uniformed men" threatened to break down the door, the watchman's wife telephoned police headquarters. Two squads of police were despatched to the scene. The men made off in a motor car as the police came in sight and escaped.

FATHER SHOT HIS SON TO "SAVE HIS SOUL"

Chicago, March 24—Frank Pinano, Jr., today was at the county hospital with three bullet wounds in his body. Frank Pinano, Sr., was held at a police station, where officers said a murder charge would be placed if the eighteen year-old boy died.

"I shot him to save his soul," the aged man told the police. "I would rather kill him myself than have the police do it. For months I have been worried every time I heard of a "stick up" for fear my son had been killed. I tried to get him to buckle down but he would not do it."

Frank, Jr., according to court records slipped into a near-crime record when he was 14 years old. Two years later he had become a recognized gangster, and repeatedly was arrested. A year ago his father carried him bodily to the police and had Frank, Jr., confined to a boys' home. Two months later he was released at the instance of Mrs. Pinano. Between sobs the aged father told the police of how for years he had herded his family of ten other children to the Church of Our Lady of Pompeii on Sunday but that Frank Jr., always was missing—"hanging out with his gang."

Last night, Pinano, Sr., continued, he determined to make a final effort to reclaim his boy. Encountered with friends at a street corner, the youth sneeringly walked away to escape being "bawled by this goody-goody old man," the father said, and he fired five times. Two bullets hit Frank in the legs and the third seriously wounded him in the back.

THE FIGHT FOR HEALTH

ASK GOV'T RAILWAY PROPERTY BE TAXED

Ottawa, March 25.—Pointing out the injustice to residents in railway towns of the exemption from taxation of Government railways and property used in connection with the operation thereof, representatives of the various railwaymen's organizations urged on members of the Cabinet the necessity for the passing of legislation rectifying this. The argument put forward was that where railways were exempted from taxation there was of a necessity a much greater tax burden on the ratepayers of these communities.

Many other matters were also broached including the question of compensation, the Income War Tax pedestrians and drivers of vehicles to stop, look and listen before crossing a railway track at grade, under penalty of a fine and asking that an order in Council be passed placing all railways operated by the Dominion Government under the jurisdiction of the Board of Railway Commissioners, in respect to operation and equipment.

The railwaymen's representatives were Mr. C. Lawrence, Brotherhood of Locomotive Engineers; T. J. Caughlin Brotherhod of Railway Trainmen L. L. Peltier, Order of Railway Conductors and William L. Best, Brotherhood of Locomotive Firemen and Enginemen. The members of the Cabinet present were Sir George E. Foster, Acting Premier; Sir Henry Drayton, Minister of Finance; Hon. Dr. Reid, Minister of Railways, and Hon. Gideon Robertson, Minister of Labor.

CONFESSES TO BIGAMY

Kitchener, March, 25.—Mrs. Joseph Copperthwaite of Toronto, who pleaded guilty to a charge of bigamy was released on suspended sentence by Magistrate Weir in Police Court. Fred German, who married her in Stratford in January, and who claimed that he did not know that she was married was also given suspended sentence.

FIRE DESTROYS HOUSE OWNED BY SIR SAM HUGHES

Lindsay, Ont., March 25—A double frame dwelling belonging to General Sir Sam Hughes was totally destroyed by fire at his ranch in Haliburton. The house was occupied by Mr. Wm. Roberts and Mr. W. Austin, who run the ranch for the general. They were awakened by the cries of Mr. Austin's baby and with great difficulty made their way out of the house.

'Pussyfoot' Now Busy In Paris On Drink Issue

Is Interviewed By Deputation of French Journalists and Gives His Views

PARIS, March 24 — "Pussyfoot" Johnson has come over from England to tell the French people that they ought to stop drinking. He has a difficult audience. The newspapers treat him rather unfavorably.

Mr. Johnson received a number of French journalists, who were all fitted out with questions. One of them asked how it happened that Samuel Gompers said the workers could not accomplish as much without their beer as with it

"Sam Gompers is talking for himself personally," was Johnson's answer "Most of the labor chiefs do not drink"

He was then asked about Cardinal Gibbons' condemnation of American prohibition

"Well, the Cardinal is a very old man," explained Mr Johnson.

Question of Drugs

He was then asked if it was true that the use of drugs had increased in America after prohibition went into effect. Mr. Johnson asserted that such a statement was pure invention. He assured the journalists that America was dry forever and a day.

The French papers are having a great deal of trouble with the name "Pussyfoot." After trying various translations they decided today to use the nickname literally, and so it is M "Pied de Chat" Johnson.

But Johnson had a good audience last night, when he spoke to the French Prohibition League. He assured them that the cause of temperance was growing in France and his hearers were happy at the news. Some one in a corner told the speaker that he and all Americans were crazy. "I wish to go on record as wishing that all people may become as crazy as we are," replied Mr. Johnson. "Since we have gone stark mad, our national efficiency has increased, our factories produce more and our laborers lead cleaner lives."

Admits He is Clever

After reviewing the prohibition campaign in America, Mr. Johnson said: "The newspapers call me a very clever man. I admit it. But not even the most clever man could enforce his opinion on 110,000,000 people unless these people really felt the necessity of action."

He then went on to say that the experience of California showed that the vineyard proprietors could get as much money for grapes to make grape juice as to make wine.

Mr. Johnson's audience, however, didn't understand English, and thus didn't know what he had said. But they knew they were with him and that made it all right.

If he is going outside prohibitionist circles he ought to learn French—and watch his other eye.

RUSSIA'S RAILWAYS ARE ONLY 3 PER CENT. EFFICIENT

Warsaw, March 26—The report of Russian technical experts to the allied representatives at Warsaw on transportation conditions in Russia shows that there are approximately 30 serviceable locomotives throughout the country, as compared with sixteen thousands before the war.

Russia at the present time is building about 25 locomotives yearly, whereas before the war she built from 800 to 1,000.

The railways are from two to three per cent. efficient, instead of 28 per cent. as represented to the allies by the Bolsheviki.

POSTAL CLERKS MEET

Ottawa, March 26—The Dominion postal clerks, who are meeting in convention here, do not intend to go back home to the two thousand odd employees of the Postoffice Department they represent without making every effort to reach a definite understanding with the government on the much-vexed question of classification—which is another way of saying the salary question.

The convention has an appointment with the Board of Hearing and Recommendations of the Civil Service Commission.

MOSLEM AGITATORS IN INDIA BEING SUPPRESSED

Madras, British India, March 26—In connection with a warning issued by the Governor against all pro-Turkish agitation for seditious aims, notices have been served on fifteen well-known Moslems, forbidding them to attend, speak at or promote public meetings of any sort for two months. They include the Presidents and Secretaries of the local Congress Committee and the Moslem League.

Mr. and Mrs. Stanley Sprague were guests recently of Mr. and Mrs. T. Mills, Northport.

Miss Helen Peel returned home Thursday, after a week's visit with her cousin, Master David Barker, Fairmount.

Mr. John M. Kerr spent the week end with his brother, Mr. R. E. Kerr, Thomasburg.

A number have tapped and report a fair run of syrup.

Mr. and Mrs. Wilmot Wager and baby spent Friday at Belleville.

Mr. and Mrs. Wm. Peck spent Sunday with their daughter, Mrs. J. E. Sprague.

A number in this vicinity have been ill with the flu, but are convalescent.

Rev. J. J. Mellor and daughter Mary of Northport visited at D. Graves last week.

Miss Marie Graves took dinner on Sunday with Mr. and Mrs. Duncan Smith, Northport.

Mr. and Mrs. Albert Wager have moved to Belleville.

WEST HUNTINGDON

Miss Lulu Sarles has returned home after spending a few weeks with her uncle, Mr. Frank Sarles, of Oak Hills.

Mrs. Taft and Master Elmer of Holloway, have returned home after visiting her parents, Mr. and Mrs. G. Poste

Miss Dora Ashley visited her friend Hazel Wallace, on Sunday.

Miss Bessie Jeffrey was the guest of Lulu Sarles on Sunday.

Miss Margaret Poste, visited her friend, Myrtle Ashley, on Sunday.

Mrs. James Haggerty and Barton, visited Moira friends on Sunday.

Miss Mae Chambers of Crookston, is visiting her brother, James Chambers.

Mr. and Mrs. James Chambers and Miss Mae Chambers spent Saturday in Belleville.

Miss Maude Wilson of Holloway, Mr. E. Ketcheson and Harold Ashley were guests of Mr. and Mrs. Adams on Sunday.

Mr. Morley Haggerty spent Sunday evening at the home of Mr. and Mrs. R. Jeffrey.

Miss Jeane Adams spent Monday evening with her friend, Maude Wilson, of Holloway.

Mrs. E Putman is visiting friends in Campbellford.

WELLINGTON

Death has been very busy here, six deaths lately. First, Miss Deborah Goodmurphy, two weeks after her mother's death. Both were taken to Picton and placed in Glenwood vault. Next death, Mrs. Robert Livingstone, burial at Wellington cemetery; Mr. Frank Jones, who died at Toronto after an operation—burial at Christ Church Anglican Cemetery, Hillier; an aged lady, Mrs. S. A. McFaul, burial at Wellington cemetery; Miss Mary Benson, who had been ill a long time.

Mrs. S. B. McGowan of Chicago is with her mother, Mrs. A. M. Osborne who is very ill.

Mr. George J. Waddell, Belleville, was in town last week.

Mrs. Seymour Tripp, Indian Head, is at Mrs. Everett Hubbs on account of her mother's illness.

W. G. Mills, manager of the Standard Bank is out again after a severe illness.

W. G. and Mrs. Calliver and Helen have come back to Wellington from Toronto to reside.

Miss Alma Zufelt visited at Picton recently.

Mrs. (Rev.) Boyle has started a kindergarten.

The Methodist Sabbath School has an increased attendance now.

Mr. and Mrs. Roy Morrison are now better; also Mrs. W. J. Morrison.

4TH CON. OF SIDNEY

Service next Sunday evening at 7 p.m. Rev. Wallace, pastor.

Mr. and Mrs. T. Oliver of P. E. County, spent a few days last week renewing old acquaintances.

Mr. and Mrs. A. Wood and family spent Sunday with the latter's parents, Mr. and Mrs. Geo. Beer of Thurlow.

Mrs. Frank Harris was called to the bedside of her father, Mr. H. Langabeer, who was taken seriously ill on Tuesday of last week. We hope for a speedy recovery.

Syrup making is the order of the day Quite a number from this line ar-

To Get up in the morning tired and unrefreshed, with a dull, heavy head, often amounting to headache, to feel low-spirited and "blue"—are symptoms of self-poisoning by food poisons, not neutralized or eliminated by bowels, liver and kidneys acting in harmony.

Beecham's Pills

help to remove the cause of this trouble. They act gently and safely, but also very efficiently.

Worth a Guinea a box.

Sold everywhere in Canada. In boxes, 25c., 50c.

AN APPRECIATION.

Wilbert Morton Shorey peacefully passed away to his well deserved rest, at his home on the Fourth Line of Sidney in the seventieth year of his age.

He was born on the Fourth Line of Sidney and apart from two years spent in the city of Belleville, all his life was spent on the Fourth Line.

For years he was a faithful member of the Wallbridge Methodist Church and the community testified to his worth, by making him superintendent of their Sunday School, class leader, and exhorter.

He was a man quiet in manner, ready to assist in any good work and just as ready to give the honor attached to any church office to others.

His conduct was most consistent and his character, an ideal to be copied. His home was ever open to the ministry, and he did much for the cause of God.

He was an ideal father and the impress of his life has been left not only on the family who revere his memory, but on the community also.

In 1872 he married Sarah Marie Sharp and the union was a happy and faithful one until he was called away to the Homeland.

On March 4, 1920, after an illness of several weeks, without a struggle his earthly tabernacle was dissolved and the living spirit took its departure to the building of God.

There are left to mourn his loss, his wife, four sons, and a brother, Edgar of Belleville; Morely J., Ogunqite, Maine; Hlitno J., Frank J., Sidney, and Mr. Chester Shorey, Belleville.

On the afternoon of March 17, the funeral services were held in the home where the pastor preached to a large crowd of people from "He being dead yet Speaketh" after which all that was mortal was conveyed to the Belleville cemetery, where his body awaits the voice of He who shall bid the sleeping dust to awake on the morning of the resurrection.

BRUTAL HUSBAND GETS LASH HE GAVE TO WIFE

Akron, Ohio, March 25.—George Belley, probably knows what his wife suffered when he beat her with a heavy leather belt.

An order of Judge Lionel Pardee of the Municipal Court, a court officer today stripped Belley's back of clothing and applied a series of lashes with the buckle end of the same belt with which the wife had been beaten.

Mrs. Theresa Belley caused her husband's arrest and told the court of the beating he had given her with the belt.

The order for the flogging and its subsequent enforcement followed.

ANDREW WILSON & Co. TORONTO AND MONTREAL

Under the Greenwood Tree

By THOMAS HARDY

"Number seventy-eight," he softly gave out as they formed round in a semi-circle, the boys opening the lanterns to get clearer light and directing their rays on the books.

Then passed forth into the quiet night an ancient and well-worded hymn, embodying Christianity in words peculiarly befitting the simple and honest hearts of the quaint characters who sung them so earnestly:

"Remember Adam's fall,
 O thou man;
Remember Adam's fall
 From Heaven to Hell.
Remember Adam's fall;
 How He hath condemn'd all
In Hell perpetual
 Therefore to dwell.

Having concluded the last note, they listened for a minute or two but found that no sound issued from the schoolhouse.

"Forty breaths, and then, 'O what unbounded goodness!' Nmber fifty-nine," said William.

This was duly gone through and no notice whatever seemed to be taken of the performance.

"Surely 'tisn't an empty house, as befell us in the year thirty-nine and forty-three!" said old Dewy with much disappointment.

"Perhaps she's jist como from some noble city and sneers at our doings," the tranter whispered.

"'Od rabbit her!" said Mr. Penny, with an annihilating look at a corner of the school chimney. "I don't quite stomach her if this is it. Your plain music well done is as worthy as your other sort bad done, a' b'lieve souls; so say I."

"Forty breaths and then the last," said the leader, authoritatively. "'Rejoice ye tenants of the earth,' Number sixty-four."

At the close, waiting yet another minute, he said in a clear, loud voice, as he had said in the village at that hour and season for the previous forty years:

"A merry Christmas to ye!"

CHAPTER V

When the expectant stillness consequent upon the exclamation had early died out of them all, an increasing light made itself visible in one of the windows of the upper floor. It came so close to the blind that the exact position of the flame could be perceived from the outside. Remaining steady for an instant, the blind went upward from before it, revealing to thirty concentrated eyes a young girl, framed as a picture by the window-architrave, and unconsciously illuminating her countenance to a vivid brightness by a candle she held in her hand, close to her face, her right hand being extended to the side of the window. She was wrapped in a white robe of some kind, while down her shoulders fell a twining profusion of marvel ously rich hair, in a wild disorder which proclaimed it to be only during the invisible hours of the night that such a condition was discoverable. Her bright eyes were looking into the gray world outside with an uncertain expression, oscillating between courage and shyness, which, as she recognized the semicircle group of dark forms gathered before her, transformed itself into pleasant resolution.

Opening the window, she said, lightly and warmly:

"Thank you, singers, thank you!"

Together went the window quickly and quietly, and the blind started downward on its return to its place. Her fair forehead and eyes vanished, her little mouth, her neck and shoulders—all of her. Then the spot of candle-light shone nebulously as before; then it moved away.

"How pretty!" exclaimed Dick Dewy.

"If she'd been rale wex-work she couldn't ha' been comelier," said Michael Mail.

"As near a thing to a spiritual vision as ever I wish to see!" said tranter Dewy, fervently.

"Oh, sich I never, never see!" said Leaf.

All the rest, after clearing their throats and adjusting their hats agreed that such a sight was worth singing for.

"Now to Farmer Shinar's and then replenish our insides, father," said the tranter.

"Wi' all my heart," said old William, shouldering his bass viol.

Farmer Shinar's was a queer lump of a house, standing at the corner of a lane that ran obliquely into the principal thoroughfare. The upper windows were much wider than they were high and this feature, together with a broad bay-window where the door might have been expected, gave it by day the aspect of a human countenance turned askance, and wearing a sly and wicked leer. Tonight nothing was visible but the outline of the roof upon the sky.

The front of this building was reached and the preliminaries arranged as usual.

"Forty-breaths, and number thirty-two—'Behold the morning star,'" said old William.

They had reached the end of the second verse and the fiddlers were doing the up bow-stroke previously to pouring forth the opening chord of the third verse, when, without a light appearing or any signal being given, a roaring voice exclaimed:

"Shut up! Don't make your blaring row here. A feller wi' a headache enough to split likes a quiet night."

Slam! went the window.

"Halloo, that's an ugly blow for we artists!" said the tranter, in a keenly appreciative voice, and turning to his companions.

"Finish the carrel all who be friends of harmony!" said old William, commandingly; and they continued to the end. "Forty breaths, and number nineteen!" said William, firmly. "Give it him well; the choir can't be insulted in this manner!"

A light now flashed into existence, the window opened, and the farmer stood revealed as one in a terrific passion.

"Drown 'en—drown en!" the tranter cried, fiddling frantically. "Play fortissmy and drown his spaking!"

"Fortissimy!" said Michael Mail, and the music and singing waxed so loud that it was impossible to know what Mr. Shinar had said, was saying or was about to say: but wildly flinging his arms and body about in the form of capital Xs and Ys, he appeared to utter enough invectives to consign the whole parish to perdition.

"Very unseemly—very!" said old William, as they retired. "Never such a dreadful scene in the whole round of my carrel practice—never! And he a church-warden!"

"Only a drap o' drink got into his head," said the tranter. "Man's well enough when he's in his religious frame. He's in a worldly frame now. Must ask en to our bit of a party tomorrer night, I suppose, and so put en in track again. We bear no martel man ill-will."

They now crossed Twenty acres to proceed to the village and met Voss with the hot mead and bread and cheese as they were crossing the church yard. This determined them to eat and drink before proceeding further and they entered the belfry.

REAR-END BRAKEMAN ACCUSED OF NEGLIGENCE

Ottawa, March 26.—The aftermath of the wreck on the Canadian Pacific Railway on the morning of Sunday, January 25th, when the second section of a train bound from Chalk River to North Bay crashed into the first section a mile east of Corbeil, Ont., causing serious loss to of life, was heard in the Police Court here when Thomas J. Curley, rear-end brakesman on the first section, was placed on trial, charged with criminal negligence.

Curley faced two charges, one of having caused grievous bodily injury to Dr. W. J. Chambers, who succumbed to his injuries through negligently complying with his duties in flagging the train after it had become stalled in accordance with Regulation 99 of the C.P.R. Company's rules.

The second charge is one of wilfully and neglectfully omitting to comply with the rules governing the running of trains and thereby causing the lives of passengers on the train to be placed in danger.

$110 A MONTH AND BOARD OFFERED FARM LABORERS

Chatham, March 26.—The question of farm labor is becoming very acute in this district. With the Spring weather opening up, there is a great demand for labor on the farms and from present appearances the greater portion of the demand will be left unsupplied. Farmers are offering as high as $110 a month and board to laborers in this city, and at that price are unable to get sufficient help.

TRIED, CONVICTED AND HANGED IN JIG TIME

San Antonio, Texas, March 24.—Texas justice has a new record for speed. John Hood Price, a negro, who murdered John Kennedy, a farmer, was captured late Monday. The Grand Jury was imediately called into session and the accused man was indicted. A special court session was then called for 9 o'clock and the negro was tried, convicted, and at 11 o'clock Tuesday morning he was publicly hanged.

C.P.R. EXHIBIT AT BERMINGHAM ENG.

CANADIAN PACIFIC

One of the most striking features of the British Industries Fair at Birmingham was the Canadian Pacific Railway exhibit in the Town Hall. The majority of the exhibitors had their stands made in Birmingham to a standard pattern, but the Publicity Department of the C.P.R., with its customary foresight, decided that they would get away from the regular stands, and have a special exhibit designed by the well-known architect, Mr. A. H. Jones. The work was carried out by Messrs. Gaze & Co., of Kingston-on-Thames, and the exhibit was sent from Kingston to Birmingham on a motor lorry. Three expert fitters went down from London to Birmingham, with the result that the C.P.R. stand was the first to be finished in the whole of the British

Mr. W. T. Treadaway, the energetic representative of the Canadian Pacific Railway in Birmingham, and Mr. Owen of the Birmingham office, received many congratulations upon the Canadian Pacific Railway Exhibit.

BELLEVILLE, ONTARIO, SATURDAY, MARCH 27, 1920.

Retail Merchants Section of Chamber Of Commerce

BELLEVILLE MERCHANTS WILL CO-OPERATE WITH CHAMBER AS A SECTION, WITH THEIR OWN SECRETARY —MANY IMPORTANT MATTERS DISCUSSED AT ANNUAL MEETING.

The Annual Meeting of the Retail Merchants Association of the city was held at the Y.M.C.A. building last evening and was attended by a number of merchants of the city.

Mr. D. V. Sinclair, president, occupied the chair, and Mr. B. F. Jennings acting as secretary.

During the meeting matters of importance such as the bay bridge, daylight saving and early closing was discussed. The daylight saving proposition was not concurred in but it was decided to close at 12 o'colck, noon, on Wednesday during the months of June, July and August. The bay bridge matter will be discussed at greater length at a public meeting to be held in the city within a few days.

A United Body

Mr. E. P. Frederick, Secretary of the Chamber of Commerce, stated that it was desirable that the Retail Merchants Association become identified with the Chamber of Commerce. This would mean strength to the Association, and the Association would not lose its identity. Much more can be accomplished by being united rather than an individual organization.

Mr. D. V. Sinclair said every member of the Retail Merchants Association receives more benefit yearly than he pays in. The question was were we in a position as an Association to go into the Chamber of Commerce.

Mr. Beal, Provincial Organizer of the Retail Merchants Association, stated that the Belleville Association could be a section of the Chamber of Commerce, but that it was necessary to retain its identity as an Association.

Mr. F. B. Smith moved that the Association be a section of the Chamber of Commerce with its own Secretary. Ald. Hanna seconded the motion, which was adopted after some discussion.

It was decided after discussing the matter to leave the election of officers over until a subsequent meeting.

The Bay Bridge

Mr. E. P. Frederick said that it was proposed to call a public meeting in the City Hall in the near future. Two distinct propositions will be submitted to the meeting namely the purchase of the present structure at a figure named or to erect a new structure. An engineer of the Public Works Department of Toronto would be present at the meeting.

Mr. R. J. Wray was in favor of a free bridge and he was in favor of the Retail Merchants paying an extra tax on the extra price that may have to be paid over a valuation that had previously been made.

Mr. Sinclair thought that the Association should place itself on record as assisting the Chamber of Commerce in this important matter.

Mr. Wray moved, seconded by Mr. Blackburn that this Association endorse the action of the Chamber of Commerce in regard to the bay bridge matter.

Messrs Wray and Sinclair were appointed as representatives of the Association to attend the public meeting.

Daylight Saving

Mr. F. B. Smith said if we cannot have daylight saving we might have early closing.

Mr. E. P. Frederick stated that the railways were not adopting the daylight saving system this year.

Mr. Sinclair—If the railways are not going to adopt the daylight saving it was a question if we should adopt it. If we desired we might close our places of business at five o'clock in the afternoon, and make it general. He would not support daylight saving.

Mr. C. F. Wallbridge stated that in England and France last year the daylight saving went into effect to save fuel. The war took so many men from the mines that the use of coat for fuel and lighting purposes had to be curtailed. There was considerable complaint among the farmers in regard to daylight saving and they are practically all against it. Personally he was in favor of it, but if the country does not approve of it we could not very well adopt it.

Mr. Sinclair suggested that during the months of June, July and August the merchants close their business places at 5 o'clock in the afternoon.

Mr. J. Cook said he would rather open his place of business later in the morning, say nine o'clock and remain open until six o'clock. If, however, the majorty are in favor of closing at 5 o'clock he would not object.

Mr. F. B. Smith said if it was generally known that Belleville stores were closed up at five o'clock in the afternoon on every week day with the exception of Saturday night it would work no hardship.

Mr. F. Thompson stated that it is difficult for many ladies to get down town to do shopping in the afternoon.

Mr. B. F. Jennings spoke in support of closing at 5 o'clock in the afternoon.

A motion prevailed that during the months of June, July and August the stores close at 12 o'clock, noon, on Wednesdays.

This concluded the business and those present were addressed by Mr. Beal who spoke briefly on several matters appertaining to the welfare of the Association.

N.Y. Police Baffled By A Double Murder

Doctor Found Stabbed Lying Beside Body of Man Strangled to Death

NEW YORK, March 26—Stabbed in the neck by an unknown assailant, and lying beside the body of a man strangled to death, the dead body of Dr. Simpson Campisi, a successful Williamsburg physician, was discovered in a furnished room in Brooklyn.

The police are completely baffled by the double murder, and declared it to be the most mysterious case they have had to handle in years.

Shortly before six o'clock Dr. Campisi was called from his home by a man apparently in a great hurry. Dr. Campisi accompanied the man into a small room in the rear of the first floor of a three-story frame lodging house. A few minutes later the man who accompanied the doctor was seen to run away.

Policemen, called at once by a roomer, who had seen the doctor enter the house and had heard a strange noise, pushed open the door of the room to see an unidentified young man lying on the bed, and Dr. Campisi dead on the floor, with blood still coursing from the knife wounds.

One of the wounds was in his mouth and the other in his neck.

A hasty examination of the man on the bed indicated he had been choked to death. He apparently was an Italian, but the name appearing on his coat was J. Falcon.

Lands And Forests Dep't Under Probe

Premier Drury Announces That Judges Have Been at Work for Two Weeks

TORONTO, March 26—A commission composed of Mr. Justice Riddell and Mr. Justice Latchford has been at work for two weeks investigating affairs of the Department of Lands and Forests, Premier Drury announced.

Working in Secret

The commission was appointed on March and has since been working in secret, it having been the desire of the Government to have the investigation conducted as quietly as possible

The commission is authorized to investigate and report upon the accuracy or otherwise of all returns made by holders of timber licenses; of all cutting of timber on Crown lands by timber licensees; of any damage done to timber or freehold by any holder; also to investigate as to what persons have been responsible directly or indirectly for any irregular practices, and as the extent to which the revenue of the Crown has suffered in consequence.

MORE SEATS IN MANITOBA

Winnipeg, Man., March 26—A bill given second reading in the Legislature yesterday creates three new constituencies. These, with the four seats to be added to Winnipeg, will bring representation in the House to fifty-five members.

May Ship Frozen Meat To Canada

Shipments Depend on Shipping Facilities—Prices May Drop

As a result of the expiry of Britain's war contracts, which diverted all frozen mutton from New Zealand and Australia to London, there will shortly be important shipments of mutton to Canada. In the opinion of D. A. Campbell, one of the big livestock dealers of Canada this will supply a big need in Western Canada. Whether it will actually reduce the price of meat generally in the big Canadian centres during the next six or twelve months depends entirely on other factors which may upset the predictions of live stock authorities.

The meat situation on the American continent today has been governed by the fact that in the blizzards of last winter in Wyoming and Idaho there was a 40 per cent. loss of sheep and lambs. There was also a bad drought in Alberta last fall which created a serious situation in that the sheep did not fatten.

On the other hand there are huge surplus stocks of frozen mutton in New Zealand, Australia and the Argentine. Canada's supply will depend on the shipping situation this summer.

"Under pre-war trade conditions," said Mr. Campbell today, "there was a normal traffic between Canadian Pacific ports and Australia. Frozen mutton arrived in fair quantities and found a market as far east as Calgary. A return to these conditions which appears to be imminent will supply a big want in the west since the sheep in Alberta did not fatten last fall.

"The biggest market in the world for frozen meat is London and most of it is taken there. I do not think that transportation facilities will allow much of this meat to be re-shipped to New York. There are certain limitations which frozen meat has not yet got over. It would certainly deteriorate to a slight extent on re-shipment to New York from London.

"The return of frozen meat commodities to normal trade routes is a good thing, but whether prices will fall or rise in the future would be hard to say.

"Austria, Hungary and Serbia grazed more sheep in pre-war days than any other country in the world, more than New Zealand and Australia. These countries have been stripped and there is a shortage of mutton in Europe. We can only look on the resumption of the frozen meat trade between Australia and New Zealand as a good thing for Canada and supplying at present a local want."

* * *

MOST BRIDGES NOW TOO LIGHTLY BUILT

The bridge of the future is destined to be the concrete bride, according to Mr. Frank Barber, who delivered an address "Concerning Bridges" to the Canadian Society of Civil Engineers at Toronto. "In a few years," he said "concrete will have replaced steel entirely for bridge construction."

Most of the bridges in Canada, according to the speaker, are too light for the traffic that they have to bear, and in many cases are decidedly dangerous. Several occasions were instanced by Mr. Barber where bridges had collapsed, in some cases with loss of life. The construction of the bridges of a country, the speaker thought, indicated the difference in the character of the society, the wooden or lighter bridge corresponding to a pioneer state of society, where only the thought of traffic prevailed and not durability or beauty of design.

Beauty in architecture combined with utility was the ideal to be aimed at in bridge construction, and the future of bridge building would depend a great deal upon the architect, Mr. Barber said. There must be closer co-operation between the architect and the engineer before our bridges could combine to express, with strength and utility in the delicate curve of every arch, "the glory that was Greece and the grandeur that was Rome."

France and Brazil have begun negotiations relative to the purchase of German ships seized during the war by the Brazilian Government.

G.T.R. Restaurant For Belleville?

Some New Ideas Put Forward By the Chamber of Commerce

The Board of Directors of the Chamber of Commerce at their meeting yesterday afternoon adopted a resolution which will be forwarded to the Grand Trunk Railway asking the company to establish a restaurant at the station in this city. It is felt that, being a divisional point and in view of the arrival and departure of trains at meal hours, a restaurant at the station would be a distinctive convenience to the travelling public.

All-Night Telegraph Service

Requests iwll also be sent to the C. P. R. and G. N. W. telegraph companies requesting that an all-night telegraph service be established here. Business men visiting the city as well as local merchants have found it a very necessary thing at times to have telegraphic communication with outside parties but under the present system such service cannot be had.

Beauty Spots

Mr. Fredericks, Secretary of the Chamber, reported that plans would be adopted in the immediate future for the improvement of the section around the Union Station and that the C.N.R. and C.P.R. had already indicated their desire to co-operate with the Chamber in bringing about the desired improvements. It is planned to convert the vacant lot back of the station into a park and to otherwise beautify the immediate section of the depot. This is one of the several plans under way for beautifying the city and a meeting will be held in the near future to map out a definite line of work for this spring and summer.

Suburban Area

The Honorable F. C. Biggs, Minister of Public Works, has written to the Chamber of Commerce urging the desirability of establishing a Suburban Area Commission in the city and offering to send a representative from his department to explain the working of such a Commission. The Chamber is planning to have a public meeting to discuss the establishment of such a Board which would consist of three members and which would supervise a number of the matters that are soon to be undertaken here.

Bay Bridge

At the same public meeting the Bay Bridge question will be brought up for final disposition. There will be two definite propositions laid before the citizens—either to buy the present property or to build a new bridge—and definite figures will be laid before the meeting on both phases of the case. Invitations to the meeting will be extended to representative men in all sections of Hastings and Prince Edward Counties and it is believed that final action in this long mooted question will be taken at the proposed meeting. The Directors ratified the action of the members in voting for a Rural Section of the Chamber and the necessary changes in the Constitution will be made so that the organization of this branch can be immediately undertaken.

Chamber Building

It is reported that the new Chamber of Commerce Building, formerly the Corby Building, will be ready for occupancy about the first of April and decorators will begin work on Monday getting the premises into shape.

Pinnacle St. Tracks

Col. Marsh, Messrs W. B. Deacon and H. W. Ackerman were appointed a committee to act in conjunction with the City Council representatives to meet the Grand Trunk Railway officials who will be in the city in a few days to discuss the future location of the railway tracks on Pinnacle street.

GERMS LURK IN A MORNING KISS

New York, March 26—"If you would be sanitary, kiss your girl in the evening or afternoon. Disease germs lurk in morning kisses, because the fresh air has not a chance to sterilize her sweet, red lips."

This warning was given by Dr. Lawison Brown of Saranac Lake during a talk on tubercolosis at the convention of New York State Medical Society at the Waldorf.

Some months ago we made a kissing test at Saranac to determine whether tubercolosis could be transmitted by contact of the lips," said Dr. Brown. "We selected a pretty young woman with a bad case of tubercolosis and had her kiss a sterile dish. We found the morning kisses gave forth a few germs, but those in the afternoon and evening were a pretty healthy risk.

"It's a good thing for the human race that courting is done at night and in the late afternoon."

Serious Floods Occur In Quebec

Special Despatch to The Intelligencer Canadian Press Limited

QUEBEC, March 27—At ten o'clock this morning a big ice shove began on the Chaudiere River at St. Jacques. The Electric Co. dam and power house were swept away at St. George and streets were flooded. There are between four and five feet of water in the streets and siding along the water front. Beauceville reported the ice breaking up shortly before noon and fears one of the worst floods in years.

Last Minute Telegraph Briefs

Denikine Base Taken

London, March 27—Novorossisk, the last base in southern Russia under control of General Denikine, has been captured by Russian Bolsheviki, according to a wireless despatch from Moscow.

Polish Govt. Moves

London, March 27—The Polish Government was removed on Thursday from Warsaw to Brombery in Polish Posen, it is five miles northwest of Thorn, according to Berlin despatch quoting rumors in that city.

Ukrainians Occupy Odessa

Paris, March 27—Odessa, the great Russian port on the Black Sea, has been occupied by Ukrainians under Gen. Pavlenko, commander of the Ukrainian national army, according to information received by Ukrainian mission in Paris today.

* * *

G.W.V.A. Will Take Veterans Of Other Wars

MONTREAL, March 27.—After the stormiest session of the convention delegates decided last night to adopt the "open door" policy, amending the constitution to admit to membership in the organization veterans who had seen active service in the British forces in campaigns other than the great war, and also including as eligible for membership, men who saw service in Canada only. Another change was made in the constitution under which permission is given for political action at the discretion of local branch officers.

In connection with the first change and after the "open door" had been adopted, I. A. McKenzie of Vancouver, seconded by N. MacDonald of Pictou, roused at the passing of a measure which they had bitterly opposed, moved that the name of the organization be changed by striking out the word "Great". This motion was withdrawn later by Comrade McKenzie, but he first asked those who thought as he did to stand, and less than twenty delegates did so, mostly from British Columbia, Nova Scotia and New Brunswick.

Ontario for "Open Door."

Ontario, with a single exception, was solid for the "open door," and W. E. Turley, President of the Ontario Provincial Command, who moved the clause re the admission of veterans of former wars, declared that the life of the association in Ontario actually depended upon the passage of such a clause.

President Wilson Plans To Store Coal

WASHINGTON, March 27—President Wilson within a few days will sign an executive order, directing all department of the Federal Government to purchase and store up a three months' supply of coal during May, June and July, it was learned today. State and county Government and public utilities will be urged to do likewise.

The result will be, in the opinion of experts of the National Coal Commission, that the mines will be kept busy during the dull season, the frantic rush of work in the mines as winter comes on, will be eliminated, and there will be such a saving that the 27 per cent wage increase granted the miners by the commission will be absorbed and not passed on to the public. If not absorbed the wage increases granted 500,000 miners, if charged entirely to the consumer will increase the price of coal 15½ per cent. beginning April 1st, it was estimated.

Red Russian Officers With German Insurgents

RUSSIAN BOLSHEVIK PREMIER SENDS ONE HUNDRED RED OFFICERS TO ASSIST THE GERMAN COMMUNISTS—HARD FIGHTING FOR WESEL—GOVERNMENT FORCES RAISE SIEGE.

Special Despatch to The Intelligencer, Canadian Press, Limited.

LONDON, March 27.—One hundred Russian officers sent to Germany by Nicolai Lenine, Bolshevik Premier, are assisting in the operations of the German Workers' army before Wesel, says a despatch to The London Times. The despatch says the workers have taken control of the Krupp works at Essen and are turning out arms and ammunition.

SUCCESSFUL SORTIES.

WESEL, March 27.—German Government troops made a sortie southeast of this city yesterday and drove the besieging workers forces from their posts, shelled their retreating columns and raised the siege of Wesel on both the east and southeast. Dissensions seem to have broken out among both workers and government forces.

While the counter attack was proceeding reinforcements arrived here, including the Death's Head Hussars and Uhlans. The Allied commissioner conferred with Gen. Kabitsch and soon after the Belgian military authorities at Buderich, a Belgian town across the Rhine, began issuing passes for civilians to return to the city.

INSURGENTS REGAIN GROUND.

WESEL, March 27.—Workers' forces attacking Wesel later regained the ground about the fortress which they lost early in the day. As a result of hours of hard shelling and machine gun work they recaptured Lippe Castle, advancing more than a mile from the south. Observers here, however, generally credit the Government forces with sufficient strength to hold Wesel against the attackers.

SOCIALISTS FOR PEACE.

BERLIN, March 27.—After a conference at Hagen, the Socialist party's delegates have decided to send envoys to Wesel in an attempt to bring about a cessation of the fighting there, according to the Vossiche Zeitung.

Leacock's Letter Stirs Comment

LONDON March 27—Prof. Stephen Leacock's caustic denunciation of Canadian prohibiton is widely quoted throughout the country, from the Times.

Hon. Adolphe Lemieux, when face to face yesterday with leading parliamentarians of all parties was much questioned and chaffed about what Prof. Leacock calls the "Still sane and hospitable Province of Quebec."

While quoting Prof. Leacock, however, English politicians and journalists who know something of Canada question his entire impartiality especially when he attributes prohibition in Canada to the financial support of "Feeble-minded philanthrophy, inspired by brutal, intolerant fanaticism."

Labor representatives here, who support State purchase and other forms of rigorous liquor control ranging up to local option and prohibition, smile at Prof. Leacock's assertion that prohibiton makes the workers restless and discontented and plays straight into the hands of the agitator and Bolshevik.

The Yorkshire Post, however, supports Prof. Leacock and says: "There is a point at which prohibition becomes an incitement to revolt. We should not be surprised if America reached that point, but we shall be greatly surprised if Britain does not profit by this trans-Atlantic example, which is, we believe, a fundamental trans-Atlantic error in every day psychology.

Brutal Murder Of Magistrate Alan Bell

PULLED FROM TRAMCAR BY FOUR MASKED MEN AND SHOT TO DEATH BY ROADSIDE — THIRTY-FIVE SINN FEINERS ARRESTED IN DUBLIN.

LONDON, March 27.—Alan Bell, resident magistrate, who presided over the enquiry into the dealing of the Sinn Fein with Irish banks, was shot dead this morning outside the Masonic Club in Dublin, according to a despatch from that city to the Central News.

Magistrate Bell was on the way from his residence in Monkstown to Dublin Castle, when the tramcar in which he was riding was held up at Ball's Bridge by four masked men, who pulled the magistrate from the car and killed him at the roadside. The body was taken to a hospital, where it was found the murdered man had been shot through the head.

The passengers on the tramcar from which the magistrate was taken were paralyzed with horror at the suddenness of the tragedy, the shooting occuring only a few yards from the car at 10 o'clock in the morning. The assailants of the magistrate escaped.

Aside from his investigation of the Irish banks under the Crimes Act, Magistrate Bell investigated the recent attempt on the life of Lord Lieutenant Viscount French and other matters.

Early in March the authorities summoned the bankers as witnesses before Magistrate Bell, ordering them to produce such documents as might relate to dealing between their banks and the Sinn Fein organizations and also with the Dail Eireann, or Irish Republican Parliament. The inquiry, which was strictly private, opened at Dublin on March 3. The bankers refused to reveal their accounts and the investigation was dropped.

The body of a young, well-dressed man was found today in a field at Banoge Bridge, near Newcastle, West Dublin. The man had been shot to death. The identity of the man has not been established.

Sinn Fein Round-up.

Thirty-five prominent Sinn Feiners were arrested in Dublin today. Five unknown men with passports for the United States were arrested on the point of embarkation for the United States this afternoon.

Two constables of a patrol at Kilgenora, County of Clare, in Munster Province, were fired on last night, according to advices received today. One of the constables was badly wounded. No arrests were made.

Speaker Predicts Downfall Of Churches

M. A. Howlett States That Present Form of Denominationalism Will Break Down

Mr. M. A. Howlett, of Winnipeg delivered an address in the City Hall Friday evening on the subject of Church Union. The speaker pointed out that the mere statement Church Union clearly implied there had been up to this time dis-union, so why after 1800 years speak of Union. Contrasting this with the Scriptures he proceeded to show how the true Church had always been perfectly in harmony one unit with another and with their Lord, and that she did not need a Union of the kind contemplated. The word Church, he said, is from the Greek word Ecclesia which means body and so would include the whole body of the consecrated Christians from the time of Jesus until now. Continuing he said "A Woman is used in Scripture in Symbol to represent the church and is so spoken of by the Apostle Paul in (2 Cor. 11.2) "I have espoused thee unto one husband, that I might present thee as a chaste Virgin unto Christ. Eph. 5: 22-32 P.S. 45:10. A false Church system is spoken of as a harlots, one is really reading of a false Church System that is making pretentious claims of being the Bride of Christ. The speaker emphasized the fact that he did not wish to be understood as meaning people in the various systems, but was glad to confess his belief that there were thousands, but that these symbols applied to systems and not to individuals. The speaker contrasted the belief of "free grace" with the belief of "election" and showed how that one being the antithesis of the other, both could not apply to the same period of time and yet both were scriptural. Using Acts 15 14-18 he showed how this present age is the time in which God is not trying to convert the world, but rather "calling out a people for his name" i.e. "the Bride-elect" and that the age to follow would be the age of free grace when "the residue of men might seek after the Lord and all the Gentiles on whom my name is called saith the Lord" Acts 15.17. The speaker called attention to the treatment the Christian should expect to receive as was foretold by the Master in Luke 21: 10-19 because of his persistently and consistently preaching the establishment of God's Kingdom and the ruin of the old Ps. 2-9. Rev. 11:15: which preaching would be more or less looked upon as sedition and as being contrary to the present existing order of affairs.

The 17th and 18th chapters of Revelation, he said, arraigned the whole ecclesiastical world in its present organized form from God's point of view and showed the judgments of the Lord coming upon her for her centuries of religious hypocrisy.

Just as Russia in her great upheaval overthrew the great church system which had ground her down in ignorance, error and superstition. So will the peoples of this great continent rise up agianst the present form of denominationalism, and which will release millions of people who have been bound in Creedal bonds and by denominational barriers of prejudice. Then the Prophet Zephaniah's statement will be fulfilled eph. 3.8-9 "For then will I turn to the people a pure language that they may all call upon the name of the Lord and serve him with one Consent."

116 TOURISTS HAD 75 DRINKS EACH DURING TRIP

New York, March 26—The steamship Calamares of the United Fruit Company returned with 116 tourists from a cruise to Central America and West Indian ports. The steamer sailed from New York February 28. According to the purser $61,700 worth of liquor was sold on the trip. Beer sold at ten cents a glass and highballs at 25 cents. It was estimated that each passenger had on an average of 75 drinks.

MUSIC AND DRAMA

GETAWAY DAY

"Heart Strings" in which William Farnum, the popular Fox star, plays the leading role, will be seen for the last time to-night at Griffin's. Beautiful scenes of Canadian rural life and of Greenwich village. New York's mystic centre of artistic dreams—of longing eternal for elusive fame—are reproduced with wonderful attention to deail. The story is one of absorbing interest, convincingly true to life. The cast includes Gladys Coburn, Betty Hilburn, Rowland G. Edwards, Robert Cain, Kate Blanche and Paul Cazeneuve. Henry Albert Phillips is the author of the story. "Switches and Sweeties," a funny 2-reel big-A comedy, Pathe News Graphic, Topics of the Day with its original and amusing paragraphs and a beautiful Travelogue are also being shown on the same program.

EMMY WEHLEN AT PALACE

"Sylvia on a Spree," which will be shown at the Palace to-night for the last time, is quite the most captivating, unusual screen feature in which the favorite star, Emmy Wehlen has yet been seen. It has an irresistible appeal. Miss Wehlen plays the part of Sylvia Fairpoints, a society girl who has been so sheltered from all knowledge of harm that she longs to see a little of "real life." Fate brings to her Jack Bradley and the two became engaged on condition that he take her for an evening in "Bohemia." Planning to cure her of her desire for excitement, he stages a "fake" raid, which to his own surprise turns into a real one, Sylvia finds more excitement than she bargained for. The climax of the story is a novel in the extreme. "Sylvia on a Spree" is a delightful photodrama, entirely out of the ordinary and will, we feel assured, please the spectator immensely. A funny Lyons-Moran comedy, "Bird City" an educational reel of interest and the British Canadian Pathe News are also being shown on the same program.

JACK HOLT IN "VICTORY"

The man who translated Maeterlinck to the screen in "The Blue Bird" has accomplished the even more difficult task of picturizing "Victory," the famous novel by Joseph Conrad. This latest evidence of Maurice Tourneur's uncanny skill will be shown at Griffin's this Monday to Wednesday. "Conrad Fans" are notoriously jealous of their favorite's marvelous gift of description and his ability to transfer the sea in all its varying moods to the printed page. They need have no misgiving about any marring of Conrad's masterpiece in its transition in screen form. Mr. Tourneur has made of Conrad's wonderful novel a wonderful picture. He has retained all the fierce passions, the savage conflict and the salty tang of the South Seas which flavored the book and embodied them into a picture replete with thrilling action. In the cast are such well known players as Jack Holt, Seena Owen, Bull Montana and Wallace Beery. A funny 2-reel Sunshine comedy, Photoplay magazine showing scenes in the film studios and the domestic life of famous screen stars and other varied attractions of interest will also be shown on the same program.

NORMA TALMADGE AT PALACE THEATRE MONDAY

Norma Talmadge's latest picture, "The Way of a Woman," which comes to the Palace this Monday to Wednesday, matinee daily, was adapted from the well known stage play, "Nancy Lee," by Eugene Walter, author of "Paid in Full," "The Wolf," etc. It is a fast moving story of American life today. Nancy Lee is a young southern girl is stiled by the hereditary pride which keeps her parents poverty-stricken and makes them insist that she refuse to marry Anthony Weir, whom she really loves, because his social standing does not come up to the Lee tradition. In an attempt to ease their finacial burden, she becomes the wife of a dissolute New Yorker, George Trevor and comes North to live with him. In the speedy set in which her husband lives, Nancy soon finds herself enmeshed in many difficult situations from which she makes every effort to extricate herself; only to get into greater trouble. How she manages to set herself on her feet again—financially, mentally and morally—and even win back the love of the man she has always wanted, makes a grippingly dramatic tale in which Norma Talmadge's artistry shines brilliantly. A new Harold Lloyd comedy, the latest chapter of the "Fatal Fortune" serial featuring Helen Holmes and other plays of interest are also announced for exhibition on the same program.

FILM FOLLIES

NO COMEDIAN AT HOME

Los Angeles, Cal.—"As a husband he is far from funny."

Mrs. Mildred Harris Chaplin, wife of Charlie Chaplin, seemed to be talking to herself as she patted a wrinkle in her white sport skirt and gazed out of a French window in the beautiful Chaplin home here.

"There has been nothing funny about my life with him," she continued in the same away voice. "For months at a time he has neglected to come near our home. I have not seen him for the past two weeks.

Mrs. Chaplin who is a tiny slip of a woman with big eyes and a wealth of wavy hair, sat silently for several minutes.

"I most certainly do not want a divorce," she said presently. "I do not think I will bring such a suit. I don't know, but I don't think I will. But he must support me."

Suddenly she blazed with anger.

"And I want to say this," she said, vehemently, "if my husband brings suit against me and there is one thing alleged to reason why he should have one, it will be perjury. Do you hear me—perjury."

"I know they say I married Chaplin for his money," she said. "That is not true. There isn't one person in our business in Los Angeles who won't tell you that I, at any rate, have been true blue every minute."

NEVER HELPED OUT

Mrs. Chaplin was asked if she attributed her present difficulties to another woman.

"I will not say," she answered. "I will say, however, that of all the money that my husband makes, little of it ever comes to me. I have bought my own clothes, I have paid for my food and supported my mother and aunt and my aunt's children. If I married Chaplin for his money, I was disappointed, wasn't I? It isn't true."

Mrs. Chaplin said that the film comedian came to their home from his quarters at the Los Angeles Athletic Club recently and told her that he would give her $25,000 to go to Nevada and get a divorce.

"I refused to do it," she declared.

Before Mrs. Chaplin was ready to receive the interviewer, a maid in the Chaplin home said that the comedian had never gone near the model nursery in the home since the baby died.

"Mr. Chaplin never seemed to pay any attention to Miss Harris (Mrs. Chaplin)" she said. "The only time I ever saw him interested was when the baby came. He was with it every minute until it died. Since then he hasn't seemed to care and is rarely home.

COURTSHIP SHORT ONE

The break in the the domestic life of the Chaplin's has been expected in film circles for many months. The marriage of Chaplin and Miss Harris was a surprise to friends of both. It was the result of a short courtship.

Mildred Harris has lived in Los Angeles all her life. When she was a small girl, she helped her widowed mother by dancing at society affairs and later took part in amateur and professional theatricals. She was an "extra" around the moving picture studios until her talent was discovered. During the past two years she has won favor in leading roles.

Chaplin is credited with having made the following statement when told of his wife's announcement.

"Such is life in the great West."

MURDERER TAKES SENTENCE WITH DEFIANT SPIRIT

New York, March 26—Jess Walker, 19, of Evansville, Ind., was sentenced to die in the electric chair the week of April 25 for the murder of Samuel Wolchok, March 11 last. A diary found on Walker when he was arrested in Mattoon, Ill, ten months after the murder, contained a note of the crime.

When asked by the court if he had anything to say before sentence was pronounced, Walker blandly replied:

"Well, I didn't fire the shot that killed Samuel Wolchok, but at that, I didn't come up here to lecture or hear a lecture, I came to be sentenced."

CHAPLIN STILL LOVED BY WIFE

Mildred Harris Will Give Comedian a Year to Come Back

Los Angeles, Cal., March 26—Mildred Harris Chaplin still loves Charlie her famous film star husband, and intends to wait another year for him to return to her and register matrimonial contentment, before she makes any legal move toward cutting the bonds, she declared, on the eve of her departure for the Grand Canyon.

The trip to the Grand Canyon is to be followed by a journey to England, where Mrs. Chaplin will be the guest of Lady Stuart McKenzie, it is said.

Mrs. Chaplin expressed the belief that Charlie will find his love for her rekindled within a year and that a happy reconciliation will be the result of her waiting. She said:

"I won't bring suit against Charlie, and Charlie, I understand, says he will not begin suit against me. I still love Charlie and I feel sure his conscience is hurting him for the things he has done to me.

"I shall wait a year to prove to him the kind of woman I am. I have not been going out with anybody and I am more of a recluse than I have been in the past. My only companion has been my mother, and I have stayed with her during our domestic controversy.

"Perhaps in a year's time Charlie will realize his mistake and come back to me."

FRECKLES

March Worst Month for This Trouble —How to Remove Easily

There's a reason why nearly everybody freckles in March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of Othine, double strength, from your druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles for if not removed now they may stay all Summer and spoil an otherwise beautiful complexion. Your money back if Othine fails.

Easter Apparel

ALL THAT IS WORN MUST BE NEW

So long has the custom of associating new apparel with Easter Sunday been in vogue that no discerning woman can afford to slight the invitation of Fashion to indulge in the pleasures of new attire.

You can give full expression to your desires, for here, in gratifying assortments are styles that supersede those of other seasons both in beauty and value.

Easter Suits

The Suit at Easter must be new, and here are styles in great variety. Women who adore severly tailored Suits and those who prefer lines more or less elaborate will rejoice in this showing, for it includes plenty of modes of both types, as well as many in between. All the newest fabrics and colorings are presented.

Gloves

THEY MUST BE NEW!

Every hand that gives a greeting Easter morning must have spic-span new Gloves. These are as correct as they are handsome.

Silk Gloves in every shade, 90c. to $2.00 pair.

Chamoisette Gloves, all shades, $1.00 and $2.00 pair.

New Easter Blouses

—may be of Voile, Organdy, Georgette, Crepe de Chine, Silk or Silk Jersey. You may have long or short sleeves. Dark models to match your Easter Suit are shown as well as white or delicate colorings.

Georgette Blouses, from .... $6.50 to $22.50
Crepe de Chine Blouses from .. $4.50 to $11.50
Blouses of Silk from .... $2.65 to $10.00
Silk Jersey Blouses at .... $11.50 each
Voile Blouses at .... $1.65 to $3.50

The New Veil

A new Suit, a charming Hat, correct Gloves—and an ordinary twice-used Veil, will spoil the whole effect. A new Veil means much to the smartness of your Easter outfit. Clever new patterns by the yard or in made-up Veils are all moderately priced.

Underthings for Easter

Included among the dainty Underthings for Easter are beautiful Silk and Crepe de Chine garments as well as dainty Philippine Hand-Embroidered affairs. Gowns, Camisoles, Combinations and knickers form a practical as well as attractive collection.

Stockings

—of course, must be new, and preferably of Silk to match the new shoes.

Silk Stockings in every new shade are priced up to $3.50 pair.

Lisle Stockings in all shades from 45c. to $1.00 pair.

STORE REMAINS OPEN SATURDAYS TILL 9 P.M.

Is The Littlest Baby Ever Born

At Twenty-Four Days Old Weighs Only One Pound

NEW YORK,—Small "smile of a star" the "littlest baby" whose advent and progress astonished and interested obstetricians of this city and others who have to do with children, now has almost an even chance to win her fight for life.

Upon the twenty-fourth day since her birth, Jean Ousset, father of the tiny girl jubilantly told how she now tips the scale at a pound—just eight ounces more than she weighed on February 21.

But in his office uptown Dr. Jerome K. Kohn, the baby specialist who helped to usher Petite Jean Marie, as she is called upon formal occasions, into this enormous world, looked very grave as he quoted statistics and explained, in merits of cold science the battle which the sixteen ounces of humanity lying so helplessly upon a corner of a pillow is waging just to keep breathing. He said that so far as it has been possible to ascertain, records showed that Jeanne Marie is the littlest baby ever born.

Dr. Henry Koplik noted obstetrician previously stated that records of a maternity clinic in Paris tell of a birth where the baby weighed slightly less than a pound.

"Out of twenty-five cases," Dr. Kohn said, "where babies weighed less than three pounds, not one of them lived. On the other hand I know a girl now eight years of age and apparently healthy and normal, who weighed only a few ounces over two pounds at birth.

"The average normal weight of a baby at birth is seven pounds. I should say that the chance of life for one abnormally light as little Jeanne Marie would be less than one is one hundred—considerably less Records of only thirty cases where the child weighed less than two pounds and lived have been published.

He said that mentally lightweight babies are sound as others.

This statement seems to be borne out in the case of "smile of a star"—a phrase nearest possible to accurate translation of the name bestowed upon the exquisite mite by her prideful parents.

Though the pillow upon which she lies is only of average size, she is quite lost in the centre of it with her woolly blankets and the hot water bottles stowed around to keep her warm.

"The reason they die usually is because they cannot keep warm," Dr. Kohn said. "They haven't enough fat beneath the skin to regulate a temperature and so they become chilled."

He said further that incubators no longer are used for babies, the warm room and other devices taking their place.

"She may be light in pounds, but she is bright as any baby—brighter than most babies at three weeks.

"Now watch and you shall see."

The little mother, who sits constantly at the side of the cradle spoke thus in her rapid French. Removing the gauze thrown over the baby's face—small face not quite so large as a medium-sized doll's—she crooned a few notes of an old nursery song:

"Miron—tain."

"Mironton—taine."

The wrinkled little cheeks worked; eyelids fluttered weakly open. There was a twinkle in the blue eyes, hazy with sleep. One understood how the mite came by her pet name.

A happy, hearty boy, of six, is the other member of the Ousset family.

"My daughter shall be as strong as he is some day," the mother declares, "and then we shall take her to our so dear Paris to visit the grandmother. She, too, is petite—but sturdy.

"Fear? Ah, I have none. Le Bon Dieu sent her and made her small. She is our smile of a star!"

A Gentle Laxative For The Children

Mothers—the surest way of keeping your little ones well and happy; whether it is the new-born babe or the growing child is to keep their bowels regular and their stomach sweet. Nine-tenths of all childhood ailments are the result of clogged bowels and sour stomach. The most necessary and the best medicine for little ones is a gentle laxative—something that will relieve constipation; sweeten the stomach and promote rest and natural sleep. Such a medicine is Baby's Own Tablets. They are a gentle but efficient laxative; are absolutely guaranteed free from opiates or other injurious drugs and may be given to the youngest infant with perfect safety. They banish constipation and indigestion; break up colds and simple fevers and give the baby that health and happiness which all children should have. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Wall Street had a smart advance just before the close.

Once a General Now a Professor

ANYBODY born in Petrolia, Ont., has a right to become an engineer if he wants to. But Brig.-Gen. Mitchell, C.B., C.M.G., D.S.O., Dean of the Faculty of Applied Science and Engineering of the University of Toronto, was born in a Petrolia Methodist parsonage and therefore must have been encouraged while very young to fix his gaze upon heavenly things rather than engineering problems. Canada knows him now as the engineering soldier who revolutionized the intelligence system of the Canadian army and extended his new system to the British armies on the west front, in Italy, in Egypt, Palestine, Salonika and Mesopotamia.

This is a long way from the oil-town parsonage in Petrolea.

Gen. Mitchell's father was an Irish Methodist preacher. His mother was Scotch. Here began the wide angle. You can see it in the big, broad face, ruddy and genial, the man who looks like a humorist but is not, even about himself. He is not even cynical. He is practical. He believes in messages, in public speaking—which he does very well—and in action of which he is an organiser. The general represents a distinctly active and forward movement in education. About the university he is one of those uncomfortable men who believe in educational democracy.

Once upon a time the School of Practical Science, which grew into the Faculty of Applied Science, was a very ugly red tail to a big grey dog. It was in the '90's when that original science factory was put up. Since when the Physics Department has moved over into a building of its own and the old S.P.S. has long ago taken up its H.Q. in the Mining and Engineering Building that hides the old S.P.S. from the street. For almost a generation after it was started the S.P.S. was regarded as a sort of University Kitchen Department. The kitchen is now bigger than the old drawing-room. The Faculty of Applied Science and Engineering has become the tail that some day, with men like Mitchell at the head of it, may wag the dog. There is money in applied science and Mitchell knew it when he hung out his first shingle at Niagara Falls, Ont., where he became "City Engineer" of the Canadian town for seven years, though he extended his practice out into Ontario; which was just previous to the time when Adam Beck began to hitch Ontario up to the falls. Right in this big era of electrical development Mitchell was assistant engineer in the construction of the Ontario Power Co.'s works at the Falls, now a part of the huge Hydro Electric, and was afterwards made consulting engineer for the O.P.C.

Eight years before the war he visited France, Switzerland, Italy, Austria and Germany. When he came back to Canada he settled in Toronto with his brother. Here, in the Hydro's biggest power-consumption centre, he extended his practice all over Canada as engineer of big power developments, hydraulic and electrical.

But it is a satisfaction to record that as far back as 1899 he took an active interest in military affairs. He mentions that he was always interested in public service. For twelve years he was in the University Senate, also on the Board of Governors.

Be sure this Irish-Scotch Canadian was among the first of those who enlisted for public service in the great war. In fact he offered himself five days before war was declared by Britain. On August 22, 1914, he left Toronto, home and practice, and saw none of them again till June, 1919.

He was then general staff officer, third grade for First Canadian Contingent; went to France in February, 1915, with rank of major, active service at Ypres, Festubert and Givenchy; and promoted to rank of lieutenant-colonel with the French Legion d'Honneur. In September, 1915, he took charge of the Intelligence Service of the entire Canadian Corps. In 1916 he served with the Canadians at St. Eloi and Sanctuary Wood and later at the Somme; won the D.S.O. and two M.I.D.'s. In October, 1916, somebody wanted him—higher up. It was Gen. Plumer; who made him general staff officer, 1st grade, in the 2nd Imperial Army—the first Canadian to get this distinction. For what? Intelligence, of which he had had full charge in the second army. In 1917 Mitchell was in nine engagements of the 2nd Army, whose wires and wirelesses and signal corps and despatch riders were all under his immediate control; and during that year he got the C.M.G., the Belgian decorations and two M.I.D.'s. After Passchendaele, and when the Caporetto debacle had almost wiped Italy off the war map, Mitchell was sent over to Italy with Plumer's army. More intelligence. The Canadian's system worked on the Piave as it had on the Somme; all through the anxious winter of 1917-18 and afterwards when Plumer went back to France without Mitchell, who thereafter pushed his system over the whole of Italy—except the Vatican—and out to Egypt, Salonika, Palestine, and Mesopotamia. In 1918 Mitchell was made a C.B., got two decorations from Italy and two more M.I.D.'s, and was made brigadier-general. In January, 1919, two months after the armistice was signed he went back to England, to a post in the War Office until June, 1919, when he came back to Canada—and the Faculty of Applied Science and Engineering.

This is a pretty swift engineering story. But, after all, it only illustrates what many a Canadian can do if he has enough sense to stick to his own country.—The Canadian Courier.

The Chinese divide the day into 12 parts of two hours each.

◆

Bonar Law stated in the British House of Commons yesterday that the Government does not intend to release Irish prisoners on hunger strike even if they starve themselves to death.

Sports

FRANKIE BULL IS STILL CHAMPION

Toronto, March 27.—One of the best boxing cards staged in the city was that put on at Massey Hall last night by the Grand Army of Canada. In all there were six bouts, three preliminaries and three feature events and all provided the fans who crowded the building to the roof with plenty to cheer for. There were two knockouts Young Wolf of Hamilton putting away Young Cooley of the same city in the first round of the schedule four-round mill. He knocked him down three times first. Frankie Fleming also scored a knockout over Terry Martin, of Providence, R.I., in the fourth round of their scheduled 10-round bout. He did it so well that Martin hadn't fully recovered when the crowd was filing out of the auditorium.

The feature event of the evening was the 10-round scrap between Frankie Bull and Harry Freeman for the lightweight title. Bull won after 30 minutes of fierce fighting during which both men were within one good blow of being knocked out. From start to finish the bout was a swatting bee and although Bull had the edge in every round and a good margin in some, Freeman's wonderful comebacks made the fight uncertain at all stages.

KINGSTON HOCKEY RECEIPTS

Kingston, March 26—The Kingston Hockey Club's financial statement has receipts for the season of $4,344.36 and a surplus of $903.29 which will be utilized in purchasing trophies for the players.

MAKES OFFER TO HERMAN

Denver, Colo., March 26—Jack Kennar, a local promoter, today telegraphed Pete Herman, bantamweight champion, offering him $10,000 to fight 20 rounds with Joe Burman of Chicago, in Denver on Decoration Day (May 31) for the world's championship. Burman agrees to make 118 pounds ringside.

HARVARD CREWS ON RIVER

Cambridge, Mass., March 26—Harvard crews were out on the Charles River Basin today for the first time this year. Last year the crews were on the river on Feb. 12.

FALCONS FAST

Toronto, March 27—Winnipeg Falcons, champions of the West, and University of Toronto, champions of the East, clash tonight at the Arena in the first game of the Allan Cup finals, and the right, according to official announcement, to represent Canada at the Olympic games at Antwerp. The Falcons come here heralded as one of the fastest teams that ever stepped on ice. With them its speed, speed and then more speed, and according to those who have witnessed their games it is their great speed which enables them to secure a lot of goals by following in fast for the bounds.

GRAND NATIONAL WON BY TROYTOWN

London, March 27.—The Grand National, the great English steeplechase, was yesterday won by Troytown, the Turk second, and The Bore third. Out of twenty-four starters, only five completed the course. The prices on the first three horses were: Troytown, 6 to 1; The Turk, 66 to 1; and The Bore 28 to 1.

The Cook's little helps

Oxo Cubes are little wonders of convenience and economy. In the hands of the cook they are something to conjure with—they save meat—they save fuel—improve the cooking—increase nutrition—and make for better health and well-being all round.

Tins of 4, 10, 50 and 100 Cubes.

OXO CUBES

The little money-time-and-trouble-savers

EMPLOYMENT IN ONTARIO

The Employment Service of the Ontario Department of Labor reports an increase in placements in the Men's Department for the week ending March 13. Positions were found for 1756 applicants within their own zones and 148 applicants were placed in zones other than their own in the province, through the Clearing House system. During the preceding week the total number of applicants placed in the zone in which they applied was 1709 and those placed in other zones were 69. The geratest number were placed in general laboring, with 197 placements, lumbering with 275 and the metal trades with 139. Agriculture is becoming more active and there were 103 placements during the week, while in the preceding week there were only 65.

In the Women's Department there were 118 placements in regular work and 304 casual jobs were filled. Two women were transferred to other zones for the textile industry. Placements in domestic and personal service were 44 and in commercial occupations 42. The need for women for domestic work still remains very great.

CAR FAMINE MAY CLOSE OTTAWA PAPER MILLS

Ottawa, March 27—Several paper mills in this district may be forced to close their doors in the course of the next few days owing to the shortage of pulpwood. The congestion of the railways at various points where cars were held up during the recent storms and the inability of the railways to supply other cars were given this morning as the cause. Only an early opening of the Ottawa River, which would permit the companies to secure their logs via the river route, it was stated, could relieve the famine.

The J. R. Booth Company, one of the larger concerns, reports an empty yard, where usually there is a supply of thousands of tons, "We have been moving heaven and earth," said Mr. C. J. Booth, "to get the railway companies to let us have cars, but so far, have not met with any success.

The E. B. Eddy Company is more fortunately situated, according to Mr. Charles Millen, the Superintendent, who says the company lays in a winter supply of pulpwood. This, he says, will be enough to carry them through until the river opens. The company does not ship its pulpwood supply by rail.

Cocoa and Chocolate Merger

Canadian Interests of Fry's and Lowney's Associated.

Arrangements have been made for the association of the business interests, in Canada, of The Walter M. Lowney Company of Canada, Limited, and J. S. Fry & Sons, Limited, of Bristol, England.

The Walter M. Lowney Company of Canada, Limited, has a large plant in operation in Montreal, established many years ago, and has been carrying on business in all parts of the Dominion, its sales of eating chocolate and confectionery having been particularly extensive.

The firm of J. S. Fry & Sons, Bristol, was established in England in the year 1728, and, for generations, its chocolate and cocoa products have been well and extensively known in Canada and the Empire. During the past ten years these have been handled by its own branches throughout Canada. The Bristol firm has recently caused J. S. Fry & Sons, (Canada) Limited, to be incorporated by Dominion Charter, with head office in Montreal, to which it has transferred its Canadian assets. J. S. Fry & Sons, (Canada) Limited, will continue to maintain its own branches throughout Canada, and has acquired, and will promptly equip, an extensive modern manufacturing plant in Montreal, for the purpose of manufacturing, within Canada, Fry's well-known brands, which hitherto have been imported from Bristol.

While the identity and good will of each Firm will be maintained and extended, it is expected that, through the association, substantial economies will be effected, both in the purchase of raw materials, and in the marketing of finished product. The two lines supplement each other, inasmuch as the Lowney Company is largely engaged in manufacturing and selling eating chocolate and confectionery, and the Fry Company specialises very strongly in cocoa and related products.

MACKENZIE KING AFRAID.

Mackenzie King, leader of the Liberal Rump, fears Imperialism as much as he hated conscription in wartime. "The thing that we on this side of the House are concerned about and fear is the danger of developing a form of centralized Imperialism which we think would be thoroughly objectionable so far as the interests of this country are concerned," says Laurier's successor. Mackenzie King should worry, if we have another war he will doubtless be absent as usual helping Rockefeller put a concrete foundation under his millions. Mackenzie likes to get in on the ground floor, or under it.

DAYLIGHT SAVING.

The State Legislature of Massachusetts has passed a daylight saving bill by a vote of 181 to 38. The daylight saving law becomes effective in New York State next Sunday, and the heads of many key industries announce that they will observe it despite the fact that railroad time tables will be based on standard time. The Journal has been of opinion that the opposition to daylight saving which developed in the Canadian Parliament and the U. S. Congress, was the result of prejudice rather than reason, and we should not be surprised if before long both these legislative bodies face about on the question. In the meantime, the people of Ottawa, Toronto and Montreal are to enjoy the sunlight regulation this summer and the advantages will be far greater than the slight inconvenience that may be caused a comparatively small proportion of the population through a variation in railroad time.—Ottawa Journal.

THE SUPERIOR PERSON.

The superior person got a name that will no doubt cling to him so long as men speak in English when he was dubbed a "highbrow." The inventor of the word, whether it be Will Irwin or Gellett Burgess, may live to hear it said, "I'd rather have used that word first than beaten the Kaiser"; but that will depend on the growth of the cloud of modern instances such as Mr. Oliver Herford in Leslie's Weekly imagines gathering today to support Dr. Funk's view of them. The Sydney Smith of our day sees them as "inverted":

"Mr. Isaac K. Funk, D.D., LL.D., in his justly famous Dictionary, gives 'Highbrow' as a slang term for a 'Person observed or imagined to take a superior attitude toward the generality of mankind.'

"Mr. Funk's definition is quite all right, but it would have pleased me better ('intrigued me rather more,' as the highbrow would say) if he had said 'poses in an inverted attitude before the generality of mankind.' The 'Inverted attitude' being to collect his thoughts, which in that way are allowed to percolate downward through the system and accumulate by degrees in the inverted dome of thought.

"The highbrow wears his brains on his nose (with heavy black rims) and he would rather analyze a dissonance than compose a symphony, or talk about a thistle than smell a rose.

THOUGHTS IN LIFE AND BUSINESS.

The fellow who isn't fired with enthusiasm is apt to be fired.

If top-notch effort yields you no happiness, there's something wrong either with you or your efforts. Sit down and do some analyzing.

After all you've got to give full, fair value, or you won't last.

The most valuable "system" is a good nervous system.

If you have an hour to spare don't spend it with someone who hasnt'.

Don't simply see how you can "put in the day," see how much you can put into the day.

Never contrive to make it easy for your concern to get along without you.

When in a fix, sweating will get you no farther than swearing. Let mules do the kicking.

Honking your horn doesn't help so much as steering wisely.

You have no idea how big the other fellow's troubles are.

There is a better market for smiles than frowns.

There must be output before there can be income.

Good times for all can only be the product of good work by all.

First of all, when you have any relations with men of far greater importance than yourself, accommodate your time and your plans to suit theirs.

They may disappoint you time and again by failing to live up to tentative or even definite appointments. But never mind. "No matter what the other party does or says, you must always keep your word."

Many men lose out because they allow a certain mistaken sense of "dignity" to prevent them swallowing what strikes them as slights and rebuffs.

Don't go around with a chip on your shoulder.—Forbes Magazine.

WHAT THE REPORTER DOES.

The reporter does not write what you say. He writes what he thinks you think you are saying, or what he thinks you would like to say for publication, says the Toronto World.

It's a delicate position. And old politicians have come to the conclusion that there is as much to be said on the reporter's side as on the indignant layman's side.

But there is only one escape from it. And that is for everybody, great or small, from statesman to ward association spellbinder, to hand a typewritten copy of his speech, and a typewritten synopsis of it in fifty words, to each newspaper reporter present.

They do this in the United States. And certain of our own greatest and best reported public men do it.

There is a modesty about us that makes this little act difficult at first. We say! Oh, the papers will think we are scratching for publicity. My speech is of no importance."

But as soon as the reporters get into the way of receiving these typewritten copies, they will begin to look for them from every public speaker. And then our modesty will not suffer. Anyway, this will protect the public speaker and the reporter as well. If he doesn't want to report your speech at all, nothing is wasted. You have insured yourself. And if he wants to dispose of you in a paragraph, there is your typewritten synopsis, containing the gist of your speech, not the tid-bit selected and furbished by the reporter. And if he wants more, he can select it, verbatim, from the full account.

This theory will apply to all encounters with reporters. There is a certain financier in Toronto who never opens his mouth when being interviewed by a reporter. He just sits at his desk and to each question he silently writes the answer on a pad of paper for the reporter.

That man is never misquoted and has a high opinion of the press.

CRISP COMMENT

Brilliant idea, dusting off Front street during the daytime! The Merchants can sit up all night dusting their stocks. Dry cleaning of the streets is a great invention—Not!

× × ×

Jenkins was sitting down to breakfast one morning, when he was astounded to see in the paper an announcement of his own death, says an exchange. He rang up his friend Smith at once. "Hello, Smith," said he, "have you seen the announcement of my death in the paper?" "Yes," replied Smith, "but where are you speaking from?"

× × ×

What is the population of Belleville? Anywhere from ten to twenty thousand, according to the guesser. A well known citizen has suggested that the Chamber of Commerce stage a one-day census and find out exactly how many people live here. A number of things may hinge on population in the near future, including parliamentary representation by population.

× × ×

Says the Brockville Recorder: Congratulations to the G.W.V.A. and to Lt.-Col. O'Flynn, of Belleville, who has been selected as the president of that great body for the province. The chap who recently wrote the R. and I. a nasty anonymous card in the sacred name of patriotism will probably stick on this name O'Flynn. Don't worry, old chap, he's a Methodist.

× × ×

City Council has absolute jurisdiction over the capital expenditures of the Board of Education unless the latter body goes to the electors or the Legislature for the money. The board, on the other hand, has just as absolute a jurisdiction over its own current expenditures. Recognition of these elementary principles would save much time and eliminate much discussion.—Toronto Star.

× × ×

The Labor Gazette once more draws attention to the fact that the cost of living persists in rising, a family food budget in 60 cities now averaging $15.70 for a week, as compared with $7.75 in the corresponding period of 1914. After the 1st of May the increased rentals the tenants have signed to pay will be making themselves felt, and adding to the annoyance. It is an uphill climb and there is no sign of the summit yet.

× × ×

The Hamilton grocer who said "to hell with the consumer," explains that the expression is not to be taken literally, and that he really wishes well for the consumer. There is no accounting for tastes. Wasn't it Mark Twain who said, "heaven for climate, hell for company"? When the Hamilton grocer wished the consumer in hell, perhaps he merely wished him a place where he would find company, is the charitable view of the Woodstock Sentinel man.

× × ×

It is noted by the Journal staff correspondent in the gallery of the Legislature that many of the farmer members have settled comfortably in the best hotels and mix freely in the gay crowds that fill the corridors during the tea hour. This seems to us quite logical. One could never be sure that the city patron had the price to pay the bill, but the farmer—well, he's got the cows, and he's got the hens, and he's got the money too, observes the Ottawa Journal.

× × ×

Speaking about the threatened provincial income tax, the Perth Expositor remarks: "Do away with the tariff for revenue we have today and the Government would require to raise the money it needs to run the country by direct taxation. The experience of the people now with the present income tax is far from satisfactory. Just at present Ontario people are paying a Federal and Municipal income tax, and the Provincial Treasurer is hinting that a provincial income tax might be imposed. If he wants to hear some noise, just impose it."

× × ×

"I am in favor of sane patronage," said Brig.-Gen. A. E. Ross, M.P.P., in addressing the Legislature. "Who is more able to consider the appointment of officials than a good representative? I have seen the Civil Service Commission try to appoint a postmaster. They appointed four, every one of whom was unsatisfactory, and in the end they had to come to the sitting member. I have seen the head of a Civil Service Commission appoint his own daughter to a temporary position." The greatest agitators against sane or insane patronage are those who have starved so long for a government job that they have given upon all hope of ever getting one, hence the squeal.

× × ×

Canadian grown tamarac gum refined for chewing purposes is now ten cents the five-cent portion, chocolate bars are six cents per each, a little tin of olive oil costs $1.25, or did yesterday—it may be higher tomorrow. Men's clothes are higher than Paris skirts, and old King Coal is humming a merry tune of buccaneering days suggesting another step toward the diamond class. It's hard to remember the good old days when we were rich enough to have bacon and eggs for breakfast, and a chicken dinner was more than an annual affair. Fortunately most people have a high sense of humor, which keeps step with the price procession. As long as people can laugh, even ruefully, all's right with the world.

× × ×

Truman Newberry, Michigan millionaire, tried to break into the U. S. Senate. Now he is trying to break out of gaol with a two-years sentence hanging over him. Difference between a millionaire in Uncle Sam's domain and an Ordinary Mutt is that the O. M. who gets ten days or ten years serves the whole darn sentence, less commutation for good behavior, while the millionaire gets one of those sentences hollow inside which is speedily squashed or quashed as soon as the Supreme Court Judges sit upon it. A little money goes a long way, without buying anything—but a whole lot of money will hide a messy bundle of sins in the land of movie stars and Sing Sing stripes, and will even buy a drink in the most arid of prohibition deserts.

OTHER VIEWS

Wonderful

(Cleveland Plain Dealer)

It is probably true that criminals suffer from a variety of insanity. A California burglar, for instance, stole two bottles of milk and ignored $10,000 worth of bonded liquor.

Inevitable

(Hamilton Spectator)

The public should be commencing to realize that every wage advance or slight increase in the expense of production and distribution, sooner or later (usually sooner), is added to the selling price of the article.

History Repeating Itself

(London Free Press-

Civil war destroyed 35,000 Frenchmen in the horrible months following the defeat of 1870. Today the situation is reversed, and civil war is taking its toll of the Germans, who had then looked on unmoved while the French settled their own affairs. In so far as may be, the allies will be wise in allowing the Germans to dispose of their own differences. In good time the better sense of the Teutons will prevail.

Now is the time for all economical men to sift the ashes and bank the home fires early.

A Laugh or Two

Try This In Your Coffee Pot

From a magazine—"Then she boiled two potatoes which she found in one corner of an empty bag and made a pot of coffee.

Obliging

"Have you an opening here for me?" asked the assertive young man as he stood at the open door.

"Yes," answered the capitalist, "it's right behind you."

Doing Him an Injustice?

Mrs. Gassing—No. I don't care much for Mr. Smythe. He always seems to be yawning when I speak to him.

Miss Snap—Perhaps he is only trying to say something, dear.

Has Harmonious Sound

Somehow we feel that "physicist" should mean a soda fountain clerk but it doesn't.—Boston Transcript.

Wily Minister

Said the shrewd minister before the collection was taken up. "Those who are in debt need not put anything on the plate." The collection was double the usual amount.

The Poet's Corner

LIFE

We all of us live a life like this—
We are walled in on every side
We all long to do a hundred things
Which we could not, if we tried.

We can spend our strength all foolishly,
In a discontented strife;
Or we can be wise and laugh and sing
And make the best of our life.

BETTER DEAD

Life is a burden when the body is racked with pain. Everything worries and the victim becomes despondent and downhearted. To bring back the sunshine take

GOLD MEDAL HAARLEM OIL CAPSULES

The national remedy of Holland for over 200 years; it is an enemy of all pains resulting from kidney, liver and uric acid troubles. All druggists, 50c. a box.

City AND Country

DISTRIBUTION OF PRIZES

Prizes which were won in the bowling tournament of a city league at the Y.M.C.A. alley will be presented on Monday evening and arrangements will be made for spring league matches

TAKEN TO INDUSTRIAL

Mr. Ruston, local Inspector of the Children's Aid Society, yesterday took a boy to the Industrial School at Mimico. The lad is incorrigible hence his removal to Mimico.

CUT CLOTH ON SUNDAY

A merchant of Peterboro was on Friday by the Police Magistrate of that city convicted with a breach of the Sabbath. Evidence was given that he had been busy cutting cloth on Sunday last and in consequence a penalty of $10 and costs was imposed amounting in all to $13.10.

A COMMUNITY CAMP

A meeting was held in the Y.M.C.A. notified and took charge of the outfit was to discuss the matter of having a community camp for boys this summer. The idea was endorsed and officers were appointed as follows: President, Mr. H. F. Henry; Vice-Presi D. M. Farrell, and Mr. A. Buchannon, Secretary-Treasurer.

HORSE WANDERED AWAY

Yesterday afternoon a horse attached to a buggy wandered into a yard on Pinnacle street. The police were notified and taak charge of the outfit and placed it in a stable. Later it was claimed by Mr. Walter Cunningham of Ameliasburg Township. The horse got loose from a shed in which it was placed near where it was recovered by the police.

TRAIL RANGERS ENTERTAINED

The boys who are members of the Trail Rangers in connection with John Street Presbyterian Church of this city last evening were entertained at a banquet held in the Y.M.C.A. Some thirty of the boys attended and had a most enjoyable time. Rev. D. C. Ramsay, Pastor of John Street Church presided, and Mr. D. M. Farrell was vice-Chairman.

RESENT "REPUBLIC" REMARK

The Army and Navy Veterans of Kingston have decided to call the attention of the Minister of Justice to reported utterances of Lindsay Crawford, journalist, of Toronto, at a St. Patrick's Day Dinner in New York. It is alleged that Crawford stated that there was a movement in Canada to set up a republic, and this the local veterans regard as treasonable.

JOY-RIDING COSTLY

The cost of automobiling is going to be more expensive this summer as gasoline has taken a jump to 40 cents per gallon, and indications point to another increase before long. Last year it sold for 37 cents. Tires, too, have taken a jump, an increase of 20 per cent. having been fixed a few days ago.

FUR SALES AUCTIONEER

Captain Frank Craig, of the Robert Craig Co., Limited, is acting as auctioneer at the Canadian fur sales auction which is taking place at the Windsor Hotel, Montreal. The value of furs auctioned since the sale opened on Monday has been $1,824,276. The sale is being conducted by the Canadian Fur Auction Sales Co., Limited, and is the first to be held on such a scale of magnitude in Canada.—Brockville Recorder.

THE MARKET

There was a good attendance upon the market this morning and good prices were realized for all products offered for sale. Fresh dairy butter sold readily at 65c per pound. Fresh eggs were plentiful and dropped a few cents in price from a week ago. The prices today ranged from 47 to 50c per dozen. Dressed chickens sold as high as $4 a pair and the ruling price was $3.50 per pair. Maple Syrup sold at from 80 to 85c a quart. Potatoes sold at $4.25 and $4.50 per bag.

AUCTIONED WITHOUT LICENSE

Recently Mr. T. G. Smith, of Toronto, conducted an auction sale in this city without having taken out a license here as an auctioneer. He was summoned to appear before the Magistrate today to answer to a charge of selling without a license. Mr. E. J. Butler appeared for the accused and entered a plea of guilty. A fine of $10 and costs was imposed which was paid.

NEW MAP OF EUROPE

Under the direction of the Minister of Education, 40,000 copies of the new map of Europe are being distributed free among the schools of the Province. This new map has been produced by the famous map specialists, Geo. Philip & Son, of London, England. The edition is intended to supply the needs of the schools until the new Ontario School Georgraphy is ready in September, 1921. The copies of the map for the Collegiate Institutes, High Schools and Continuation Schools are being sent directly to the principals. The copies for the Public and Separate Schools are being sent to the Public School Inspectors of the Province for distribution throughout the schools of their respective inspectorates. The maps are now going out from the Department of Education and should reach all the schools before the Easter holidays.

PASSED ITS OBJECTIVE

Reports from the different districts show that the Bay of Quinte Conference has raised to date in the Inter-Church Forward Movement $381,066.45, or 105.8 per cent. of its objective.

ENJOYABLE ENTERTAINMENT

The Willing Workers, a class of boys under the supervision of Mr. Gillett, in connection with Holloway Street Methodist Church in this city last evening gave an entertainment in the Sunday School room. There was a large attendance and a varied program consisting of solos, dialogues, reading, selections by the orchestra, etc., was thoroughly enjoyed by all present. The boys acquited themselves in a manner that was favorably commented upon by the pastor, Rev. A. H. Foster, who was called upon to make a few remarks.

34th Battery C.F.A. Will Live Again

Reorganized under Former Popular Officer, Major Rierdon, D.S.O.—Guns are Here

Belleville is proud of the 34th Battery, with its interesting memories in peace and war, and the news that the Battery has been reorganized and will continue as an important factor in Canada's military forces for defence or offence is welcome news. Major W. R. Rierdon, D.S.O., will still be Officer Commanding the 34th Battery which insures abundant success as the former commander is very popular with every man who ever served under him either in war or in peace. The pesent slate of officers of the 34th Battery is as follows:

Major W. R. Rierdon, D. S. O.
Lieut. C. A. Payne.
Lieut. Ted. Yeomans.
Lieut. Wm. H. Finkle.
Lieut. Douglas Reid.
Lieut. Grenville Sinclair ??
Lieut. R. J. E. Graham.

The 34th Battery left Belleville in 1914 for Valcartier en route to the war zone, 26 over strength, was broken up at Valcartier, but many Belleville gunners served overseas under Lieut. C. A. Payne, and in other units.

Ted Yeomans left as a bombardier returning as a Lieutenant.

Sergt.-Major Gerald Spafford is one of the 34th originals who served with distinction overseas and has many interesting reminiscenses.

The guns of the 34th gave a good account of themselves on the battlefields of Europe and carried Canada's message to the Huns in no uncertain tone.

The battery guns have now all arrived and practice will begin at once with every member eager to attend Petawawa Camp this year.

The former battery headquarters on Church street, adjoining Griffin's Theatre, are again occupied by the Battery and club rooms will be at the disposal of the members.

LOCAL LEGAL.

Before Hon. Mr. Justice Latchford at Osgoode Hall.

W. C. Mikel, K.C., on behalf of the Executors of the will of the late Robert Hiram Reid, appealed from the judgment of the Surrogate Court at Belleville on passing accounts whereby the Surrogate Court held that a gift of $600 made by the deceased on May 31st 1917 to Andrew Reid an executor, and a gift by way of Joint Account made by deceased to the said Andrew Reid June 23rd 1917 of $2690, should be charged against the Executors and the Executors directed to return these amounts to the estate. The appeal was argued February 16th, 1920, when judgment was reserved. The Judge allowed the appeal and held that the above amounts were not chargeaole against he Executors. E. J. Butler for the widow; E. C. Cattanach for the official guardian.

Penny Bags For Hospital And Home

Spare Pennies Will Help the Homeless and Sick

To the Editor of The Intelligencer:

Dear Sir:—Within the last two months the Women's Christian Association has placed in most of the homes and business places in the city, Penny Bags, in which the citizens are asked to contribute monthly, what small or large sums they can spare in order to aid the financing in the up-keep of the Belleville General Hospital and the Home for the Friendless. It is not necessary to give details in regard to the increased cost of living and over head expenses; how within the last five years food and necessities have more than doubled in price. The Hospital and Home have these to contend with as well as the private individual.

There are about forty beds in the Hospital that do not pay for themselves and while the revenue derived from other beds meet the cost for their maintenance, there are a great proportion of sick people who cannot afford the full cost for nursing, room, food and in public wards, medical attendance and medicines. It is for the benefit of these patients that the W. C. A. has to seek funds. During the last few months the amount of money needed for ordinary running expenses has been far above the revenue received from the Hospital earnings. The grants from the city and county, the Government grant for indigent patients, and private subscriptions are not enough to make up the deficit, so we are appealing to the generosity of our citizens. Otherwise, at the end of the year (October) the W. C. A. will have a heavy debt for ordinary maintenance the first time in twelve years.

As for the Home—all that is necessary to say is that last year the expenses were over $500.00 above the funds available for its up keep from city grant, Government grant, proceeds from garden party and subscriptions. This year the amount of deficit will be greater.

The citizens of Belleville were most generous in their givings to the Red Cross, Patriotic and other war funds during the five years of war, and the members of the Women's Christian Association have every confidence that when the necessity for aid to finance these city institutions is placed before them, the people of Belleville will respond with the liberality for which they have always been noted.

We ask through your columns, Mr. Editor, that when the collectors call next week for the contents of the Penny Bags, that we will receive every encouragement to go on with the work that the women of Belleville, through the W. C. A. have been doing for over forty years in this city.

Yours most sincerely,
Lillian E. Mikel, President
Grace H. Wilson, Convenor
Penny Bags, W.C.A.

Belleville, March 27, 1920.

THE LAKE-OF-BAYS

A new publication just issued by the Grand Trunk describes a new and attractive resort namely, "Bigwin Island," situated in the centre of the beautiful Lake-of-Bays "Highland of Ontario" 145 miles north of Toronto. Write to any Agent of the Grand Trunk for a free copy or apply to C. E. Horning, District Passenger Agent, Toronto. 1td

Obsequies

MRS. CHAS. KIZER.

Many friends and relatives were in attendaice at the funeral of the late Mrs. Charles Kizer, which took place from the residence of her parents, Mr. and Mrs. John Hutchinson, 11 Harriet Street this afternoon at two o'clock. Rev. Canon Beamish of St. Thomas' Church, conducted the service at the house. That the deceased lady had many friends was evidenced by the many beautiful floral tributes, consisting of a pillow from the family, wreaths from Mr. T. Hope and the husband, crosses, Mr. and Mrs. D. Peoples, Mrs. A. Duncan; spray, Mrs. Pickelle and son. Mrs. H. Lazier; flowers, Mrs. Wm. Adams, Mrs. C. Doran, Mrs. H. Smith and family. The bearers were: Messrs. P. Lord, Frank Post, Frank Smith, David Peoples, Walter Pickelle and Thos. Irwin.

Mrs. Kizer leaves to mourn her loss a husband, Mr. Charles Kizer, father and mother, Mr. and Mrs. J. Hutchinson, and six sisters: Mrs. P. Lord, of Toronto, Mrs. A. B. Doherty of Hamilton, Mrs. D. Peoples, of Belleville, and Misses Nellie Theresa and Edith at home.

Just a little over a year ago the grief stricken family lost a soldier son.

Social And Personal

Mr. and Mrs. D. R. Leavens have returned to the city after a sojourn in California.

Col. Rierdon, of Madoc, commanding officer of the 34th Battery, was in the city today. Col. Rierdon intends to make his home here.

THE HAINES SHOE HOUSES

Official Inspection 15th Regt. A.L.I.

Belleville Regiment Inspected by Major-General V. A. S. Williams District O. C.

The first inspection of the 15th Regiment, Argyle Light Infantry, since the year of the outbreak of war took place in the armories on Friday evening, the General Officer Commanding Military District No. 3, Major-General V. A. S. Williams, C.M.G., being the inspecting officer. He was accompanied by two members of his staff, namely, Lt.-Col. E. W. Browne, D.S.O., M.C., and Major J. W. McManus, A.D.C. The regiment was commanded by Lt.-Col. Roscoe Vanderwater, D.S.O., and although not numerically strong presented a smart appearance. Upon the arrival of the inspecting officer the regiment was put through various manoeuvres which were well executed.

The bugle band composed of eight drummers and eleven buglers provided marching music. A large number of spectators were present and evidenced much interest in the proceedings. The members of the regiment showed that they had been well trained and marched with perfection.

At the conclusion of the inspection General Williams spoke briefly and complimented the commanding officer and the men upon the efficiency displayed and the success which had attended the reorganization of the 15th Regiment. He also referred to the reorganization of the military units in this district which as a district was considered one of the first in Canada.

Officers

The officers in connection with the regiment are as follows:

Lt-Col. Roscoe Vanderwater, D.S.O., Commanding Officer.

Major S. E. Carman, Second in Command.

Capt. and Adjutant, D. Thos. McManus.

Lt. J. R. Abrams, Signal Officer.
Capt. J. V. Doyle, Quartermaster.
Capt. W. R. Tennant, M. O.
Major S. E. Vermilyea.
Capt. R. B. Cooper.
Major A. L. Johnson, M. C.
Capt. E. A. Geen.
Lt. E. G. Jones.
Lt. C. A. Payne.
Major E. O. Keeler, M.C.
Capt. A. B. Gribble.
Lt. L. F. Green.
Major J. Downey.
Capt. W. J. Nesbitt.

Several old-time members of the 15th were present and took a keen interest in the inspection, including Col. Barragar, Major Carman and Lieut. Lorne Green.

Special mention should be made of the bugle band, 15th Regiment, A.L.I., under the charge of Bugle Major G. Hay, an old First Contingent Man. They played and marched splendidly, and as they have only been practising for a few weeks it reflects great credit to him who has trained and handled them in a most efficient manner.

Mention should also be made of Sgt. Drummer F. Sutton, who is also an old First Contingent Man, who has had the drummers in hand for about two weeks. Sgt. Sutton is one of the most efficient drummers in Canada and was drummer of the 16th Battalion Pipe Band in France for 4½ years.

Bugle-Major Hays was very ably assisted by Sgt. Ranfield, and so well did the band perform that the General Officer Commanding is recommending them for special recognition as a band.

We also buy Scrap Iron, Brass, Rags, Rubbers, etc.

Moira Encampment Exemplifies Degrees

A very interesting event in Oddfellowship took place last evening when the Degree team of Moira Encampment No. 59 of Belleville visited Stirling Encampment and conferred the Patriarchal Golden Rule and Royal Purple Degree on twenty-six candidates. The personell of the Belleville team was as follows:

Chief Patriarch—Grant G. Way
High Priest—W. F. Ashley
Senior Warden—Geo. F. Yonker
Junior Warden—E. M. Juby
Guards—C. F. Cochrane, G. A. Morton, Wm. Ralls, C. H. Cline.
Captain of Team—S. A. Barclay
Guards of Tent—Geo. Kerr and G. L. Shorey
Pianist—Geo. Thompson
Guide—Henry Ransom
Inside Sentinel—Fred Fairman

Bro. Isaac Sills, Chief Patriarch of Moira Encampment chaperoned the party while Bro. Myers Gilbert acted as High Executioner in conferring the Royal Purple Degree.

After the business of the lodge had been transacted, the Patriarchs retired to the banquet hall where they partook of the bounties which had been provided.

D.D.G.P. J. M. Clarke, of Stirling ably filled the position of toast-master.

A very instructive address on Patriarchal Oddfellows was delivered by Grand High Priest U. E. Wilson, of Napanee in response to toast to Grand Encampment, in which the speaker showed the marvellous growth and great enthusiasm being shown in this branch of the order and predicted for it great and continued prosperity. The toast to the visiting Brethren was ably responded to by Bro. Isaac Sills C. P. and Bro. S. A. Barclay, Past D. D.G.M. and Bro. G. G. Way.

The toast to the new members was responded to by Bro. John Baker of Springbrook. The toast to the ladies was responded to by Bro. Myers Gilbert of Belleville. The toast to absent brethern was responded to by Bro. C. B. McGuire.

Before the proceeding closed by the singing of the National Anthem, a hearty vote of thanks was tendered to the Belleville visitors and was suitably acknowledged, great credit being due to Patriarch E. S. Bennett of Stirling Encampment for the hospitality extended the visitors. The members of the local Encampment motored home in Mr. Huffman's bus, arriving here at an early hour this morning.

RITCHIE'S

WHISKEY AND THE FLU.

Edmonton Bulletin.

A year ago a section of the press and public were filling the air with declarations that flu had come upon the country because whisky had been banned; and prohibitionists were accused of being at best unintentional murderers because they cut off a supply of the infallible remedy for such ailments.

Well, there is no lack of whisky in this part of the country at present, and the flu is here, and it is taking people off just as it did a year ago. It is not even necessary to get a doctor's prescription, for the order-in-council which forbade buying outside the province and having it shipped in has been cancelled. Whoever will may therefore prescribe for himself as often and in what quantities he pleases; and those who were loudest in telling us that whisky was a sure cure for flu are now loudest in declaring that enormous quantities of it are being brought in and consumed.

This return visit of the epidemic has exploded the notion that liquor is either a preventative or a cure. The malady seizes alike those who drink and those who do not drink, and there is nothing to indicate that the percentage of non-drinkers who die from it is higher than the percentage of drinkers, or that recoveries are more frequent when liquor is used in treatment than when it is not used. The flu, in fact, has demonstrated that the supposed medicinal value of whisky is very largely a myth, and that the beneficial results claimed for it in one case are paralleled by the results from the use of something else in another case.

BATTLING EAGLES DROP FROM SKIES INTO RIVER

Detroit, March 26—Flying high above the city so that they resembled mere specks against the sky, two huge bald-headed eagles engaged in mortal combat. Although they had the whole United States' sky and part of Canada to fly in, the old warriors chose neutral ground, and at the conclusion of hostilities both dropped into the Detroit River.

The larger of the two birds afterwards regained sufficient strength to again to take to air, but the other was so badly wounded that he was unable to fly and was captured, but not until he gave his pursuer a desperate fight. The eagle measures six feet three inches from tip to tip.

Tony Bovicki, who landed the bird, hopes to dispose of it to the city's park department.

The daring reporter who "covered" the story is also shy about a quarter of a pound of leg which was removed by the eagle during the process of photographing.

ADVERTISING through the medium of the press is essential to our profession, although it is a very delicate thing to do; but we never fail to make friends with those who call us to aid them in time of bereavement.

Perfectly Clean!

That's the feeling you have about everything washed with Lifebuoy, especially stockings, underwear, nightgowns, sheets, blankets, and everything that touches the skin. The rich velvety lather of Lifebuoy has wonderful cleansing power, but more important, the antiseptic qualities in

LIFEBUOY HEALTH SOAP

prevents germs, disease-microbes, (and they are present everywhere), and perfect cleanliness results.

The carbolic odour in Lifebuoy is a sign of its protective qualities—vanishing quickly after use.

Two Millions The Township Roads

Another Addition to Ontario's Road Accepted as Security For Acepted as Security For Loans

TORONTO, March 26.—Another addition was made to the roads program of the Ontario Government yesterday when Hon. F. C. Biggs, Minister of Public Works and Highways, introduced legislation which will set aside two million dollars as a fund from which loans may be made to the townships for improvements to roads within the municipalites. The loans will be repayable without interest within a period not exceeding five years.

This money to townships is plus the regular grants. The Minister of High ways will say how much will be loaned to any township and it must not exceed an amount equal to ten mills on the equalized assessment of the township. The Government will undertake to accept municipal debentures as security and these will not require the approval of the electors or be the subject of other restrictions generally applied to debentures.

In addition to the proposed loans the new legislation would reimburse townships for twenty per cent. of their own expenditure on township roads. The Government retains a right of supervision over the expenditure. The bill also gives assistance to the township by making grants of 40 per cent. of the salaries of township overseers or foremen on road construction.

Suburban road grants are also fixed. In areas just outside the city limits 30 per cent. by the city: and 40 per cent. by the Province. The limit of expenditure is one-half mill on the dollar for the city, but provision is made that two mills on the dollar may be spent if the Council approves by a two-thirds vote. The Council of the county must be prepared to spend an amount proportionately.

MOTHERLESS KIDDIES TAKE JOURNEY ALONE

Toronto, March 26.—Last night the ladies of the W.C.T.U. had a little variety in their work of welcoming newcomers to this country and directing soldiers on leave to their trains, when two tiny travellers, Irene and Alfred Jones from Brockville, passed through on the way to rejoin their daddy at Winnipeg. They had lost their mother a year or so ago, and their father had gone to the West, where he had since remarried. Their grandmother, in whose care the little ones had been left had taken all precautions in shipping them to their new home. Inside their coats and sweaters were their names and addresses, with full particulars of their destination and the point of shipment.

RATE OF EXCHANGE DROPS FROM 13 TO 11%

Niagara Falls, Ont., March 26.—The rate of exchange on Canadian money dropped in Niagara Falls, N.Y. today from 13 per cent. to 11 per cent. Two weeks ago the rate of exchange was 18 per cent. Bank officials said today that there would be fluctuations in the rate from now on, as the Falls banks had decided to follow the Toronto markets.

CITIES MAY BORROW IN HOUSING SCHEME

Toronto, March 26.—The Hon. H. C. Nixon has announced the Government's programme in respect of housing, and it is as forecasted last week. The Dominion Government having declined to increase its housing grant to the provinces, this Government is abandoning the present loan system. It will be continued only as long as the present appropriations hold out. Afterwards it will guarantee the bonds of municipalities enabling them to borrow money for housing at the same rate as the province, which will be in the neighborhood of six per cent. Owing to the increased cost of building, in future the loans allowed will be larger. That for frame houses is raised from $3,000 to $3,500, for veneer houses from $3,000 to $4,000, and that for solid construction from $4,000 to $4,800. Where the owner has his land paid for $600 may be added to these loans.

EQUIPMENT WILL ALL BE CONSTRUCTED IN CANADA

Montreal, March 26—In regard to the announcement from New York relative to Canadian Pacific Railway equipment notes, the Montreal Gazette says:

"The equipment against which the new securities will be issued, involving an outlay of $15,000,000, will all be constructed in Canada, thereby assisting to the car-building and allied industries a highly substantial volume of business for some months to come."

Franchise Bill Would Curtail Strong Groups

TORONTO, March 26.—Labor members of the Legislature were aroused after a perusal of the text of the proposed Federal Franchise Act, which prohibits any organization not organized solely for political purposes from contributing to election campaign funds.

Frank Greenlaw, M.P.P. for St. Catharines and J. H. Johnston, a Labor-U.F.O. member, both intimated to The Star that it would be taken up during the afternoon session today while the debate on the speech from the throne is proceeding.

"It's a direct attack upon organized labor and the farmers," said Mr. George Halcrow, M.P.P. for Hamilton. "Our case is that contributions are made by trades unions, which while affiliated with the Independent Labor party, are not organized solely for political purposes, but rather for industrial purposes.

Charles Swayze, Niagara Falls, declared that the best way of fighting the proposed measure would be through a wide-publicity campaign through the press of the country. "There would be no earthly use," he declared, "in sending a petition to Ottawa, we know the value of such.

SLAP AT LABOR

"It's a slap at us. There's no doubt of that," remarked Frank Greenlaw of St. Catharines.

Comments of members of the local House were very decided. One member declared emphatically that the bill, which is credited to J. H. Burnham's fear in his own constituency. Others were equally of the opinion that the measure would fail to pass. Their view was that the entire west would align itself solidly against it, while any Ontario member from a rural or industrial constituency could not dare do anything but oppose its passage.

Hon. W. R. Rollo, Minister of Labor, declared that the Independent Labor party was taking steps to anticipate such a measure by assessing all members of the party directly. Mr. Halcrow, who dealt with this suggestion a litle later, however, emphasized the weakness of this point.

TORONTO MISSIONARY MURDERED IN CHINA

Pekin, March 26.—J. R. Menzies, a Presbyterian missionary of Toronto, Ontario, has been killed by robbers of Swaitingeu, Province of Szechwan, according to advices received in missionary circles here.

Doubt was expressed at the headquarters of the Presbyterian Foreign Missions Department as to the identity of the Dr. J. R. Menzies who has been killed. The missionary from Bloor Street Presbyterian Church is Rev. J. R. Menzies, M.D., but his district is in Honan Province, Northern China, whereas Swaitingeu is in the Province of Szechwan, West China, more than one thousand miles distant.

Rev. J. R. Menzies, missionary to China from Bloor Street Presbyterian Church, was born in Ailsa Craig, Ont., about 55 years ago. He graduated in Arts and Theology from the University of Toronto, and in Theology from Knox College. He first went to China in 1895, and has labored in the Province of Szechwan ever since. During the late war he was the only medical missionary in the Province who did not enter military service, he being left to do the entire medical missionary work formerly attended to by seventeen doctors. Mrs. Menzies is at present living in Toronto, having returned in the latter part of 1918 on account of illness.

CHURCHMEN LOSE ON A DIVORCE BILL

London, March 26.—The House of Lords, by a vote of 93 to 45, passed the second reading of a bill introduced by Baron Buckmaster proposing important divorce reforms.

The bill, which is based on the majority report of a Royal Commission, extends the grounds for divorce to cover, among other reasons, three years' desertion, habitual drunkenness and cases where a sentence of death has been commuted to life servitude.

After a powerful and impassioned speech by Baron Birkenhead, the Lord Chancellor, who supported the measure on behalf of the Government, the second reading was carried despite opposition from the Episcopal Bench, the Catholic Peers and the High Anglican Church Peers.

The bill has not yet appeared in the House of Commons, but it is said to be almost certain of being carried when it goes there.

GUARD AGAINST THE 'FLU

Serious Outbreaks of Influenza all over Canada

GOOD HEALTH IS THE SUREST SAFEGUARD

"FRUIT-A-TIVES" Brings Vigor and Vitality and Thus Protects Against Disease

There can be no doubt that the situation regarding the spread of Influenza throughout Canada is one of grave concern. It is quite true that the number of cases does not constitute an epidemic such as caused the suffering and sorrow during the terrible days of 1918. Yet there is no disguising the fact that everyone should be on their guard against the disease.

In Montreal alone, from January 20th to February 21st, *three thousand, one hundred and twenty-two cases* of Influenza and 139 deaths from the disease were reported to the Health Department.

If the outbreak had come at the beginning of the winter instead of the end, we might reasonably feel that the very cold weather would check the spread of the disease. But coming as it has, at the end of the winter, there is grave fear that an epidemic may occur. For spring, with its slush and rain under foot, its dampness and chill, its constant changing from cold to warm and back again, is a prolific source of coughs and colds, pleurisy and pneumonia.

The best protection, in fact, the only safeguard against the 'Flu, is, GOOD HEALTH.

Those who are not as well and strong as they should be; those who are underweight; those who are "run-down" through overwork or sickness; should build up at once. What they need is a Blood-purifier, a body-builder, a strength-giver, like "Fruit-a-tives", the wonderful fruit medicine.

"Fruit-a-tives" regulates the kidneys and bowels, causing these organs to eliminate waste regularly and naturally as nature intended. "Fruit-a-tives" keeps the skin active, and insures an abundant supply of pure, rich blood. "Fruit-a-tives" tones up and strengthens the organs of digestion, sharpens the appetite, brings restful sleep and renews the vitality of the nervous system. "Fruit-a-tives" contains everything that an ideal tonic should have; to purify the blood, to build up strength and vigor, and to regulate the eliminating organs, so that the whole system would be in the best possible condition to resist disease.

Now is the time to build up your health and strength, not only as a precaution against the ravages of Influenza, but also to protect you against "spring fever" and the inevitable reaction which comes with the appearance of warmer weather. Get a box of "Fruit-a-tives" today and let this fruit medicine keep you well.

"Fruit-a-tives" is sold by all dealers at 50c a box, 6 boxes for $2.50, trial size 25c, or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

ONE-MILL PARK RATE FOR ONTARIO TOWNS

The Private Bills Committee of the Legislature held its first meeting on Thursday, when Hon. W. E. Raney was elected chairman. Bills reported favorably by the committee were:

An Act to ratify a by-law by the town of Leaside, conferring a fixed assessment on the Canada Wire and Cable Company.

An Act ratifying an agreement between the town of Cornwall and the Ottawa and New York Railway Co.;

An Act to permit the city of Windsor to levy a special rate for park purposes;

The Act authorizing issue of debentures by the town of Sudbury.

Bills to enable town of Perth to pass by-laws for sewer extension and other work, and to permit the town of Walkerville to levy a special park rate, were deferred for further consideration.

Legislation enabling municipalities throughout Ontario to levy a rate of one mill for park purposes, instead of one-half mill as at present was forecast by Hon. H. C. Nixon, Provincial Secretary, in reply to a deputation from the Parks Board of Western Ontario, London, Woodstock Brantford and Waterloo were the municipalities represented. The bill will be sponsored by Mayor MacBridge, Labor member for South Brant.

PAY OFF SMALLER CREDITORS OF STANDARD RELIANCE

Toronto, March 26.—The probe into the affairs of the Standard Reliance, which was to have been resumed Thursday was enlarged until April 7, on account of the inability of Mr. G. T. Clarkson to attend. Claims entered by a large number of the smaller creditors for amounts of $10 and $15 are now being paid off and the remainder will come up before Mr. Clarkson for adjustment. The adjustment will probably occupy more than a week.

"BOILED TO THE BONE"

Pittsburgh, Pa., March 26.—Caught by the newsprint shortage, the Pittsburgh Dispatch appeared Tuesday morning with eighty-six condensed news items on the first page, along with a publisher's statement explaining its predicament. It is believed to be the largest number of items ever printed on the first page of a large city daily. Virtually every item in the entire issue was "boiled to the bone." Full advertising space was given only to those having contracts. Other advertisements were either reduced or refused altogether.

The Pittsburgh Press announced that on account of paper shortage it would reduce its advertising space 25 per cent.

"THE BOND OF SYMPATHY BETWEEN ONE WOMAN AND ANOTHER."

If you are discouraged with your condition, weak, tired, subject to headaches, backache, bearing down sensations, weakness of bladder, constipation, hot flushes, melancholy, tendency to cry over trifles, nervousness and loss of interest in things generally, I want to help you to better things.

My own was probably as deplorable a case as could be found, yet it yielded to "Orange Lily" treatment and today I am a well woman.

"Orange Lily" is a simple, natural, common-sense remedy that you apply yourself. To go to drinking harmful drugs for troubles such as ours, is like trying to cure a sprain with pills. The only right and effective treatment is a strictly local application like "Orange Lily."

Because I am sure in advance of the wonerful results you will have, I want to send you ten days' treatment, FREE. Will you write me to-day, NOW, and let me help you. Enclose three stamps. Address: Mrs. Lydia W. Ladd, Windsor, Ont. Sold by leading druggists everywhere.

1870 Our Golden Jubilee 1920

Present home of the Mutual of Canada, Waterloo, Ont.

"Fifty Years Young"

The Mutual Attains its Jubilee

FOR a life insurance company there is no such thing as "old age." The older the company the more strength and energy it acquires, that is, if the company has experienced a normal and healthy development such as characterized the first half century in the life of "Canada's only Mutual."

This company was incorporated in 1868, organized in 1869, and began writing business in 1870. The steady and consistent progress of the company from that time to the present has been phenomenal. The progress has been as uninterrupted as the growth of a tree. The figures from the successive reports suggest the rings that form year by year in the trunk of a sturdy Canadian Oak.

The growth of the Mutual is evidenced in the different office buildings occupied during the half century. The preliminary meetings were held in the upper story of a conveyancer's office. After a few months a larger suite was secured and there the early years of struggle were passed. A permanent home was erected in 1878, and in the year 1912 the present office was occupied—but although more than adequate then an enlargement has already become necessary.

The distinctive principles of the Mutual are such as strongly to recommend it in these days when mankind is turning to co-operative effort.

The Motto of the Mutual is "Each for all and all for Each." This more and more expresses the spirit of the age and insures the continued popularity of the company.

The one perfect floor finish.

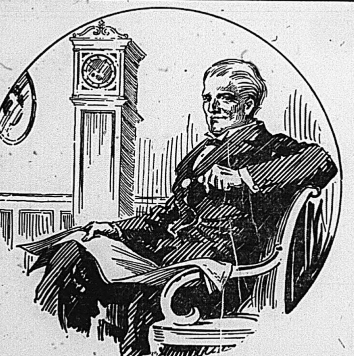
"Wood-Lac" Stain
Improves the new—renews the old.

FRITZ, WAR VETERAN DOG DIES OF HEART FAILURE

St. Thomas, March 26—Fritz, the thoroughbred English bull terrier brought from France by Major Robert Luton early last year, died Wednesday. The dogs history was as full of exciting adventures and narrow escapes as many a man's. He was found in a German trench in 1916 after the occupants had beat a hasty retreat, and was immediately made the mascot of Major Luton's company. The famous dog carried on for over a year with the boys, participating in no fewer than three dashes across no man's land, and roughing it in the trenches with the best of them. He was severely wounded during an engagement, recovered and was then gassed and shell-shocked. He never fully recovered from gas poisoning, and died of heart failure.

TWO PERISHED IN STORM

Winnipeg, March 26—Word has been received from St. Claude, Man., that after a search of three days, the body of Jean Renaud, a French laborer, who disappeared during last week's blizzard, was found in a snowbank. Tracks indicated that he had passed 200 yards from farm houses. Another storm fatality is reported from Antler, Sask., Christopher Tice, a resident of the Antler district, being frozen to death during the blizzard while trying to reach the home of his daughter, three miles from town.



The Human Clock usually *Breaks* Down instead of *Runs* Down

"IT has long been a favorite idea of mine to compare the human body with my old clock here."

"Without proper attention the old clock gets run down and stops until I wind it up again and then it ticks away just as heartily and regularly as ever."

"And so it is with the human body, but the great difference I find is that the human clock usually breaks down instead of runs down because people neglect to take proper care of their health."

"Through all these years I have managed to keep well and to keep young by using restorative treatment whenever there are indications of the system becoming run down.

"Fortunately I learned the value some years ago of Dr. Chase's Nerve Food and to its use I largely attribute my healthful condition at this age."

"When I hear people talking about being unable to sleep or of suffering from nervous headaches, indigestion or worn-out feelings I ask them, 'Why do you not use Dr. Chase's Nerve Food to increase your nervous energy'."

"So many people, as age advances, suffer from a lowering of the vitality, from high blood pressure or hardening of the arteries, but I have found that the use of this restorative treatment, when required keeps my health at the high water mark."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto. On every box of the genuine there is the portrait and signature of A. W. Chase, M.D.

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER V—Continued

The lanterns were opened and the whole body sat round against the walls on benches and whatever else was available and made a hearty meal. In the pauses of conversation could be heard through the floor overhead a little world of undertones and creaks from the halting clock-work which never spread further than the tower they were born in, and raised in the meditative minds a fancy that here lay the direct pathway of Time.

Having done eating and drinking, the instruments were again tuned and once more the party emerged into the night air.

"Where's Dick?" said old Dewy.

Every man looked round upon every other man, as if Dick might have have been transmuted into one or the other; and then they said they didn't know.

"Well now, that's what I call very nasty of Master Dicky, that I do so," said Michael Mail.

"He've clinked off home-along, depend upon't," another suggested, though not quite believing that he had.

"Dick!" exclaimed the tranter and his voice rolled sonorously forth among the yews.

He suspended his muscles rigid as stone while listening for an answer, and finding he listened in vain, turned to the assemblage:

"The tribble man, too! Now, if he'd been a tinner or counter chap, we might ha' contrived the rest o't without en' you see. But for a choir to lose the tribble, why, my sonnies, you may so well lose your—" The tranter paused, unable to mention an image vast enough for the occasion.

"Your head at once," suggested Mr. Penny.

The tranter moved a pace, as if it were puerile of people to complete sentences when there were more pressing things to be done.

"Was ever heard such a thing as a young man leaving his work half done and turning tail like this?"

"Never," replied Bowman, in a tone signifying that he was the last man in the world to wish to withhold the formal finish required of him.

"I hope no fatal tragedy has overtook the lad," said his grandfather.

"Oh, no," replied the tranter, placidly. "Wonder where he've put that there fiddle of his. Why, that fiddle cost thirty shillens and good words besides. Somewhere in the damp; without doubt; that there instrument will be unglued and spoilt in ten minutes—ten! ay, two."

"What in the name o' righteousness can have happened?" said old William still more uneasily.

Leaving their lanterns and instruments in the belfry, they retraced their steps. "A strapping lad like Dick d'know better than let anything happen onawares." Reuben remarked. "There's sure to be some poor little scram reason for't staring us in the face all the while." He lowered his voice to a mysterious tone: "Naibors, have ye noiced any sign of a scornful woman in his head, or such-like?"

"Not a glimmer of such a body. He's as clear as water yet."

"And Dicky said he should never marry," cried Jimmy, "but live at home always along wi' mother and me!"

"Ay, ay, my sonny; every lad has said that in his time."

They had now again reached the precincts of Mr. Shinar's, but hearing nobody in that direction, one or two went across to the school-house. A light was still burning in the bedroom and though the blind was down, the window had been slightly opened, as if to admit the distant notes of the carolers to the ears of the occupant of the room.

Opposite the window, leaning motionless against a wall was the lost man, with his arms folded, his head thrown back, his eyes fixed upon the illuminated lattice.

"Why, Dick, is that thee?" What's doing here?"

Dick's body instantly flew into a more rational attitude and his head was seen to turn east and west in the gloom, as if endeavoring to discern some proper answer to that question, and at last he said, in rather feeble accents:

"Nothing, father."

"Th'st take long enough time about it then, upon my body," said the tranter, as they all turned toward the vicarage.

"I thought you hadn't done having snap in the belfry," said Dick.

"Why, we've been traypsing and rambling about, looking everywhere like anything and thinking you'd done fifty horrid things, and here have you been at nothing at all!"

"The insult lies in the nothingness of the deed," murmured Mr. Spinks.

The vicarage garden was their next field of operation, and Mr. Maybold, the lately arrived incumbent, duly received his share of the night's harmonies. It was hoped that by reason of his profession he would have been led to open the window and an extra carol in quick time was added to draw him forth. But Mr. Maybold made no stir.

"A bad sign!" said old William shaking his head.

However at that same instant a musical voice was heard exclaiming from inner depths of bedclothes:

"Thanks, villagers!"

TO BE CONTINUED

A Spring Tonic Aids Efficiency

Lay Foundation of Good Health Now By Building Your Blood and Strengthen Your Nerves

The good old fashion of taking a tonic in the springtime, like most of the customs of our grandparents, is based upon sound common sense and good medical practice. Winter is always a trying time, for those who are not in rugged physical health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny, summer months, and grow increasingly pale and languid as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands of people at this season of the year.

It is impossible to be energetic if your blood is thin and weak or if your nerves are frayed or shattered. You cannot compete with others if you do not get refreshing sleep at night, or if your appetite is poor or you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine there is no safer or better tonic than Dr. Williams Pink Pills. These pills tone and enrich the blood which circulates through every portion of the body, strengthening jaded nerves and run down organs and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

Mrs. J. N. McNeil, Glace Bay, N.S., says: "For years past my home has never been without Dr. Williams Pink Pills, and I have good reason to praise them highly. Following an attack of la grippe, I was left in a badly run down condition. I had no appetite and felt so weak I could scarcely go about the house. I was taking medicine, but it was not helping me, and a friend advised me to try Dr. Williams Pink Pills. I used them for a time with the most beneficial results. My appetite improved, my strength returned and I was soon able to do all my housework. I now use the pills every spring and find them a splendid strength bringing tonic. I have recommended the pills to other friends who have used them with good results."

Dr. Williams Pink Pills are a tonic, not a stimulant. They build up the blood, and through their use not only the disastrous after effects of influenza but also troubles due to poor blood, such as anaemia, rheumatism, indigestion and the generally worn-out feeling that affects so many people, disappear You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for $2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

RESTRAIN COMMERCE BOARD.

Toronto, March 26.—The Fort Frances Pulp and Paper Company at Osgoode Hall issued a writ against the Attorney-General of Canada, the Board of Commerce of Canada, Mr. F. O'Connor, and James Murdock, either as members of the Board or as individuals.

The Company wishes a declaration that neither the Board nor its members has under the Combines and Fair Prices Act, 1919, or under the order-in-Council of January 29, 1920, any jurisdiction or authority to make or enforce certain alleged orders of the Board dated March 4th and 5th, 1920, and styled Orders No. 6 and 9.

The claim against the Board and its members is for an injunction restraining them from enforcing or attempting to enforce the orders or from making or enforcing against the company any orders affecting the company in the sale and disposal of newsprint manufactured by the company.

Mr. T. Turriff, R.M.C., and ex-Reeve, is moving into Mrs. J. Milne's (nee Mrs. J. Sutton's) farm house.

PILES Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and as certainly cure you. 60c. a box; all dealers, or Edmanson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

Sweet Milk—Sour Milk—Buttermilk or Water

Use any of these when baking with

EGG-O Baking Powder

It gives you a wider choice of ingredients for cakes and pastry, yet assures you of positive success in your baking.

Egg-O is absolutely pure and efficient —And *double acting*, that is, its first action occurs in the mixing bowl when cold water or milk in its various forms is added. Allowing the dough to stand for 15 or 20 minutes will give better results. When you put your baking in the oven Egg-O will continue to rise until your cakes are properly baked.

Buying Egg-O in the larger tins is most economical for family use.

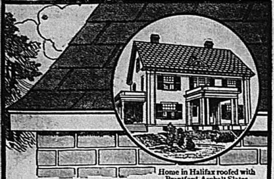
The Original Worcestershire



Home in Halifax roofed with Brantford Asphalt Slates

A handsome roof that defies the weather

An added touch of beauty to any house is a roof of Brantford Asphalt Slates, which are in soft, harmonious shades of reddish brown and dark green. The colors are permanent and unfadeable, being the natural shades of the slate just as it is taken out of the quarries.

It will also prove a very economical roof, because Brantford Asphalt Slates do not split, get loose, absorb water or rot. They are strongly fire-resistant and are classified as non-combustible by the fire insurance companies, and allowed to be used in cities where the most rigid fire-prevention By-laws are in force.

Brantford Asphalt Slates are very moderate in cost. The regular size of the slates and their pliability make them easily and quickly laid, thus saving time and cost of labor. Being made of high grade felt saturated and coated with asphalt, and with a surface of crushed slate, they make a roof that defies the elements and is a permanent part of the building, just like the walls and the foundation.

Brantford Asphalt Slates

are being used more extensively every year for city, country and summer homes, churches, golf clubs, stores, garages, and wherever an artistic effect is desired on a pitch roof.

If you are going to do any building this year or have an old roof that needs replacing, it will be to your advantage to investigate Brantford Asphalt Slates.

Instant Bunion Relief

At Last! Instant Relief for that Awful Bunion

Try it at our expense. Why continue to suffer the agony, torture and discomfort of that awful bunion when here is Instant Relief Guaranteed—and you don't have to pay me one cent unless you get absolute satisfaction.

FAIRYFOOT Guaranteed to Give INSTANT RELIEF

Hundreds and thousands of men and women made happy last year. Over 20 years of continued success. Millions who have tried pads, plates, steel contraptions and all sorts of cheap remedies without success gladly pay the full price for a real remedy—FAIRYFOOT—the only known Bunion cure. Don't give up—don't think that Bunions are incurable—don't say you've tried everything under the sun—get a box of FAIRYFOOT—give it a trial—and if you do not find instant relief, return what's left and get all your money back. We know FAIRYFOOT has given complete satisfaction to all our customers. We know they will do the same for you. Hence, we gladly guarantee FAIRYFOOT. We have a FAIRYFOOT Remedy for every foot trouble.

OSTROM'S DRUG STORE - - - - - 213 FRONT STREET

From Our Own Correspondents

DETLOR.

We had some pretty breezy days in January and February, and now it is quite pleasant again, and "Sap's runnin'!

Water's runnin', too. We hear the musical ripple of the little streams on every side, and quite a rush in the large. Maybe by the time this reaches Belleville they will be having the high water mark in that city. Let us hope the people will not suffer from a flood as in past days.

Mr. C. E. Bishop is spending a time in our vicinity. It would need to be a better season for peas this year, or it would be poor inducement for any person to sow peas. There was hardly straw enough to harvest, to say anything of peas.

Mr. and Mrs. Hugh Lackie and son are leaving for Peterborough at an early date. Mr. Lackie has sold the "Cliff House" to F. Rupnow. Mr. Rupnow has sold his farm, stock and implements, to Percy Smith, and a general moving will take place.

Rev. and Mrs. Ferguson are moving into the house belonging to the farm lately owned by Mr. G. T. Tice.

Mr. H. Bradshaw returned last week after spending several days with relatives and friends in different localities. He purchased a fine little horse to bring home.

Sergt. Clayton Hennessy was lucky enough to return home from camp intact after three years overseas' service. Clayton must have had a "lucky piece" to carry with him as a preservative. At least he says he is one of the lucky boys.

Mr. J. Foster, Senior, of New Liskeard, formerly a resident of this locality, later of Maynooth, is visiting old friends for several days.

Mrs. Alex. Barr, who has for several weeks at Toronto General Hospital, is reported to be in very favorable condition, and is expected home in a short time.

UNION VALE

Mr. and Mrs. C. Vincent of Picton, visited his parents, Mr. and Mrs. F. Vincent on Sunday.

Miss M. Fargey has resumed her school duties again after a week's vacation on account of the flu.

Mr. and Mrs. Earl Pearsall and little Reta were Sunday guests of Mr. and Mrs. F. Pearsall of Picton.

Miss B. Leavitt has returned home after a few weeks visiting friends.

Mr. and Mrs. A. Tripp motored to Belleville on Sunday.

Mr. and Mrs. Harold Walters of Schora, were Sunday visitors of Mr. and Mrs. Roy Leavitt.

Mr. and Mrs. Clare Pearsall entertained Mr. and Mrs. E. Wood of Bloomfield on Sunday.

A number of people from this vicinity attended the funeral of Mrs. Walter Noxon, of Picton, on Monday last.

◆

SIR SAM ACTIVE AGAIN.

Ottawa, March 26.—Lieut.-Gen. Sir Sam Hughes arrived in Ottawa recently, and left for a two weeks' holiday at Atlantic City. Sir Sam was in fine spirits and looked in better physical shape than he has for some months. While in the city Sir Sam interviewed a number of people on political subjects and showed all his old-time fire. When he returns it is understood that one of the first subjects he will bring up in the House of Commons is the exclusion of the press from the corridors of the House. "It would never have passed without a protest had I been here" was the manner he expressed himself to a group of members.

Another matter Sir Sam is planning to have a field day on is the result of the enquiry into the Guelph Novitiate matter and on the verdict rendered by the recent enquiry.

◆

WILLIE IS UNWILLING TO BE UNDER PAPA'S EYE

The Hague, March 26—Announcement by the Premier that the Dutch Government had granted the Island of Wieringen to the former German Crown Prince as a place of residence is believed here to complete the steps by which Holland seeks to meet allied demands as to the safekeeping of former Emperor William and his son.

A decree by which William of Hohenzollern would be confined to that portion of Utrecht including Amerongen and Doorn was made public last week.

Reports are current that the Crown Prince asked that his residence be fixed on the island and declined an opportunity to live near his father.

◆

SUGAR STILL SCARCE REFINERS HAVE LOTS

Ottawa, Ont., March 26—As a result of the advice sent out by the Canadian Trade Commission to householders to begin now to lay in their supply of sugar for the canning season, eastern Canada and middle Canada have already cleaned up all the granulated sugars offered. There is still a shortage of sugar in British Columbia and Alberta

As an evidence of the demand for sugar coming to Canadian refiners from points outside the country, it was stated today that to date there have been requests for export licenses covering one billion pounds of sugar. All of these have been refused. There are also applications in hand for approximately the same amount covering the period from April to July inclusive. While it is not intended to grant export licenses as long as the home market is short there may be a small measure of export allowed in order not to penalize the refiners too heavily.

◆

GRAY-DORT Dealers Lead

Most good automobile dealers know motor cars inside and out. They've watched the business from its infancy. They've seen cars come and go. Above all they know motor car values. They have to.

You will find in practically every city and town in Canada, that the leading motor car dealer is a Gray-Dort dealer.

Every motor car dealer knows the reason for this. Every Gray-Dort owner knows the reason. *The Gray-Dort offers unequalled value to motor car purchasers.*

The $1365 (PLUS WAR TAX) GRAY-DORT is Dominant Value

What other car at anywhere near $1365 offers you these Gray-Dort qualities?

A motor larger and finer than usual for light cars—3½" bore and 5" stroke—built from flawless castings and tough, high-carbon steel—and finely finished. The crankshaft weighs *40 pounds.* The radiator is cellular type and the water jackets are extra large. An improved carburetor marks this car, and a better electrical system. Starting and lighting are Westinghouse, as in the most expensive cars.

There's over-strength in the Gray-Dort frame of heavy channel steel; in the husky, Chatham-built rear axle; in the long, cantilever rear springs; in the specially designed, new steering gear; in the big brakes, now lined with Thermoid. The front wheels now have roller bearings. There is a new gas tank—larger, and in the rear.

Convenience of riding and driving is in the Gray-Dort. The steering wheel is of the height and size for tireless driving. The gears can be shifted with two fingers' pressure. The horn, the ignition and light switches, the clutch and brakes, all are placed for greatest ease in driving.

A shorter and smarter cowl now gives more room in the driving compartment. A new Gray-Dort feature has greatly increased the leg-room in the tonneau. Seats are tilted at just the proper angle for comfort. As in cars costing $2000 and upwards, the Gray-Dort now has side-curtains opening with the doors.

CLEAN-CUT GOOD-LOOKS

The Gray-Dort is not startlingly extreme, the Gray-Dort is a car of quiet beauty—smooth lines and perfect proportions. The smart, new top is hand-tailored in our own shops. The new hood, with its many long, narrow louvres lends just a touch of European style. French-pleated upholstery, too.

And completing the picture—the wonderful Gray-Dort finish—development of 60 years' coach-building—applied by master craftsmen, Gray-Dort trained.

Unquestionably there will be a shortage of these cars at $1365. You had better see the Gray-Dort dealer now.

PRICES

The Gray-Dort 5-passenger car, finished in Gray-Dort green and black and with standard equipment is $1365 f.o.b. Chatham. War tax extra.

The roomy 2-passenger roadster is the same price.

THE GRAY-DORT SPECIAL

For the man who wishes something a little extra in his car, we have built the Gray-Dort Special. Maroon body, with brown rayntite top. Plate glass rear window. Gipsy curtains. Rookie tan wheels. Motometer. Tilting steering wheel. Real leather upholstery. Mahogany instrument board. Just the touches which lift this car above the ordinary. $150 extra on the standard.

AND THE ACE!

The Gray-Dort Ace—the most beautiful light car of to-day. Sapper green body with handsome California top to match.

Trouble lamp and bull's-eye flashlight. Electric cigar lighter. Rear-vision mirror. Plate glass windows. Oversize, grooved-tread tires. This is the *de luxe* car for the man who does not wish to pile up a tremendous operating cost. $255 extra on the standard.

BULL SELLS FOR $2,800

London, March 26—With total sales of $31,205, the Western Ontario Consignment Association concluded its two day sale and exhibition at the Western Fair Grounds. A champion bull, Broadbrooks Prince, owned by Geo. Gier & Son, brought the highest price of the day, namely $2,800. The bull had won the championship of the exhibition before being put up at auction. The purchasers were Carpenter & Carpenter of Baraboo, Wisconsin. No. 133,524, Roan Duchess, offered for sale by William Waldie of Stratford was sold to Griswold Brothers of Livingstone, Ohio, for $1,450. The Griswolds bought eleven head of cattle at the sale. This firm paid $805 for a cow, Red Belona, owned by R. S. Robson of Denfield, and a similar amount for another cow purchased from W. Waldie of Stratford. They also paid $715 to Percy De Kay for Lavender Pride II. During the exhibition 137 head of cattle changed hands, the average price being $350.

A CHRONOLOGICAL PUZZLE.

A subscriber offers this suggestion to the employee who thinks he is having a hard time of it:

Are you earning your salary? Think it over. Take a pencil and figure out the schedule below (always subtracting):

Days in a year	365
You sleep 8 hours a day	123
	243
You rest 8 hours a day	122
	121
There are 52 Sundays in the year	52
	69
One-half day on Saturday all the year	26
	43
Legal holidays in year	12
	31
One hour a day for lunch	16
	15
Two weeks' vacation	14
Leaves	1

Now, how much do you owe your boss? Think it over'

TIRED, WORN-OUT WOMEN

You Who Are Over-Worked, Run-Down, Thin and Ailing

You Need Vinol, the Blood, Strength and Vitality Maker, to Restore Your Old Time Health and Energy

There are millions of women who have been under such a strain caused by the last few years of war that they have sacrificed their health, and it seems a long up-hill road to restore the old-time energy and vitality.

A prompt remedy for that continual tired, worn-out, listless, sluggish condition is VINOL, our cod liver and iron tonic without oil.

In a natural manner it creates a hearty appetite, aids digestion, makes rich, red blood, quickens the circulation, and strengthens every organ and muscle of the body, and vitality and energy quickly replace weakness and lassitude.

Mrs. E. Trotter, of Toronto, Ont., says: "I was weak, run-down and nervous. I had dizzy spells and no ambition to do anything. I saw VINOL advertised and tried it. In about one week I felt better, and it built me up and restored my strength. I want to recommend VINOL to other women who are weak, nervous and run-down."

VINOL is sold on a positive guarantee by the leading Druggists of Canada, to return your money if it fails to benefit you.

Friends Tell Friends

ZUTOO

Stops Headache

Five years ago ZUTOO was practically unknown in Canada.

To-day, thousands and thousands of men and women depend on these little harmless tablets for quick relief from Headaches.

Their fame has gone from friend to friend—from town to town—from coast to coast.

Wherever there are headaches, there should be ZUTOO Tablets—they cure in 20 minutes. 25c a box—at all dealers or by mail postpaid. B. N. Robinson & Co. Regd. Coaticook, Que.

RHEUMATIC PAIN

Rub Away The Soreness With "ABSORBINE JR."

"ABSORBINE JR." penetrates deeply into the affected parts—sets up free circulation—relieves the pressure on the nerves—and gives wonderful relief in a short time.

"ABSORBINE JR." is so highly concentrated that just a few drops, rubbed in thoroughly, does more good than a pint of the ordinary greasy, ill-smelling washes.

If you suffer with Rheumatism, Sciatica, Lumbago, Stiff or Swollen Joints, Lameness, Sprains or Bruises, rub with "ABSORBINE JR."—the great family liniment and home treatment.

Spots On Sun Cause Aurora, Expert Holds

Prof. E. E. Barnard Ascribes Monday's Display to Magnetic Storms

That the vivid Aurora Borealis witnessed on Monday night was undoubtedly caused by disturbances on the sun was the opinion expressed by Prof. Edward E. Barnard of the Yorkes Observatory. Mr. Barnard who addressed the Toronto Empire Club, Thursday on the subject of "Celestial Photography," is one of the greatest—if not the greatest—authority on this subject and has practically placed the science of stellar photography in the position it occupies today.

"Magnetic storms" on the sun's surface, "or what we know as sun spots," said the professor, "produce similar disturbances in the atmosphere of the earth and are responsible for the aurora phenomenon witnessed a few nights ago. "It has been found," he continued, "that these solar disturbances are co-incident with the occurrence of the aurora and when the sun spots are plentiful the aurora is plentiful also, but to ascribe the occurrence of the aurora to individual spots on the sun, as some have been doing, is entirely wrong," Prof. Barnard said. "All that we know at present," he added "is that the disturbed condition of the sun's magnetism is responsible for the production of the phenomenon, and though some two weeks ago there was a large spot on the sun, it cannot be said that that one spot caused the beautiful display witnessed on Monday night."

NO LIFE ON MOON

Questioned by The Globe on the recent statement made by Prof. W. H. Pickering, who is in charge of the station of Harvard University in Jamaica that he saw no reason why there should not be some kind of life on the moon, Prof. Barnard could not agree with this. "Life as we know it," he said, "or could conceive it, could not exist there, where there is not atmosphere and where the temperature during the day may be 300 Fahrenheit and at night several hundred degrees below zero." "What are the possibilities of Mars being inhabited?" said The Globe. "It is a mere matter of speculation," replied the professor "to say that the planet is inhabited. It goes through certain seasonal changes but its atmosphere is very thin.' While he would not say that it was impossible for life to exist on Mars, Mr. Barnard thought it was extremely doubtful.

That there must be other worlds that can support life, however, is an opinion strongly held by Prof. Barnard.

NEED OBSERVATORY HERE

"I truly believe," he said, "that there must be worlds surrounding those suns in the immensities of space that are capable of supporting life and sustain, maybe, a higher order of intelligent beings that which we know of here. There is no reason that I can see," he added, "why the earth should have the most intelligent order of beings in the universe."

It is the opinion of Prof. Barnard that if the people only knew a little more of the simple facts of astronomy they might be saved considerable anxiety and have more peace of mind in the face of such statements as that made by Prof. Porta of the University of Costa Rica that the world would come to an end on December 17 of last year. Many letters he said, had been received at Chicago University from people who were anxious to know if such a calamity was going to come to pass. "What you want in Toronto," the professor concluded, "is an observatory that will be especially useful to citizens where they can come and hear lectures on astronomy and be given an opportunity with the aid of a good telescope of learning, to their delight and edification some of the wonders of the stellar universe."

◆

EXCESS PROFITS TAXES NET U. S. HANDSOME SUM

Washington, March 26—Income and excess profits taxes aggregating $908,529,172 were paid as the first installment of the United States tax bill for 1919.

While these figures do not represent an exact one-fourth of the taxes for last year, they indicate collection for the entire year of approximately $3,500,000,000, Treasury officials said. The first installment more than offsets outstanding Treasury certificates of indebtedness, issued in anticipation of the payment, and leaves the Treasury in a position to continue its financial program, outlined several months ago.

Collections for the first period of 1918 were approximately $1,200,000,000, the reduction of this year being due to the lowering of the normal income tax rate. The second district of New York, comprising the heart of the financial section, held its place in yielding the greatest amounts or revenue of all collection districts, as it has for many years. Its total was $154,505,980.

Ottawa beat Seattle again last night on a water-covered sheet of ice in the second game of the Stanley Cup Series. The score was 3 to 0.

DUNLOP

CORD TIRES

The Super-Test

¶ BEFORE you are asked to buy or try Dunlop Cord Tires, they must undergo a test such as you would never give them.

¶ Tires just like your garagemen and dealers now sell are put on our own test cars, and away speed the drivers.

—A Test that is kept up day and night.

—A Test that takes in some of the worst roads in the country and the generality of bumps, bad turns, and all the sudden stops that go with them.

—A Test that specifies the number of miles which must be made by the drivers each day and night.

¶ The results of this crucial test, naturally, have an important bearing on our manufacturing policy.

¶ Tested-in-Advance Service aptly applies to **Dunlop Cord Tires—"Traction," "Ribbed."** Can you ask for a greater guarantee than the story the road tells—a story which in the case of Dunlop Cord Tires proves that our manufacturing methods are not only Right but **Dead Right?**

OTTER THE FEATURE OF FUR AUCTION SALES

Montreal, March 26—Otters were the feature of the afternoon sales by the Canadian Fur Auction Sales, Ltd., here. The highest price paid was $105 and it was stated that the prices ranged about 35 per cent. higher than those paid at the last auction sales at St. Louis. Ermine skins went at $4 and 38,433 of them were sold.

The sale has been running behind schedule, and it is possible that evening sales will have to be held to end the auction by the close of the week.

Sales for the morning amounted to $123,365. Some of the keenest bidding was witnessed that there has been at any sale in the last year. Canadian otter was up and was run up advance on advance, to a high mark of $105, the prices secured on the average being 25 per cent. higher than at St. Louis and New York sales. Buyers could not get enough. Ermine was auctioned first, and brought as high as $4. Up to noon 113 lots had been sold, making a total of 619 from the opening. Australian opossum was also offered and eagerly purchased.

At yesterday's auction buffalo robes and heads were disposed of. The hides went at prices ranging between $65 and $150, but the heads brought prices from $250 to a high of $1,025, the latter price being paid by Edward M. Spear of New York.

Following this there came a sale of 30 musk ox robes, trophies of Capt. Bernier's last trip to the Arctic, which went at from $125 for undressed to $175 for dressed hides.

◆

TARTARS MURDER 17,000 ARMENIANS

London, March 26—Tartars recently massacred 17,000 Armenians within the boundaries of the new Armenian State at the instigation of the Young Turks in the Azerbijan Government, according to Archbishop Kholn, an Armenian from Erivan, who has arrived in London to confer on behalf of the Armenian Republic with allied authorities regarding the situation in Armenia.

Three thousand persons are being held in Tartar villages, and portions of the Armenian frontier are being held by the Tartars, according to the Archbishop. He says that in December the Tartars murdered 14,000 Armenians at Akoulis, in Azerbijan, on the pretext that Tartars had been massacred in Armenian territory.

◆

HOLSTEIN CATTLE SALE.

Stratford, March 26.—Perth Holstein Breeders' Association held its third annual consignment sale here. Thirty-eight cattle were sold. "Georgian Grange," consigned by Wm. Shearer, Listowel, brought the highest price, selling to J. R. Spry of Whitney, for $370. "Perrina Butter Girl," owned by Mulhall Arbogast, Stratford, and bought for $310, came next. The average price was about $200.

Railway Crossing Tragedy Express Strikes Auto

MRS. (DR.) J. J. ROBERTSON INSTANTLY KILLED, DR. ROBERTSON SEVERELY INJURED IN ACCIDENT AT GIBSON CROSSING OF C. P. R. SUNDAY AFTERNOON.

A bright and beautiful spring day, with the sun shining brightly overhead and the birds twittering cheerily in the bushes by the roadside, held no shadow of impending tragedy as a motor car containing two people sped along the Kingston road early Sunday afternoon coming from Point Ann toward Belleville. The two occupants of the car were Dr. J. J. Robertson, of Belleville, who, accompanied by his wife, had been making a professional call upon a patient at Point Ann and was returning to Belleville. A few minutes later the car was a tangled mass of wreckage scattered along the deep ditch bordering the C. P. R. tracks, Mrs. Robertson was dead, and her husband seriously injured, was bending over her lifeless body in the vain hope of finding some spark of life left. Tragedy, sudden and terrible had darkened the brightness of the day and brought to an abrupt and saddening close what otherwise would have been a pleasant outing.

As Dr. and Mrs. Robertson were approaching what is known as the Gibson crossing of the C. P. R. about one mile and a half east of Belleville, the Ottawa,Toronto express, about fifteen minutes late, due at Belleville at 2.28 p.m., was also nearing the crossing, coming from the east and going at a good rate of speed. Motor car and locomotive met on the crossing and the motor car was smashed to pieces and thrown into the ditch with the occupants. The engine crew, apparently unaware of the accident, did not stop the train, which continued to Belleville station, where it was found that an accident had taken place as the pilot of the locomotive and the step of the cab was damaged, while several cars were scratched. The train then backed up to the scene of the accident, where the conductor secured all particulars available and the train resumed its journey.

The residence of Mr. J. Gibson stands near the crossing where the accident happened, and Mr. and Mrs. Gibson were in the house at the time, but the first intimation they had of the tragedy was when Dr. Robertson appeared at the door and asked for a conveyance, telling them than an accident had taken place. Mr. Gibson failed to recognize the physician, so pitiable was his condition, with his clothing torn to shreds and his face and hands blackened and bloody. Mrs. Gibson gave the doctor a quilt to wrap about himself and the injured man at once returned to the wreckage, unable to believe that his wife was dead, as it had seemed when he started to the Gibson house for assistance. It was too true, however, and as nothing could be done for Mrs. Robertson the body was left in charge of Mr. Beuford Gilbert, while the doctor was driven to the hospital by Mr. Gibson, and Coroner Dr. Yeomans notified by telephone of the accident.

One Eyewitness Only.

The only eyewitness of the tragedy was Mr. Beuford Gilbert, who resides on his farm about nine miles from Picton. Mr. Gilbert's wife is nursing her aunt, Mrs. Knox, who resides on Dundas street, and has been ill for some time. Mr. Gilbert came to Belleville Saturday on business and remained over Sunday visiting his wife. Sunday afternoon he thought he would make a call upon his uncle, Mr. J. Gibson, and walking down the track, had reached a point about forty rods from the Gibson crossing when the vibration of the rails warned him that a train was approaching. As he stepped from the track he noticed a motor car approaching the crossing and the possibility of an accident occurred to him. The motor car was not going very fast, and Mr. Gilbert hoped that it would stop before reaching the crossing; but to his horror it kept on and the express rushing around the curve, struck the car and hurled it into the air—it seemed to fall back against the train where it was torn to pieces and scattered along the deep ditch which borders the track at this point. Mr. Gilbert said that from where he stood it looked as though the doctor had realized the danger too late and had tried to swing the car to one side, only the front of the car being on the track, with the wheels turned toward the ditch. The crash came before he could get the car out of danger.

Mr. Gilbert heard the whistle of the locomotive for the crossing, also the warning bell stationed on the sign post. It all happened so quickly, however, that the whistle, bell and crash of the accident seemed to blend together. There was no explosion of gasoline, and only a faint puff of smoke-like vapor from the smashed engine of the motor car. As soon as the express had flashed by he rushed to the wreckage and saw a man crawl from the ditch, his clothes in tatters and falling from him, and blackened and muddy from head to feet. Mr. Gilbert looked at the motionless figure of Mrs. Robertson lying amid the ruins of the automobile in the ditch and saw that she was dead. He then helped Mr. Gibson to hitch up his horse, which was accomplished very quickly so that inside of fifteen minutes Mr. Gibson was on his way to the hospital with the injured physician. Mr. Gilbert remained to guard the body of Mrs. Robertson from curiosity seekers until the arrival of the Coroner, who soon came and took charge, the body being afterwards removed to Tickell & Sons' morgue.

Mr. Gilbert states that as the express passed him he saw two men looking out of the cab window, presumably the head brakesman and the fireman. They were looking back toward Gibson's crossing. The engineer was sitting on the opposite side to that where the accident occurred. The warning bell at the crossing, in Mr. Gilbert's opinion, was not lough enough to be heard by anyone in an automobile, and in any event started to ring only a few seconds before the train was on the crossing. He saw Dr. Yeomans, the Coroner, time the bell on the approach of a freight train, the bell starting to ring, he understood, twenty-three seconds before the locomotive was on the crossing. An express travelling faster would make the crossing much quicker. He was surprised that the express did not stop after the accident occurred. Upon examing the marks on the crossing he found that the right front wheel was across the rail but that the wheels had been turned in an effort to escape being struck by the express by throwing the car into the ditch.

Remarkable Nerve.

Mr. Gibson stated that Dr. Robertson showed remarkable nerve and endurance despite his injuries and the terrible shock to which he had been subjected. He crawled out from beneath the remains of the automobile in the ditch and walked unassisted to the Gibson house, arranged for the conveyance, then returned to minister to his wife. On the way to the hospital the doctor seemed dazed and at times seemed to have difficulty in retaining consciousness, once remarking to Mr. Gibson that he was going blind. At the hospital, however, he left the buggy unassisted and walked up the steps into the institution, where he immediately received every attention. It was found that none of his external injuries were serious, and unless he was injured internally recovery was certain.

A sad feature of the accident is the fact that three little children, Elda, Jack and Catherine, are left motherless.

Dr. Robertson's car was a Maxwell runabout, with blue top, he was driving and Mrs. Robertson sat on the side nearest the approaching train and would receive the first shock of the collision. That she was instantly kill-

Lady Astor's Whirlwind Oratory Pulverizes Male Commoner

LONDON, March 29.—Lady Astor's whirlwind oratory pulverized a mere man in the House of Commons debate when he wanted to restrict the vote to women more than 30 years of age. She declared that woman should have the same voting privileges as are possessed by man, in order to repair the damage man has done in the past. She stigmatized her opponents as "reactionaries, more dangerous than the direct actionists," and declared that men did not win the war alone, but, to the contrary, women did their share in achieving the victory.

Men fear "pussyfoot" prohibition, she declared, but women are going to get "pussyfoot" as well as other reforms. Indeed, women are going to give men the things which she thinks are best for them. Men had made such a mess of things in the past that women would be fully justified in disfranchising them.

It is impossible to argue with a woman, Sir Frederick Banbury, Coalition Unionist of the City of London, retorted. Indeed, most women on a fine afternoon like this, would not listen to a Parliamentary debate, but would be out buying clothes, like Lady "Nancy" who, he asserted, passed an entire afternoon in a Plymouth store recently buying a dress which did not fit.

Lady Astor denied this indignantly.

Temperance Law Likely To Stand

TORONTO, March 29.—Charles D. Steele, president: D. W. Sinclair, vice president and Rev. Ben H. Spence, secretary, representing the Ontario branch of the Dominion Alliance waited on Sir George Foster, Hon. N. W. Rowell and Hon. C. J. Doherty in Ottawa.

"We had a very cordial reception but were given no encouragement as to the Government introducing legislation removing the doubts and the disabilites surrounding Federal Bill No. 26, which allows the importation of liquor into Ontario, stated Mr. Spence.

In regard to the applicability of Bill 26 to Ontario legislation, a stated case was asked to make more clear the meaning of the Act.

GOVERNMENT CONSIDERATION

"We also asked," said Mr. Spence "that the act be amended so as to remove the difficulty existing because of a clause which now exempts liquor imported for medicinal, sacramental, commercial and manufacturing purposes and requested that shipment and importation of liquor, for these permitted purposes be limited to persons authorized by the province to sell. This the Government would not promise to do, but are considering the matter.

IS BILL VALID?

"It is a matter of regret that our mission was not more successful. Doubt does exist as to whether Bill 26 applies to the Province of Ontario and if a vote were taken and the bill proclaimed, the validity of the measure would depend upon a court decision upon that doubtful legal point.

"It seems unfair that we should be put into a position of going into a campaign upon an uncertain law. We are still continuing the fight to get these doubts removed, either at Ottawa or Queen's Park."

Pensions Board Changes System

Closing Kingston Office and Creating Travelling Medical Board

KINGSTON, March 29—The Board of Pension Commissioners is closing up the local office on April 30. The Board has decided to close up all small offices and medically examine pensioners at various centres throughout the Province by means of a travelling Medical Board. The Province is divided up into small sections, with a large town as a centre, and the pensioners living in that section are brought into the small centre at a time when the traveling board is sitting. This will mean a considerable saving in administration expenses.

In this district examination centres will likely be established at Port Hope, Peterboro, Brockville, Belleville, Kingston, Lindsay and Trenton. There are 2,500 pensioners in the Kingston district and these will be handled by organizations such as the Army and Navy and the G. W. V. A. as far as complaints are concerned, the information being sent to the district office for consideration and action. The half-million dollars saved in administration will make it possible, it is said, for the Government to add materially to pensions of those now dependent on the Board of Pensions' Commissioners.

NO GERMAN TROOPS ALONG THE RHINE

Paris, March 29.—The allies refused permission to the German Government to send 75,000 reichswehr troops into the Rhine Provinces to restore order there.

Six Labor Men Guilty Five Of Conspiracy

R. E. Bray Convicted of "Nuisance" Only—Heaps Acquitted on all Counts

WINNIPEG, March 27.—Alderman John Queen, William Ivens, W. A. Pritchard, R. J. Johns, and George Armstrong, leaders in Winnipeg's general strike of last summer, this afternoon were convicted by the Assize Court of seditions conspiracy on account of their actions in connection with the strike. hey also were convicted of having committed a common-nuisance.

R. T. Bray was found not guilty of conspiracy, but guilty of committing a nuisance.

Alderman A. A. Heaps was found not guilty on all counts.

Scenes of disorder marked the receipt of the verdict by the crowd in the courtroom. Through a mistake it went from mouth to mouth that the accused were not guilty. A wild cheer arose. Mr. Justice Metcalfe in the court, annoyed by the noise, promptly ordered the crowd to be cleared. A squad of contables, with Deputy Sheriff John Pyninger at their head, started to clear the room.

Then the report of the actual verdict swept through the crowd.

The sheriff and his men were hissed and hooted. Somebody hit Deputy Pyninger a fist blow. A couple of the constables struck back into the crowd and it looked for a moment as if there would be a riot. After ten minutes the deputy sheriff, and constables succeeded in clearing the hall and drove the crowd into the street. Everything became calm.

The accused all accepted the verdict quietly. Heaps showed no elation over his acquittal. Relatives of the men found guilty who were in the courtroom were deeply affected by the verdict.

When the first verdict of guilty was announced in the case of William Ivens a suppressed groan arose from the crowd and as the other verdicts followed, the wives of the several men who were in various parts of the courtroom broke down one after the other.

Seven Paper Stocks Climbed Up In Week

As forecasted a week ago, strength developed in the paper stocks and in one instance, that of Abitibi common the advance in a single day reached a maximum of 51 points. In the past seven days seven of the ten most important paper stocks have moved upward. One, Brompton is unchanged, another, Shawinigan, is a point lower, and Wayaganack is three points lower. The remaining issues moved up a total of 92 points an average gain of over 13 points.

Sinn Feins Get German Munitions

LONDON, March 29—British authorities in Ireland have discovered a shipload of rifles, machine guns and ammunitions, concealed in beer barrels shipped from Germany, the Evening Standard said.

The newspaper said the Sinn Fein planned an uprising for Easter and that the smuggled arms were designed to arm forces for the insurrection.

Poland has sent a wire to the Bolsheviki Government setting April 10 as date for beginning negotiations for peace.

Fatal Accident At Cement Works

Between the hours of three and four o'clock this morning a fatal accident occurred at the Canada Cement Company's plant at Point Ann the victim being an employee, named John Powless. No person saw the accident and the victim had apparently been dead for some time when the body was found. Powless was employed in that portion of the plant known as the green clay storage tunnel. His duties were to shovel up clay and the work called him in close proximity to a steam shovel. It is surmised that he came in contact with the shovel which struck him a severe blow on the jaw, fracturing same and inflicting a severe wound under the left arm near the arm pit. Powless was also hit on the head and was probably rendered unconscious. The wound under the arm was such as to cause the victim to bleed to death.

Dr. Boyce, coroner of this city, was notified of the occurrence and visited the plant and noted the surroundings where the accident occurred. An inquest was opened and after evidence of identification had been made an adjournment was made until Wednesday night.

The victim of the accident was about 50 years of age and was born on the Mohawk Reserve in Tyendinaga Township. He had worked at the Cement Plant for a number of years and was considered a careful and capable workman. A widow, one son at Aldershot, and two daughters, Mrs. Irene Claus and Mrs. S. Brant of Hamilton survive.

The body was brought to the city and taken to Tickell & Sons undertaking establishment where it was prepared for burial.

Wireless Phones For Ireland

Special Despatch to The Intelligencer Canadian Press Limited

LONDON, March 29.—In consequence of the frequency with which telephone and telegraph wires in Ireland are being cut the Government has decided on an extensive use of wireless telephone there, says The Daily Mail. Naval signal men are being employed to start system and this newspaper intimates that portable telephones with a radius of about thirty miles are being employed in transmitting messages from one police station to another or between adjacent towns. It is asserted that the system has proved satisfactory.

German Rebels Losing Ground

Special Despatch to The Intelligencer Canadian Press Limited

BERLIN, March 29.—News from Rhine districts in general and from Westphalia, permits the conclusion that order will be gradually restored in these regions where rebellious forces of working men have been operating, it was declared today. At a meeting held Sunday at Hagen, Westphalia, three Socialist parties decided to withdraw from Mulheim headquarters, seat of the rebel control, and if necessary to fight under Republican leadership against Mulheim faction. Despatches from Hagen announced the behaviour of this faction was declared to be held in the Socialist quarters as constituting danger to industrial regions.

POWERFUL GROUP TO FIGHT NATIOALIZATION

London, March 29—There is being formed a powerful group of members of Parliament of all parties except the official Labor party, called the Private Enterprise Committee, to fight nationalization, municipalization and every other kind of syndicalism, as it is called by the committee, wherever it arises. The first battle is against the Government scheme for State purchase of mining royalties out of the enormous profits on the sale of coal to France, Italy and other European countries.

One daring Unionist asked Lloyd George at question time in the House of Commons yesterday whether he would invite Canadian, American and other overseas supplies of foodstuffs in order to lower prices. Lloyd George kept silent, but Jack Jones, Labor member for Silvertown, called out: "You hall better begin with the shipowners' profits."

WINDEMERE.

Many Killed In Tornado Chicago Badly Hit

STORM ALMOST COMES FROM CLEAR SKY—GREAT PATHS RIPPED THROUGH CITY—MANY STATES SUFFER GREATLY—EVEN FELT AS FAR SOUTH AS GEORGIA.

CHICAGO, March 28—In a series of freak storms, described by the United States Weather Bureau as a tornado rather than a cyclone, 20 persons were killed outright in Chicago.

Reports from half a dozen States indicate that the total death list may reach 60.

In suburbs and neighboring cities yesterday afternoon upward of 400 persons were injured, many of whom are likely to die and the property damage alone will run into millions of dollars.

In Elgin, Ill., alone, the property damage is estimated to exceed $4,000,000.

CHICAGO SUFFERS WORST

The greatest damage was done in Chicago suburbs and Elgin.

Atlanta, Ga., reported that the death list in Georgia and Alabama was at least 36. Apparently, there were distinct storms, one driving northeastward into Illinois and dying out on the shores of Chicago; one striking in Georgia and Alabama, and another striking in Indiana and passing into Ohio and Michigan.

A list of points suffering greatest damage follows:

Chicago suburbs, 15 known killed, hundreds injured, a dozen or more missing and damage of upwards of a half-million dollars alone.

Elgin, Ill., eight known killed, several missing, and scores injured; property damage estimated at $4,000,000.

La Grange, Ga., a death list reported as high as thirty and heavy property damage.

West Point, Ga., five reported killed.

Near Fort Mayne, Ind., three killed, heavy property damage.

Agricola, Alta., five killed.

Grenville and Union City, Ohio, sixteen reported killed.

St. Louis, one killed.

East Troy, Wis., one killed.

Swanton and Raabs' Corners, Ohio a number reported killed.

WITH GREAT SUDDENNESS

The tornado came out of the, west with great suddenness at 12.30 p.m., whirled through Elgin at Melrose Park, the southwest side of Chicago, then into the extreme northwest side—Dunning and Norwood, Parks—thence into Evanston and Wilmett. OSevi KFa; bV.erathr N Lg paverta

THOUSANDS BASK IN SUN

The storm came up a little after 12.30 o'clock in the afternoon. At that time the sun was bright, the air warm and a slight breeze was felt. Thousands of people took to their motors. Others thought the day just right for a stroll. Chicago felt that spring had come with Palm Sunday. And, then suddenly into the northwestern part of Chicago it became dark and the velocity of the wind increased. The rest of the city was still in the sunlight. The wind grew—and then came the cyclones. Hundreds were outside looking at their homes dancing in the wind and furniture skimming over the ground. As they stood and stared, frightened too much to move, there came a torrential downpour accompanied by fierce hail.

Not Cutting Off Voting Heads Of Many Thousands

OTTAWA, March 29.—Announcement was made in the House of Commons that the Government had no intention of disfranchising enemy aliens by the tens of thousands. It was stated by Hon. Arthur Meighen that an amendment making it perfectly clear that the Government had no desire to deprive Canadian citizens of enemy origin of the vote.

W. D. Euler, member for North Waterloo, told the House, that his own mother, who had lived in Canada for sixty years, but who came originally from Germany, would not be able to vote under the franchise Act, as it now stood, combined with the Naturalization Act of 1919.

Mr. Meighen assured the House that the Government never had any intention of preventing citizens of that character from voting. Nor was it deliberately planned to disfranchise aliens by the tens of thousands as Opposition members suspected. The only people who would not have the vote were foreigners who knew neither English nor French (the official languages of the country), and had not been in Canada long enough to possess the necessary knowledge to vote intelligently.

"NO DISFRANCHISING"

"There is no disfranching clause in the new legislation," it was explained "but only a declaration of what "women who are not British subjects by birth or naturalization in their own right must do in order to acquire the right to vote. They must show that they possess the qualifications which, if they were applying for naturalization, would entitle them to be naturalized. The same law exists in the Province of Ontario."

The Star was assured that neither Mrs. Euler nor the mothers, sisters and brothers of Kitchener soldiers killed in the war would be disfranchised. Official denial was also given to the contention of Mr. Euler that one hundred thousand alien enemies would be disfranchised.

TO ADJOURN OVER EASTER

Sir George Foster announced that on Wednesday evening the House will adjourn over Easter until the following Tuesday, April 6th.

Sir George Foster secured first reading for a bill to amend the Copyright Act. It was the purpose of the measure, he said, to establish a uniform period of copyright probation, to extend it to cinematograph films, records lithographs, etc., and to protect Canadian authors throughout his Majesty's Dominions as well as in Canada.

Germany Hides War Material From Entente

Three Thousand Five Hundred Field Guns near Berlin—6,000 Airplanes Intact

PARIS, March 28—Three thousand five hundred three-inch field guns have been found by the Inter-Allied Commission in the vicinity of Berlin alone, and altogether 12,000 of these guns have thus far been discovered throughout Germany, as well as six thousand airplanes intact.

According to the terms of the Treaty of Versailles the German army should have only 204 three-inch guns and no airplanes whatsoever.

These discoveries and other information in possession of the French authorities have caused considerable skepticism here as to the reason given for the request of the Berlin Government that it be permitted to send troops into the neutral and occupied zones.

Eleventh "Flu" Death In Fenella Locality

COBOURG, March 27—The death this week of another citizen of Fenella, John Dowler, shows that the "flu" has not yet spent its force in that locality, although many parts of the Province are enjoying a clean bill of health. He leaves a wife and three daughters. This makes eleven deaths in the little community in a very short time, while nearly every family has been prostrated. A proof of the aggravated nature of the epidemic is shown in the fact that upon one occasion, a member of a deceased man's household and a neighbor were obliged to dig the grave.

So great has been the dread of it, that with the Fenella people the 1920 "flu" epidemic has been put in the same class as the "plagues" of olden days. Two men, who brought in cattle for a farmer moving in, tramped to Alderville, some miles distant, rather than stay in the village all night.

Several homes have been broken up because of deaths there, as farms were left with no person to manage them. It is the worst epidemic that the district ever experienced, and the circumstances were all the more distressing as Fenella lies sixteen miles northeast of Cobourg in a part of Northumberland county that has no railway service.

MUSIC AND DRAMA

"VICTORY" THRILLING PICTURE

To screen the great scenes in his new production, "Victory," made from Joseph Conrad's famous novel, Maurice Tournier made full use of California's natural beauties. Several episodes were filmed on the rugged coast of Catalina Island. To reproduce as nearly as possible the verdure of the South Seas, where the story is laid, the tropical luxuriance of Palm Springs was used. For the sea scenes the broad expanse of the Pacific in both calm and storm served admirably. A schooner, a Chinese junk, and a stout whaleboat add to the faithfulness of the background. The story itself is of the virile, adventuresome type that has made Conrad a great favorite with the reading public. It has been produced on the screen with all of Mr. Tournier's genius at handling big scale pictures packed with rousing action. The cast includes Jack Holt, Seena Owen, Wallace Berry, Lon Chaney and Bull Montanna. "Victory" is being shown at Griffin's tonight to Wednesday along with photoplay screen magazine showing photoplay screen studios and the professional and domestic life of famous screen stars, a two-reel Sunshine comedy, Gaumont World Wide News, and a new Ditmars animal study.

FAMOUS PLAY FOR NORMA TALMADGE

Norma Talmadge rises to new heights of artistry as the heroine of "The Way of a Woman," adaptel from Eugene Walter's famous stage play, "Nancy Lee." A poor southern girl, she marries a rich New Yorker to help her family and becomes a member of his own fast set. To aid her mother when she falls sick, Nancy borrows money from a young boy, only to learn that he has stole it from a bank. Her husband dies and her troubles threaten to overwhelm her. How matters are adjusted to the satisfaction of all, and how fate brings about an incident which enables her to marry the man she really loved will prove of engrossing interest. A new Harold Lloyd comedy, the latest chapter of the thrill-packed serial "The Fatal Fortune," featuring Helen Holmes and other plays of merit are also being shown on the same program with the Norma Talmadge feature all of which is being shown at the Palace tonight to Wednesday, matinee daily.

BIRTH

BOYD—In Belleville on March 27th, 1920, to Mr. and Mrs. Q. Boyd, 21 Reid Street, a son.

MILLER—In Belleville, March 27th, 1920, to Mr. and Mrs. Frank Miller, 26 Hillside St., a son.

DIED

FORWARD—In Belleville, on Sunday March 28th, 1920, Henry Francis Forward, aged 77 years, 9 months.

The funeral will take place from his late residence, 286 George street, tomorrow, Tuesday at 2 o'clock to St. Thomas' Church. Interment Belleville cemetery. Please omit flowers.

LOTT—In Belleville Saturday, March 27th, 1920, Josephine Helen Ferguson, widow of the late Wm. Lott, aged 70 years.

The funeral will leave her late residence, 86 Mill Street, tomorrow, Tuesday, at 3.30. Service at the house at 3 o'clock. Interment Belleville cemetery.

LANGABEER—In Thurlow, Sunday, March 28th, 1920, Henry Western Langabeer, aged 66 years.

The funeral will leave his late residence, 3rd concession, Thurlow, tomorrow (Tuesday) at 11.30. Service at the house at 11 a.m. Interment, Belleville cemetery.

ROBERTSON—On Sunday, March 28, 1920, Henrietta McDowall, wife of Dr. J. J. Robertson.

The funeral will take place from the family residence, 217 Pinnacle street, to-morrow, Tuesday morning, at 10 o'clock. Body taken to Kingston for interment.

Sterling exchange was in lighter demand in New York, but was quoted at $3.95 Saturday.

Railway Crossing Tragedy

Continued from page one

ed was certain from the nature of her injuries, the skull being fractured and both arms broken, besides other injuries.

A Miracle

Dr. Robertson's escape from instant death is regarded by all who viewed the wreckage as nothing short of a miracle. How anyone could escape alive from that tangled mass of machinery which seemed to have been torn apart like cardboard by some giant power is incomprehensible. The doctor's injuries consist of scalp wounds, cuts about the face and bruises about the body of a painful but not serious nature.

Many Visited Scene

The news of the tragic event, as all bad news does, travelled fast, and in a short time people in automobiles, and in horse driven vehicles, and many on bicycles and on foot were wending their way to the scene of the accident. Dr. Yeomans, Coroner, was one of the first to arrive upon the scene as was also Police Sergt. Harman. The coroner not only made a minute survey of the crossing and the approaches to same, but had a photographer take views of the railway crossing, also the approaches. The accident occurred at a few minutes before three o'clock.

Tickell & Sons undertaking establishment were notified of the affair and employees despatched to the scene. The body was given in charge by Dr. Yeomans, and taken to the company's morgue, where an inquest was opened this morning.

Gibson's Crossing

There is a bell at the crossing which is set in motion by the approach of trains also the usual railway crossing signals. From the travelled road trains approaching the crossing from either east or west cannot be seen for any considerable distance owing to the sharp curve taken by the track at this particular point.

The car driven by Dr. Robertson was what is known as a left-hand driving car so that at the time of the accident the doctor was on the side away from the approaching train. It is stated that on nearing the crossing he asked Mrs. Robertson if the line was clear and she said "Yes."

Dr. Robertson is a graduate of Queen's College, and before coming to Belleville several years ago practised at Smith's Falls and Tweed. Since coming to Belleville he has worked up a large practise and is very popular. Mrs. Robertson was a Miss McDowell, of Kingston, and was a lovely lady, kindly, courteous and generous whose lovable disposition compelled warm friendship. To her many friends here and elsewhere here tragic death comes as a great shock.

◆

Social And Personal

Late reports from the bedside of Dr. J. J. Robertson at the hospital indicate that his condition is steadily improving.

Major R. D. Ponton has returned home after attending the annual meeting of the Dominion G.W.V.A. at Montreal.

KILLED BY A TREE

His life believed to have been crushed out by a falling tree, James Coburn of the township of North Crosby, near Westport, was found dead in a woods near his farm. Mr. Coburn, who was a well known farmer in that vicinity, had gone to the woods to work, and when he did not return at the usual time a search was made and his body was found under a large tree which he had evidently been in the course of felling. He was alone at his work.

COST OF LIVING DUE FOR ANOTHER PROBE

Ottawa, Ont., March 29—Old Man High Cost of Living is again due for another investigation, if J. A. Leduc, member for Westmount, has his way. He intends to ask the House Monday if the Government intends to bring radical remedies by investigating as to where the foodstuffs are hoarded and stored. He also asks the Minister of Agriculture if that gentleman is aware that butter in cold storage jumped from 57 to 65 cents per pound in one week, and if the Government intends to take steps to prevent such jumps in the future.

Inquest Opened Into Accident

Coroner Yeomans Empannels Jury to Enquire Into Crossing Fatality

At 10 o'clock this morning an inquest touching the death of Mrs. (Dr.) Robertson was opened at Tickell & Sons undertaking establishment before Coroner Dr. Yeomans. The following were empanelled as jurymen:

J. D. Collip, John Fenn, W. R. McCreary, L. C. Yeomans, S. P. Hagerman, B. Doctor, S. H. Treverton, C. M. Hall, Frank Corrigan, T. F. Wills, C. R. Cole.

Mr. Hall was elected as foreman.

Dr. Yeomans in addressing the jurymen stated that they should view this matter from a broad standpoint. The road where the accident occurred will be the Provincial Highway and it was necessary that it should be made as safe as possible. If the crossing is dangerous the jury should state so emphatically that the matter can be brought to the attention of the Provincial Government. While this is the first accident at this crossing there have been some narrow escapes, said the Coroner.

The jury after taking their oath of office view the body.

The taking of evidence as to identification, etc., was adjourned until this evening.

◆

Called by Death

HENRY F. FORWARD.

After being in ill-health for the past three years, Mr. Henry F. Forward, a well known citizen passed away last night at the family residence, 286 George Street. Deceased was born at Bath in 1842, being thus in his 78th year. For the past 32 years Mr. Forward had been a resident of Belleville, and for some time conducted a cigar factory here. Deceased, by his affable manner, made many friends in his business relations. He was a member of St. Thomas' Anglican Church, and was a member of The Belleville Lodge, A. F. & A. M. No. 123. In 1877 he married Miss Alice Johnstone, who alone survives, there being no family.

EMMELINE WORDEN.

At an early hour this morning Mrs. Emmeline Worden, widow of the late Mr. Rufus Worden, passed away at the residence of her daughter, Mrs. Frank H. Chesher, 240 Dundas street, city. Last evening deceased was taken suddenly ill and expired after a few hours' illness. In the year 1850 Mrs. Worden was born in Halton County, and for the past two years had resided here with her daughter. She was a lady highly esteemed by all who knew her. Deceased was a member of the Baptist Church. A family of two daughters, Mrs. Howard Price of Hamilton, and Mrs. F. H. Chesher, of this city, survive. The body will be taken to Acton for interment.

JOSEPHINE H. LOTT.

Mrs. Josephine Helen Lott, widow of the late ex-Ald. William Lott, passed away on Saturday evening at the family residence, 86 Mill street, city. Deceased was seventy years of age and was born in the village of Cannifton, being a daughter of the late Mr. Oliver A. Ferguson. For a number of years Mrs. Lott had resided in Belleville, where she had many friends. She was a member of Christ Church and always took a deep interest in church work. Mr. Lott predeceased her four years ago. Surving is a family of years ago. Surviving is a family of three sons and one daughter. The daughter is Mrs. W. C. Mayo, of Los Angeles. The sons are: William A. of Los Angeles, Harry E. of Belleville, and Aubrey L. of Gananoque. A daughter, Mrs. J. B. Ives, died a short time ago. Two brothers, J. F. Ferguson, of Conrad, Sask., and R. H. Ferguson, of St. Catharines, and two sisters, Mrs. J. C. McKnight of Winnipeg, and Mrs. Lillian Docter, of Belleville ,are living.

MRS. EMILY DUNCAN.

Mrs. Emily Duncan, widow of the late Mr. James Duncan, formerly of Roslin, Hastings County, died at the home of her daughter, Mrs. Rev. MacConnell, at Minett, Man. The body will be brought here for interment at Roslin. Rev. Mr. MacConnell was a former pastor of the Presbyterian Church at Roslin.

MRS. (DR.) J. J. ROBERTSON.

In the death of Henrietta McDowall, wife of Dr. J. J. Robertson, Sunday afternoon as the result of an accident, Belleville is the poorer through the loss of a lady of exceptionally attractive personality, possessed of a kindly disposition and a desire to be helpful in all things coming within her sphere of usefulness. Mrs. Robertson's early life was spent in Kingston, where she lived until her marriage about fifteen years ago. Her father, the late Mr. R. J. McDowall, was a descendant of United Empire Loyalists, Scotch Presbyterians, who settled first in Northport, Bay of Quinte district. Her grandfather, Rev. Robert McDowall, was one of the first Presbyterian ministers in Canada, and inscribed on his tombstone is the information that he was ordained in the Dutch Reformed Church at Albany and came to Canada in 1798 to minister to the United Empire Loyalists. He was elected first Moderator of the Synod of the Canadas in 1820, and was a founder of Queen's University.

Mrs. Robertson is survived by her husband, three children, her mother, two brothers and two sisters. The children are, Elda, aged twelve; Jack, aged ten, and Catherine, aged eight. Her mother, Mrs. R. J. McDowall, resides in Kingston, as does her sister Elda; another sister, Mrs. W. L. McFarland, resides in Toronto. The brothers are Dr. John Lazier McDowall, of Perth Amboy, N.J., and Mr. R. J. McDowall, M.E., of London, England.

Mrs. Robertson's first thought was for her home and family, but she also found time to engage in church and charitable work of a varied character, and was particularly interested in the Children's Aid Society, frequently entertaining children from the Shelter in her home. She was an active member of St. Andrew's Church and its various societies, and was also a member of Quinte Chapter, Daughters of the Empire, the Women's Canadian Club, Golf Club, Belleville Club, and was a great favorite in local society circles.

Her death under such tragic circumstances was a terrible shock to her many friends and has cast a shadow over the various circles in which her lovable character made her such a favorite. To the sorrowing relatives the heartfelt sympathy of the entire community goes out in their sudden and grievous affliction.

SILVER PIE.

A pleasant event took place recently at Brighton, when an aged and well-known minister of the Bay of Quinte Conference, Rev. E. E. Howard, was signally honored. He was chatting in his home with his son, Rev. F. Howard, of Stirling, on the night of his birthday, when some friends called to congratulate him and say he was wanted at the church. Arriving there he found quite an assemblage. Rev. Geo. Archer, pastor, presided over a congratulatory program, and at the propitious moment, Mr. Howard was informed that instead of the usual birthday cake a mince pie had been prepared in his honor. This when opened was found to be filled with silver coins totalling a handsome amount.

Some men never wander from their own firesides—because they dwell in steam-heated flats.

For Colds, Catarrh or Influenza

Do you feel weak and unequal to the work ahead of you? Do you still cough a little, or does your nose bother you? Are you pale? Is your blood thin and watery? Better put your body into shape. Build strong!

An old, reliable blood-maker and herbal tonic made from wild roots and barks, is Dr. Pierce's Golden Medical Discovery. This "nature remedy" comes in tablet or liquid form. It will build up your body and protect you from disease germs which lurk everywhere. One of the active ingredients of this temperance alterative and tonic is wild cherry bark with stillingia, which is so good for the lungs and for coughs; also Oregon grape root, blood root, stone root, Queen's root,—all skilfully combined in the Medical Discovery. These roots have a direct action on the stomach, improving digestion and assimilation. These herbal extracts in the "Discovery" aid in blood-making and are best for scrofula. By improving the blood they fortify the body against an attack of grip or colds.

Catarrh should be treated, first, as a blood disease, with this alterative. Then, in addition, the nose should be washed daily with Dr. Sage's Catarrh Remedy.

Send 10c for trial pkg. of Medical Discovery Tablets or Catarrh Tablets to Dr. Pierce's Laboratory, Bridgeburg, Ont.

Easter Apparel

ALL THAT IS WORN MUST BE NEW.

So long has the custom of associating new apparel with Easter Sunday been in vogue that no discerning woman can afford to slight the invitation of Fashion to indulge in the pleasures of new attire.

You can give full expression to your desires, for here, in gratifying assortments are styles that supersede those of other seasons both in beauty and value.

Easter Suits

The Suit at Easter must be new, and here are styles in great variety. Women who adore severly tailored Suits and those who prefer lines more or less elaborate will rejoice in this showing, for it includes plenty of modes of both types, as well as many in between. All the newest fabrics and colorings are presented.

Gloves

THEY MUST BE NEW!

Every hand that gives a greeting Easter morning must have spic-span new Gloves. These are as correct as they are handsome.

Silk Gloves in every shade, 90c. to $2.00 pair.

Chamoisette Gloves, all shades, $1.00 and $2.00 pair.

New Easter Blouses

—may be of Voile, Organdy, Georgette, Crepe de Chine, Silk or Silk Jersey. You may have long or short sleeves. Dark models to match your Easter Suit are shown as well as white or delicate colorings.

Georgette Blouses, from .... $6.50 to $22.50
Crepe de Chine Blouses from .. $4.50 to $14.50
Blouses of Silk from .... $2.65 to $10.00
Silk Jersey Blouses at .... $11.50 each
Voile Blouses at .... $1.65 to $13.50

TheNewVeil

A new Suit, a charming Hat, correct Gloves—and an ordinary twice-used Veil will spoil the whole effect. A new Veil means much to the smartness of your Easter outfit. Clever new patterns by the yard or in made-up Veils are all moderately priced.

Underthings for Easter

Included among the dainty Underthings for Easter are beautiful Silk and Crepe de Chine garments as well as dainty Philippine Hand-Embroidered affairs. Gowns, Camisoles, Combinations and knickers form a practical as well as attractive collection.

Stockings

—of course, must be new, and preferably of Silk to match the new shoes.

Silk Stockings in every new shade are priced up to $3.50 pair.

Lisle Stockings in all shades from 45c. to $1.00 pair.

STORE REMAINS OPEN SATURDAYS TILL 9 P.M.

CARPENTIER AND DEMPSEY WILL NOT FIGHT THIS YEAR

There is no chance for a world's championship in 1920 between Jack Dempsey and Georges Carpentier, according to Tex Rickard, one of the foremost bidders for the contest. The French champion probably will not extend his present visit to the United States, Rickard said today and he must return to Paris for a bout scheduled in August. This is sufficient to prevent his appearance against Dempsey this year, the promoter said, explaining that for the International bout to be a financial success it would have to be held in the open and as Carpentier will be busy until July he would not have enough time to train before the arrival of cold weather.

CAMBRIDGE WON

London, March 29.—Cambridge Saturday defeated Oxford in their annual eight-oared race. Cambridge's victory was by a margin of four lengths, and the time 21 minutes and 11 seconds.

In spite of a rain that fell during the day the usual crowds lined the course from Putney to Mortlake when the crews took the water, but just before the hour set for the race the rain ceased. Cambridge won the toss and chose the Surrey side of the course and the crews were off at 5.40 p.m.

Oxford jumped into the lead at the start, rowing at 38 strokes to the minute. Cambridge, rowing a steady 36, rapidly overtook the Oxonians and the light blue oarsmen then forged to the front. Both crews rowed steadily throughout the first mile with practically no change in the stroke. At this stage of the race the Cambridge shell seemed a trifle more powerful and at the first mile post was one length in the lead. At two miles Cambridge was leading by three-quarters of a length.

FALCONS 8—VARSITY 3

Toronto, March 29—Demonstrating that fast hockey can be played and championships won without resorting to body-checking, the Winnipeg Falcons on Saturday night inflicted an 8 to 3 defeat on the University of Toronto team, and will thus carry a five-goal lead into tonight's final Allan Cup game. The Westerners travelled at a lightning pace through the first fifty minutes, and led by 5 to 1, but they tired on end, and eager collegians coming strong, ran in two goals. On the night's play the Falcons were by long odds the better team and few local fans begrudge them their victory.

Speed, speed, and yet more speed, appears to be the motto of the Western title holders, and they know how to use it to the best advantage. All of the forwards had their checks lashed to the mast by their wonderful speed and brilliant stick handling. No better front line than Halderson, Goodman and Frederickson has been seen on Toronto ice since the palmy days of T.R.&A.A., St. Michael's and Victorias All are adepts at back checking, work well together, and are dangerous on the attack.

Winnipeg critics claim for the Icelanders that they are the best team developed in the West since the 61st Battalion won the Allan Cup from the Monarchs. The Manitoba city fans were wont to maintain that the soldier team never had an equal, but this season they have suffered a change of heart, and the opinion is general that Falcons are every bit as effective as were the 61st before them.

◆

HAD LEG BROKEN.

While engaged in sawing wood at farm of Robert Workman, Pelton's Corners, Howard Prosser, was caught in the belt of the machine and received severe injuries. One leg was broken near the thigh and he sustained other painful injuries.

◆

HOLDS N. T. R. POSITION.

William Fitzgibbon, formerly for many years roadmaster and afterwards supervisor of track on the Grand Trunk Railway, is now supervisor of track on the Doucet-Parent district of the National Transcontinental Railway, Canadian Government lines, with headquarters at Doucet, Que.

◆

COMMITTED FOR TRIAL.

Three Lansdowne youths, arrested by County Constable C. J. Simpson on warrants charging them with breaking into the G. T. R. station and stealing a case of whiskey, were taken to Brockville and at a hearing before Magistrate Page were committed for trial. J. A. Hutcheson, K.C., appeared for the defendants and M. M. Brown for the crown.

AN "IMITATION" AVALANCHE KILLS FILM ARTISTS IN ALPS

Geneva, March 29.—When an imitation avanlanche, arranged for motion picture purposes, developed into a real avalanche in the upper steppes of the Wildgratz, near Innsbruck today, one actress was killed and several were injured. The film was being taken by a German company.

◆

KEPT AWAKE BY SHUNTING CARS, AWARDED $2,750 DAMAGES

Baltimore, Md., March 29.—Mrs. Donald L. Symington was awarded $2,750 damages in a suit against a railway company because the ringing of bells, blowing of engine whistles and shunting of cars kept her awake. She had asked for $25,000.

Wotten's Limited Ready For Business

A notable change in the personnel of the business district of Belleville has occurred in the purchase of the dry good business of Wims & Co., by Mr. F. R. Wotten, formerly connected with the Ritchie Co. Mr. Wotten has been a valued member of the Ritchie Company staff for seven years and on Saturday was presented by the staff with a large armchair as a mark of the esteem in which he was held by his associates. Coming to Belleville from Peterborough seven years ago, Mr. Wotten has made many friends by his kindly affable personality, sterling character and business ability. He is twenty-five years of age and will have the distinction of being the youngest merchant on Front street. He is a progressive, energetic young man, full of pep and has great faith in the future of Belleville.

F. R. WOTTEN

The new business will be known as Wotten's Limited, and the initial announcement to the public appears in the advertising columns of this issue of The Intelligencer. The store will be remodelled and a specialty will be made of Ladies' and Children's Ready-to-Wears. A large new stock has been purchased and the new store will be bright and pleasing with courtesy and the best service the watchwords.

◆

CHAMPION MILK PRODUCER.

The world's record for 90-day production of butter and milk in the senior two-year-old class has been broken by the Holstein heifer, Lady Sylvia, owned by A. C. Hardy, Avondale Farm, Brockville. Her figures are 231.14 pounds of butter from 7,099.5 pounds of milk. The animal recently broke the world's record for sixty days in her class.

MILITARY NEWS

In accordance with District Order No. 195 of March 19th, 1920 the designation of the Regiment is changed: 15th Regiment is deleted and in future the Regiment will be known as "The Argyle Light Infantry."

The Regiment was inspected by the General Officer Commanding Military District No. 3 on 26th March, 1920 The General in a lengthy speech congratulated the officers and men on their appearance and soldierly bearing and particularly with their smartness at drill and steadiness on parade. The Commanding Officer wishes to place on record his high appreciation of all ranks on this occasion. The conduct of the Regiment has been very good, and the loyal co-operation untiring energy and attention to duty during the short period of training at their disposal has placed "The Argyle Light Infantry" whose motto "Nulli Secundus"—Second to None—in the Third Military District. The Commanding Officer feels sure that by the continuance of the Esprit de Corps at present existing that the good name of the Regiment will be maintained in the future. The G.O.C. was especially pleased with the showing of the Bugle Band under the capable leadership of Sgt. Bugler G. Hay, who was well assisted by Sergt. Sutton and Ranfield. In consequence the Commanding Officer extends his congratulations to all concerned in the bugle band of "The Argyle Light Infantry."

LON CHANEY AND SEENA OWEN IN
MAURICE TOURNEUR'S PRODUCTION "VICTORY"
A Paramount-Artcraft Picture

MAURICE TOURNEUR, presents

'VICTORY'

By Joseph Conrad.

The clash of fighting men over gold and a woman's love. The salty tang of wind and ocean wave and the magic of tropic seas. A struggle to the death in lawless lands where brawn is king and blood runs red. The finest romance of the world's foremost writer of the sea, played by a brilliant cast, including:

Jack Holt, Seena Owen and Ion Chaney

CARPENTIER AND DEMPSEY WILL NOT FIGHT THIS YEAR

There is no chance for a world's championship in 1920 between Jack Dempsey and Georges Carpentier, according to Tex Rickard, one of the foremost bidders for the contest. The French champion probably will not extend his present visit to the United States, Rickard said today and he must return to Paris for a bout scheduled in August. This is sufficient to prevent his appearance against Dempsey this year, the promoter said, explaining that for the International bout to be a financial success it would have to be held in the open and as Carpentier will be busy until July he would not have enough time to train before the arrival of cold weather.

CAMBRIDGE WON

London, March 29.—Cambridge Saturday defeated Oxford in their annual eight-oared race. Cambridge's victory was by a margin of four lengths, and the time 21 minutes and 11 seconds.

In spite of a rain that fell during the day the usual crowds lined the course from Putney to Mortlake when the crews took the water, but just before the hour set for the race the rain ceased. Cambridge won the toss and chose the Surrey side of the course and the crews were off at 5.40 p.m.

Oxford jumped into the lead at the start, rowing at 38 strokes to the minute, Cambridge, rowing a steady 36, rapidly overtook the Oxonians and the light blue oarsmen then forged to the front. Both crews rowed steadily throughout the first mile with practically no change in the stroke. At this stage of the race the Cambridge shell seemed a trifle more powerful and at the first mile post was one length in the lead. At two miles Cambridge was leading by three-quarters of a length.

FALCONS 8—VARSITY 3

Toronto, March 29—Demonstrating that fast hockey can be played and championships won without resorting to body-checking, the Winnipeg Falcons on Saturday night inflicted an 8 to 3 defeat on the University of Toronto team, and will thus carry a five-goal lead into tonight's final Allan Cup game. The Westerners travelled at a lightning pace through the first fifty minutes, and led by 8 to 1, but they tired on end, and eager collegians coming strong, ran in two goals. On the night's play the Falcons were by long odds the better team and few local fans begrudge them their victory.

Speed, speed, and yet more speed, appears to be the motto of the Western title holders, and they know how to use it to the best advantage. All of the forwards had their checks lashed to the mast by their wonderful speed and brilliant stick handling. No better front line than Halderson, Goodman and Frederickson has been seen on Toronto ice since the palmy days of T.R.&A.A., St. Michael's and Victorias All are adepts at back checking, work well together, and are dangerous on the attack.

Winnipeg critics claim for the Icelanders that they are the best team developed in the West since the 61st Battalion won the Allan Cup from the Monarchs. The Manitoba city fans were wont to maintain that the soldier team never had an equal, but this season they have suffered a change of heart, and the opinion is general that Falcons are every bit as effective as were the 61st before them.

◆

HAD LEG BROKEN.

While engaged in sawing wood at farm of Robert Workman, Pelton's Corners, Howard Prosset, was caught in the belt of the machine and received severe injuries. One leg was broken near the thigh and he sustained other painful injuries.

◆

HOLDS N. T. R. POSITION.

William Fitzgibbon, formerly for many years roadmaster and afterwards supervisor of track on the Grand Trunk Railway, is now supervisor of track on the Doucet-Parent district of the National Transcontinental Railway, Canadian Government lines, with headquarters at Doucet, Que.

◆

COMMITTED FOR TRIAL.

Three Lansdowne youths, arrested by County Constable C. J. Simpson on warrants charging them with breaking into the G. T. R. station and stealing a case of whiskey, were taken to Brockville and at a hearing before Magistrate Page were committed for trial. J. A. Hutcheson, K.C., appeared for the defendants and M. M. Brown for the crown.

◆

AN "IMITATION" AVALANCHE KILLS FILM ARTISTS IN ALPS

Geneva, March 29.—When an imitation avalanche, arranged for motion picture purposes, developed into a real avalanche in the upper steppes of the Wildgratz, near Innsbruck today, one actress was killed and several were injured. The film was being taken by a German company.

◆

KEPT AWAKE BY SHUNTING CARS, AWARDED $2,750 DAMAGES

Baltimore, Md., March 29.—Mrs. Donald L. Symington was awarded $2,750 damages in a suit against a railway company because the ringing of bells, blowing of engine whistles and shunting of cars kept her awake. She had asked for $25,000.

Wotten's Limited Ready For Business

A notable change in the personnel of the business district of Belleville has occurred in the purchase of the dry good business of Wims & Co., by Mr. F. R. Wotten, formerly connected with the Ritchie Co. Mr. Wotten has been a valued member of the Ritchie Company staff for seven years and on Saturday was presented by the staff with a large armchair as a mark of the esteem in which he was held by his associates. Coming to Belleville from Peterborough seven years ago, Mr. Wotten has made many friends by his kindly affable personality, sterling character and business ability. He is twenty-five years of age and will have the distinction of being the youngest merchant on Front street. He is a progressive, energetic young man, full of pep and has great faith in the future of Belleville.

F. R. WOTTEN

The new business will be known as Wotten's Limited, and the initial announcement to the public appears in the advertising columns of this issue of The Intelligencer. The store will be remodelled and a specialty will be made of Ladies' and Children's Ready-to-Wears. A large new stock has been purchased and the new store will be bright and pleasing with courtesy and the best service the watchwords.

◆

CHAMPION MILK PRODUCER.

The world's record for 90-day production of butter and milk in the senior two-year-old class has been broken by the Holstein heifer, Lady Sylvia, owned by A. C. Hardy, Avondale Farm, Brockville. Her figures are 331.14 pounds of butter from 7,099.5 pounds of milk. The animal recently broke the world's record for sixty days in her class.

MILITARY NEWS

In accordance with District Order No. 195 of March 19th, 1920 the designation of the Regiment is changed: 15th Regiment is deleted and in future the Regiment will be known as "The Argyle Light Infantry."

The Regiment was inspected by the General Officer Commanding Military District No. 3 on 26th March, 1920. The General in a lengthy speech congratulated the officers and men on their appearance and soldierly bearing and particularly with their smartness at drill and steadiness on parade. The Commanding Officer wishes to place on record his high appreciation of all ranks on this occasion. The conduct of the Regiment has been very good, and the loyal co-operation untiring energy and attention to duty during the short period of training at their disposal has placed "The Argyle Light Infantry" whose motto "Nulli Secundus"—Second to None—in the Third Military District. The Commanding Officer feels sure that by the continuance of the Esprit de Corps at present existing that the good name of the Regiment will be maintained in the future. The G.O.C. was especially pleased with the showing of the Bugle Band under the capable leadership of Sgt. Bugler G. Hay, who was well assisted by Sergt. Sutton and Ranfield. In consequence the Commanding Officer extends his congratulations to all concerned in the bugle band of "The Argyle Light Infantry."

DOING EXCELLENT WORK.

Speaking in the House of Commons on Mr. Andrew's resolution for a further enquiry into the question of soldier re-establishment, Mr. H. A. Stevens, Vancouver, said:

"As far and as impartially as I can judge, the Land Settlement Board is doing excellent work in Canada and is administered by a man at the head, Mr. Black, who is not only doing his best but is enthusiastically devoted to the work. I do not think a more capable man could be chosen. What I suggest to the honorable members is that we should rather refrain from careless and general criticism of the Land Settlement Board and seek to point out any specific weakness and take it up directly with that Board or through the Government."

Mr. E. W. Nesbitt, North Oxford, said on the same subject:

"The Land Settlement Board is managed with good judgment, the very best judgment, I think, that could be brought to bear in connection with it."

KNOCKING THE SPOTS OFF THE SUN.

Ruminating upon the beautiful display of Aurora Borealis which illumined the heavens on Monday evening last the Peterborough Review speaks of that phenomena as follows:

"What is the Aurora Borealis?" asked the college professor of the student who appeared to be following the scientific lecture with real interest. Pondering for a few minutes, the student made answer. "Well I did know, but I am afraid I have forgotten." "Too bad," said the sarcastic professor, shaking his head. "The solution of a great mystery has been lost to an inquiring world. The only man who ever knew it has forgotten all about it."

But there are professional and avocational scientists today who undertake to explain the wonderful display of electric lights which illuminated the heavens Monday night. The laity were not behind in local explanations. In Peterborough, for example, there were some who firmly believed that the display was but a reflection of the light that a visiting statesman from Brantford was shedding over a select audience at the Canadian Club luncheon in the Empress. Members of a certain secret society in Toronto noted the hue of the wavering light and accepted it as a celestial benediction upon the cause for which they stand.

A famous professor at the Yerkes Observatory throws out the following bit of information on his own account:

"Magnetic storms on the sun's surface, or what we know as 'sun spots' produce similar disturbances in the atmosphere of the earth, and are responsible for the auroral phenomenon witnessed a few nights ago," he says. 'It has been found," he continued, "that these solar disturbances are coincident with the occurrence of the aurora, and when sun spots are plentiful the aurora is plentiful also; but to ascribe the occurrence of the aurora to individual spots on the sun, as some have been doing, is entirely wrong. All that we know at present is that the disturbed condition of the sun's magnetism is responsible for the production of the phenomenon, and though some two or three weeks ago there was a large spot on the sun, it cannot be said that one spot caused the beautiful display Monday night."

So there you have it. What could be simpler? The finite mind of man still seeks to grapple with the Infinite. Since the beginning of the history of the human race men have been trying to explain why people are born, and, most of all, why they die. They and the victims of their erudition are yet as much in the dark as ever, while the inscrutable plan of the Creator is carried out as usual. Why cannot these scientists be honest to a still greater degree than the student who sought to stand as well as possible with his teacher, and, while admitting that they don't know, pass up the reservation that they once did, but that a great truth has slipped their memory?

Probably one of these days some bespectacled student of human affairs will in all good faith attempt to explain just why things broke as they did in Ontario on October 20th last, and will essay to fix the date—even as Premier Drury's election day is set—when an ailing province will begin to show encouraging signs of convalescence.

Caught Napping
(Washington Star)

Hereafter the head of the German Government should take the trouble to hire a private watchman and keep the doors locked.

The World's Paradise
((Boston Globe)

The perfectability of human nature is a matter still in dispute. But if humanity ever does get around to staging a milenulum, it will look a long time before it finds a better stage than the State of Maine.

Manners Makyth Man
(New York Commercial)

Our manners should begin and end with the office boy. They should extend to telephone conversation as well as written communications. Politeness to the boss is a foregone conclusion—to the porter is a genuine mark of the bred-in-the-bone gentleman.

Bad Habits
(Minneapolis Daily News)

Not much can be expected of Germany or any other nation that has the armed revolution habit. When it involves civil war it is a bad habit that means nothing but delay in achieving satisfactory government. Germany is no stronger because its reactionaries, junkers and pan-Germanists have grabbed control at the point of the gun.

Swiss Women Forge Ahead
(Liverpool Post)

Mlle. Marie Prohhom, who has been appointed director of the Bank of Geneva, and will sign the notes and scrip issued by that bank, is only twenty-eight years of age. She proved herself an excellent financier during the war, and is the first woman in Europe to hold such an important position. There are now two judges, nine barristers, three engineers and a number of university professors and doctors of the fair sex in Switzerland.

For Universal Training
(Chicago Tribune)

Military men are not responsible for the helplessness of the United States. They have to work with the policy the politicians and American public opinion wil lgive them. That policy is murderous because it insists that men shall not know how to do the thing the nation from time to time requires them to do. A murderous policy hands them over to war which they did not know how to fight. It provokes wars because it presents a rich nation in a helpless posture. We always proceed as if we were able to defend ourselves and other nations know that we are not able.

The average man has a lot of get-rick-quick ideas up his sleewe, which when going nearly always go wrong.

The Poet's Corner

TROPIC RAIN
Robert Louis Stevenson

As the single pang of the blow, when
the metal is mingled well,
Rings and lives and resounds in all
the bounds of the bell;
So the thunder above spoke with a
single tongue
So in the heart of the mountain the
sound of it rumbled and clung.
Sudden the thunder was drowned—
quenched was the levin light..
And the angel-spirit of rain laughed
out loud in the night,
Loud as the maddened river raves in
the cloven glen.

Angels of rain! you laughed and leaped
on the roofs of men;
And the sleepers sprang in their beds
and joyed and feared as you fell
You struck and my cabin quailed; the
roof of it roared like a bell,
You spoke and at once the mountain
shouted and shook with brooks.
You ceased, and the day returned,
rosy, with virgin looks.

And methought that beauty and terror are only one, not two;
And the world has room for love, and
death and thunder and dew;
And all the sinews of hell slumber
in summer air,
And the face of God is a rock, but
the face of the rock is fair.
Beneficent streams of tears flow at
the finger of rain;
And out of the cloud that smites,
beneficent rivers of rain.

A Laugh or Two

One touch of rumor makes the whole world chin.

The less a man knows the more he wants to tell it.

A cunning man overreaches no one half so much as himself.

Pertinent Query

"I sold my dairy at auction last week."

"Who bought the pump."

No Need For It

Wife (in swell hotel, as sugar is passed): "Use the tongs, William."

Bill (newly rich) "Why? 'Taint 'ot, is it?"

Fresh-Air Fiend

Conductor—This tranfer's expired some time ago, madam.

Passenger (snappily)—No wonder, with not a single ventilator in the car.

Friend (after a night out)—"What wil lyou say to your wife, old man?" "Just 'Good morning, Charlotte.' She'll say the rest."—London Saturday Journal.

What it Really Is

"Jack is perfectly devoted to that blonde. His family thinks it is a case of hynotism." Huh! seems to me more like chemical attraction."—Boston Transcript.

Felt Sore Over It

Father had been interviewing his offspring with a leather strap. "Now, my son," he said, "you stand corrected."

"I've—I've got to," sobbed the youngster. "It'll be a week before I can sit corrected."

Mix Your Brains with Printer's Ink. Earn $100 Week

You Can Do It. Learn to Write Advertising in Your Spare Time

Thousands of men and women everywhere are earning big money writing advertising. Many are getting more than $100.00 per week. Plenty have opened advertising offices of their own. Why don't you get into the game, too? Men and women in other lines with little writing experience have doubled and tripled their earnings after getting into the fascinating profession of advertising. Ten times the number of men and women now engaged in this profitable occupation are needed. Fine, big paying jobs are waiting for men and women who know how to fill them.

Free Examination Offer

The course is divided into ten sections. The first section or book takes in all the various branches of Department Store and Retail advertising. It is a complete course in itself. From its pages and the instruction, you can within a month be in a position to write and layout clever advertising. Upon the receipt of $5.00, we will send you this book with examination papers and full instructions, how to proceed. When you mail back to us the answers to the question in the first lesson, we will examine them, and instruct you further free. If the first section of the course looks good, you may or you may not enroll for the entire course as you choose. This is the greatest course ever written, and the most liberal offer ever made.

Mail the Examination course today.

GUARANTEE.

"We guarantee at any time during the year of your enrolment to refund the entire amount paid, if you are not satisfied with the course."

Advertisers are Not Born

Good Advertisers are made. Advertising is simply news. We guarantee to teach you retail advertising at home in your spare time within one month.

There is no mystery about advertising. It is the simplest thing on earth to learn the way we instruct you. This course it not only the most modern but also the shortest route and the cheapest on the market today. A simplified course that eliminates hundreds of the unnecessary things contained in other courses. It is so simple that the high school boy or girl, the teacher, the clerk, the tradesman or a child can become proficient in the art of advertising.

Three great advertising men have prepared this wonderful course. Men who have spent the better part of their lives preparing and planning advertising. You don't have to know a thing about writing to understand it thoroughly. Every page in the books and the instruction papers written in plain every-day English.

The course contains separate books on the following branches: DEPARTMENT STORE ADVERTISING, direct by mail advertising—General Advertising—Mediums—Illustrations—"Circulars and Follow-ups". "How to Make Layouts"—Bargain Advertising—How to quickly and accurately estimate copy for set space, and a most wonderful book of English self taught.

This course is ten times as simple and ten times more quickly learned than any other course. A limited number of complete courses will be offered at the amazingly low price of $25.00, purchasable on the monthly payment plan.

By THOMAS HARDY

CHAPTER VI

The choir at last reached their beds and slept like the rest of the parish. Dick's slumbers, through the three or four hours remaining for rest, were disturbed and slight; an exhaustive variation upon the incidents that had passed that night in connection with the school-window going on in his brain every moment of the time.

In the morning, do what he would—go upstairs, downstairs, out-of-doors, speak of the wind and weather, or what not—he could not refrain from an unceasing renewal, in imagination of that interesting enactment. Tilted on the edge of one foot, he stood beside the fire-place, watching his mother grilling rashers; but there was nothing in grilling, he thought, unless the Vision grilled. The limp rasher hung down between the bars of the gridiron like a cat in a child's arms; but there was nothing in similes. He looked at the daylight shadows of a yellow hue dancing with the fire-light shadows in blue on the whitewashed chimney-corner, but there was nothing in shadows. "Perhaps the new young wom—sch—Miss Fancy Day will sing in church with us this morning," he said.

The tranter looked a long time before he replied: "I fancy she will; and yet, I fancy she won't."

Dick implied that such a remark was rather to be tolerated rather than admired; though the slight meagerness observable in the information conveyed disappointed him less than may be expected, deliberateness in speech being known to have, as a rule more to do with the machinery of the tranter's throat than with the matter enunciated.

They made preparations for going to church as usual. Dick with extreme alacrity, though he would not definitely consider why he was so religious. His wonderful nicety in brushing and cleaning his best light boots had features which elevated it to the rank of an art. Every particle and speck of last week's mud was scraped and brushed from toe and heel; new blacking from the packet was carefully mixed and made use of, regardless of expense. A coat was laid on and polished; then another coat for increased blackness and lastly a third to give the perfect mirror-like jet which the hoped-for rencontre demanded.

It being Christmas-day the tranter prepared himself with Sunday particularity. Loud sousing and snorting noises were heard to proceed from the back quarters of the dwelling proclaiming that he was there performing his great Sunday wash, lasting half an hour, to which his washings on working-day mornings were mere flashes in the pan. Vanishing into the out-house with a large brown basin, and the above-named bubblings and snortings being carried on for about twenty minutes, the tranter would appear round the edge of the door, smelling like a summer fog, and looking as if he had just narrowly escaped a watery grave with the loss of hat and neckerchief, having since been weeping bitterly till his eyes were red; a crystal drop of water hanging ornamentally at the bottom of each ear, one at the tip of his nose, and others in the form of spangles about his hair.

After a great deal of crunching upon the sanded stone floor by the feet of father, son, and grandson, as they moved to and fro in these preparations the bass-viol and fiddles were taken from their nook and the strings examined and screwed a little above concert pitch, that they might keep their tone when service commenced, to obviate the awkward contingency of having to retune them at the back of the gallery, during a cough, sneeze or amen,—an inconvenience which had been known to arise in damp wintery weather.

The three left the door and paced down to Mellstock lane, bearing under their arms the instruments in faded green-haize bags, and old brown music books in thir hands, Dick continually finding himself in advance of the other two and the tranter moving on with toes turned outward to an enormous angle.

Seven human heads in a row were now observable over a hedge of laurel which proved to be the choristers waitings, sitting occasionally on the church yard wall and letting their heels dangle against it, to pass the time. The musicians being now in sight, the youthful party scampered off and rattled up the old wooden stairs of the gallery like a regiment of cavalry; the other boys of the parish waiting outside looking at birds, cats and other creatures till the vicar entered, when they suddenly subsided into sober church-goers and passed down the aisle with echoing heels.

TO BE CONTINUED

Great Canadian Estate Bought

TORONTO, March 29.—A partial explanation of the sudden improvement in Canadian exchange is offered by insiders who attribute its origin to the American purchase of a great United States property owned by Canadians. A property of 100,000 acres of Virginia timber and ore land was bequeathed to the widow, three daughters and two sons of the late Hon. Peter McLaren of Perth, Ont., a member of the Canadian Senate. Senator McLaren died in May, 1919, and the estate was probated at $1,000,000. Baltimore interests are now completing or have completed, negotiations for the purchase of the McLaren property. The authority in the negotiations is the New York office of J. Pierpont Morgan. The price mentioned in the deal is between $25,000,000 and $30,000,000 cash.

Estimating the purchase price at $25,000,000 the drop in exchange today which is attributed to the heavy offerings of the United States funds concerned here in a fairly dull market will mean a loss of almost three millions in Canadian funds to the McLaren estate as compared with the ruling rate a month ago today.

It is doubtful whether the deal will have any permanent effect on the exchange situation for it must be remembered that Canadian funds running into the hundreds of millions are understood to have accumulated here for United States accounts as a result of Canadian dollar discounts.

C. P.—G. G. Way

Lemieux Makes French Language

LONDON, March 29.—After listening to Hon. Rudolphe Lemieux's spirited and elaborate plea for the French language in Ontario and western Canada, British parliamentarians are asking what the question has to do with them. They were especially tickled by Mr. Lemieux's challenge, "what would that little lawyer upstairs, your Prime Minister say, if anyone proposed to banish the Welsh language from Welsh schools." The fact, of course, is that Lloyd George is never so much himself as when amid his Welsh hills, talking his mother's tongue. The Times, while generally sympathizing with Mr. Lemieux's plea for tolerance says his analogy from Germany is unsound. "No attempt has ever been made in Canada to prohibit the speaking of French, whereas the Germans absolutely forbade the use of the native tongue at public meetings, and sometimes even in private life in Alsace-Lorraine, Poland and Scheswig-Holstein.

Nevertheless, The Times hopes this question may catch some reflex of the spirit of equal justice and equal rights for all, which animated the whole empire during the war. It says: "Belgium has two languages, Switzerland and, we may add, the United Kingdom has three, and not one of these countries is a penny the worse. It would be a fine outcome of loyalty that French-Canadians have shown throughout the whole history of Canada, if the opponents of their strong desire to have their children taught their mother tongue, could agree to let the controversy drop once and for all."

DAYLIGHT SAVING IN OTTAWA

Ottawa, March 27—The date when daylight saving will go into effect in Ottawa, has not yet been definitely settled, but there is a possibility that the change will be made at midnight Sunday, May 2, in order to cause as little confusion as possible.

WELLINGTON

Mr. and Mrs. S. B. McGowan, of Chicago, are here on account of Mrs. A. M. Osborne's illness.

Mr. and Mrs. Thos. Slatter have moved in part of Mrs. Jennie J. Byer's home.

Mrs. Squiver is also moving in part of Mrs. S. P. Morden's home.

The U. F. O. shipped cattle one day last week.

Mostly all our sick are getting better. Mrs. A. M. Osborne is still very ill from nervous prostration.

Mr. and Mrs. Fred Geddes of Toronto are visiting Mr. and Mrs. George Boyce.

Miss Mutton, milliner, of Brighton is in town this week.

Our bakery has a new floor, call bell and a dandy window to exhibit bread.

Everybody is removing water from around their homes, so cellars won't be flooded.

All are getting ready for factory work on cans and making boxes.

Mr. Spencer from Ameliasburg visited Mr. and Mrs. R. Morrison, last week.

The Ladies' Aid had an 'At Home' one afternoon last week at the Methodist School Room.

A number were at the Anglican Church, Wednesday afternoon to witness the marriage of Miss Mason, formerly of Wellington. All wish her much joy.

Miss M. Smith was married on Wednesday to Mr. W. Marvin, at Belleville.

The average man has a lot of get-rich-quick ideas up his sleeve, which when going nearly always go wrong.

RENT SITUATION TO BE RELIEVED

Albany, March 29—To relieve the rent situation in New York and other large cities in this state, twelve bills are to be passed by the Legislature, it is announced.

The most important measure of the twelve is intended to provide that an increase of more than 25 per cent. over the rent of the past years is presumptuously oppressive." This is an emergency measure and will lapse on November 1, 1922. Only dwelling places are covered by the legislation.

Other features of the proposed laws are: Verbal leases to end October 1, instead of being from month to month thirty, instead of twenty days' notice to tenants to evacuate; making it a crime for a landlord to deny "normal and natural service" to a tenant; placing upon the landlord the burden of proof that a tenant is "objectionable."

All these bills were agreed upon at a joint conference of members of both houses.

TO MAKE WORLD DRY. "PUSSYFOOT" IS BUBY

London, March 29—"The World's League Against Alcoholism" is "Pussyfoot" Johnson's latest organization to make England and all the rest of the globe a Sahara.

Johnson has just returned from his vacation in Africa. Many leading prohibition adherents attended the conference when the "world's league" was launched. Among them was Bishop Cannon, Richmond Va., backed by $500,000 contributed by Methodist churches of the south to aid "Pussyfoot's European dry campaign.

Big Sensation In Vice Graft Probe

NEW YORK, March 27—Further action by the grand jury investigating alleged vice "grafting" by members of the New York police department, is awaited with keen expectancy following a statement by Assistant Attorney James E. Smith that an official "higher than third deputy commissioner Alfred Drum Porter," recently indicted, would be indicted at an early date.

Mr. Smith's assertion was made in the course of an answer to charges filed with Police Commissioner Enright by Inspector Dominick Henry, commander of the fourth, or "tenderloin," district to the effect that Mr. Smith himself had sought protection for certain disorderly resorts and through an intermediary had offered to enter into partnership with the inspector in the sale of protection of gambling house and other disorderly resorts.

Characterizing the inspector's charges as wholly false, Mr. Smith declared that they had been made at the suggestion of a higher police whose "pet," he said, Henry was, and be indicted. Declaring evidence against Inspector Henry also had been submitted to the grand jury, Mr. Smith said.

"This statement of Henry's pleases me very much. It is what I have been loking for. This will start the real big scandal."

He added that the New York police department at present was "more rotten" and had "more crooks in it than it has ever had under any of the city's administrations."

◆

To Manufacture Industrial Alcohol

Is Government .Monopoly Now, .but Private Firms Want Right

OTTAWA, March 29—It is expected by industries interested that legislation will be introduced this session in the Canadian Parliament permitting private firms to manufacture industrial alcohol. This industry, at present, is a monopoly of the Government and the production is considerably short of the supply. The paint industry notably is affected by the shortage, which is approximately 1,100 barrels.

A delegation waited on the Government to urge that it be made legal for private firms to make industrial alcohol.

It was pointed out by the delegation that the production and consumption of industrial alcohol in the United States jumped from 3,000,000 to 95,000,000 gallons yearly when the Government surrendered the right of manufacture to private firms, with a corresponding increase in the number of industries using the material. A similar increase was noted in England and Germany for the same reason.

◆

CRISIS AT MIDLAND OVER TEACHERS' SALARIES

Midland March 29.—A climax has been reached in the negotiations between the 25 lady teachers and the Public school trustees. The former have been asking for higher salaries, and their discontent was increased by the granting of the $300 additional to each of the three male principals and also substantial increases to the janitors. The trustees contend the assistant teachers are breaking their contracts by resigning at the beginning of June instead of teaching until the commencement of the summer vacation The members of the board threaten to close the schools, some even going so far as to state they will resign rather than yield to the demands of the teachers.

GERMANY BADLY REMISS

Paris, March 29.—Premier Millerand took up the defense of his Government's foreign policy in a speech before the Chamber of Deputies.

Answering a heated attack by M. Barthou, former Premier, Millerand denied reports of discord among the allies. He boasted there were no serious differences of opinion and said those that do exist are of no more importance than others which came up during the war and were adjusted satisfactorily.

Millerand admitted, however, that Germany was badly remiss in flufilling her obligations as laid down in the Treaty of Versailles.

◆

INDIA PROHIBITS ENTRY OF GERMANS

Washington, March 29—The Government of India has issued an order prohibiting the entrance of Germans into India for a period of five years, from the signing of the Versailles treaty, Consul General Smith at Calcutta today notified the State Department.

Advice which coincides with your own opinion is easily swallowed.

SOUNDS DEATH KNELL GLARING HEADLIGHT

Toronto, March 29—The death knell of the glaring headlight on autos, is sung in legislation introduced in the legislature by Hon. F. C. Biggs, Minister of Public Works and Highways. The bill gives the department authority to approve certain kinds of headlights and declare all others outside of the law. Mr. Biggs also introduced a bill necessary to carry out high provincial policy and other measures which he has promised since becoming minister. All of these have been reviewed before and the introduction of the legislation is the necessary form before they become the law. He also makes provision whereby Ontario can take advantage of the federal grant for highways. A minor amendment regarding the width of loads allowed on vehicles permits a 96 inch load instead of 90.

◆

M. P. P. WOULD REMOVE VARSITY STAFF MEMBER

Toronto, March 27—Lieut.-Col. W. H. Price, Conservative member for Parkdale has filed the following questions in the Legislature:

"Is the Government aware that a member of the staff of the University of Toronto made the following remarks: "There are pacifists in the I. O.D.E. and they sent their sons across the border. Three quarters of the members of the Veterans' Association are British, and where objections were made at veterans' meetings it was the drunken British element that was responsible.

"If not, will the Bovernment ascertain through the President and Board of Governors by whom the said remarks were made?

"If the name of such person is ascertained, will the Government ask for his or her removal from the staff of the University?"

◆

TORONTO WILL HAVE DAYLIGHT SAVING

Toronto, March 29—Mayor Church will issue a daylight saving proclamation. The change would go into effect on Sunday, May 1, at midnight, and the new time would remain in force until Sunday, October 2.

"I have been requested by all the big organizations to issue such a proclamation," said the Mayor. "There is some opposition to it, in certain quarters, but all the large cities are adopting the plan, and Toronto will fall into line. We will start the same time as Montreal and Ottawa.

◆

RUHR FIGHTERS KEEP "BANKING HOURS"

Wesel, Rhenish Prussia, March 27—The fighting at Wesel, which ended at ten o'clock Weinesday night, began again yesterday morning at ten and lasted for an hour and a half. Both forces then took a long and comfortable luncheon, and hostilities were renewed at two o'clock. They were virtually finished at 4.30.

Traffic across the Rhine is still at a standstill, because the workmen on Wednesday night directed their fire toward the eastern end of the bridge at Wesel, and continued yesterday their intermittent shelling, and also covered the exposed highway and the small city bridges leading into the town. The city is quiet. More than five persons are forbidden to gather in the streets in groups. Business is going on ormally, and there is plenty of food. The military authorities have placed a censorship on the telephone and telegraph lines.

◆

HALF MILLION VOTED TO TAKE REFERENDUMS

Ottawa, Ont., March 27—The Government has placed $500,000 in the main estimates for the taking of the prohibition referendums in the various Provinces of the Dominion. It is believed all the Provinces, but Quebec, will take advantage of the new Dominion law, which enables Provinces to practically go bone dry. Ontario and Manitoba have already intimated that they will request a plebiscite.

I AM MORE GRATEFUL TO Tanlac than words can express for it has given me health and happiness after twelve long years of suffering," was the enthusiastic statement made the other day by Mrs. Olivine Peltier, of Vermont.

"I am more grateful to Tanlac than words can express for it has given me health and happiness after twelve long years of suffering," was the statement made the other day by Mrs. Olivine Peltier, No. 26 East Allen Street, Winooski, Vt.

"I had been troubled so long with nervousness and sleeplessness that my housework wa a drudgery and I got little pleasure out of life. My appetite left me entirely and at times I could hardly bear the sight of food and what little I did eat caused me severe suffering afterward. Gas would form on my stomach so badly that it affected my heart and I thought I had heart trouble.

"I was so nervous I would jump at the least unexpected noise and would drop everything I had in my hands. I got so weak and faint at times that I would have to catch hold of something to keep from falling over. My sleep was broken and restless and I was losing weight rapidly. I had little strength or energy and, as I had tried all kinds of medicines without relief. I had become very much discouraged over my condition.

"My husband had been taking Tanlac and when I saw what wonderful results he was getting I decided to try it myself and now I think as much of Tanlac as he does because it has helped me the same way.

"My appetite has come back and everything agrees with me perfectly. I am taking on weight rapidly and have already gained nine pounds; in fact, I feel perfectly well in every way. Tanlac has done wonders for me and I am only too happy to tell others about it."

Tanlac is sold in Belleville by Ostrom's drug store and by the leading druggists in every town.

◆

City AND Country

SPEAKER AT SPECIAL SERVICE

Special services to commemorate Passion Week are being held this week in the Methodist Church at Port Hope. This evening Rev. Dr. Baker, Principal of Albert College will be the speaker.

CALL FOR INTOXICANTS

Saturday evening the police answered a call to a place of amusement and placed under arrest a young man who was considerably under the influence of liquor and had also upon his person a bottle partially filled with gin.

LIQUOR DISPENSARIES

Mr. Stover, M.P.P., has a query on the Order Paper of the Legislature asking if it is the intention of the Government to open government liquor dispensaries at such central points in the province of Ontario as St. Thomas, Welland, Barrie, Peterboro, Belleville, Kingston, North Bay and Sudbury?

INCREASED FARES

Railway ticket agents have been notified that commencing March 29 an increase of ten per cent will be made in the price of tickets purchased for points in the United States. This action is owing to the high rate of exchange over the border on Canadian money. However, it does not affect the fare on tickets for border points like Detroit, etc.

MILL PROPERTY PURCHASED

The Smith's Falls branch of the U.F.O. has purchased the Wood Mills Co. property in the heart of the town, consisting of an excellent water power, a flour mill, feed mill, saw mill, bakery, blacksmith shop, double house and three acres of land on the island, Beckwith street. The purchase price is understood to have been $30,000. The U.F.O. will rent the flour and feed mill to the Farmer's Co-operative Co., Limited Toronto.

RECOVER BODY OF BOY

The body of Cecil Lavine, a youth of fifteen years, who was drowned in the River St. Lawrence when crossing the ice from Ogdensburg to Prescott on March 12th was secured by grappling Sunday. Mr. John Lavine, of Brockville, an uncle of the boy, took charge of the body which was located close to where the accident took place. Ice formation prevented all efforts to locate the body by grappling until open water was available. The river is now entirely clear of ice at this point.

ATTRACTIONS CANCELLED

The musical comedy "Oh My Dear" which was to be presented at Griffin's Tuesday evening and which played the Royal Alexandra Theatre, Toronto, last week have had to cancel their Belleville engagement the company jumping direct from Toronto to Montreal. The Griffin management are endeavoring to secure the above attraction after their Montreal engagement. "Flo Flo" which was to be presented here on Tuesday, April 6th, have cancelled their engagement the company closing for the season last Saturday night.

MUSKRATS AND TRESPASS

W. J. Barber, of Ameliasburg, laid a charge of trespassing and trapping muskrats contrary to the Game and Fisheries Act against W. J. Andrews and John Reeves of Belleville, for the purpose of testing the right of trappers to take muskrats from the marsh that lies between the 2nd and 3rd concessions of Ameliasburg and runs from Sauguin Island below Massassaga nearly as far west as Rednerville. This is a rich breeding ground, and many thousands of dollars worth come from it each year. Trappers and hunters have resorted to this marsh for a long time but recently Mr. Barber put up an old title to some 900 acres of the marsh, and now claims the right to the exclusive trapping. Mr. Mikel who acted for the accused claimed that the Magistrate W. W. Anderson had no jurisdiction because the title to the land was in question, and took objection to Mr. Barber's title on the ground that the Patent from the Crown, relied on by the Prosecutor, reserved rights to free use of the marsh, and was later concelled by the Crown, and the Quit Claim from the Grantee conveyed nothing as he had nothing. It was also claimed the marsh was not enclosed so as to comply with the Game and Fisheries Act. The Magistrate dismissed the charge. M. Wright appeared for Mr. Barber, W. C. Mikel, K.C., for the accused.

CHAUTAUQUA ENTERTAINERS

Although the programme for the 1920 presentation of the Dominion Chautauqua has not as yet been made public, it is evident from the different lecturers and artists who have been engaged by the Chautauqua for its Ontario tour this season, that the attractions will be up to the standard set last year and that several well known lecturers will be on the programme. Dominion Chautauquas Limited has booked for this year a number of British and Canadian lecturers including Hon. Charles B. Stanton, a member of the British Parliament who began his interesting career as a breaker-boy in the coal pits of Southern Wales, Hon. Charles H. Poole, an eloquent member of the New Zealand Assembly, who will lecture on "Canada and New Zealand." Captain the Rev. Father Watt, a member of the British War Mission to the United States, whose subject is "The Winning of the Peace," Rev. Dr. George Adam, pastor of Emmanuel Congregational church, Montreal, who was here last year. Prof. William Caldwell, Ph.D., of McGill University, Montreal, whose lecture will be on "Canada in the World of Today," Lincoln McConnel, L.L.D. on "The Guy That Delivers the Goods" Herbert Leon Cope, American humorist, Dr. Woon Young Chun, who headed the Harvard Expedition to China, Dr. Arthur Walwyn Evans and Fred G. Bale, both of whom spoke here last night.

Musical artists secured by the Chautauquas include Albert Lindquist, the golden voicell tenor, assisted by Leonora Allen, formerly soprano with the Chicago Operatic Company; Josephine Martino, dramatic soprano, assisted by Vitali Podolsky, violinist; Lieurance's Little Symphony Orchestra of six artists; The Zedeler Symphonic Quartette; The Demille Quartette; The Welsh Glee Quartette; The Bell Ringing Male Quartette; The Bel Mar Ladies Quartette and the William Shakespeare Concert Party of Toronto. The Metropolitan Singers and the Leiter Light Opera Company are two musical organizations of repute, the former singing grand opera and the latter light opera. Entertainers include Charles C. Gorst, who is said to be able to reproduce the songs of over 300 birds; Henry the magician; Noah Beilharz, impersonator and Monologist; The McAllister trio; Marion Ballou Fish, cartoonist and lecturer; The Wells Entertainers and Roselth Knapp Breed, reader. Novelty companies who will tour Ontario are a quartette of Morris from New Zealand; The Hawaiian quartette; and Oyapela and Company, Indians. The playlet is "Fine Feathers," directed by Percival Vivian, who appeared so successfully last year on the Chautauqua circuit in "Seven Keys to Baldpate."

EXCURSION BOAT.

J. M. Campbell, of Kingston, is placing an excursion vessel on the river this season with a capacity of 500 passengers and a speed of 18 miles an hour. The vessel will run regularly between Gananoque, Kingston and Alexandria Bay and will be available for charter on Tuesdays and Thursdays.

LINDSAY'S

CANADA'S MUSIC WEEK—APRIL 5th to 12th.

Music's Place in Our Lives

After food, raiment and shelter, music holds first place among the necessities of life. It is the one thing that makes the other three enjoyable, and which makes life worth while living.

There should be music in every home, and in order to make everybody in Canada realize this truth "Canada's Music Week" has been launched.

During this week everyone is asked to "Give More Thought to Music."

And if you are thinking of buying a Piano, Player Piano or Phonograph, remember that Lindsay's display includes:

Heintzman & Co.
Brambach
Weber
Wormworth
and Lindsay Pianos
Player Pianos.
Columbia Grafonolas
Sonoras
and Columbia Records.

REV. DR. JAS. HENDERSON COLLAPSES IN PULPIT

Montreal, March 28—While officiating at the service in St. James' Methodist Church tonight Rev. Dr. James Henderson was overcome by the heat, and was obliged to leave the pulpit. He collapsed just as he was about to deliver the sermon. Rev. W. H. Young assisted him into the vestry and he recovered after a few minutes sufficiently to remain until the service was over. Rev. Dr. Pedley, who was in the congregation, took the pulpit and preached at a few minutes' notice. Dr. Henderson is a former pastor of Timothy Eaton Memorial Church, Toronto, and was for some years Assistant Secretary of Missions for the Methodist Church. His condition was considered satisfactory late tonight.

The lowest or any tender not necessarily accepted.

Any person whose tender may be accepted will be required to enter into a lease and give security to the satisfaction of the Company for the payment of rental and performance of covenants.

E. GUSS PORTER.
Solicitor for Belleville-Prince Edward Bridge Company.
m29-12td-2tw 219 Front St., Belleville.

Last Minute Telegraph Briefs

NO FARE INCREASE

Montreal, March 29.—Railway companies in Canada, who sought to increase fares to United States points by ten per cent to make up for adverse exchange and who issued a circular instructing agents to charge the extra amount today, cancelled their circular today on instructions from the Railway Commission. An increase in head tax from eight to nine dollars for Candians going to the United States was also cancelled by the Commission.

BOLSHEVIKI VICTORY

Novorossisk, March 29.—Occupation of this city by Bolshevik forces occurred Saturday morning at ten o'clock. Thousands of General Denikine's volunteer soldiers went over to the Soviet side and most of the remainder went on board ships and departed for the Crimea with Denikine. The ships which resisted occupation of the city were Russian which fired a few shells at the Soviet forces. Virtually all the shipping of value was removed from the harbor before the Bolsheviki gained control of the city.

NEW MILITARY HEAD

London, March 29.—The Daily Express says that the Government is making a dramatic change in the military control in Ireland by sending over General Neville MacCready, Commissioner of Metropolitan police. General McCready is known as a strong peacemaker and will have vastly increased powers in Ireland.

Late Telegraph Briefs

Canadian Press Limited

Over twelve thousand guns and six thousand airplanes were found hidden in various parts of Germany.

Ten million dollars in gold arrived in New York Saturday and steamer Carmania left Liverpool with sixteen tons of gold for New York on Saturday night.

General Sir Nevill Macready has been chosen as new commander for British forces in Ireland.

Six western States were visited by a tornado yesterday. Scores of people were killed and thousands injured. Suburbs of Chicago were wrecked, thousands of people homeless.

Turks lost five thousand men in recent attack on French in Cilcicia where recent Armenian massacres occurred.

Second reading of Home Rule Bill for Ireland comes to-morrow. Debate expected last two or three days.

The question of liquor export licenses is likely to be reopened in the Legislature this week.

Plowing has commenced in Elizabethtown township, near Brockville.

G. I. Delisle, member of St. Maurice, in the Quebec Legislature, is dead

Crop prospects in the West and generally throughout Canada, are very good.

The Dominion G.W.V.A. convention at Montreal closed Saturday afternoon after having chosen Port Arthur as next year's meeting place.

The Winnipeg strike leaders' trial concluded Saturday, five being found guilty of seditious conspiracy, one, R. E. Bray, guilty of committing a nuisance, and one, Ald. A. A. Heaps, not guilty on all counts.

All the passengers of the British steamer Ortega have been landed at Fishguard.

A consignment of gold valued at two million pounds reached New York on Saturday.

Official records show an increase in French imports during the first two months of 1920 amounting to a billion francs.

Part of former Kaiser Wilhelm's baggage has been moved to Roorn, where the ex-Emperor will take up his residence on May 1.

Seattle defeated Ottawa in the third game of the Stanley Cup series on Saturday by 3 to 1. The remaining games will be played in Toronto next week.

New York funds sold at 9 per cent.

Wall Street had an abrupt decline just before the close Saturday.

Provincial Paper advanced to 123 under news or reorganization. Canadian exchanges were quiet, but steady.

ALLIES WILL ARM 40,000 ARMENIANS

London, March 29.—The Allies will arm 40,000 Armenians for self-defence against their Turkish oppressors, Premier Lloyd George announced in the House of Commons.

The Premier expressed the hope that France would undertake the Armenian mandate.

He reiterated that the Turkish crisis was precipitated by the delay on the part of United States in ratifying the peace treaty and by America's refusal to accept the mandate for Armenia.

The Prime Minister declared himself against a revision of the Versailles Treaty. He pointed out that the pact gives Germany the option of submitting her own estimates of the reparation figures.

STATUS OF BOARD OF COMMERCE DECIDED BY COURT APRIL 6

Ottawa, March 29—The Supreme Court of Canada adjourned until April 6 without handing down judgments in the two Board of Commerce cases argued in the court last week.

The judgments will decide the status of the Board of Commerce as a price-fixing tribunal and its power to compel the marketing of commodities at fixed prices and fix penalties for the infringement of its orders.

The Blackburn Spirit of Service

The Blackburn idea of an optical business is that it is rendering service rather than selling merchandise. One buys glasses not for their actual, intrinsic worth, but for the good they do—the benefit received to sight and health. It is this idea, carried out for many years, which is responsible for the attentive interest given your eye troubles, and the painstaking, professional skill given to testing eyes, making lenses and fitting glasses, at Blackburn's. It is the Blackburn Spirit of Service—so grateful to, and so much appreciated by, our patrons.

T. Blackburn
Jeweler and Optician

THERE'S only one kind of service here, and that is the sort we'd look for if we stood in your shoes. We serve as promptly as we would ask to be served. We *give* the sort of advice we would *value* as to battery care. We make repairs as carefully as we would ask to have them made.

Quinte Battery Service Station

New, Unique Marine Railways Add To Joys On Trent Route

NAVIGATION TO OPEN FOR SMALL MOTOR CRAFT ALONG ENTIRE ROUTE FROM LAKE ONTARIO TO GEORGIAN BAY—HIGH SPEED LIFTS AND INCLINE HOISTS.

During the recent history-making years 'going over the top" in some strenuous capacity, whether by the tank route, on foot with a Lee-Enfield, or at home helping to put through a Victory Loan, has become an international sport of sports.

The engineers in charge of the construction work on that piece de resistance to the motor boat enthusiast, the Trent Valley waterway, not to be cutdone, decided to apply this idea to their undertaking just to give the impatient ones a little surprise and the marine railways shown herewith, designed to transport motorboats quickly over the portions of the canal not yet completed, are the result.

Canalizing Complete

Cutting through the solid rock is slow work, and can only be carried on during the summer months. The canalizing of this route is complete from Lake Ontario to Lake Couchiching, and open to boats up to 125 feet in length, and when the two locks under construction on the Severn river are completed, a through route will be established to Georgian Bay for large-sized boats. It is on this section that the temporary expedient of using marine railways to enable boats up to 35 feet in length to make the through trip has been resorted to. Don't be afraid to trust your latest mahogany or egg-shell finish craft to these railways. As the photos show, they are as solid and substantial as the rock they rest on, and the cars run right down into the water at each end, allowing the boat to float on or of, as the case may be.

The carriages are so designed as to carry moderate-sized boats without any undue strains. There is no special reason for limiting the length of boats to 35 feet, other than the weight of the craft and the straining effect of a long overhang. Although built as a temporary expedient, they have proved so satisfactory in operation that their use will be continued permanently for small craft. By them a motor boat of ordinary characteristics can be taken over the 50 foot hills, which they are intended to surmount in about 4¼ minutes, counting from the moment of its arrival at one level until it starts off on the other. Large power developments are completed alongside each of the marine railways, and they are operated electrically.

Cruising Delights

Some years ago, the writer, in a series of articles in Canadian and American boating and outing publications, endeavored to describe the delights of a motor-boat cruise through there beautiful lakes and rivers of the Ontario Highlands. The interest displayed from all quarters was convincing proof that this waterway will be one of the greatest attractions on the continent each summer.

The Canadian government exhibited a huge map of this waterway at the recent New York Motor Boat Show, and if all the motor boat men who promised themselves this trip make good, the new waterway is in for a lively season.

In recent summers many boats made this trip from the American side up through the route as far as Washago at the upper end of Lake Couchiching. Instead of having to return from this point, they will now, thanks to the new railways and a lock, be able to go to Georgian Bay.

Senator W. H. Bennett, of Midland, has long been an enthusiastic champion of the Trent Canal project. He has given valued assistance in the preparation of this article.

Arrival of the Pioneer

Early in the last century, when pioneer settlers began to move into central Ontario, advantage was taken of the series of waterways known collectively as the Kawartha Lakes, which now constitute the interior section of the Trent system. These lakes drain to Lake Ontario, via the Otonabee river, Rice lake and the Trent river, the latter stream emptying into the Bay of Quinte at Trenton. In the other direction, drainage to Georgian Bay takes place via the Talbot River, Lake Simcoe and the Severn River. The portages were abolished at an early date in the Kawartha region, and a system of locks built to provide navigation from Balsam Lake, the summit level, to Lakefield, at the foot of Katchewanooka lake. There was another navigable stretch also provided between Peterboro and Heeley Falls, through the Otonabee River, Rice Lake and the upper end of the Trent River.

Later canal sections were built to connect the two above mentioned navigable systems and also to connect the Balsam Lake summit level with Lake Simcoe.

During recent years steps have been taken to complete the system by canalizing the Trent River from Rice Lake to the Bay of Quinte and the Severn River from Lake Simcoe to Georgian Bay. The work on these sections is designed for 8 feet 4 inches depth of navigation with locks 175 feet by 33 feet intended to provide for barges large enough to safely cross Lake Ontario.

Progress of the Work

The Ontario and Rice Lake division has been completed and is in operation. The work upon the Severn river division was interrupted by the war and several years may elapse before this section will be ready to pass full sized vessels.

Owing, however, to the large summer colonies of motor boat enthusiasts in these regions a small lock at Port Severn has been constructed, giving access from Georgian Bay to Gloucester pool, near the mouth of the Severn river. This lock is 100 feet x 25 feet, with six foot of water. Also at other points on the river, where high lift locks will be required for the regular canal traffic, the marine railways have in the interim been provided to carry over motor boats of the class frequenting these waters. This permits boats to ascend from Georgian Bay to a point a couple of miles below Washago, where a lock and canal of standard size is nearing completion and will be available to pass motor boats into Lage Couchiching early next summer.

Scenic Interest

The whole route of 235 miles, not counting branches, is one of much scenic interest, and good fishing for small-mouth bass and muskalonge may be had. If you like to dance, and make the trip during July or August you will find everything in this line in full swing at various points along the line every evening. Those who prefer to come later in the season will find the duck shooting good at various points, and it is here the comfy little cruisers will be just right for the cool nights. Or if you prefer hotel accommodation you will be taken care of in good shape at number of good resorts.

The beauties of this district during the autumn have been written many times. They must be seen, however, to be appreciated, and a cruise at this time will be long remembered and add a special interest to the beautiful lines, descriptive of Canada, 'Where the air is full of sunshine and the sky is full of stars."

Toronto boat owners who desire to make this cruise should have no trouble making the mouth of the Trent River even in a small boat. A number of good safe ports are available in this stretch of Lake Ontario, and no trouble will be experienced in obtaining supplies at any point on the waterway.

Points Along the Route

The principal places along the route are Trenton, Frankford, Campbellford, Hastings, Peterboro, Lakefield, Bobcaygeon, Lindsay, Fenelon Falls, Barrie, Orillia and Washago.

Other points of interest to cruisers might be the Hydro-electric developments along the route, and the numerous side trips and summer resort attractions.

For many years there have been summer colonies of Americans at various points along the route, particularly in Stoney Lake and Gloucester pool. Doubtless many more will frequent these waters when their advantages for pleasure cruising are better known.

There are no canal tolls or fees of any description charged, and aside from the H. C. of L. the motor boat owner need have no fear of being held up by any unexpected expenses.

CONSTANTINOPLE ESTIMATES 8,000 ARMENIANS KILLED

Constantinople, March 30—Estimates of casualties during the massacre at Marash last month place the loss of life about 8,000 Armenians. During the disorders 15 Turks were killed.

Bottled Radium Supplied To Doctors

LONDON, March 30.—European physicians and surgeons are being seriously alarmed at the prospect of early exhaustion of the world's supply of radium. While the demands of scientists and medical men for the mineral are rapidly increasing, the supplies are becoming increasingly harder to find. Ores from which it was hoped radium might be extracted have proved valueless.

It takes scores of tons of ore to yield a single gram of radium, and a vast amount of labor recently has been expended on the extraction process without obtaining even a fraction of a gram. A great advance in the price of radium, which is now $8,000 a gram, is expected in the near future.

In preparation for a famine of the precious mineral the British Radium Institute is preparing a weak solution of radium which gives off invisible emanations. The latter are being bottled and supplied to doctors.

Plot To Destroy Atlantic Liner

Two Fires Break Out on the Steamship Philadelphia

LONDON, March 30—Two attempts to destroy the United States steamship Philadelphia by fire, which resulted in such serious damage to the vessel as to make it necessary to postpone her sailing for New York, are believed to have been the work of plotters among the crew. The fact that the steamship New York, of the same line, was recently damaged by similar mysterious fires has convinced officials of the line of the existence of an incendiary plot. A reward of £250 has been offered for information leading to the arrest of the guilty persons.

The first fire on board the Philadelphia was discovered in the crew's quarters, and the second amidship, below the main saloon. It took the town several hours to extinguish the second fire. The saloons and several staterooms were badly damaged.

FOUR IN HOSPITAL

Southampton, March 30—After subjecting the whole crew of the American liner Philadelphia to close questioning, the police were unable to elicit anything which will give a clue to the origin of two mysterious fires which severly damaged the liner. Inquiry was held aboard the vessel, which is being patrolled day and night by police. There is a suspicion that the firing of the New York and the Philadelphia may be part of an extensive incendiary plot which has in recent months caused fires on numerous liners in British and other ports.

It was possible to ascertain the extent of damage to the Philadelphia, which is greater than at first thought. More than a dozen passenger cabins were completely burnt out. The stewards and two members of the Southampton fire brigade are in hospital as a result of the fire having barely escaped being burned.

Double Tragedy At Williamsburg

Wm. Kline Kills Nephew, Gordon Fetterly, Then Takes Own Life

BROCKVILLE, March 29—At Williamsburg, a village seven miles north of Morrisburg this morning, William Cline shot and killed his nephew, Gordon Fetterly, with a rifle, and then took his own life with a revolver. Domestic differences are said to be the cause. Both men were to come up for trial tomorrow on counter suits of debts and board bill.

BRAKEMAN TO FACE CHARGE OF NEGLIGENCE

Ottawa, March 30.—Thomas J. Curley, a C. P. R. brakeman, charged with criminal negligence while in the execution of his duty, was committed for trial by Magistrate Askwith. Later he elected for a jury trial and was given bail.

Curley was the brakeman on the first section of the C.P.R. train proceeding from Chalk River to North Bay, January 25, when the second section crashed into it at a point one miles east of Corbelly, Ont., causing loss of life. Curley was released from custody on $1,000 bail.

TWO HUNDRED WEDDINGS IN LILLE IN ONE DAY

Lille, France, March 30—Two hundred and eighteen marriages will be celebrated at Lille Easter morning. This surpasses all previous records.

Big Suit Over Canada SS. Deal

MONTREAL, March 30—Two big actions have been entered in the Superior Court arising from the formation some seven or eight years ago of the Canada Steamship Lines, Limited and particularly the merging in this company of the old Richelieu and Ontario Navigation Company.

The actions are those of James Playfair against Col. W. Grant Morden, formerly of Montreal, now of London, Eng., and M.P. in the British House of Commons, and against C. A. Barnard, K.C., of Montreal, for $511,725, and that of James Carruthers, grain broker and president of the Canada Steamship Lines, Limited, against the same defendants (Morden and Barnard) for $168,283.

Col. Morden said that this claim against himself had no foundation in law or equity and would certainly be contested.

According to the declarations filed in the two actions—which are similar —plaintiffs declare that in 1912 and 1913 the defendants Morden and Barnard formed and incorporated the Canada Transportation Lines, Limited, which was subsequently changed into the Canada Steamship Lines, Limited.

The plaintiffs were individually large shareholders of the Richelieu and Ontario Navigation Company and they claim they were induced to use their influence with other shareholders to induce them to consent to the transfer of the holdings to the new merger.

The plaintiffs declare they had been promised by the two defendants that if the merger went through they would be given a certain percentage on their holdings in the Richelieu and Ontario Navignation Company, of which they were individually two of the largest shareholders.

The plaintiffs now claim that while they performed their share of the deal the defendants did not, inasmuch as they have failed to comply with transferring unto them the amount of shares they were to be allotted in the merger and they now take action to compel the defendants to remit them the shares, with accrued dividends. Plaintiff Playfair bases his action on 6,823 shares of the Canada Steamship Lines he claims as belonging to him and plaintiff Carruthers bases his on 2,081 shares, and each of the two claims one-sixth of 120,000 shares as per agreement entered into at the time of the proposed merger.

In each case the Fidelity Trust Company is called as mis en cause.

"I never heard of this claim until a few days ago," said Col. Morden. "This business dates back eight years and in all that time I received no such request directly or indirectly. They issued the writ without even speaking to me about it."

Mistaken By Brother For Animal And Shot

Major Casselman Wounded While Hunting Fores Near Morrisburg

CORNWALL, March 30.—What might easily have proved a fatal accident occurred today when Major Casselman of Morrisburg was accidentally shot with a 22 rifle in the hands of his younger brother, Fred Casselman. The bullet lodged about four inches below the heart. The brothers were out fox hunting and Major Casselman who wore a colored sweater was mistaken for a fur-bearing animal by the lad. Major Casselman was immediately rushed to the General Hospital here, where the operation of removing the bullet was successfully performed and it is hoped that he will be able to resume his duties shortly.

WILL WAGE WAR AGAINST GRASSHOPPERS IN WEST

Regina, March 30—A thoroughly organized campaign with the farmers and municipalities co-operating, is all that is necessary to eradicate the grasshopper invasion in certain district of the Province, according to F. H. Auld, Deputy Minister of Agriculture, when asked for a statement indicating the extent of the danger which might be anticipated from these insects.

"Grasshoppers," said Mr. Auld, "have been so little noticed in Saskatchewan that the fact that they have temporarily increased in numbers to the point where they are out of balance with their natural enemies, which ordinarily keep them under control, is receiving some publicity.

"The point must be emphasized that effective co-operation must be employed and energetic efforts put forth in destroying grasshoppers, if the problem is to end this year."

New York Exchange Is Lower Again

Special Despatch to The Intelligencer
Canadian Press Limited

NEW YORK, March 30.—Foreign exchange rates were substantially lower at the opening of the market here today. Demand sterling opened at $3.85¼ or 8¼ cents below yesterday's close. The Canadian dollar was quoted at 91.75.

Asquith On New Home Rule Bill

Special Despatch to The Intelligencer
Canadian Press Limited

LONDON, March 30—Herbert H. Asquith in the Commons today described the Irish Home Rule bill as a 'cumbrous duplication and multiplication of institutions and offices," adding that from the view point of efficiency there is nothing to be said for it. Mr. Asquith recalled that in 1914 he gave the pledge that Ireland should have one government and declared that he adhered to that view now. He disagreed with those who believed there could be no constitutional changes until order had been restored and asserted that the root of the trouble could not be got at until there was wide refor min the Government system.

King Christian Refuses Demands

Special Despatch to The Intelligencer
Canadian Press Limited

COPENHAGEN, March 30—King Christian announced today his refusal to comply with the ultimatum of the social democrats, demanding reinstatement of the Zahle Ministry, dismissed by the King, and other action demanded in connection with the Government crisis. The demand was made under threat that Danish trade unions would meet today with a view to declaring a general strike if the throne did not comply. Action demanded included immediate summoning of Righdag and restoration of constitutional conditions.

Last Minute Telegraph Briets

Death of Judge Savary

Annapolis, N. S., March 30—Judge Alfred William Savary, the last surviving member of Confederation Parliament, died here today. He was 81 years of age.

ASSURANCES FROM GERMANY

Paris, March 30.—Assurances have been given by the German Government that it will not send into the Ruhr valley more regular troops than are allowed by the terms of the Versailles treaty. A German delegation called on Premier Millerand last night and told him that troops in the Ruhr district did not exceed the number allowed and declared no such troops would be sent there without authority from the Allies.

CEASE FIGHTING IN GERMANY

Essen, March 30.—All stipulations of the Berlin Government relative to cessation of fighting and maintenance of order in the Ruhr district have been accepted with one exception by the Central Committee in charge of anti-Government. Operations here according to a notification sent to Berlin last night. The exception taken was in reference to the fourth condition regarding the surrender of arms and ammunition. The Government in sending its ultimatum to the Communists in the Ruhr district stipulated its conditions must be accepted by today.

PEACE WITH POLAND

London, March 30.—George Tichtcherin, Russian Soviet Foreign Minister has notified Poland of his willingness to open peace negotiations on April 10 as Poland had suggested, according to a Moscow wireless message today. Tichtcherin suggests that a meeting be held somewhere in Esthonia.

BELFAST RIVETER WINS EMPIRE ORDER

Belfast, March 30—John Moir, of Belfast has been appointed a member of the Order of the British Empire, for the world's record in driving 11,200 rivets in a standard ship in nine hours on June 5, 1919. He is the first shipyard worker to receive this decoration.

158 Dead Toll Of Tornado Thousands Were Injured

EIGHT STATES DEVASTATED BY SUNDAY'S TORNADO—TOTAL OF KNOWN DEATHS 158—THOUSANDS HOMELESS AND MANY INJURED.

Special Despatch to The Intelligencer
Canadian Press Limited

CHICAGO March 30—Death total in Sunday's tornado, which ripped paths of destruction through eight States at noon today stood at 158 with fears expressed that reports from isolated districts might increase the total. Relief measures for thousands of injured and homeless were well under way.

Reports by States today gave number of deaths as follows:

Indiana, 36; Illinois, 21; Ohio, 26; Michigan, 21; Georgia, 38; Alabama, 17; Missouri, 1; Wisconsin, 1.

Huge Increase Of Succession Duty Provided

TORONTO, March 30—An increase in succession duty levies of from fifteen to sixty per cent in some cases is heralded in a resolution placed upon the order paper of the Legislature by Hon. Peter Smith, Provincial Treasurer.

Most striking in the new schedule is the heavy levy it is proposed to make on estates that pass on to one or two beneficiaries, or to others than near relatives. In cases where large amounts were bequeathed to distant relatives or to persons not related to the deceased, the old act exacted from twelve to fifteen per cent. in taxes, but the new legislation gives the Province authority to impose duties up to a maximum of sixty per cent of the estate in the case of non-relatives. Comparatively slight increases are made where the estate passing is small, except under circumstances where the estate passe en bloc, or to others than close relatives.

Where the estate exceeds $25,000 and does not exceed $50,000 and goes to the wife, husband, children, parents, etc., the tax remains unchanged at one per cent. On estates up to $150,000 the old rates have been increased one-half of one per cent Thence the duty increases a half per cent. with each additional $100,000. Ten per cent is collected from estates of over $1,000,000.

Murder Was Sinn Fein Reprisal

LONDON, March 30.—Official inquiries in Ireland have proved beyond a doubt that Thomas MacCurtain, Lord Mayor of Cork, who was assassinated a week ago Saturday night, was "actually a victim of Sinn Fein vengeance," said The Daily Mail. It declares it has obtained its information upon "unimpeachable authority."

EXPELLED AND DOOMED

Lord Mayor MacCurtain and six other prominent men who were expelled from the inner circle of the Sinn Fein and condemned untrustworthy to the cause they had vowed to support were doomed to death, the newspaper says. Of these seven, Lord Mayor MacCurtain was the first to be killed. Another, Prof. Stockley, was shot at four times, but escaped with his life. A third man, whose identity had not been disclosed was found blindfolded, bound and shot to death in a field at Limerick. He held in his hand a rosary. The remaining four are still alive so far as known.

HUDSON'S BAY CO PLANS BIG PAGEANT

Winnipeg, March 30—Grand pageant commemorating 250th anniversary of founding of Hudson's Bay Company is one that will attract visitors from the prate plans for making the celebration one that wil lattract visitors from the Old Country as well as all parts of this continent are being worked out by W. Wilson, the English pageant expert, especially engaged for the purpose. Several high officials of the company including Sir Robert Kina ersley, are expected to be here at that time.

A suggestion that the pageant pro rosed by the Provincial Government for July commemorating the fiftieth anniversary of Manitoba's entering Confederation be combined with Hudson's Bay pageant is now under con-

One half of the roof of St. Augus- pany, Winnipeg Board of Trade and City Council.

Detailed plans of the project are withheld from the public by Wilton until this question is settled, but it is known that the Company's pageant will depict the Company's history from its inception in 1670 to the present day.

Coal Situation Too Uncertain For Prices

MONTREAL, March 30—That there was nothing certain in the coal situation whic hwould warrant them in making a definite statement as to whether there would be an increase in the price or not, was the consensus of opinion gathered among coal dealers of the city. Price of coal at the mines, freight rates and exchange rate would have to be known first and none of them is fixed.

Mr. John Lewis, Fuel Administrator for Quebec, thought that if the scale of miners' wages as a result of the present arbitration was increased, the consumer would have to pay.

Late Telegraph Briefs

Canadian Press Limited

President Wilson is willing that the Germans should send troops into Ruhr district but France strongly objects.

William Cline, of Williamsburg shot and killed his nephew with a rifle then killed himself with a revolver.

Wm. Cosgraves, Sinn Fein member of Parliament for Kilkenny, and chairman of Finance Committee of Dublin has been arrested and deported.

New York Senate passed a bill last night repealing Daylight Saving Bill.

Scale committee of operators and miners in the United States agreed on 27 per cent. increase and mines will not close down April 1st.

It has been proved conclusively that the murdered Thomas MacCurtain, Lord Mayor of Cork was the victim of Sinn Fein vengeance.

Members of the Legislature replied vigorously to a journalistic criticism of their prolixity in debate on the reply to the Speech from the Throne.

New York funds closed Monday at 8¾.

Sterling showed a loss of 1¾ cents for the day.

Wall Street experienced all-round decline near the close of Monday's session.

Paper stocks were strong on the Canadian Exchanges but other securities were relatively inactive.

A special M.C.R. train made the 225 mile run from Windsor to Buffalo in 184 minutes.

Wm. J. Milliken, C.P.R. section foreman at London, dropped dead while playing with his children.

Wm. Cline shot and killed his nephew, Gordon Fetterly, at Williamsburg, and then took his own life.

F. R. Waddell, K.C., resigned as City Solicitor of Hamilton because the Board of Control gave him only $500 increase in salary, not $1,500 as he asked.

The Department of Justice holds that the Canada Temperance Act as amended last year needs no further amendment to be applied to the Province of Ontario.

The Women's Auxiliary of the Cobalt branch of the I.L.P. held a successful tag day to raise money to support the cause of Angus McDonald, Labor-Farmer candidate in the Timiskaming by-election.

Parliament adopted a resolution, introduced by Dr. Michael Steele, urging the Government to take measures to fit and prepare all immigrants of alien origin for assuming the responsibilities of citizenship.

There is little likelihood of Carpentier and Dempsey meeting this year. The Frenchman has a bout arranged in Paris in August.

There are seven head on the string of racehorses which the Prince of Wales will send to Canada this season. The horses will be raced on the Western courses.

The Alan Cup goes West. Falcons of Winnipeg beat University of Toronto 3 to 2 Monday night and thus won the round by 11 to 5. The Falcons will sail on April 3 to represent Canada at the Olympic games.

Mary Pickford For London Stage

Movie Star May Play Tilly of Bloomsbury While Abroad

Mary Pickford has been invited to act on the London stage during her coming visit to England. This fact was revealed by George Grossmith to a representative of the Daily Mail.

"One of the objects of my visit to the United States in January," said Grossmith, "was to persuade the wonderful little star to play Tilly of Bloomsbury on the United States stage and then act in the play over here. When I put my scheme before her she said she couldn't do anything of the kind in the United States owing to her contracts, but that she was greatly tempted to do so in England.

"The movie star told me the idea appealed to her enormously. I told her we could only offer here what was offered Sarah Bernhardt, and she smiled when the money side was mentioned, saying it was by no means the most important consideration."

◆

CAPT. R .L. PARR FOUND NOT GUILTY

Toronto, March 29—That Captain (Dr.) Russell L. Parr is not guilty on the charge of conspiring to defraud the government of Canada of $2,500 was the verdict brought in by the jury under Judge Coatsworth on Saturday after a hearing extending from Wednesday last.

Daniel T. Booth, paymaster of the D. S.C.R., on Spadina avenue and Captain Parr, who was the medical officer, both faced the conspiracy charge. Booth entering a plea of guilty and being sent to jail for six months. Parr pleaded not guilty.

In charging the jury Judge Coatsworth said that the system was all right in the D.S.C.R. but the men who were carrying out the system were doing their work in a very loose and careless manner. "Carlessness is not criminalty," he added.

The judge told the jury it was not safe to convict solely on the evidence of one who has confessed and admitted being an accomplice.

◆

ALLOWED TO CROSS WITH ONE PAPER

Sarnia, March 28—As a result of the Lord's Day Alliance activity here no Sunday editions of American papers were sold to-day, but hundreds of residents of the Imperial City crossed the River St. Clair to Port Huron and returned with their papers.

So large were the crowds that went over to the American side that the ferry company were forced to run a special boat schedule. The Customs and police officials allowed those bringing papers back to have a single issue per person and on this side of the river the Lord's Day Act was most rigidly enforced.

Shoeshine parlors, barber shops and other places hitherto remaining open were closed on notice made public by the authorities during the week.

◆

SENATOR WILLIAMS' SURPRISING CHARGE

Jackson, Miss., March 30.—Senator John Sharp Williams in a speech before a joint session of the Mississippi Legislature said that "it was the deliberate purpose of those who fought the ratification of the Peace Treaty to protect the illness and bring about the death of President Wilson."

"Do you blame me," he said, "for saying that I would rather be a dog and bay at the moon than to spend one minute in the Senate after the expiration of my time of office.

LETTERS FROM READERS ON CIVIC AFFAIRS

Expressions Of Opinion Welcomed, But Name of Writer Must Be Attached to Letter for Publication.

MR. FLINT'S VIEWS

To the Editor The Intelligencer:

Dear Sir:—For many years I have participated in public questions connected with Belleville, and have taken an active part in public meetings and acquired a perfect knowledge of how they are manipulated. If it is thought the public is against a project those persons who wish to accomplish the scheme arrange to have a public meeting, and at that meeting obtain a vote for their measure. It sounds so well to say, "that we carried the vote at a public meeting and therefore the public is in favor of the scheme." Nothing could be more false and absurd. All schemes of this sort are manipulated as follows. All public meetings are organized in the following manner. There is one man whom I will designate the "Brains." He works the scheme, lays and pulls the wires, and the puppets dance as he desires. In every community there is to be found half a dozen orators. These men can orate on any subject at a moment's notice. They are full and all that is required is to pull out the spigot and out flows the oratorical fluid. "Brains" engages four or five of these desirables; floats in half a dozen preachers; marshals an imposing array of the highly esteemed and respected ladies and gentlemen, who quarterly receive a little slip of paper from the City Treasurer directs the children of the schools to get their parents in line; secures the Mayor as presiding officer; calls on the heads of the secret fraternal and other societies, then sits up all night and writes three or four columns to be inserted in the newspapers. This is his masterpiece. No ordinary individual would attempt to read such a mass of figures and statements. The ordinary citizen is at once puzzled. He reads about a column and throws down the paper in disgust. He cannot follow or understand the amazing intricacies of the composition or problem and gives it up. I read about one column and tried to understand it but failed. However, it had its intended success. At the meeting there stood the mighty School Board with the shrewd manipulator of the wires behind them and the rotund form of the man who told Minister Cody he had the Collegiate in his pocket. The cut and dried resolutions were moved. The spigots pulled out, the fluid promised poured out, the resolutions put and carried with uproarious applause.

Only one noble citizen appeared in opposition and he bravely stood up and told these men that the masses of the people were against them. The body of the citizens had held no meetings, pulled no strings, had no speakers provided or engaged. In fact did precisely as they have done in past years, made no effort whatever to meet the School Board.

What is the actual value of the resolution passed as representing the public? No effect whatever.

I dare the Board to submit these questions to a public vote. Should they do so and that vote carry in favor of their scheme, I will support the measure heartily. Why? Simply because whatever may be my individual opinion, if a reasonable majority of the citizens demanded the measures they ought to have them. But does any one suppose such a vote will be taken? Not on your life. Their reply will be in the chorus of the old song. Submit a vote to the people? Oh, no, no, no. Not for Joe, Not for Joseph if he knows it. No—no—no. Previous to the meeting, I had prepared by my Will to leave a large sum to a certain Institution represented at the meeting. As I am now of the opinion that everything I own will go for taxes, I will have nothing to leave, so will cancel that clause in my Will.

Yours truly,
JOHN J. B. FLINT

Joseph Conrad Story Filmed

"Victory" at Griffin's is Thrilling—Norma Talmadge at Palace

The first Belleville showing of Maurice Tourneur's production of Joseph Conrad's novel "Victory" was something of an event at Griffin's last night, for several reasons. About half of the people came, probably because they are ardent worshippers of Jack Holt's art and Maurice Tourneur's genius whose productions are already known to local photoplay fans in the past among which might be mentioned "Sporting Life." And the other half were Conrad Worshippers, many of whom entered a motion picture theatre for the first time in months. Between the two factions the theatre held a new capacity audience. The picture cannot fail to arouse enthusiasm, it doesn't matter whether you have ever heard of Conrad or not—you will be held and excited and twisted and aroused by the masterly story and the masterly way in which it is produced. "Victory" is a great story. Those who have known it in book form need not be told that. And those who see the screen version will realize it quite keenly. There is no doubt that Mr. Tourneur approached this subject a little fearfully because of the greatness of the novel. There is so much in Conrad besides the story, the whole drama of life, the secret depths of humanity, the color and romance of the sea, the sublime struggle of man with fate are all reflected in his books, interwoven with the story and coloring it through and through. Those who like motion pictures brimmed full of action, pictures that pull the emotions this way and that and those who like Joseph Conrad sea sotries, will alike enjoy this picture. The production is on a lavish scale. The scenes shift to various quarters of the globe and all of them are pictorially beautiful. The South Sea Island locations are especially remarkable. Jack Holt who has been seen to advantage in previous productions in Belleville, has the leading role, that of Axel Heyst, to whom befell many strange adventures. Seena Oven, is the leading woman. Others in the cast are Ion Chaney, Ben Deely, Bull Montana and George Nicholls. On the same program with "Victory" is the photoplay screen supplement showing interesting glimpses of photoplay studios in California and famous stars and directors at work and play. A beautiful Bruce Travelogue, a funny 2-reel Fox Sunshine comedy, "Roaring Lions and Tender Hearts" and an amusing Cartoon comedy.

STIRRING DRAMA AT PALACE

Every man, woman and child who frequents motion picture theatres and their name is legion in these days, has come to look forward to a Norma Talmadge picture, for they know she will give them a performance which will awaken evry fine element in their emotions and will appeal to their artistic appreciation. In addition every Norma Talmadge picture is based on a well-known play or story and is acted by a cast of super excellence. In "The Way of a Woman," which was screened before a large audience at the Palace last night, it was evident that the countless Belleville admirers of Norma Talmadge were out to take advantage of her appearance here.

Never has this sterling young actress given a more sympathetic performance; never has she looked lovelier never has the tale she unfolds been more gripping nor dramatically strong er. These are superlative adjectives but they are fully justified by "The Way of a Woman" as will be admitted by everyone who sees it. The photplay was adapted from the famous stage play, "Nancy Lee" written by Eugene Walter, one of America's leading dramatists. In justice to the plot, we shall not divulge anything of the story but we urge you to positively see "The Way of a Woman" for we know you will enjoy every minute of it to the last fade out. Harold Lloyd is appearing on the same program in a new comedy, "Count Your Change" the latest chapter of "The Fatal Fortune" serial is also being shown on the same program.

◆

SEVENTY A MONTH, PLUS BOARD, FOR FARM HAND

Cobourg, March 30.—A farm hand from Haldimand township who is going to the West this summer was offered $70 a month and board if he would remain here and work on a farm the coming season. Not so very long ago $17 was considered a big wage for a single farm hand living with his employer.

Fifty dollars a month, with house, privilege of keeping hens, pigs, a horse and cow of his own, growing his own potatoes and all other garden stuff desired, was the offer recently made to a married man in this locality.

The labor situation in this district was never more acute than it is at the present time and the majority of farmers expect to get along practically without hired help.

AFTER THE "FLU" OR, ANY SEVERE SICKNESS

You Need Vinol to Enrich and Revitalize, Your Blood and Restore Your Strength

There is Nothing Like It, So Nothing Else Will Do

There is just one great drawback to recovery for a person who has been sick, and that is poor, devitalized blood and consequent weakness, and this condition is characterized by prostration, nervousness and depleted strength.

We believe our non-secret cod liver and iron tonic, VINOL, to be the best remedy in the world to hasten recovery and build up health and strength.

In a natural manner VINOL creates red corpuscles and enriches the blood, quickens circulation, increases the appetite, promotes sound, refreshing sleep, and soon the entire system is filled with renewed life, vitality and energy.

Mrs. C. J. Snoddy, of Moosomin, Sask., writes: "I am a farmer's wife, and keep house for my family of six children. I suffered from a constitutional breakdown and a weak, nervous run-down condition. My daughter recommended VINOL, and it built me up so I enjoy my meals and feel like a different woman."

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children there is no remedy like VINOL.

Obsequies

MRS (DR.) ROBERTSON

Many were this morning in attendance at the obsequies of the late Mrs. (Dr.) J. J. Robertson, the victim of Sunday's deplorable railway accident and the beautiful floral tributes were mute evidences of the esteem in which deceased was held. At the family residence, 217 Pinnacle street, Rev. A. S. Kerr, Pastor of St. Andrew's church conducted an impressive service referring in a feeling manner to the lamentable affair which had cast a gloom over the city. Dr. Robertson was able to attend the service. After the service the body was conveyed to the G. T. R. station and shipped to Kingston for interment. The bearers were six local physicians, namely Drs. Yeomans, Tennant, Daly, Forrester, Faulkner and Blakeslee.

RECORD RUN ON M.C.R. 73 MILES AN HOUR

St. Thomas, March 30.—A record-breaking run was made on the Canadian division of the Michigan Central Railway, when a special, composed of an engine and two cars, covered the 225 miles between Buffalo and Windsor in 184 minutes. The time made for the 108 miles between Windsor and St. Thomas was 89 minutes, which beats all previous records, while the 117 miles between St. Thomas and Buffalo was covered in 95 minutes. No stops were made on the way, except at this city, where engines were changed. This is believed to be one of the fastest runs—if not the fastest—ever made in America. President A. H. Smith of the New York Central Lines and Henry Shearer, General Manager of the Michigan Central Railway were passengers on this flight across country.

Spring Blouses and Skirts

Skirts and Blouses are indispensable to the Easter Wardrobe, and when they are as modish as the models now being featured here they add considerably to its success. The Skirts are sportsmanlike affairs of Wool Plaid or all wool Serges and Tricotines. Prices range from $6.50 to $25.00.

In the realm of Blouses, Organdies, Voiles and Georgettes are in favor. Whether one wishes to choose a Skirt or a Blouse or both, a visit to these displays will prove surprisingly profitable.

Just the Suit You've Been Hoping to Find

Yes, we feel sure it is here—since these handsome new models arrived. Every day emphasizes the need of a smart new suit, and if yours is not provided, the real opportunity for most gratifying selection has arrived. Come and look through the collection in time to make sure of your suit for Easter.

The Necessary Handkerchief

Daintiest embroidered and lace-trimmed sorts, or the sturdy and durable pure linen weaves. How much the Handkerchief tells of the tastefulness of the person who carries it. The best sorts for all uses are here, of course, some priced as low as 8 cents each, up to several dollars.

The sight of these new Voiles, Crepes and Marquisettes will make you start at once planning dresses for the coming season. The daintiest fabrics are shown in delightful new patterns that are bound to please you. All are moderately priced.

MARABOUT RUFFS.
—lend a touch of added charm to the New Spring Suits. There will be days, too, when a Marabout Ruffs will be a very comfortable wrap. Prices $8.50 to $17.50.

BAGS AND PURSES.
The newest models of leather Bags and Purses and Plush Bags are shown in desirable tones which will harmonize with your Spring Suit. Prices 85c. up.

Tweed Skirtings

There are many beautiful colorings in these 56-inch Tweeds for Sports or general wear. Stripes and Plaids are shown in Green, Brown and Grey mixtures in an unusually good quality Tweed, at .... $4.50 per yard

ALLAN CUP GOES TO THE WEST

Toronto, March 30—University of Toronto played in much better form last night than they did in the first game of the Allan Cup finals, but they again tasted defeat. The score was 3 to 2 and it just about indicated the margin of superiority shown by the fast western team. The Intercollegiate champions showed no signs of staleness and maintained a fast pace from bell to bell, but their best was not good enough to beat the visitors.

The Allan Cup goes West after an absence of three years, and, judging by the ability of the new holders, it may be a long time before it comes back again. The Westerners can be depended upon to have the defenders in the best of condition when the challengers make the journey to the Manitoba Capital and, all things considered, the task of lifting it will be no easy one. When Dentals surprised the hockey world by winning the trophy three years ago they got none of the breaks. Before meeting the Winnipeg team in the finals they had to put the Saskatoon team out of the running in the elimination series.

Falcons have established their right to the title by decisively defeating University of Toronto on the round, and few, if any, will begrudge them the cup. All of the members of the team are good sportsmen and grand players. Those who have seen them in action are confident that they will defeat all entrants at the Olympiad and bring the worlds' championship to Canada.

CARPET BALL
A CLOSE CONTEST

Last evening a return carpet ball match took place between members representing the Belleville Carpet Ball Club and members of Lydford Lodge, Sons of England. The result was a win for the former players by the narrow majority of 1 shot, the score being 35 to 34. The game was interesting and exciting and was witnessed by a number of spectators. The personel of the teams was as follows:

Sons of England—A. Harman, E. Folwell, W. Parish, A. Rowlands, W. Armitage, W. Bennett, H. Lennox and B. E. Sills. The latter two were skips.

Belleville Club—J. Frederick, F. Bowen, Geo. Kerr, J. Robinson, R. Grose, A. Brulen, B. Kelly and P. Harrison. The latter two were skips.

EAST AND WEST FEEL FIRST THUNDER STORM

Port Arthur, March 29.—Port Arthur experienced something new for March, when a heavy thunder storm hit the city last night. A house was struck by lightning and severely damaged, but the occupants escaped injury.

Hail, Rain and Thunder.

Ottawa, March 29.—The first thunder storm of the spring season visited Ottawa at an early hour today. At 2.50 lightning flashed with all its splendor, thunder rolled and rain fell heavily, while at times the fall of hail was greater than the rainfall.

Montreal is Visited.

Montreal, March 29.—This district was visited by a heavy electrical and hail storm last night.

ST. THOMAS POLICE CAPTURE BANDIT

St. Thomas, March 30—The mysterious masked gunman, who has been terrorizing St. Thomas citizens for the past three months, was captured by Police Officer Geddes. Citizens passing McKenzie's grocery store on Talbot street reported they saw a man moving about in the store. The police captured him as he left the store. He had a loaded gun in his possession, and stated he intended to shoot any person that interfered with him. The robber is Frank Davis, aged 18 years, who has lived nearly all his life in St. Thomas. He was employed as a printer in the Municipal World, and started the game several years ago of entering houses by using skeleton keys when employed as mesesnger for the G. N. W. Telegraph Co. He was brought before the magistrate, then, who, on account of his youth, allowed him to go free. Davis confessed to the police of committing three robberies, entering Mr. Malatts' residence twice, and taking $20 from Mr. McLachlin six weeks ago, while holding a revolver at his head. The boy's parents are respectable and hard-working people.

If you are tired of hearing the clock strike two or three, night after night, try a change from tea or coffee to

Instant Postum

—a wholesome beverage with a fine flavor, but no harmful after-effects.

Accident Inquest Again Adjourned

Evidence only as to identification was taken last evening at the inquest before Coroner Dr. Yeomans, on the body of Mrs. (Dr.) J. J. Robertson, who on Sunday afternoon met an untimely death at the C. P. R. crossing on the Kingston Road. Mr. Carnew, Crown Attorney, conducted the examination of witnesses and Major R. D. Ponton was present in the interest of the Canadian Pacific Railway.

Sergt. Harman testified as to the summoning, on a warrant from the Coroner, of the jury, and that all were qualified to act in that capacity.

He also gave evidence as to visiting the scene of the accident in response to a call put in at the police station.

Mr. J. L. Tickell, undertaker, testified that in response to a call from Coroner Yeomans he in company with some of his employees visited the scene of the accident and removed the body to their morgue. He knew Mrs. Robertson and that was her body. Personally he knew nothing of how the accident occurred.

Messrs C. R. Cole and J. Masters, who assisted in the removing of the body to the morgue corroborated the evidence of Mr. Tickell.

This was all the evidence taken and the enquiry was adjourned until Thursday evening, April 8th.

WOTTEN'S SALE A GREAT SUCCESS

That they came in Hundreds is putting it mild when one speaks of the Great Sacrific Sale now in progress at the new store of "Wotten's Ltd." Mr. Wotten in an interview stated that "the values offered were worthy of coming miles to participate in but even at that the rush was entirely beyond his expectations." He has placed the entire stock of Wims & Co., on Sale at really remarkable reductions and he states that these discounts which are 20 p. c., 25 p.c. and 50 p. c. off will remain until everything has been sold in order to make room for the new goods which are fast arriving.

FREAK INCIDENTS OF THE TORNADO

New York, March 30—A number of freaks of the big storm were reported in messages received here this morning.

In a Chicago suburb a trunk travelled from the garret of one house and lodged in the window of another a hundred feet away.

A lath blown from the Sacred Heart Academy at Melrose Park, Chicago, penetrated a tree seven inches in diameter three hundred feet away.

One-half o fthe roof of St. Augustine's Episcopal church at Wilmette was cut away and carried more than three blocks, but the parsonage next door was not damaged.

A cow on a farm at North Evanston was blown across a field into a haystack. The haystack had to be torn down to free the animal.

A man and two children were eating their dinner in a portable house on the outskirts of Chicago. Suddenly the house disappeared and all three were blown into an abandoned basement fifty feet away.

At Elgin the wind shattered the big windows of a millinery store. Scores of girls, hurrying along the street in search of shelter, stopped long enough to fit themselves out with new Easter hats free of charge.

The window display of jeweliery stores was scattered along the sidewalks and passers-by helped themselves.

LUDENDORFF DENIES IMPLICATION IN REVOLT

Berlin, March 30—General Ludendorff has placed himself at the disposal of examining Judge Oehlschlager and denied charges that he was implicated in the reactionary revolt of March 13, according to a news agency report. The General also made, through his attorney, a statement explaining his relations with the leaders of the abortive revolution.

SURGEON'S CLAMP LEFT IN BODY AFTER OPERATION

Cambridge, Mass. March 30—An autopsy performed on the body of Mrs Jennie Cholskian, who died at a hospital here under intense pain, disclosed that a surgeon's clamp had been left in her body after an operation performed some time ago. The clamp five inches long, was apparently forgotten by the surgeon.

DOG KILLED BY AUTO

A dog prowling about Front street this afternoon got in the way of an auto and was run over. The canine was injured to such an extent that police officer Vanmeer ended its misery with a well-directed bullet.

INSTRUCTIVE ADDRESS

At St. Andrew's Church Guild Meeting last evening, Mr. J. O. Herity gave an instructive address on modern journalism. Brief addresses were also given by the pastor, Rev. A. S. Kerr, Col. Ponton and Mr. R. Templeton.

Distance lends enchantment— to the view of a dynamite explosion.

It doesn't take self-conceit long to put bashfulness out of business.

THE universal desire to make Easter breakfast a really delightful meal, is easily fulfilled by housewives who use

Swift's Premium Hams and Bacon

A few slices of this mild, delicately-cured ham or bacon—cooked to a tempting brown—served sizzling hot—make a meal the whole family will enjoy. For Swift's Premium *is* outstanding in excellence: the Ham, because of its extra mild cure and juicy tenderness; the Bacon because of its succulent fat and enticingly flavored lean; and *both* because of their characteristic savouriness due to the exclusive Swift process of selection and curing.

Serve Swift's Premium on your Easter breakfast table and we know you will insist on this brand in future.

Wedding Bells

CUNNINGHAM—WEESE.

A quiet wedding took place on Tuesday, March 23rd, at the home of Mr. and Mrs. Morton B. Weese, Ameliasburg, when their elder daughter, Carolla Margaret, was united in marriage to Mr. Harry W. Cunningham, younger son of Mr. and Mrs. Fred Cunningham of Ameliasburg. The ceremony was performed by Rev. L. M. Sharpe of Rednerville, in the presence of only the immediate relatives of the contracting parties.

The bride, who was given away by her father, looked smart in a spring suit of French blue Jersey cloth with vest of white corded silk and georgette blouse, a small white feather hat with wings, and carried a sheaf of sweetheart roses. The couple were unattended save for the bride's little sister, Geraldine, who acted as ring-bearer, and carried a basket of pink and white carnations, gowned in all-over embroidered white Swiss frock with blue ribbon trimmings. The wedding march was played by Miss Audra Brickman, who also sang very sweetly "Because," during the signing of the register.

Immediately after the wedding luncheon the happy couple left by motor amid a shower of confetti for Belleville en route to Ottawa.

Upon their return on Friday evening a reception of over 80 guests was held by the groom's parents at Evergreen Farm, Ameliasburg. Unfortunately the couple did not arrive until very late owing to an accident on the C. N. R. tracks near Smith's Falls, causing a delay of over seven hours. The bride's reception gown was of shell pink crepe de chine with rosebuds and satin trimmings. The groom's gift to the bride was a handsome cheque, to the little ring-bearer a pearl ring, and to the soloist a morocco leather purse. The other wedding gifts included a handsome cheque from the bride's father, several pieces of mahogany, wicker and oak furniture, silver, cut glass, linen and china.

Mr. and Mrs. Cunningham are to reside in Victoria, Ameliasburg, where the groom has purchased the farm lately owned by Mr. W. H. Montgomery, and where the bride will be at home after May 1st.

The best wishes and congratulations of the community are extended to the young couple.

THE SPICE OF LIFE.

In days of old there were differences of opinion which caused much bitterness and bloodshed, sorrow, tears and even the fierce joy of battle. The most interesting of history has been written around differences of opinion and the developments therefrom. Even the sport of Kings comes from differences of opinion, according to that lovable old horse trader, David Harum, showing that with the passing of the years differences of opinion have caused less battles and more entertainment, thus the mellowing influence of time. The development of language, the art of debate, and the power of the press have no doubt contributed largely to the causes which have taken the bite out of difference of opinion and left very little of the snarl.

In Belleville there are differences of opinion today as there was seventy years ago and a friend of The Intelligencer sends us a curious old hand bill dated Belleville, March 14th, 1849, showing that the question of a Public Market divided the citizens of that day into hostile camps. The hand bill reads:

> NOTICE.
>
> To the Inhabitants of the Town of Belleville.
>
> YOU all, with the exception of a few interested individuals,, wanted a Public Market: that has been the clamour for years: you elected a Board last year on that very question, and this year you elected the same Board, and thereby stamped their acts with the seal of your approbation. Will you, now that a Market Lot has been bought, elect a gentleman for Fifth-man, who if not an avowed opponent to the Market altogether, will, there is reason to believe, do what he can to throw obstructions in the way of its efficient establishment. "We don't want no Market at all," said one of that gentleman's supporters. Will you not rather give the market fair play,—give the Board opportunity to carry out their views, by returning as fifth-man, one who will co-operate with them—the same gentleman you elected last year. Both Wards returned the old members without opposition; will the two wards united undo what they have done separately: be consistent, gentlemen.
>
> MARKET HOUSE.
>
> March 14th, 1849.

"LOOKING FORWARD."

An interesting book has just appeared in London, which is giving thousands an unusual topic of conversation. The book is called "Looking Forward," and its author is Charles F. Higham, a well-known Britisher. The theme of the book is that in view of the fact that the enlightenment of the people is necessary for their welfare under any system of democratic government, the world should be educated by advertisement. He argues that it was the newspaper page and the poster hoarding that woke England up to a sense of her condition and to an appreciation of her national duty during the dark days of the war, thereby raking hundreds of millions of dollars into the British Treasury. The author also points out how quick and effective advertising was during the transportation strike last Autumn, when it was found necessary to reach the whole nation speedily and effectively.

And having been effective in war time and in a great national crisis, Mr. Higham is all for the extension of the plan to normal peace days. He would have the Government inform the people of the real meaning of some of the slogans and aphorisms of the day, and would teach them both sides of all great public questions. Robert Louis Stevenson once said that the obligation laid upon every journalist is to tell the truth, and it would be an easy and most effective weapon if the columns of the newspapers and the posters contained garbled reports intending to hoist or maintain some part in the State.

Advertising is the most powerful weapon in the world for instructing the people, provided the plan is safeguarded at every corner. Used for ill it may ruin homes and bring war and misery on innocent persons. Used for good, it can do more to dispel the darkness of prejudice and indecision than any known agency.—Montreal Star.

Stephen Leacock, McGill Professor, author and humorist, has thrown a bomb into the prohibition camp in England with a long letter in The Times, in which he contends that "prohibition is an appalling disaster," and warns the people of the British Isles that the North American continent is pretty much a Death's Valley of parched throats and desert dryness—except Quebec, which has WELCOME in large letters on the doormat, only spelled a trifle differently to suit the times: WET—COME!

OTHER VIEWS

The Ubiquitous Golfer
(Zanzibar Gazette)

We are pleased to learn that East Africa is to have its own golf championship, and it is to the Nairobi Club that golfers are indebted for this satisfactory innovation. A competition of this nature cannot fail to benefit the game in the different Colonies and Protectorates of East Africa, and will, we hope, receive the support it deserves.

The Only Way Out of It
(Johannesburg Times)

You can't print paper money and then turn it into bread, and cloth, and bricks and mortar by waving a magician's wand over it. We shall all have to grin and bear a good deal until the nations settle down to greater production. When they do the distribution will have to be much fairer than it used to be. But some people think they can do the re-distribution business on a grand scale without waiting for the production. Which is absurd.

The Chief Sufferer
(London Daily Mail)

In this trouble of rising prices the wife suffers first and worst. Her carefully framed budget of one week is swept away the week after by a sudden swirl upwards in the price of everything the household needs. There is a limit to what the thriftiest housewife can contrive, and the moment comes when husband and wife sit down together and face the fact that they are no longer paying their way.

The Farmers' Child
(Detroit News)

It has been assumed that because the country child has all the features of the country he is, of course, surrounded by fortunate and wholesome surroundings. But the possession of all outdoors is far from enough. The farmer's home is, as a rule, insanitary in many respects. It is often terribly unventilated, and the dwellers in the house are fed many hours a day with bad air. Country water and food are less wholesome than water and food in the city. The standards of living on the American farm when tested by the accepted principles of sanitation and hygiene, are alarmingly defective.

Keep off The Grass
(Pearson's Weekly)

"Hallo! hallo!" shouted the fireman answering the frantic telephone summons.

"Are you there?" came back in sweet, feminine tones

"Yes."

"Who is it?"

"The fire-station"

"I wish to say that my front garden—"

"This is the f-i-r-e station you've got!"

"Yes, I know. My front garden runs along the side of the Bigflame's house. Now, only today I sprinkled some fine new grass seed on my lawn—"

"This ain't a gardener's!" roared the fireman.

"I know! I know! I know! But I want to say that as my garden is my particular pride—"

"Wot's it all got to do with us?"

"Oh, well, the Bigflames asked me to tell you that their house was on fire, so don't let your nasty firemen trample——"

But he was gone!

The Only Way
(London Daily Chronicle)

The Turkish Government is in Constantinople now; and the Allies, with their occupying soldiers and ships, and an unsigned Treaty to hang over its head, have exceptional means of pressing it. Yet they have not been able to prevent during this very year the occurrence of Armenian massacres on a large scale. The only safe preventive is to expel Turkish rule from every district which has a considerable Non-Turkish population. But that wil lnot be rendered easier in effect in practice by the revival of Turkish chauvinism, which the Constantinople decision is likely to stimulate.

The Poet's Corner

THE FORERUNNER
(Margaret E. Sangster-

When the first little flower peeps up from the ground,
And opens its eyes to the face of the sky,
Though never a bugle may cheerily sound,
An army with banners is hastening nigh.

Ere long shall the dear things we loved long ago
Make regal the fields that so lately were bare;
The lilies will gleam and the roses will glow,
And frangrance shall waft through the sun filtered air.

The first tiny flower is the pledge of the rest,
The daring forerunner of flowers to be,
When the spring and the summer shall lavish their best,
And beauty flood in like the waves of the sea.

Did it seem in the day when the winter was chill,
And the land lay asleep 'neath its cover of white,
That earth had forgotten its glory and thrill,
And shadow had fallen, or darkness, or bright?

A Laugh or Two

Why Eve Liked Apples

"Alas!" sighed young Callow. "If only Eve hadn't been so fond of apples."

"My dear boy," said Cynclus. "Eve wasn't so very fond of apples, but that was the only forbidden fruit."

Up and Down

"The morning train goes up at 10.45 said the landlord of the Petunia Tavern.

"And when does it—ah!—descend?" asked the spectacled guest.

The Proverb Applied

"I am tired of giving wedding presents," said Jobson.

"Well," returned his cynical companion, "it is better to give than receive."

Then What Happened?

Pupil—"Would you think it right to punish a boy for something he had not done?"

Teacher—"No, of course I should not."

Pupil—"Well, I haven't done any of my lessons."—Youth's Companion.

A Query

If a fellow who wants is a waiter,
What then is a chap who waits
And waits and waits for the waiter
To wait on him while he waits?

No Doubt

Scot—"Two eggs, please."

Waiter—"Which way will you have them done?"

Scot—"Any difference in the price?"

Waiter—"No."

Scot—"Well, I'll ha' them wi' a wee bit of ham."

Right!

Teacher (who is teaching the class the alphabet): "Now, Jacky, what comes after 'G.'?"

Jacky: "Whi."

WORKMEN STRIKE BECAUSE THE CLOCK STRIKES TOO SOON

Rome, March 30.—Extensive strikes have broken out in Northern Italy in protest against the decree of March 21, declaring the beginning of Summer and putting the clock one hour ahead. The municipal council of Milan has decided to ignore the decree.

Winnipeg, March 30.—Two men are under arrest, another is being held as material witness and warrants have been issued for the arrest of two others in connection with the theft of a large number of army pension chaques from Soldier Re-Establishment offices here. The theft may run as high as $10,000, it is stated.

A CAPITAL WAY TO AVOID "FLU"

Well Worth Trying.

Of all the suggestions made for preventing the "Flu", none seems to be more worthy of trial than the use of Dominion C. B. Q.

Dominion C. B. Q. (Cascara Bromide Quinine Tablets) immediately attacks the germs and, increasing the secretions of the stomach and liver, clears the system with certainty yet without weakening effects. There are none of the buzzing sensations peculiar to the Sulphate of Quinine.

Made by that old and reliable firm, The National Drug & Chemical Co. of Canada, Limited. At all druggists, in the Red Boxes. 10

To Rid Yourself of La Grippe, Colds
NEURALGIA, HEADACHES, etc., use
DOMINION C. B. Q.
Tablets (in the red box) 25 cents.

The Telephone Situation.

What We Get For The Money!

On January 1st this year our total investment in telephone property—buildings, equipment, tools and supplies, plus what it has cost in actual cash to put this working equipment into service—was $51,458,306. On the same date we had in operation 337,476 telephone instruments.

This means an investment of $152 for each telephone instrument in service.

What has been provided for this investment of $152 per telephone?

Here are some of the things:

An exchange telephone system in thousands of cities, towns and villages in Ontario and Quebec with substantial fire-proof buildings the last word in sanitation and convenience; 96,750 miles of Long Distance wire on 9,500 miles of poles; 587,000 miles of wire in underground cables; many hundreds of miles of wire providing party service to rural communities besides exchange and pole line faacilities to give exchange connection to 720 local telephone organizations serving over 163,000 subscribers, mostly farmers.

It takes some 11,600 telephone workers to operate the system and their wages in 1919 totaled $9,400,000.

This goodly band of faithful workers, with those dependent on them, are a substantial element in the community. They are intimately concerned in its welfare—concerned most of all that the telephone service shall be adequate to its needs. They appreciate(just like the rest of humanity, the kindly cooperation of the public.

FARMERS WILL FIGHT NEW FRANCHISE ACT

Ottawa, March 29—Agrarian members of the House of Commons are planning to put every ounce of their combined strength into the fight against that portion of the Government's new Franchise Act, which seek to debar electors banding themselves into an association to support a candidate who is willing to support their principles in the Federal House.

Should the Government measure, as now drawn up, pass the House, it will mean that the 150,000 or more farmers who have subscribed toward the support of Agrarian candidates throughout the prairie Provinces will be subject to proceedings in Police Court. Already the farmers of the West have subscribed many thousands of dollars toward the support of their candidates at the next election. In the East, too, several members of the party, led by Hon. T. A. Crerar, take pride in the fact that their election expenses in 1917 were paid by their constituents through small voluntary contributions.

It is also expected that largely signed petitions from the farmers of the West will be sent to Ottawa, protesting against the proposed measure.

◆

HEAVY STORM SWEEPS OVER WINDSOR DISTRICT

Windsor, March 28—It is feared that considerable damage has been done in this vicinity by a heavy wind and rain storm, that swept across the city about nine o'clock tonight. So strong was the wind that ferry boats could not brave the seas that rolled heavily and the craft remained tugging under the double hawsers at their docks until the full force of the storm had passed.

Wire communication with the county has been interrupted, at many points.

Under the Greenwood Tree

By THOMAS HARDY

CHAPTER VI—Continued

The gallery of Mellstock Church had a status and sentiment of its own. A stranger there was regarded with a feeling altogether different from that entertained toward him by the congregation below. Banished from the nave as an intruder whom no originality could make interesting, he was received above as a curiosity that no unfitness could render dull. The gallery, too, looked down upon and knew the habits of the nave to its remotest peculiarity, and had an extensive stock of exclusive information about it; while the nave knew nothing of the gallery people, as gallery people, beond their loud-sounding minims and chest notes. Such topics as that the clerk was always chewing tobacco except at the moment of crying Amen; that he had a dust-hole in his pew; that during the sermon certain young daughters of the village had left off caring to read anything so mild as the marriage-service for some years and now regluarly studied the one which chronologically follows it; that a pair of lovers touched fingers through a knot-hole between their pews in the manner ordained by their great exemplars, Pyramus and Thisbe; that Mrs. Ledlow, the farmer's wife, counted her money and reckoned her week's marketing expenses during the first lesson—all news of those below—were stale subjects here.

Old William sat in the center of the front row, his violin-cello between his knees, and two singers on each hand. Behind him, on the left, came the treble singers and Dick; and on the right the tranter and the tenors. Further back was old Mail with the altos and supernumeraries.

But before they had taken their places, and while they were standing in a circle at the back of the gallery practicing a psalm or two, Dick cast his eyes over his granfather's shoulder and saw the vision of the past night enter the porch-door as methodically as if she had never been a vision at all. A new atmesphere seomed suddenly to be puffed into the ancient edifice by her movement, which made Dick's body and soul tingle with novel sensations. Directed by Shinar, the church warden, she proceeded to the short aisle on the north side of the chancel a spot now allotted to a throng of Sunday-school girls, and distinctly visible from the gallery front by looking under the curve of the furthermost arch on that side.

Before this moment the church had seemed comparatively empty—now it was thronged; and as Miss Fancy rose from her knees and looked around her for a permanent place in which to deposit herself—finally choosing the remotest corner—Dick began to breathe more freely and warm new air she had brought with her; to feel rushings of blood and to have impressions that there was a tie between her and himself visible to all the congregation.

Ever afterward the young man could recollect individually each part of the service of that bright Christmas morning and the minute occurrences which took place as its hours slowly drew along; the duties of that day dividing themselves by a complete line from the services of other times. The tunes they that morning essayed remained with him for years, apart from all others; also the text; also the appearance of the layer of dust upon the capitals of the piers; that the holly-bough in the chancel archway was hung a little out of the center, all the ideas in short, that creep into the mind when reason is only exercising its lowest activity through the eye.

By chance or by fate, another young man who attended Mellstock Church on that Christmas morning had toward the end of the service the same instinctive perception of an interesting presence in the shape of the bright maiden, though his emotion reached a far less-developed stage. And there was this difference, too, that the person in question was surprised at his condition, and sedulously endeavored to reduce himself to his normal state of mind. He was the young vicar, Mr. Maybold.

The music on Christmas mornings was frequently below the standard of church performances at other times. The boys were sleepy from the heavy exertions of the night; the men were slightly wearied; and now in addition to these constant reasons, there was a dampness in the atmosphere that still further aggravated the evil. Their strings, from the recent long exposure to the night air, rose whole semitones and snapped with a loud twang at the most silent moment; which necessitated more retiring than ever to the back of the gallery and made the gallery throats quite husky with the quantity of coughing and hemming required for tuning in. The vicar looked cross.

When the singing was in progress, there was suddenly discovered to be a strong and shrill reinforcement from some point, ultimately found to be the school-girls' aisle. At every attempt it grew bolder and more distinct. At the third time of singing these intrusive feminine voices were as mighty as those of the regular singers; in fact the flood of sound from this quarter assumed a tune of its own, surging upward when the gallery plunged downward and the reverse.

◆

BRITISH PRESS SAY WE ARE HUMILIATED

London, March 30—Professor Stephen Leacock's condemnation of prohibition in the Times of Wednesday has produced an editorial in the Yorkshire Post which declares that the United States and the greater part of Canada now endure a regime perhaps the most humiliating which the self-respect of any great modern peoples has been called to bear. "The self-respect of men if denied one outlet will find another," adds the Post. "There is a point at which prohibition becomes an incitement to revolt. We should not be surprised if America reaches this point but we shall be greatly surprised if England does not profit by America's example and her fundamental error in every day physchology."

"Brutal, Intolerant Fanaticism"

The Evening News says: "A great majority of the people of these Islands are moderate drinkers. They must avoid the mistake of those across the Atlantic who kept silence during the prohibition campaign and woke up to find themselves criminals under the law if they refused to order their lives on laws laid down by what Professor Leacock calls "brutal, intolerant, fanaticism." The matter of dryness or wetness in the United States is purely a domestic question so far as its inhabitants are concerned, but it would be the rankest folly for us to decline to take warning by what happened across the Atlantic."

Improve the Public House

The Standard says: "We believe the English people, properly warned, would stand no such invasion of their liberty, but as in America the thing might be brought about by a compact between politicians. We hope, therefore, that any legislative proposals on the subject be most rigorously examined. The sensible policy is to improve the public house."

A Trotsky Propaganda

The Globe says: "Engineers of that calamity in North America, employers of hordes of spies, fanatics who have done more to spread discontent than all the propaganda of Trotsky, now design to impose a like tyranny upon us. We will not have it, and if they force us to talk to them in the fashion we have used to other tyrants, they maye be sure we shall."

◆

"I'M JUDAS ISCARIOT"

New York, March 29.—"I'm Judas accessory to the murder of Christ. Come and get me," said a voice over the telephone when Police Lieutenant File answered the desk phone today.

"Where are you, Judas?" File asked.

"In Guiken's drug store at Fifty-eighth street and Third avenue Brooklyn."

File turned to Corporal Clarence Timony, saying: "There's a leaf out of the Bible loose up at Guiken's; go get it."

Six men were required to assist Timony in overpowering "Judas" who was taken to an observation ward where he gave his name as David Edwards, a shipyard worker.

"Who said FRY'S?"

He just loves its delicious chocolaty flavor.

Kiddies who get FRY'S regularly are vigorous, warm-blooded and healthy. They throw off colds quickly. They are more likely to escape epidemics. If you have some little pale faces at home, just try FRY'S. You'll be glad you did. But—remember

"Nothing will do but FRY'S"

Strong Deputation Urged Erection Of Much-Needed Bridge

Strong representations that the Federal Government should provide half of the cost of building two bridges at Vaudreuil, Que., and Ste. Anne de Bellevue, Que., to enable motorists to use a direct route from Montreal to Ontario points was made by a strong deputation which waited upon members of the Federal Cabinet at Ottawa. The deputation went away with the assurance that the Government would consider the matter carefully and that they were in thorough sympathy with the municipalities represented.

Alderman A. E. Parker and Town Clerk George K. Dewy of Brockville were members of the deputation which was inter-provincial in its complexion. The other members of the deputation were T. B. Macaulay, president of the Sun Life Insurance Co., Montreal: Brigadier-General A. E. Labelle, Montreal; Henry Miles, M.P., Montreal; Ludger Lemieux, Lt.-Col. F. S. Mackay, N.P., Hon. Senator Arthur Boyer, Eugene Tarte, Adrien Roulean Joseph Wilson, R. Ouimet, N.Y., M. Ducastle de Montrouge, C.E., H. Pilon, M.P.P., A. Farand, M.P.P., Aldermen Joseph Elie, Montreal: E. O'Callaghan, president of the Board of Trade, Cornwall; A. C. Rogertson, secretary of the Board of Trade, Cornwall; J. A. Chisolm, Cornwall; E. Proulx, M.P., for Prescott county; J. W. Kennedy, M.P., for Stormont; A. C. Casselman, M.P., for Dundas; E. Guss Porter, K.C., M.P., for East Hastings; D. A. Manson, M.P., for Brome; A. E. Fripp, M.P. for Ottawa Dr. J. L. Chabot, M.P. for Ottawa; Hon. Charles Murphy, M.P. for Russell; Dr .DJ. W. Edwards, M.P. for Frontenac; D. A. Lafortune, M.P. for Montcalm; Dr. Deslauriers, M.P., Alf Leduc, M.P., L. J. Papineau, M.P., A. Lesage, M.P., J. A. Robb, M.P., L. J. Papineau, M.P., K. C. Macdonald and Dr. H. L. Cheney, Glengarry county; G. A. Sangster, reeve of Finch; Mr. Thompson, M.P. for East Hastings; Mr. Paul, M.P., for Lennox and Addington.

WAITED ON MINISTERS

The delegation was received by Hon. Sir George E. Foster, the acting Premier; Hon. C. C. Ballantyne, Minister of Marine and Fisheries; Rt. Hon. C. J. Doherty, Minister of Justice; Hon. Dr. John D. Reid, Minister of Railways and Canals and by Hon. Senator Arthur Boyer. Each member was introduced by Gustave Boyer, M.P., and the following were speakers: T. B. Macauley; Brigadier-General A. E. Labelle, representing the Montreal Chambre de Commerce; J. A. Chisolm, representing the Cornwall Board of Trade; Henry Miles, M.P.P., for the St. Lawrence division of Montreal: Hon. Arthur Boyer, of the Isle Perrot Bridge Commission; Aldermen A. E. Parker and George K. Dewy, representing the Town of Brockville; M. Ducastle de Montrouge, engineer of the city of Outremont; and Mayor Fetterley of Cornwall.

Sir George Foster, Hon. Dr. Reid and Hon. Mr. Doherty, who spoke in reply admitted that the municipalities of Western Quebec and Eastern Ontario had a real grievance and that they were entitled to assistance in the matter of the projected bridges. They promised consideration of the matter, though pointing out that there was a heavy expenditure in sight for the Government already and that the demands of the Great War Veterans must also be listened to.

MUST OPPOSE BOLSHEVISM DECLARES POPE BENEDICT

Rome, March 27—The Catholic Church must use its influence to oppose Bolshevism and to maintain friendly relations between capital and labor, Pope Benedict declared in a letter.

The letter which was addressed to the bishop of Burgamo, was intended to direct the activities of Catholic leaders throughout the world. It created a sensation throughout Italy, as it was the first time the Pope has taken a direct hand in labor disputes. He urged bishops and priests to participate actively in the labor movement with a view to moderating the demands of labor, regulating strikes and opposing Bolshevism.

The letter was considered a bitter reprimand to Catholic Deputy Miglioli, who at the recent Congress of Catholic labor unions in Burgamo, openly advocated Bolshevism.

Pope Benedict warned that "it is not with the violence of direct action that the cause of truth and justice is served."

◆

FOREIGNERS LEAVE WEST

Regina, Sask., March 29—Within the last few weeks many Rumanian families have left this city bound for their native land, and in many cases they have taken bank drafts with them which constitute snug fortunes. Fully fifty families have gone and at least as many more are preparing to leave.

One Rumanian with $6,000 of Canadian money bought a draft which will give him in Rumania about $11,500. Cheap land is the attraction which is drawing these people to their old homes.

SPANKING IS REVIVED.

Used With Good Results at Ontario Jail Farm.

The old idea that spanking days were over, when a boy grew too big for his mother or father to do the job, has received a rude shock, as seven young men sent to the Ontario Jail Farm can testify. The young men's ages ranged from 17 to 22 years, and they were slapped six times in the good old-fashioned way, with a very healthy-looking school strap, about 16 inches long, two inches wide, and thick enough to make an impression on the culprits' feelings.

Officials connected with the prisons are not allowed to talk about the matter at all. Instructions are to that effect, so do not try and pry into the secrets of spanking at the Jail Farm.

However, the job has been well done, as Major W. J. Morrison, superintendent, has notified the York County Clerk of the Peace to that effect. The spanking was carried out on the recommendation of his Honor Judge Emerson Coatsworth.

The culprits were given six good honest slaps, and the ceremony was witnessed by the superintendent, deputy, surgeon, and clerk. Of course, it wasn't possible to place young men of 17 to 22 over the knee of the slapper "like mother used to do," so a change was made in the position of the victim of the whacking.

No! he is not even stripped. Only the section of the anatomy especially arranged by nature for the purpose of spanking was laid bare. The young man is told to stand up with his face to the wall, and his hands held high over his head grasp a certain steam pipe. Each of these seven young men will probably have no admiration for a steam pipe after this, as a tingling sensation will follow, as soon as any one of them sees a steam pipe.

But, listen, it is declared that the real punishment is not in the slapping, as "the young men took the medicine fine." It is the outrage to the feelings of the culprits which has the salutary effect. It is declared "they feel like two cents."

It is claimed that since the spankings were ordered, there has been a material decrease in the stealing of autos in Toronto. And those who know best say that the punishment is a good one, and is much better than long prison sentences.

Wanted to Fight.

Among the most restless and unwilling stay-at-homes during the war were the Eskimos living on the Arctic coast of Alaska.

The eagerness of the male members of the Eskimo tribes to get into the fighting in the war on Germany is one of the most interesting tales brought back from Alaska by William B. Van Valin, leader of the John Wanamaker Alaskan expedition, who has just returned to Philadelphia, after an extended sojourn in the north.

The Eskimos listened with horror to the accounts of German atrocities and the sinking of defenceless ships by submarines, Mr. Van Valin says. They grew so angry that the white men in the section were obliged to use all their powers of persuasion to convince them that their higher duty was to remain at home and attend to their families.

News of the armistice did not reach the Arctic coast until last September, and then there took place one of the most picturesque victory celebrations in the world. The natives lit fires, dressed in fancy skins, took their war weapons and danced and sang until they could hardly stand on their feet. The celebrations ended with feasts in all the Eskimo hamlets on the coast.

Hurt by Exchange.

The adverse exchange situation in Great Britain and Europe presents a serious problem to the lobster canning industry in the Maritime Provinces—one of the provinces' major industries, whose turnover last year was valued at approximately five and a half million dollars.

Representatives of three of the largest firms in the provinces have just returned after reviewing the lobster market in England, France and Belgium. Three-quarters of the annual export of lobsters is consumed in these countries.

On account of the exchange situation the brokers are not taking delivery of the shipments, and these packers say they saw large quantities of the lobsters on the wharves at the European seaports. As a result the packers are faced with a serious loss, no markets being in sight.

Alberta Coal.

Alberta hopes to develop a coal market in Ontario this year. The mines of this province can produce more than enough coal to supply the whole Dominion, but of course adverse freight rates prevent shipments east of the Great Lakes. Not until there is an all-water route from Alberta to Ontario can there be any large movement of coal to the eastern province. However, just to show that coal can be shipped, orders in Ontario to the extent of 620 tons were filled last year. This was about double the tonnage of 1918. Saskatchewan was Alberta's biggest customer, taking 1,115,329 tons; Manitoba, 314,290; British Columbia, 95,461; and the United States, 121,212 tons. However, the total production, owing to labor troubles, was considerably under that of 1918.

Kept His Mouth Shut.

"My husband traces his ancestry back to Edward the Confessor."

"Mine comes from a different line. I can never make him own up to anything."

Those Cigars!

Host—Yes, I get rid of a lot of these cigars during the year—giving 'em to my friends, y'know.

Connoisseur—H'm. Get rid of a lot of friends, too, don't you?

"You Are Losing Weight—You Are Anaemic"

"WHAT does that mean, doctor?"

"It means that you are not deriving proper nourishment from the food you are eating."

"I eat enough, I think."

"That may be, but your blood is thin and watery, your nervous system is being starved and your weight is below normal."

"Is that what makes me feel so tired? I don't seem to have the energy to do much."

"Exactly, you have not enough nervous energy to drive the machinery of the body. Digestion fails and you do not derive proper nourishment from your food."

"What should I do?"

"You need a treatment that will supply to the blood in condensed form the elements which are necessary to build up the nervous system."

"How about Dr. Chase's Nerve Food."

"There is nothing better. I could easily give you a prescription that would cost you more money, but Dr. Chase's Nerve Food contains all the elements necessary for the enriching of the blood and restoration of the nervous system. If you keep a record of your weight each week you will be able to prove this for yourself.

"You think I am anaemic then?"

"Yes, your blood is weak and this is why your nerves are starved and exhausted. The headaches, tired feelings and sleeplessness are the result of this condition, but you will soon be all right if you follow this treatment faithfully."

Dr. Chase's Nerve Food is sold by all dealers. On every box of the genuine you will find the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author. Edmanson, Bates & Co., Ltd., Toronto.

The Standard Paving Company, of Ottawa, who last year commenced the construction of pavements on certain streets in this city, but was compelled to cease operations owing to cold weather, have brought their machinery here and will in a few days recommence operations. They will first continue the work of paving George street.

TRUTH UNADORNED
CAUSES BIG STIR

San Francisco, Cal., March 29—A very pretty young woman wandered from her room at the Porter Hotel out into the street and into the lobby of the Yuba Hotel, a block and a half away.

Ordinarily this would have been unimportant, but this woman wore no clothes.

The clerk at the Yuba Hotel protested.

"That's all right," she replied, "I'm Truth. And Truth should be unadorned."

The clerk telephoned Charles Simpson, steward at the Central Emergency Hospital.

Simpson came to the rescue with a blanket.

"Truth" fought efforts to blanket her, saying it was a sin to conceal truth, but Simpson was firm.

The girl was held for observation, less intense but more official. "Truth" was the only name she gave.

KIDNAPPED BOY FOUND,
BIG RANSOM IGNORED

Lexington, Ky., March 29.—Paul Little, aged 12, son of E. R. Little, wealthy oil man kidnapped from the Federal building here late Wednesday was found by his mother in a room in the Phoenix Hotel here yesterday. The boy was unharmed. He himself made a telephone call which resulted in his rescue. The kidnappers escaped one of the two men who the boy said had held him prisoner, escaping down one elevator as the mother and a number of friends came up another elevator

A package containing $25,000 ransom was left by the boy's father Thursday night in a garbage can in the heart of Lexington. It was untouched and the child's parents resigned themselves to wait for another communication from the abductors. The Little telephone rang early yesterday. Mrs. Little answered. "This is Paul. I'm in the Phoenix Hotel," he said. The mother did not wait for details. With her other son, Keller, 14 years, she dashed out of the house, followed by her husband. They hailed an automobile and were rushed to the hotel. No one had seen the child, but inquiries at the telephone switchboard revealed the room from which the telephone message was sent.

The boy said he had been held in the room ever since he had left the Lexington post office with one of the kidnappers Wednesday. A large part of the time, he said, he was locked in the bathroom. Paul said he was guarded by two men.

FUR SALE REACHES
TOTAL OF $5,093,120

Montreal, Marrh 27—The Canadian Fur Auction Sale Company, Limited, concluded its first sale on Saturday afternoon, when a grand total of $5,093,120 was reached for the week. Beaver was the feature of the day, 16,175 skins in 223 lots bringing $728,735, a record high price of $106 per skin on one lot being paid by Harry Ellbert, of New York.

Senator Webster, president of the Auction Sale Company, stated that another sale would be held here in August or September.

Firemen Fight A Stubborn Blaze

Fire in Front Street Flat Results in Damage to Merchants' Stocks From Water

Last evening between the hours of eight and nine o'clock a fire broke out in apartments on the second story of the Robertson Block situated on the west side of Front street, which proved disastrous in so far as damage by water was concerned.

The blaze originated in an apartment occupied by Mr. Wm. Styles and family, but the cause is not known as the members of the family were absent at the time. Mr. Styles is janitor at the Y. M. C. A. building and was attending to the furnace there when he was informed that his apartment was on fire. Mrs. Styles was also with him at the time. When discovered the fire had gained considerable headway. An alarm was sent to the fire brigade which responded with alacrity. When the fire laddies arrived upon the scene dense smoke was emanating from the building and for some time the task of the firefighters was by no means one to be desired. They, however, discovered the seat of the fire and succeeded in confining the flames to the two rooms occupied by Mr. Styles. While the fire was in progress unfortunately a lead of hose burst and this caused a flood of water before the supply could be shut off at the hydrant. In a few minutes water found its way through the flooring and ceiling and poured down in large quantities to Mr. D. V. Sinclair's dry goods store from the front to the rear. Before the stock could in any way be protected thousands of dollars worth of goods were saturated. It was fortunate that the water did not reach the south wall of the store where upon the shelves were about $14,000 worth of silks and dress goods. The store was, however, free from fire and smoke. The damage to the stock will amount to several thousands of dollars, but is covered by insurance. Considerable damage was sustained to the ceiling of the store, as the plaster came off in spots and the paper hanging in ribbons. In all probability the ceiling will have to be replastered entailing quite an expenditure.

In the Oak Hall, Mr. C. H. Vermilyea's store, adjoining that of Mr. Sinclair, the water penetrated the ceiling and flooded two tables containing ready-made clothing. The loss, however, is not of a serious nature.

Adjoining Mr. Sinclair's store to the north is Mr. W. O. Adams' boot store, and some damage to stock was occasioned by water. His loss is covered by insurance.

The actual loss sustained to the block by fire is in the neighborhood of $1,500. This is covered by insurance. Col. Lazier of this city is the owner of the building.

Mr. Styles had an insurance of $500 upon the contents of his apartment and stated that it would by no means cover his loss.

On the second floor of the block also on the third floor other families are occupants, but they sustained no serious losses. Some apartments adjoining those of Styles were damaged to some extent by water. The occupants upon the outbreak of the fire as quickly as possible made their exit as the smoke was stifling and it was for a time feared that the fire would prove much more disastrous than it did.

Chief Brown and the efficient members of the fire brigade did excellent work in confining the flames to the apartments in which they originated.

Physical Training Of The Child

If a high type of national physique is to be developed more attention must be paid to the scientific training of the child in natural posture, said Miss Ruth Clark, Physical Director of the Women's Gymnasium, Queen's University, in an address before the Women's Canadian Club of Belleville, Monday evening in the High School Assembly Room. Curvature of the spine and other malformations causing ill-health and faulty physique are the result of unnatural conditions including long hours of confinement in the school, bending over desks and wrong postures, together with bad housing, improper feeding and unsuitable manual work at home, said Miss Clark, who illustrated her points by lantern slides showing malformation of children and the contributory causes. Miss Clark is of the opinion that every teacher should have a knowledge of the elements of hygiene and physical training but in every school there should be a specialist charged with the physical education of the children. Three years' training is necessary to qualify a specialist in Physical Education, and the health of the children and the development of robust physique and alert mentality demands that this question receive earnest attention by those charged with the education of the children. In the growing period the child's bones are soft and plastic and irreparable damage can be done, through ignorance or neglect. The war showed that an appalling percentage of young people were physically unfit, a dangerous and unnecessary condition. Faulty physique lessens resistance to disease. The machinery of the body cannot do its work properly if cramped by unnatural postures.

Miss Clark illustrated the benefit of Swedish gymnastics, with and without apparatus, in developing the body, and advocated games, folk dances and open air sports as necessary aids. Dancing was the oldest of arts and was a form of expression which should be taught in the schools. There were ugly and unnatural dances but these should not be confounded with dances that were healthful and beneficial.

More time should be given to Physical Education directed by specialists, said Miss Clark, better equipped gymnasiums and playgrounds should be provided, and care should be taken to see that the home life of the child does not interfere with natural development.

Miss Clark's address showed that the faulty physique of the present generation was largely the result of the lack of scentific training of the child in the formative period, and indicated that there is need for better methods of protecting the child during primary school years against physical malformation caused by improper postures.

Monday evening marked the closing session of the series of addresses to be given this season under the auspices of the Women's Canadian Club of Belleville, and the President, Mrs. George Gorman, referred to the excellence of the various addresses and the great educational benefit conferred. Several addresses had to be cancelled on account of the influenza epidemic but the season in its entirety had been one of outstanding success.

WINNERS IN DIARY CONTEST

Over $500.00 in Prizes Given for the Best Diary Kept During 1919 in DR. CHASE'S ALMANAC.

Ever since they sent in their diaries in January hundreds of people have been anxiously watching for this announcement to find out whether they have been successful in this year's contest.

If you have not received a copy of Dr. Chase's Almanac for 1920, send in your name and address to Edmanson, Bates & Co., Ltd., Toronto, for a free copy, and read up the conditions of the competition. The prizes consist largely of phonographs, running as high as $210.00 in value; so it is well worth your trouble to enter the contest.

The winners for 1919 were as follows:

1st prize—$210 Voice-O-Phone, Mr. John Jacobs, Bornholm, R.R. 1, Ont.

2nd prize—$110 Voice-O-Phone, Mrs. Wm. Hirlehy, Bradford, Ont.

3rd prize—$60 Voice-O-Phone, Mrs. B. G. Pierce, Cumberland Bay, R.R. 2, N. B.

4th prize—$35 Voice-O-Phone, Mr. Ivor C. Bice, Clandeboye, Ont.

5th prize—Records, value $15, Mr. John Woodrow, Coldwater, Ont.

6th prize—Records, value $10, Mr. Walter H. Campbell, Bateman, Sask.

7th prize—$4.90 receipt book, Minnie M. Miller, Matsqui, B.C.

8th prize—$4.90 receipt book, Mrs. (Rev.) S. D. Webster, Cornwall, P.E.I.

9th prize—$4.90 receipt book, Rev. Chas. H. Talmay, Martin's Point, N.S.

10th prize—$4.90 receipt book, Mr. Samuel Jacobs, 2021 Mitchell Ave., Oakland, Cal.

11th prize—$4.90 receipt book, P. P. Fowler, Valcourt, Que.

12th prize—$4.90 receipt book, J. E. Laird, Biggar, Sask.

13th prize—$4.90 receipt book, Henry S. Martin, Frobisher, Sask.

DEATH NOTICE

WORDEN—In Belleville on Monday, March 29th, Emeline Worden, relict of the late Mr. Rufus Worden aged 70 years.

At the residence of her son-in-law, Mr. Frank H. Chesher, 240 Dundas St., funeral services will be held at eight o'clock this Tuesday evening. Interment at Acton, Ont.

BIRTHS

MACDOUGALL—In Belleville, March 27th, 1920, to Mr. and Mrs. J. MacDougall, 13 Harriott St., a son.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada

LINDSAY'S

CANADA'S MUSIC WEEK—APRIL 5th to 12th.

Music's Place in Our Lives

After food, raiment and shelter, music holds first place among the necessities of life. It is the one thing that makes the other three enjoyable, and which makes life worth while living.

There should be music in every home, and in order to make everybody in Canada realize this truth "Canada's Music Week" has been launched.

During this week everyone is asked to "Give More Thought to Music."

And if you are thinking of buying a Piano, Player Piano or Phonograph, remember that Lindsay's display includes:

Heintzman & Co.
Brambach
Weber
Wormworth
and Lindsay Pianos
Player Pianos.
Columbia Grafonolas
Sonoras
and Columbia Records.

Ho, For The Life Of S.A. Officer

It May Not Be All Roses, But It Certainly Is Variety

Ho, for the life of a Salvation Army Officer.

Tho it isn't all roses—no, indeed,—it is variety.

Nor can the experiences of one be taken as an example of the experiences of all. Suffice it to say, there are some who have had, and others who are now experiencing a life devoid of monotony full to the brim of new situations, new conditions, new scenes of activity.

Talk for a while with Brigadier Morris! From the scenes of the Gold Rush days of the Yukon to those of today in peaceful Toronto; from the office of "Great Chief" in Alaska to organization work on the Skeena River settlements; from canoe trip through Canda's northern rivers to participation in the second largest mercantile marine disaster in history such and more has been his lot.

AN INTERESTING LIFE

After 28 years of Salvation Army Service, this particular Officer looks back over a period intensely exciting wonderfully interesting, splendidly sacrificial. A life devoted to the cause of humanity in the Salvation Army is a life offered for service in any part of the world. During Brigadier Morris' tenure he has seen life with its adventures, as few people have been privilged to do.

Back in the days of the flourishing Yukon, when men staked their all on finding the precious metal, when from all parts of the world men from every walk in life sped northward, Brigadier Morris asked permission to go. With seven Officers and two Nurses, the party set off. They were the first to represent the Salvation Army up there.

STAYED THREE WINTERS

They stayed three winters. The experiences of those years would fill a book. They were the days of which Robert Service wrote. This work completed, the Officer became assistant editor of the "War Cry." In a short while he was travelling again. His goal was Alaska. Here the Salvation Army Officer is known as "The Great Chief." Next he is found at Glen Vowell, then Andimaul, on the Skeena River. Here he had charge of an Indian Salvation Army village.

BACK TO ONTARIO

Back to Ontario he comes, in time to prepare for the great conference in London, in 1914. Then, the colossal experience! The Empress of Ireland. And if the story of this catastrophe could be told without bringing to mind the sorrow it caused, the telling would require a long article to itself.

Now, you will find Brigadier Morris in the third post in Salvation Army service in this terriotry, Field Secretary. Backed by his years of thrilling adventures, backed by his knowledge of human nature, in any sphere of life he is admirably suited for the position.

Such is the experience in 28 years of a Salvation Army Officer.

Monotonous? Well, hardly.

THREE YEARS' TERM FOR CAR PLUNDERER

Bridgeburg, March 30.—In connection with the drive under way here by railway detectives in connection with the recent thefts from railway cars the fourth man brought before Judge Mennon House, E. B. Gillsdorff, a resident of Buffalo, employed in the yards here was given three years in the penitentiary. He was found guilty of having stolen goods from merchandise cars in the Grand Trunk yards here.

Two other men, Howard Jackson and John Shilaub, were remanded for sentence.

Over two dozen search warrants have been issued by the Magistrate during the past few days and hundreds of dollars worth of stolen goods have been brought to light in the general search.

WORK IN MINES WILL NOT STOP

New York, March 30.—The scale committees of the bituminous operators and mine workers, in a joint conference here agreed to make the monetary provisions contained in the award of the bituminous coal commission, as affirmed by the President to become effective April 1, and that the mines continue in operation pending the working out of a new agreement. The award provided for a wage increase of 27 per cent.

GOLF CLUB ANNUAL MEETING

The annual meeting of the Belleville Golf Club will be held at the Hotel Quinte on Wednesday evening, March 31 at eight o'clock sharp.

N. D. MacFadyen,
30-2t Secretary Treasurer.

Many a so-called orator is merely a human phonograph.

The infinite variety and lovely designs of Blackburn jewelry give women new appreciation of the beauty possibilities in the use of jewels.

T. Blackburn
Jeweler and Optician

STANDS FOR EVERYTHING PURE AND RIGHT IN MILLING

The Good Judge Finds

On March 26th the first test of the Judge-Jones Milling Co's flour was made by experts and found to excel all other popular brands both in strength and color. This flour is now on the market and he recommends that EVERY AMBITIOUS BREAD MAKER grasp this opportunity of making a loaf so inviting and satisfying that one turns from other good things and takes another slice of that delicious bread made from CARTIER and PRINCE OF WALES flour.

ECONOMY Flour equally as good for pastry.

The Judge-Jones Milling Co., Limited
Belleville, Ont.

Wages And Prices Run Mad Race in Old Land

AND GOVERNMENT'S REMEDY IS "MORE PRODUCTION"—LLOYD GEORGE'S LIEUTENANT OPPOSED IN LONDON [illegible] ELECTION BY WOMAN LA[illegible] LEADER.

LONDON, March 30—High prices and profiteering are two of the outstanding themes [illegible] by elections that are now proceeding in [illegible] parts of the country. Much hangs upon one [illegible] by-elections because the Coalition candidate is the Rt. Hon. Dr. MacNamara, one of Premier Lloyd George's most trusted henchmen, who must now get a fresh mandate from his working class London constituency, because Mr. Lloyd George has promoted him to be Labor Minister. Dr. MacNamara is the son of a British private [illegible]lier, and was born in Quebec, while his father was stationed there. Hence he is proudly claimed to be a Ca[illegible]

[illegible]midable Opponent

Dr. MacNamara's [illegible] formidable opponent in the present [illegible] is the labor candidate, Susan Lawrence, whom the labor journals already herald as London's first woman M. P. Her war cry is: [illegible] Susan and Down Prices." She slashes at what she calls Government waste and capitalist profits, regardless of the fchuett taht fits, regardless of the fact that most expensive departments are now pensions and labor. One out of every sixteen of the population [illegible] receive State pensions or allowances, and there seems to be no end to the expensive activities of the Labor Ministry in connection with labor exchanges, unemployment, insurance and the like, up and down the country. Dr. MacNamara replies that at least his own former department, the Admiralty, has cut the cost of the navy in half since the armistice. Also, he pleads that dear as food is here, it is cheaper than in any other land.

Pressure Grows Intense

Pressure on this high price question grows more intense each week. The ministers no longer encourage the hope of an early reduction. The world shortage of essentials shows small signs of abatement, especially in view of America's aloofness from cooperation in the re-establishment of central Europe. Despairing of cheaper food, the miners and other workers press always with the threats of strikes for more wages. The Cabinet has offered the miners an increase involving $150,000,000 per annum instead of their demands, which would mean $225,000,000. The wages of the vast army of cotton workers in Lancashire have advanced 140 per cent. since the outbreak of the war, while their hours have been reduced from 55½ to 48 per week. Yet to-day they demand another increase of 60 per cent. and even the employers admit the justice of a 25 per cent. increase to meet the higher cost of living.

Government is Puzzled

The Government is puzzled to know how to check this mad race between wages and prices. It keeps on asserting that the only way to get prices down is to produce more. "Fight higher prices and profiteering by abundance," it says, but in the mines and factories the produce per worker remains about one third lower than before the war. The Government's latest move is the appointment of a committee of employers and workers to advise trades how the output may induce trades unons to adopt the piece-work system.

G. H. D. Cole, the Oxford don, who is labor's prime intellectual, wrings his hands in the Westminster Gazette. He says: "There is no way out which is not also the way out for the capitalist system of production." The reply of a predominant section of Englishmen is an emphatic: "No!"

Sees Judicial Robes Dragged Through Mud

Hon. Hugh Guthrie Does Not Like Drury's New Franchise Act

OTTAWA, March 31. — Judicial robes will be trailed through the political mire in Ontario in the opinion of Hon. Hugh Guthrie if the Drury Government goes ahead with its new Election Act.

Mr. Guthrie is in charge of the new Dominion Franchise law now before the Commons and he says: "I agree that a judge is the proper man under an Election Act to settle legal rights if disputes take place; but I would emphasize the desirability of having the judiciary of this country away from the ordinary machinery of election. What would happen is this—and it will happen in Ontario if the present proposal of the Ontario Government is carried out, as I understand it from the newspaper reports—if you give to a judge power to apoint returning officers, be he ever so fair and judicial in his appointments a mistake will happen at some place, there will be wrong doing some time or other and the first man to be blamed will be the judge with the result that you will have the judicial robes trailed through the political mire. So far as I view it—and it is no business of mine to criticize a measurement—the weakest point in their proposed system is that they make the county judge the president of the election board and that board appoints the returning officers."

Prince Passing Through Panama

PANAMA, March 31—The British dreadnought Renown, carrying the Prince of Wales on his visit to Australia, arrived yesterday and was to pass through the canal into the Pacific.

The cruiser Calcutta accompanied the giant warship. Governor Harding, President lefebvre of Panama and members of the stag of the British embassy in Washington greeted the Prince. A reception and dance were to be held at the Tivoli Hotel and at the Union Club of Panama today.

The Renown will sail Thursday for Australia. The warship is the largest vessel that has attempted passage through the canal.

Farmers' Paper Is Not The Organ Of Government

Premier E. C. Drury Repudiates Any Connection With the Toronto Publication

TORONTO, March 31.—The order-in-Council authorizing the Provincial Treasurer to endorse the bonds of the Hydro Commission for the Toronto and Eastern Railway, will not be passed until the Legislature has considered the report of the Hydro auditors said Premier Drury. "We are far from being antagonistic to the Hydro," the Prime Minister declared emphatically. "We believe in development of the water powers of this Province, by the Province. If there has been any delay in endorsing the bonds it has been because caution dictated it. The report of the auditor will be tabled in the House. The House will then be given an opportunity to discuss it before the order-in-Council is passed endorsing the bonds. I think that is the proper procedure."

Dealing with Sir Adam Beck's reference to the Farmer's Sun, Premier Drury denied that that payer is in any way to be regarded as a Government organ.

"We have nothing to do with it, either by direction or approval," he declared. "As a matter of fact, I have only read one editorial in the Farmers' Sun on the Hydro question."

IS CAUGHT IN GRAND CANYON AFTER FLIGHT FROM ALASKA

Washington, March 31.—A telegram from secret service agents at Salt Lake City reports that Carl C. Fisher, wanted on charges of forging Government checks, has been captured in a remote section of the Grand Canyon district. The secret service men chased him from Juneau, Alaska, to several Pacific coast cities and then through the mountain trails known to few persons other than prospectors.

MILLIONAIRE SLACKER GOES TO PRISON

New York, March 31.—Grover Cleveland Bergdoll, Philadelphia millionaire, found guilty of charges of evading the draft, and was sentenced to serve five years' in the military jail at Governor's Island. He will forfeit all pay, be dishonorably discharged from the army and lose his citizenship.

Government Report On Farm Conditions

The following [illegible] summary of reports made [illegible] representatives to the Ontario Department of Agriculture.

Some representatives report that farmers are expecting an early spring [illegible] field work. [illegible] states that the [illegible] was done on [illegible]5th of March [illegible] Essex [illegible] report plowing [illegible] the week and some [illegible] have already been sown in the [illegible].

Fall wheat [illegible] promising well, although dry winds have been injuring some fields that have been slightly heave[illegible].

While Norfolk reports some winter killing of peach trees, orchards generally are regarded as being in good condition, barring occasional girdling of young trees [illegible] owing to the deep snow prevailing during [illegible]ter.

Owing to the scarcity of [illegible] more farmers than usual are holding off their cattle for finishing on grass. On account of the bad condition of the roads live stock are being marketed slowly. In Frontenac and neighboring counties dressed [illegible] is selling at from 16 to 18 c[illegible]

MANY NE[illegible]ES

Dairying promises [illegible] the fore in 1920. [illegible] Wellington representative says that [illegible] new creameries are likely to be [illegible] that county this year, while Lambton reports that a company from Detroit purposes opening a creamery in Sarnia that orders to pay for cream on the date of the receipt of [illegible]

York reports milch cows [illegible] selling at from $125 to $[illegible] while Prescott and Russell quote prices as ranging from $125 to $150, although in the case of two purebred Holsteins they brought $300 each. At a sale of purebred Ayrshires recently held in Norfolk the best animal sold at $410 and the average price was around $300.

NAPANEE CREAMERY

The local representative reports that the Napanee Creamery last week made about 2,000 lbs. of butter, paying 68 cents a lb. for butter fat. Leeds claims that dairymen in that county are netting from $60 to $65 a ton for their milk. A cheese factory in Dundas county has already started operations for the season.

In Elgin and in Peel last week brood sows with litters brought as high as $120. In the latter county some young sows to farrow their first litter in April have sold at from $50 to $67 each. Young pigs six weeks old have been selling in Lennox and Addington at $11.30 each.

CHEAP HORSES

Bruce reports a carload of cheap horses being shipped to Montreal. Wellington is of the opinion that farmers are not so likely to go into colts this year, as horses can be bought more cheaply than they can be raised. Horses, however, are holding their own in Northern Ontario.

Grade ewes of only fair quality have been selling at auction sales in Brant at around $20 each and lambs at from $15 to $17.

HAY PRICES IRREGULAR

Hay is very irregular in price, varying in values given from $21 to $36 a ton.

Lambton reports that flax dealers, sugar beet men and canning factories are busy securing acreages for planting. The latter are somewhat at a disadvantage, as the flax and sugar beet men supply labor, but it is expected that the area devoted to green peas and corn will be about normal.

Elgin states that the winter has been hard on bees and estimates losses at fully 50 per cent.

MAPLE SUGAR MAKING

Maple sugar making is now in full swing. Several representatives express the opinion that the season will be short. Syrup has already been sold on the Napanee market at $3 a gallon purchasers supplying their own containers.

SIR JAMES GRANT DIED A POOR MAN.

Sir James Grant, noted Ottawa physician, member of the first Parliament of Canada and colleague of Sir John A. Macdonald, died a poor man. His will, which has just been filed for probate, disposes of a few books, paintings and trinkets and an estate of $6,673.

His estate is composed of clothing, jewelry and pictures valued at $350, money secured by mortgage $5,000, cash in bank $1,323; it is divided equally among his widow and children.

An increase of twenty-seven per cent. in wages of soft coal miners will increase the price of coal at the mines about one hundred per cent.

Govt. Railways Show Deficit Of $19,000,000

OTTAWA, March 31.—An operating deficit of nineteen million dollars in conjunction with the Canadian Northern, Canadian Government and Grand Trunk Pacific Railways will be announced by Hon. J. D. Reid in his annual statement respecting the National Railway System. This amount is distinct from fixed charges which amount to twenty-eight million dollars in addition.

The Minister will give a lengthy review of the railway situation and among other things will discuss the question of freight rates. It is understood that the management of the National Railways is favorable to an increase in rates, but this would involve a similar increase in the rates of competing roads. It is felt that no adequate provision can be made for getting gack the "unearned increment" from some of the roads which would result, as it would be diverted into channels which the taxing powers of the country would not reach.

The predominant opinion therefore is that rates may not be raised but the Government will itself carry the deficit for the present.

There is some uncertainty as to whether the Edmonton and Dunvegan line will be taken over, and there will [illegible] no decision on the matter for some [illegible]. Recently it was practically decided to do so but a good deal of opposition has developed among the [illegible]

No provision is made for proceeding with work on the Hudson's Bay Railway.

Announcement is expected this week of the personnel as previously indicated of the Board of Management of the Grand Trunk. The agreement is expected from England daily.

Negro Lynched By Southern Mob

Taken From Officers and Hanged on Telegraph Pole

PARIS, Ky., March 31—Swooping down unexpectedly upon officers who were taking Grant Smith, a negro, to the jail at Paris last night, a crowd of forty men captured the negro and hurried him in an automobile on the Maysville-Leyington pike to Mays Lick, Fleming County, where he was hanged to a telegraph pole.

Smith, who is 40 years of age, disappeared two months ago after alleged assaults on a fourteen-year-old girl. He was arrested in Michigan last week.

A quickly formed posse of county authorities unsuccessful endeavored to overtake the mob in automobiles. When they arrived at Mays Lick the crowd had disappeared, but the body of the negro was found hanging by the neck at the end of a rope tied to the top of a telegraph pole. It was not mutilated, although threats were made at Paris to burn him. His arms were wired to his side and he was still handcuffed. According to reports reaching here, the negro lived fifteen minutes after he was strung up.

Fourteen Years In Penitentiary

Leeds Township Farm Hand Sentenced for Attempted Murder

BROCKVILLE, March 30—The only criminal case for trial at the Spring Assize Court which opened this afternoon, before Mr. Justice Logie, was an indictment of attempted murder against John O'Connell, the young farm laborer, who on the 19th inst, assaulted Miss Margaret McGee at the farm of W. A. Moulton in the township of Leeds, where both were employed. The Grand Jury after a short deliberation brought in a true bill and the prisoner on being arraigned, pleaded guilty to the charge. His Lordship immediately sentenced him to fourteen years at hard labor in Kingston Penitentiary. O'Connell, completely broke down when he heard his fate. The prisoner attacked his victim in a barn, inflicted a dozen cuts on her body with a knife and beat her into insensibility with a hammer, leaving her for dead. O'Connell thought to end it all by cutting his throat with a razor, but did not succeed in the attempt at suicide. He is 23 years old.

Rebuilding Homes In Tornado Zone

Special Despatch to The Intelligencer Canadian Press Limited

CHICAGO, March 31—Districts of the middle-west and south swept by the tornado Sunday with loss of 164 lives were recovering rapidly today and rebuilt home had began to rise from the wreckage. Property loss suffered in eight states affected was estimated today at from ten to fifteen million dollars. It was believed that the death list would not be changed materially.

France Refuses German Request

Special Despatch to The Intelligencer Canadian Press Limited

PARIS, March 31—The request of the German government that it be allowed to send troops to the Ruhr district in the neutral zone near the German border has been denied by the French government.

General Strike For Denmark

Special Despatch to The Intelligencer Canadian Press Limited

COPENHAGEN, March 31—Offers by responsible trade unionists of a compromise by which a general strike might be averted if the Rigsdag is called together immediately have not been accepted by King Christian and the new Danish ministry and thus a general strike throughout Denmark seems inevitable this morning.

Stop Fighting Or Face A Strike

Special Despatch to The Intelligencer Canadian Press Limited

BERLIN, March 31—Leaders of three socialist parties have sent an energetic ultimatum to the Government requesting that it respect the Bielefield Convention and immediately suspend all military measures in the Ruhr Valley. The Government is given until three p.m. Thursday to either accept or reject this request. Should it be rejected an immediate proclamation of a general strike will follow, Chancellor Mueller was informed by Socialistic delegation.

Last Minute Telegraph Briefs

Sterling Exchange

New York, March 31—Demand sterling opened at $3.86¼ this morning a gain of three-fourths of a cent. Canadian dollars were at 91.50 cents.

Home Rule Bill

London, March 31.—The House of Commons passed the second reading of the Irish Home Rule bill today. The vote was 348 to 94.

Revolution Against Allies.

Paris, March 31.—The breaking out of a revolution all over Turkey except in Constantinople, directed against the Allies, is reported by the Pester Lloyd Telegraph Agency at Budapest, according to a despatch from Basle to the Fournier Agency here.

General Strike in Denmark.

Copenhagen, March 31.—A general strike will go into effect throughout Denmark on Tuesday next, following the rejection by King Christian and the new ministry of an offer by the trades unions to furnish a compromise in the political crisis if the Righdag was convened immediately.

INCREASE PENSIONS

Ottawa, March 31.—On the eve of the Government Committee meeting to consider Soldiers' Re-establishment question, many communications are being received, all of which will strengthen hands of soldier members in securing what they consider just recognition for those who have suffered during the war. The Citizens' League of Winnipeg has written declaring that it has decided to petition the Federal Government to make pensions more commensurate with the high cost of living. The report urges that present arrangements are totally inadequate.

Carson Opposed.

London, March 3'.—Sir Edward Carson was one of the first speakers today and he reiterated his opposition to the whole policy of home rule for Ireland. He believed it would be disastrous to both Ireland and England.

Irish Police Barracks Attacked With Bombs

MOB OF OVER ONE HUNDRED ARMED MEN ATTACK BARRACKS IN COUNTY CORK—PORTION OF BUILDING BLOWN UP — TWO POLICEMEN WOUNDED—RAIDERS DRIVEN OFF.

Special Despatch to The Intelligencer, Canadian Press, Limited.

SKIBEREEN, Ireland, March 31.—More than one hundred armed men attacked the police barracks at Durrus, seven miles southwest of Bantry, courty Cork, with rifles and petrol bombs last night. A portion of the building was blown up and two policemen wounded, one seriously, after fierce fighting. The raiders, some of whom are believed to have been wounded, were driven off.

Toronto World Has Assigned To Reorganize

The Toronto World has made an assignment and will carry on in a reorganized condition.

HISTORY OF WORLD

The Toronto World was established in 1879 during a by-election in West Toronto. Its founders were W. F. Maclean, Archibald Blue and Albert Horton. Through the withdrawal of the other partners it later became the exclusive property of Mr. Maclean.

It was at the age of 26 that Mr. Maclean started the World. Previous to that he had been a reporter on the Globe. The World's first office was on King street east, near the corner of Yonge. Soon afterwards it moved around the corner to 83 Yonge street and in 1919 it moved again into a new building on Richmond street west. It began as a four-page sheet, grew to eight pages and then to twelve and sometimes more.

MR. MACLEAN'S CAREER

W. F. Maclean was born in Hamilton, the son of John Maclean, who was dubbed the journalistic father of the National Policy that carried Sir John A. Macdonald into power. The young man attended Toronto University and afterwards plunged into newspaper life by starting as a reporter on the Globe. In 1892 he entered Parliament at the age of 33 as Independent Conservative member for South York.

In his somewhat varied career he has been newspaperman, farmer and politician.

Military Get Busy In Ulster

Two Donegal Sinn Fein M. P.'s Are Placed Under Arrest

LONDON, March 31.—General Sir Nevil Macready, the new Military Commander in Ireland, had a long conference with Premier Lloyd George yesterday preparatory to going to Ireland for his new duties.

A circular has already been issued from Dublin Castle announcing the constitution, with offices of the new Divisional Police Command. Gen. Hatchet-Pain, formerly Chief of Staff of the Ulster Volunteer Force and late Army Chief in Ulster, has been appointed to command the Northern District, which includes the whole of Ulster and the county of Louth. Numerous other appointments have been made to the command in the provinces and counties.

There was great military activity in Northwest Ireland yesterday. Soldiers and police raided many different centres and arrested a number of prominent Sinn Feiners, including the two Donegal members of Parliament, Joseph Sweeney at Burtonport, and Peter J. Ward, at his home in Donegal.

There are now about eight Sinn Feiners in Derry Prison. They pulled out their cell windows and shouted to passersby and are reported to be giving trouble inside. The soldiers quartered in the prison have machine guns mounted and an armored car is held in readiness in the prison yard.

Another murder is recorded. A young farmer has been found dead on the roadside near New Bliss, county of Monaghan, with his head battered in.

Detroit Bandits Rob Card Players

Detroit Hotel Guests Looted of $2,500 Cash and Jewels

DETROIT, Mich. March 31—Guests of the Eldorado Hotel, on Windsor street, told the authorities how three armed men held up and robbed sixteen card players in the hotel early Tuesday morning. Bandits secured more than $1,500 in cash, and jewelery valued at $1,000. Max Koppin, manager of the hotel, was wounded on the head by a blow from a pistol butt when he attempted resistance.

The sixteen were engaged in card games in a room on the fourth floor when the robbery occurred. After the thieves had secured the valuables they locked the victims in a bathroom and escaped.

The armed robbers entered the hotel by the front door and told the night clerk they wanted to go to Mr. Lewis' room on the fourth floor. The clerk took them up in the elevator and as he stepped out one of the bandits poked his pistol into the clerk's back and marched him ahead.

The door leading to the room occupied by Lewis and the other guests was standing wide open and the bandits, with the night clerk in front, stepped into the room. The bandits drew their pistols and while the players stood with their faces toward the wall one of the robbers went through the pockets of the men and took money and watches and searched their fingers for rings. A diamond ring valued at $1,000 and two gold watches were taken. One man had $150 hidden in his sock and the search was so thorough that they located this money. The night clerk had $77 in his pocket and this was also confiscated.

GREEKS OCCUPY THRACE

Paris, March 31.—A despatch from Athens to the Temps today states that the Greeks are taking steps toward occupation of Adrianople and Eastern Thrace.

◆

Kitchener Horticultural Society has in a campaign added between 400 and 500 new members, including many factory employees.

Sinn Fein Proclamation Inciting Murder Of Police

DUBLIN, March 31.—The following proclamation was posted throughout the south of Ireland yesterday:

"1. WHEREAS spies and traitors known as the Royal Irish constabulary are holding this country for an enemy, and whereas said spies and bloodhounds are conspiring with the enemy to bomb, bayonet and otherwise outrage the peaceful, law-abiding and liberty-loving Irish people;

"2. THEREFORE, we do hereby proclaim and suppress said spies and traitors, and do hereby solemnly warn prospective recruits that they do not join the Royal Irish Constabulary.

"All nations are agreed as to the fate of traitors—a fate which has been sanctioned by God and man.

"By order of the Command of the
"IRISH REPUBLICAN ARMY."

Sample box free if you mention this paper and enclose 2c. stamp to pay postage.

MUSIC AND DRAMA

"THE SILENT WOMAN"

The radical change from the rough-and-ready clothes of a logging camp to the filmy and dainty creations from a Paris atelier, was the exprerience of Nan McDonald, played by Edith Storey in "The Silent Woman," which will be the feature attraction at the Palace to-morrow to Saturday, matinee daily. The story opens up in a Hudson Bay trading post in the Great Northwest with the heroine an outdoor girl fond of all athletic sports and whose best dress consists of a simple blouse and skirt. Fate draws her into the life of a family from the east and through them she goes to New York. Here she is transformed into a woman of the latest mode and charm and her clothes are of the most expensive that money can buy. Entering into the character of the play, Miss Storey is equally attractive as the breezy little backwoods girl and the transformed woman of fashion. The play is one that gives this charming actress full scope for her noted emotional powers and the romance which runs through the plot furnishes a delightful vein of sentiment which is beautifully brought out by this clever player. A selected program of comedy and topicals are also being shown in addition to the above feature offering.

"THE WAY OF A WOMAN"

"The Way of a Woman," Norma Talmadge's new picture is being shown at the Palace to-night for the last time. Miss Talmadge's performance adds another to the long list of superlative screen characterizations which have endeared this sterling actress to countless Belleville film fans and have raised her to a position second to none among the leading lights of the silver sheet. Harold Lloyd in "Count Your Change," another of his sure-fire comedies, Gaumont World Wide News and the latest chapter of "The Fatal Fortune" serial featuring Helen Holmes are also being exhibited.

A TALE OF THE SOUTH SEA ISLANDS

Joseph Conrad's "Victory," the tale of love, adventure and revenge in the South Sea Island, is being shown at Griffin's to-night for the last time. "Victory," a picture with characters who love passionately, see red when they hate, and are quick with the trigger and knife. Life among the European wraiths who have drifted to the South Seas reverts to the raw elementals. Jack Holt, Seena Owen, Lon Chaney and Wallace Beery are in the excellent cast. "Hungry Lions and Tender Hearts," a funny 2-reel Sunshine comedy, photoplay screen supplement showing famous stars at work and play, a beautiful Bruce Travelogue and a Cartoon comedy are also being shown on the same program.

A FEW WORDS ON CHOOSING A HUSBAND

(By Mary Pickford)

Ther are two kinds of men, the cyclones and the rabbit, which kind will you have for your husband? The cyclone is very attractive. He gushes like a waterfall. He calls you beautiful when you hair is flying in long strands about your face. He says you are talented when your fingers stumble over the piano keys, trying to play "Home Sweet Home." The cyclone fascinates you, he is so ready with his compliments and pretty sayings. His love words come so freely. He brings you red roses. If you have a telephone, he calls you up morning, noon and night, so solicitous is he to know whether the sniffle of yesterday has turned out to be Spanish Influenza. The cyclone makes you feel that life is one round of pleasure and excitement. Then there's the rabbit. He is awkward. At first he will have nothing to do with women at all. He is a gore, you conclude. You smile at the male wall flower, who trembles when he holds a teacup. After you have been introduced to him he has little to say to you. You try, your best to please. You are charming, but the more you talk the more the rabbit shrinks into reticence. Which is the man of your choice, the cyclone or the rabbit? Need one say? The cyclone is fine for a lark, but the rabbit hides a world of real love and kindness behind his reserve. Never scorn the rabbit! Before you know it, you will be worshipping at his feet.

Editor's Note—And then she went and married Doug who is a cyclone, tornado and thunderstorm rolled into one package of pep and peppersass, but then women were ever a bundle of contradictions.

CAN WILL WHISKEY NOW

Toronto, March 31.—A ruling that a beneficiary is bequeathed a quantity of liquor in a will may receive it providing he has residence with the proper qualifications, has been made by the Ontario Licence Department, according to an announcement made by Chairman J. D. Flavelle.

VIENNA FOOD SITUATION AGAIN REPORTED CRITICAL

Vienna March 30—The city's food situation is again critical, owing to the conditions in neighboring states. The revolution in Germany has caused virtually a suspension of shipments from Rotterdam.

Letters To The Editor

To the Editor of The Intelligencer:

Dear Sir:—The Board of Control in Toronto smashed the School Boards' demands tremendously. I notice a very important statement made by the school trustees. "It was conceded by the trustees that the city had the power to refuse to provide money for capital account that had not been authorized by a vote of the people."

The determination of the Board to wreck the High School tear down the stone Grammar school and the Taylor house and erect a large and costly High School, equipped in every way, in addition to the two schemes they are now demanding, Collegiate Institute and Coleman Ward School—the total of these demands will be close to $400,000 College, $100,000 School and $500,000 for new High School. Surely the course of wrecking folly could no farther go.

I am, yours truly,
J. J. B. FLINT

HOLLOWAY

Address and Presentation

On Wednesday evening, March 24th, about one hundred of the friends and neighbors of Mr. and Mrs. S. Bird, invaded their home to spend a social evening with them before their departure to their new home near Belleville

The occasion was a complete surprise and after the company had come to order, Mr. J. McMullen, acting as chairman, called on Mrs. H. Townsend and Miss M. Wright to read the following addresses, while Mr. and Mrs. S. Bird were presented with a beautiful mahogany parlor table, a wicker rocker and four pieces of silver, the latter being the gift of the Auxiliary, as a token of the esteem in which they were held by their many friends.

Dear Mrs. Bird:

The Womens Missionary Society of Holloway wish to express their appreciation of your splendid work in the society since its organization a few years ago. We have always found you very faithful and ready to lend a helping hand whenever you were called upon. We will soon be starting another year of service and we must find new officers to take the place of the worthy ones who are leaving us but we trust you will not forget that we hold our meeting on the third Wednesday of each month and you will always be a very welcome visitor. In appreciation of your splendid service we ask you to accept these gifts.

Signed on behalf of the Holloway Auxiliary,

MATILDA WRIGHT, Pres.
CLARA TOWNSEND, Sec.

Mr. and Mrs. Sidmar Bird:

Dear Friends.—We find that our feelings are moved more deeply than on ordinary occasions as we meet tonight to spend the last social evening that we shal lever enjoy with you ning that we shall ever enjoy with you have lived so many years. It was here that you started together in your early married life; it was here that your children were born; it was here that you had the early struggles that come in every life; it was here through your strength of character, your larger vision, your honest heart, and your willingness to lend the helping hand that you won a host of friends who feel tonight the genuine pangs of regret as they bid you farewell.

To say we will miss you is to put the truth in a very modest fashion, the very ordinary life is missed, but in this case we shall be poorer in your absence, the heartiness of your spirit and your kindly smile are characteristics that shall continue to live in our memory and the merry little group of children together with yourselves, making seven in all, will constitute no little loss in the regular congregation of the Holloway church, but we must close our eyes to these facts that make for us a sombre picture of little attraction, and look forward to the splendid prospects before you in your new home.

AFTER GRIP or FLU
WINTER COLDS—
BAD BLOOD

You are pale, thin, weak—with little vitality. Your liver is sluggish and the bad blood causes your stomach muscles to lose their elasticity and become flabby and weak—then indigestion.

Dr. Pierce's Golden Medical Discovery, made from wild roots and barks, and free from alcohol or narcotics, is the great and powerful blood purifier of to-day. Ingredients printed on wrapper. This tonic, in liquid or tablet form, is just what you need to give you vim, vigor and vitality.

Take the 'Discovery' as directed and it will search out impure and poisonous matter throughout the system and eliminate it through the natural channels.

You can procure a trial package of the tablets by sending 10c. to the Invalids' Hotel, Buffalo, N. Y., or branch Laboratory in Bridgeburg, Ontario.

SINTALUTA, SASK.—"I have taken Dr. Pierce's Golden Medical Discovery for liver trouble, and found it excellent, and would not be without it. I suffered from congestion of the liver about six years ago and I always say that this medicine cured me. I have also given it to my family for colds and it cured them in a very short time. We must have used about 4 dozen bottles of the 'Discovery'."—MRS. ENOCH MITCHELL.

KITCHENER, ONT.—"I had become all run-down, was weak and nervous. My blood was bad also. I took the 'Golden Medical Discovery' and was completely restored to good health. I am always recommending this medicine to my friends, many of whom have had equally as good results."—MRS. EPH. KETTYLE, 64 Breithaupt Street.

TEMPERATURE TODAY.

Wednesday, March 31, 1920

Minimum	28
Maximum	47

As you have made friends at Holloway so will you continue to make friends wherever you go, and while we mourn your loss, others will rejoice in their gain. As a slight token of the esteem and love which we cherish for you we are asking you to accept this tangible evidence of that fact and we trust that its value to you may not be computed in dollars and cents, but that it may ever be a voiceless reminder of the fact that you have left behind you at Holloway a multitude of faithful friends. We wish you God speed in the further journey of life, a real home in the church and community where you have chosen to cast your lot, and we trust that in the supreme day when the gypsy wanderings of life are over, and the restless spirit of earth has found its real home beyond the skies, that the many friends torn apart by removals from Holloway, may be neighbors once more and forever.

Signed on behalf of your friends:

FRANKLIN B. SPENCER.
JAMES MCMULLEN.
HAMILTON BIRD.

Holloway, March 24th, 1920.

Mr. and Mrs. Bird both responded, expressing their appreciation and extended a hearty invitation to all present to visit them in their new home. Several short addresses were given by the ladies and gentlemen after which "Auld Lang Sine' was sung and lunch served in abundance. This concluded the evening programme and all returned to their several homes feeling that the evening had been most enjoyably spent.

FREE LODGINGS FOR RENT PROFITEERS

Cleveland, O., March 31—Warrants for the arrest of more than 3,500 Cleveland landlords for alleged violation of the city tenement house ordinance by failing to obtain 1920 licenses will be issued within a few days, City License Commissioner Cukr announced yesterday.

Other city officials were preparing to attack rent profiteering from four different angles through legislation adopted by the City Council last night.

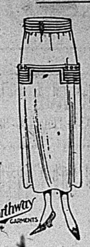
For the Little Ones

To Keep Their Digesiton Perfect Nothing Is So Safe And Pleasant As Stuart's Dyspepsia Tablets

An experienced observer in charge of a large office said it was a waste of words to tell most people to eat plain food. They prefer the food that delights the eye. Checking up on the after effects the usual distresses of gasiness, sour risings, water brash, loginess and so on may be avoided by following tne meal wth one or two Stuart's Dyspepsia Tablets. These supply the stomach with an alkaline effect thus promoting normal conditions as in health. This puts the O. K on so-called rich food. Men and women are but children of a larger growth when it comes to eating the foods that satisfy, even though they may cause indigestion.

Indigestion is not necessarily confined to those who live high. It may follow so simple a process as the flavour of a bay leaf, thyme, garlic, sage or any of the other savory flavorings so universally used in soups, roasts, dressings, etc. As a rule if the stomach balks at such things it will be disturbed by cheese, milk, coffee, pies and almost anything that most people like so well. Such conditions as these are met quite adequately by following the meal with one or two Stuart's Dyspepsia Tablets. They digest food and at the same time supply the stomach with an alkaline effect that prevents gassiness, heartburn, sour risings, drowsiness after eating and such distresses so familiar to those susceptible to indigestion or dyspepsia. Get a box of these tablets at any drug store in the United States or Canada, price 50 cents, and then note how comfortable the stomach feels. Your most excellent cook may use garlic without a protest.

SINCLAIR'S



Spring Blouses and Skirts

Skirts and Blouses are indispensable to the Easter Wardrobe, and when they are as modish as the models now being featured here they add considerably to its success. The Skirts are sportsmanlike affairs of Wool Plaid or all wool Serges and Tricotines. Prices range from $5.50 to $25.00.

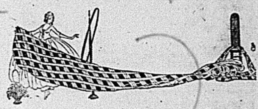
In the realm of Blouses, Organdies, Voiles and Georgettes are in favor. Whether one wishes to choose a Skirt or a Blouse or both, a visit to these displays will prove surprisingly profitable.

Just the Suit You've Been Hoping to Find

Yes, we feel sure it is here—since these handsome new models arrived. Every day emphasizes the need of a smart new suit, and if yours is not provided, the real opportunity for most gratifying selection has arrived. Come and look through the collection in time to make sure of your suit for Easter.

The Necessary Handkerchief

Daintiest embroidered and lace-trimmed sorts, or the sturdy and durable pure linen weaves. How much the Handkerchief tells of the tastefulness of the person who carries it. The best sorts for all uses are here, of course, some priced as low as 8 cents each, up to several dollars.



The sight of these new Voiles, Crepes and Marquisettes will make you start at once planning dresses for the coming season. The daintiest fabrics are shown in delightful new patterns that are bound to please you. All are moderately priced.

MARABOUT RUFFS.
—lend a touch of added charm to the New Spring Suits. There will be days, too, when a Marabout Ruffs will be a very comfortable wrap. Prices $8.50 to $17.50.

BAGS AND PURSES.
The newest models of leather Bags and Purses and Plush Bags are shown in desirable tones which will harmonize with your Spring Suit. Prices 85c. up.

Tweed Skirtings

There are many beautiful colorings in these 56-inch Tweeds for Sports or general wear. Stripes and Plaids are shown in Green, Brown and Grey mixtures in an unusually good quality Tweed, at .... $4.50 per yard

CANADIAN GUNS BACK FROM FRANCE

Ottawa, March 31.—The guns which are being landed at Halifax will be distributed to the active militia all over Canada, said Major-General Ashton, adjutant-general at Militia Headquarters. Canada sent her artillery over during the war and it is now being returned. It is required to equip artillery units throughout the Dominion.

◆

Allies have accepted the last note of Holland who will not be responsible for the care of the ex-Emperor.

Sports

Y. M. C. A. HAND BALL.

On Saturday afternoon Albert College sent two teams to the "Y" to try conclusions with the "Y" hand ball artists. The result of the games was a win for Albert. McElroy and Blatchford lost to Wallace and Ramsay 2 to 0. Scott and Affleck lost to Gardiner and Guest 2 to 1. Wallace and Ramsay lost to Gardiner and Guest 2 to 0, and Scott and Affleck lost to McElroy and Blatchford 2 to 1 The return game will be played at Albert in the near future.

BOWLING.

The Y. M. C. A. Bowlers met last evening and prizes were distributed for the Fall league.

The Curlers won the team prize. This team consisted of Messrs. C. H. Vermilyea, G. Martin, M. Wright, W. Belair and R. J. Wray (captain).

The high single string score was tied between two members of the G.T.R. Shops team, Messrs. Harvey and Lancaster, who had each a score of 189 These men were each awarded a prize.

Mr. C. H. Vermilyea won the high three-string prize. R. J. Wray won the high average score of 134.

The matter of a new league was discussed and it was decided to run off a group competition of five men teams, also doubles and singles. Entries were received from ten teams for this competition and a schedule will be drawn at once. The new rubber band pins will be used and some excellent scores may be anticipated when these games open next week.

CORBETT BOXES WITH CARPENTIER

New York, March 31.—James J. Corbett is positive that the contemplated fight between Jack Dempsey and Georges Carpentier will not be a one-sided affair. In fact, he believes that the French champion possesses the necessary qualifications to contest in the ring for the heavyweight championship of the world.

This is the opinion expressed by the former heavyweight champion after sparring for a few minutes with Carpentier at the home of Jack Curley at Great Neck, L.I., where the French champion spent the day with Mme. Carpentier. It was the first time that Corbett had ever seen the pugilistic sensation of Europe.

"I want it distinctly understood that I am not attempting to pick the winner of the Carpentier-Dempsey fight," said Corbett when asked regarding his impressions of the Frenchman, "but Carpentier showed such wonderful form during the brief period I was sparring with him that I am convinced he will prove a worthy opponent of Dempsey, and we all know how great a fighter Dempsey is.

Carpentier is heavy enough to battle with any heavyweight for the championship. Of course, a man to aspire to the title has to have a certain amount of weight behind him, but a man of Carpentier's weight is heavy enough.

"Carpentier weighs 173 pounds and would probably step into the ring against Dempsey at the weight. Dempsey's weight is about fifteen pounds more than that. When I fought Peter Jackson in 1891 I weighed 168, five pounds less than Carpentier.

"However, I do not want to create an impression that I do not believe that Dempsey is clever and that I am picking a winner for the fight, but what I want emphasized is the fact that I believe reports that the battle will be uninteresting because Carpentier is not heavy enough are not well founded.

"The brief sparring I did with the Frenchman demonstrated to my satisfaction that he will not be a ready target for any man's blows. Carpentier knows how to handle himself and in less than sixty seconds of our little affair he showed that he has the art of side-stepping and ducking down to a science."

Manager Descamps accompanied the French champion and Mme. Carpentier to the Curley residence. A group of the theatrical and sporting fraternity of Great Neck were guests of Curley and witnessed the sparring exhibition. Corbett is several inches taller than the Frenchman.

BASEBALL

Following is the draft schedule arranged by Secretary John Nott, of Oshawa, and which will be sudmitted to the different clubs in the league in the course of a few days:

May 24—Lindsay at Cobourg.
" 24—Port Hope at Oshawa.
" 24—Peterboro at Belleville.
" 29—Belleville at Port Hope
June 2—Oshawa at Lindsay.
" 2—Port Hope at Peterboro.
" 5—Belleville at Cobourg.
" 9—Port Hope at Belleville.
" 9—Oshawa at Peterboro
" 16—Cobourg at Peterboro.
" 19—Lindsay at Oshawa.
" 19—Peterboro at Port Hope.
" 23—Port Hope at Lindsay.
" 26—Peterboro at Cobourg.
July 1—Cobourg at Lindsay.
" 1—Oshawa at Port Hope.
" 1—Belleville at Peterboro.
" 7—Lindsay at Belleville.
" 10—Port Hope at Cobourg.
" 14—Belleville at Lindsay.
" 17—Cobourg at Oshawa.
" 17—Lindsay at Port Hope.
" 21—Oshawa at Cobourg.
" 21—Peterboro at Lindsay.
" 24—Peterboro at Oshawa.
" 26—Oshawa at Belleville
" 28—Lindsay at Peterboro.
" 28—Cobourg at Belleville.
" 31—Belleville at Oshawa.
" 31—Cobourg at Port Hope.

INDOOR BASEBALL

There was a hot game of indoor base ball at the Armouries last evening between the teams of the 15th Argyle Light Infantry and the Y.M.C.A. The final score was 43 to 13. The teams were as follows:

15th—Saunders, Brickman, Service Deline, Moxon, Taggart, Ainfort, J. Rushlow and H. Rushlow.

Y.M.C.A.—Buchanan, Weir, Hagerman, Armstrong, Marakas, Williams, Frost, Bongard, Yeomans and B. Miles.

SEATTLE 5—OTTAWA 2

Toronto, March 31.—Playing under Pacific Coast rules the Seattle team last night administered a 5 to 2 beating to the Ottawa Senators, and necessitated a fifth game being played to decide possession of the Stanley Cup. The teams will meet here to-morrow night and, with National League rules governing, the fixture should prove more popular with fans than did that of last evening. Seattle made an earnest effort to give a good demonstration of the sport as played on the coast, but it failed to make a favorable impression.

Called by Death

ANGUS DUMINIE

Mr. Angus Duminie, well known resident of the city, passed away rather suddenly last evening, being a victim of heart trouble. On the 10th of February, 1860, deceased was born in Belleville being a son of the late Mr. Ferdinand Duminie. All his life was spent in this city. For the past 20 years Mr. Duminie had been a faithful employee the Public Works Department of the city. Previous to this he conducted for some time the Canadian Hotel at the Corner of Pinnacle and Dundas streets. He was a member of St. Michael's Church and a member of the I.O.F. Society. Deceased was a widower and is survived by one son, W. J., of this city and two daughters, Mrs. T. Storms, nee Mrs. W. Post, of Hartington, Ont., and Mrs. J. Radcliffe, of Toronto. Mr. Duminie had many friends in Belleville, who will regret his passing.

DAVID WATERS

After being in ill health for some months Mr. David Waters passed away this morning at the family residence, 20 Hillcrest avenue, city. Deceased was 70 years of age and was born at Lybster, Caithnesshire, Scotland. For the past 25 years he had resided in Belleville, where he had many friends. Mr. Waters was a member of St. Andrew's Church. By profession he was a tailor. A widow and family survive. Mr. D. M. Waters of this city is a brother of the deceased.

MRS. MARY VAN ALLEN

Mrs. Mary A. Van Allen, wife of Edwin Van Allen, died at her home, 215 West Jackson street, Hamilton, on Monday morning, aged 60 years. Mrs. Van Allen was born in Lincolnshire, England, the greater part of her life being spent in Hamilton where she was well known and highly esteemed by a wide circle of friends. Surviving are her husband and one daughter, Mrs. L. R. Butchart of Belleville, Ont. two brothers, William and George Burwell of Hamilton, and three sisters, Mrs. L. S. Hill of Granton; T. J. Peer of Toronto and Miss Martha Burwell of Toronto.

NO GERMANS NEED APPLY.

It is a fine thing to forget and forgive, a noble Christian sentiment, but even Christian charity can be carried too far and the lessons of the war should not be lost sight of in an effort to extend the principle of forgive and forget beyond safe and sane limits. The following resolution passed at the Dominion convention of the Great War Veterans will meet with general approval:

> "Whereas this convention has learned with astonishment and indignation that persons of German origin, thought and sympathies have been appointed to the professional and teaching staffs of Canadian universities and other educational institutions, and are still retained therein,
>
> "And whereas it is not in the best interests of Canada that its youth should come under the influence of such instructors,
>
> "Be it therefore resolved that this convention goes on record as being opposed to the retention or the appointment of any person of German origin, irrespective of such person's academic qualifications."

WHEN WET, YOU SHOULD NOT TOUCH ELECTRIC LIGHT.

No electric appliances should ever be placed where a person in a bath tub can reach them. Such is the assertion of Dr. A. Zimmern in the Presse Medicale (Paris) in commenting on the death of a colleague. Electrocution has taken place with a current of only 110 volts under such circumstances.

The reason is that the water on the hands and body provides exceptionally favorable conditions for conduction of the current. It is not safe to touch even an electric light, heater or bell when in the bath. Dr. Zimmern cites recent cases as follows:

A woman killed by holding an electric light in one wet hand while turning a water faucet with the other; a woman killed by wiping with a wet cloth the current distributing apparatus for an electric heater; a man receiving a severe shock by taking hold of a chandelier while holding an electric light suspended by a wire.

It is very dangerous to change an electric bulb when the hands are wet or the floor is wet; a slight defect in the insulation may cause a severe shock or even death.

PUTTING PEP INTO BANQUETS.

Not many of us attend public banquets. But, though the subject may not be very familiar, we may be like the mature spinster who had one lone love kiss, we like to talk about it, says the Toronto World.

The banquet is a remarkable institution. Each is a law unto itself; especially as to length. But there is a general tradition in most places, which has become a set fashion. Skirts may be shortened sometimes, but banquet programs never, says the World; indeed in some places there is a post-prandial rule: "Hours may come and hours may go, but this goes on forever."

There is abundant room for banquet reform. It will come as soon as we really learn that we have got away from the conditions of the forest pioneers. That is true, not only of banquets, but of certain species of political meetings. Sir James Whitney was one of the few public men who realized this, and had the sense to say so.

The last Dominion election which Sir James was interested was the 1911 fight, which brought victory to his party. When the campaign was about to be launched in Ontario, there was a meeting of Conservative candidates at the Albany Club, on King street. Sir James was there ,and made the most practical speech of the day. He said he hoped to goodness that the campaign managers would cut down the number of speeches at each meeting.

At the Massey Hall demonstration, which wound up the provincial campaign of 1905, Sir James said, eleven speakers preceded himself. His turn did not come till after 10 o'clock, when some people were leaving, having had about all the oratory they could carry home. And yet he was supposed to make the principal speech of the evening. For Heaven's sake, the veteran appealed, let there be some common sense in the pending campaign.

The advice was applauded, but was not taken by many of the men who heard it. They were bound down to tradition, and to fear of offending people who regard an election as their opportunity to work off remarks that they have been saving up since the last election, often enough for the purpose of paying off old local scores, and for showing that politics is the roughest game known to civilized mankind.

.·. CRISP COMMENT ·.

Wednesday was Holstein Day in Belleville and the bovine Lords and Ladies of high degree were all down in black and white.

× × ×

First she would and then she wouldn't, then she smiled and said she couldn't marry Doug—but Douglas married Mary just the same, roped her and ringed her—took his Pick of the mavericks, as it were.

× × ×

Soft coal miners get a wage increase of 27 per cent., and the announcement is made that this will mean an increase in the price of soft coal at the pitmouth of one hundred per cent. Sure, we expect that; but why stop at once hundred per cent.? Don't be pikers.

× × ×

× × ×

The poison tongue of scandal-gossip has survived the war and apparently is everlasting. Bred in the lowest depths of hell, it crawls about with fetid breath whispering: "I heard this," or "I heard that"—thinking evil and speaking evil to blacken someone's character or stab some soul with unkindness. If you hear an evil thing kill it right there—don't pass it on.

× × ×

Constantinople occupied by Allied troops and possible intervention in Germany by the same agency are not encouraging facts from a peace point of view. It seems to be a long, long way from that disarmament which was promised, with more or less good faith, in the days when the world's armies were struggling to the death in the tremendous battle arena in Europe. The world is disturbed as never before.—Montreal Gazette.

× × ×

An indignant lady reader of The Intelligencer states that a little fox terrier dog was run over by an automobile on Front street, fatally injured, and dragged none too gently into an alley, where the poor thing was allowed to lie in a pool of water with ice for a pillow and die a lingering agonizing death of several hours. Here is work for the recently organized Society for the Prevention of Cruelty to Animals. Policemen should be instructed what to do in the case of an injured animal, and there should be a lethal chamber or gas box at the police station for the painless removal of surplus dogs and cats.

OTHER VIEWS

In This The Best of All Worlds
(Boston Globe)

Springtime is the off season for sceptics. It is Nature's approval of dreaming dreams, an invitation for man to get in step with her and to remember that life was intended to be good.

Dangerous Talk
(Springfield Republican)

Twenty years ago England began to build against Germany; it would very much rather not have to begin now to build against the United States. By 1924, Chairman Butler, of the Naval Committee, told the House of Representatives, America's navy will about equal that of Great Britain "in fighting power." Such statements are receiving very grave attention in England.

No Truck or Trade
(Sydney Bulletin)

If the doctors, the bagmen and the wool-buyers want to hit the guiltiest Hun, they will begin by calling for a sky-high tariff. They will then proceed to boycott any indentifiable Hun-made goods—drugs, lager, woollens, motor cars, pianos—which slip over or through the tariff wall. This may be less spectacular, more inconvenient and not so personally profitable; but it will be vastly better for Australia—and worse for Germany.

The' Poet's Corner

THE PRINCESS PATS

They were loyal to old England and they answered duty's call,
Theirs not to ask the reason why, they went to fight or fall.
The Mother Land they only knew in danger stood once more,
And that Canadian fighting men were needed to the fore
They were veterans who once had trekked o'er Afric's burning sand,
Who offered once again to give their lives on foreign land.
There were many hearts were saddened as for France they sailed away,
A regiment of fighting men all eager for the fray.
There were clerks and there were farmers, men from all the walks of life,
But they did not stop or hesitate, they joined right in the strife.
Like veterans of ages, on that field of blood and mire
They proved that they were heroes 'neath the Germans' galling fire.
With the rifle and the bayonet, with the hand grenade and guns,
They wiped out many hundreds of the treacherous dirty Huns.
Their regiment was shattered, cut to pieces often, too,
Till at last, of the Originals, there were just a lucky few.
Mound after mound, cross after cross mark where they fought and fell,
In the struggle for democracy on that field of living hell.
They would not give, they would not yield, they knew not fear or pain,
And they stubbornly contested every inch the foe did gain.
The sacrifice supreme they made, fell fighting to the last
But while they lived, God bless them, no German ever passed.
Nobly they did their duty in the fighting days gone by,
Now peacefully they are resting in their home above the sky.
They have passed into the Unknown, gone across the great Divide,
But Canada, forever, can speak of them with pride,
And if, dear reader, you should ever pass their graves, please raise your hats
To honor and respect the men of the gallant Princess Pats.

—Captain E. Everett.

THE WILLIAM DAVIES CO. LIMITED

MUST CLOSE SUNDAYS

Montreal, March 31.—Theatre managers in Montreal will be notified by Chief of Provincial Police, Lorraine, that their theatres will have to close on Sundays. Instructions to this effect was received by the chief from the Attorney-General's department at Quebec.

STOLEN DRUGS ARE RECOVERED BY POLICE

Detroit, March 31—Morphine worth $500,000 in the illicit market and $65,000 in the legal trade, has been seized by the Inland Revenue Department here. The drugs were stolen from Parke, Davis & Co. Two young men, William Woodbridge, nineteen, and Carl Bachner, nineteen, are under arrest.

Woodbridge is a grandson of the late William Woodbridge, a former Governor of Michigan.

Three charges will be made against the men, the most serious being unlawful possession of narcotics.

Operations Avoided

The Possibility of Fatal Results Prevented

In kidney troubles, the surgeon's knife should be the last resort. Kidney trouble can be relieved in a wonderful way by treating in time with the most efficient of all preparations for toning up and rebuilding weak and diseased kidneys—Gin Pills.

Gin Pills are free from all trace of alcohol. They contain Juniper and seven other diuretics and antiseptics. Much time and profound study was given to perfecting the formula on which Gin Pills are prepared and they furnish quick and positive relief, immediately attacking the congested tissue, destroying the poison, soothing, healing and building up the emaciated and weakened organ so that it can take up its work of purifying the blood with efficiency.

Once the kidneys are made normal, the pains, rheumatism, swollen joints, and general debility disappear, the stone or gravel in the bladder are eliminated, and good health and buoyant spirits return. All druggists and dealers sell Gin Pills at 50c per box, with a guarantee to return your money if you do not receive relief. Free sample on request. Address:—

The National Drug & Chemical Co. of Canada, Limited, Toronto. United States Address, Na-Dru-Co., Inc., 202 Main St., Buffalo, N.Y. 261

Synthetic Finger Given To Soldier

Tissue From Chest Makes Useful Digit—Original Procedure Successful

NEW YORK, March 31.—The grafting of a synthetic finger on a soldier's hand, from which all but the thumb was shot away during the war, has been accomplished by the orthopedic department of the Post Graduate Medical School Hospital. This announcement was approved by the hospital board following a clinic at which the surgeons demonstrated that flesh could be grafted to a person which would develop muscular obedience.

According to the statement, the soldier's hand was "useless" when he submitted to the operation. The soldier was first observed at United States Army General Hospital No. 3 at Colonia, N.J., where it was recorded that because there was no "opposing surface for contact with the thumb nothing could be grasped or held." The policy of salvaging every possible function of the injured hand and supplying the soldier with an artificial hand was considered.

The surgeons of the post graduate then decided to resort to an original procedure made during the war, that of "inlay bone grafting." The first step was to obtain a rectangular flap of skin and subcutaneous tissue from the chest wall in the form of a finger." The end of this flap was joined at the desired point to what was left of the bones in the hand, a pedicle being left attached to the chest wall to supply nourishment until circulation with the hand was established.

The hand was bound to the chest in a plaster cast for four weeks and then the fleshy artificial finger was cut away from the chest wall. The boneless finger was tunneled and a wedge-shaped mortise made in bone at its base. Into this mortise was driven a wedge-shaped graft about three inches long, which was taken from the soldier's chin. What is known as a silver graft was affixed beside the first graft for the purpose of "bone seed" and the skin was closed over all with silk sutures.

Five weeks after the last operation the soldier was able to "extend or flex the thumb in opposition to the new finger." It was said after the demonstration yesterday that he can now use his hand for many normal purposes.

◆

THIRD LINE THURLOW

Mr. Frank Easton has about completed sawing wood for the farmers with his gasoline outfit.

Pleased to report that Mrs. Harry Tweedie has returned home from her father's.

Mrs. Samuel Tape, Sidney, is very ill and under the doctor's care, her health is improving.

Those who have sugar bushes are making maple syrup.

The snow and ice disappeared very quickly and farmers are preparing for seeding.

Master Don Downey and his sisters, Violet and Clara, have gone to Crookston for a few days visit with relatives.

Mr. Gilbert Bedard's sale was largely attended and good prices were realized.

Mr. Langabeer, who was seriously ill a few days ago, is improving slowly.

Our teacher, Miss Mulholland, was taken suddenly ill while teaching but are pelased to report that she is some better. The school was closed last week.

PARIS GIRL LOOPS THE LOOP 25 TIMES IN SUCCESSION

Paris, March 31.—An 18-year-old girl, Mlle. Bolland, has broken the French record for looping the loop. She did the feat 25 times in succession in a bi-motor Caudron machine.

REDNERVILLE & ALUBRY

Mr. and Mrs. Alyea and family of Ameliasburg took tea at the home of Mr. and Mrs. John Garbutt on Sunday evening.

Mr. and Mrs. J. S. Dempsey spent Sunday at the home of Mr. and Mrs. A. Babcock.

Mrs. S. G. Thompson spent Sunday at the home of her father in Grafton.

Mr. and Mrs. S. Vandervoort of Bayside, were Sunday guests of Mr. and Mrs. John Weese.

Mr. and Mrs. S. Bent spent Sunday in Wooler visiting friends.

Mrs. Mary Reddick and Mrs. W. H. Brickman took dinner with Mr. and Mrs. Chas. Brickman on Sunday.

Mr. and Mrs. Rae Weese entertained company on Sunday.

Mr. and Mrs. G. McMurter attended the reception of their nephew, Mr. H. Cunningham on Friday night.

◆

VICTORIA

Church next Sunday at 2.30 p.m.

Mr. and Mrs. Clifford Peck and little son spent Sunday at the home of Mr. E. Brickman.

Mrs. Norman Weese spent Sunday with her parents at Trenton.

Mrs. J. F. Weese received the sad news on Friday of the death of her sister, Mrs. Hubbs, Trenton.

Sorry to report Mr. Will Hubbs' children are all down with the flu. This is the second attack for little Alice, and we all hope for a speedy recovery.

Mr. and Mrs. Harry Sager, Mrs. J. Sager and Mr. and Mrs. W. H. Glenn, of Belleville spent Sunday at the home of Mr. L. Brickman.

Mr. Leonard Bryant of Gilead, spent the week end with his uncle, Mr. B. Brickman.

A very quiet but pretty wedding took place at the home of Mr. Morton Weese on Tuesday of their eldest daughter, Carolla, to Mr. Harry Cunningham of Mountain View. Just the near relatives of the bride and groom were present.

They left on the afternoon train for Ottawa and returned on Friday evening when a large reception was given at the home of the groom's parents, Mr. and Mrs. Fred Cunningham, of Mountain View.

Mr. and Mrs. Gilbert French of Belleville spent Sunday at the home of Mr Will Hubbs.

Master Earl and Borden Elliott of Madoc, are spending their Easter Holidays at their grandparents, Mr. and Mrs. N. M. Wilson.

Fletcher Hawley. It's a boy.

Mr. and Mrs. George Babcock have moved to their new home in Bloomfield.

MESSENGER MISSING WITH $118,000 IN BONDS

New York, March 30.—A messenger yesterday disappeared with $118,000 worth of bonds from Harriman and Company, of 111 Broadway.

A police alarm for the missing youth was sent out.

◆

Washington, March 30—The British Board of Trade has removed the export embargo on wool, according to advices received from London.

Grip, Influenza

Hamlin's Wizard Oil a Reliable, Antiseptic Preventive

During influenza epidemics spray the nose and throat several times a day with one part Wizard Oil and two parts water, using an atomizer. If you haven't an atomizer, gargle the throat and snuff the mixture up the nose. This treatment sets up an antiseptic wall of defense against "Flu" germs.

Chest colds and sore throat lead to grip. Stop them at once with Wizard Oil before they can develop into dangerous influenza.

Get it from druggists for 30c. If not satisfied, return the bottle and get your money back.

Ever constipated or have sick headache? Just try Wizard Liver Whips, pleasant little pink pills, 30c at druggists. Guaranteed.

By THOMAS HARDY

CHAPTER VI—Continued

Now, this had never happened before within the memory of man. The girls, like the rest of the congregation had always been humble and respectful followers of the gallery; singing at sixes and sevens if without gallery leaders; never interfering with the ordinances of these practiced artists—having no will, union, power, or proclivity, except it was given them from the established choir enthroned above them.

A good deal of desperation became noticeable in the gallery throats and strings, which continued throughout the musical portion of the service. Directly the fiddles were laid down, Mr. Penny's spectacles put in their sheath, and the text had been given out, an indignant whispering began.

"Did ye hear that, souls " Mr. Penny said in a groaning breath.

"Brazen-faced hussies!" said Bowman.

"Trew: why, they were every note as loud as we, fiddles and all, if not louder."

"Fiddles and all," echoed Bowman, bitterly.

"Shall anything bolder be found than united woman?" Mr. Spinks murmured.

"What I want to know is," said the tranter (as if he knew already, but that civilization required the form of words), "what business people have to tell maidens to sing like that when they don't sit in a gallery and never have entered one in their lives? That's the question, my sonnies."

"'Tis the gallery have got to sing, all the world knows," said Mr. Penny, "Why, souls, what's the use o' the ancients spending scores of pounds to build galleries if people down in the lowest depths of the church sing like that at a moment's notice?"

"Really, I think we useless ones had better march out of church, fiddles and all!" said Mr. Spinks with a laugh which, to a stranger, would have sounded mild and real. Only the initiated body of men he addressed could understand the horrible bitterness of irony that lurked under the quiet words, "useless ones," and the ghastliness of the laughter apparently so natural.

"Never mind! Let 'em sing too—'twill make it all the louder—hee, hee said Leaf.

"Thomas Leaf! Thomas Leaf! Where have you lived all your life?" said Grandfather William, sternly.

The quailing Leaf tried to look as if he had lived nowhere at all.

"When all's said and done, my sonnies," Reuben said, "there'd have been no real harm in their singing if they had let nobody hear 'em, and only jined in now and then."

"None at all," said Mr. Penny. "But though I don't wish to accuse people wrongfully, I'd say before my lord judge that I could hear every note o' that psalm come from 'em as much as from us—every note as if 'twas their own."

"Know it! ah, I should think I did know it!" Mr. Spinks was heard to observe at this moment, without reference to his fellow-creatures—shaking his head at some idea he seemed to see floating before him, and smiling as if he were attending a funeral at the time. "Ah, do I, or don't I know it!"

No one said "Know what?" because all were aware from experience that what he knew would declare itself in process of time.

"I could fancy last night that we should have some trouble wi' that young man," said the tranter, pending the continuance of Spink's speech and looking toward the unconscious Mr. Maybold in the pulpit.

"I fancy," said old William., rather severely, "I fancy there's too much whispering going on to be of my spiritual use to gentle or simple." Then folding his lips and concentrating his glance on the vicar, he implied that none but the ignorant would speak again; and accordingly there was silence in the gallery, Mr. Spinks telling speech remaning forever unspoken.

Dick had said nothing, and the tranter little, on this episode of the the morning; for Mrs. Dewy at breakfast expressed it as her intention to invite the youthful leader of the culprits to the small party it was customary with them to have on Christmas night—a piece of knowledge which had given a particular brightness to Dick's reflections since he had received it. And in the tranter's slightly cynical nature, party feeling was weaker than in the other members of the choir, though friendliness and faithful partnership still sustained in him a hearty earnestness on their account.

TO BE CONTINUED

SIDNEY CROSSING

On Tuesday evening, March 23rd, about fifty of the friends and neighbors gathered at the home of Mr. and Mrs. Judson Kelly, of Sidney Crossing to spend the evening with them before their departure for their new home.

At an early hour the meeting was called to order with Rev. Mr. Mutton acting in the capacity of chairman. The following address was then read by Mrs. Jas. Donaldson:

Dear Mr. and Mrs. Kelly and Mr. Webster Kelley:

We, your neighbors and fellow members of White's Church have gathered this evening to express our regret that you find it necessary to leave our midst.

While we are glad that you are not moving entirely out of our reach, we shall miss you greatly in the closer association of which we shall now be deprived.

You, Mr. and Mrs. Kelly, have in the past given unsparingly of your time and energy to every good work, and especially with the Sunday School where you were faithful workers. While of late owing to physical disabilities you have not been able to be much with us, we are sure that your sympathy and prayers are always ours You have also proved yourselves true neighbors, and while we shall be poor hood, we know, will be enriched by hood, we know, wil lbe enriched by your presence.

And you, Mr. Webster Kelly, we shall miss none the less. Your quiet christian life and unfailing neighborly kindness have always been an inspiration and a help to all who have known or come in contact with you. Now while we deeply regret the loss of three Christian friends and neighbors from our midst we wish to make some slight expression of our appreciation of your life among us and we, therefore, ask you, Mr. and Mrs. Kelly, to accept this table, and you, Mr. Webster Kelly, these slippers, with the hope that they will some time remind you of pleasant associations and your many friends here who will follow you with their prayers and good wishes for health and happiness in your new home.

Signed by

BRUCE HOGLE.
CHARLES MOON.
SELDEN KETCHESON
MRS. JAS. DONALDSON.

Messrs Ritchie Ketcheson made the presentation which was a handsome round oak dining table.

Mr. Kelly made a suitable reply thanking the donors on behalf of himself and wife for their kindness and so appropriate a gift after which a dainty lunch was served by the ladies. Owing to the illness of Mr. Webster Kelly there were not as many present as would have been and the gathering broke up at an early hour. Mr. Kelly has sold his farm to Mr. Jacob Thompson and purchased a house at Centenary.

CROOKSTON

Mrs. Ethel Emmerson is visiting friends at Harold .

NO DELIVERY OF MAIL

Good Friday being a public holiday, there will be no delivery of mail by the mail carriers.

BODY BROUGHT HERE

The body of Mrs. Elijah Goldsmith, who died in Chicago arrived here yesterday afternoon and taken to Belleville cemetery for interment. Dr. Goldsmith, a son, accompanied the body here.

A HEAVY STORM

Yesterday afternoon a portion of Thurlow and other townships north of the city were visited by a downpour of rain and hail, accompanied by a strong wind. The storm did not touch the city.

A USELESS CALL.

Last evening the police answered a call to Doyle's terrace on Pinnacle St., it being reported that there was trouble in one of the apartments. Upon investigation it was learned that there was no need for sending in a call.

HER 97TH BIRTHDAY

On Friday last Miss Chloe Koyl of the Fulford Home for Aged Women, Brockville, celebrated her 97th birthday, receiving her friends in the east parlor, where refreshments were served and a large birthday cake presented to her.

OLD BOYS' REUNION

The various committees in connection with the Old Boys Reunion to be held here in July are commencing to get busy and already considerable routine work has been done. On Wednesday evening next it is proposed to hold in the city building a general meeting of all committees.

WILL PRESENT CHARTER.

District Governor Lidbury, of Niagara Falls, who is an official of the Rotary Club organization, will be in Belleville on Saturday and in the evening at Hotel Quinte will present the charter to the Belleville Rotary Club. Rotarians from Toronto and other places are expected to be in attendance.

CLASSES RESUMED.

Classes were resumed yesterday in connection with the public school at Cannifton, after having been interrupted owing to a fire which destroyed the school house last week. The basement of the Methodist Church and the Orange Hall are being utilized until a new school is built.

FORMS CANADIAN ASSOCIATION

Dr. Walter Ross, formerly of Brockville and Belleville, and now Canadian Trade Commissioner to China, has recently formed a Canadian Association in Shanghai to foster good fellowship among Canadians in China and generally to promote the interests of this country in all possible ways. Fifty members have already been enrolled.

C. P. R. IMPROVEMENT

The new Canadian Pacific Railway station at Carleton Place is to cost $100,000 and is to be up-to-date in every particular. The junction is also to be a passenger terminal all rolling stock of that class to come straight through Montreal on account of the detours and delays in Ottawa. The roadhouse is to be re-established and much machinery installed in the shops

KINGSTON-OTTAWA HIGHWAY

Hon. F. C. Biggs, Minister of Public Works and Highways, told a deputation from Ottawa and Perth which waited upon him last week that shortness of route and service to the agricultural community were two of the principal aims of the new Kingston-Ottawa provincial highway. The deputation urged that the highway be routed via Perth and Lanary county instead of Smith's Falls and Leeds county.

IS AWARDED SCHOLARSHIP

Lawrence B. Smith, of Brockville, a student of the Faculty of Arts at Queen's University and a prisoner of war in Germany from 1916 to 1918, has been awarded the Prisoners of War scholarship founded by the Ottawa Women's Canadian Club. The scholarship is tenable for two years and is valued at $500. Mr. Smith is a son-in-law of Mr. and Mrs. Horace L. Casselman, 17 Georgina Street, Brockville.

PRESS APPRECIATED

At the Annual Meeting of the Central Ontario Baseball League held in Peterboro, the following resolution was passed by the delegates present and the Secretary instructed to forward a copy to each newspaper in the circuit: "That the Central Ontario Amateur Baseball League deeply appreciates the support of the Press of the Midland District. We realize that much of our success was due to the voluntary assistance of the newspapers. We know that the Clubs of the League will this year show their tangible appreciation by the generous use of Printers' Ink. A copy of this resolution be forwarded to the newspapers of the district."

BARBERS' HALF HOLIDAY

Belleville barbers have decided to take the Wednesday half holiday again this year during the summer months.

TOOK HIS OWN LIFE.

Word comes from Bloomfield of the death from a revolver shot of an aged and highly respected farmer of that locality, Mr. Wm. Rundle, who is alleged to have taken his own life while mentally unbalanced. The tragedy occurred on Monday and the body was found in the bathroom of the home. About one year ago Mr. Rundle was injured by falling from a load of hay which it is thought affected his brain. Death was instantaneous. A wife and three grown children survive, also two brothers. Mr. Rundle was about sixty years of age.

HORSES KILLED

Michael O'Hearn, a farmer who resides near South Lake, about 6 miles north of Gananoque, had the misfortune to have a valuable team of horses killed opposite the blacksmith shop of James Byers, Factory street, this town, yesterday afternoon. From what can be learned of the accident Mr. O'Hearn drove his team in front of the shop, where he wished to get some work done. When he did so the horses came in contact with the electric current from a charged grounded stay wire of an electric light pole, the wire in some way having become connected with a live wire. Mr. O'Hearn himself received a shock when he took one of the horses by the head, but is said to have been saved from death by having rubbers on his feet, which broke the circuit.

MARY AND DOUGLAS MARRIED AT LAST

Los Angeles, Calif., March 31.—Mary Pickford and Douglas Fairbanks have been married, it became known here.

They obtained a license here last Saturday and the ceremony was performed Sunday by the Rev. J. Whitcomb Brougher, pastor of the Temple Baptist Church.

Only a few weks ago Mary Pickford obtained a diverce from her husband, Owen Moore, on the ground of desertion. Douglas Fairbanks is also divorced.

MILITARY NEWS

Kingston, March 31.—Col. F. W. Hill, C.B., C.M.G., D.S.O., has reported for duty at district headquarters, as A.A.G., succeeding Lieut.-Col. W. E. Pope, C.M.G., D.S.O., who goes to Ottawa.

Inspects M. G. Company.

Kingston, March 31.—Col. Walker, director-general of machine gun corps, Ottawa, was in Kingston last evening and inspected the Kingston company of the 4th Machine Gun Brigade. The company is in command of Lieut.-Col W. H. Craig.

Wotten's Big Sale A Continued Success

The crowds still continue to flock to the Great Sacrifice Sale at Wotten's, Limited; but instead of decreasing, the crowds are increasing each day. Mr. Wotten is quite gratified at the reception he has met with during his first few days in business, but states that he could hardly look for anything else when one considers the drastic discounts of 20%, 25% and 50% that are being offered on the entire "Wims & Co. stock." Mr. Wotten states that this sale will continue until the present stock is exhausted and then his new merchandise will be placed on the shelves. 1t

DEATH NOTICE

WATERS—David Waters, 20 Hillcrest avenue, died Wednesday, March 31st, 1920. Funeral Friday afternoon 2.30. Service 2 p.m. Please omit flowers.

Social And Personal

Samples may be had at Dolan's Drug Store.

Mother Of 18 Says It Was A Godsend

"From Now on Tanlac Will Be My Family Medicine," Says Mrs. Grenier

"Well, this is certainly a coincidence, for the very moment you were coming in I was pouring into a kitchen sink all the costly medicines that had been prescribed for me," said Mrs. Solomon Grenier, when the special Tanlac representative, who had called at her residence, 1443 Logan street, Montreal, the other day to ascertain the facts.

"Tanlac is the only thing I found during my three years of ill health," added Mrs. Grenier, "that has done me any good. I just consider it a god send to suffering humanity. For at least two weeks in every month I had frightful headaches and would get so dizzy it was difficult for me to walk. Many a time after meals I had almost unbearable cramping pains in my stomach and, at times, I was so overcome with heart palpitation that I had to sit down. I had no appetite and sometimes got so dizzy that things turned dark and had the appearance of a veil of smoke before my eyes. In order to get relief from these attacks I had to take to bathe my head with ice water. I was constipated the worst kind, had very painful neuralgia in my neck, and did not feel strong enough to attend to my household duties. I could only sleep part of the night and my condition was so distressing that life hardly seemed worth living.

"But I began taking Tanlac about three weeks ago and am just so glad to see how wonderfully my health is being restored that I want to tell everybody about Tanlac. I have no more headaches or dizzy spells and since I am able to digest my food properly my heart palpitations have disappeared. My appetite is just fine and I am eating meats, even pork—and anything else I want without the least trouble afterward. I am no longer constipated, that weak, tired feeling has also left me, and now that my suffering has been relieved I am building up in weight right along. I have already gained five pounds and feel stronger and better than I have since my troubles started three years ago. I am the mother of eighteen children and from this time on I expect for Tanlac to be my family medicine. It is so good that I want to make this statement and help others who need it like I did to know about it."

Tanlac is sold in Belleville by Ostrom's drug store and by the leading druggists in every town.

Obsequies

MRS. WM. LOTT

Tuesday afternoon the funeral of the late Mrs. William Lott took place and many relatives and friends were in attendance. At the family residence, 86 Mill street, Rev. Rural Dean Swayne, Rector of Christ Church, conducted services and officiated at the interment at Belleville cemetery. A number of floral tributes were placed upon the casket. The bearers were Messrs J. Snell, Geo. Walton, W. E. Finnegan, F. B. Morden, C. Elvins and H. Calnan.

HENRY W. LANGABEER

The funeral of the late Mr. Henry W. Langabeer of Thurlow Township, took place on Tuesday morning. At the home of the family the Rev. Mr. McMullen of the Methodist Church, Cannifton, conducted a service assisted by Rev. Mr. Wallace, of Sidney. Interment took place at Belleville cemetery. Deceased is survived by five sons and a son-in-law.

HENRY FORWARD

Under the auspices of the Masonic fraternity the funeral of the late Mr. H. F. Forward of this city took place Tuesday afternoon and many were in attendance. The body was taken from the family residence, George Street, to St. Thomas Church where Ven. Archdeacon Beamish, Rector, conducted the burial services of the Anglican Church. Although a request was made to omit flowers, a number of floral tributes were the expressions of sympathy by friends. At Belleville cemetery Wor. Bro. H. J. Clarke, P. D.D.G.M., conducted the Masonic funeral services and Archdeacon Beamish the committal services. The bearers were members of the craft namely, A. McGie, W. G. Bell, Jas. Roy, J. A. Borbridge, A. E. Thrasher and H. Johnson.

MRS. EMELINE WORDEN

At the residence of Mr. Frank H. Chesher, 240 Dundas street, son-in-law of deceased the funeral services of the late Mrs. Emeline Worden were on Tuesday evening conducted by Rev. Mr. Wallace, Pastor of the Baptist Church. Many were present to pay tribute of respect to the departed and upon the casket were placed a number of floral designs. At an early hour Wednesday morning the body was taken to Acton for interment.

THE HOME OF GOOD MUSIC - - FRONT ST.

THE GOOD JUDGE

in studying the Economic Problem, finds that, from every dollar spent by the Individual in their HOME TOWN a certain percentage of it comes back to THEM. Especially is this true when buying goods manufactured in ones HOME TOWN. So that in patronizing HOME INDUSTRY the FARMER has improved the market for HIS goods, the WORKING MAN increases the demand for HIS products or labor, and the BUSINESS MAN is benefitted from ALL. Therefore whether you buy our Flour, Feed or Cereals, or whether you buy the other mills, choose for yourself, but PATRONIZE HOME INDUSTRY. We strongly recommend Princes of Wales and Cartier flours for bread and Economy for pastry.

Judge-Jones Milling Co., Ltd

The Russian Soviet has notified Poland of its willingness to open peace negotiations on April 10.

DIED

DUMINIE—Died suddenly yesterday, Angus Duminie, aged 60 years.

Funeral will take place from his late residence, 98 Pinnacle St., tomorrow, April 1st, at 4.15 to St. Michael's Church. Interment St. James Cemetery.

Eyes Front!

Wall Street was governed by caution, professional traders being most active.

Carpentier will box an exhibition bout at Vancouver in June. His opponent has not been selected.

LINDSAY'S

CANADA'S MUSIC WEEK
April 5th to 12th

Music---The Sunshine of Life

What a dismal place this old world would be if music should be eliminated from our churches, our schools, our theatres and our homes.

On the other hand, how much brighter this old world could be made if there was STILL MORE music in our homes.

We ask you especially during "Canada's Music Week" to give More Thought to Music.

And if you are thinking of buying a Piano, Player Piano or Phonograph, remember that Lindsay's Display includes:

Heintzman & Co.
Brambach
Weber
Wormworth
and Lindsay Pianos and Player Pianos
Columbia Grafonolas
Sonoras and
Columbia Records.

THE GOOD JUDGE

again reminds the farmers of the possibility of sowing increased quantities of spring crops. In addition to the report that Europe will want a large quantity of products, comes the report of a possible damage to the Western crops from the grasshopper pest. If we can successfully raise spring wheat and other grains, we will become more independent of the West. There should not be the difference that now exists between Ontario and Manitoba wheats and if the Wheat Board discontinues control this margin will be reduced.

The Watch You Wear On Easter

How will it show up with your suit and hat? Will it be a relic of less successful days — a timepiece of a style long out of date?

Or will it be a modern movement of dependable accuracy, in a handsome case of today's design—convenient in size, shape and weight, and worthy of you as a man of affairs?

Come into Blackburn's and see the kind of a watch you ought to have.

T. Blackburn
Jeweler and Optician

STANDS FOR EVERYTHING PURE AND RIGHT IN MILLING

The Good Judge Details The Process Of Milling

The second process is: It being necessary to have the wheat at a uniform temperature and a degree of hardness for grinding at all seasons of the year; this is done by our most modern method. After this and to assure uniformity in the flour, the wheat passes through several delicate, automatic, self-balancing scales or governors which keep the exact quantity of wheat always feeding to the huge steel rolls. (To be continued).

Pauline Jewel De Kol Brought The Top Price

LARGE ATTENDANCE OF BUYERS AT TENTH ANNUAL SALE OF BELLEVILLE DISTRICT HOLSTEIN-FRIESIAN BREEDERS' CLUB—TOTAL RECEIPTS OVER $18,000.

An event which attracts many to this city is the annual sale of Holstein cattle consigned by members of the Belleville district Holstein-Breeder's Breeders' Association. Yesterday afternoon the tenth sale took place and it was one of the best ever held by the club. There was a large attendance of buyers and spectators from various parts of the Province and even outside of the Province. The sale was conducted under a large marquee erected in the yard adjoining the Albion hotel stables. Mr. George Jackson of Port Perry was the chief auctioneer and he was assisted by Mr. G. A. Brethen of Norwood. Previous to the commencement of the sale Mr. R. W. Wade, who is connected with the live stock department of Guelph Agricultural College gave a brief address in which he stated that sales such as these were education in their character. His remarks were chiefly on the line of the necessity there was of eliminating scrub sires from the country. Mr. J. A. Caskey, of Madoc, was sales manager, and he is certainly at home in the description of an Holstein animal. There were sold 56 females, 14 males and 5 calves. The highest price realized for an animal was $725 for Pauline Jewel De Kol, consigned by Mr. Fred H. Hubbs, of Bloomfield. The purchaser was Mr. D. A. McGregor of Moose Creek, Stormont County. Lady Sylvia of Bayside, consigned by Mr. F. R. Mallory, of Frankford, brought $700, the purchaser being Mr. W. C. Stevens of Philllpsville.

The females sold brought $15,090; the males $3,025 and calves $430., making the total of $18,545, or an average of $247.20 for every animal brought into the ring.

The consignors, price paid and address of purchasers are as follows:

Princess Wayne Mercedes, female, consigned by D. B. Tracy, Cobourg. Sale price $200. Buyer, Peter Van Allen, Foxboro.

Pietertje Pontiac Alcartra, female, consigned by D. B. Tracy, Cobourg. Sale price $250. Buyer, Peter Meiklejohn, Harold, R. R. No ?

Sadie Segis Posch, female, consigned by D. B. Tracy, Cobourg. Sale price, $250. Buyer, Gordon J. McGregor, Peterboro

Lady Akkrum Hengerveld, female, consigned by D. B. Tracy, Cobourg. Sale price, $350. Buyer, B. R. Leavens, Bloomfield.

Sadie Posch Segis, female, consigned by D. B. Tracy, Cobourg. Sale price, $190. Buyer, W. J. Fennell, Napanee.

Bull, 1 year old, consigned by D. B. Tracy, Cobourg. Sale price $190. Buyer W. Tunnecliff, Glen Miller.

Segis Vemon Alcartra, male, consigned by E. B. Purtelle (Old Orchard Farm.) Bloomfield. Sale price, $400. Buyer, J. V. Locklin, Frankford.

Inka Walker Alcartra, female, consigned by E. B. Purtelle (Old Orchard Farm. Bloomfield. Sale price, $440. Buyer, W. F. Osborne, Rossmore.

Bull Calf, Prince Veeman Alcartra. Sale price $120. Buyer, J. P. Ray, Belleville R. R. No. 5.

Lena Hengerveld Burke, female, consigned by J. M. Branscombe, (Rose Lawn Stock Farm) Bloomfield. Sale price, $265. Buyer, Hubert McDonald, Bloomfield.

Plus May Echo, female, consigned by J. M. Branscombe, (Rose Lawn Stock Farm) Bloomfield. Sale price, $400. Buyer J. H. Davidson, Wellington.

Bell Segis Hengerveld, female, consigned by J. M. Branscombe, (Rose Lawn Stock Farm) Bloomfield. Sale Price $235. Buyer A. W. Churchill, Phillipsville.

Conquering The Wildernnss By Airship Express

THE WILDS OF UNGAVA WILL BE PENETRATED BY DAILY LINE OF SEAPLANES AND DIRIGIBLE AIRSHIP THIS SUMMER, ACCORDING TO PLANS OF CAPT. JANNEY, NOTED WAR AVIATOR—JUMPING-OFF PLACE AT SEVEN ISLANDS

The birds and the beasts of Ungava will see strange sights this summer and hear strange sounds, for the quiet, peaceful calm of the silent places, forest vastness and mountain solitude, is to be broken by the flight of strange and giant winged creatures and the voice of many men.

Ungava is the last great unexplored part of the North American continent, and is under the jurisdiction of Quebec; in fact, it is called New Quebec, and comprises an area of 350,000 miles, stretching to Labrador on one side, Hudson Bay on another and Hudson Straits on another. It is as large as a province and what it contains many men guess, but no man knows, for it is yet in the wilderness stage and explorations thus far have only been of the most elementary nature.

Capt. E. L. Janney, our aerial friend of last summer, is in town, so naturally our thoughts return to Ungava as this cavalryman of the skies and gentleman adventurer is the president of a company which hopes to make Ungava blossom like the rose, after exploiting its sporting, mineral and waterpower possibilities. Belleville is particularly interested in Ungava as many prominent citizens are associated with Capt. Janney in the development company organized by him.

Capt. Janney says that the Goodyear Rubber Co. are building a dirigible airship for the Ungava Company at Akron, Ohio, which when completed will be 215 feet long, 60 feet high and 40 feet wide, with a capacity of 10,000 pounds of cargo or forty passengers. The dirigible together with the five sea-planes belonging to the company will comprise the initial transportation equipment of the Ungava Company, the Northern Canada Traders, Limited, and the base will be Seven Islands, 310 miles east of Quebec, on the Gulf of St. Lawrence, starting and landing in the water.

Capt. Janney is very sanguine about the prospects of the company and the possibilities of great wealth in Ungava. Included in his plans for this summer are the following interesting enterprises:

Bringing out every day six thousand pounds of fish to supply leading hotels of Canada and the United States. The fish will be caught by the natives and contracts have been made for their disposal.

Arrangements have been made, Capt. Janney states, to take in one thousand sportsmen to the heart of Ungava this summer, this trip to include a visit to the magnificent McLean Falls, 302 feet high, or twice the height of Niagara.

These are only phases of the activities mapped out by Capt. Janney for the company, but serve to illustrate what is going to happen in Ungava in the near future.

Capt. Janney expects to return to Belleville in his plane in a week or two and a number of his friends are working up their courage to the ascension point, and promise to make their first flights this time.

Prohibs On Trail Of Native Wine

TORONTO, April 1.—Prohibtiion forces in the Province are becoming increasingly active. At an important meeting of the Ontario branch of the Dominion Alliance yesterday, at which the Managing Committee together with the Toronto members of the General Executive Committee were in attendance, the latest moves in the Legislature looking to a hastening of the drought in Ontario were discussed, and a resolution was passed, urging the Government to repeal Section 44 of the Ontario Temperance Act, which permits the sale of native wines for beverage purposes.

THEN GIVE ACTIVE SUPPORT

The resolution adds that if Parliament adopts effective legislation along this line, prior to the passing of a resolution requesting the taking of a vote of the electors of Ontario, the Alliance will be free to actively support such a referendum.

Coincident with the meeting came the announcement yesterday from the Ontario Referendum Committee that a general meeting had been called for April 6, to discuss plans for the appeal to the people which everybody hopes the Drury Government will sanction.

GOVERNMENT IS OPPOSED

It was revealed last night in a statement issued to the press by the Alliance that a deputation from that body interviewed Provincial Cabinet Ministers yesterday and found that the Government was not disposed to prevent the sale of native wines for beverage purposes. The statement alleged that 'influential representations' made to the Government were responsible for this changed attitude.

PRETTIEST NURSE TOO PRETTY FOR JOB

Washington, April 1.—Princess Nadija Vasilievna Toubetzkoy, styled the most beautiful nurse in the world objected to the admiration of movie men, reporters and a curious public while performing her duties at Garfield Memorial Hospital. Consequently she left, after informing the Superintendent that the ordeal was "too nerve-racking" and has not returned.

SCHOONER ABANDONED CREW RESCUED

New York, April 1—The crew of the British schooner Gladys M. Street, which was abandoned and set on fire at sea, March 20, are abroard the steamer Major Wheeler, from Corunna, Spain, for Colon. The schooner was bound from St. John's, Nfld., for Gibraltar.

Meighen At Cobalt In A Warm Meeting

Minister of Interior and Algoma M.P. Centre of Labon Attack

COBALT, Ont., April 1.—The Temiskaming by-election is beginning to warm up and last night the eve of nomination saw the hottest and wildest meeting ever staged in the north held, in which G. B. Nicholson, Algoma, M. P., and Hon. Arthur Meighen, were the centre of attack, and James McGuire, erstwhile miners' leaders, and other labor men, were the attackers. Charges, counter charges and recriminations flew thick and fast. A wild tumult raged for a couple of hours and finally the event simmered down to a debate between McGuire and Meighen only to be followed by further attacks. The tumult finally broke up at midnight.

Major Pullen and a woman speaker were given a good hearing, but Mr. Nicholson's appearance started it. He went after labor radicals without gloves, and the labor men who occupied a section of the hall came back. Mr. Nicholson started by declaring that two Labor members of the Drury Cabinet had already repudiated the principles on which they were elected. He touched on the Winnipeg strike, which he declared was a carefully planned revolution and branded the leaders as grafters on the body politic of organized labor. The One Big Union, which is gaining strength in the mining camps, was also attacked and this started a real tumult and a fight among some members of the audience

Mr. Nicholson, amid the tumult, declared that the Labor and Farmer movement could only take its place when big enough to represent all classes.

The Minister of the Interior then challenged any person who could impugn the Union Government's record to come forward. His invitation was promptly accepted by McGuire McGuire declared, in speaking of the Winnipeg strike, that the Government at Ottawa was the biggest producer of Bolshevists in the Dominion. Mr. Meighen said there was an honest misapprehension about the trial of the strike leaders at Winnipeg who had been convicted by a jury under the old common law of England.

Things having warmed up so much, Mr. Meighen stated that he will stay and address another meeting at Haileybury.

TO BE HANGED IN WELLAND

Welland, April 1.—Frederick Fountain, 30 years old, was today sentenced to be hanged at Welland county jail, June 16, for the murder of his wife and two children last fall at Niagara Falls, Ontario. Judge Lemon imposed sentence.

Japs Clash With Bolshevik Forces

Special Despatch to The Intelligencer, Canadian Press, Limited.

HONOLULU, April 1.—Seven hundred Japanese troops and civilians were killed in a two-day battle with Russian Bolshevik forces at Nikolaevsk, Siberia, according to a Tokio cable despatch received by the Japanese newspaper, Nippu Jiji, here.

Socialists Found Guilty of Disloyalty

Special Despatch to The Intelligencer, Canadian Press, Limited.

ALBANY, N.Y., April 1.—Five Socialists, Louis Waldman, August Claessens, Charles Solomon, Samuel Adewill, and Samuel Orr, the entire delegation of their party in the New York Assembly, were expelled from membership in the lower house of the Legislature early today. The majorities in favor of unseating the men, who were suspended on the opening day of the legislative session, on charges of disloyalty, were large.

Twenty Million Marks Vanish

Special Despatch to The Intelligencer Canadian Press Limited

BERLIN, April 1.—Twenty million marks being taken from this city to Essen have mysteriously disappeared according to a report current in this city today.

Last Minute Telegraph Briets

Danish Strike Postponed

London, April 1.—Postponement of the Danish strike until next Tuesday shows, according to despatch to London Times from Copenhagen, that Socialists are willing to give influential persons, who they know are working for compromise time to effect a settlement and that a strike will not take place if the situation changes in the meantime.

Greenwood for Ireland

London, April 1—Ehe Globe says that the resignation of Ian MacPherson, Chief Secretary for Ireland, has been accepted. Mr. McPherson will probably be succeeded by Sir Hamar Greenwood, Under Secretary for Home Affairs, the Globe adds. Other papers announce definitely that Sir Hamar has been offered the Secretaryship.

COMMITTED SUICIDE

Lindsay, April 1. — Ferdinand Schrader, 84 years old, resident of Lutterworth Township, near Minden, committed suicide this morning by hanging himself in his barn. He was of German descent and had resided in the same township nearly fifty years.

RESIGNATION ACCEPTED

London, April 1—Ian MacPherson, Chief Secretary for Ireland, has resigned his office and his resignation has been accepted, it was officially announced this afternoon.

MANDATE FOR ARMENIA

Paris, April 1.—A mandate for Armenia has been offered the League of Nations by the Supreme Allied Council. All Armenian territories would be included with the exception of Cilicia which would be provided by the arrangement under contemplation.

No Cash Gratuity

Ottawa, April 1—When the House resumes on Tuesday next it is expected to be only a matter of a few days until there is an announcement from the government in regard to sittings of the special committee on Soldiers Civil Re-establishment and Pensions. It is also intimated that before these committees begin work the government is likely to announce that it has not changed its attitude towards cash gratuities but it as firmly opposed to them as ever.

CARSON WAS TOLD OF MURDER PLOT

London, April 1—During final debate on the Home Rule bill, Sir Edward Carson, Irish Unionist leader, said he had been warned by Scotland Yard that six clan-na-Gael members had landed from America with the avowed intention of assassinating him.

Allies Accept Holland's Note Concerning Late Kaiser

EFFORTS TO SECURE THE EXTRADITION OF HOHENZOLLERN HAVE BEEN ABANDONED, AND HE WILL RESIDE UNDISTURBED AT DOORN.

LONDON, March 31—The Allied powers have accepted Holland's last note regarding the former German Emperor, according to an Amsterdam despatch to the Daily Mail.

The Dutch Government, on March 5, for the second time, refused to deliver the former German Emperor to the Allies for trial. This determination was set forth in a note addressed to the British Premier, which, however, declared that the Dutch Government would take all necessary measures to minmize the liberty of Wilhelm and prevent him from endangering the world's peace. The communication stated that precautions to this end would be taken on the spot. It was assumed that this meant that a close guard over the former German Emperor and a strict censorship would be instituted while Wilhelm occupied his estate at Doorn.

Indians Shy At The Offer Of Franchise

OTTAWA, April 1.—"Beware of the Greeks when they come bearing gifts." Such is the attitude of the Indians of Canada in objecting to compulsory enfranchisement and education. In two memorials placed before the special committee which this morning began to consider the amendments to the Indian Act, giving the franchise to the Indians, the Six Nations of Brantford, the Mohawks of Tyendinaga, Stregis and Caughnawaga, near Montreal, the Iroquois Indians of Oka, and the allied Indian tribes of British Columbia presented argumens to show that these fair gifts would destroy their tribes, throw their lands in the hands of outsiders, and scatter them through Canada without any of the economic rights secured to them by treaties in earlier days.

First of all, through their lawyer, Mr. W. D. Lighthall, K.C., of Montreal, they claimed that such an act was ultra vires so far as the Parliament of Canada is concerned and that at Confederation no such sweeping powers were granted the Dominion Government as those assumed by the Federal authorities. Because of this no evidence was taken this morning, but arguments on the constitutional point will be heard next Wednesday. Mr. A. E. O'Meara appeared for the British Columbia Indians, and a number of Indians were present as well.

Both the Eastern and the Western Indians contended that it was illogical to say that the Indians were so intelligent and advanced that they should have the franchise and then refuse to consult them about it. This was treating them as "serfs" and that such enfranchisement took the Indian from the community of his relatives as a member of the band or troop by a simple report of an "officer or person" who might have a dislike to him.

"It is feared," says the Eastern memorial, "that the effect will be that if an agent finds an intelligent Indian asserting any right the agent will be able to get rid of him by encompassing his compulsory enfranchisement."

By the same arbitary process the Indians fear the lands or moneys of a band or tribe can be broken into, iand that custodians of lands or moneys of the minor children may be arbitrarily selected. They state that under the proposed act a whole community can be compulsorily enfranchised and its lands and property sold to outsiders without any of the owners being in any way consulted. The Indians of the East respectfully submit that they have made considerable advancement in education and in improving their condition until many of them are equal in this respect to white people, and they petition the committee and the members of Parliament to grant them the right of consultation and consent in regard to their property and affairs They particularly ask that their personal liberty to choose enfranchisement or not be left to their own will and discretion.

Deadly Typhus Carries Off Many

Jews Suffer Terribly From Ravages of Disease Owing to Lack of Food

Typhus, which has been the cause of so many deaths in eastern Europe during the past year, is on the increase in certain districts, according to reports received by the Canadian Jewish War Relief from relief workers abroad.

It is estimated that there are fully 100,000 cases of this dread disease in Poland alone. Bernard Zuckerman of New York, a commissioner recently sent to eastern Europe by the Joint Distribution Committee of American Funds for Jewish Sufferers from the War, says that the epidemic is at its worst now in the districts recently added to Roumania, and that there are even more deaths in the farming districts than in the cities.

"The death rate is increasing greatly in Kishineff, and throughout Bessarabia," he writes. "In the cities, the Jews are suffering more from it than the non-Jews, because their condition is very much worse. But in the country, the farmers are giving a greater percentage of victims to the epidemic than even the Jews. This is due to the fact that in the small houses of the farmers, many people are now crowded together and the typhus epidemic which is carried mostly by lice, has spread like wildfire among the farming population."

Charges Against Socialists Proved

Seven of Thirteen Favor Expulsion of Entire Delegation

ALBANY, March 31.—The charges preferred against the five Socialist members of the New York State Assembly have been sustained in the opinion of a majority of the thirteen members of the judiciary committee which investigated the qualifications of the suspended members.

In a report submted to the Assembly the majority state that the Socialists are disqualified from holding their positions in the Legislature and that the seats to which had they had been elected, had been declared vacant. Minority reports were submitted, declaring against the recommendation of the majority.

Seven of the thirteen members of the committee favor the expulsion of the entire Socialist delegation, five committee men would re-seat them and another recommends the unseating of August Classeny, floor leader of the "minor minority," Charles Solomon and Louis Waldman and re-instating Samuel Orr and Samuel A. DeWitt.

Rock Is Blasted Away To Let Prince Through

Renown Is Towed over Dangerous Channel in the Panama Canal

PANAMA, April 1.—Prominent members of the British colony will today present an address to the Prince aboard the Renown and the rest of the day will be spent in sightseeing. In the evening, the Panama Government will give a State banquet, which will be followed by a reception and formal ball. The Renown will sail for San Diego where the United States Department will send a representative to again welcome the Prince of Wales to the country, the Renown will proceed to Honolulu, where she will arrive April 16, and thence to the Fiji Islands, New Zealand and Australia.

Crowds greeted the Prince as his ship proceeded through the canal while airplanes whirred overhead and served as escort. The Prince appears to be in better health than when he visited Canada and the United States.

Blasting operations in the Culebra cut section of the canal were necessary yesterday before the Renown neared the point where landslides have recently occurred, boats went ahead and made soundings, discovering a rock fifty feet square directly in the course to be taken by the vessel. After a wait of two hours, the rock was removed at the risk of dislodging more landslides and then the Renown was towed over the dangerous and narrow channel.

MUSIC AND DRAMA

(What the Press Agents Say)

"PLEASE GET MARRIED"

Oliver Morosco's very latest New York comedy sensation is an important booking by Manager Forhan for Griffin's Theatre for next Wednesday night. "Please Get Married," has the unique distinction of being an hilarious bed-room farce but thoroughly clean and wholesome a la 'Twin Beds' 'Baby Mine' and 'Fair and Warmer.' The play was originally produced by Mr. Morosco at the Fulton Theatre, New York, where it enjoyed a run of 39 weeks with a notable cast of players headed by Ernest Truex and Edith Taliafiarro. The story of the piece revolves around a young bridegroom and a just wedded bride, who have frustrated the plans of the bridegroom's father who strenuously opposed the match, by being married by a burglar masquerading as a clergyman and whom they believe to be the genuine article. They become involved in all sorts of difficulties which furnishes laughs in abundance to the audience during the three acts in which the story is told. Manager Forhan is to be congratulated on being able to secure this very latest booking as it is now being played in many cities by Mr. Morosco's 5-road company enroute at two dollar prices.

"THE SILENT WOMAN"

"The Silent Woman," a story of the Great Northwest, is the latest of the forceful Metro plays in which Edith Storey, the talented dramatic star will be seen. This picture is being shown at the Palace to-night to Saturday, matinee daily, with a cast of supporting players of corresponding prominence. The screen play was adapted from the story written by Lois Zellner and was directed by the noted French director, Herbert Blache. It shows the happy, care-free Nan McDonald, "the idol of the lumber Jacks" in her quiet life as a clerk in Hudson Bay trading post. Here her existence is one of simple pleasures and helpfulness to others. Then tragedy comes to her. A family from the East arrives in town and by her goodness to their little child, she is drawn into the home life of the strangers. Here she learns many things—the telling of which would wreck a woman's honor and a man's life. Against her own happiness she keeps what she has learned to herself. How death intervenes—and how the ungoverned passions of an unscrupulous man eventually bring about her happiness is graphically shown in this enthralling play in which the popular star is seen at her best. The well known leading man, Frank Mills, enacts the stellar male role in the photoplay. A selected program of comedies and varied attractions are also being exhibited in addition to the feature offering.

MARY PICKFORD TO-NIGHT

Mary Pickford the world's foremost screen star is appearing at Griffin's tonight to Saturday, with a special matinee Good Friday, and the usual matinee Saturday in "The Hoodlum" a wonderfully human and appealing story which comes like a ray of sunshine into the troubles of everyday life and which some of her admirers who have already viewed the photoplay claim to be the equal of Miss Pickford's "Daddy Long Legs," "The Simple Life" a highly amusing 2-reel Larry Semon comedy and other plays of interest are also being shown on the same program with the above 7-part offering.

QUIET IN TEMISKAMING.

Haileybury, Ont., April 1.—Three candidates will contest the Temiskaming by-election when the electors go to the polls on Wednesday next. David Bertrand, the Secessionist, did not stand, and the contest will be between A. G. Slaght, barrister, Liberal, Toronto; Ernest L. Pullen, mining engineer, of Porquis Junction, and Angus McDonald, carpenter, Cobalt.

Mr. Bertrand attended the nominations, but disappeared before the closing hour of two and Sheriff Caldbick, the returning officer, waited in vain for his papers.

The nomination was decidedly quiet, not more than a dozen persons attending.

OVERWORKED RUN-DOWN MEN

Vinol Will Enrich Your Blood and Restore Your Strength, Vitality, Energy and Vim

Recommended by Physicians, and Guaranteed by Druggists

Men who are over-worked, run down, nervous, lack energy and working strength, we know that VINOL is just what you need, as it increases the red corpuscles, enriches the blood, quickens the circulation and imparts strength and vigor to every organ and muscle in the body.

The reason VINOL is so successful is because it is a combination of the oldest and most successful tonics known. Iron, Beef and Cod Liver Peptones, Glycerophosphates, etc., and what VINOL did for Mr. Joseph J. McDougall, of Cape Breton, N. S., it will do for every weak, run-down, nervous, over-worked man.

Mr. McDougall says:

"I am a farmer and was overworked, run-down and weak. My druggist recommended VINOL. It built me up and made me strong. I also gained in flesh. Other members of my family have also used it with splendid results."

For all run-down, nervous, anaemic conditions, weak women, overworked men, feeble old people and delicate children there is no remedy like VINOL.

Your druggist will return your money if it fails to benefit you.
